Steelcase Health Volume 1 Seating Specification Guide

Availability

Electronic price list updated with release 202.A (U.S.) dated June 16, 2025.

This specification guide reflects PL202 pricing. All contract list prices will be PL202 plus 4.72% added to the list prices shown (round to two decimal places).

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

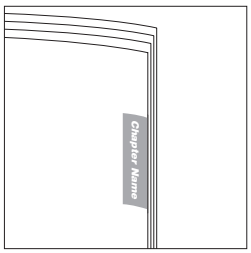
For NASPO ValuePoint Contract Pricing

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the 4.72% factor.
- Round each to the nearest penny (round to two decimal places).
- Add base and options for total list price.

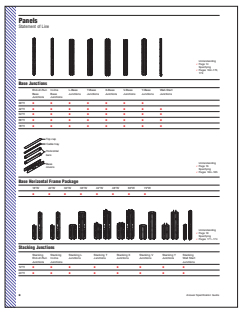
Ten Tips:
How to Get the Most Out of This Book

Tip 1



Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2



Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

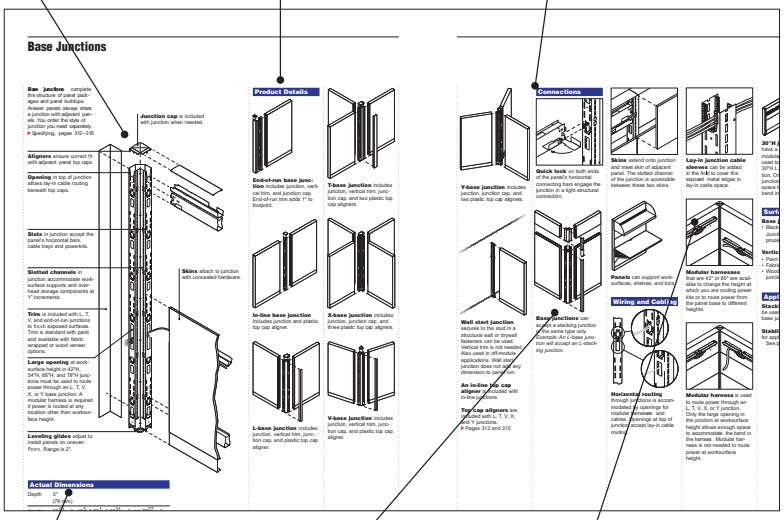
Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.



Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes (under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify (under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information (under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Specification Information

Width	Style Number	U.S. Base Price	Option (Add'l to Base Price)
18"	TS7185HF	$ 75	+$185
24"	TS7245HF	$ 79	+$185
30"	TS7305HF	$ 85	+$185
36"	TS7365HF	$ 90	+$185
42"	TS7425HF	$102	+$185
48"	TS7485HF	$108	+$185
60"	TS7605HF	$137	+$245
72"	TS7725HF	$189	+$245

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
See page 1 for details.

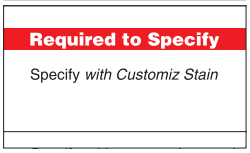
396 Answer Solutions Specification Guide

397 Answer Solutions Specification Guide

Options (under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products provide specification information for products that are directly related.

Tip 6



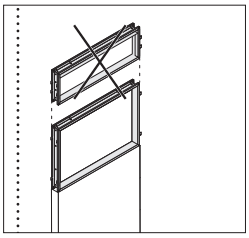
Italic typeface on specifying pages usually identifies wording that you should use in your order

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8



Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Steelcase Health products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the AdStock web site at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual
This publication provides surface material information for Steelcase products:

- An explanation of the surface materials
- "Available on" matrices
- Vertical surface fabric selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Steelcase Health Specification Guides
These specification guides contains multiple Steelcase, Steelcase Health, and Coalesse products which are most commonly used in healthcare environments. This collection of products has been pulled together for your convenience.

Other Specification Guides
Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Additional seating products can be found in the following specification guides:

Seating Specification Guide

Coalesse Seating Specification Guide

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

Product Training
Basic training for many Steelcase products is part of the Building Product Muscle (BPM) curriculum on the Steelcase University web site at village.Steelcase.com.

More Information
For more information about these and other software tools to help you plan effective healthcare environments, email fsl@steelcase.com

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies. To learn more at a corporate level, visit: *https://www.steelcase.com/discover/steelcase/esg-overview/environmental/* Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at *Origin.build*.

Aspekt Straight Arm

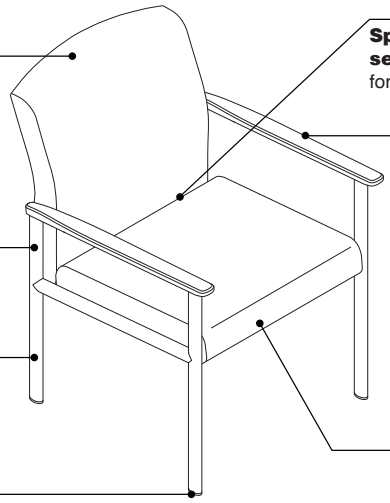
Aspekt seating with straight arm caps provides clean modern styling to any setting. Seating can stand alone or be grouped into a variety of ganged configurations.



Back cushions are available with a convex shape that curves upward or a concave shape that curves downward.

Legs are available as straight or wallsaver. High back chairs available with straight legs only.

Frame and legs are constructed with steel for structural integrity. They have a powdercoat paint finish that is corrosion resistant.

Glides are standard on legs.

Space between the seat and back allows for easy cleaning.

Arm caps overhang the legs to provide a comfortable hand grip for ease of entry and exit from the chair.

Arm caps are plastic, solid maple wood, or solid surface.

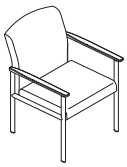
Seat cushion and back are fully upholstered.

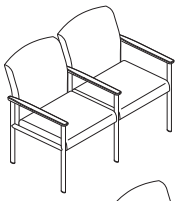
Actual Dimensions

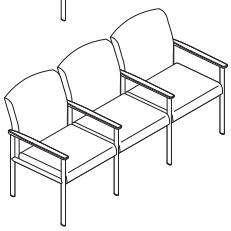
Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Single-Seat Chair	27"	22¾"	33"	19¾"	20"	18⅜"	25¾"
Two-Seat Chairs							
No center arm or center legs	27"	43"	33"	19¾"	40"	18⅜"	25¾"
With center arm	27"	44"	33"	19¾"	20"	18⅜"	25¾"
With center arm and center legs	27"	44"	33"	19¾"	20"	18⅜"	25¾"
Three-Seat Chairs							
No center arms or center legs	27"	63¼"	33"	19¾"	60"	18⅜"	25¾"
With center arms	27"	65½"	33"	19¾"	20"	18⅜"	25¾"
With center arms and center legs	27"	65½"	33"	19¾"	20"	18⅜"	25¾"
Bariatric Chairs							
Single-seat chair	27"	32¾"	33"	19¾"	30"	18⅜"	25¾"
Two-seat combination unit	27"	54"	33"	19¾"	20"/30"	18⅜"	25¾"
Three-seat combination unit	27"	75¼"	33"	19¾"	20"/20"/30"	18⅜"	25¾"
High-Back Chair	29"	22¾"	45"	19¾"	20"	18⅜"	25¾"
Easy Access Chair	27"	22¾"	39"	19¾"	20"	24"	31 3/16"
Bench	22"	32"	18"	19¾"	32"	18⅜"	N.A.
Footstool	12"	18½"	14"	N.A.	N.A.	N.A.	N.A.

Tip: All overall height dimensions listed are for the convex back style. Concave back style is 1" less than convex dimension shown.
Tip: All overall depth dimensions listed are for straight leg styles. For wallsaver styles, add 1" to dimensions shown.
Tip: Combination units include one bariatric single-seat chair and either one or two standard width single-seat chairs.

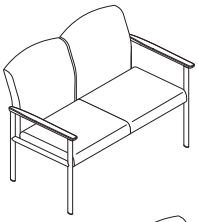
Product Details

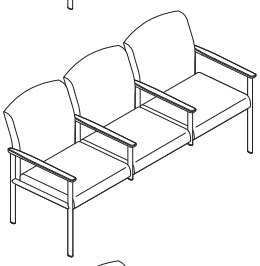


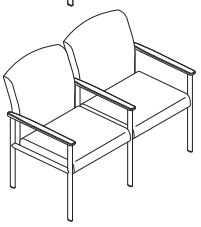




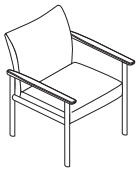
Arm chairs are available in one-, two-, and three-seat versions.



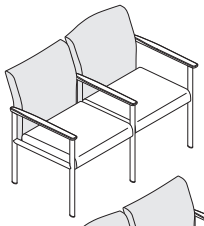


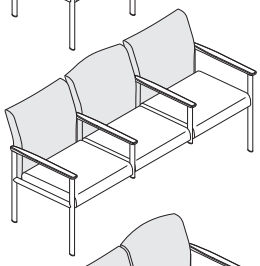


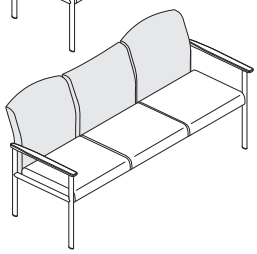
Two- and three-seat units are offered in three configurations – no center arms or center legs, with center arms, and with center arms and center legs.



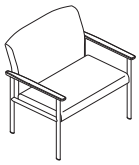
Concave back style is available on one-, two-, and three-seat versions.



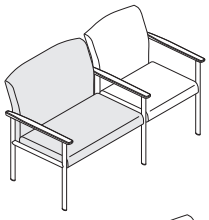


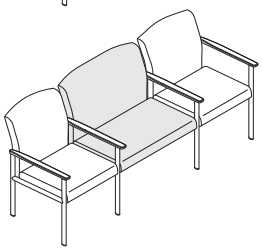


Combinations of convex and concave back cushions may be specified on the same multi-seat unit to create a wave-like contour.

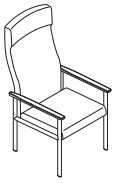


Bariatric chair is available with a 30"W seat and has been tested to a dynamic load of 300 pounds and a static load of 750 pounds. Back cushion has a convex shape.



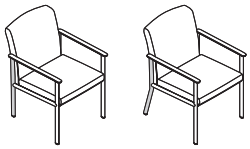


Bariatric combination units are available in two- and three-seat configurations and consist of a bariatric chair connected to one or two standard width chairs. The bariatric seat location can be specified in the left facing, right facing, or center (three-seat units) position. Combination units include center arms and legs.



High-back chair has a tapered, 29"H convex back and straight legs.

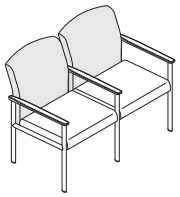
Easy access chair has a 24" seat height and includes a foot rest. Back cushion has a convex shape.



Straight or wallsaver legs are available on single, two-seat, three-seat, bariatric, combo-unit, and easy access chairs.
Tip: Wallsaver legs are not available on three-seat chairs with center arms and no center legs.

Bench has a wave-shape and is 18⅜"H. Bench is a shared component between the straight arm and wave arm Aspekt family of seating.

Footstool has an angled, cushion surface. Footstool is a shared component between the straight arm and wave arm Aspekt family of seating.



Different fabrics can be specified on the seat and back. On two- and three-seat units, the back fabric will be consistent throughout the whole unit as shown above. Contrasting fabric deviating from this standard needs to be processed through Specials.

Arm caps are available in plastic, solid maple wood, or solid surface.

Back and seat covers have zippers and can be removed for cleaning.

Moisture barrier is available as an option on seat only.

Ganging brackets are available to link chairs in the field.

When chairs are ganged, the spacing between arms is 1½" and the spacing between legs is 2⅛".

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Seat and back
- Fabric
- Fabric with moisture barrier (option on seat only)

Arm
- Plastic
- Maple wood
- Solid surface

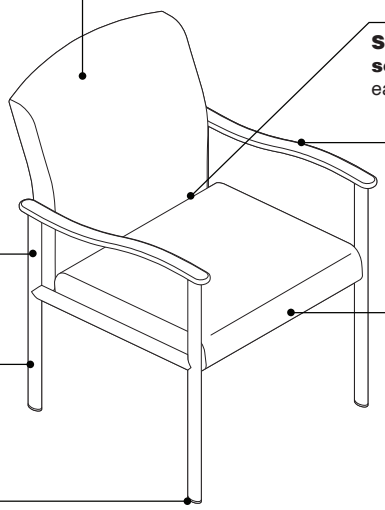
Aspekt Wave Arm

Aspekt seating is sleek and welcoming with wave-shaped arms and two styles of back contours – concave and convex. Seating can stand alone or be grouped into a variety of ganged configurations.

Back cushions are available with a convex shape that curves upward or a concave shape that curves downward.



Space between the seat and back allows for easy cleaning.

Arm caps overhang the legs to provide a comfortable hand grip for ease of entry and exit from the chair. Arm caps are solid maple wood or plastisol.

Legs are available as straight or wallsaver. High back chairs available with straight legs only.

Seat cushion and back are fully upholstered.

Frame and legs are constructed with steel for structural integrity. They have a powdercoat paint finish that is corrosion resistant.

Glides are standard on legs.

Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Single-Seat Chair	27"	22¾"	33"	19¾"	20"	18⅜"	26"
Two-Seat Chairs							
No center arm or center legs	27"	43"	33"	19¾"	40"	18⅜"	26"
With center arm	27"	44"	33"	19¾"	20"	18⅜"	26"
With center arm and center legs	27"	44"	33"	19¾"	20"	18⅜"	26"
Three-Seat Chairs							
No center arms or center legs	27"	63¼"	33"	19¾"	60"	18⅜"	26"

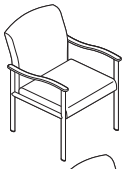
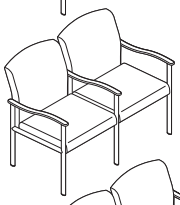
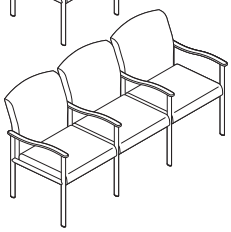
High-Back Chair	29"	22¾"	45"	19¾"	20"	18⅜"	26"
Easy Access Chair	27"	22¾"	39"	19¾"	20"	24"	32"
Bench	22"	32"	18"	19¾"	32"	18⅜"	N.A.
Footstool	12"	18½"	14"	N.A.	N.A.	N.A.	N.A.

Tip: All overall height dimensions listed are for the convex back style. Concave back style is 1" less than convex dimension shown.
Tip: All overall depth dimensions listed are for straight leg styles. For wallsaver styles, add 1" to dimensions shown.
Tip: Combination units include one bariatric single-seat chair and either one or two standard width single-seat chairs.

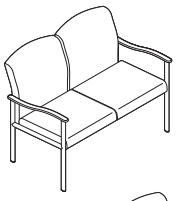
Product Details

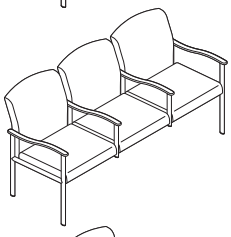


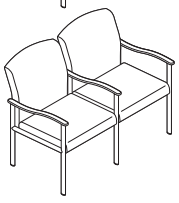




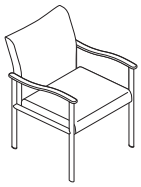
Arm chairs are available in one-, two-, and three-seat versions.



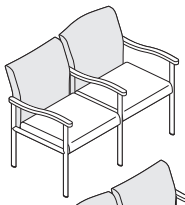


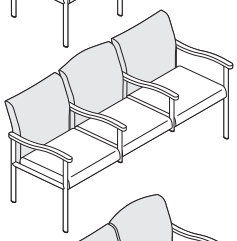


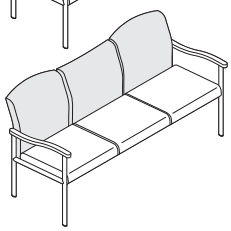
Two- and three-seat units are offered in three configurations – no center arms or center legs, with center arms, and with center arms and center legs.



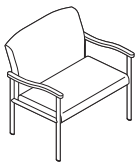
Concave back style is available on one-, two-, and three-seat versions.



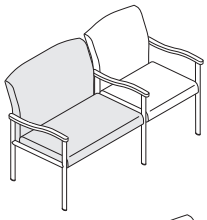


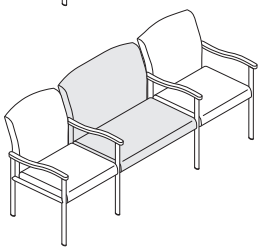


Combinations of convex and concave back cushions may be specified on the same multi-seat unit to create a wave-like contour.

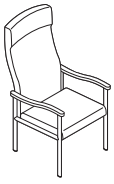


Bariatric chair is available with a 30"W seat and has been tested to a dynamic load of 300 pounds and a static load of 750 pounds. Back cushion has a convex shape.



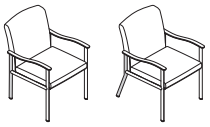


Bariatric combination units are available in two- and three-seat configurations and consist of a bariatric chair connected to one or two standard width chairs. The bariatric seat location can be specified in the left facing, right facing, or center (three-seat units) position. Combination units include center arms and legs.



High-back chair has a tapered, 29"H convex back and straight legs.

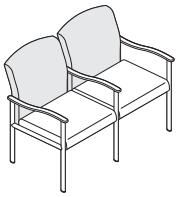
Easy access chair has a 24" seat height and includes a foot rest. Back cushion has a convex shape.



Straight or wallsaver legs are available on single, two-seat, three-seat, bariatric, combo-unit, and easy access chairs.
Tip: Wallsaver legs are not available on three-seat chairs with center arms and no center legs.

Bench has a wave-shape and is 18⅜"H. Bench is a shared component between the straight arm and wave arm Aspekt family of seating.

Footstool has an angled, cushion surface. Footstool is a shared component between the straight arm and wave arm Aspekt family of seating.



Different fabrics can be specified on the seat and back. On two- and three-seat units, the back fabric will be consistent throughout the whole unit as shown above. Contrasting fabric deviating from this standard needs to be processed through Specials.

Arm caps are available in plastisol or solid maple wood.

Back and seat covers have zippers and can be removed for cleaning.

Moisture barrier is available as an option on seat only.

Ganging brackets are available to link chairs in the field.

When chairs are ganged, the spacing between arms is 1½" and the spacing between legs is 2⅛".

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

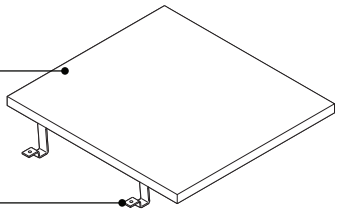
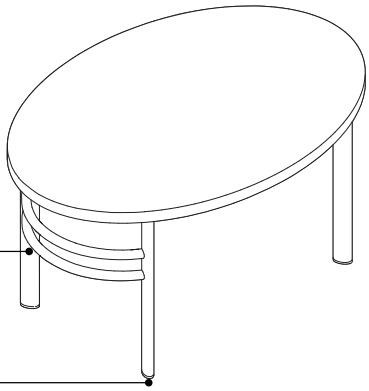
Aspekt Tables

Aspekt ganging and freestanding tables are available in a variety of shapes to coordinate with Aspekt seating.



High-Pressure Laminate tops are 1" thick and have 3 mm plastic edges.

Table ganging brackets are standard with all ganging tops.



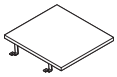
Legs are constructed with steel and are finished with powdercoat paint. Legs are included with all tops, except the in-line ganging table.

Glides are standard on tables with legs.

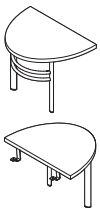
Actual Dimensions

Features	Overall Depth	Width	Height
Ganging Tables			
Inline table	21¾"	20¼"	16"
End table	21¾"	16"	16"
90˚ table	29¾"	29¾"	16"
Corner table	29¾"	29¾"	16"
Freestanding Tables			
Oval table	22"	32"	16"
Bow table	18"	20"	21"
Round table	22" dia.	N.A.	21"

Product Details



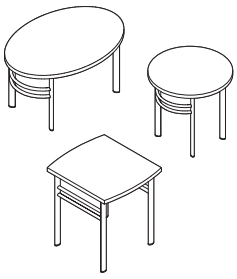
Inline table is used to connect two seating units in a straight line configuration.



End tables have a curved shape and are available in left- and right-hand versions. End tables have legs on one side.

90° table has a curved back edge and is used to create an L-shape seating configuration. 90° tables have legs on one side.

Corner table is diamond shaped and is used to connect two seating units to create an L-shape seating configuration. Corner tables have legs on one side and ganging brackets on two sides.



Freestanding tables are available in three shapes – oval, bow, and round. Bow tables are square with front and back edges that bow outward.

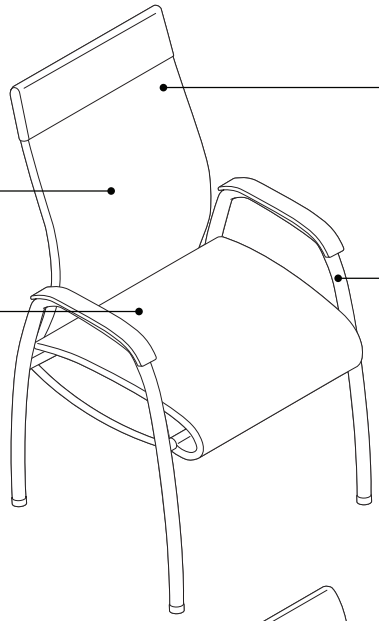
Cura

Cura seating is a comfortable solution for both patient and guest seating. The modular design allows each chair to be to be reduced to single components so they can be reversed or replaced in the field.

Seat and back are independent of one another to provide additional comfort to the user.

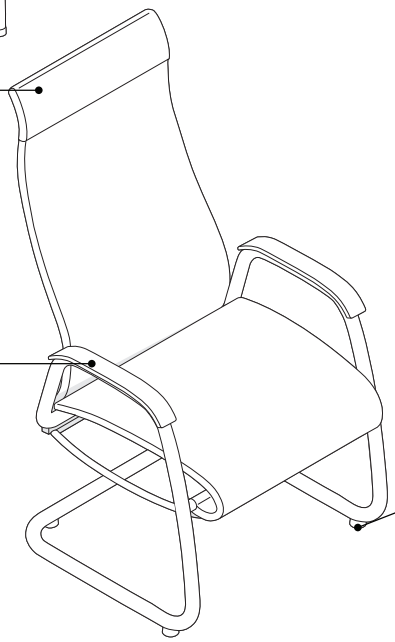
Seats are available with upholstery or breathable CuraNet mesh.



High-back chairs are standard with breathable CuraNet mesh back only. Mid-back Cura chairs are available with upholstery or breathable CuraNet mesh backs.

Frame is constructed with steel tubing and steel plates for structural integrity. It has a powdercoat paint finish that is corrosion resistant.

Headrest is standard on all units. Headrest is upholstered with Promessa material on CuraNet mesh backs. Headrest will match the upholstery specified on a mid-back upholstered back.



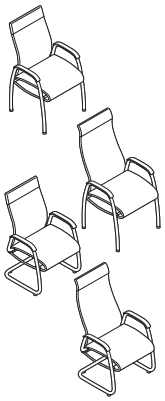
Urethane arm caps are standard. Wood arm caps are available as an option.

Stainless steel glides are standard on all chairs. Plastic glides are standard on ottomans and available as an option on chairs. Casters are available as an option to aid in moving the chair (not intended for patient transport use).

Actual Dimensions

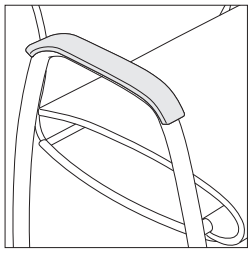
Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Mid-back sled base	24½"	26" or 29"	40½"	19"	21" or 24"	18½"	25¾"
High-back sled base	24½"	26" or 29"	48"	19"	21" or 24"	18½"	25¾"
Mid-back four-leg base	24½"	26" or 29"	40½"	19"	21" or 24"	18½"	25¾"
High-back four-leg base	24½"	26" or 29"	48"	19"	21" or 24"	18½"	25¾"
Ottoman	18¼"	16"	12¼"	N.A.	N.A.	N.A.	N.A.

Product Details



Chairs are available with a mid-back or high-back and with a sled or four-leg base. Two seat widths are available—21"W or 24"W. Mid-back chairs are offered with an upholstered back. High-back chairs are not available with an upholstered back.

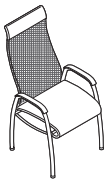
Ottoman is available for use with the high-back chair. It fits beneath the chair and is equipped with a personal storage shelf.



Urethane arm caps are standard. Wood arm caps are optional.

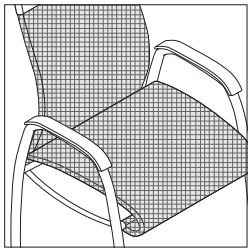
Tablet arm is 10½" by 15⅓" and swivels 360 degrees. It can be mounted on the left or right (shown) of a single chair.

MM suffix models denote that CuraNet mesh is standard on the back and seat. Headrest is standard in Promessa.



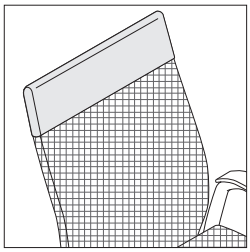
ML suffix models denote that CuraNet mesh is standard on the back. Promessa is standard on the seat and headrest.

MU suffix models denote that the CuraNet mesh is standard on the back. Steelcase, Select Surfaces, or COM fabrics can be specified on the seat. Headrest is standard in Promessa.



CuraNet mesh is standard on all backs. It can also be specified on the seat (style numbers ending in MM). It is available in the following colors:
5081 Ash (Silver Grey)
5085 Ebony (Black)
5086 Camel
5087 Cocoa
5088 Aquamarine

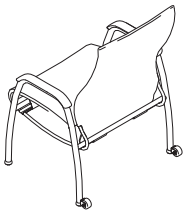
Promessa is a durable polyurethane (PVC-free) material that is used on the headrest and can also be specified on the seat (models ending in ML). For ease of specifying, the colors that match the CuraNet colors are supported with finish codes.
UL81 Ash
UL85 Ebony
UL86 Camel
UL87 Cocoa
UL88 Aquamarine
The remaining Promessa color palette from Ultrafabrics can be specified on ML models for a contrasting aesthetic. These materials can be specified using the Steelcase Health Select Surfaces program at no additional upcharge. Specify with 59DG.



Headrests on mesh back/mesh seat models (MM) and mesh back/upholstery seat models (MU) are standard in the five Promessa colors that match the CuraNet.

Headrest on mesh back/ Promessa seat models (ML) are standard in the five Promessa colors that match the mesh or any other color of Promessa ordered through the Steelcase Health Select Surfaces Program.

Headrest on upholstered mid-back will match upholstery specified on back.



Optional 2" casters are available on all Cura styles. Casters are welded to the back frame of the chair to allow the chair to be rolled when tilted back. Casters are not intended for patient transport use.

Connections

Frame, seat, and back components can be removed and replaced in the field with simple hand tools.

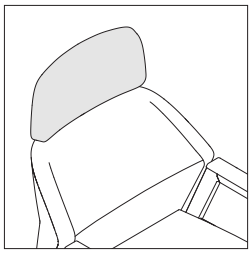
Embold

Embold features versatile seating configurations that can be utilized in multiple environments.

Seat and back are fully upholstered.

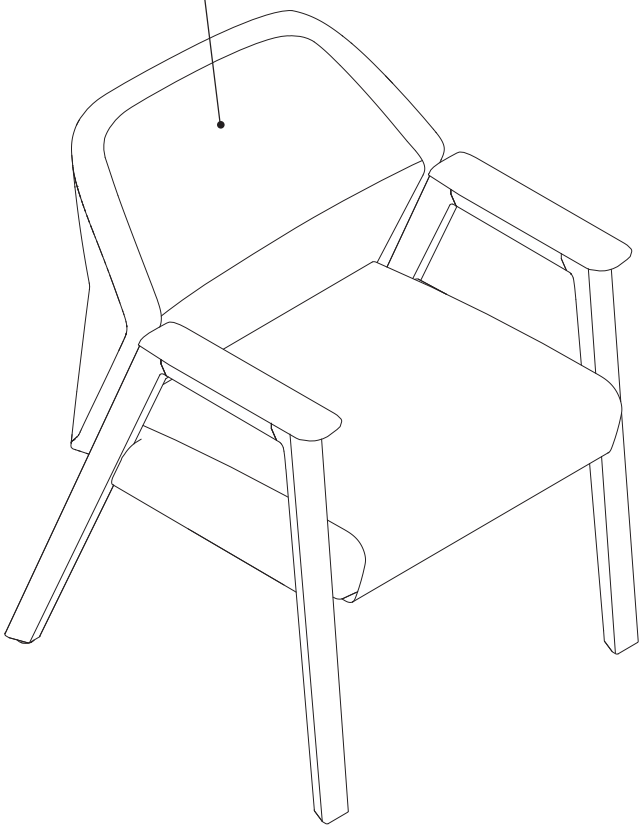
Space between entire back and seat allows for easy cleaning.

Frame is available as solid maple wood or metal.



High back option creates additional upper back support. The high back is available on the single seat 21"W and 32"W seats, and on the easy access 21"W and the 32"W seats.

Curved back design accommodates a range of seating postures and offers comprehensive back support.



Two arm cap shapes are available and are both offered in plastic, solid maple wood, and solid surface.

Upholstery for seat and back is specified separately. The back can be specified with one upholstery or contrasting (multiple) upholsteries. Contrasting back upholsteries can be specified for the upper and lower back or the inner and outer back.

Multiple seating units can be specified with different seat configurations.

Midarms are available on loveseats and multiple seating units. Midarms allow for flexibility through creating specific designation of seat space that can be reconfigured over time.

Midlegs can be added to configurations and are structurally required every 44".

Support plates may need to be added or removed for future reconfiguration of midarms or midlegs in the field.

Footrest is standard on the easy access chairs and is located on the front of the chair. A support bar is located on the back of the chair for structural support.

Footrest and support bar are anodized aluminum.

Adjustable glides are standard on legs. Optional wallsaver glides are available.

Actual Dimensions

Chairs	Overall Depth	Overall Width with overhang arm cap	Overall Height	Seat Depth	Seat Width	Seat Height
Single Seat	25 1/4"	25 1/8"	33 1/4"	18 1/2"	21"	18 1/2"
Midsize Single Seat	25 1/4"	29 5/8"	33 1/4"	18 1/2"	24 3/4"	18 1/2"
Bariatric Single Seat	25 1/4"	36 3/8"	33 1/4"	18 1/2"	31 3/4"	18 1/2"
Loveseat	25 1/4"	47 5/8"	33 1/4"	18 1/2"	43"	18 1/2"
66"W Multiple Seat	25 1/4"	70 1/8"	33 1/4"	18 1/2"	66"	18 1/2"
88"W Multiple Seat	25 1/4"	92 5/8"	33 1/4"	18 1/2"	88"	18 1/2"
88"W Multiple Seat Bariatric Combination	25 1/4"	92 5/8"	33 1/4"	18 1/2"	88"	18 1/2"
21"W Easy Access	25 1/4"	25 1/8"	39 3/16"	18 1/2"	21"	24 1/2"
32"W Easy Access	25 1/4"	36 3/8"	39 3/16"	18 1/2"	31 3/4"	24 1/2"

Tip: Subtract 1 1/10" from overall width when using non-overhang arm caps.

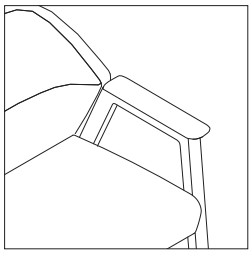
Product Details

Embold is a family of seating that encompasses a variety of seating needs and configurations.

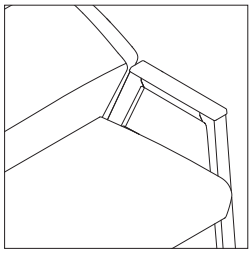
Chair frames are available as solid maple wood or painted metal.

Plastic, solid maple wood, and solid surface arm caps are available on wood or metal chair frames.

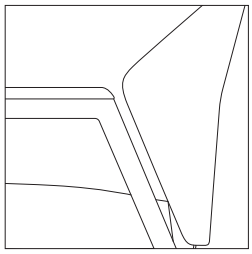
Two arm cap shapes are available to specifiy—overhang and no overhang.



Overhang arm caps have an intentional handed overhang designed to help users grip the chair during ingress and egress. Overhang arms are recommended for use in clinical areas.
Tip: Solid surface overhang arm caps have a slightly different aesthetic than the solid maple or plastic arms and are non-handed for both styles.



No overhang arm caps have a sleek minimal profile.



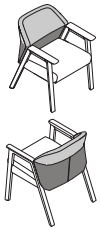
Space between seat and back allows for easy cleaning along the entire back.

Curved back design supports multiple seating postures and offers comprehensive back support.

Back has a gentle flex for comfort.

The back can be specified with one upholstery or contrasting (multiple) upholsteries. Contrasting back upholsteries can be specified for the upper and lower back or the inner and outer back. 66"W and 88"W multiple seat units have a vertical center seam on the back.
Tip: Only one color scheme can be selected for the back. All backs have center horizontal seam and zipper.

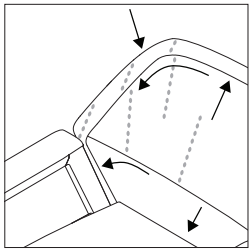
Monolithic back color scheme should be selected when choosing one upholstery for the entire back.



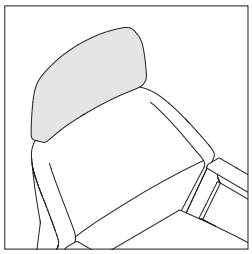
Contrasting upper back and lower back color scheme should be selected when choosing contrasting upholsteries for the upper and lower back.

Contrasting inner back and outer back color scheme should be selected when choosing contrasting upholsteries for the inner back and outer back.

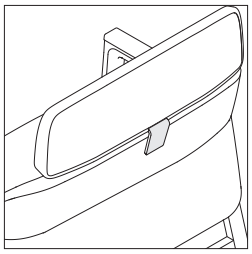
No scheme can be selected for seat, as it is only available in one upholstery.



Fabrics with a repeating pattern will not remain aligned between the curved corners (inner or outer corner) and the top outer edges of the chair. Misalignment can also occur around the vertical center seam on multiple seating units.



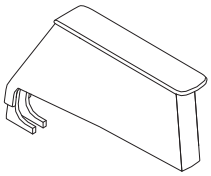
Optional high back can be added to provide additional upper back support. High back is available on the single seat 21"W and 32"W seats, and on the easy access 21"W and 32"W seats. The high back adds approximately 9" to the height of the chair.



High back will have attachment bracket centered on the back of 21"W chairs. There are two attachment brackets on the back of 32"W chairs. Bracket comes with bracket cover and its finish is specifiable. High back can be ordered retroactively and installed in the field but cannot be removed without damaging chair upholstery.

Multiple seating units can be configured in various ways to create different seat widths by adding or removing midarms.

Midarms can be added to loveseats and multiple seating units to designate seats. Midarms also create different seat width configurations. Midarms attach to the under seat structure and fit through the crumbsweep between the back and seat. Midarm can be specified separately to be retrofitted in the field for a new configuration. Moving or removing a midarm cannot be done without tools. Refer to installation instructions.

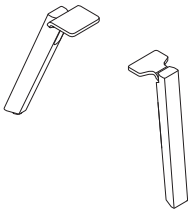


Midarms can only be specified in the center on loveseats. Multiple seat units can have midarms specified in a variety of positions.
▶For better understanding of possible arm configurations, please see *Embold Configurations* on page 74.

Arm caps for midarms are available in plastic, solid maple wood, and solid surface. Midarm caps are available with or without an overhang and are non-handed for both styles.

Midarm overhang arm caps have an overhang on both sides.

Midarms are upholstered and are specified separately from the seat. Midarms rest on the top of seat upholstery and do not puncture or damage seat upholstery.



Minimum midleg placement is dependent on seating configuration. Midlegs are required every 44"W on multiple seat units. Two midlegs are required for an 88"W multiple seat unit without any midarms. All configurations on an 88"W multiple seat combination unit (**HSBM88C**) requires two midlegs, which come standard.

Midleg is only available in the center position on the loveseat and is not needed for structural support.

Midlegs can be added for aesthetic purposes in some applications.

Midleg can be specified separately to be retrofitted in the field for reconfiguration. Moving or removing a midleg cannot be done without tools.
Tip: Support plates, midarms, and midlegs should be ordered as options when specifying the seating units, but would need to be ordered separately for future reconfigurations in the field.

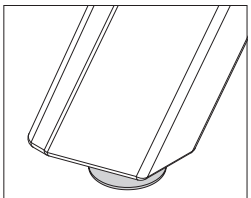
Footrest is standard on the easy access chairs and is located on the front and back of the chair. Footrest is anodized aluminum.

Embold, continued

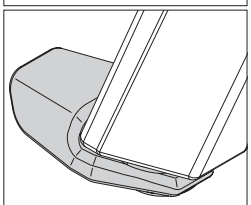
Moisture barrier is available as an option on the seat only.

Non-marring, black plastic glides are standard on both wood and metal chairs.

Adjustable glides are standard on legs. Optional wallsaver glides are available. Glides are interchangeable and can be retrofitted in the field. Wallsaver and standard glide options are available on midlegs as well as standard chair legs.



Standard Adjustable Glide



Wallsaver Glide

Tip: When specified on seating, wallsaver glides will be applied to the rear legs and standard glides will be applied to the front legs.

Embold Tables

Embold tables are available in three styles to coordinate with Embold seating.

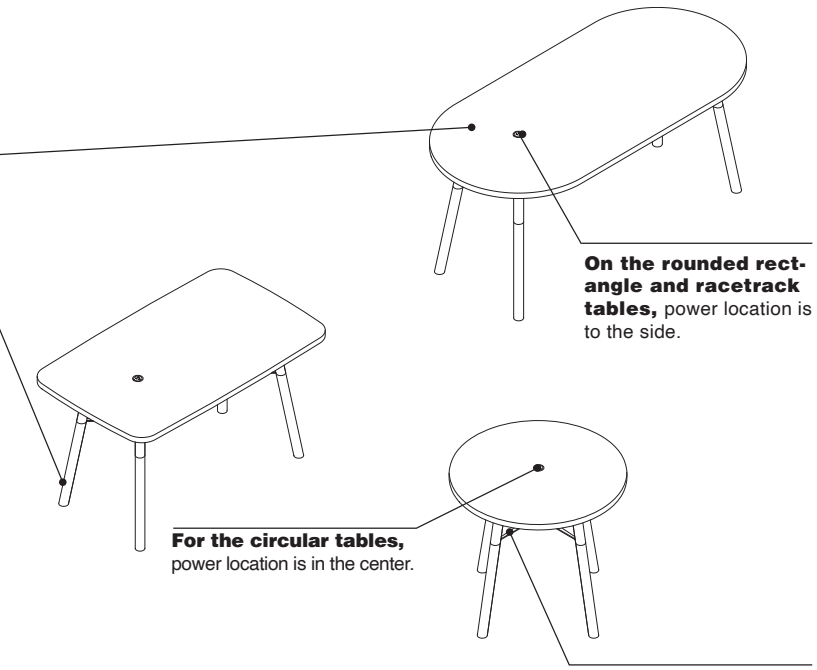

Table tops are available in High-Pressure Laminate or solid surface. Solid wood table tops are available for the circular table only.

On the rounded rectangle and racetrack tables, power location is to the side.

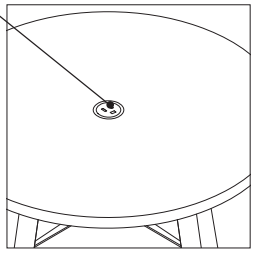
Legs are available in solid maple, solid oak, or solid walnut wood. Legs are also available in painted metal.

For the circular tables, power location is in the center.

Braided power cord covers are available. These cord covers are intended for non-clinicial areas and are for decorative purposes.

Table frame is available in a variety of paints.

Solid maple, solid oak, and solid walnut table tops are available for the circular table only. Solid walnut, maple, or oak tops must be specified with metal or matching wood species legs. Solid wood table tops are advised for non-clinical areas and are not appropriate for clinical areas. Solid wood tables have a raised lip around the table edge. *Tip: These are cuts of solid wood of wood and not veneered wood products.*



Power is available on tables and includes one standard outlet or two USB ports. Power cord exits through underside of table top. Standard outlet power is tamper and spill resistant. Steelcase recommends to check with all local and facility authorities prior to specification and order, to confirm acceptance of proposed product and applications. *Tip: The USB cord is approximately 1/8" wide and contains AC/DC adapter that measures 2 3/4"D x 1 1/4"W x 3 1/2"H.*

Tip: Braided power cord is not available with USB option for power.

