Order maximums are calculated by product category. For projects greater than the order maximums, use the standard electronic catalog and work with your Steelcase Solutions Fulfillment Team representative on a delivery schedule. Splitting large orders into smaller orders to get the Rapid5 lead time is not allowed. In the event an order is received that exceeds the maximum list price or maximum style number quantity, the entire order will be moved to standard lead time. For worktools products, if demand exceeds capacity, then orders are subject to availability.

Discounts and Pricing

- Rapid5 discount is the same as standard delivery discounts. See your customer's competitive discount authorization (CDA) for pricing details.
