Steelcase Learning Specification Guide

Availability

Electronic price list updated with release 202.A (U.S.) dated June 16, 2025.

This specification guide reflects PL202 pricing. All contract list prices will be PL202 plus 4.72% added to the list prices shown (round to two decimal places).

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

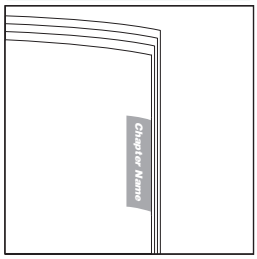
For NASPO ValuePoint Contract Pricing

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the 4.72% factor.
- Round each to the nearest penny (round to two decimal places).
- Add base and options for total list price.

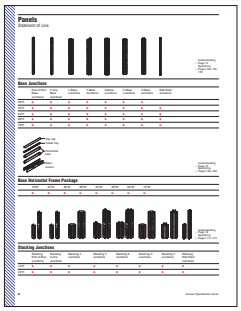
Ten Tips:
How to Get the Most Out of This Book

Tip 1



Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2



Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

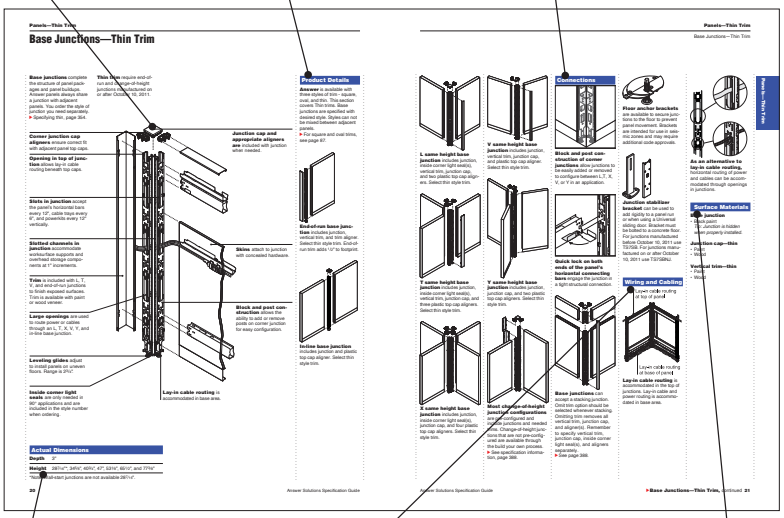
Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.



Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.

396 Answer Solutions Specification Guide

Answer Solutions Specification Guide 397

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

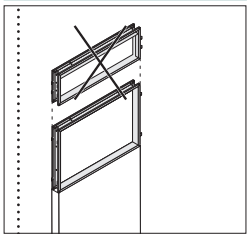
Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8



Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Steelcase Learning products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual
This publication provides surface material information for Steelcase products:

- An explanation of the surface materials
- "Available on" matrices
- Vertical surface fabric selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Steelcase Learning Specification Guide
These specification guides contains multiple Steelcase and Steelcase Health products which are most commonly used in education environments. This collection of products has been pulled together for your convenience.

Other Specification Guides
Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com website or at village.steelcase.com.

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

Product Training
Basic training for many Steelcase products can be found on the Steelcase University web site at village.Steelcase.com.

More Information
For more information about these and other software tools to help you plan effective healthcare environments, email fsl@steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: www.steelcase.com/discover/steelcase/esg-overview/environmental/ Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Tenor