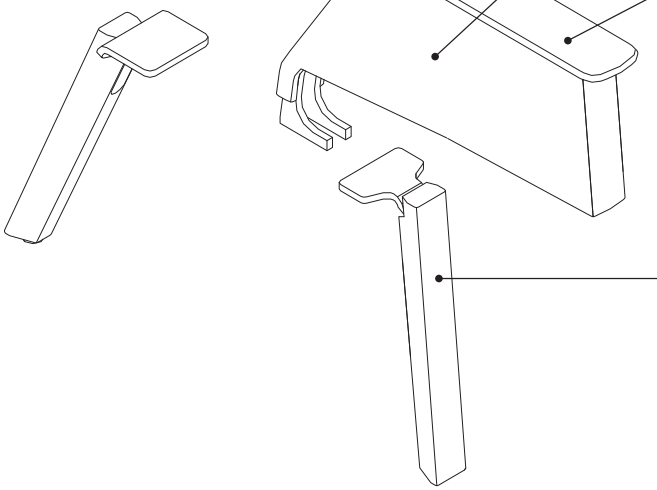
▶ **Embold,** continued 71

Embold Accessories

Midarms allow for flexibility in seat configurations. Midarms can be specified separately from Embold seating and can be added to a loveseat or multiple seating unit.

Midlegs allow for flexibility in seat configurations. For some configurations midlegs can be specified separately from Embold seating and can be added to a loveseat or multiple seating unit.

Midleg placement is dependent on seating configuration. 66"W and 88"W multiple seating configurations come standard with a minimum of one midleg, but additional midlegs can be ordered for different configurations. Midlegs are required every 44" on multiple seat units. All 66"W and 88"W multiple seating units require at least one midleg. A minimum of one midleg is needed for multiple seat units with one midarm. Two midlegs are required for an 88"W unit without any midarms. All configurations on an 88"W multiple seat combination unit (**HSBM88C**) requires two midlegs, which come standard.



Midarms are fully upholstered.

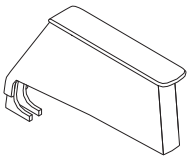
Midarms can be specified with two different arm cap shapes, overhang or no overhang. Both styles are non-handed.

Midlegs are available in solid maple wood or metal.

Midleg matches design profile of standard legs and has a black plastic glide.

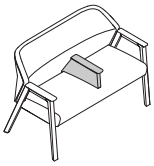
Support plates may need to be added or removed for future reconfiguration of midarms or midlegs in the field.

Product Details

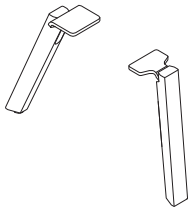


Midarms can be added to multiple seating units to divide the seat into various sizes. Midarms can be added to existing Embold loveseat and multiple seating units for further seat definition. Moving or removing a midarm cannot be done without tools. Adding midarms to an existing product may require ordering an additional support plate for attachment to the seating unit. Midarms can only be added to certain locations on loveseats and multiple seating units.

▶ See *Embold Configurations* on page 74 for further information on how to configure seating with a midarm.



Arm caps for midarm are available in plastic, solid maple wood, and solid surface. Midarm caps are available with or without an overhang. Both midarm cap styles are non-handed. Overhang arm caps have an overhang on both sides. Midarms are upholstered and are specified separately from the seat, except for the multiple seat bariatric combination where they are pre-configured in set positions.



Midlegs can be added to existing loveseat and multiple seating units. 66"W and 88"W multiple seating configurations will ship with a minimum of one midleg, but additional midlegs can be ordered for different configurations. Midlegs are required every 44" with one midarm. Two midlegs are required for an 88"W multiple seat unit without any midarms. To change the unit of an existing multiple seating configuration, an additional leg and support plate may be required for structural purposes. Adding a midleg requires installers and cannot be done without tools. Refer to installation instructions.

▶ See *Embold Configurations* on page 74 for further information on how to configure seating with a midleg.

Tip: Support plates, midarms, and midlegs should be ordered as options when specifying the seating units, but would need to be ordered separately for future reconfigurations in the field.

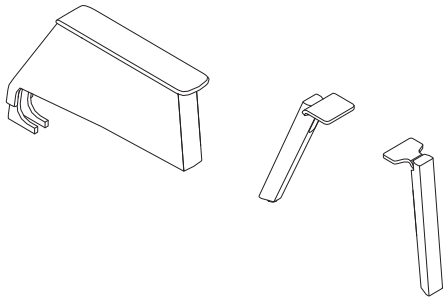
Embold Configurations

For Loveseat and Multiple Seating Units

Embold offers flexibility through midarms and midlegs on loveseats and multiple seat units. Midarms and midlegs allow for organizations to reconfigure these units over time to serve new needs. Midlegs are required every 44" on multiple units, so configurations must always include one leg for structural support with the exception of an 88"W seat with no midarms. 88"W seat units with no midarms require two midlegs. Midarms are not required on any unit, but come standard on the multiple seat bariatric combination unit (**HSBM88C**). Some configurations may require additional support plates or midlegs to be ordered to support a new configuration.

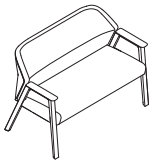


Midarms allow for more prescriptive seating and can be specified on any loveseat or multiple seating unit. Additionally, a midarm can be specified separately and retro-fitted on a loveseat or multiple seating unit.

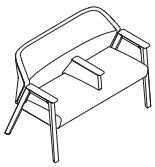
Midarms and midlegs can also be reconfigured or removed to create new seating configurations.

Support plates may need to be added or removed for future reconfiguration of midarms or midlegs in the field.

Loveseat

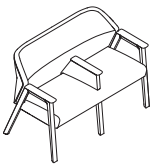


Embold loveseats are standard with no midarm or midleg. Midleg is not needed for structural support.



Specified as midarm center and no midleg.

This configuration requires one support plate.



Specified as midarm center and midleg center.

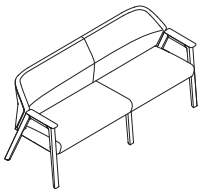
This configuration requires one support plate.

A midarm can be added to the loveseat to divide the seat into two 21" wide seats. No midleg is needed for structural support, but one can be added if desired for aesthetic reasons. A loveseat with a midleg but no midarm is not available as standard product.

Multiple Seating

Multiple seating is available in seat widths of 66” and 88”. These larger seat widths allow for the units to be specified in a multitude of ways to create different seat configurations. Midlegs are required every 44” on multiple units, so configurations must always include a minimum of one leg for structural purpose with the exception of an 88”W seat with no midarms. 88”W seat units with no midarms require two midlegs. Midarms are not required on any unit, but come standard on the multiple seat bariatric combination unit (**HSBM88C**). Some configurations may require additional support plates or midlegs to be ordered to support a new configuration.

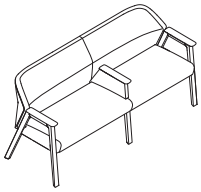
Multiple Seating 66"W Seat Configurations



This configuration does not require a support plate.

The default 66"W seat configuration is a unit with one center midleg and no midarm.

Two Seat Configuration

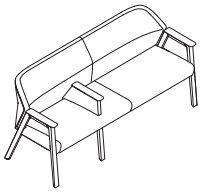


Specified as midarm center and midleg center.

This configuration does not require a support plate.

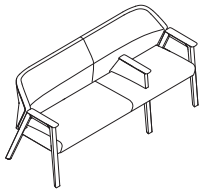
Two 32" bariatric seats can be configured with the addition of a midarm.

Three Seat Configurations



Specified as midarm left-side facing and midleg left-side facing.

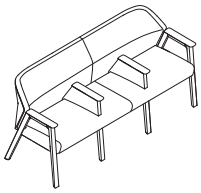
This configuration requires one support plate.



Specified as midarm right-side facing and midleg right-side facing.

This configuration requires one support plate.

One 21"W seat and one 44"W seat can be configured with the addition of a midarm. The 21"W seat can be specified to be right- or left-side facing.

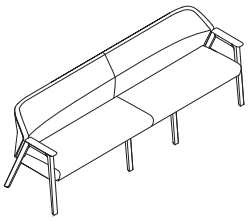


Specified as two midarms and two midlegs.

This configuration requires two support plates.

Three 21"W seats can be configured with the addition of two midarms and an additional midleg.

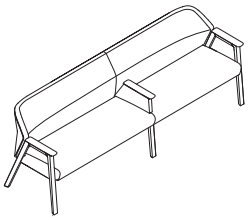
Multiple Seating 88"W Seat Configurations



This configuration does not require a support plate.

The default 88"W seat configuration is the unit with two center midlegs and no midarm.

Two Seat Configuration

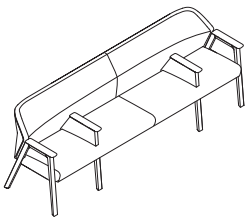


Specified as midarm center and midleg center.

This configuration requires one support plate.

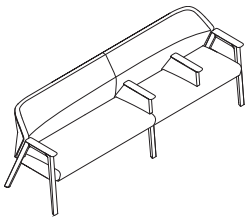
Two 44"W seats can be configured with the addition of one midarm and removal of one midleg. This configuration requires one support plate.

Three Seat Configurations



Specified as left-side facing and right-side facing midarms and left-side facing and right-side facing midlegs.

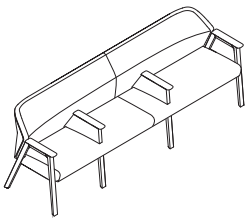
This configuration requires two support plates.



Specified as center and right-side facing midarms and center midleg. Also available with center and left-side facing midarms.

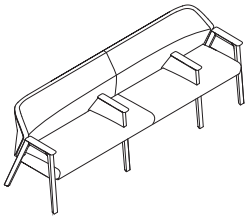
This configuration requires two support plates.

One 44"W seat and two 21"W seats can be configured through the addition of two midarms, or two midarms and removal of one midleg, dependent on location.



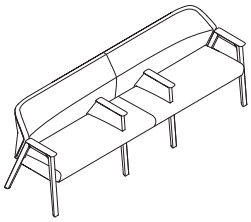
Specified as center and right-side facing bariatric seat.

This configuration requires one support plate.



Specified as center and left-side facing bariatric seat.

This configuration requires one support plate.



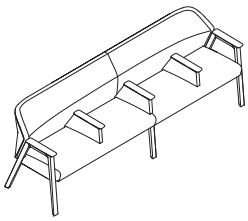
Specified as left-side facing and right-side facing bariatric seat.

This configuration does not require a support plate.

Two 32"W seats and one 21"W seat can be configured with the addition of two midarms and one midleg. Two 32"W seats always require use of two midlegs for structural support. This configuration is ordered through the bariatric multiple seat combination style number. However, this unit can be reconfigured to other 88"W seating combinations in the future and may not require two support legs.

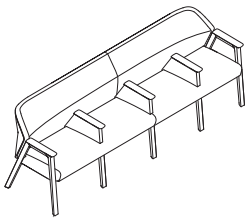
Multiple Seating 88"W Seat Configurations, continued

Four Seat Configurations



Specified as three midarms and midleg center.

This configuration requires three support plates.



Specified as three midarms and three midlegs.

This configuration requires three support plates.

Four 21"W seats can be configured through the addition of three midarms, or three midarms and three midlegs, dependent on configuration.

Single Seat

Tip: Only one back color scheme can be chosen.
For more information on the different color schemes, see page 68

Tip: Fabrics with a repeating pattern will not remain aligned around the corners of the chair or in the boxing (the outer perimeter).

Tip: Wood chair frame and wood arm caps must be specified in the same finish.

Tip: Overhang arm is suggested for clinical applications to aid in user ingress and egress.

Tip: Overhang arm is suggested for clinical applications to aid in user ingress and egress.

Tip: Midarms will include support plates when needed for configurations. All midarms require support plates except midarm center on 66"W multiple seating unit and the 88"W multiple seat bariatric combination unit with the left-side facing and right-side facing seat location.

Tip: If monolithic or contrasting upper/lower upholstery is selected, then the high back will be specifable in only one upholstery. If inner/outer contrasting upholstery is selected, then the upholstery will match the inner/outer contasting upholstery selected on the chair back will be applied to the inner and outer high back.

Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery when contrasting fabrics.

Tip: When midarm is selected, only left-side facing and right-side facing midlegs are available.

Tip: Two midlegs are required for a 88" wide unit without any midarms.

Embold

Embold Tables

Tip: Edge finish only applies to the High-Pressure Laminate worksurfaces.

For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: Solid maple, solid oak, and solid walnut wood tops are only available for the circular table. Solid wood tops can only be specified with metal or matching species of wood legs.

Tip: Solid maple, solid oak, and solid walnut wood tops are solid cuts of wood, not veneered pieces. Natural variation occurs with wood products.

Tip: Solid wood circular tables have a low-sheen clear coat applied to them and will have intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Tip: Solid wood table tops should be specified for non-clinical areas only.

	Standard Includes	Required to Specify

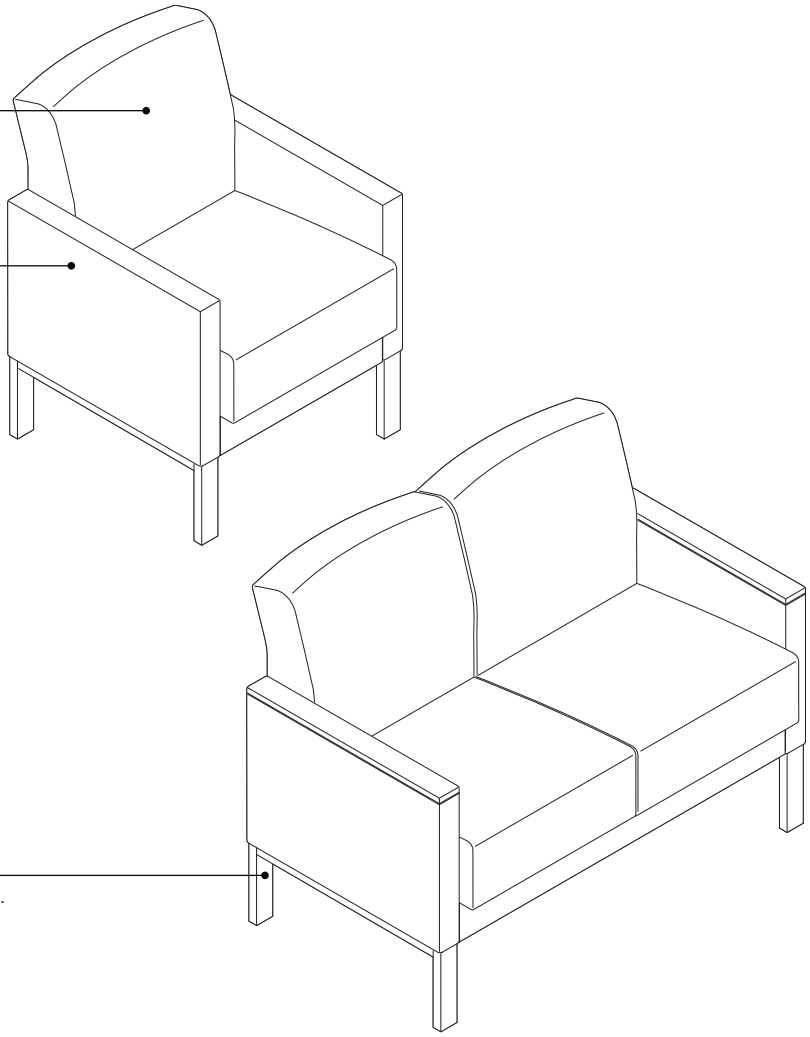
Leela

Leela seating is a lounge seating collection with applications focused on waiting areas and transition spaces. The collection includes lounge seating and tables.

Back and seat are fully upholstered.

Arm panels are standard with upholstery. Maple wood or plastisol arm caps are available as an option.

Legs are powder coated steel.



Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width of seat	Height of back	Seat Height	Arm Height
Lounge seating								
Single-seat lounge	27½"	24½" or 28½"	33¾"	19"	19¼" or 23¼"	16½"	18¾"	24⅛"
Two-seat lounge	27½"	43¾"	33¾"	19"	38¾"	16½"	18¾"	24⅛"
Three-seat lounge	27½"	63"	33¾"	19"	58"	16½"	18¾"	24⅛"
Bariatric Lounge	27½"	34¼" or 43¾"	33¾"	19"	29¼" or 38¾"	16½"	18¾"	24⅛"
Tables

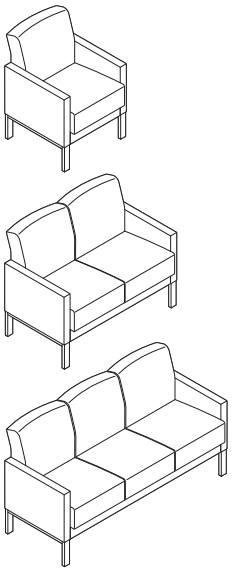
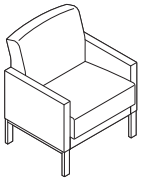
Rectangular coffee table	21"	42"	16"	N.A.	N.A.	N.A.	N.A.	N.A.

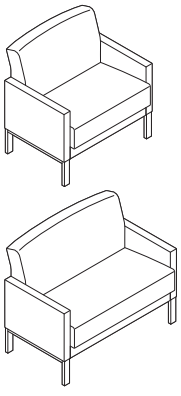
Product Details



Stand-alone units are available in one-, two-, and three-seat versions.

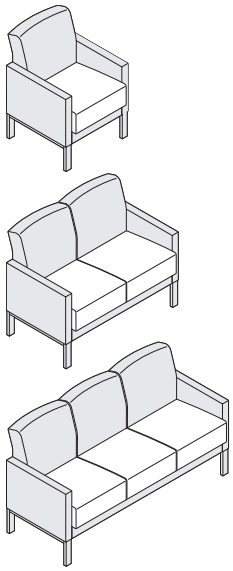


24"W seats are available on single-seat arm chairs only.



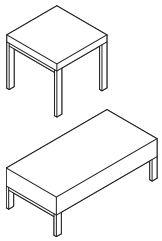
Bariatric seating is available in 30" and 40" seat widths.

Bariatric seats have been tested to a dynamic load of 500 pounds and a static load of 1000 pounds.



Different fabrics can be specified on the seat and back. Back fabric will match the fabric used on the arm and side panel.

Moisture barrier is available as an option on seat only.



Freestanding tables are available in square and rectilinear shapes. Both shapes are available with metal legs and metal or solid surface tops.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Seat and back

Mitra

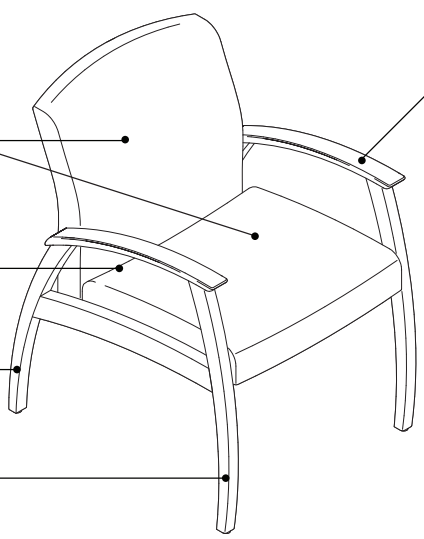
Mitra seating features an energetically curved frame design. A variety of configurations are available to create a cohesive design across healthcare spaces.

Seat and back are fully upholstered.

Space between seat and back allows for easy cleaning.

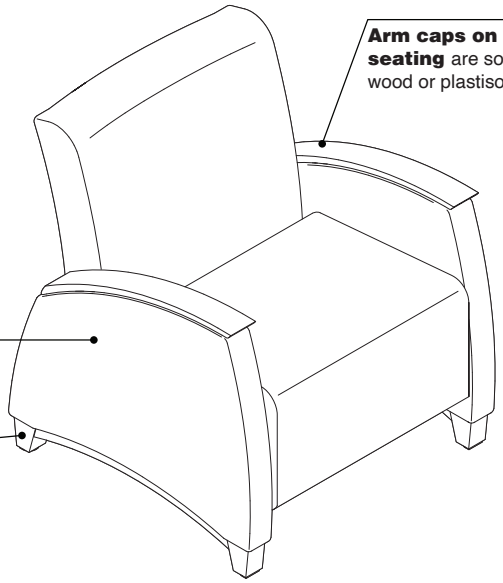
Wallsaver legs are standard on guest and bariatric seating.

Curved legs and frame are solid maple wood.



Arm caps feature a reverse bevel and overhang the legs to provide a comfortable hand grip for ease of entry and exit from the chair. Arm caps are solid maple wood, plastic, or solid surface.

Arm caps on lounge seating are solid maple wood or plastisol.



Side panels on lounge seating are upholstered with solid maple arm caps and bases.

Glides are standard on legs.

Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Guest Seating							
Single-seat chair	26½"	23¼"	33"	19¼"	20"	19"	25¼"

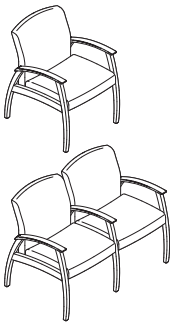
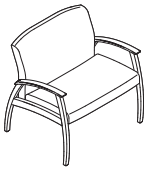
Sofa	30¼"	65¼"	33¾"	20"	59"	17¼"	25¼"

Note: Combination units include one bariatric single-seat chair and either one or two standard width single-seat chairs.
Note: Seat height on lounge chairs measured at the front of the seat cushion.

Product Details



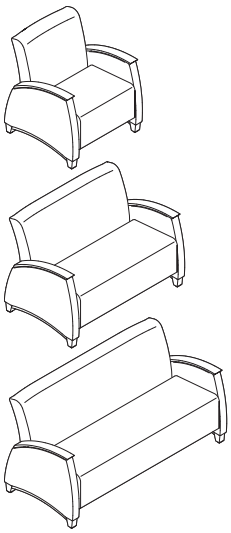
Guest chairs are available as a single-seat chair and two-seat chair. Two-seat chairs include arms and legs between each seat.



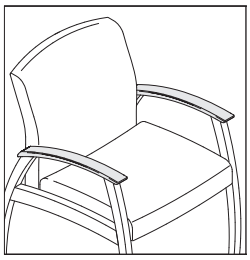
Bariatric chair is available with a 30"W seat and is tested to a dynamic load of 300 pounds and a static load of 750 pounds.

High-back chair has a tapered back. Chair is not available in a bariatric version.

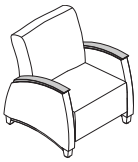
Easy access seating has a seat height of 25" with a footrest 6¼" from the floor.



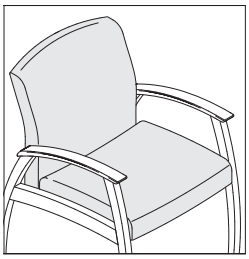
Lounge seating is available as a lounge chair, loveseat, and sofa.



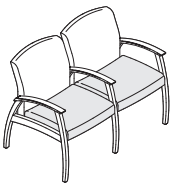
Wood, plastic, and solid surface arms are available on all guest seating. Plastic and solid surface arms completely replace wood arms.

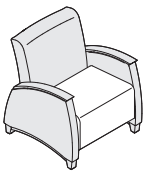


Wood and plastisol arm caps are available on lounge seating.



Back and seat covers on guest, bariatric, and high-back chairs have zippers and can be easily removed for cleaning. Back covers can be replaced.





Different fabrics can be specified on the seat and back. On two-seat, three-seat, and combination units, the back fabric will be consistent throughout the whole unit as shown above. On lounge seating fabric on the back will match the fabric on the arm panel. Contrasting fabric deviating from these standards need to be processed through Specials.

Moisture barrier is available as an option on seat only.

Radia

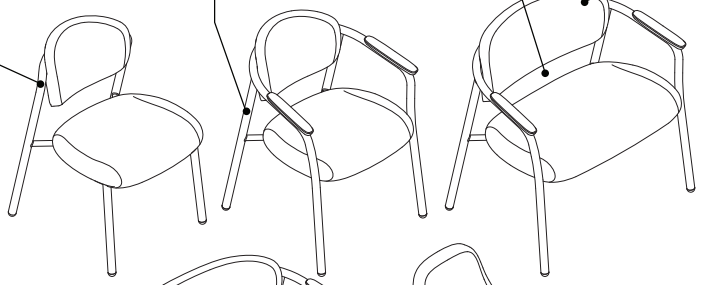
Radia's simple design accommodates a range of spaces and body types.

Frames are available in a variety of paint finishes.

Space between the seat and back allows for easy cleaning.

Curved back design accommodates a range of seating postures and offers comprehensive back support.

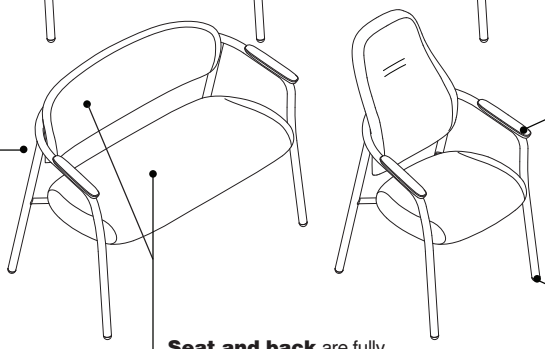
Frame and legs are constructed with steel for structural integrity and durability. They have a powdercoat paint finish that is corrosion resistant.



Two arm cap shapes are available and offered in three plastic finishes.

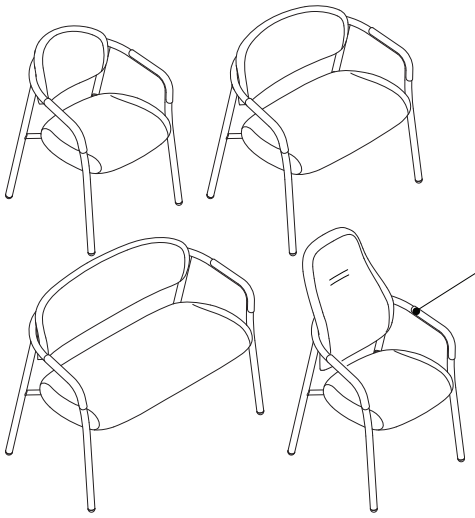
Overhang arm cap style are shown on chairs above.

Wallsaver design is integrated into chair leg.
Tip: High-back chair is not a wallsaver due to back recline.



Seat and back are fully upholstered.

Spherical glides help protect cove molding.



Contour arms follow the curvature of the arm frame and provide a grippable surface.

Actual Dimensions

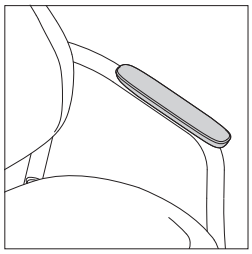
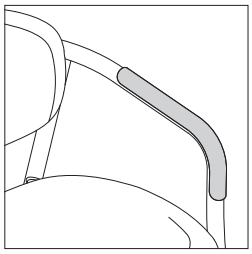
Steelcase
June 2025

Product Details

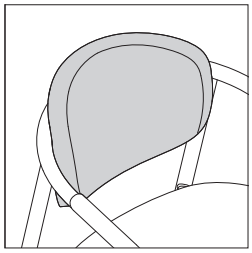
Two arm cap shapes are available to specify—overhang and contour.



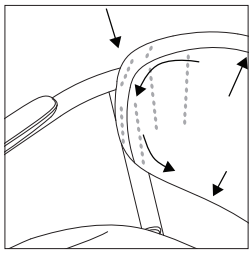
Overhang arm caps have an intentional overhang designed to help users grip the chair during ingress and egress. Overhang arm caps are recommended for use in clinical areas. Overhang arm caps are non-handed.



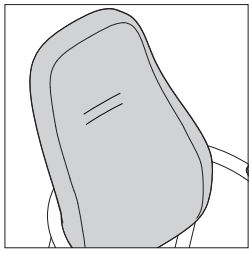
Contour arm caps follow the curvature of the chair frame, while providing a gripable and cleanable plastic surface.



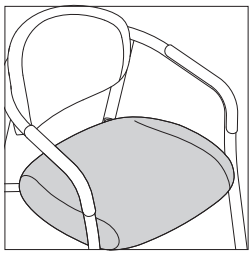
Back and seat cushions are available in the same upholstery or contrasting upholstery. Contrasting upholstery is considered any two fabrics that are not identical (including same fabric in different finishes). To maximize yield and cost, utilize back and seat cushions in the same exact fabric.



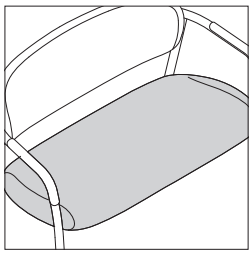
Fabrics with a repeating pattern will not remain aligned between the curved corners (inner or outer corner) and the top outer edges of the chair back.



High back has minimal stitching in center of back to keep upholstery taut.



Seat cushion contains minimal waterfall seams to promote cleanability.



Loveseat seat cushion does not contain a vertical seam separating the two seats.

Moisture barrier is available as an option on the seat only.

Spherical glides are standard on legs and designed to help protect cove molding.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

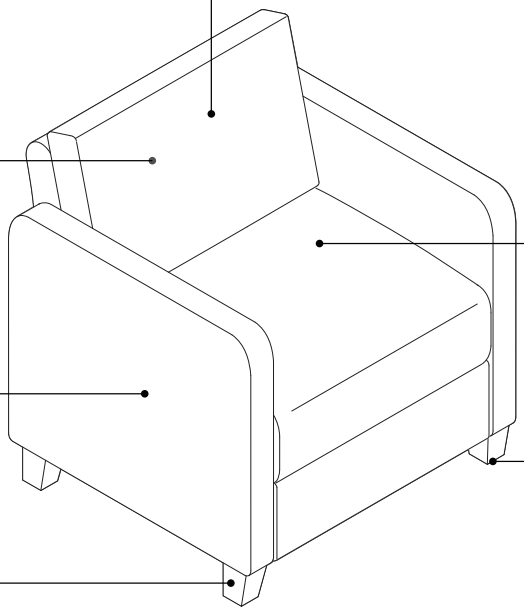
Sieste

Sieste offers a family of seating that is flexible and comfortable with a clean design to fit almost any lounge setting.

Back cushion is a separate unit that is attached by a zipper at the top that allows 2"–3" of up and down adjustmaent with velcro that is sewn into the cushion and the back rest.



Back is upholstered. A zipper allows the cover to be field replaceable. The back is open on lounge and bariatric models.

Seat is upholstered. A Velcro closure allows the cover to be field replaceable.

Arms are enclosed and upholstered. Arms are standard without an arm cap. Optional wood and black plastisol arm caps are available.

Nylon glides are standard on legs.

Legs are constructed with maple hardwood solids.

Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Lounge chair	27½"	29¼"	32½"	19"	23¼"	18"	25"

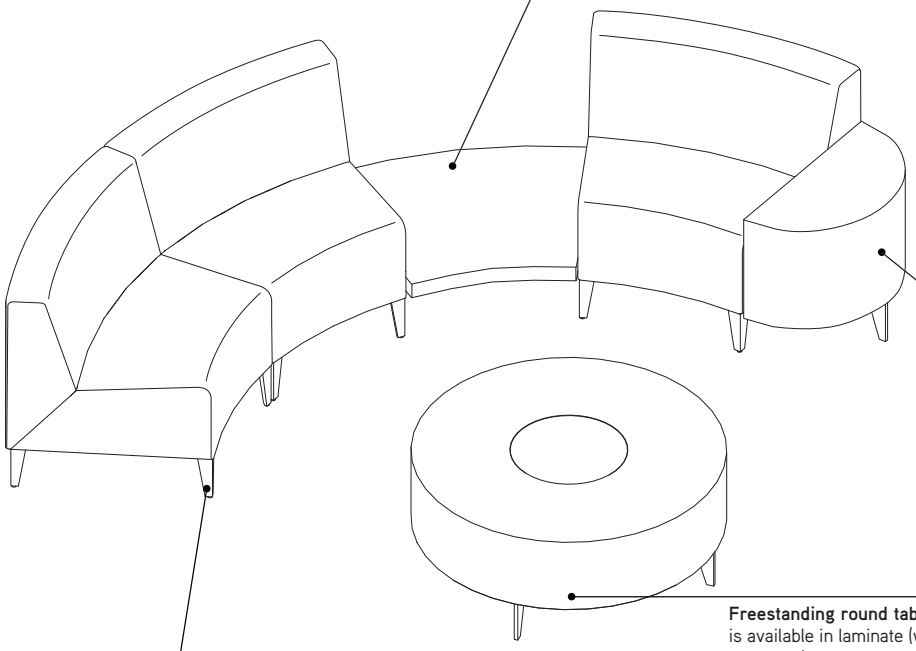
Circa Lounge System by Coalesse

DESIGN ALISON SPEAR, AIA DESIGN ORIGIN: UNITED STATES

Circa lounge system offers a dramatic, creative palette for configuring signature spaces with a wide array of large and small application expressions, from straight to curvilinear modular lounges and ganging or freestanding tables.



Intermediate tables are available in laminate (with self-edge) or veneer. Tables come with ganging brackets to attach to seating units. Shared application is an option.

End-of-run tables are available in laminate (with self-edge) or veneer. Tables come with ganging brackets to attach to seating unit.

Freestanding round table is available in laminate (with self-edge) or veneer. Optional center inserts are available: green tinted glass or power/data module (available in black anodized aluminum or silver anodized aluminum).

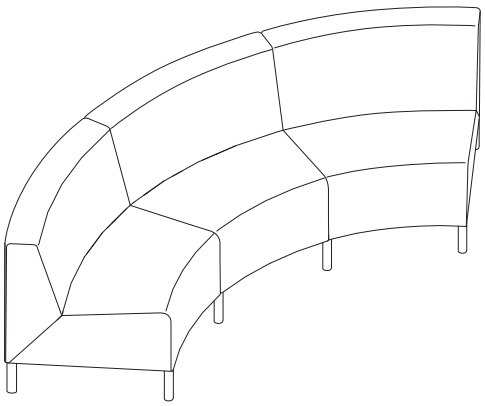
Tapered legs are available in solid wood or metal. Solid wood legs are maple or walnut. Metal legs are offered in optional powder coat paint finishes. Tapered legs on lounge pieces support freestanding applications, allowing units to be easily rearranged.

Ganging kit is available to connect units together and maintain alignment.

Circa Lounge System by Coalesse

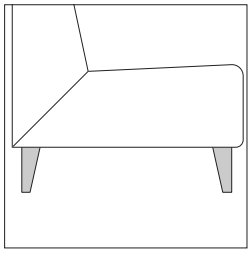
DESIGN ALISON SPEAR, AIA DESIGN ORIGIN: UNITED STATES

Product Details

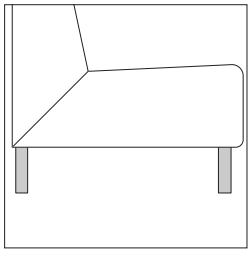


Cylinder legs are solid oak. Legs can be specified to be shared between adjacent lounge units, minimizing leg locations and ganging units together, as shown. Legs can also be specified freestanding, supporting individual units that can be easily rearranged.

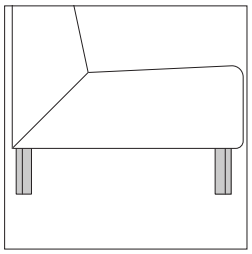
Modern metal legs are available in powder coat paints. Legs can be specified to be shared between adjacent lounge units, minimizing leg locations and ganging units together, as shown. Legs can also be specified freestanding, supporting individual units that can be easily rearranged.



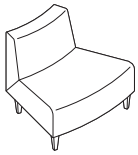
Tapered legs are available in solid maple or walnut, as well as optional metal in powder coat paints. Tapered legs on lounge units support freestanding applications, allowing units to be easily rearranged.

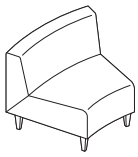


Cylinder legs are solid oak and are optional. Legs can be specified to be shared between adjacent lounge units or freestanding application, allowing units to be easily rearranged.

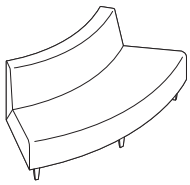


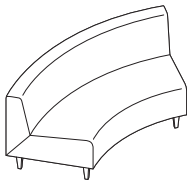
Modern metal legs are optional and are available in powder coat paints. Legs can be specified to be shared between adjacent lounge units or freestanding application, allowing units to be easily rearranged.



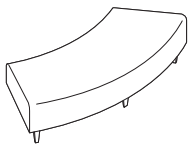


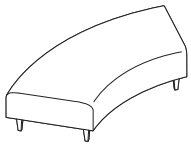
30˚ wedge seat is available outside facing or inside facing.





60˚ wedge seat is available outside facing or inside facing.

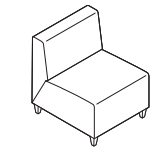


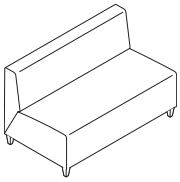


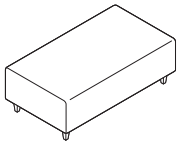
60˚ wedge bench is available and can be used in outside or inside facing applications.

Circa Lounge System by Coalesse *continued*

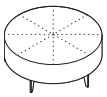
DESIGN ALISON SPEAR, AIA DESIGN ORIGIN: UNITED STATES



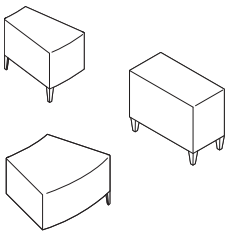




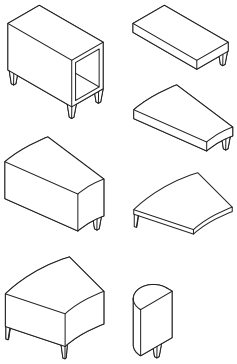
Straight seating available as 1-seat lounge, 2-seat lounge, or bench.



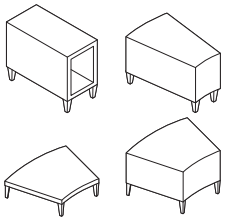
Round ottoman has five legs and is upholstered. Measures 42" diameter and 17"H. Tapered legs have a thin blade aesthetic and are available in solid maple and walnut, as well as optional metal in powder coat paints. Cylinder wood leg and modern metal leg are also available.



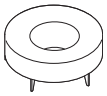
Straight, inside, or outside (15° or 30°) armrests can be specified without legs (intermediate) and ganged to adjacent lounge units. Or in end-of-run position, on left or right side.



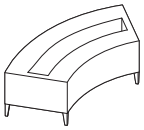
High and low ganging tables are available in three sizes: straight, 15° wedge, or 30° wedge. Tables can be specified without legs (intermediate) and ganged to adjacent lounge units or in end-of-run position, on left or right side.



High and low freestanding tables are available straight, 15° wedge, or 30° wedge.



Freestanding round table is available in one size, 42" diameter, 15¾"H. Power/data module option available in black anodized aluminum or silver anodized aluminum. The round plate that houses the power module is powder coated to complement the module. Glass insert is available as an option.



Freestanding table-planter is available in one size, 60° wedge. Planter is galvanized aluminum.

Surface Materials

▶See *Coalesse Surface Materials Reference Guide* for further information.

Upholstery (contrasting fabric available)
- Fabric
- Leather

Table tops
- Laminate with self edge (option)
- Veneer
  - Maple veneer (flat cut, low sheen)
  - Walnut veneer (flat cut, low sheen)
  - Oak veneer (rift cut, high and low sheen)

Tapered legs
- Solid maple (quarter cut, high and low sheen)
- Solid walnut (quarter cut, high and low sheen)
- Painted steel
- Lux Coatings (lounge, armrest, and ottoman only)

Cylinder wood legs
- Solid oak (rift cut, high and low sheen)

Modern metal legs
- Painted steel
- Lux Coatings (lounge, armrest, and ottoman only)

Program and Services

Customer's Own Material/ Leather (COM/COL) Program is available.

▶See *Coalesse Surface Materials Reference Guide* for additional information.

Circa Lounge System by Coalesse

DESIGN ALISON SPEAR, AIA DESIGN ORIGIN: UNITED STATES

Circa Lounge System by Coalesse — Upholstered Individual Lounge Units

DESIGN ALISON SPEAR, AIA DESIGN ORIGIN: UNITED STATES

Tip: Fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: Lux Coatings are available on metal leg options for upholstered seating, armrests, and ottomans.

Tip: For contrasting fabric, pricing is based on highest group textile specified.

Tip: For Customer's Own Material or Leather, see necessary requirements, important processing instructions, and ordering information.
▶See *Coalesse Surface Materials Reference Guide.*

Tip: Benches are flat and 1-seat and 2-seat lounges are angled; therefore, seat angles will not be aligned when placed next to each other. A table is recommended between the units to minimize the difference.

Tip: All legs measure 6½" in height.

