

Think

Sustainable Support

Think's award-winning design re-imagined what an office chair could do, and how sustainable it could be. Its simple, weight-activated controls allow anyone, anywhere to get comfortable and get to work - quickly.

Steelcase®

Get to know your Think

Think, our first chair designed with a weight-activated mechanism, is designed with fewer parts for ease of recycling and even quicker disassembly, and it incorporates more recycled content - making up to roughly a third of the chair's weight. This also allows for easy reassembly. Like all our high performance seating, Think was designed to help reduce our carbon footprint, designed for circularity, and uses materials that were chosen responsibly.