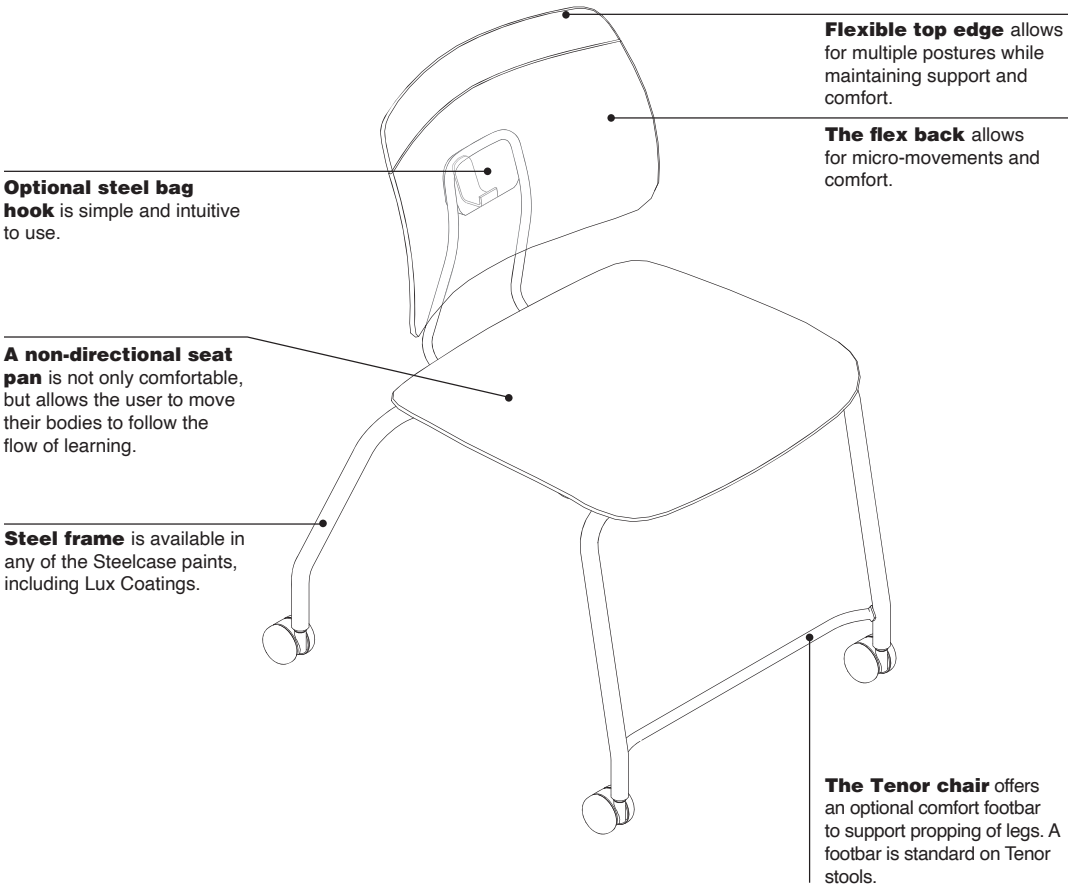
Tenor chairs and stools are designed for comfort, mobility, stackability, and tailorability. Everything you need in multipurpose seating and perfectly suited for any learning or corporate environment.



Flexible top edge allows for multiple postures while maintaining support and comfort.

The flex back allows for micro-movements and comfort.

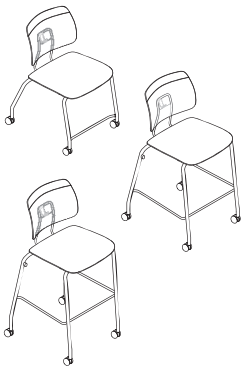
Optional steel bag hook is simple and intuitive to use.

A non-directional seat pan is not only comfortable, but allows the user to move their bodies to follow the flow of learning.

Steel frame is available in any of the Steelcase paints, including Lux Coatings.

The Tenor chair offers an optional comfort footbar to support propping of legs. A footbar is standard on Tenor stools.

Product Details



Tenor chairs and stools come in a four-leg stacking base and are available with hard nylon glides, hard steel glides, soft felt glides, hard casters, and soft casters. Chairs stack six high. Stools stack two-high.

Tenor is designed as a wall-saver, it will not cause damage to walls if contact is made.

Tenor ships fully assembled.

Tenor chair is 18.1–19.5 pounds depending on options chosen.

Tenor chairs are tested to 400 pounds maximum weight capacity.

Tenor stools are tested to 300 pounds maximum weight capacity.

Tenor has a finished bottom cover without any pinch points and bumpers for stacking.

Warranty

Limited Lifetime Warranty.