Standard Includes	Required to Specify

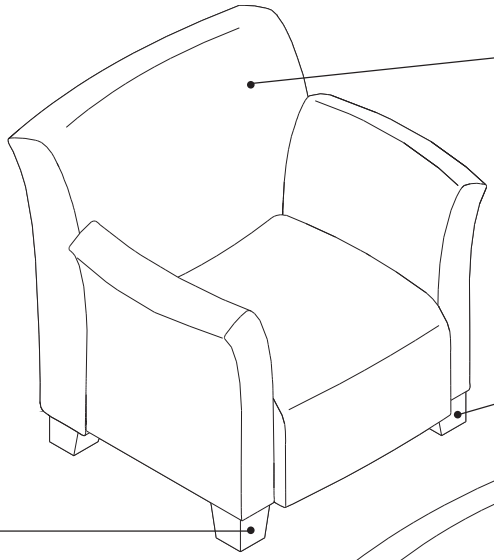
Jenny Lounge

Jenny lounge products are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.
▶ Specifying, pages 174–196

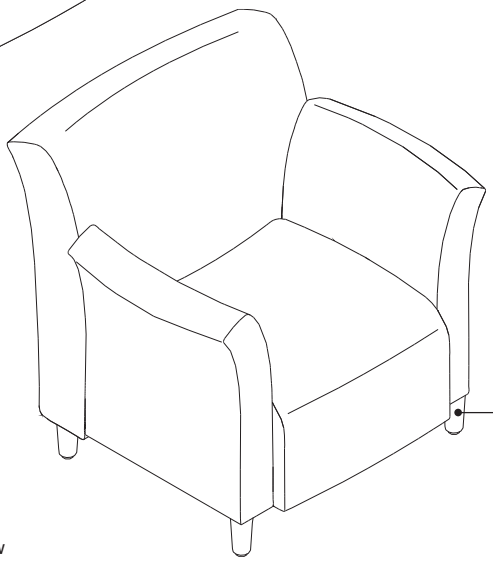
Standard Jenny chairs are available in one arm, armless, wood arms, corner, ottoman, round, and club. *Tip: There are height differences between Jenny low and Jenny. Please use caution when mixing Jenny low chairs with standard Jenny due to the lower height of Jenny low.*



Jenny comes fully assembled.

Legs are standard in black plastic except for Jenny round which has standard brushed aluminum legs.

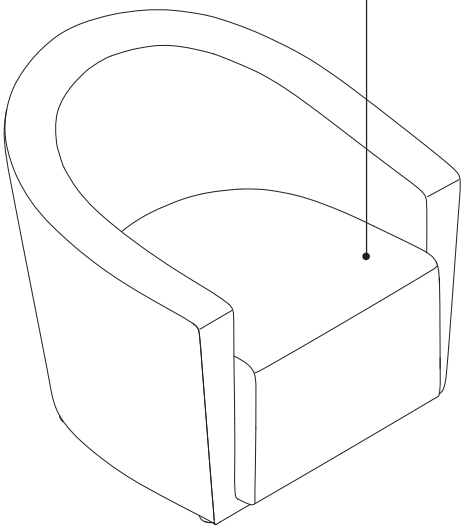
Legs have options of wood (square or round), brushed aluminum, and/or with casters.

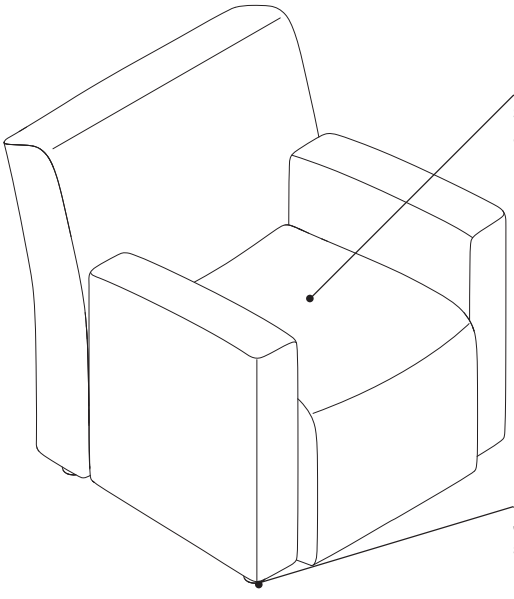


Round wood legs are solid maple and are available in three finishes. *Tip: Wood legs are natural wood and may have variations in color.*

Jenny low chairs are available in club and round. They have an adjusted seat angle, and lowered height to align for work at lounge posture.

Seat is angled to allow a deeper sit.

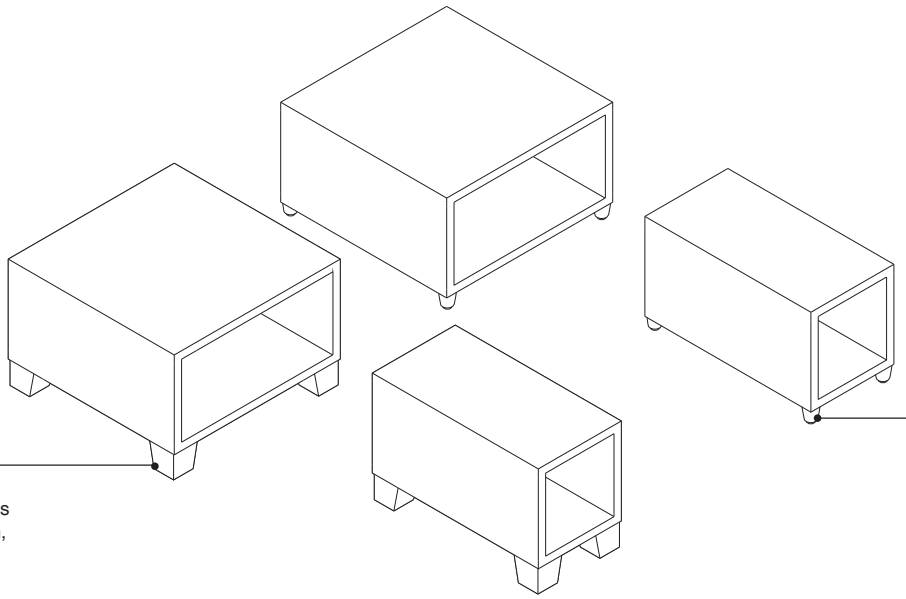




Seat is angled to allow a deeper sit.

Jenny low chairs come standard with low feet.

Jenny tables are available as a coffee table or end table. Tops of tables are available in Low-Pressure Laminate and High-Pressure Laminate. Sides and bottom of table are only available in Low-Pressure Laminate. Jenny tables ship fully assembled without feet installed. Feet are ready to install.

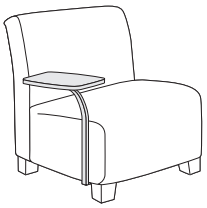


Legs are standard in black and have options for low feet, aluminum, and wood legs.

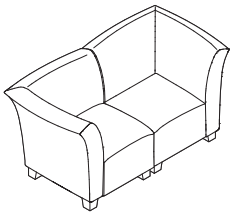
Round wood legs are solid maple and are available in three finishes. *Tip: Wood legs are natural wood and may have variations in color.*

Jenny Lounge, continued

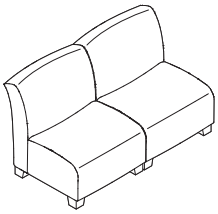
Product Details



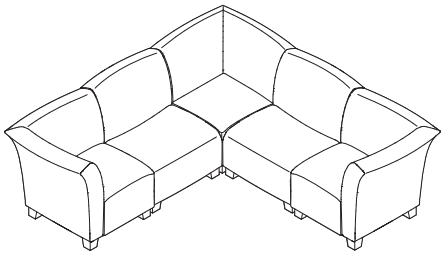
Tablet arm is only available on armless and one arm versions of Jenny.



Two Jenny pieces shown as a love seat.



Two armless Jenny pieces shown as a bench.



Jenny seating shown as a sectional.

Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Brushed aluminum legs are adjustable and have ¾" of height adjustment.

Casters and tablet arm are not retrofittable on style numbers TS31403 or TS31404.

There are height differences between Jenny low and Jenny. Please use caution when mixing Jenny low chairs with standard Jenny due to the lower height of Jenny low.

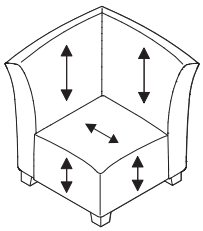
Club, club low, round, and round low have deck stitch detail. The rest of Jenny has welting detail.

Surface Materials

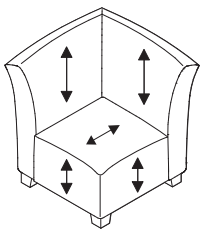
Upholstery and hard components
There may be sheen or texture differences when using Low-Pressure Laminate and High-Pressure Laminate in adjacent applications. Please use caution when mixing and matching different worksurface types.

Leather price group option ships at extended lead times.

Jenny Corner

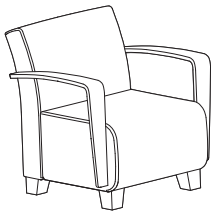


Tip: Standard seat fabric directionality is applied as the diagram above indicates (e.g. TS31406).



Tip: Reverse seat fabric directionality is applied as the diagram above indicates (e.g. TS31426).

With Wood Arms



Tip: On Jenny with wood arms, due to natural variations in wood, finished products may vary in color, texture, and grain.

Legs
- Black plastic
- Brushed aluminum

With Square Wood Legs
- 3412 Natural Cherry
- 3522 Clear Maple
- 3762 Dark Walnut

With Round Wood Legs
- V1AM Clear Maple
- V1AC Natural Cherry
- V1EW Dark Walnut

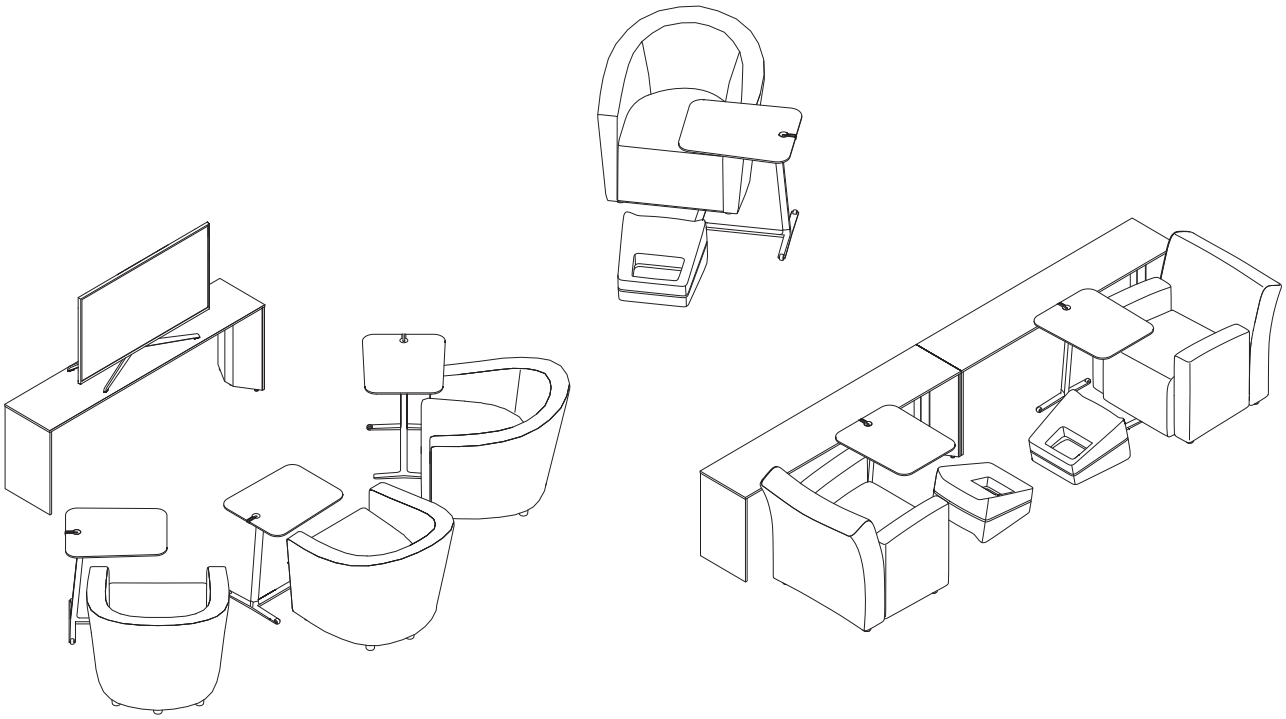
Tip: Finish 3522 Clear Maple is a clear coat and therefore natural variations in wood will be visible.

Tip: Wood legs are natural wood and may have variations in color.

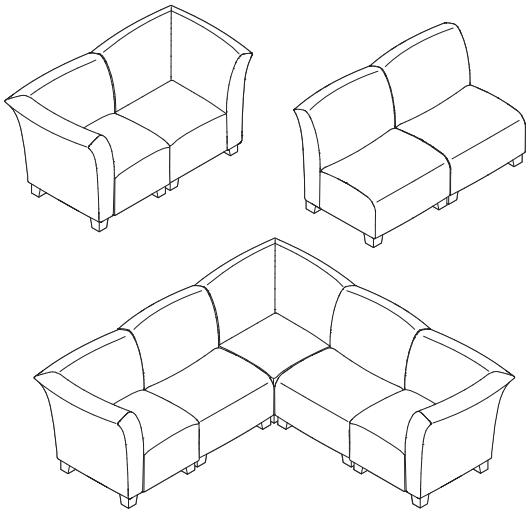
Dimensions

▶Page 172

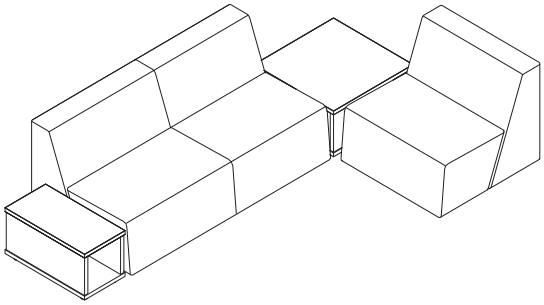
Application Guidelines



The Campfire skate table provides work space and slides easily around the Jenny low feet and over the arms.



Jenny seating allows many different configurations using armless, left or right arms only, or corner version. Create a love seat, bench, or sectional using Jenny.



Jenny tables with the optional low foot align well with Campfire lounges.

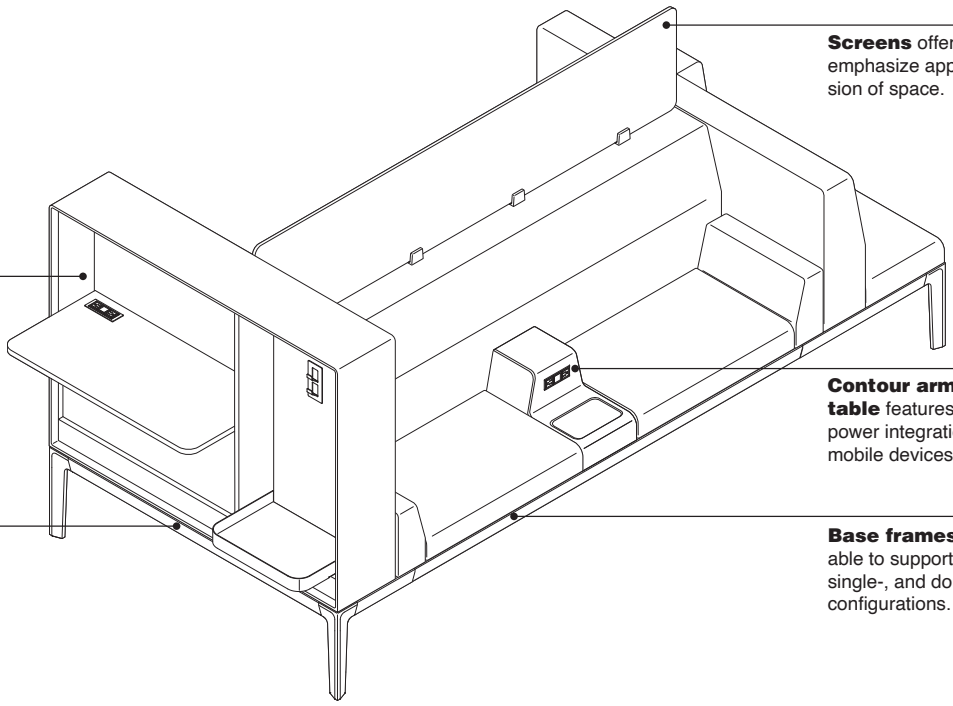
Regard General Overview

Regard is a frame-based, modular system of reconfigurable seating elements, privacy screens, tables, desk cabinets, media cabinets, and technology components.

Regard readily accommodates public and personal technology through media and desk cabinets as well as optional power integration.

Regard provides privacy for individuals and groups by incorporating screens, wide arms, and cabinets.

Regard supports a variety of postures from lounge, to seated or perched.



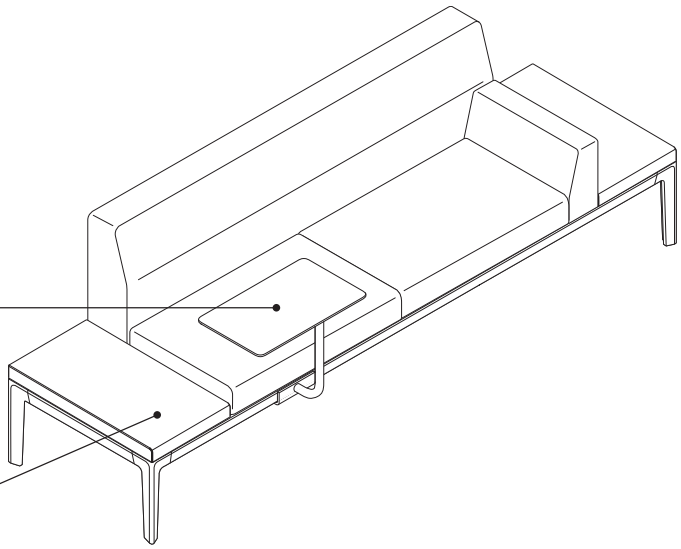
Desk and media cabinets ensure productive waiting and optimize technology support.

Screens offer privacy and emphasize appropriate division of space.

Contour arm and in-line table features optional power integration to support mobile devices.

Frame extensions are available in 11" and 27½" depths to accommodate desk cabinets, media cabinets, and end-of-run seating.

Base frames are available to support bench, single-, and double-sided configurations.



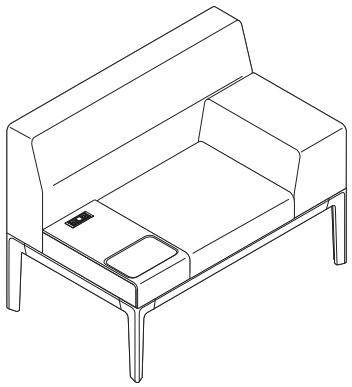
Mobile tablet surface is designed to accommodate eating, working, entertaining, and writing.
▶See *Surround Mobile Tablet*, page 425.

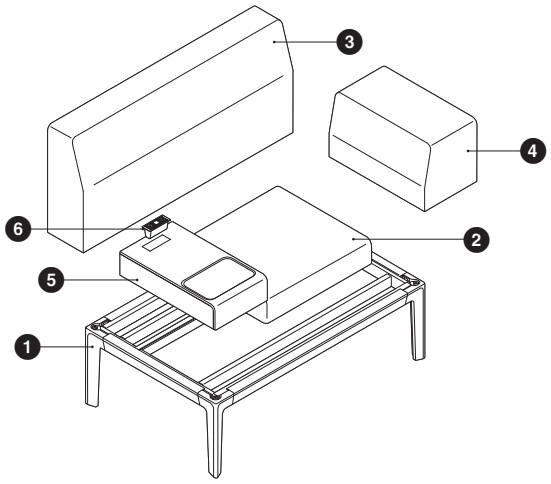
Storage end tables provide place for personal items.

Regard Thought Starters and Applications

44"W Single-Sided Seating

11"W arm and in-line table provide space for personal belongings and optional technology support.





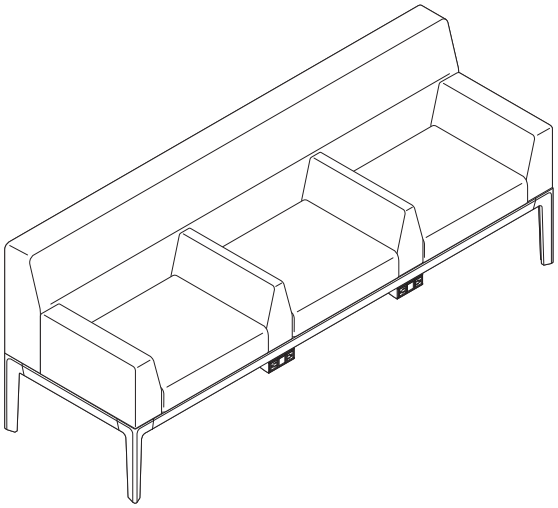
44"W Single-Sided Seating

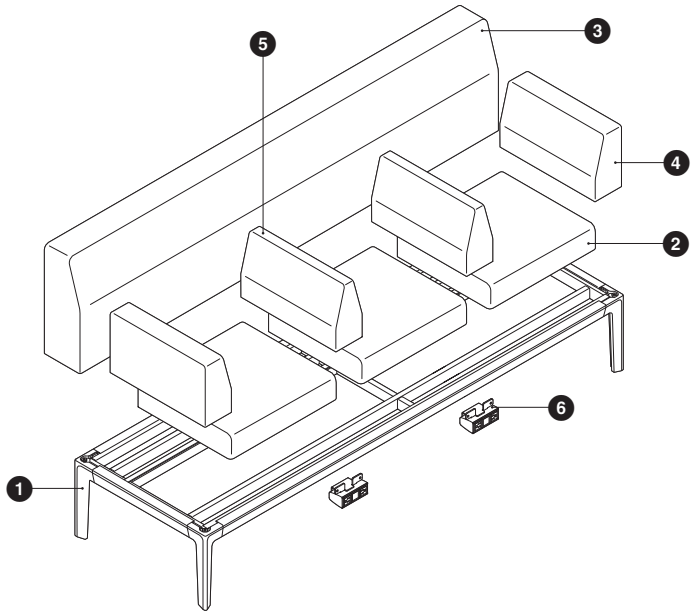
Recommended Components

	Quantity	Style Number	Description
1	1	**HS4FS44**	Single-Sided Frame – 27½"D x 44"W
2	1	**HS4H22**	Seat Cushion – 20"D x 22"W
3	1	**HS4BS44**	Single-Sided Back – 7½"D x 44"W
4	1	**HS4AS11**	Single-Sided Arm – 20"D x 11"W
5	1	**HS4TL11**	In-line Table (with power cutout) – 20"D x 11"W
6	1	**HS4VPSDC**	Power Strip

88"W Single-Sided Seating

Three-seat unit offers comfortable seating capacity with convenient optional power access.





88"W Single-Sided Seating

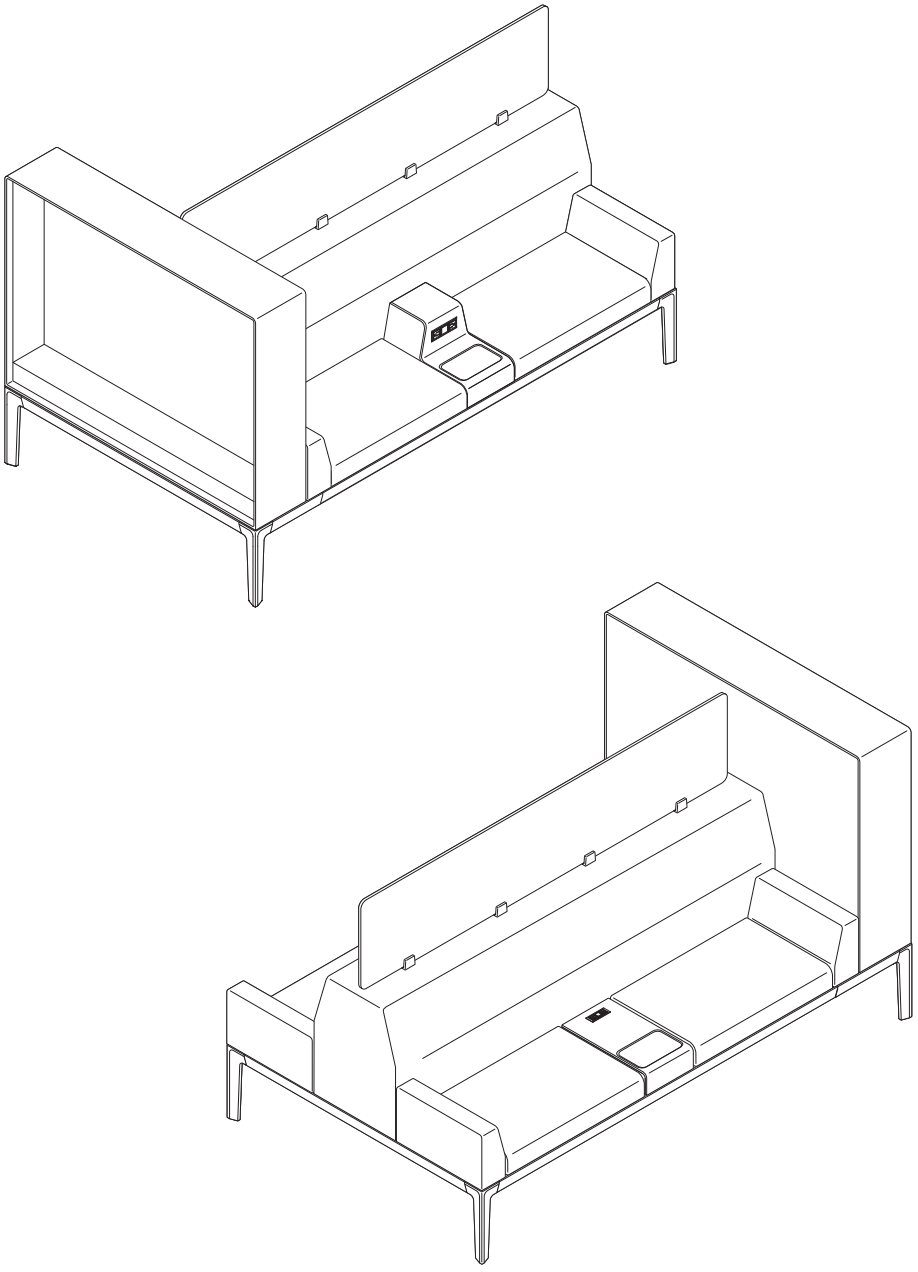
Recommended Components

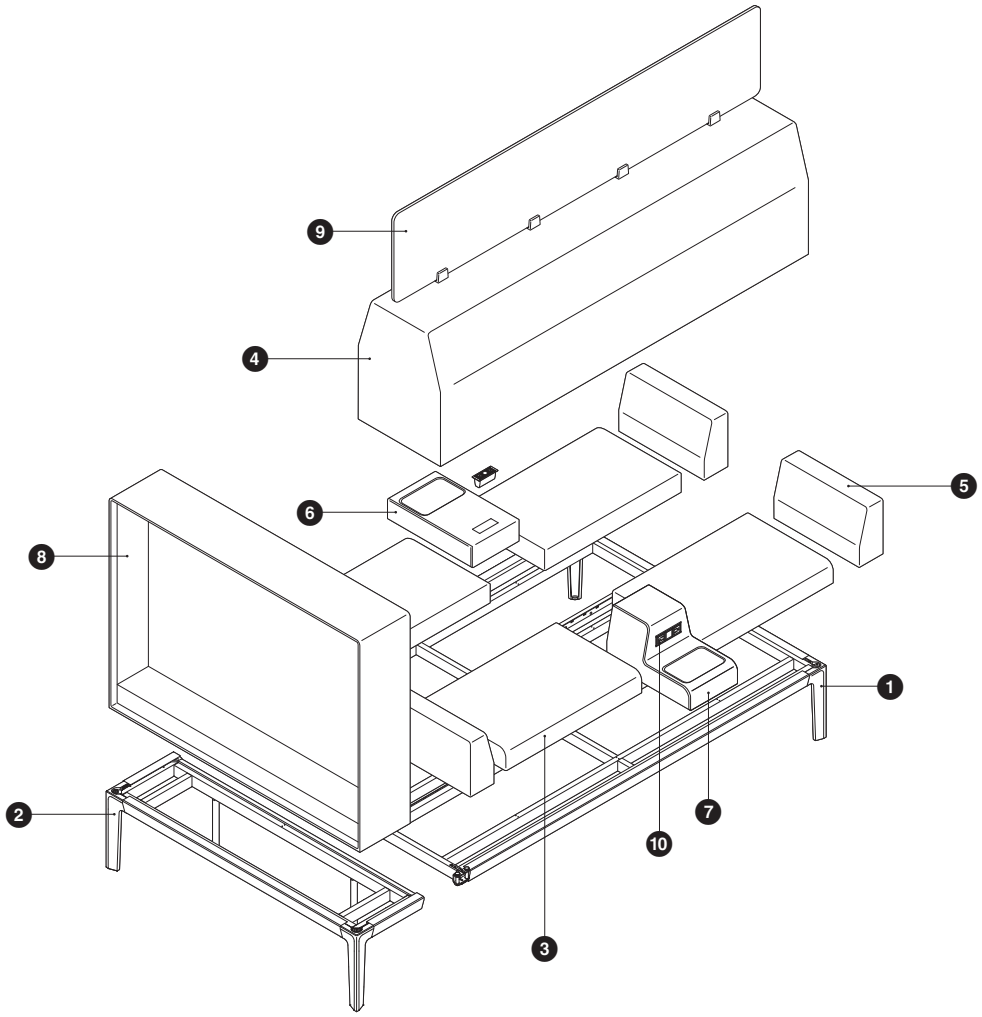
	Quantity	Style Number	Description
1	1	**HS4FS88**	Single-Sided Frame – 27½"D x 88"W
2	3	**HS4H22**	Seat Cushion – 20"D x 22"W
3	1	**HS4BS88**	Single-Sided Back – 7½"D x 88"W
4	2	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
5	2	**HS4AD6**	Double-Sided Arm – 20"D x 5½"W
6	2	**HS4VPSFC***	Power Strip

*Additional power components may be required to complete installation.

88"W Double-Sided Seating with 11"D Cabinet Extension

Wide cushion and powered arms ensure physical comfort by accommodating a variety of user needs and postures.





88"W Double-Sided Seating with 11"D Cabinet Extension

Recommended Components

	Quantity	Style Number	Description
1	1	**HS4FD88**	Double-Sided Frame – 55"D x 88"W
2	1	**HS4FE1155**	Frame Extension – 11"D x 55"W
3	4	**HS4H33**	Seat Cushion – 20"D x 33"W
4	1	**HS4BD88**	Double-Sided Back – 15"D x 88"W
5	4	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
6	1	**HS4TL11**	In-line table (with power cutout) – 20"D x 11"W
7	1	**HS4AU11**	Contour Arm (with power cutout) – 20"D x 11"W
8	1	**HS4CM**	Media Cabinet – 11"D x 55"W

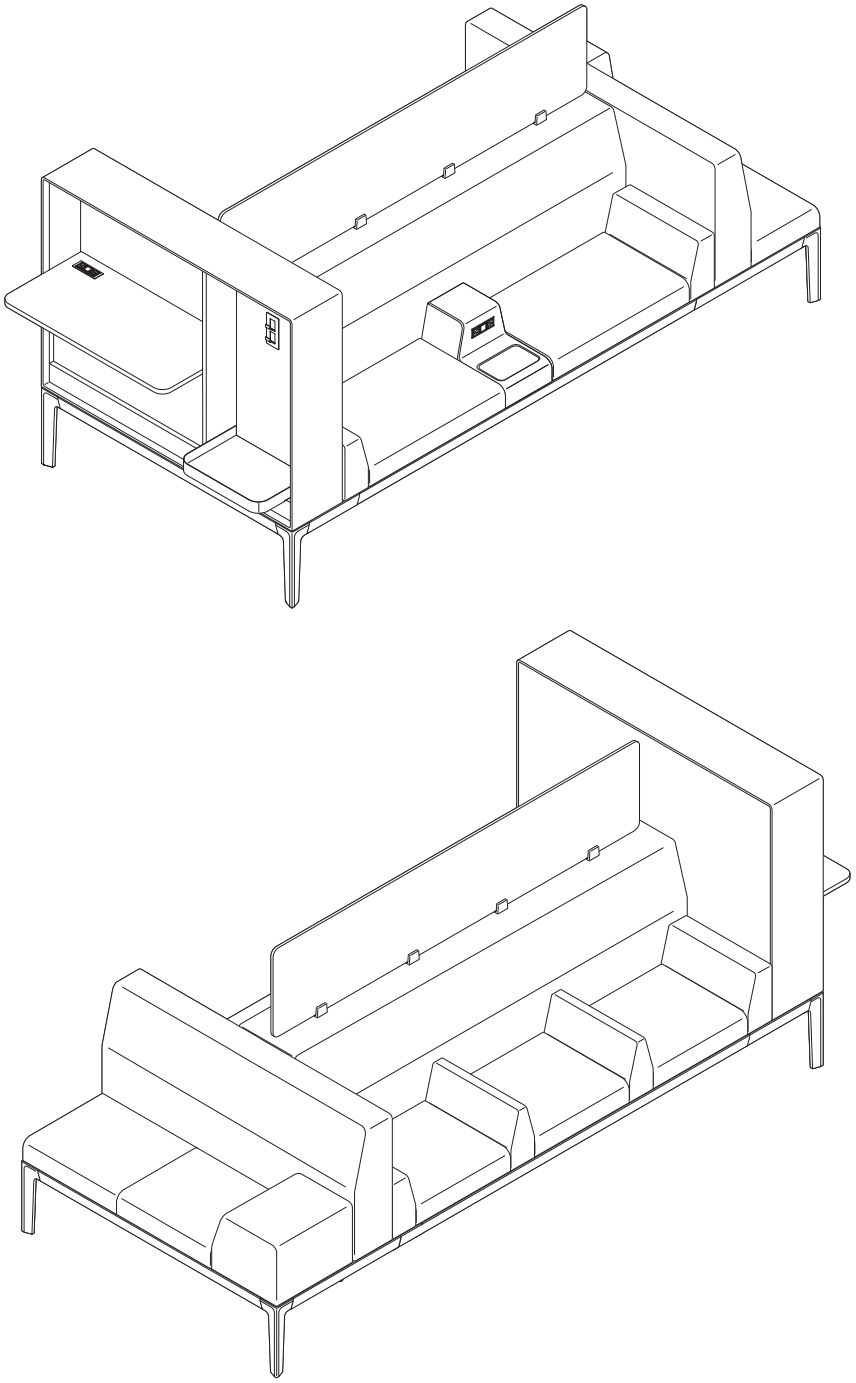
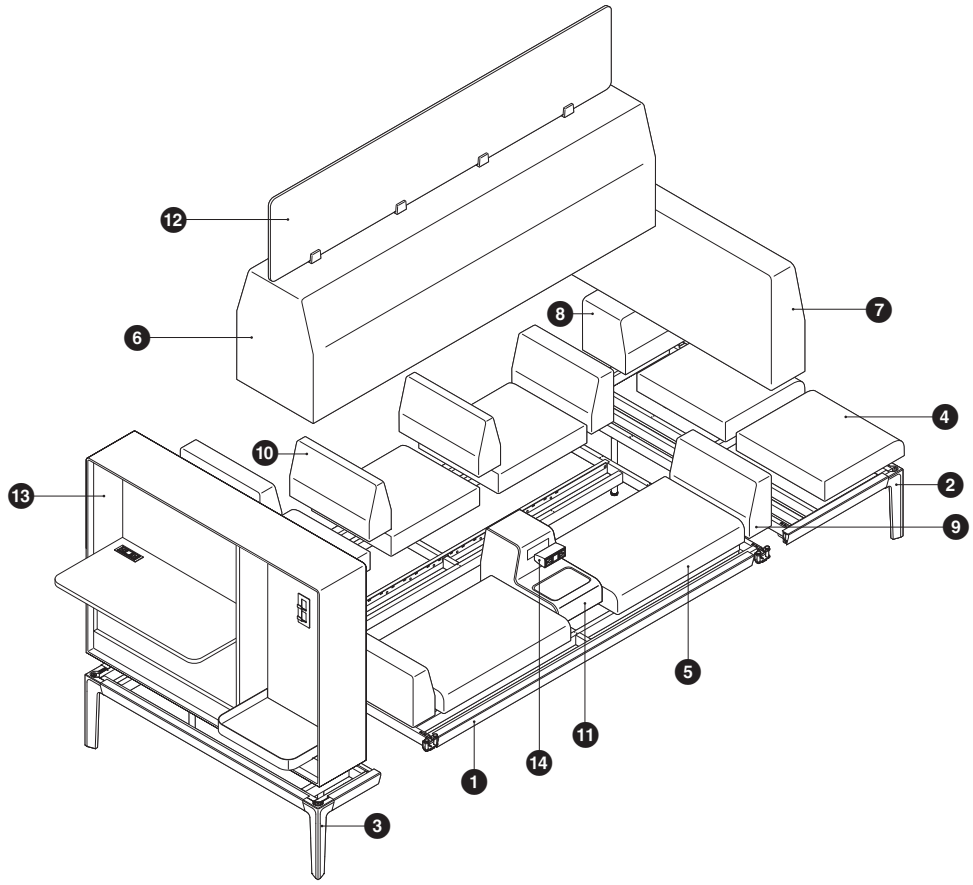
10	2	**HS4VPSDC***	Power Strip

*Additional power components may be required to complete installation.

88"W Double-Sided Seating with 11"D and 27½"D Extensions

Double-sided and end-of-run seating supports desires for privacy and intimacy.





88"W Double-Sided Seating with 11"D and 27½"D Extensions

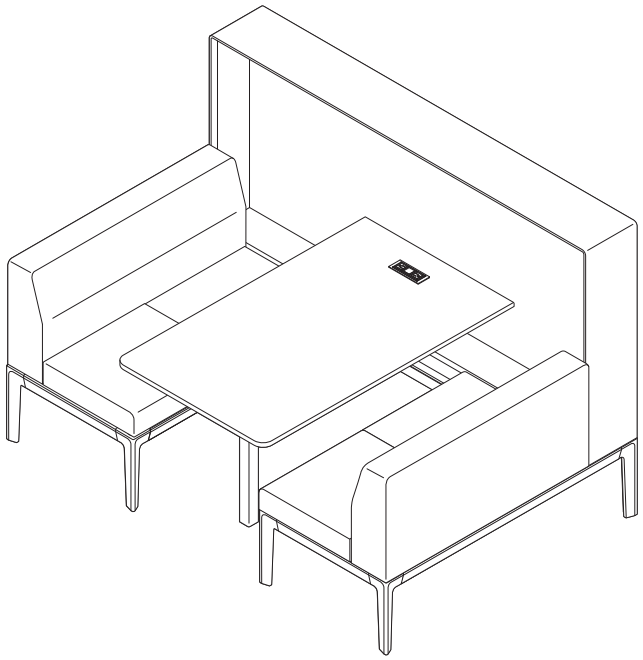
Recommended Components

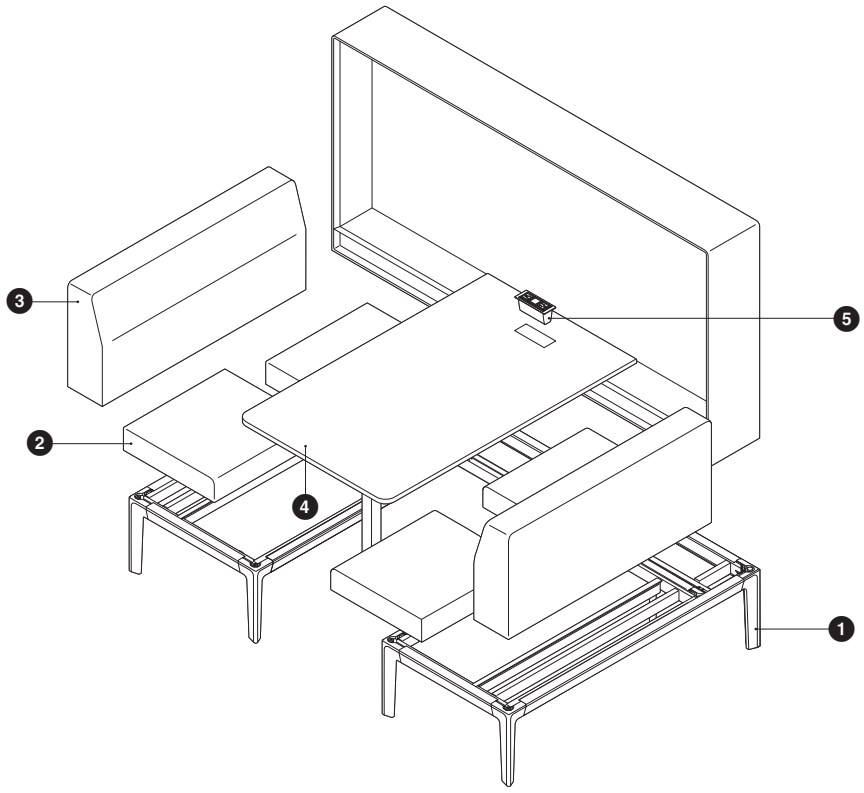
	Quantity	Style Number	Description
1	1	**HS4FD88**	Double-Sided Frame – 55"D x 88"W
2	1	**HS4FE2855**	Frame Extension – 27½"D x 55"W
3	1	**HS4FE1155**	Frame Extension – 11"D x 55"W
4	5	**HS4H22**	Seat Cushion – 20"D x 22"W
5	2	**HS4H33**	Seat Cushion – 20"D x 33"W
6	1	**HS4BD88**	Double-Sided Back – 15"D x 88"W
7	1	**HS4BS55**	Single-Sided Back – 7½"D x 55"W
8	1	**HS4AS11**	Single-Sided Arm – 20"D x 11"W
9	4	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
10	2	**HS4AD6**	Double-Sided Arm – 20"D x 5½"W
11	1	**HS4AU11**	Contour Arm (with power cutout) – 20"D x 11"W
12	1	**HS4S88G**	Privacy Screen – 88"W x 14"H
13	1	**HS4D1836L**	Desk Cabinet with Bag Retainer and Coat Hook
14	2	**HS4VPSDC***	Power Strip

*Additional power components may be required to complete installation.

55"W Booth with Four 22"W Cushions

Booth seating provides a boundary from the surrounding environment with consideration for families and small groups.





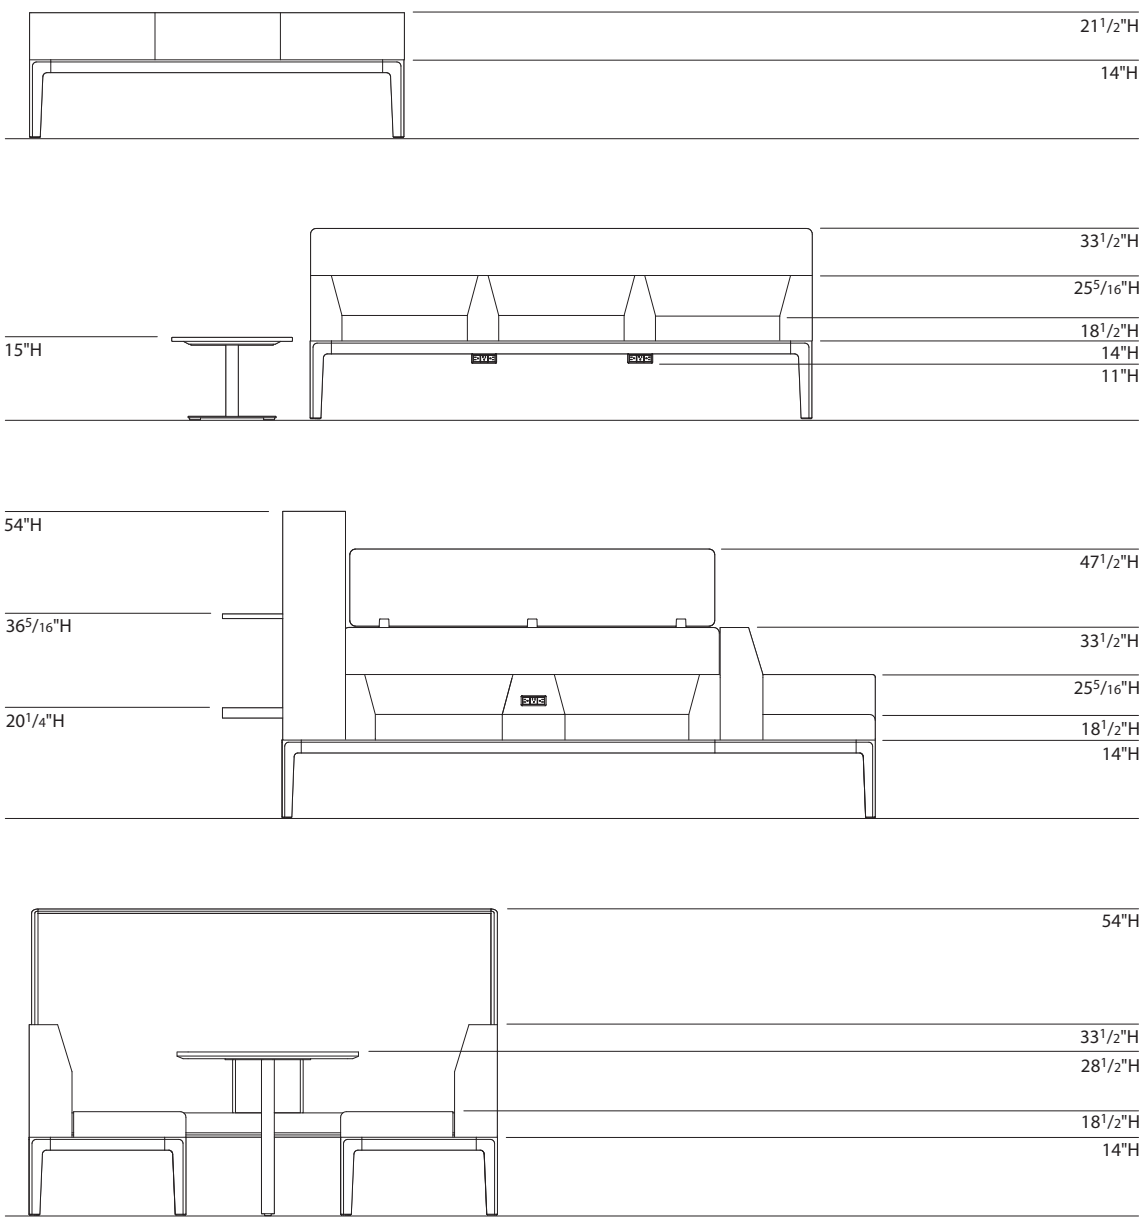
55"W Booth with Four 22"W Cushions

Recommended Components

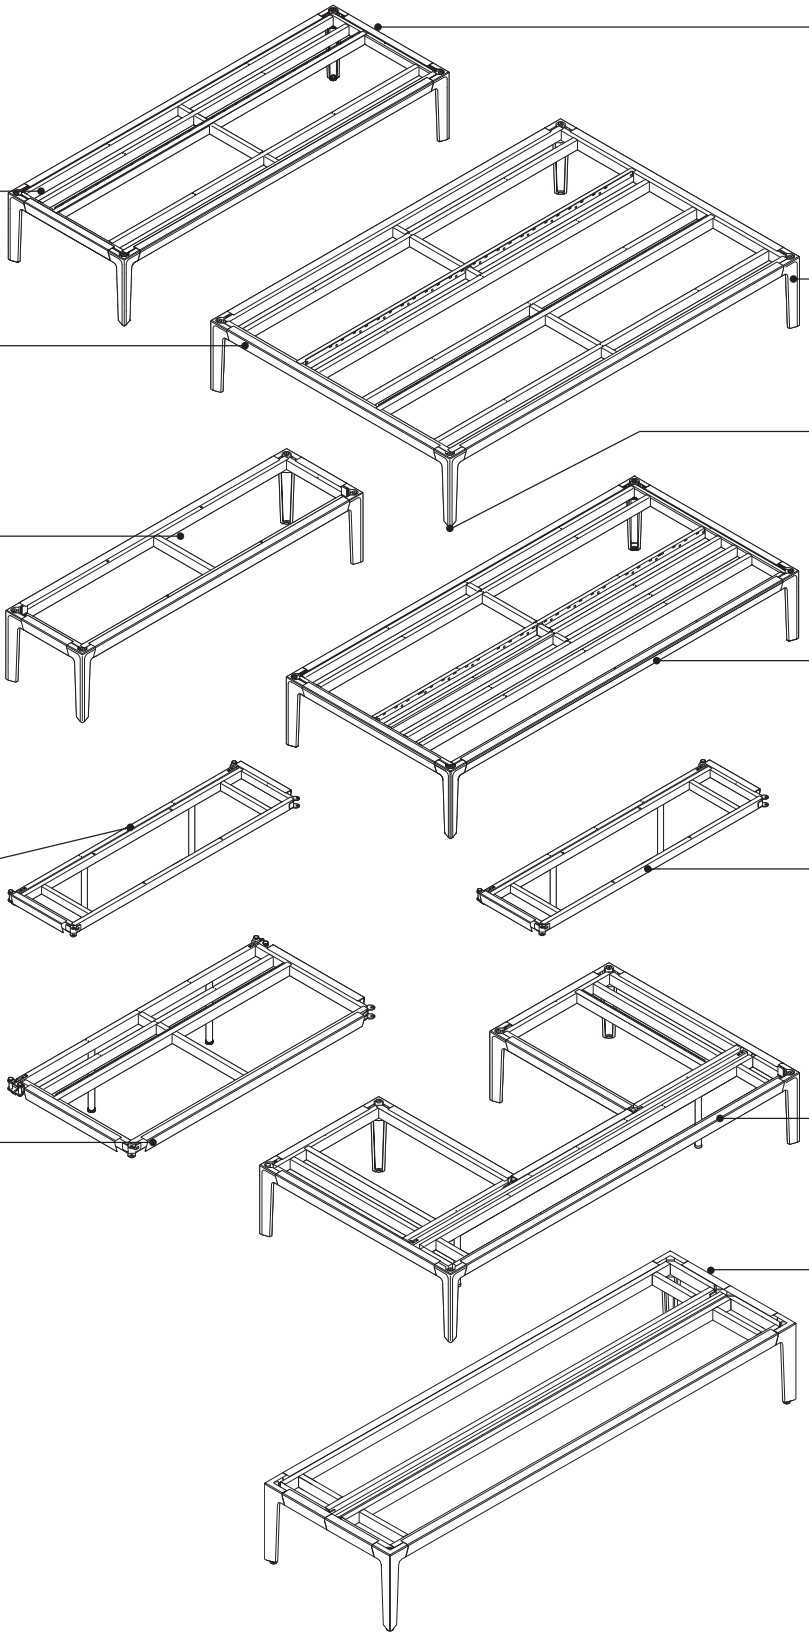
	Quantity	Style Number	Description
1	1	**HS4FC5581**	Booth Frame – 55"D x 80½"W
2	4	**HS4H22**	Seat Cushion – 20"D x 22"W
3	2	**HS4BS44**	Single-Sided Back – 7½"D x 44"W
4	1	**HS4TC5581L**	Booth with Table (with LED light option) – 55"D x 80½"W
5	1	**HS4VPSDC***	Power Strip

*Assume power plugged directly into wall or floor outlet.

Regard Height Diagram



Regard Base Frames and Frame Extensions



Frame understructure is welded tubular steel.

Single-sided base frames support modular seating with accompanying single-sided backs.

Cast aluminum legs connect to steel understructure to provide support and add visual continuity.

Double-sided base frames accommodate seating on opposite sides with a double-sided back in between.

Glides have a 1 1/2" adjustment range.

Bench base frames support two or three bench cushions.

Single-sided planter frame accommodates both seating and planter components.

Frame extensions are available to accommodate 11"D cabinets or 27 1/2"D seating end caps.

Cabinet frame extension provides foundation for end-of-run desk and media cabinets. Frame extensions can be added to either end of double-sided frames or to the back of a 55" single-sided unit for additional configurations.

Planter frame extension provides foundation for end-of-run planter applications.

Seating frame extensions provide foundation for end-of-run seating. Frame extensions can be added to either end of double-sided frames for additional configurations.

Booth base frames accommodate booth cabinet and attached seating configurations.

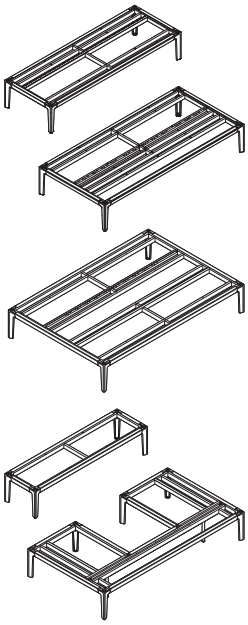
Base frames and seating components allow for configuration on a 5 1/2" module. Each base frame width can support various combinations of components.

Freestanding back-to-back frame accommodates back-to-back media and desk cabinet applications.

Actual Dimensions

	Depth	Width	Height
Base Frames			
Single-Sided	27½"	33", 44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Single-Sided Planter	37½"	44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Double-Sided	55"	44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Bench	18"	44" and 66"	14"
Booth	44" and 55"	80½"	14"
Wall-mount	11"	55"	14"
Freestanding Back-to-Back Cabinet	22"	55"	14"
Frame Extensions			
Seating	27½"	55"	14"
Cabinet	11"	55"	14"
Planter	11"	44", 60½", 66", 71½", 77", 82½", and 88"	14"

Product Details



Base frames are available in single-sided, double-sided, planter, bench, freestanding back-to-back cabinets, and booth configurations.

Base frames are available in two depths, 27½" for single-sided seating and 55" for double-sided seating.

Base frames are available in widths from 33"–88" for single-sided and 44"–88" for double-sided on a 5½" increment.

Planter base frames are available 37½"D and in widths from 44"–88".

Bench base frames have a standard depth of 18" and feature either 44" or 66" widths for two- or three-seat configurations.

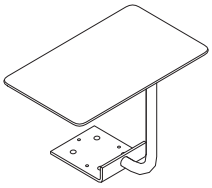
Booth base frames have a standard width of 80½" and feature 44" or 55" depths.

Wall-mounted frame includes two corner legs, trim, and wall-mount hardware.

Freestanding back-to-back cabinet frames have a standard depth of 22" and include four legs and trim pieces.

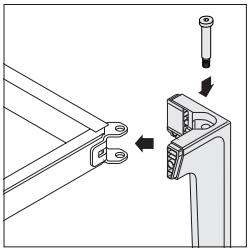
Frames include legs and all required trim pieces.

Frames are dynamically tested to 500 pounds and statically tested to 750 pounds in all seating positions.



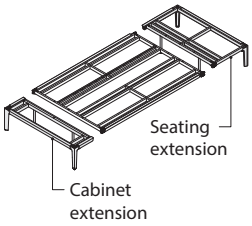
The Surround mobile tablet is designed to accommodate eating, working, entertaining, and writing. The surface is offered in a variety of Steelcase plastic finishes. The tablet arm is offered in a variety of Steelcase paint finishes.

Connections

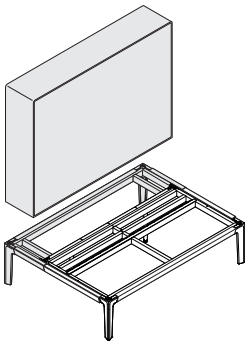


Cast legs attach to steel frame with bolts at each corner of the frame.

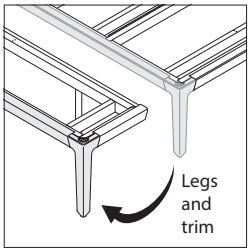
Aluminum extrusion trims span between each corner leg to lock in seats and arms. Seats can be reconfigured by removing trims.



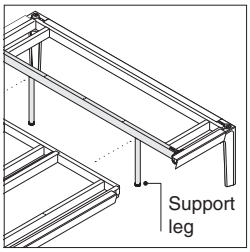
Seating, cabinet, and planter frame extensions attach to either end or both ends of a double-sided frame.



Cabinet frame extension can be added to the back side of 55"W single-sided frame.

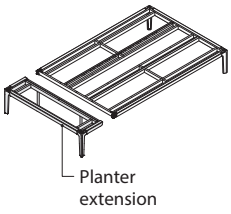


Base frame extensions link to existing base frame understructure. Legs and trim from the existing double-sided base frame are brought to the outside of the base frame extension.



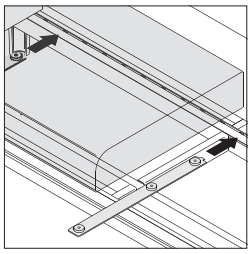
Base frame extensions include two additional support legs as standard.

Regard Base Frames and Frame Extensions, continued

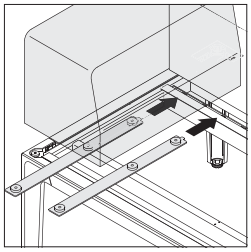


Planter frame extension attaches to existing base frame understructure allowing for the integration of a planter.

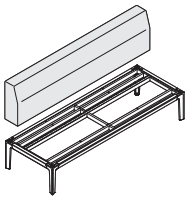
Tablet frame option modifies 44" through 71"W single-sided and frame extension frames to allow for the Surround mobile tablet to be installed on the Regard frame. Single-sided frames 77" through 88"W are standard with this feature. Double-sided frames are also standard with this feature which allows the mobile tablet to be retrofitted onto existing frames. The tablet frame option is not available on the 33" single-sided frame, the planter frames, or the planter frame extensions.



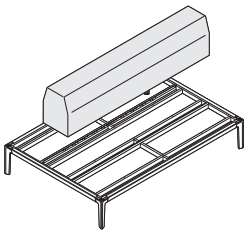
Seat cushions have standard brackets that secure to frame and frame extension without fasteners.
▶Page 212



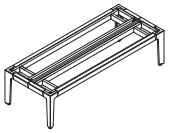
Arms and inline table connect to the frame and frame extensions in same manner as seat cushions.



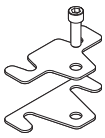
Single-sided backs attach to single-sided frame with included hardware.



Double-sided backs attach to the middle of double-sided frames.

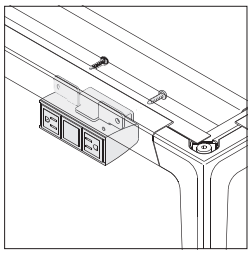


Freestanding back-to-back frames can accommodate desk, media, or combinations of desk and media cabinets.



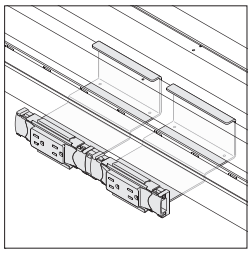
Ganging brackets are required when connecting power between two adjacent frames.

Wiring & Cabling



Power strips can attach to underside of any base frame. It can be mounted anywhere along the frame, but must avoid locations that interfere with leg connections.

When the Surround mobile tablet is installed on the frame, power cannot be mounted to the front edge of the frame. *Tip: Power strips are not recommended in middle of seat cushion.*

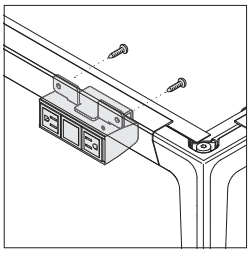


Modular power components attach to the frame with included brackets.

Power components, cords, and conduit can be attached and routed on the bottom of the steel frame.
▶See *Regard Electrical Components*, page 228

Power can be connected frame-to-frame using a modular harness. Frame-ganging brackets must be specified.
▶See *Ganging Harness Length Guidelines*, page 234

Power components are ordered separately.
▶See *Regard Electrical Components*, page 228



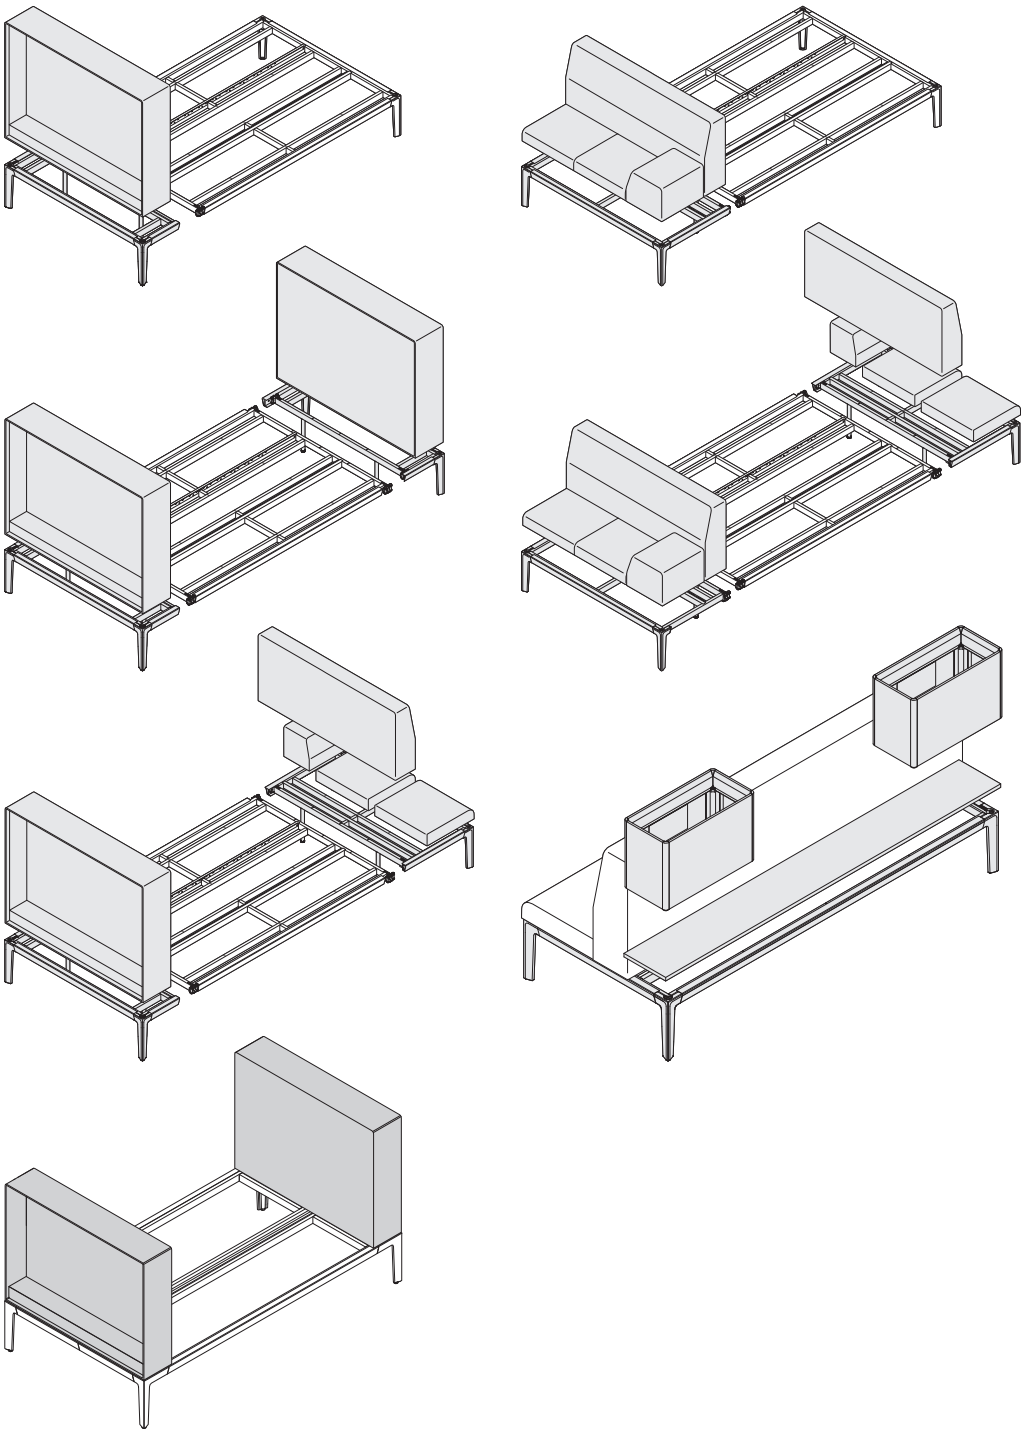
Power strips can be mounted to bench frames.

Application Topics

Base frames can accept backs, seat cushions, arms, and casegoods in a variety of configurations. Seating configuration is determined during specification.

Tip: For seat cushion and back configurations, refer to seat cushion or seat back.

▶Pages 212–214



Ganging brackets are available for mechanically attaching single- or double-sided frames.

Surface Materials

Frames and legs

- Paint
- Lux Coatings

Adjustable glides

- Platinum solid plastic only

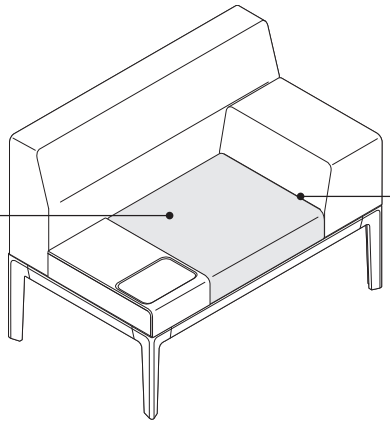
Shipping

Base frames ship knocked down in three packs that contain the steel frame, aluminum extrusion trims, and legs. Frames require field assembly, and attachment hardware is included.

Regard Seat and Bench Cushions

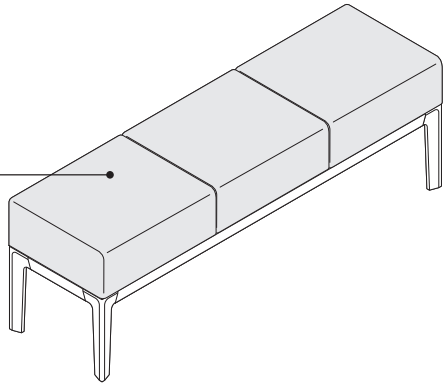
Seat and bench cushions are available in three sizes to provide a comfortable sitting experience.

Seat cushions are available in three sizes and can attach in any position on the base frame on a 5½" module.



Crumb sweeps are on all three sides of seat cushion.

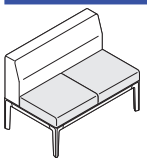
Bench cushion features a thicker cushion to accommodate a shorter, more active sit.



Actual Dimensions

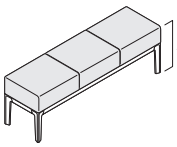
	Depth	Width	Height
Seat Cushions	20"	22", 27½", 33"	4½"
Bench Cushion	18"	22"	7½"

Product Details



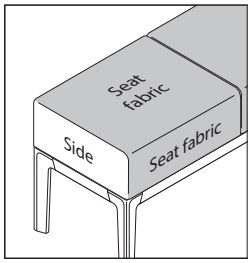
Seat cushions are 22"W, 27 1/2"W, and 33"W, 4 1/2"H, and 20"D and available for single-sided, double-sided, booth frames, and 27"D frame extensions. When mounted to a frame seat height is 18" off the floor.

33"W seat cushion provides extra width for bariatric support or parent/child. 33"W cushion also supports alternative postures.



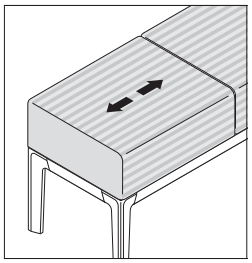
Bench cushions feature a height of 7 1/2", and when mounted to a bench frame, they provide a seat that is 21 1/2" off the ground.

Bench cushions can only be used with bench frames.



Bench cushions are available with contrasting fabric. Seat fabric is located on top, front, and back of cushion. Side fabric is located on each end of cushion.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.

Moisture barrier is an option on all seat cushions.

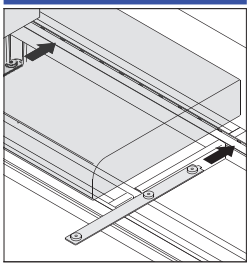


Fabric is applied to seat cushions in the railroaded or horizontal direction to remain consistent with the backs.
Tip: Vertical application of fabrics is not allowed on Regard products as standard. If vertical application is required, then request through Specials.

Patterned fabrics will not match between seats, arms, and backs.

Large patterned fabrics should be used selectively and are not recommended for use on all components. Patterns will not match between components.

Connections



Seat cushions have brackets that secure to frames and frame extensions without fasteners.
▶ Page 212

Seats can be placed in any location along frame on a 5 1/2" module and can be next to any arm or other seat cushion.

Application Topics

Benches can be incorporated to achieve higher density in Regard applications.

Surface Materials

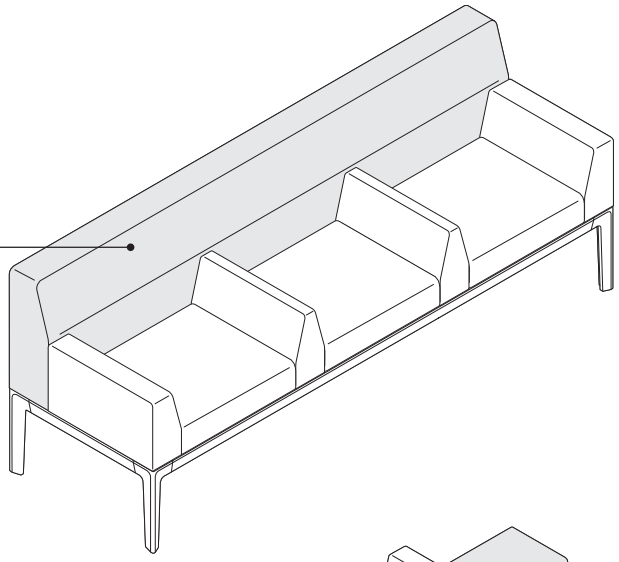
All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Seat and sides
- Fabric
- Fabric with moisture barrier (option)

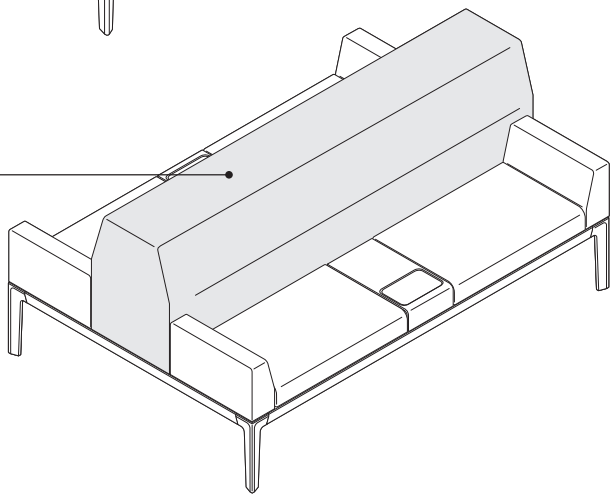
Regard Backs

Backs integrate with single-sided, double-sided, or booth frames.

Single-sided backs must attach to single-sided frames or seating frame extensions.



Double-sided backs must attach to double-sided frames.

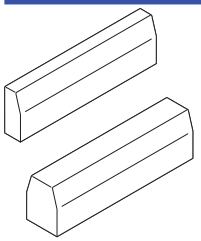


Actual Dimensions

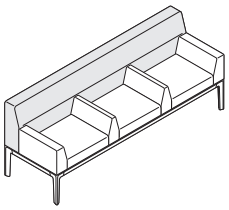
Single-Sided Back	
Depth	7½"
Width	33", 44", 55", 60½", 66", 71½", 77", 82½", and 88"
Height	19½"

Double-Sided Back	
Depth	15"
Width	33", 38½", 44", 49½", 55", 60½", 66", 71½", 77", 82½", and 88"
Height	19½"

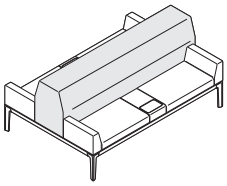
Product Details



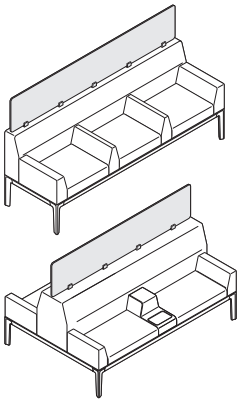
Backs are available in single-sided and double-sided options.



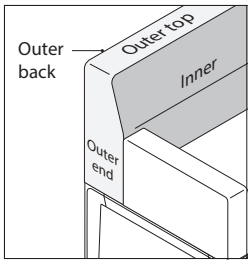
Single-sided backs attach to single-sided frames or seating frame extensions.



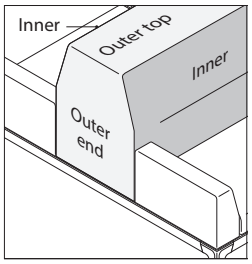
Double-sided backs attach to double-sided frames only. All backs must match the width of the of the frame.



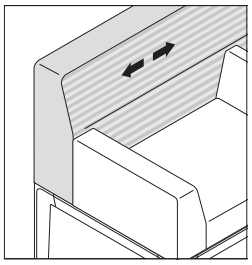
Privacy screens are available on single and double backs. Screens match the length of the back.



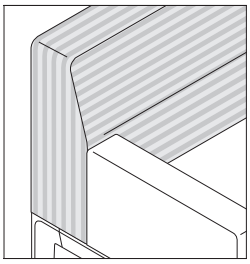
Single-sided back outer fabric is located on ends, top, and back facing away from seat cushion. Inner fabric is on the side of back facing seat cushion.



Double-sided back outer fabric is located on ends and top of back cushion. Inner fabric is on both sides of back facing both sets of seat cushions.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.



Back fabric is applied in the railroaded or horizontal direction to remain consistent with seat cushions.
Tip: Vertical application of fabrics is not allowed on Regard products as standard. If vertical application is required, then request through Specials.



Fabric on the top of the back will match patterns on the front of the back but is applied to waterfall over the ends. Ends will not match top and front of back.

Patterned fabrics will not match between seats, arms, and backs.

Connections

Backs attach to frames with stanchions and brackets that are shipped with the back.

Privacy screen option must be specified when attaching a screen to the back and must match width of the back.

Privacy screens, available as a separate style number, can attach to all backs.
▶See *Regard Privacy Screens*, page 220

Application Topics

Single- and double-sided backs should always be ordered to match the base frame length.

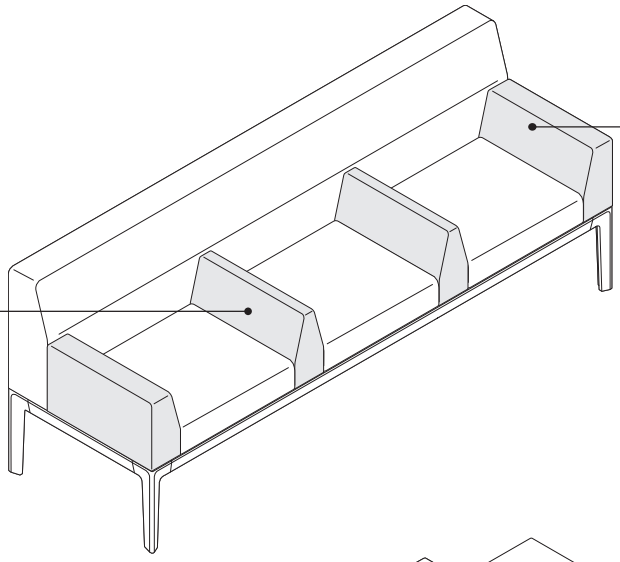
Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Back, top, and sides
- Fabric

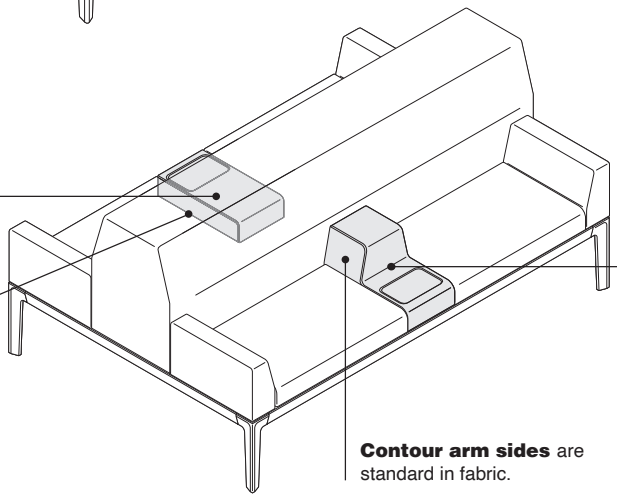
Regard Arms and Storage End Tables

Arms lend posture and personal belonging support to the user while providing spacial boundaries and separation between users.



Single-sided arms are available for placement at the end-of-seating runs.

Double-sided arms are available for placement between seat cushions.



In-line arm is standard with durable plastic top. Power cutout is optional with in-line arm.

In-line arm sides are standard in fabric.

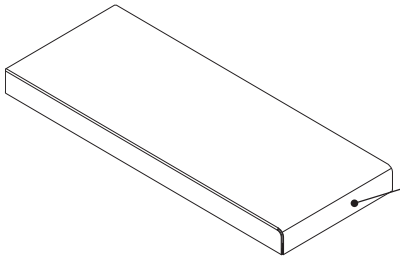
Contour arm is standard with durable plastic top. Power cutout is optional with contour arm.

Contour arm sides are standard in fabric.

Actual Dimensions

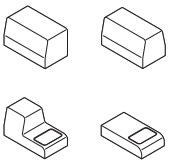
Depth	20"
Width	5½" and 11"

Storage end table is available in an 11"W.

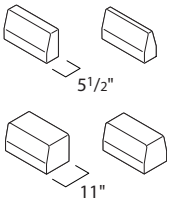


Storage is offered in a variety of Steelcase paint finishes.

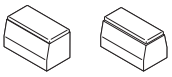
Product Details



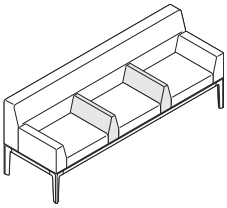
Arm options include single- and double-sided, contour, and in-line designs.



Single- and double-sided arms are available in 5½" and 11" widths, consistent with the 5½" modularity.



Single- and double-sided arms are available with plastic arm caps.

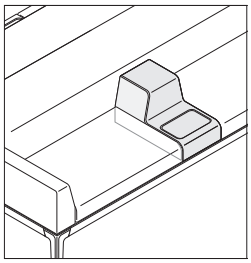


Double-sided arms are designed to be placed between seats with the angled edges adjacent to the occupants, providing the benefit of additional space, and posture support.

Actual Dimensions

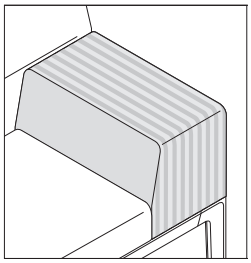
	Depth	Width	Height
Storage End Tables	27½"	11"	2"

Regard Arms and Storage End Tables, continued

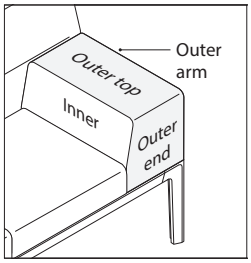


Contour and in-line arms feature durable plastic tops and upholstered sides.

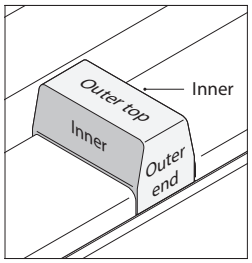
Contour arms should only be specified between seat cushions.



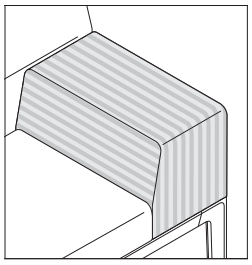
Contrasting fabrics are available on single- and double-sided arms.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.



Single-sided arm outer fabric is located on ends, top, and back facing away from seat cushion. Inner fabric is on the side of arm, facing seat cushion.



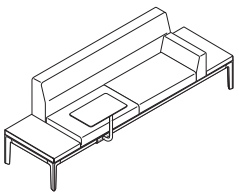
Double-sided arm outer fabric is located on ends and top of back cushion. Inner fabric is on both sides of arm facing both sets of seat cushions.



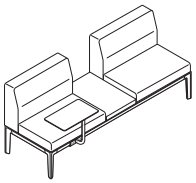
Fabric on the top of the arm will match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.

Patterned fabrics will not match between seats, arms, and backs.

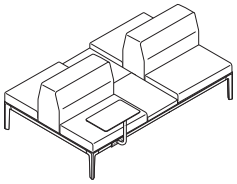
Large patterned fabrics should be used selectively and are not recommended for use on all components. Patterns will not match between components.



Storage end table extends the full depth of the Regard frame. The table can be installed on either end of a single-sided or double-sided frame.



Storage end table can be placed between two backs on both single- and double-sided frames.



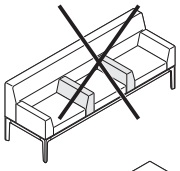
Storage end table can be placed back-to-back on double-sided frames on either end or between two back cushions.

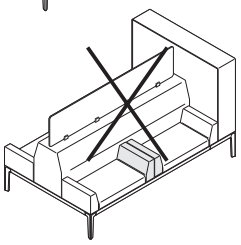
Fillers should be ordered when specifying storage end tables back-to-back. The filler fills the gap between the two tables.

Connections

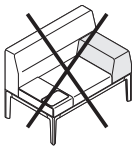
Arms are shipped with brackets for attachment.

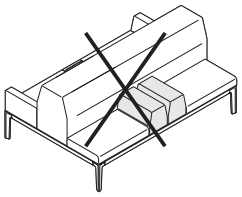
Application Topics



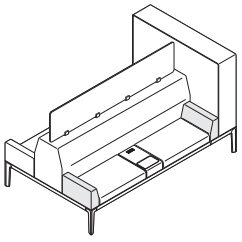


Single-sided arms should not be placed between seat cushions or next to other arms.

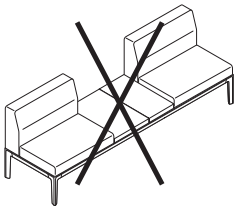




Double-sided arms should not be placed at end-of-run seating or other double-sided arms.

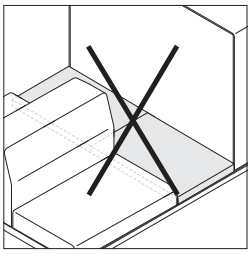


Single-sided arms are designed to be placed in the end positions. Frame extensions fit tight to single-sided arms if specified.

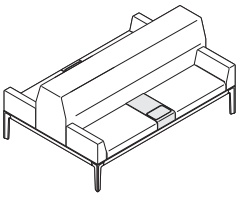


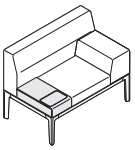
Storage end table should not be placed side by side on either single- or double-sided frames.

Storage end table should not be used on planter frames or frames with the planter extension.

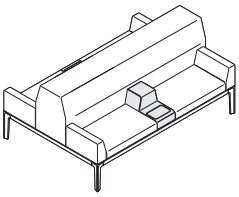


Storage end tables should not be placed next to desk or media cabinets.



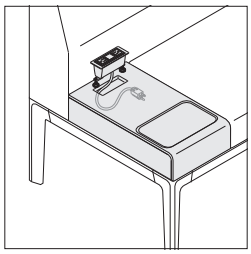


In-line arms can be positioned between seats or in the end positions.



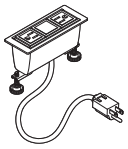
Contour arm should only be placed between seat cushions.

Wiring & Cabling



Contour and in-line arms can be specified to accommodate power integration.

Power cutout option must be specified when incorporating power.



Power strip with cord or hardwire option must be specified when power is needed for use with contour or in-line arm. Over current protection is required in California.

▶See *Regard Electrical Components*, page 228

Surface Materials

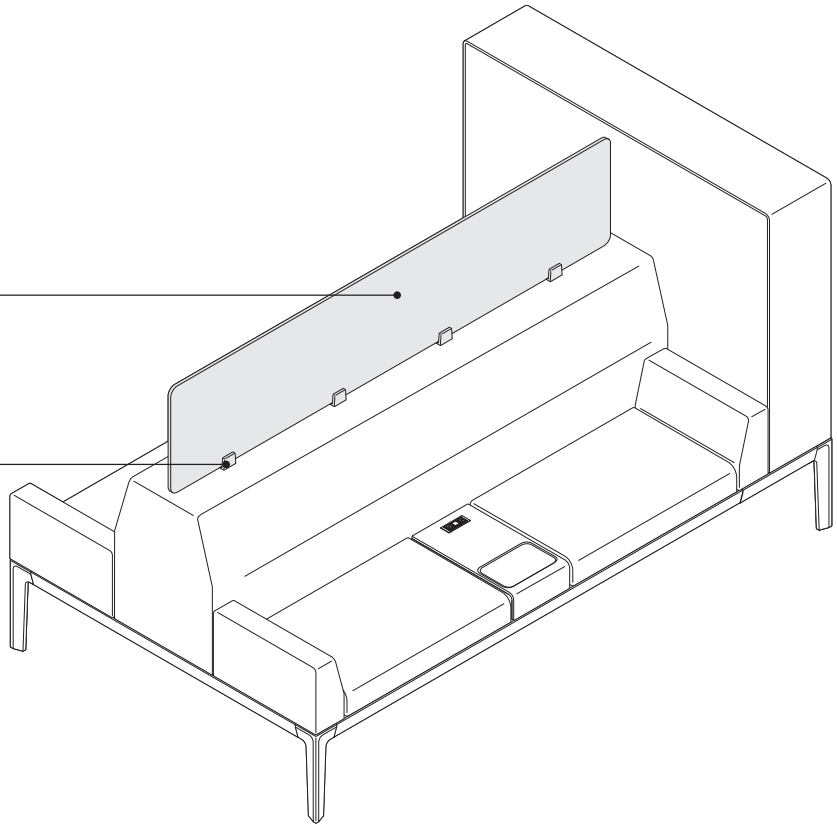
Regard Privacy Screens

Privacy screens not only divide space, but also create intimate settings while instilling a sense of visual calm.

Privacy screens are standard in frosted tempered glass.

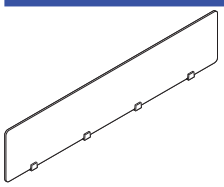
Attached brackets are included in shipping.



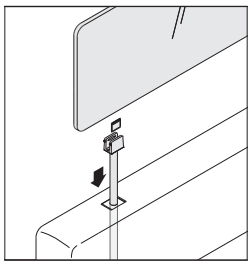
Actual Dimensions

Depth	3⁄8"
Width	33", 38½", 44", 49½", 55", 60½", 66", 71½", 77", 82½", 88"
Height	14"

Product Details



Privacy screens range in size from 33"W to 88"W to match the width of the back.



Privacy screen includes glass screen, brackets, supports, and top of cap with holes to accommodate brackets.

Connections

Privacy screens attach to the top of seat backs with metal brackets that are included with the screen. Backs must be specified with the screen attachment option.
▶See *Application Topics* for specific size requirements.

Screen brackets and stanchions can be specified separately to allow users to supply own screen material.
Tip: When specifying custom screen materials, screen lengths 33"–55" require two brackets and stanchions and screen lengths 60½"–88" require four brackets and stanchions.

When using custom screen materials, the installer must attach glass tabs to the screen. Glass connection tabs come with screen brackets and stanchions.

Application Topics

Field-Installed Glass Size Requirements

Style Number	Maximum Height	Maximum Width	Thickness Range (min-max)	Corner Radius
Standard				
HS4S33G	14"	33"	.350-.400"	1"
HS4S39G	14"	38½"	.350-.400"	1"
HS4S44G	14"	44"	.350-.400"	1"
HS4S50G	14"	49½"	.350-.400"	1"
HS4S55G	14"	55"	.350-.400"	1"
HS4S61G	14"	60½"	.350-.400"	1"
HS4S66G	14"	66"	.350-.400"	1"
HS4S72G	14"	71½"	.350-.400"	1"
HS4S77G	14"	77"	.350-.400"	1"
HS4S83G	14"	81½"	.350-.400"	1"
HS4S88G	14"	88"	.350-.400"	1"

Tip: Field installed glass should always be tempered. Laminated glass must not be used.

Tip: Order connection tabs, 24035701SR, for each field installation screen.

Tip: All non-standard screens should be ordered 2" shorter than Steelcase standard. All edges must be rounded and beveled.

Surface Materials

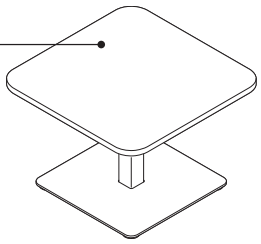
Screen
- 6530 Frosted Glass

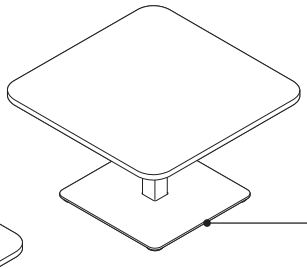
Brackets
- Paint

Regard Tables

Tables are available in three designs to coordinate with Regard seating.

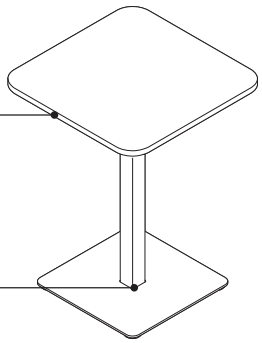
Tables are standard in ¾" thick High-Pressure Laminate or 1¼" thick solid surface.





Glides are plastic and not adjustable.

Edges on laminate table are finished with 3 mm plastic trim.

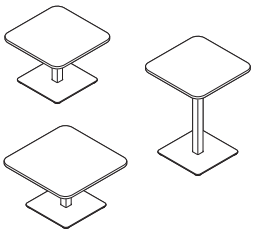


Column and base are standard in painted steel.

Actual Dimensions

	Depth	Width	Height
Square tables	22" and 26"	22" and 26"	15"
Personal table	22"	22"	29"

Product Details



Tables include two 15"H square tables and one personal table at the 29" standard worksurface height. Tables are freestanding.

Application Topics

26" square table can be used for turning a 90° corner with single-sided seating.

Personal table supports work postures in banquette applications.

Surface Materials

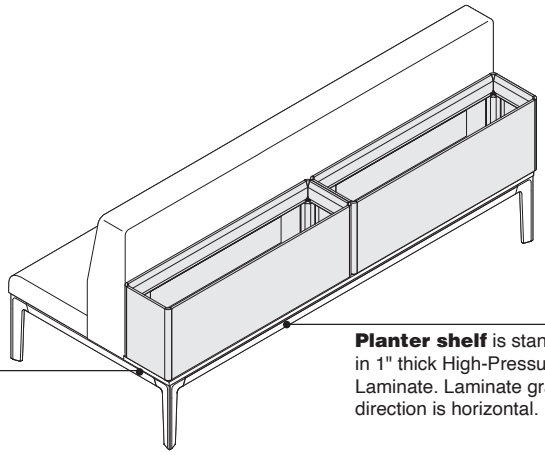
Table tops
- High-Pressure Laminate
- Solid surface

Edges
- 3 mm plastic on laminate table
- Solid surface on solid surface table

Legs and bases
- Paint

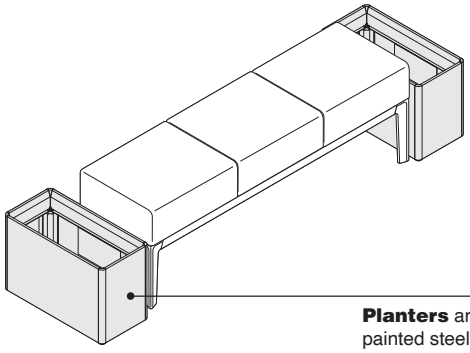
Glides
- Plastic

Planters and Planter Shelves



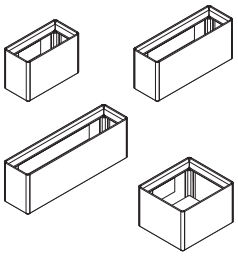
Edges on planter shelf are finished with 3 mm plastic trim.

Planter shelf is standard in 1" thick High-Pressure Laminate. Laminate grain direction is horizontal.



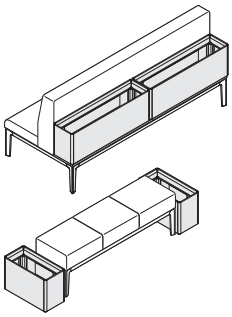
Planters are standard in painted steel construction.

Product Details

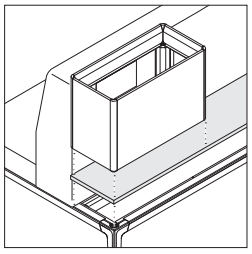


Planters are available in four sizes to align with various configurations.

Planters are not sealed to retain liquids.



Planters can be used with planter frame or on the floor. *Tip: 22"D x 22"W planter is for use on the floor only.*



Planter shelf must be specified when using the planter frame or planter frame extension. Shelf is ordered separately from frame.

Surface Materials

Planters
- Paint

Planter shelf
- High-Pressure Laminate

Edges on planter shelf
- 3 mm plastic on laminate shelf

Shipping

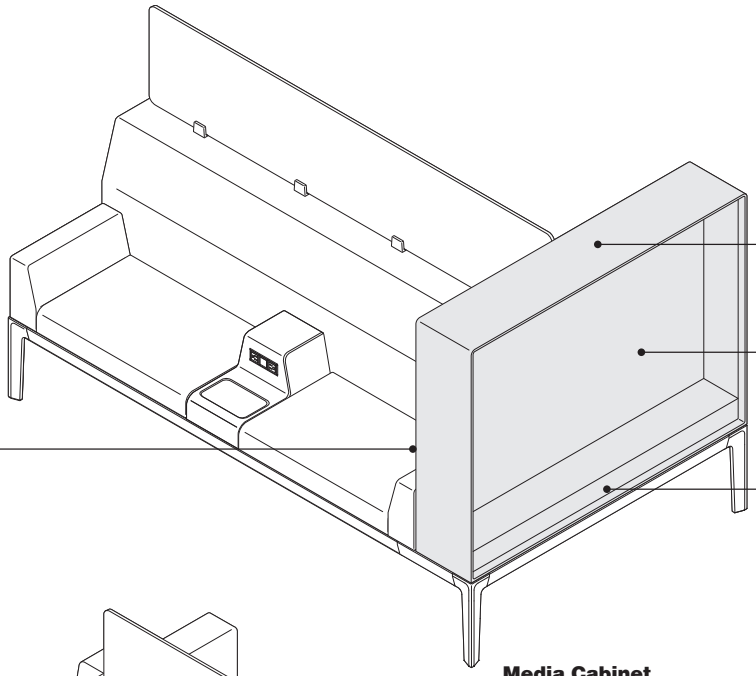
Planter ships standard with glides for use on floor. When specified with shelf bracket option, glides are omited and bracket to attach planter to frame are included.

Actual Dimensions

	Depth	Width	Height
Rectangular Planters	11"	22", 33", or 44"	14"
Square Planters	22"	22"	14"

Regard Desk and Media Cabinets

Desk and media cabinets are designed to divide space and provide privacy to engage in focused work, conversation, research, or entertainment.



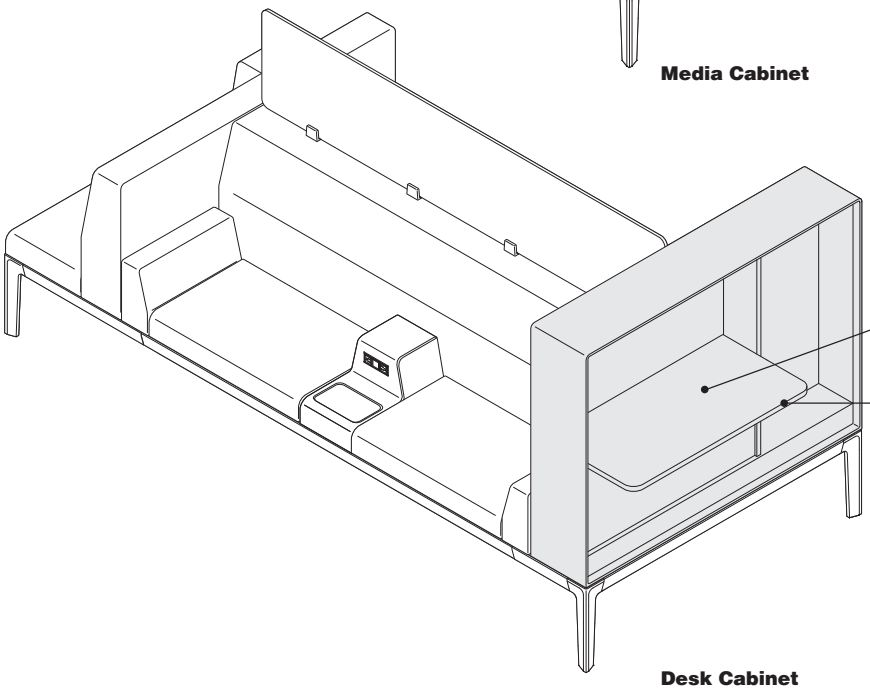
Shroud is standard in paint.

Vertical surfaces are standard in Low-Pressure Laminate. Laminate grain direction is horizontal.

Back panel is Low-Pressure Laminate on all cabinets. Laminate grain direction is horizontal.

Cabinet base is standard in painted steel and always matches the shroud.

Media Cabinet



Worksurface is available in High-Pressure Laminate or solid surface.

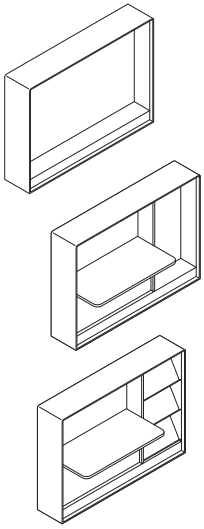
Edges on laminate worksurface are finished with 3 mm trim.

Desk Cabinet

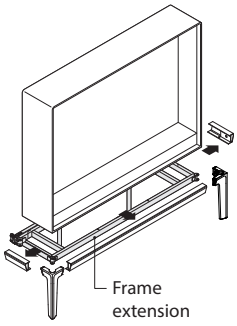
Actual Dimensions

	Depth	Width	Height with Frame
Media Cabinet	11"	55"	54"
Desk Cabinets	11"	55"	54"
Desk Cabinet Worksurface	18"	36"	28 1/2", 30", and 36"

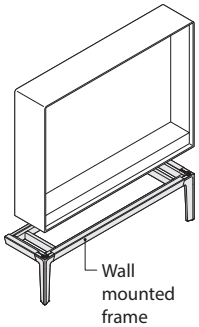
Product Details



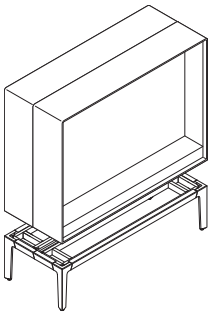
Desk and media cabinets are 11"D and 55"W.



Desk and media cabinets can be mounted using an 11" frame extension.



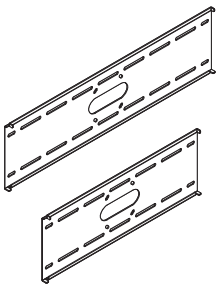
Desk and media cabinets can be wall mounted. 11" wall-mounted frame must be ordered separately.



Freestanding back-to-back cabinet frames are 22"D and 55"W.

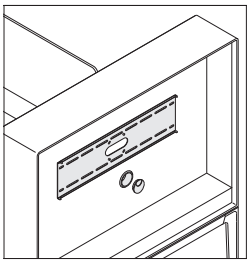
Wall-mounted desk or media cabinets do not attach to the wall. Cabinets are mounted to wall-mount frame using provided brackets. Frame attaches to wall at a minimum of 12 2/3" above the floor with glide adjustment up to 1 1/2" more.

Cabinet back panels can be omitted for wall-mounted applications.



Monitor brackets are available in two sizes: small for monitors 32"W or less and large for monitors 32"W–60"W, weighing up to 200 pounds.

Monitor brackets will work with all current VESA patterns.

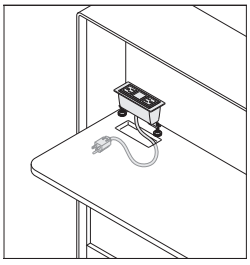


Monitor bracket option comes grommet hole, hole is field drilled in the media cabinet to accommodate varying cord locations.

46" monitor is recommended in the media cabinet.

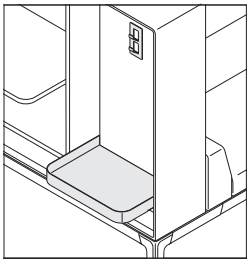
Maximum monitor size for media cabinet is 60". Inside media cabinet width is 53".

Monitor bracket option is not available on the desk cabinet. Monitors are recommended to be placed on the worksurface. Opening above worksurface is 17"H and 36"W.

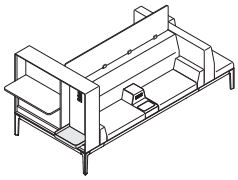


Power cutout is available as an option on desk cabinets to provide power to the worksurface area.

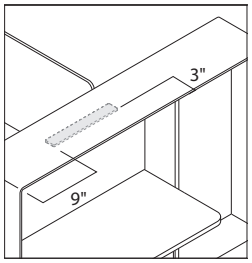
Power cutout is positioned in the rear left corner of the desk worksurface.



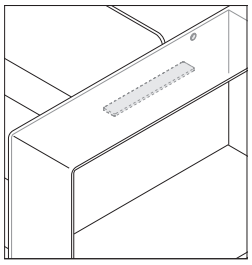
Coat hook and bag retainer are available as options on the open desk cabinets only.



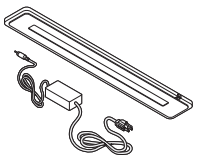
Coat hook and bag retainer are always located to the right-hand side of the desk unit as you face the unit.



Optional LED task lighting can be specified above desk worksurfaces and attaches to the shroud.



Grommet and cutout are included with LED light option for easy cord routing.

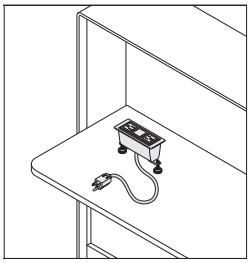


LED light includes the lamp and power supply with cord set.

LED light cord is 12' in total length with 6' of low voltage cord.

Power supply uses a modular cord with standard three prong plug an integrated low voltage cord and connector to attach to light.
▶ See LED shelf light in *Montage Solutions Specification Guide.*

LED shelf light is the Steelcase under-storage task light.
▶ See *Montage Solutions Specification Guide* for product details.



Power strip must be specified separately. Over current protection is required in California.
▶ See page 260

Power cutout must be specified when mounting drop-in power strip to the worksurface.

LED light and power strip cords are routed to the frame between the laminate back panel and the front vertical laminate panel.

LED lights and worksurface power strip can be plugged into outlets in the floor, wall, or modular power system.
Tip: When powering cabinets from the wall, the top of the wall-mounted power module faceplate should be below 11" above the ground to avoid interference with the frame.

Surface Materials

Worksurface
- High-Pressure Laminate
- Solid surface

Edges
- 3 mm plastic on laminate worksurface
- Solid surface on solid surface worksurface

Vertical surfaces and back panel
- Low-Pressure Laminate

Shroud

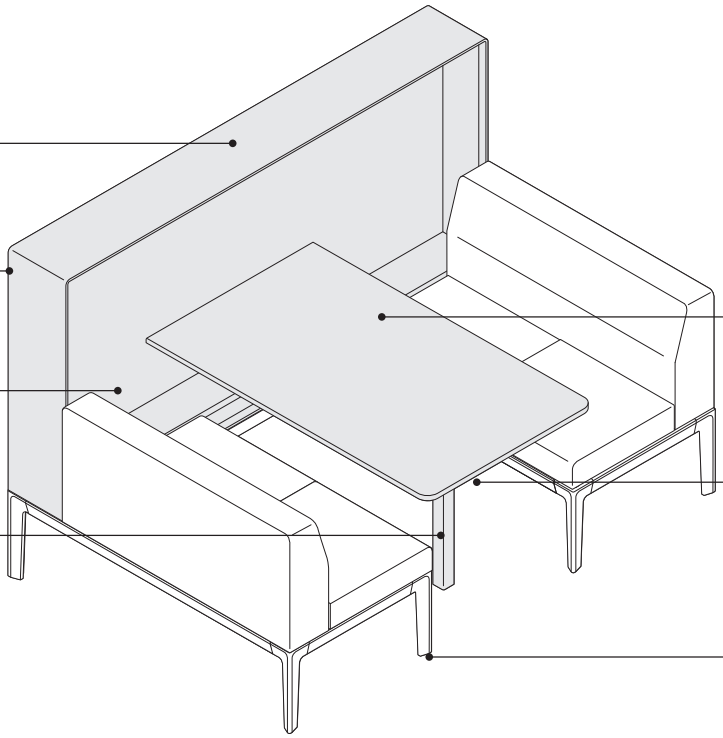
  7275 Seagull
  7276 Arctic White
  7277 Sand

LED Shelf light
- 6009 Arctic White

Regard Booth with Table

Booth with table configuration is available in two frame sizes with optional convenient power access.



Shroud is standard in paint.

Back panel is Low-Pressure Laminate. Laminate grain direction is horizontal.

Vertical surfaces are standard in Low-Pressure Laminate. Laminate grain direction is horizontal.

Table column is standard in paint to match the base frame color selected.

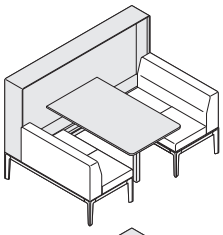
Table is available in High-Pressure Laminate or solid surface.

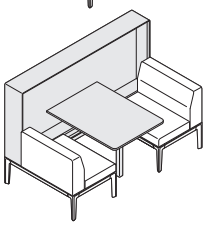
Edges on laminate table are finished with 3 mm trim.

Adjustable glides are standard on the table column.

Actual Dimensions	
Table Depth	44" and 55"
Table Width	32"
Table Height	28½"
Shroud Width	80½"
Height with Frame	54"

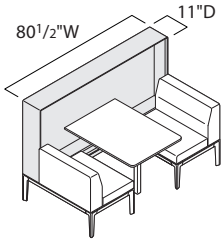
Product Details



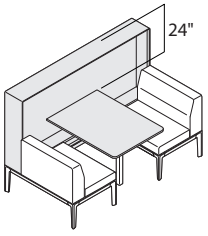


Booth with table frame is available in two depths: 44" to accommodate one 33" cushion on either side, or 55" to accommodate two 22" cushions on either side. All booth settings come standard with an 11" deep shroud.

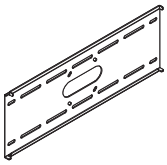
Table is available in two sizes to correspond with the 44"D or 55"D frames.



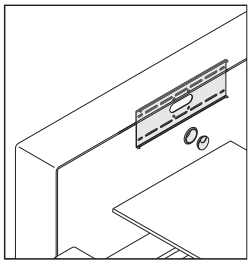
Booth shroud is 11"D and 80½"W.



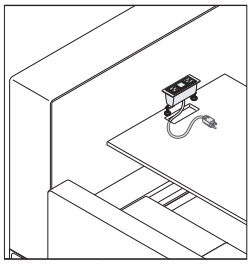
Opening between the worksurface and underside of shroud is 24".



Monitor bracket is available for monitors 32"W or smaller. 27"W monitor is recommended.

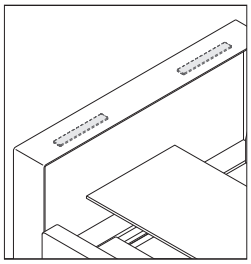


Monitor bracket option comes with pre-drilled cord pass through and grommet in the media cabinet.
▶See page 225

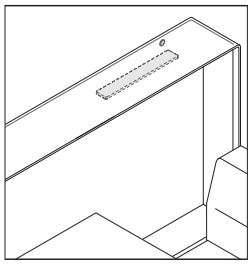


Power cutout is available as an option to provide power to the table area.

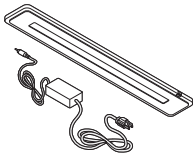
Power cutout is positioned in the center rear of the table.



Optional LED task lighting can be specified and has two LED lights mounted to the underside of the cabinet shroud.



Grommet and power cutout are included with LED light option for easy cord routing.



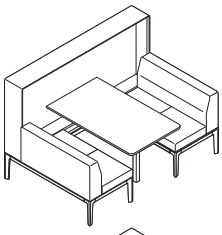
LED light includes the lamp and power supply with cord set.

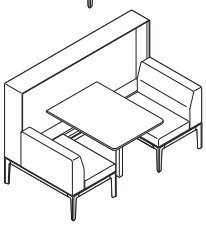
LED light cord is 12' in total length with 6' of low voltage cord.

Power supply uses a modular cord with standard three prong plug an integrated low voltage cord and connector to attach to light.

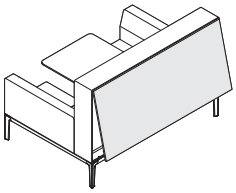
LED shelf light is the steelcase under-storage task light.
▶See LED shelf light in *Montage Solutions Specification Guide*.

Application Topics

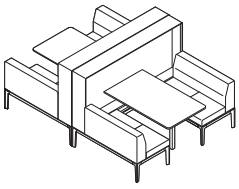




Booth applications are freestanding and do not require wall-mounting.



Booth applications against the wall allow omitting of back panel as an option.



Booth units can be placed back to back and do not require additional brackets.

Booth applications are completed by ordering the corresponding frame, two backs, and seat cushions.

Wiring & Cabling

Power cutout must be specified when mounting drop-in power strip to the worksurface.

Booth cabinets have 4"W cord chase behind the laminate face for cord management to the wall, floor, or base frame.

LED light and power strip cords are routed to the frame between the laminate back panel and the front vertical laminate panel.

LED lights and worksurface power strip can be plugged into outlets in the floor, wall, or modular power system.
Tip: When powering cabinets from the wall, the top of the power module faceplate should be below 11" above the ground to avoid interference with the frame.

Surface Materials

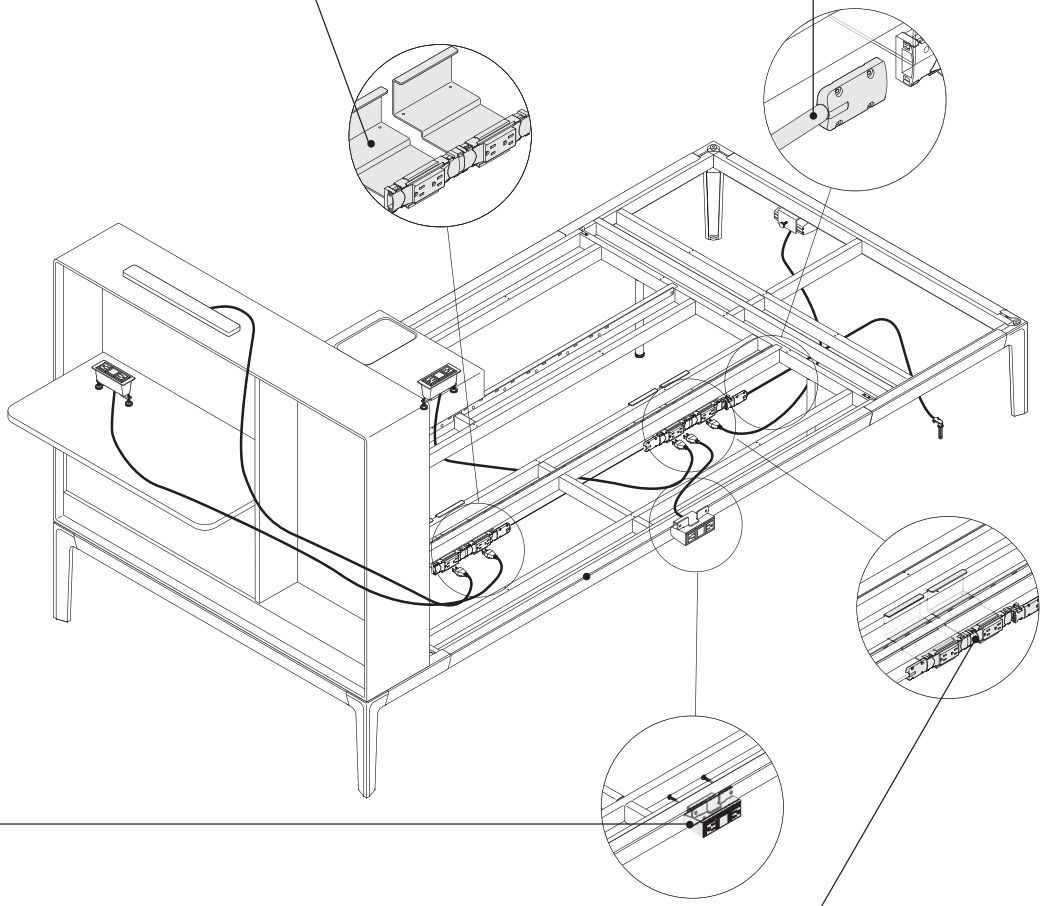
Regard Electrical Components

Distribution and Access

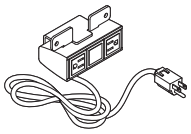
Regard is designed to support technology. Electrical needs can be solved in a variety of ways.

A modular power system is available to plug into the power strips. This system can be ordered as a complete kit for each frame size or built up as components if power is being daisy chained from one frame to another, or if two circuits must be specified.

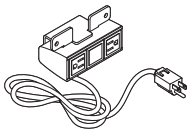
Users can access power strips that are incorporated into the contour arms, in-line tables, and desk and booth cabinets, or mounted to the underside of the base frames. These power strips can be plugged into the building, hardwired, or plugged into the modular power system.



Product Details



Power strips provide user access to outlets and are available in corded or hardwire option. Power strips are available in drop-in or frame mounted styles. Receptacle options available include standard power, tamper and spill resistant, hospital grade, and USB configurations. All corded options are available with OCP (over current protection) which is a requirement in California. *Tip: As installed, furnishings that feature integrated hospital grade receptacles do not meet Article 517 of the National Electric Code requirements for hospital grade furnishing. These furnishings are not intended to be used in general patient care areas or critical patient care areas.*



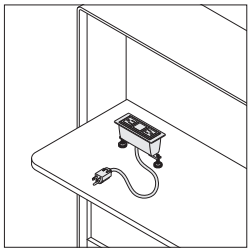
Corded power strip can plug into a modular receptacle kit or into a building receptacle. Connection must be accessible.

Corded power strips can also be plugged into a modular power system.

Corded power strips have a 6'L or 10'L cord and a 15-amp grounded plug. California requires over current protection on corded power strips.

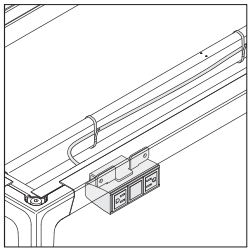
Hardwire power strips are available for Chicago and other municipalities that may require it. They include 10' of flexible conduit. California does not require over current protection on hardwire power strips.

Corded and hardwire power strips can be mounted at any point along the underside of the frame.



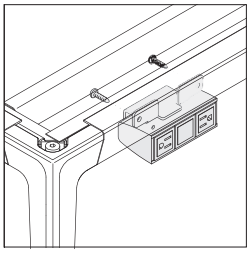
Drop-in power strips are for use in the contour arm, in-line table, desk cabinet, and booth cabinet. California requires over current protection on drop-in power strips.

Drop-in power cut-outs must be specified to accommodate the drop-in power strips.



Power cords and harnesses can be managed under the frame. Cable ties are included with the harness and kit components. *Tip: Other wire clips and cord managers can be found in the* Answer Solutions Specification Guide *(32WCP, 999CHT, TS5LEGCLP).*

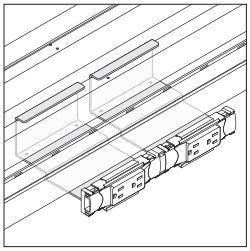
Modular power can either be specified in complete power kits or as a separate component to connect from one base to another, or when two circuits are needed.



Modular power can be mounted at any point along the underside of the frame.

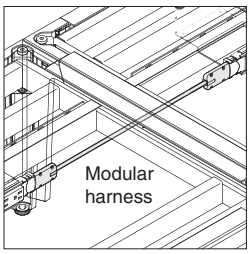
When the Surround mobile tablet is installed on the frame, power cannot be mounted to the front edge of the frame. *Tip: Power strips are not recommended in middle of seat cushion.*

Modular power can be specified to accommodate multiple power strips.



Power kits collect and distribute power to power strips throughout the base frame using one building interface.

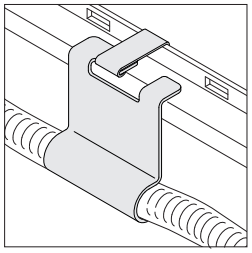
Power kits attach to steel frame with included brackets and face outward.



Modular harnesses are used to distribute power when power kits are used.

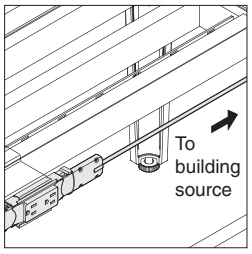
Modular harnesses are available to jump from one frame to another. Frames must be ganged together using style number **HS4FG** when jumping power between frames.

Modular harnesses are available in lengths from 12" to 42" to accommodate connection of power kits at different ends of the frame or to jump from one frame to another when ganged. Modular harnesses are compatible with one-circuit and two-circuit receptacle kits.



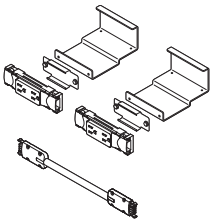
Power infeeds include bracket for mounting to the frame and can be attached to either end of the power kits.

Power infeeds can connect to power kits or branching connectors only.



Hardwire-to-modular power infeeds bring the power from the building power source to the base frame.

Hardwire-to-modular power infeed is available in 9'L. The hardwired end is connected by an electrician to a junction box wherever it is located in the building. The harness is routed to the bottom of the frame and connected to a power kit. Non-PVC is standard.

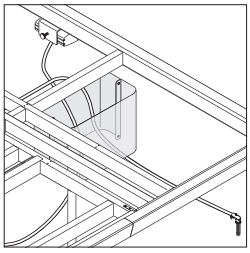


Power kits include the necessary receptacle kits, brackets, connectors and harnesses to accommodate specified frame sizes and power module quantity needs.

Power kits are single circuit only. Modular power should be ordered as components when two circuits are needed.

Power kits do not include base power in which must be specified separately.

Power kits are available with one, two, three or four power module options depending on your frame size and power need.



Vertical cable risers can be used to hide cords or power conduit coming from the floor to the frame. Vertical risers are bolted to the floor at any location under the frame. Attachment hardware is included.

Regard Electrical Components, Distribution and Access, continued

Connections

Drop-in power strips are shipped with all hardware included and can be removed without tools.

Frame-mounted power strips are mounted to bracket without tool.

Receptacle kits include one power module and one bracket that is mounted to the underside of the tube-steel frame.

Hardwired base power-in must be secured to the frame with a strain-relief bracket that is included with the base power-in style number.

Wiring and Cabling

All power components are non PVC.

All electrical components are UL listed to the appropriate industry standards in accordance with the National and Canadian Electrical code.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper installation of all electrical components.

Hardwire power is also available for cities where codes require it.

Underwriters Laboratory (UL) listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary. Consult a qualified electrician or electrical engineer for proper installation of all electrical equipment.

How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

If your usage is not known in advance:
The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in.

If your usage is known in advance:
Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.
▶See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

Approximate power consumption for common devices

• Device	• Wattage	• Amperage	• Voltage	• Number of Devices Supported on Single 20 Amp Circuit
Laptop (Low)	30	0.25	120	64

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

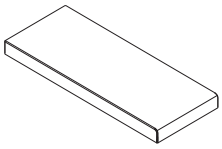
Regard Storage End Table and Filler



Standard Includes	Required to Specify
▶ Need help? Product details, page 217	1 Style number
• Table, if selected: paint price group 1	2 Paint color number for storage end table
• Table fillers, if selected: black	3 Options, if selected (see below)
	▶ See *Surface Materials,* page 463.

Options		U.S. Price	Required to Specify
Surface Materials	**Storage end table**		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	No cost	Specify paint color number.
	• Paint price group 3	+$62	Specify paint color number.

Specification Information

• Dimensions D	W	• Style Number	• U.S. Base Price

Storage End Table

27½"	11"	**HS4SET11**	$664

Storage End Table Filler

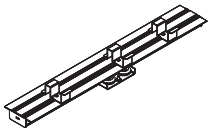
27½"	11"	**HS4T11**	$ 42

Tip: Storage filler should be ordered when specifying storage end tables back-to-back. Only one filler required for every two tables.

Tip: Order filler width to match width of storage end table.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

Regard Tablet Rails



Tip: Tablet rail must match the length of the frame.

Tip: Tablet rails can be specified on each side of a Regard frame or seat extension frame.

Tip: Surround mobile tablet is ordered separately.
▶Page 427

Standard Includes	Required to Specify
• Tablet rail: Merle 7360 • Stops	Style number

Specification Information

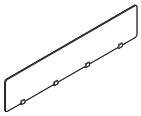
Dimensions W	Style Number	U.S. Price
44"	**HS4FR44**	$578
55"	**HS4FR55**	$578
60½"	**HS4FR61**	$578
66"	**HS4FR66**	$578
71½"	**HS4FR72**	$578
77"	**HS4FR77**	$578
82½"	**HS4FR83**	$578
88"	**HS4FR88**	$578

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

Regard Privacy Screens

Tip: Must specify the privacy screen attachment option for each back, as well as the privacy screen style number. Screens can only be attached when the option is selected on each back.

Standard Includes	Required to Specify
▶ Need help? Product details, page 220	1 Style number
• Glass screen: 6530 Frosted Glass	2 Paint color number for brackets
• Two brackets, 33"W – 55"W: paint	▶ See *Surface Materials,* page 463.
• Four brackets, 60½"W – 88"W: paint	



Tip: Screen width must match width of back width.

Tip: When using custom screen materials, screen widths must be ordered 2" less than widths shown at right. All edges must be rounded and beveled.

Tip: Screen brackets and stanchions can be specified separately to allow users to supply own screens.

Tip: When specifying custom screen materials, screen lengths 33"–55" require two brackets and stanchions and screen lengths 60½"–88" require four brackets and stanchions.

Tip: When using custom screen materials, the installer must attach glass tabs to the screen. Glass connection tabs come with screen brackets and stanchions.

Specification Information

Screens with Brackets

• Dimensions W	H	• Style Number	• U.S. Price
33"	14"	**HS4S33G**	$ 694

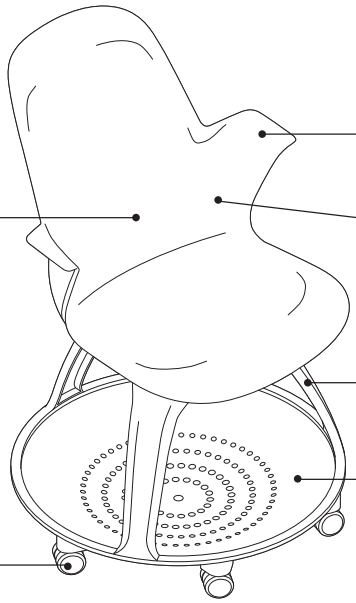
Node 480 Series by Steelcase

The Node chair supports all the ways students learn. Designed for quick, easy transitions in the classroom, and multiple modes of learning across the campus. The Node family of seating is a natural fit within and beyond the classroom.



Designed for easy maintenance and cleaning, the one piece polypropylene contoured shell is available in high back and mid back. Seat cushion is available.

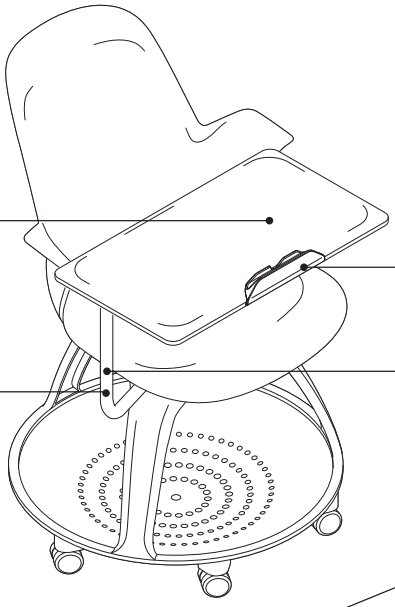
Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports the back and provides comfort.

360°-swivel mechanism is standard.

Tripod base is durable with a flat footrest rim and backpack storage. The bottom surface is perforated.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

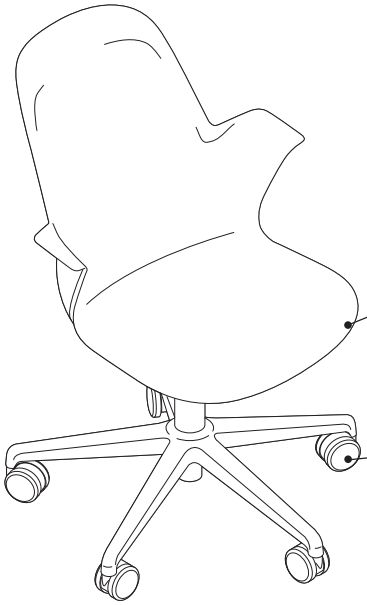


Personal worksurface moves independently of seat shell and base.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

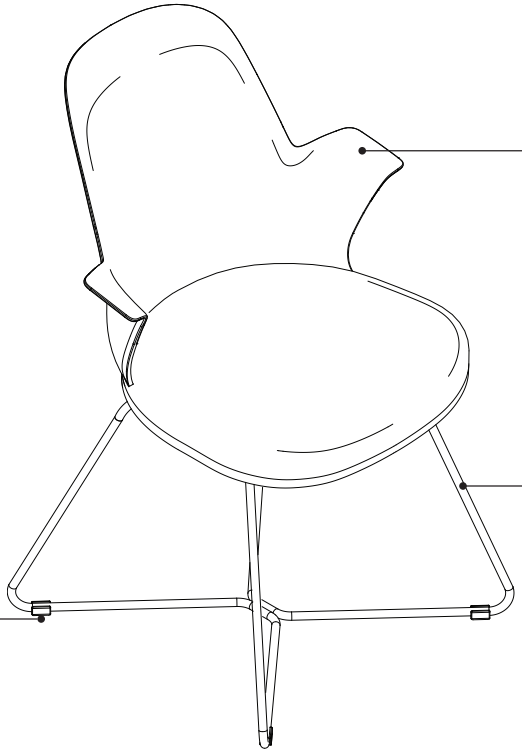
Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.



Seat height adjusts with a 5¼" range with a pneumatic adjustment mechanisms on five-arm base chairs. Chairs with a personal worksurface adjust with a 4" range. Stools have a 8½" range. A 7½" range is available as an option.

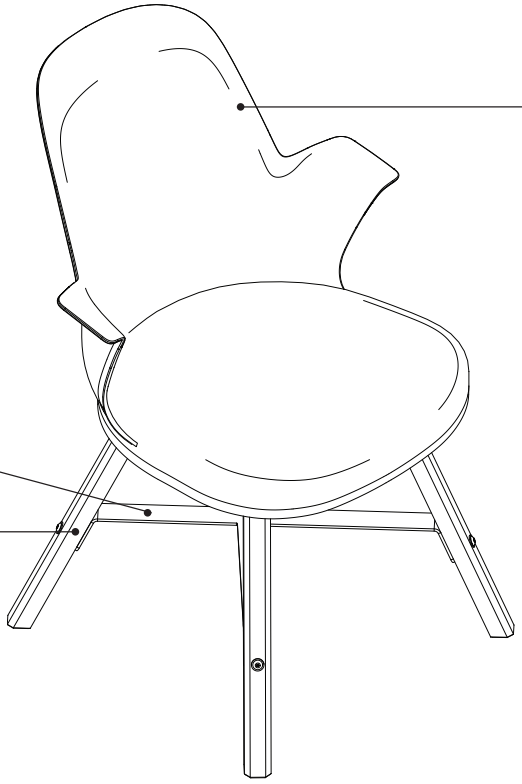
Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.



Both high back and mid back shell styles available with wire frame base. Seat cushion available.

Durable steel wire frame is lightweight and taylored in many paint colors.

Hard glides are standard. Soft, felt glides are available as an option.



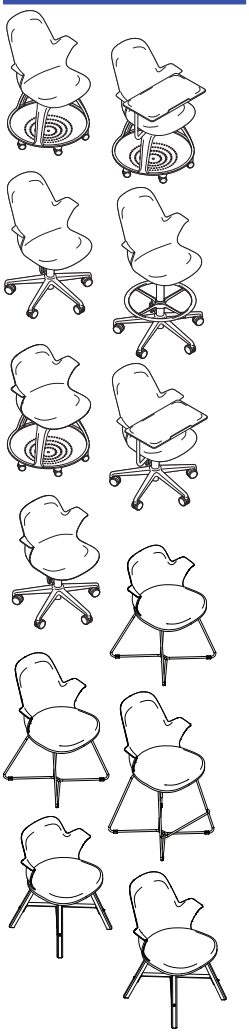
Both high back and mid back shell styles available with wood frame base. Seat cushion available.

The metal leg bracket can be customized in many paint colors.

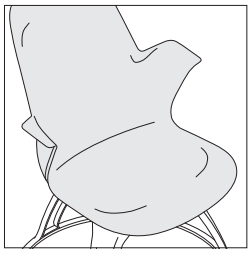
Wood legs are solid wood with polyethylene glide.

Node 480 Series by Steelcase, continued

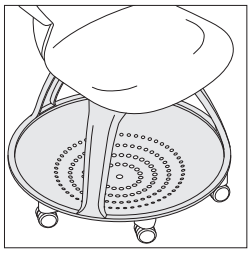
Product Details



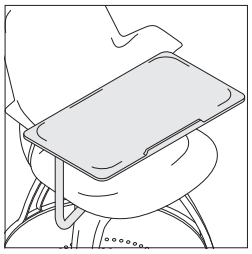
Chairs and stools are available with high-back and mid-back shells. Tripod base and five-arm base chairs are available with and without personal worksurface. Five-arm stools are also available (no worksurface). X-base is available in chair and stool height. Wood base is only available in chair height.



Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.



Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.



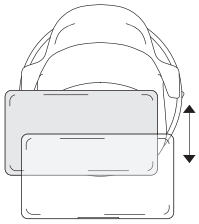
Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22 1/4"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.

Node tripod and five-arm base chairs ship unassembled and cartoned with the seat shell separated from the base. No tools required for assembly. Node X base and wood base ship fully assembled.

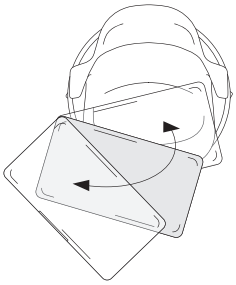
Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

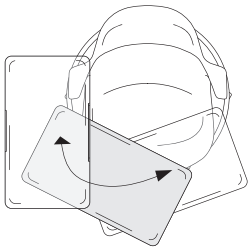
360° adjustable height swivel mechanism is standard on five-arm base models.



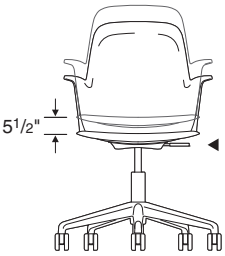
Personal worksurface depth adjustment range is 7 1/4" to 15". Measurement is from lumbar to worksurface.



Personal worksurface pivot range is 48°.

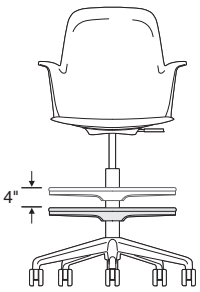


Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.



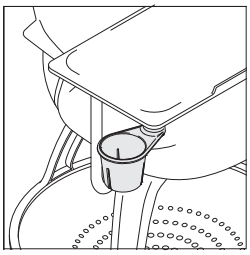
Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5 1/4" from 16"H to 21 3/16"H, a 3 3/4" range (17 1/8"H to 20 3/4"H) is available on chairs with a worksurface. Stools are standard with an 8 1/2" range of adjustability (23 1/16"H to 31 3/8"H). A 7 1/2" range of adjustability (18 1/2"H to 26 7/16"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair or stool and maintain same height as casters.

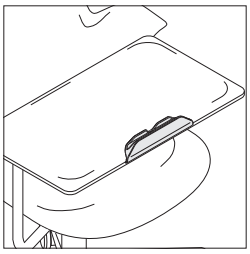


Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.



Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use.



Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed.
Tip: Devices are not secure in tablet stand when Node is moved.

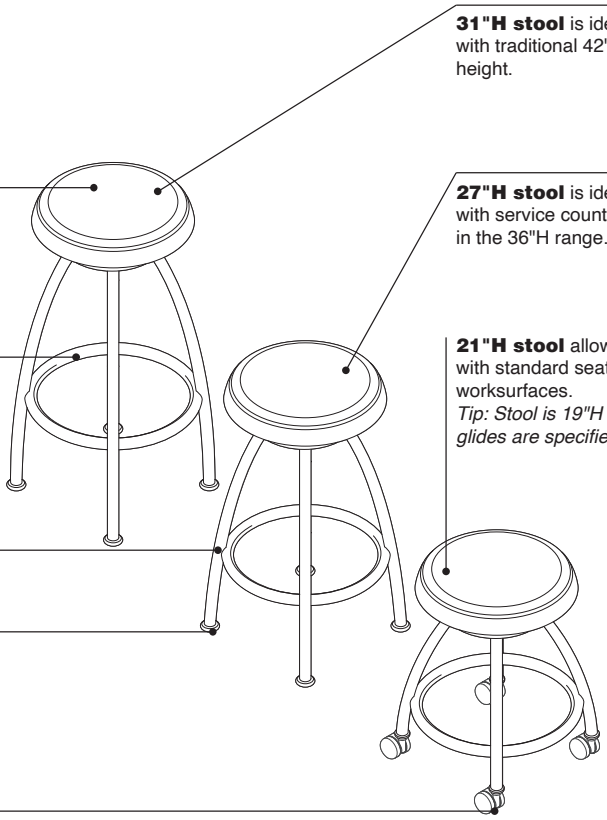
Wood Base Mid-Back Chair

480420	$1235

Verge Stool

Verge stool is designed to accommodate users in either sitting or perching positions in healthcare, education, and corporate settings. The comfort mechanism absorbs the initial shock and provides an easy transition between sitting and standing.



31"H stool is ideal to work with traditional 42" counter height.

27"H stool is ideal to use with service counter height in the 36"H range.

21"H stool allows for use with standard seated height worksurfaces.
Tip: Stool is 19"H when glides are specified.

Urethane seat provides a comfortable seat or perch. The comfort mechanism provides approximately 1" travel.

Foot ring takes pressure off the user's back and legs.

Four-leg base provides a balanced stool.

Plastic glides are 1¾" diameter to provide a larger footprint with greater stability and to make it slide easier.

Casters have soft dual wheels for easy maneuverability on hard surface floors. Casters are available on 21"H stools only.

Surface Materials

Seat
- Self-skinning urethane in non-metallic steel finish

Base and foot ring
- Paint
- Accent paint
- Coatings
- Lux Coatings

Glides
- Plastic in metallic steel finish

Casters on 21"H stool only
- Soft dual wheels in black

Programs & Services

For more information on accent paints and Lux Coatings, please refer to the *Surface Materials Reference Manual.*

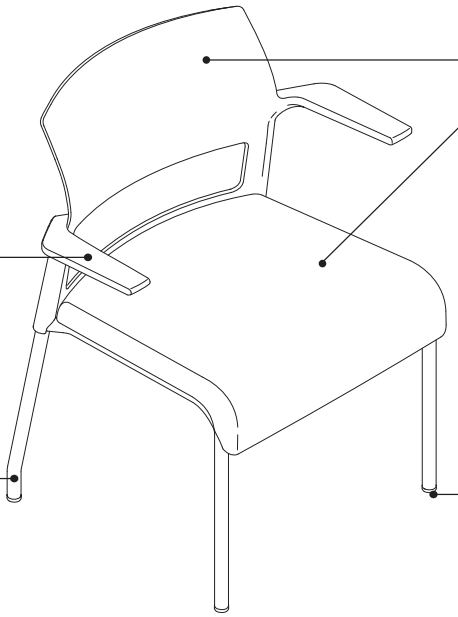
Move 490 Series by Steelcase

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

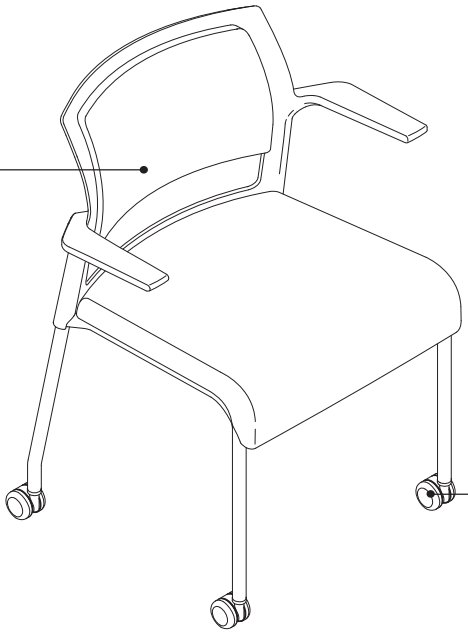


Seat and back are available in plastic or with an upholstered cushion.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

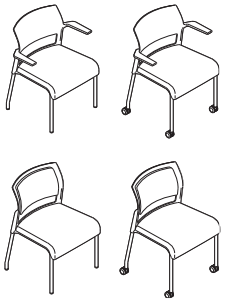
Plastic glides have a hard plastic insert.



Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

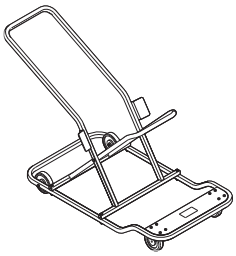


Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with stainless steel inserts are recommended for carpeted surfaces.

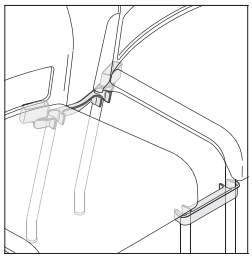
Soft felt glides for use on non-carpeted surfaces are available as an option.



Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.



Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

Upholstery
- Fabric
- Fabric with soil retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Casters
- Black only

Glides
- Plastic with hard plastic inserts come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Wall saver
- 6644 Fusion Dark only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*. Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accesories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See *Surface Materials Reference Manual*.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

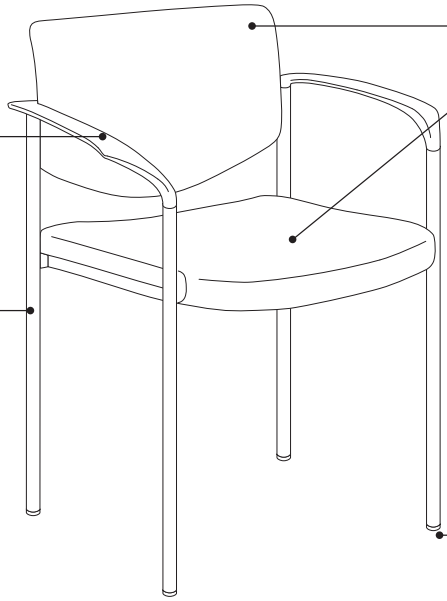
Player 475 Series by Steelcase

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

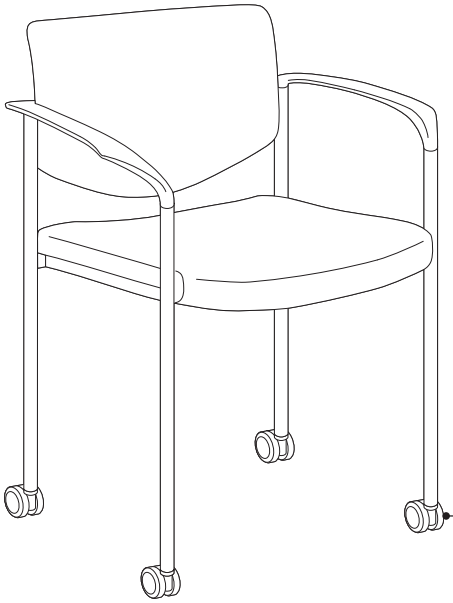


Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

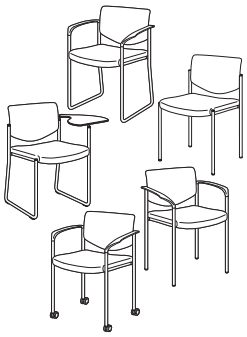
Steel frame is monochromatic.

Plastic glides with a hard plastic insert are standard.



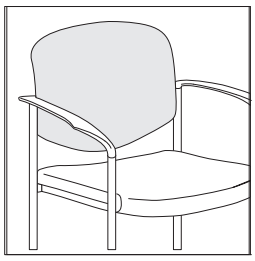
Casters have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

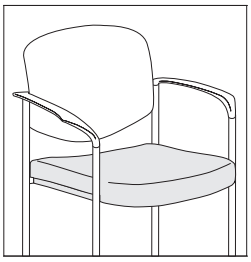


Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

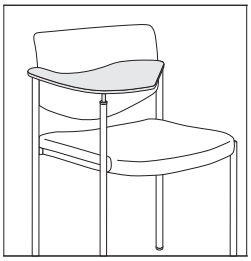
Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.



High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.



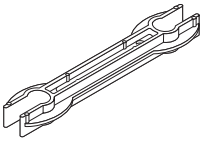
Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately ½". Stackability is not affected.



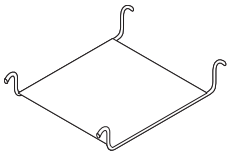
Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25½" x 13½". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with stainless steel inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

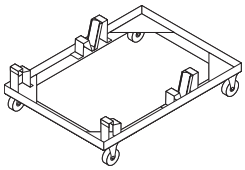
Soft felt glides are available on Player chairs for non-carpeted surfaces.



Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5⅞".



Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".



Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32¾"D x 25½"W x 55¾"H.

Surface Materials

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Vinyl

Hard components (arms, frames, and sled base)
- Monochromatic color from list of seating plastic color numbers can be applied to all hard components.

Arms
- Smooth plastic
- Textured plastic

Tablet arms
- Laminate

Casters
- Black only

Glides
- Plastic with stainless steel inserts

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

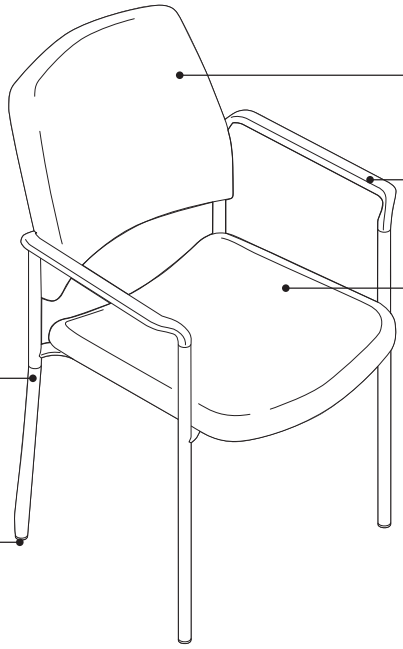
Sorrel

Sorrel seating offers a broad range of stacking chairs, including chairs with or without arms and a bariatric chair. Easy access chairs are also available. Seating can stand alone or be grouped into ganged configurations.



Back is available upholstered or with maple wood.

Arm caps are plastic.

Seat cushion is upholstered.

Frame and legs are powder coat painted steel and available with straight or wallsaver legs.

Plastic glides are standard. Soft felt glides are available as an option.

Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height
Stacking Chairs							
18"W Arm chair*	20"	23½"	36"	18"	18"	18"	26½"
18"W Armless chair*	20"	20¼"	36"	18"	18"	18"	N.A.
22"W Arm chair*	20"	27½"	36"	18"	22"	18"	26½"
22"W Armless chair*	20"	24¼"	36"	18"	22"	18"	N.A.
Bariatric Stacking Arm Chair*	20"	31½"	36"	18"	26"	18"	26½"
Easy Access Arm Chairs

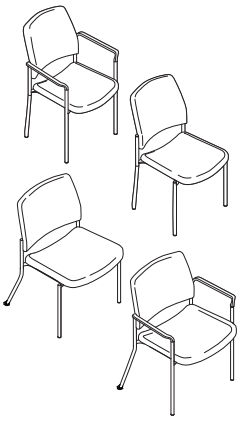
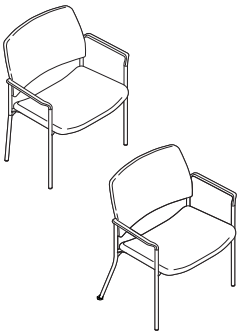
22"W Easy access chair	20"	27½"	42"	18"	22"	24"	32½"

*Overall depth of wallsaver styles is 21¼".

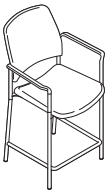
Product Details



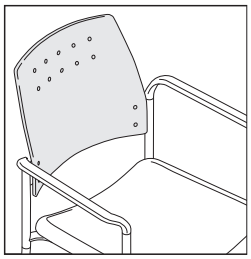
Stacking chairs are available with arms or armless and with straight or wallsaver legs. All configurations are available with 18"W and 22"W seats.



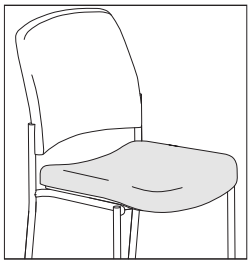
Bariatric stacking arm chair is available with a 26" seat width and with straight or wallsaver legs.



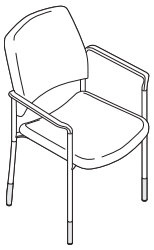
Easy access chairs have a 24" seat height and include a foot rest. They are non-stacking with straight legs and available with 18"W and 22"W seats.



Wood back is maple and is available on all chairs.



Thicker seat option, available on all Sorrel seating, increases the thickness of the seat cushion by approximately 1/2". Stackability is not affected.

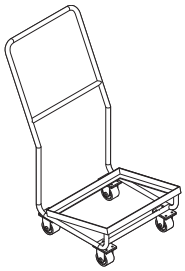


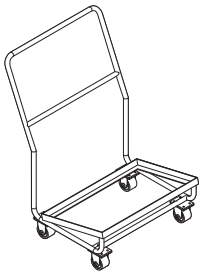
Leg guards are available as an option on all chairs and coordinate with the frame finish.

Soft felt glides are available as an option for use on non-carpeted surfaces.

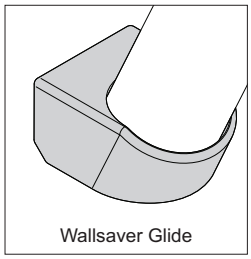
Different fabrics can be specified on the seat and back.

Moisture barrier is available as an option on seat only.



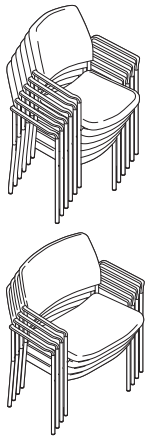


Two transport and storage dollies are available. The standard dolly is used to stack, move, and store up to 10 standard 18"W chairs. The bariatric dolly holds up to six bariatric chairs. Dollies do not accommodate wallsaver styles or 22"W chairs. Approximate dimensions for 10 stacked 18"W standard chairs on a dolly are 36"D X 24"W X 71"H.



Wallsaver Glide

Wallsaver glide is designed to protect base trim and flooring.



Stackability on the floor is six high for 18"W and 22"W standard models and four high for the bariatric chairs. Approximate dimensions are 32"D X 24"W X 53"H for six 18"W stacked standard chairs, 32"D X 28"W X 53"H for six 22"W stacked standard chairs, and 30"D X 32"W X 47"H for four stacked bariatric chairs on the floor.

Connections

Ganging brackets are available to link chairs in the field and must be specified separately.

When chairs are ganged, the spacing between the front of the arms is 1" and the spacing between the front legs is 4 3/8". The spacing between the rear legs is 5 3/4".

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Surface Materials

Seat
- Fabric
- Fabric with moisture barrier (option on seat only)

Back

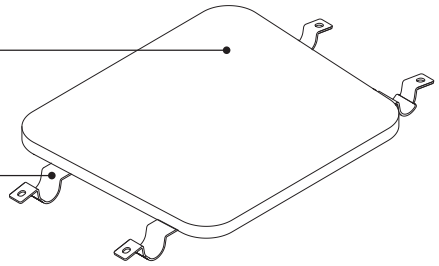
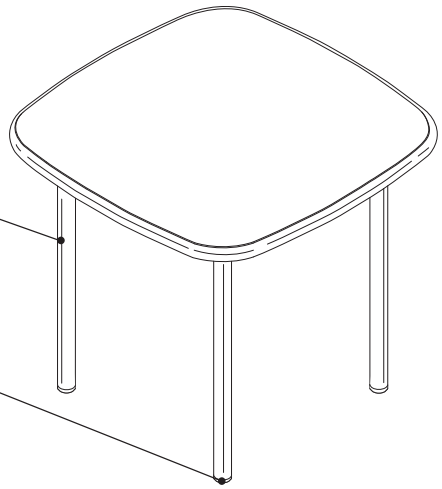
Sorrel Tables

Sorrel freestanding and ganging tables coordinate with Sorrel seating.



High-Pressure Laminate tops are ¾" thick and have 3 mm plastic edge.

Table ganging brackets are standard with all ganging tables and finished in powder coat paint.



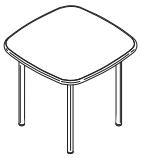
Legs are steel and finished with powder coat paint. Legs are included with all tops, except in-line ganging tables.

Plastic glides are standard. Soft felt glides available as an option.

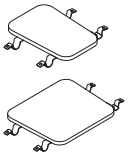
Actual Dimensions

Features	Overall Depth	Width	Height
Freestanding Table			
Square Table	18"	18"	16" and 18"
Ganging Table			
In-Line Table	15"	10" and 17"	18"
End Tables	16"	16"	18"
Corner Table	22½"	22½"	18"

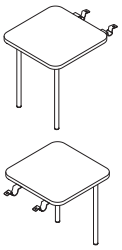
Product Details



Freestanding table is square shaped with rounded corners. It is available in two heights.



In-line ganging tables are used to connect two chairs in a straight line configuration. Two widths are available and tables have ganging brackets on both sides.



Ganging end tables have a square shape and are available in left- and right-hand facing versions. End tables have two legs on one side and ganging brackets on the other.

Corner ganging table has a curved back edge and is used to create an L-shape seating configuration. Corner table has one leg in the back and ganging brackets on both sides.

Power is available on all ganging tables and includes one standard outlet or two USB ports. Power cord exits through the underside of the table top. Standard outlet power is tamper and spill resistant. Steelcase recommends to check with all local and facility authorities prior to specification and order, to confirm acceptance of proposed product and application.

Leg guards are available as an option and coordinate with the leg finish.

Surface Materials

Top and edges

Empath Recliners

Empath recliner seating is designed with insight-led features and versatility to create a safer, high quality healthcare experience for both patients and caregivers.

Seat cushion and back are upholstered over contoured molded foam. Elastic web straps in the seat and back, directly connected to tubular welded steel frames, provide additional short and long term comfort and support. Rounded seat and back cushion can also be specified.

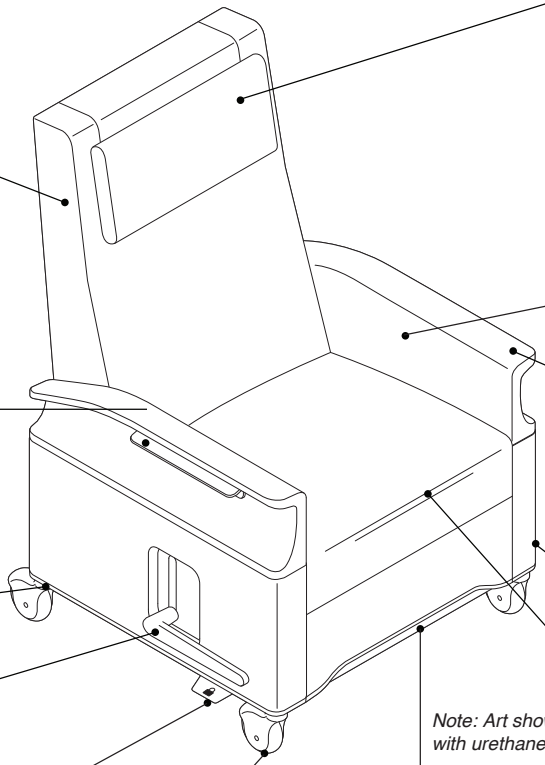
Backrest recline paddles control the reclining function of the chair. Paddles are standard on both sides of the chair and are long to ensure easy, intuitive use when upright or fully reclined.

Bumpers protect the chair and provide an ending point to the lower arms.

Footrest control lever opens and closes the footrest and operates independently from the backrest recline paddles to provide maximum control and comfort.

Central lock system is standard and features easy activation pedals at the front on both sides of the chair. Press down to set or release.

Style numbers ending in "S" move central lock pedal further back towards the rear of the chair to accommodate sit-to-stand patient transfer lift aids. The location of the central lock in this further back position is 16.2" from the front of the chair to the brake pedal.



Adjustable headrest is optional and is attached to the back with a zipper for easy removal or replacement. It is adjustable and can be flipped over the back when not needed. Headrest is available in two shape styles.

Flip-down arms are available on one or both sides to safely and easily assist with patient transfers into or out of the chair.

Upper arms are urethane over molded foam and feature integrated hand grips for safe and easy ingress and egress.

Frame and inner structure are completely constructed of welded steel for long-term durability.

Seat cushion is available in both standard and soft options.

Note: Art shown is with urethane arms.

Footrest features a plastic scallop on 23" wide versions and upholstered scallop on 26" wide versions providing comfort where feet and shoes touch most. Scallop also helps facilitate safer exiting of the chair when footrest is closed by allowing heels to go farther underneath.

Quiet soft casters are 4" and non-marring and provide quiet, smooth operation. One piece caster housing integrates with the design of the chair and is easy to clean. Optional metal legs are also available.

Actual Dimensions

Features	Overall Depth	Overall Width	Overall Height	Seat Depth	Seat Width	Seat Height	Arm Height	Fully Reclined Depth	Clearance from floor to the bottom of brake pedal	Distance between front casters
Reclining chair	31 1/4"	31 5/8" and 34 5/8"	46 5/16"	21"	23" and 26"	20"	26 3/8"	73 3/16"	3.978"	23.842"
Reclining chair with Trendelenburg	31 1/4"	31 5/8" and 34 5/8"	46 5/16"	21"	23" and 26"	20"	26 3/8"	73 3/16"	3.978"	23.842"

Tip: Seat height with metal legs is 18 1/4". Add 3/4" for adjustability of metal legs.

Empath recliners are also available with fully upholstered arms.

Backrest recline paddle controls the recline function of the chair. Paddle is located on the left-side facing arm in a plastic bezel. Another recline paddle can be added through the dual recline paddles option.

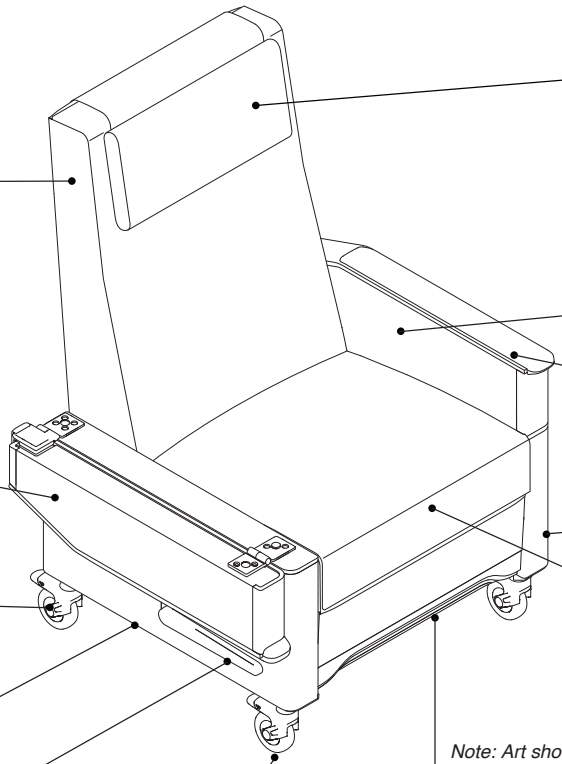
Seat cushion and back are upholstered over contoured molded foam. Elastic web straps in the seat and back, directly connected to tubular welded steel frames, provide additional short and long term comfort and support. Rounded seat and back cushion can also be specified.

Flip-down arms are available on one or both sides to safely and easily assist with patient transfers into or out of the chair.

Individual locking casters are standard for Empath recliners with fully upholstered arms. Central lock can be applied to fully upholstered arm recliners.

Bumpers protect the chair and provide an ending point to the lower arms.

Footrest control lever opens and closes the footrest and operates independently from the backrest recline paddles to provide maximum control and comfort.



Quiet soft casters are 4" and non-marring and provide quiet, smooth operation. Optional metal legs are also available.

Note: Art shown is with fully upholstered arm.

Footrest features a plastic scallop on 23" wide versions and upholstered scallop on 26" wide versions. Scallop also helps facilitate safer exiting of the chair when footrest is closed by allowing heels to go farther underneath.

Style numbers ending in "S" move central lock pedal further back towards the rear of the chair to accommodate sit-to-stand patient transfer lift aids. The location of the central lock in this further back position is 16.2" from the front of the chair to the brake pedal.

Adjustable headrest is optional and is attached to the back with a zipper for easy removal or replacement. It is adjustable and can be flipped over the back when not needed. Headrest is available in two shape styles.

Arms are fully upholstered and available as fixed or flip-down arms.

Plastic arm caps are available as an option for increased cleanability on fully upholstered arms.

Frame and inner structure are completely constructed of welded steel for long-term durability.

Seat cushion is available in both standard and soft options.

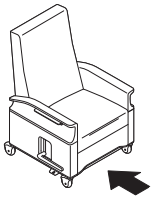
Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height	Fully Reclined Depth
Reclining chair	31 1/4"	31 5/8" and 34 5/8"	46 5/16"	21"	23" and 26"	20"	26 11/16"	73 3/16"
Reclining chair with Trendelenburg	31 1/4"	31 5/8" and 34 5/8"	46 5/16"	21"	23" and 26"	20"	26 11/16"	73 3/16"

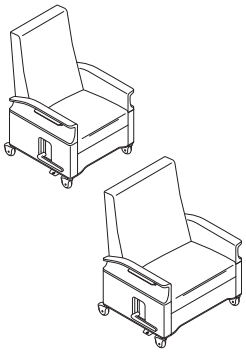
Tip: Seat height with metal legs is 18 1/4". Add 3/4" for adjustability of metal legs.

Empath Recliners, continued

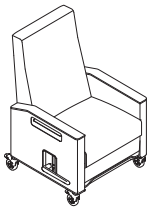
Product Details



Left and right for all features and options are determined when facing the front of the chair.



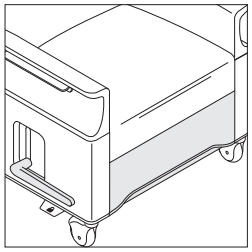
Two seat widths are available for all configurations—23"W and 26"W.



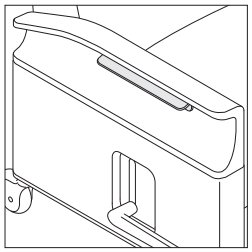
Empath recliners are available with fully upholstered arms.

Empath recliners are available with a rounded seat and back cushion option. Seat and back must both have rounded corner option selected or both have square corners.

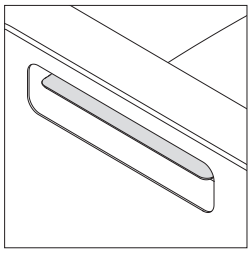
Back recline mechanism operates independently from the footrest and features infinite stop positions from upright to full recline.



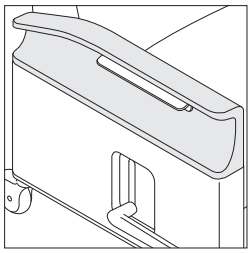
Footrest lever is standard on the left side facing arm. For most secure posture, open prior to reclining the back and close after returning back to the upright position.



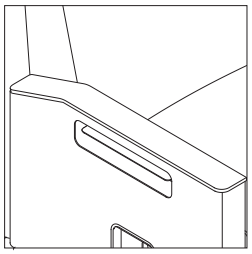
Backrest recline paddles are integrated into the urethane arm to provide intuitive and easy use. The paddles are long, providing the right interface whether sitting upright or reclined and are on both sides. Simply squeeze one or the other or both to operate the back recline mechanism.



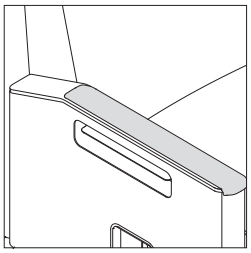
Backrest recline paddles are integrated into the fully upholstered arms in a bezel on the left-side facing arm. An additional right-side facing recline paddle can be added for dual recline mechanisms.



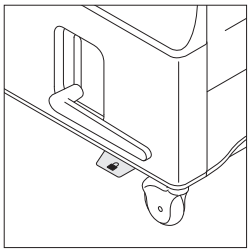
Upper arms are urethane over molded foam with aluminum die cast inserts. They feature an integrated grip and the backrest recline paddles. The gentle curve on the inside provides comfort and safety and the long, integrated grip from front to back on the outside provides support, especially when getting in or out of the chair. The arms are cushioned yet supportive, resilient, and easy to clean.



Upper arms can also be specified as fully upholstered through a separate style number. These arms are available as fixed, right side facing flip-down, left side facing flip-down, or dual flip-down arms.



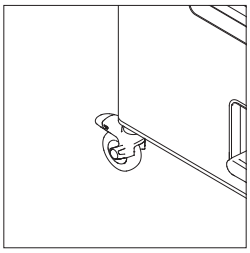
Fully upholstered arms can be ordered with or without plastic arm caps that will lay on top of the upholstered section.



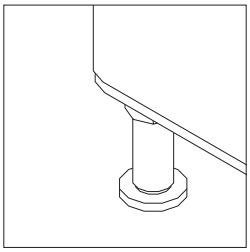
Central lock system features easy activation pedals at the front of the chair and on both sides. Use from either side by pushing down to lock and pushing down slightly again to unlock. Easily identify if the chair is secure simply by looking at the pedal and hearing an audible click. When activated, the system locks both the wheel rotation and swivel on three of the four casters to ensure the chair will not inadvertently move.

Central lock system comes standard with urethane arm recliners and as an option on fully upholstered arm recliners.

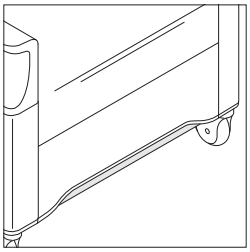
Style numbers ending in "S" move central lock pedal further back towards the rear of the chair to accommodate sit-to-stand patient transfer lift aids. The location of the central lock in this further back position is 16.2" from the front of the chair to the brake pedal.



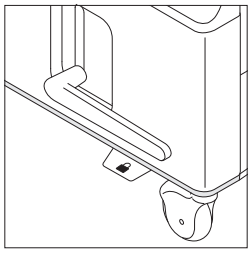
Individually locking casters come standard on Empath with fully upholstered arms. Individually locking casters are plastic and available on all chairs with fully upholstered arms. Individually locking casters are not available on Empath with molded urethane upper arms.



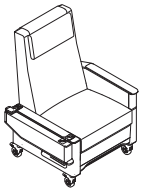
Metal legs are an available option and are powder coated aluminum. Metal legs are 4" tall and are adjustable up to 3/4".

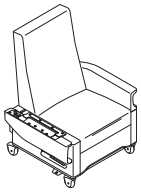


Footrest features a plastic scallop on 23" wide versions and upholstered scallop on 26" wide versions providing comfort where feet and shoes touch most. Scallop also helps facilitate safer exiting of the chair when footrest is closed by allowing heels to go farther underneath.

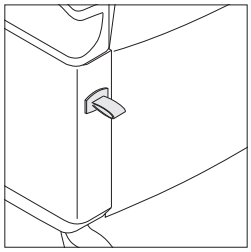


Bumper along the bottom of the arm panels acts to protect the chair and provides an ending point to bottom of the chair.

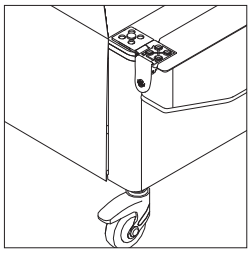




Flip-down arm assists with patient transfer into or out of the chair and is available on the left, right, or both sides. Arms self-lock when lifted back to the upright position.
Tip: IV pole, IV pole holder, and drainage bag is not available on folding Empath fully upholstered arms.



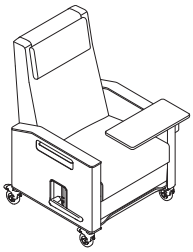
Flip-down arm release strap is located on the back of the arm for caregiver operation. Simply pull strap and fold arm down.
Tip: For urethane arm only.



For fully upholstered arms, the flip-down arm release is located on the back of the arm for caregiver operation. Press down on release lever and fold arm down.

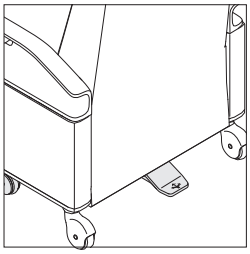
When fully upholstered arms are folded over for patient transport, the transfer surface is molded plastic and fabric to create a snug fit to reduce gapping.

Urethane Empath arms and fully upholstered Empath arms use two different tablet arms which are not interchangeable. Tablet arm on urethane Empath arm swivels 270° when up and folds down to the side of the chair when not needed. Simply rotate up to lock into up position. To lower, press release button on tablet arm and rotate down. Tablet surface is $9\frac{3}{4}$" x $19\frac{3}{4}$" and can be specified on units with at least one fixed arm. Tablet arm location, left or right side (shown), drives the footrest lever placement–footrest lever will be on the arm panel opposite the tablet. Tablet arm adds approximately 2" to the width and $3\frac{1}{2}$" to the depth of the recliner when up and in front position and 4" to both the width and depth when in the down position.

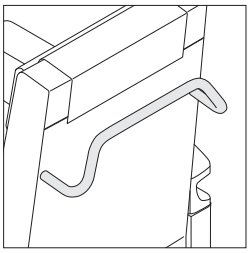


Tablet arm on fully upholstered Empath arms swivels 270°. The tablet surface is $9\frac{3}{4}$" x $19\frac{3}{4}$" and is thermoform. The tablet arm can be applied to the right-side facing arm or the left-side facing arm. Footrest lever will be on the left-side facing arm panel. Tablet arm adds approximately $2\frac{3}{5}$" to the width of the recliner. Tablets on fully upholstered Empath arms do not fold down to the side of recline. Tablet arm always remains in upward position.

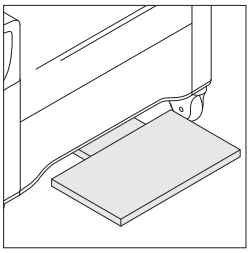
Tablets can only be specified on fixed arms and cannot be specified on fold-down arms.
Tip: IV pole, IV pole holder, and drainage bag is not available on folding Empath fully upholstered arms.



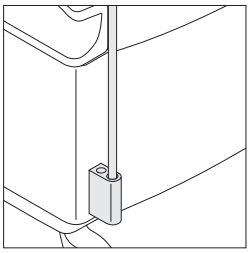
Directional steering system helps the chair track straight while in motion, improving control in hallways and around corners. System allows caregivers to turn steering on or off and is independent of central lock. Activation pedal is conveniently located on the back of the recliner. Press down to engage two directional casters. Press down slightly again to disengage, allowing chair to move directly sideways or any other direction required within tight spaces. Directional steering is not available for chairs with metal legs.



Push bar is conveniently located and ergonomically shaped to enhance caregiver grip and maneuverability.



Pull out footrest easily slides out from underneath the chair to support a patient's feet while seated.

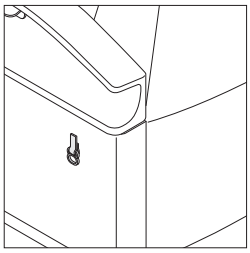


IV pole fits into the IV pole holder and is ordered separately. It is $\frac{3}{4}$" diameter and height adjustable. The pole features a two loop hanger at the top.

IV pole holder is positioned on the back of the arm panel and accommodates $\frac{1}{2}$" to $\frac{3}{4}$" IV poles. It can be mounted on the left- or right-side facing. IV pole holder option does not include IV pole; it can be ordered separately.

IV pole holder is not available on a fully upholstered Empath flip-down arm.

Trendelenburg is foot activated from either side and allows the caregiver to recline the chair so a patient's feet are above the head.

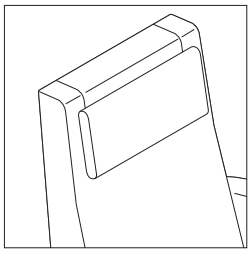


Drainage bag hanger accommodates various drainage bags and lays flat when not in use. It is available on all models and can be located in the front, center, or rear of the chair.
Tip: For all Empath recliners specified before June 2024, the rear location was the standard location.

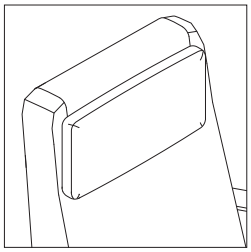
Dual locations (left and right) are only available for rear location. Center location is limited to one side (right or left), dependent on footrest lever location to avoid interaction. Front location is limited to one side (right or left), dependent on footrest lever location to avoid interaction.
Tip: Possible interference exists when a drainage bag hanger is specified on the same side as a flip-down arm or the footrest lever and a drainage bag is attached. Care should be exercised in these configurations to help avoid inadvertent damage to the bag. There is no interference between the flip-down arm or footrest lever and drainage bag hanger itself (without a bag attached).

Drainage bag holder is not available on a fully upholstered Empath with flip-down arm.

Empath Recliners, continued



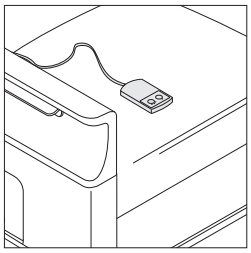
Square headrest



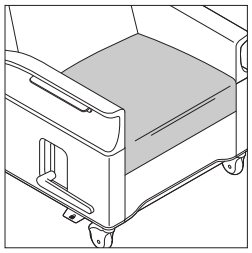
Round headrest

An optional headrest is available on Empath recliners. The headrest is square or round and can be removed by zipper.

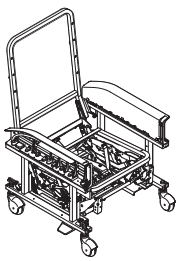
Both headrest shapes are available on both square and rounded seat and back cushion styles.



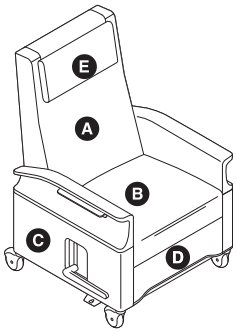
Heat and massage option is UL approved. Both functions feature three settings allowing the user to adjust for personal preference. User hand held control pendant has a flexible cord and stores on the side of the back when not in use.

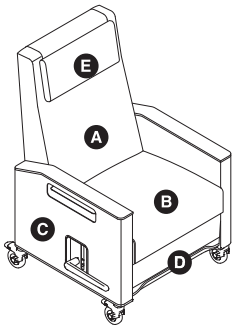


Seat cushion is available in standard and soft options. When softer seat is selected, seat foam is approximately 15% softer.



Frame and inner structure, including the arm panels, seat pan, back frame, mechanism, and chassis are completely constructed of welded steel for long term durability.





Up to four different fabrics can be specified: back (A), seat (B), sides (C), and front (D). The headrest (E) is a separate specifiable option.

Moisture barrier is available as an option on the seat only.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Seat and back
- Fabric
- Fabric with Moisture Barrier (option on seat only)

Headrest
- Fabric

Urethane upper arms
- Plastic over molded foam–Sterling Dark or Midnight

Fully upholstered arms
- Fabric

Arm caps for fully upholstered arms
- Plastic - Sterling Dark or Midnight

Intermediate transfer arm cap (fully upholstered folding arm only)
- Plastic - Sterling Dark or Midnight

Low arm panels (sides)
- Fabric

Footrest (front)
- Fabric

Bumpers
- Plastic to match upper arms

Backrest recline paddles
- Platinum Solid plastic

Footrest scallop
- Plastic to match upper arms on 23"W
- Fabric on 26"W

Footrest control lever and bezel
- Platinum Solid plastic

Central lock pedals
- Platinum Solid plastic with red visual indicator graphics

Trendelenburg pedals
- Platinum Solid plastic with red visual indicator graphics

Directional steering pedal
- Platinum Solid plastic with green visual indicator graphics

Casters
- Plastic housing color to match upper arms

Legs
- Powder coated aluminum in sterling dark, with matching default on casters, arm caps, and bumpers
- Powder coated aluminum in midnight, with matching default on casters, arm caps, and bumpers

Wheels
- Grey when Sterling Dark arms are specified
- Black when Midnight arms are specified

Push bar
- Platinum Solid paint

Pull out footrest
- Black slip-resistant surface

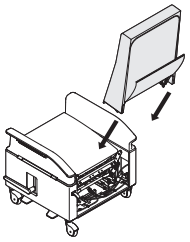
Tablet arm
- Thermoform surface
- Platinum Solid powder coated metal arm

IV pole
- Stainless steel

IV pole holder
- Platinum Solid paint

Drainage bag hanger
- Anodized aluminum with black nylon strap

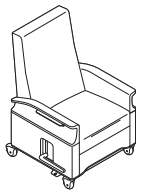
Shipping



Empath recliner back ships uninstalled and requires field assembly. Assembly instructions can be found on village.steelcase.com. Installation requires back to be slid into place and attached with two 7⁄16" bolts.

Tablet arm option ships separately and requires field assembly. Instructions are included in the shipping box or can be found on village.steelcase.com.

Empath Recliners



Tip: Left and right for flip-down arms, tablet, drainage bag hanger, and IV pole holder are determined when facing the front of the chair.

Tip: Different fabrics for the seat, back, sides, and front can be specified. If the fabrics are in different price groups, calculate list price by adding the price groups for each surface together and dividing by four. For example, if specifying seat and front fabric both in group 2, sides in group 4, and back in group 6, add the list price in price group 2 twice (seat + front), price group 4 once (sides), and price group 6 (back) once then divide by four.

Tip: Tablet can be located on a fixed arm only. It is not available on dual flip-down arm models. If specified on right flip-down arm models or on the left side facing arm of fixed arm models, the footrest lever will be placed on the right side facing arm panel, opposite the tablet.

Tip: Directional steering, push bar, and pull out footrest are ordered as options.

Tip: IV pole option does not include pole holder (and vice versa). Must order each option separately.

Tip: Possible interference exists when a drainage bag hanger is specified on the same side as a flip-down arm or the footrest lever and a drainage bag is attached. Care should be exercised in these configurations to help avoid inadvertent damage to the bag. There is no interference between the flip-down arm or footrest lever and drainage bag hanger itself (without a bag attached).

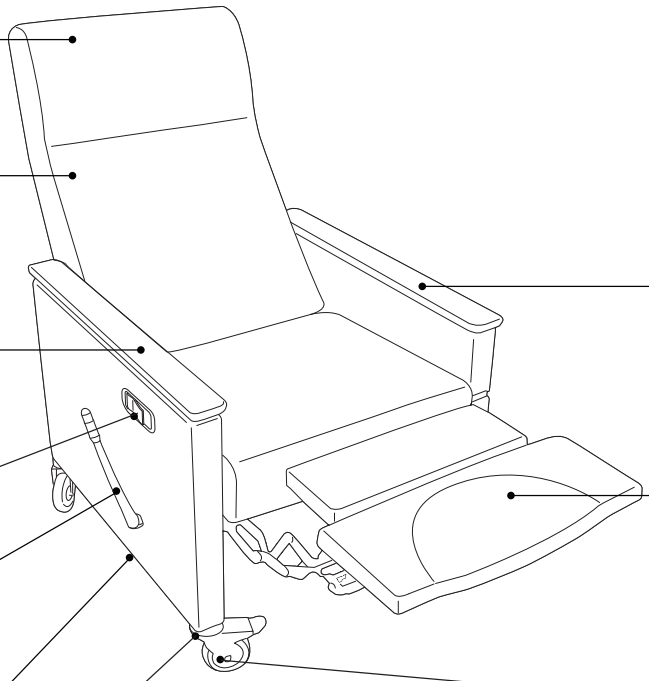
Mineral Recliners

Mineral recliner seating is designed to provide big chair comfort in a compact size.



Headrest provides continuous support in the seated position and various reclined postures.

Seat cushion and back are upholstered. Elastic web straps, which are connected to the steel frame, provide additional seat and back support.

Arms panels are enclosed and upholstered. Arm caps have a beveled front grip to help ease of entry and exit from the chair.

Backrest recline actuator controls the reclining function of the chair.

Footrest control lever opens and closes the footrest and operates independently from the backrest recline actuator to provide maximum control and comfort.

Frame is constructed of welded steel for long-term durability.

Optional wood legs are also available.

Fold-down arm assists with patient transfer to or from another surface.

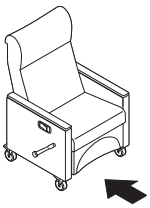
Footrest is scalloped to help prevent feet from slipping off the ends in the raised position and help facilitate exiting the chair in the closed position.

Casters are standard and each feature a total lock system to lock both wheel and swivel with easy action.

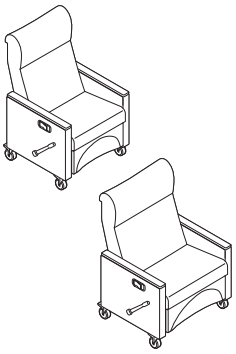
Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height	Fully Reclined Depth
Reclining chair	30"	29½" and 32½"	46"	18½"	23" and 26"	20½"	26"	69"

Product Details

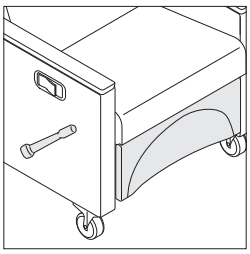


Left and right for all features and options are determined when facing the front of the chair.

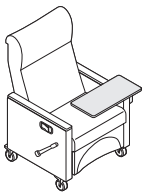


Two seat widths are available for all configurations, 23"W and 26"W.

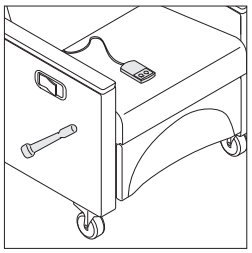
Back recline mechanism facilitates a near full flat recline. Pull and hold actuator to recline back and return to upright. Release actuator to keep back at desired position.



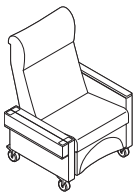
Footrest lever is standard on the left side facing arm. For most secure posture, open prior to reclining the back and close after returning the back to the upright position.



Tablet arm is 11" x 20" and swivels 270°. It can be mounted on the left or right side (shown) of fixed arm models. If left mount is specified, the recline levers will be positioned on the right side of the unit when facing the front of the chair.

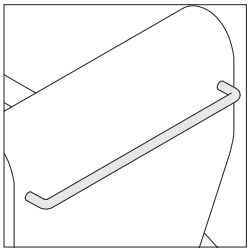


Heat and massage option is UL approved. Both functions feature three settings allowing the user to adjust for personal preference. User hand held control pendant has a flexible cord and stores on the side of the back when not in use.

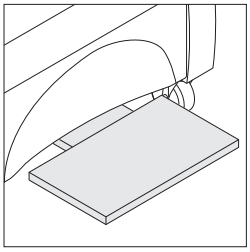


Fold-down arm assists with patient transfer to or from another surface. The arm self-locks when lifted into the upright position.

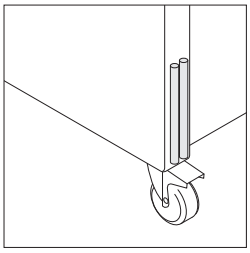
Flip-down release tab is located at the back of the arm for easy access and operation.



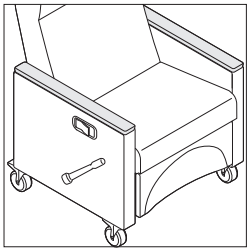
Push bar attaches to the back to assist in maneuverability.



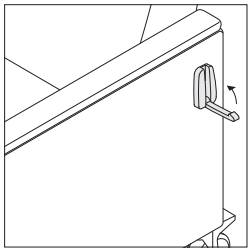
Pull out foot rest easily slides out to support a patient's feet while seated.



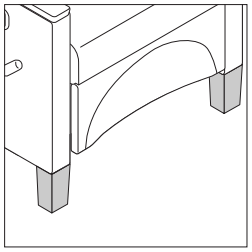
IV pole holder is positioned on the back of the arm panel and accommodates ½" to ¾" diameter IV poles. It can be mounted on the left or right side.
Tip: Height adjustable, ¾" diameter stainless steel IV pole is available through customer service (part 22158701SR).



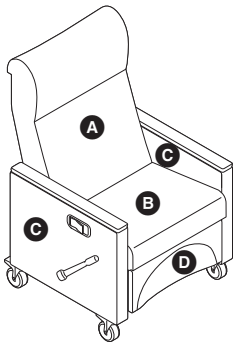
Arm caps are available in solid wood or plastisol.



Drainage bag hanger accommodates foley bags and other drainage bags and closes flat when not in use. It is best specified on the arm opposite the recline levers but can be mounted on the left or right side. On flip-down arm models, it will be positioned on the opposite arm of the flip-down (controls side).



Wood legs are available as an option and include non-adjustable plastic glides.



Up to four different fabrics can be specified: back (A), seat (B), sides (C), and front (D).

Moisture barrier is available as an option on the seat only.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

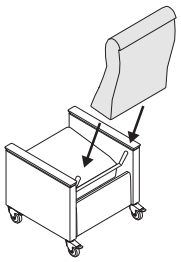
Shipping



Mineral recliner back ships uninstalled and requires field assembly. Assembly instructions can be found on village.steelcase.com. Installation requires back to be slid into place and attached.

Mineral Recliners

Tip: Left and right for flip-down arms, tablet arm, IV pole holder, and drainage bag hanger are determined when facing the front of the chair.

Tip: Different fabrics for the seat, back, sides, and front can be specified. If the fabrics are in different price groups, calculate list price by adding the price groups for each surface together and dividing by four. For example, if specifying seat and front fabric both in group 2, sides in group 4, and back in group 6, add the list price in price group 2 twice (seat + front), price group 4 once (sides), and price group 6 (back) once then divide by four.

Tip: Tablet can only be specified on fixed arm model. If mounted on the left, recline levers will be placed on the right arm panel when facing the front of the chair.

Tip: Tablet arm option can be specified in conjunction with the IV pole holder and/or drainage bag hanger.

Tip: On flip-down arm models, the IV pole holder and/or drainage bag hanger will be positioned on the arm opposite of the flip-down arm.

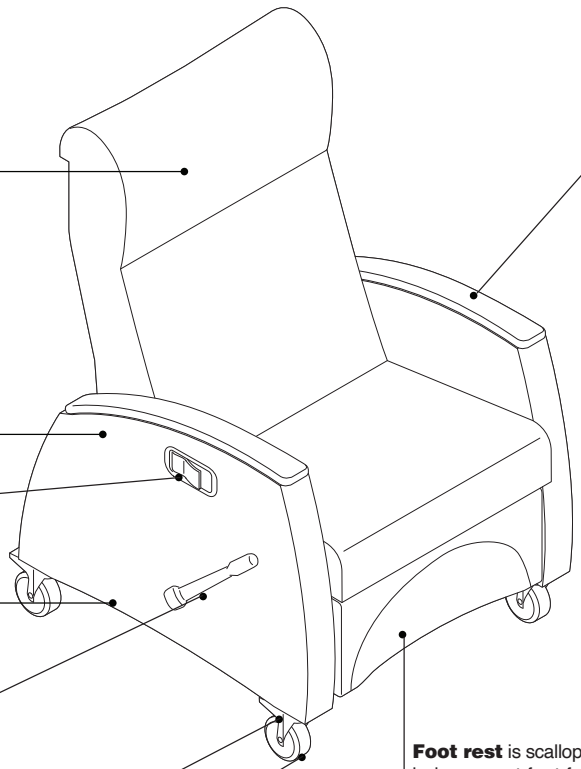
Mitra Recliners

Mitra recliner seating is designed to correspond with the energetically curved styling of Mitra arm chairs.



Seat cushion and back are upholstered. Elastic web straps, which are connected to the steel frame, provide additional seat and back support.

Arms caps feature a reverse bevel and overhang the side panels to provide a comfortable hand grip for ease of entry and exit from the chair.

Side panels are upholstered.

Backrest recline actuator controls the reclining function of the chair.

Frame is constructed of wood and welded steel components for long-term durability.

Footrest control lever opens and closes the footrest and operates independently from the backrest recline actuator to provide maximum control and comfort.

Foot rest is scalloped to help prevent feet from slipping off the ends in the raised position and help facilitate exiting the chair in the closed position.

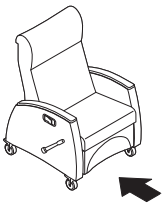
Optional wood legs are also available.

Casters are standard and each feature a total lock system to lock both wheel and swivel with easy action.

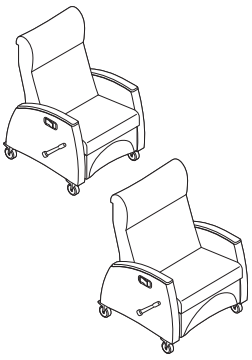
Actual Dimensions

Features	Overall Depth	Width	Height	Seat Depth	Width	Height	Arm Height	Fully Reclined Depth
Reclining chair	32"	31½" and 34½"	46"	18½"	23" and 26"	20½"	27½"	69"

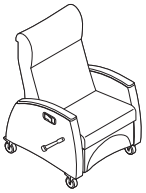
Product Details



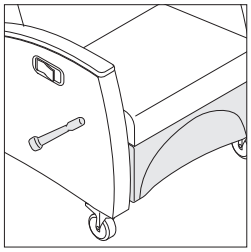
Left and right for all features and options are determined when facing the front of the chair.



Two seat widths are available for the standard mechanism recliner version **SC6091**, 23"W and 26"W. Recliner with Trendelenburg version **SC6091T** is only available in 23"W.

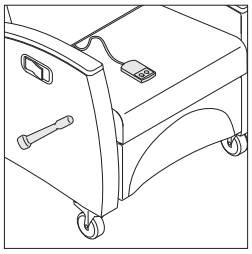


Back recline mechanism facilitates a near full flat recline. Pull and hold actuator to recline back and return to upright. Release actuator to keep back at desired position.

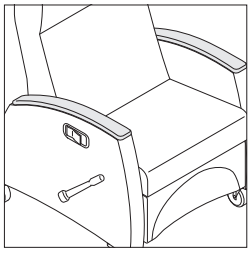


Footrest lever is standard on the left side facing arm. For most secure posture, open prior to reclining the back and close after returning the back to the upright position.

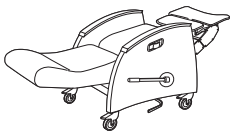
Tablet arm is 11" x 20" and swivels 270°. It can be mounted on the left or right side (shown). If left mount is specified, the recline levers will be positioned on the right side of the unit when facing the front of the chair.



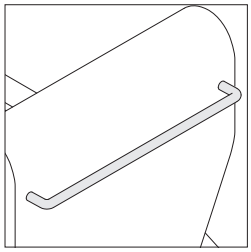
Heat and massage option is UL approved. Both functions feature three settings allowing the user to adjust for personal preference. User hand held control pendant has a flexible cord and stores on the side of the back when not in use.



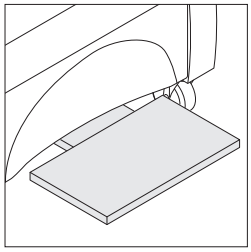
Arm caps on recliner are available in solid wood or plastisol.



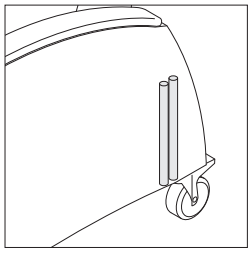
Trendelenburg is foot activated from either side and reclines so a patient's feet are above the head.



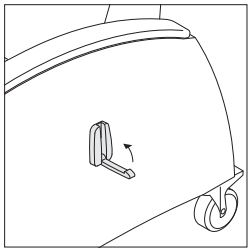
Push bar attaches to the back to assist in maneuverability.



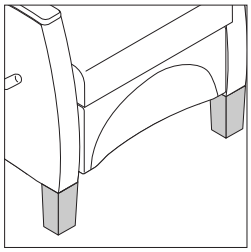
Pull out foot rest easily slides out to support a patient's feet while seated.



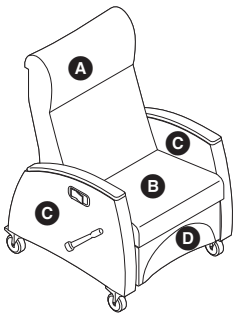
IV pole holder is positioned on the arm opposite the recliner levers and accommodates ½" to ¾" diameter IV poles.
Tip: Height adjustable, ¾" diameter stainless steel IV pole is available through customer service (part 22158701SR).



Drainage bag hanger accommodates foley bags and other drainage bags and closes flat when not in use. It is positioned on the arm panel opposite the recline levers.



Wood legs are available as an option and include non-adjustable plastic glides.



Up to four different fabrics can be specified: back (A), seat (B), sides (C), and front (D).

Moisture barrier is available as an option on the seat only.

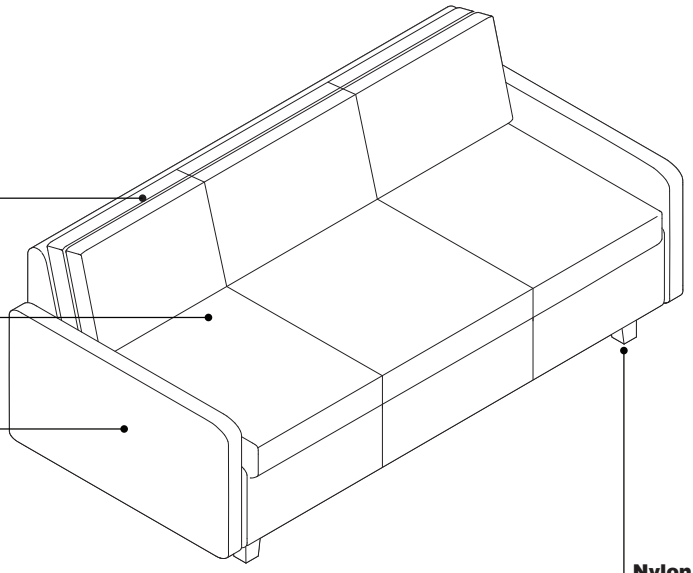
Sieste Sleeper

Sieste sleeper complements the Sieste family of chairs. It can be used for seating or folded open for sleeping.



Back is fully upholstered and closed for seating. Cushion folds open when a sleeping surface is needed.

Seat is fully upholstered.

Arms are enclosed and upholstered. An armless sleeper is also available.

Nylon glides are standard on legs.

Actual Dimensions

Features	Overall Depth	Width*	Height	Seat Depth	Width	Seat Height from Floor	Back Height from Seat	Arm Height from Floor
Sleeper with Arms	35"	82", 86", or 90"	33"	21"	76", 80", or 84"	17"	16"	23"

Sleep surface	32"	76", 80", or 84"	21"	N. A.	N. A.	N. A.	N. A.	N. A.

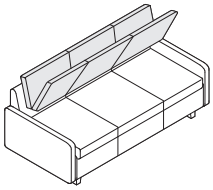
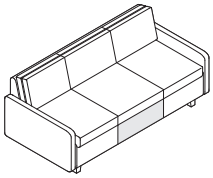
*Custom widths also available in one inch increments.

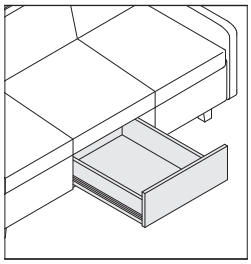
Product Details



Back cushion folds open for a sleeping surface that is protected from sitting exposure. Cushion is securely attached to frame. A standard fitted twin sheet will fit the 76"W sleeper.

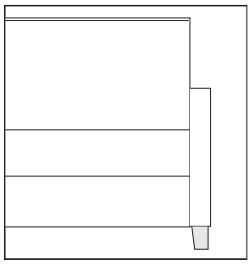


Storage drawer is standard on all sleepers to accommodate items such as linens. Drawer can be eliminated as an option.

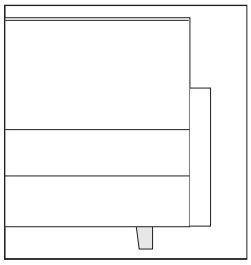


The inside dimensions of the storage drawer are 17"D x 24 1/2"W x 5 1/4"H.

Round bolster is available for use with the sleeper. Attachment rings on bolster and attachment device on sleeper are available as options. Specify both to attach bolster to sleeper.



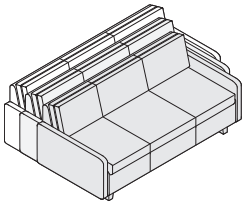
Outside Position



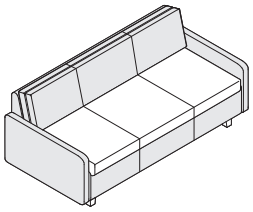
Underframe Position

Legs are constructed with maple hardwood solids. Two different leg positions are available – outside position or underframe position.

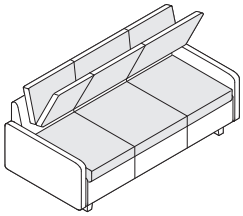
Casters, two locking on the front and two non-locking on the back of the sleeper, are available as an option.



Customized widths are also available in one inch increments to help with space limitations or to ensure the perfect fit. Contact Steelcase Health Customer Care at 1.800.342.8462 or customercare@SteelcaseHealth.com for more information.



Different fabrics can be specified on the seat and back. Fabric on the back will match the fabric on the arm panel and front kick panel. Contrasting fabrics to be upholstered different from the standard must be processed through Specials.



Moisture barrier on the seat and back is available as an option.

Surround Configuration Charts

Surround is a frame-based modular collection of components designed to maximize the user experience. Each Surround frame can support various combinations of components to accommodate patient room and other various architecture. Product configuration is determined during specification.

Tip: Understand the dimensions of the architectural space to determine the frame.

Tip: Specify the maximum frame dimension to maximize experience and options.

Tip: All components must fit within the frame dimension (seat, back, arms, and storage).

Tip: Left and right is determined when facing the unit.

Tip: Understand the dimensions of the architectural space to accommodate components that may extend outside frame dimensions.

Tip: Seat and back must be the same width.

Tip: Low arm and high-recline arm are available in left- or right-facing positions.

Tip: High-recline arm placed on end of unit extends 3¾" from the frame at the outermost point.

Tip: Storage end table can be specified in one- or two-tier option.

Tip: Storage end table mounts only to the right or left side of the frame unit.

Tip: Two-tier storage requires the specification of an adjacent arm on frame.

Tip: Storage cannot be specified adjacent to other storage.

Tip: Storage width must match storage size specified on frame.

Tip: Power, two front glides and two directional back wheel casters, and mobile tablet can be specified on all units.

Tip: Unit weights are approximations and may vary between units.

Tip: Unit weights include one-tier storage where applicable.

Tip: Understand the dimensions of the architectural space to determine the frame.

Tip: Specify the maximum frame dimension to maximize experience and options.

Tip: All components must fit within the frame dimension (seat, back, arms, and storage).

Tip: Left and right is determined when facing the unit.

Tip: Understand the dimensions of the architectural space to accommodate components that may extend outside frame dimensions.

Tip: Seat and back must be the same width.

Tip: Low arm and high-recline arm are available in left- or right-facing positions.

Tip: High-recline arm placed on end of unit extends 3¾" from the frame at the outermost point.

Tip: Storage end table can be specified in one- or two-tier option.

Tip: Storage end table mounts only to the right or left side of the frame unit.

Tip: Two-tier storage requires the specification of an adjacent arm on frame.

Tip: Storage cannot be specified adjacent to other storage.

Tip: 71½"W and 77"W seats are standard with a fold-down sleep surface and require two arms.

Tip: 55"W, 60½"W, and 66"W seats can be specified with or without a fold-down sleep surface.

Tip: If a sleep surface is required, an 66"W frame is the smallest frame that can be specified.

Tip: Sleep surface requires the specification of two arms.

Tip: Storage width must match storage size specified on frame.

Tip: Power, two front glides and two directional back wheel casters, and mobile tablet can be specified on all units.

Tip: Unit weights are approximations and may vary between units.

Tip: Unit weights include one-tier storage where applicable.

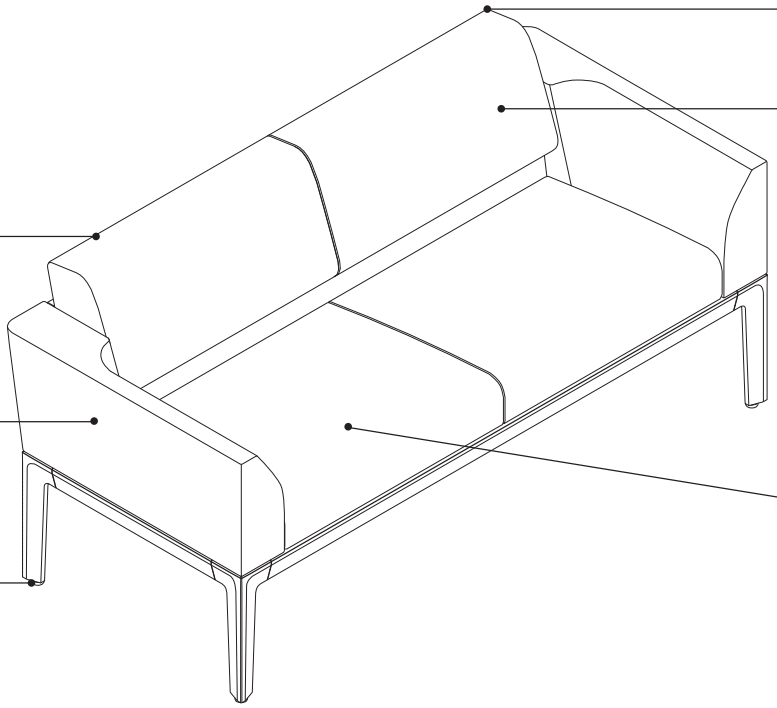
Surround Lounge

Units have a modular design that comes assembled (seat, back, outer back, frame, and arms). Mobile tablet and storage are available and must be specified separately.



Structural outer back extends 3½" behind the frame at its outermost point.

Back includes an upholstered structural outer back and upholstered back. Available in sleeper and fixed back.

Upholstery for seat, back, outer back, and arms must be specified separately. They can have different fabrics.

Short arm, low arm, and high-recline arm are available in right- or left-facing positions. Specify each arm individually.

Glides are standard with frame and have a 1½" adjustment range.

Seat cushions are available in both standard and soft options.

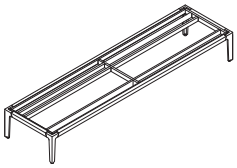
Product Details

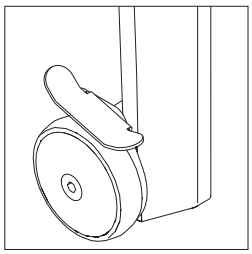


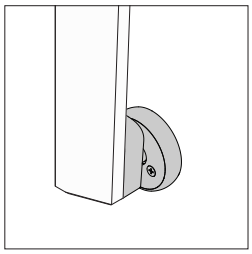
Frame understructure is welded, tubular steel.

Frames are dynamically tested to 550 pounds and statically tested to 750 pounds in all seating positions.

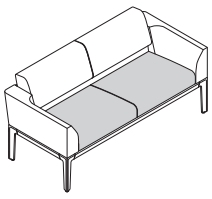
Aluminum extrusion trims span between each corner leg.

Cast aluminum legs are attached to steel understructure to provide support and add visual continuity.





Mobile option includes two, locking or non-locking, directional back wheel casters mounted on the frame leg.



Seat cushions offer a contoured design to maximize overall comfort.

Seat cushions are available in various widths (see actual dimensions).

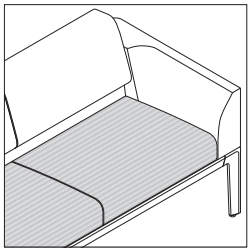
Crumb sweeps are on all three sides of seat cushions.

Softer seat cushion option is available. The softer seat cushion foam option is approximately 15 percent softer than the standard seat cushion foam.

Seat cushions in widths of 55", 60½", 66", 71½", and 77" come with a single center seam.

Seat cushions have a depth of 18½".

Seat cushion is available in standard and soft options.

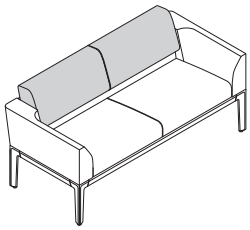


Fabric is applied to the seats in the railroad or horizontal direction to remain consistent with the backs.

Patterned fabrics will not match between seats, arms, and backs.

Large, patterned fabrics should be used selectively and are not recommended for use on all components.

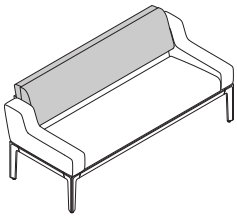
Contrasting fabrics are available on seat and back cushions.



Back cushions are available in various widths (see actual dimensions).

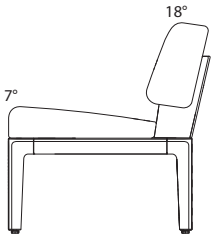
Back cushions in widths of 55", 60½", 66", 71½", and 77" come with a single center seam.

Sleeper surface is standard with back widths of 71½" and 77" .

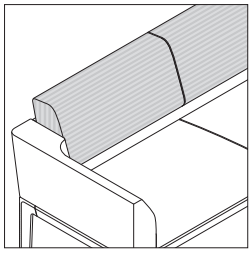


Sleep surface is an option with back widths of 55"W, 60½"W, and 66"W.

Sleep surface requires the specification of two arms.



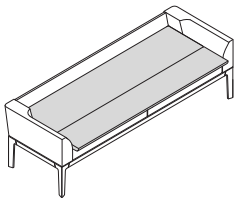
Seat cushions have a 7° recline and back cushions have an 18° recline.



Fabric is applied to the backs in the railroad or horizontal direction to remain consistent with the seat cushions.

Fabric on the top of the back will match patterns on the front of the back but is applied to waterfall over the ends. Ends will not match top and front of back.

Contrasting fabrics are available on back cushions and the structural outer back.



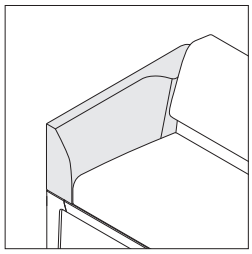
Sleep surface folds down in three easy steps and is designed for maximum comfort.

Sleep surface has a depth of 28".

Sleep surface standard material is an oxford nylon with urethane coating.

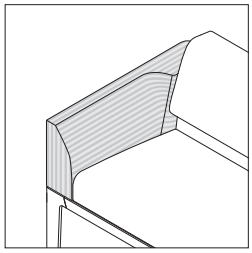
Sleep surface extends 2" past seat when deployed.

Sleep surface material comes standard with moisture barrier.

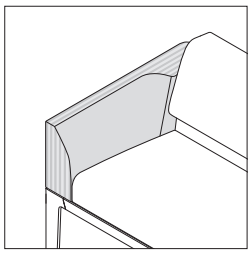


Low arm offers wrap-around contour support that supports a lounge posture.

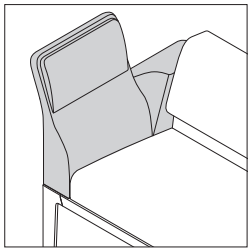
Low arm dimensions are 31"D x 5½"W x 12½"H.



Contrasting fabrics are available on low arms and high-recline arms.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.



Fabric on the top of the arm will not match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.



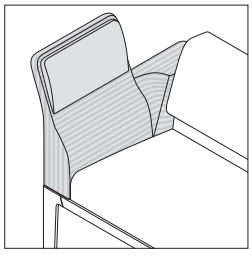
High-recline arm dimensions are 31"D x 5½"W x 23"H.

High-recline arm supports a natural reclining posture.

High-recline arm is standard with an integrated pillow to provide added comfort.

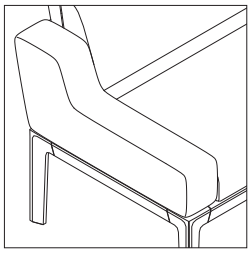
Contrasting fabrics are available on high-recline arm and high-recline pillow.

Patterned fabrics will not match between high-recline arm and high-recline pillow.



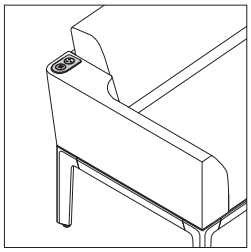
Fabric on the top of the high-recline arm will match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.

Surround Lounge, continued



Short arm dimensions are 31"D x 5 1/2"W x 12 1/2"H.

Wiring and Cabling



Power can be integrated short arms or high-recline arms and offers options for up to four devices.

Power options are tamper and spill resistant.

Power options include two standard outlets, one standard outlet and two USBs, and four USBs.

Power outlets are standard 110V outlets and are not hospital grade. If hospital grade is required, please specify the four USB port power option.

The USB ports are USB type A with two amps per port.

Up to two USB receptacles (total of four USB ports) may be specified in a unit.

One-arm units specified with two standard power outlets will have a 8' power cord that exits the lower center back of the arm specified with power.

Two-arm units specified with two standard power outlets in one arm and no power in the other will have a 8' power cord that exits the lower center back of the arm specified with power.

Two-arm units specified with two standard power outlets in both arms will have one 8' power cord exiting the back of each arm.

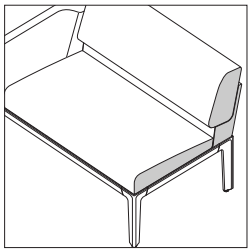
One or two arm units specified with any other power option except two standard power outlets will have a 8' power cord exiting the lower center back of the unit.
Tip: Steelcase recommends to check with all local and facility authorities prior to specification and order, to confirm acceptance of proposed product and applications.

Application Topics

The dimension of the architectural space accommodates components that may extend outside frame dimensions.

All components must fit within the frame dimension (seat, back, outer back, arms, and storage).

Seat cushion width specification determines back cushion and structual outer back widths.



When only one arm is specified, the opposite sides of back, outer back, and seat will be upholstered in their respective upholstery.

If a sleep surface is required, specify 55"W, 60 1/2"W, 66"W, 71 1/2"W, or 77"W seat.

Sleep surface is standard with integrated instructions for use.

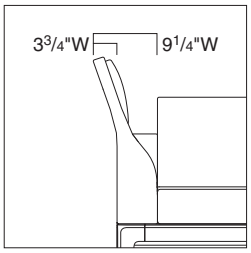
Sleep surface extends 2" past the seat.

Mobile tablet can easily be positioned to not interfere with sleep surface during deployment.

Adding two-tier storage requires the specification of an adjacent arm.

Low arm specified adjacent to storage allows for easier access than high-recline arm.

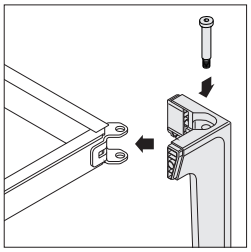
Power location and power type in the arm must be specified.



High-recline arm placed on end of unit extends 3 3/4" from the frame at the outermost point.

High-recline arm is recommended to be specified to allow reclining posture to face wall containing media, such as a monitor or television.

Connections



Cast legs come assembled to steel frame with bolts at each corner of the frame.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

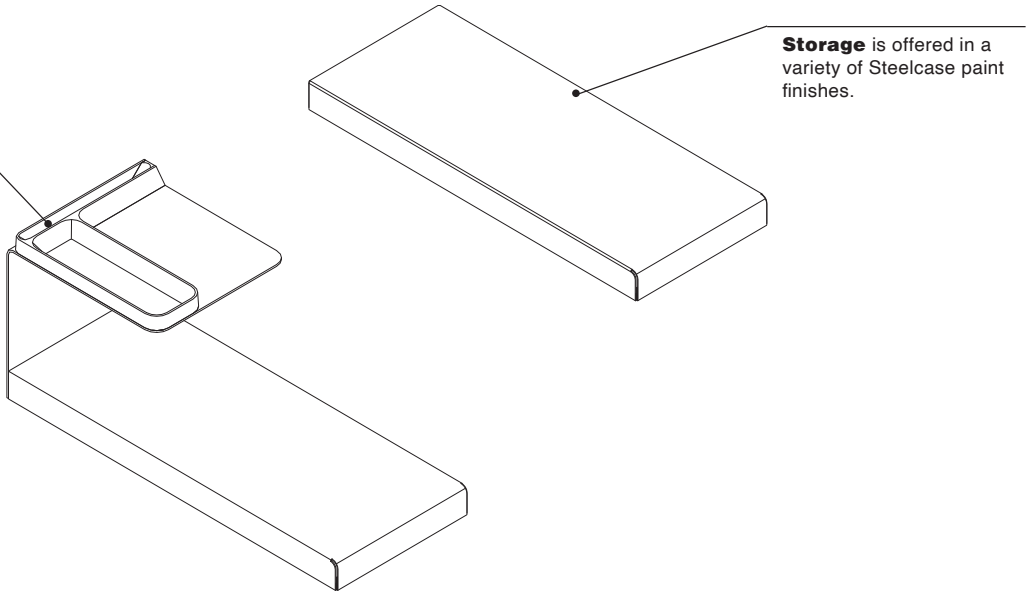
Surround Storage End Tables

Storage end tables are available in a one- or two-tier option, in two widths: 11"W and 16½"W.

Storage tray with picture rail is standard on two-tier end table.

Adding two-tier storage requires the specification of an adjacent arm.

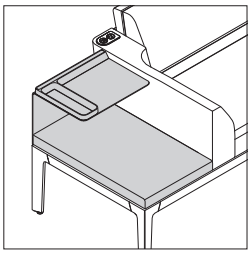


Storage is offered in a variety of Steelcase paint finishes.

Actual Dimensions

	Depth	Width	Height
One-Tier End Table	27½"	11"	2"
	27½"	16½"	2"
Two-Tier End Table	27½"	11"	12½"
	27½"	16½"	12½"

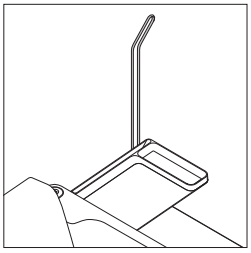
Product Details



Two-tier end table offers coat hanger option.

Top tier of two-tier end table has a depth of 12¾".

Storage tray with picture rail is standard on two-tier end table.



Coat hanger is available on the two-tier end table. It provides vertical organization and supports multiple coats.

Coat hanger is easily accessable and points away from unit.
Coat hanger is a formed continuous loop of 5/16" steel rod.

Application Topics

Storage mounts only to the right or left end of the frame.

If a low arm is specified adjacent to storage, it allows for easier access.

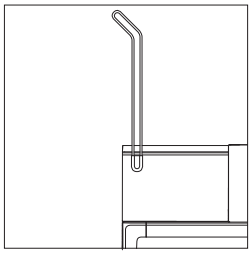
Short arm is unable to accommodate two-tier storage.

Two-tier storage requires the specification of an adjacent arm. One-tier storage does not.

Storage width and location must be specified individually. Storage location is determined when frame is specified.

Two-tier end table is available in contrasting finishes.

Coat hanger attaches to the back of the two-tier end table on site.



Coat hanger extends 2" from the frame at its outermost point.

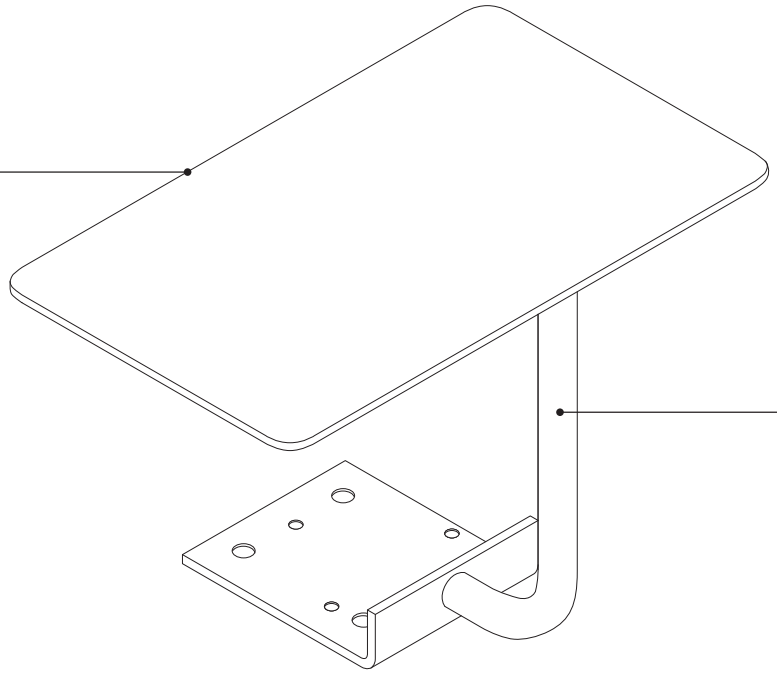
Surround Mobile Tablet

Mobile tablet surface is designed to accommodate eating, working, entertaining, and writing.

Mobile tablet surface is offered in a variety of Steelcase plastic finishes.

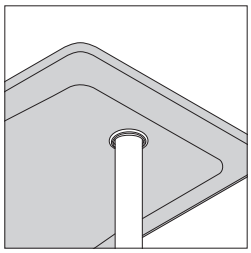


Tablet arm is offered in a variety of Steelcase paint finishes.

Actual Dimensions

	Depth	Width	Height
Mobile Tablet Surface	12"	19½"	⅞"

Product Details

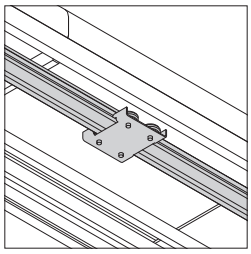


Tablet surface pivots 360°.

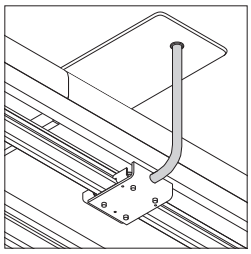
Mobile tablet is injection-molded and vibration-welded to create a barrier against moisture.

Mobile tablet is positioned 10" above the seat cushion.

Tablet surface load capacity is 100 pounds.



Tablet rail is specified on frame. Tablet rail can be added to existing Surround frame in the field.



Tablet arm slides along the rail the length of the frame.

Tablet surface has a safe, yielding failure mode.

Application Topics

Mobile tablet is ordered separately and attaches to frame on site.
▶See page 250 for *Regard tablet rail.*

One tablet rail and mobile tablet can be specified per unit.

Tablet rails have stops to ensure no interference with an adjacent object.

Additional stops can be inserted to prevent interference with other objects.

Tablet rail rollers are protected, preventing pinch points.

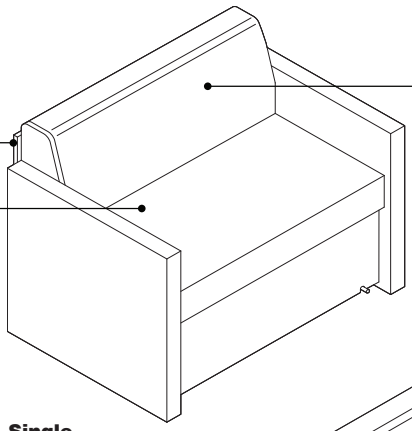
X-tenz Sleeper Chairs

X-tenz sleeper chairs feature a contemporary design and are available in single and double sleeper units.

Back panel is laminate.

Seat cushion, tapered bolsters, and side panels are fully upholstered.

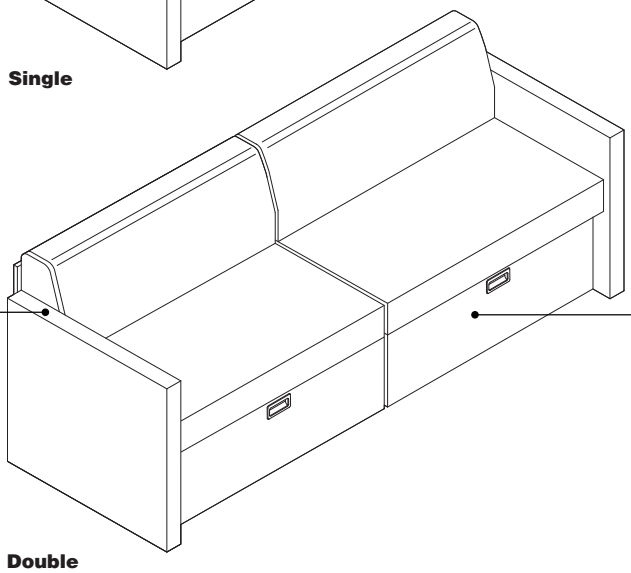
Back bolsters are tapered.



Single

Arms caps are upholstered. Plastisol or solid maple wood arm caps are optional.

Front kick panel is laminate.



Double

Actual Dimensions

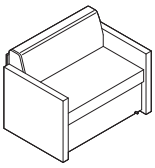
Features	Overall Depth	Width	Extended Width	Height	Seat Depth with Bolsters	Depth without Bolsters	Height	Mattress Thickness
X-tenz Single Sleeper Chairs								
Sleeper chair with glides	31"	45"	84"	35"	20"	29"	20"	5"
Sleeper chair with casters	31"	45"	84"	35½"	20"	29"	20½"	5"
Sleep surface	27"	80"		14½"*				
X-tenz Double Sleeper Chairs								
Sleeper chair with glides	31"	84¾"		35"	20"	29"	20"	5"
Sleep surface when both units are extended	54"	80"		14½"*				

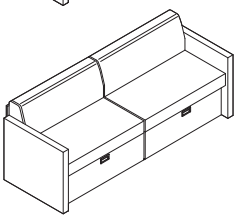
*Height from the floor

Tip: Sleep surface on X-tenz single sleeper chairs is 27"D x 80"W. Height of sleep surface is 14½"H.

Tip: Sleep surface on X-tenz double sleeper chairs when both units are extended is 54"D x 79¾"W. Height of sleep surface is 14½"H.

Product Details

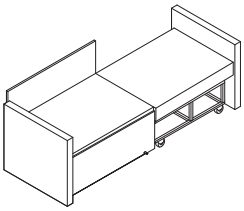




X-tenz single and X-tenz double units are standard with tapered bolsters.

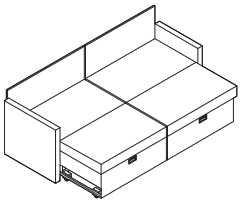
X-tenz single is available with casters or glides. Caster models feature front locking, rear non-locking swivel casters.

X-tenz double sleeper chair is standard with glides.

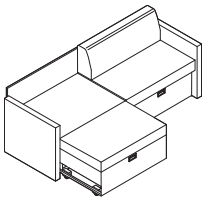


Rollout section on X-tenz single sleeper chair pulls to the side to expose the sleeping surface. The rollout section can be specified on either the left or right (shown), based on facing the front of the chair.

Foot-activated release allows the rollout section of the sleeper chair to be pulled out.

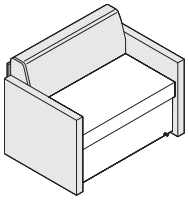


Rollout section on X-tenz double sleeper chair pulls forward to expose the sleeping surface.



Lounge position on X-tenz double sleeper chair pulls forward allowing the two seats to extend independently.

Directional casters are standard on the rollout section of sleeper chairs with glides. Swivel casters are standard on the rollout section of single sleeper chairs with casters.



Different fabrics can be specified on the seat and back. Back fabric will match the side panel. Contrasting fabrics to be upholstered different from the standard must be processed through Specials.

Moisture barrier is optional. It is applied to the seat/mattress only.

Surface Materials

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

X-tenz Sleeper Chairs Seat cushion, bolsters, and side panels
- Fabric
- Fabric with moisture barrier (option on seat/mattress only)

Arm caps

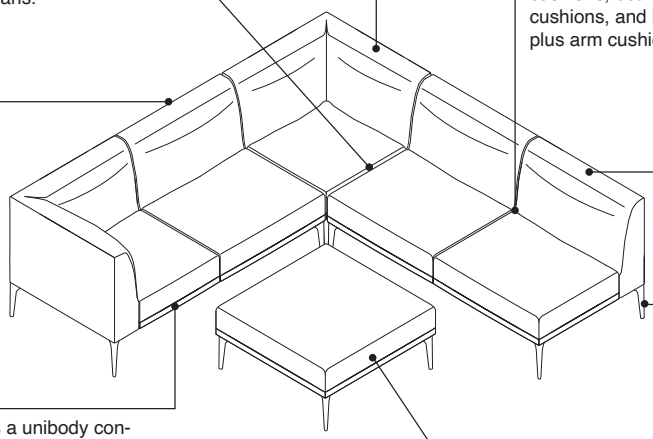
Mesa Lounge

Mesa lounge seating adds style to any workspace with its modern form and tapered legs. Modular pieces can easily create common areas of any size.



Lounge units can be connected together to create an L- or U-configuration. Two corners can be used together for a two-seat sofa.

Connector brackets are standard with all lounges and ottomans.

Crumbsweep is provided between seat plus back cushions, between seat cushions, and between seat plus arm cushions.

Lounge units are available in two-seat lounge, right- and left-hand chaise lounge, and corner lounge.

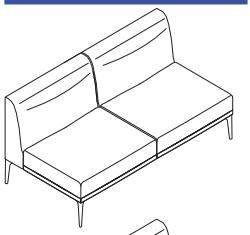
Upholstered seat and back cushions are attached.

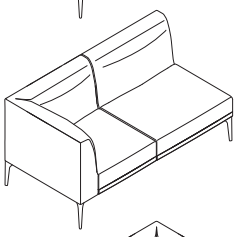
Tapered legs are cast aluminum and coated in WE01 Antique Bronze.

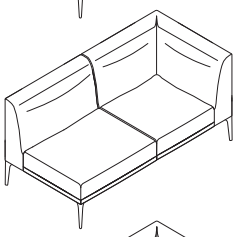
Frame is a unibody construction with finger jointed plywood.

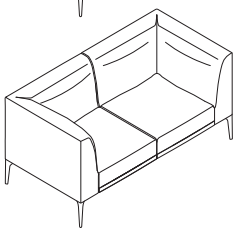
Ottoman can be freestanding or connected to other lounge units.

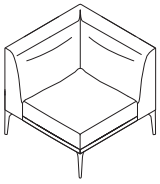
Product Details

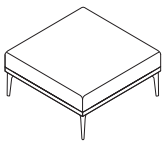






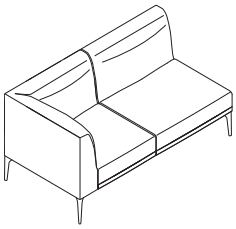


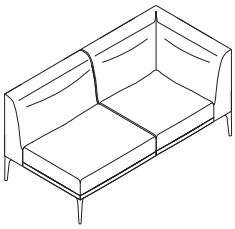




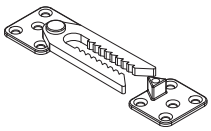
Lounge seating features five fully upholstered, complementary models: two-seat lounge, right-hand chaise lounge, left-hand chaise lounge, corner lounge, and ottoman. All models feature a four-leg, cast aluminum base with a powder coat painted finish.

Mesa units are tested to a 600 pound dynamic load.





Chaise lounge can be specified in a right- or left-hand configuration.
Tip: Handedness is determined while in the seated position.



Integrated ganging device is included and keeps units aligned.

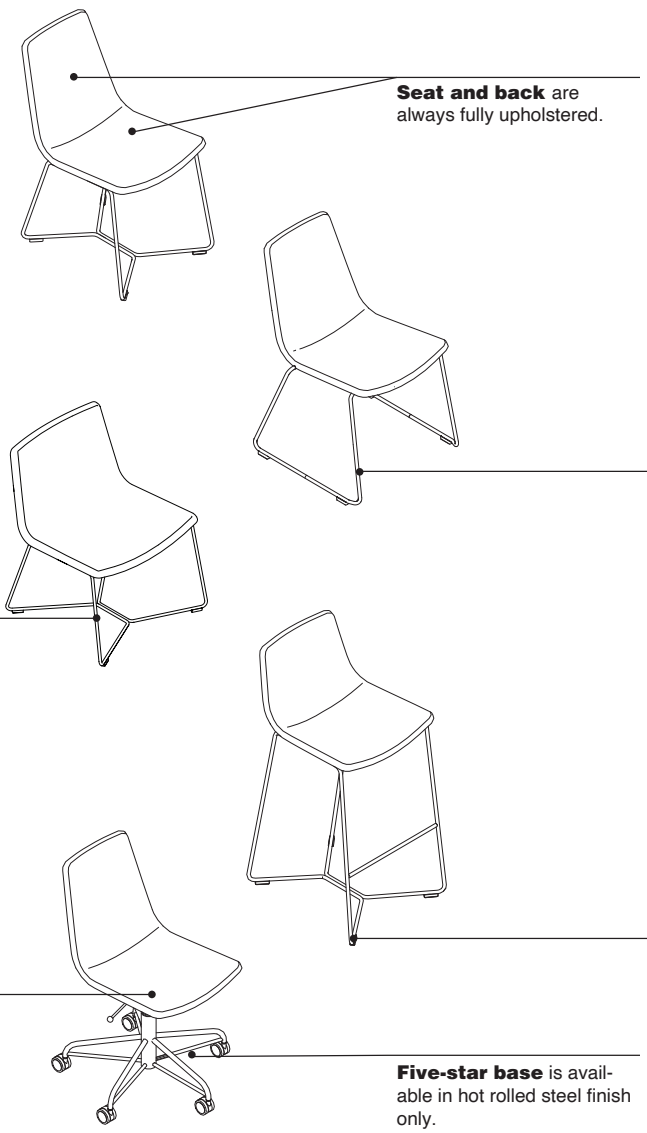
Slope

Simple yet timeless design allows the Slope family of seating to blend seamlessly into the modern office. A wide range of paint colors and upholstery options ranging from muted to playful add personality.
Tip: For specification information regarding Slope counter-height stool, Slope bar-height stool, and Slope conference chair see West Elm Work Collection Specification Guide.



Seat and back are always fully upholstered.

Stackable base configuration allows for easier storage and cleaning. Stacking chairs can be stacked up to five high.

Wire frame base is painted and available in a range of standard, accent, and Lux Coatings.

Glides are polyethylene for superior durability on carpeted and hard floors. Glides are available in natural or black.

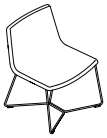
Seat height adjusts 4", from 17½"H to 21½"H, with a pneumatic adjustment mechanism.

Five-star base is available in hot rolled steel finish only.

Product Details

Guest chair

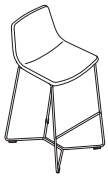
Stacking chair



Bariatric guest chair

Counter-height stool

Conference chair



Bar-height stool

Five-star and wire-frame bases are available for guest chair and stool.

Slope wire frame stool is available in two heights to pair with counter and bar height tables.

360° adjustable height swivel mechanism is standard on five-star base models.
v
Slope ships knocked down and the seat must be assembled to the frame on site, with the exception of the stacker with arms and the guest chair with arms which ship fully assembled. All slope styles come in a single carton.

Arms are available as an option for bariatric guest, stacking, and conference chair.

Slope stacking chairs can be stacked up to five chairs high.

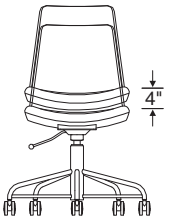
Slope guest and stacking are tested to a 300 pound dynamic load.

Slope bariatric guest is tested to a 600 pound dynamic load.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at *www.steelcase.com.*

Seat Adjustments



Conference Chair

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Other features

Soft wheel casters for hard floors on five-star base models are available for specific applications.

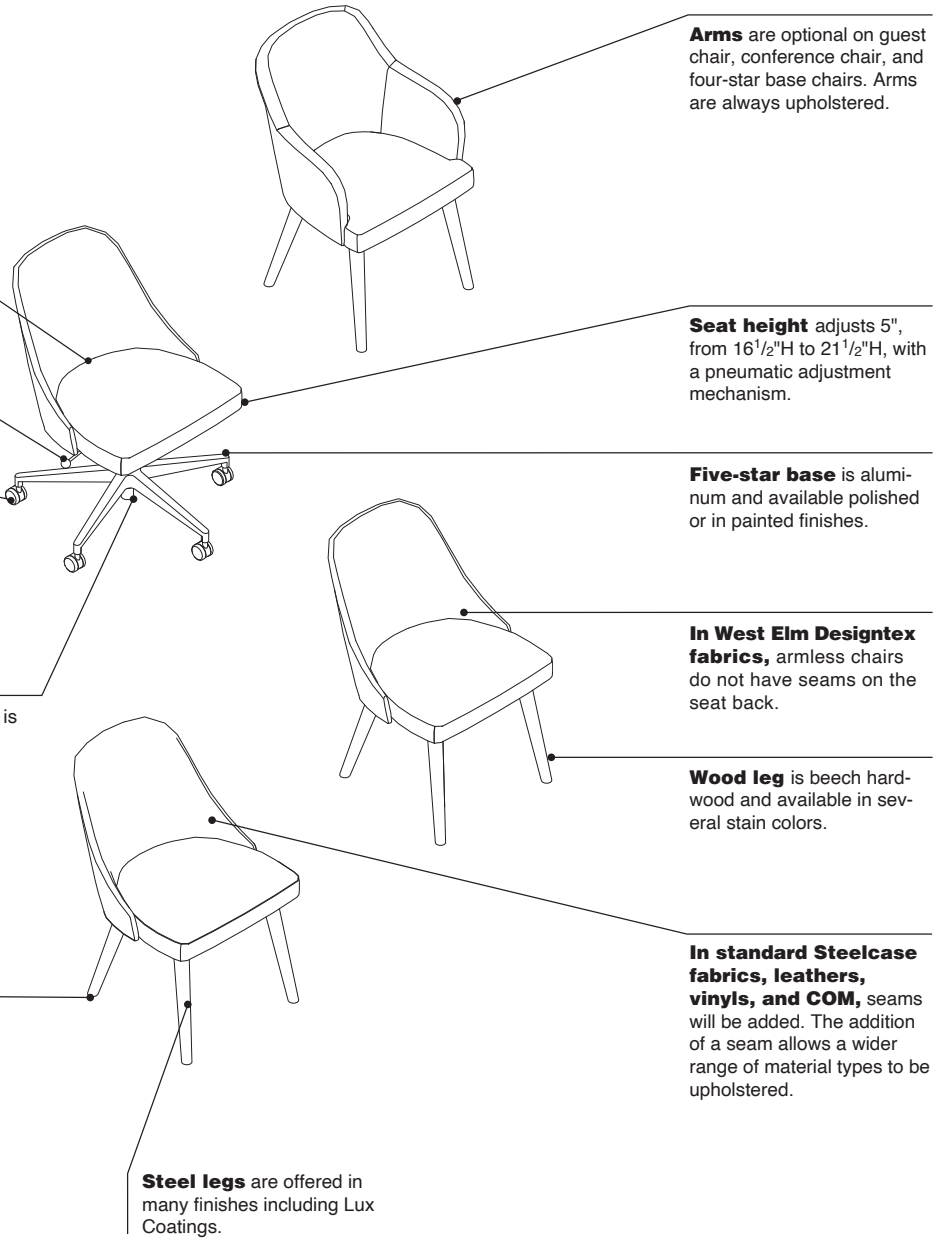
Sterling

Sterling is a family of seating inspired by classic mid-century design. The style and generous sit brings retro-inspired comfort to the office. Hardwood and steel legs or a classic aluminum base and arm options make the Sterling collection relevant across the floor plan. *Tip: For specification information regarding Sterling counter-height stool and Sterling bar-height stool see* West Elm Work Collection Specification Guide.



Crumbsweep between back and seat cushion for easy cleaning.

Optional tilt mechanism enhances user comfort. Available on the five-star base.

Casters have hard, dual-wheels that roll smoothly on carpets. Soft casters for use on hard floors are available as an option.

Pneumatic cylinder is always black.

Glides are polyethylene for superior durability on carpeted and hard floors.

Steel legs are offered in many finishes including Lux Coatings.

Arms are optional on guest chair, conference chair, and four-star base chairs. Arms are always upholstered.

Seat height adjusts 5", from 16 1/2"H to 21 1/2"H, with a pneumatic adjustment mechanism.

Five-star base is aluminum and available polished or in painted finishes.

In West Elm Designtex fabrics, armless chairs do not have seams on the seat back.

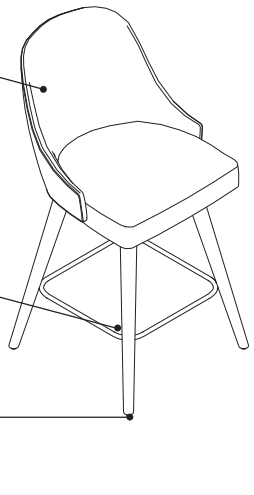
Wood leg is beech hardwood and available in several stain colors.

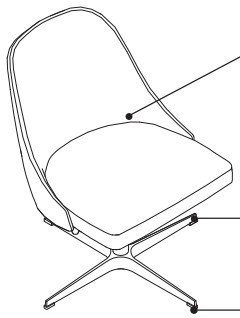
In standard Steelcase fabrics, leathers, vinyls, and COM, seams will be added. The addition of a seam allows a wider range of material types to be upholstered.

Sterling stools are fixed and do not swivel.

Sterling stools include footrest for added comfort. *Tip: The footrest is 8 1/2" from the ground on the counter-height stool and 14 1/4" on the bar-height stool.*

Glides are polyethylene for superior durability on carpeted and hard floors.





Sterling four-star chair comes with 360° swivel and height adjustable mechanism. It does not have an auto-return feature or tilt option.

Four-star base is available in polished aluminum only.

Glides are polyethylene for superior durability on carpeted and hard floors. Casters are not available.

Sterling, continued

Product Details

Five-star, four-star, and four-leg chairs are available with and without arms.

Optional tilt mechanism is available on five-star chairs and has 10° rearward and 2° forward tilt range. The seat and back always remain in a fixed position relative to each other (i.e. no recline).

360° adjustable height swivel mechanism is standard on five-star and four-star base models.

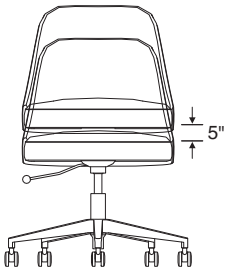
Sterling chairs are tested to a 300 pound dynamic load.

Sterling stools are fixed and do not swivel.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at *www.steelcase.com.*

Seat Adjustments



Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Other features

Soft wheel casters for hard floors on five-star base models are available for specific applications.

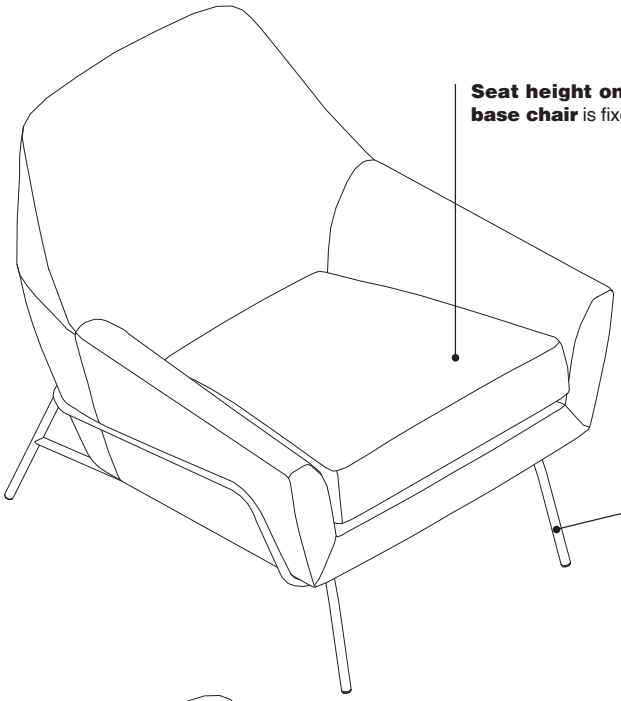
Lucas Seating

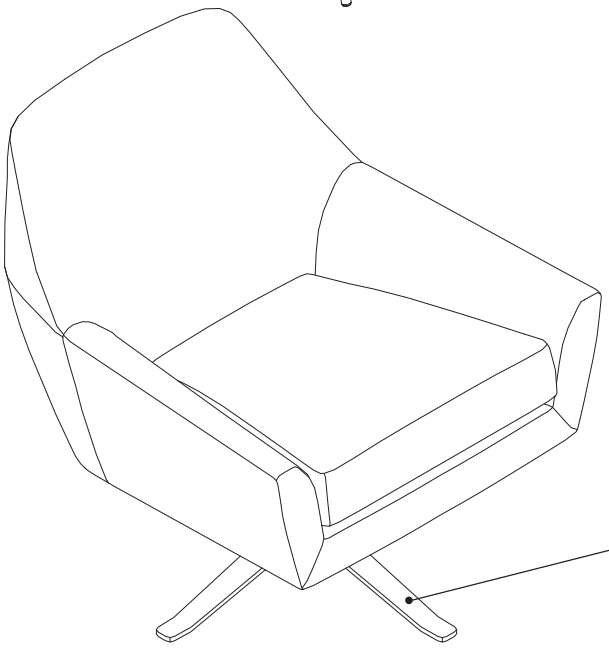
Modern lines give Lucas a streamlined look, while a wide seat and reclined pitch make it a comfortable spot to sit during long meetings and busy days.

Lucas comes standard with arms at a height of 20½". *Tip: For specification information regarding Lucas Seating see* West Elm Work Collection Specification Guide.



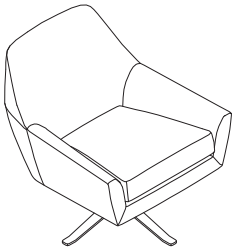
Seat height on wire base chair is fixed at 18½".

The wire base comes standard in West Elm WE05 Burnished Bronze with black glides.



Swivel base comes standard in 8046 Polished Aluminum. Swivel is a full 360° without an automatic return.

Product Details



Cushion is detachable.

All product in the Lucas product line ships fully assembled.

Surface Materials

Swivel base is 8046 Polished Aluminum. The base of the Lucas swivel chair will match the previous style number **WEM3598978**.

Wire base is WE05 West Elm Burnished Bronze. The base of the Lucas wire base will match the previous style number **WEM3406073**.

Contrasting fabric is not available.

Open Line Laminate (OLL)

Applies to:
- Embold tables
- Jenny
- Regard worksurfaces

This service allows you to order non-standard laminate at an additional fee per unit. See the specification pages for upcharge information.

Steelcase Health Laminates that are not called out as standard on Steelcase products will be processed as an Open Line Laminate and Open Line Laminate charges will apply.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate on Jenny and Regard Worksurfaces, and specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified using the plastic edge band offering.

Steelcase Seating Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

Surface Materials Binders include:

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Materials and colors are not available on every product. Refer to the Color Availability and Upholstery Matrices before specifying.

Tip: Some wood veneer finishes and woodgrain laminates share the same name. Because of the difference in materials, veneers and laminates of the same name are not an exact match but do coordinate with each other.

Applies to:
- Jenny end table
- Jenny coffee table

Textured Laminate
2TH2 Fawn Cypress
2TH4 Saddle Oak
2TH5 Veranda Teak
2TH7 Walnut Heights

Custom Surfaces

Open Line Laminate (OLL)

When processing orders for Open Line laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Edge color for Open Line laminate must be determined by the dealer and customer before orders can be entered. Specify appropriate 2K finish number.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Applies to:
- Jenny wood legs
- Jenny wood arm

3412 Natural Cherry Ⓔ
3522 Clear Maple
3762 Dark Walnut

Tip: Due to natural variations in wood, finished products may vary in color, texture and grain.

Leather

T802 Black
L305 Brown Leather

Upholstery

▶See *Surface Materials Reference Manual* for a complete listing of upholstery colors and numbers.

▶Check the COM database for specific product and fabric approvals.

Steelcase Health Select Surfaces Programs

Steelcase Health Select Surfaces Program: Solid Surface

A collection of solid surfaces are available as part of a Select Surfaces Program. The collection is from the solid surface offering. Samples can be ordered through *corian.com*

These solid surfaces are Select Surfaces for Embold tables, Regard, Tava, and Leela products only. The collection on these pages is not Select Surfaces for other Steelcase brands or product lines.

Aspekt straight arm, Embold seating, and Mitra guest seating arm caps are available in all standard Steelcase Health solid surface finishes and Select Surfaces for the colors indicated with an asterisk.

To order these solid surfaces, enter the finish code which corresponds with the solid surface price group.

Price Group	Finish Code
A	29DA
B	29DB
C	29DC
D	29DD

Then enter the solid surface information in the Special Solid Surface Information pop up window. If prompted, enter the finish code CORIAN0001 based on the solid surface supplier.

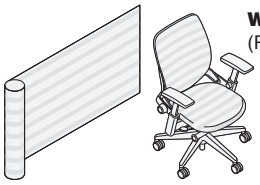
Fabric Application Direction Guidelines

What is the issue?

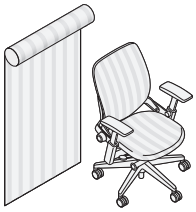
Some textiles are simple and look the same regardless of how you apply them to a product. Other fabrics are patterned, textured, or have luster that will have a distinctly different appearance applied in a different direction on a chair. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase Health products, it is important to understand fabric application direction when ordering a product to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the “warp” yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll.

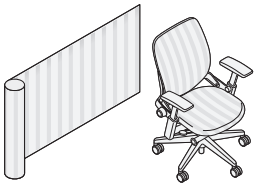


Warp Horizontal
(Railroaded)



Warp Vertical
(Woven Way)

It is NOT determined by the way the pattern looks on the product. For example, the image below shows the fabric applied warped horizontal although the stripes appear vertical.



Terminology

Steelcase uses the terms warped horizontal and warped vertical. There are other terms within the industry that are used that have the same meaning:

- Warped horizontal is also referred to as: railroaded or across roll
- Warped vertical is also referred to as: woven way, down roll, or top out

Why is it important?

Dealers must specify fabric application direction when ordering COMs and Steelcase Health Select Surfaces fabrics. We require the dealer to specify the direction because we do not know which way customers want to see a pattern on the furniture. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase Health builds and ships each order to the customer’s expectation each and every time.

How do I know which way the fabric comes off the roll?

Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Vinyl

Vinyl generally only passes on Steelcase Health product in a horizontal or across roll direction. This is due to physical properties of the material. If a vinyl is applied in the opposite direction, too much stretch in the material can compromise the overall aesthetics of the final upholstery. If a patterned vinyl is being specified and the vinyl must be run in a vertical direction, pre-approval must be arranged through Steelcase Health . Steelcase Health will consider the request and a decision will be made based on the specific vinyl and product combination. Contact Steelcase Health’s Customer Care line.

Required Action Steps before Specifying

1. Verify by using Steelcase’s COM website that the fabric is approved on the product.
2. Verify the direction that the fabric can be applied. Occasionally a fabric is only approved in one direction.
3. Confirm with the customer how they want the fabric to look on the furniture.
4. Confirm using the swatch card or vendor’s website the direction the sample is shown.
5. Now you’re ready to place the order.