Node 480 Series

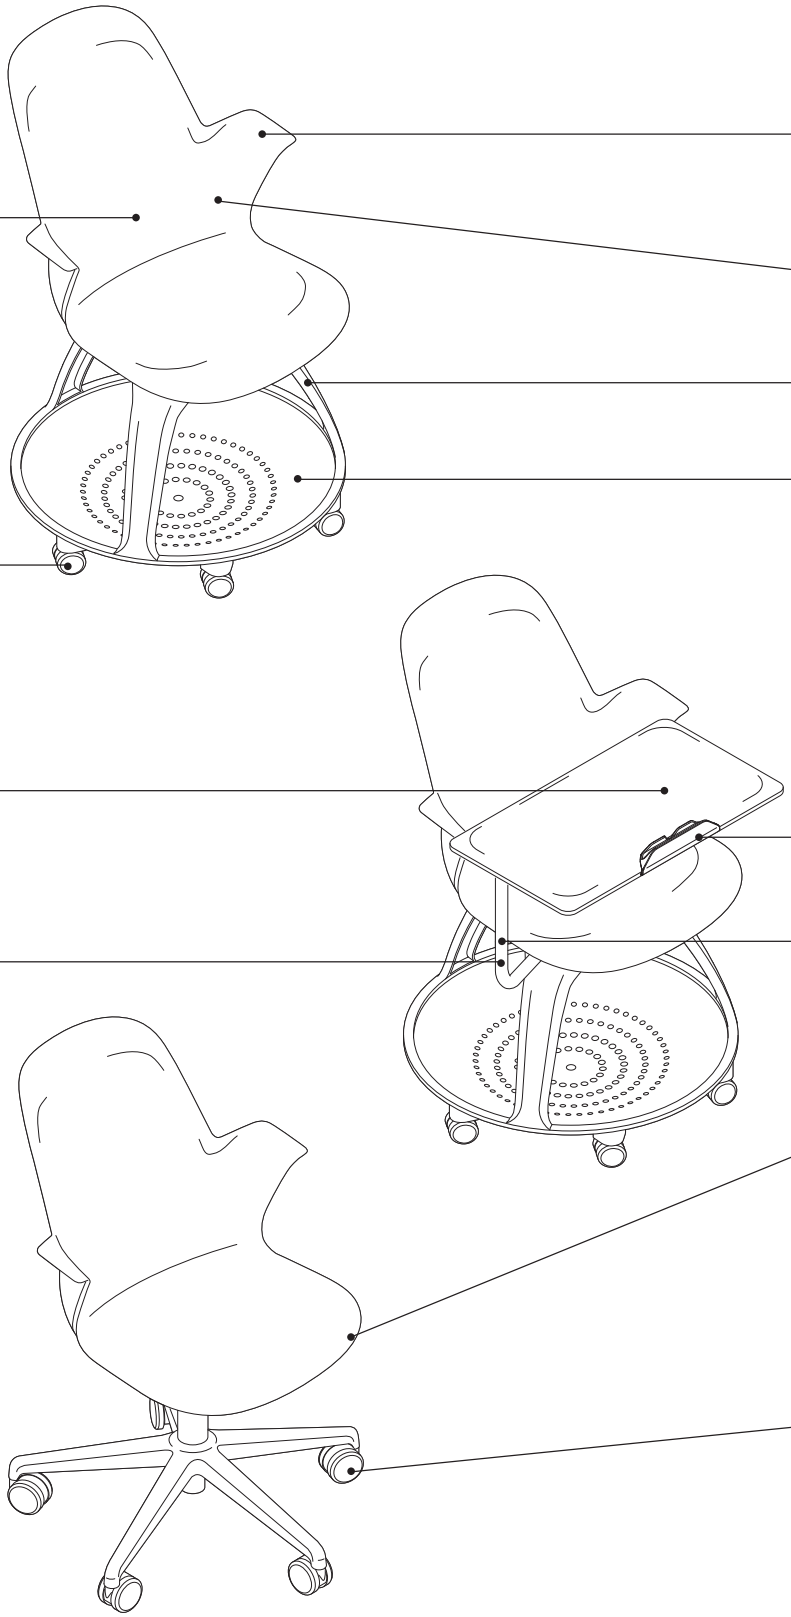
The Node chair supports all the ways students learn. Designed for quick, easy transitions in the classroom, and multiple modes of learning across the campus. The Node family of seating is a natural fit within and beyond the classroom.

Designed for easy maintenance and cleaning, the one piece polypropylene contoured shell is available in high back and mid back. Seat cushion is available.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Personal worksurface moves independently of seat shell and base.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.



Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports the back and provides comfort.

360°-swivel mechanism is standard.

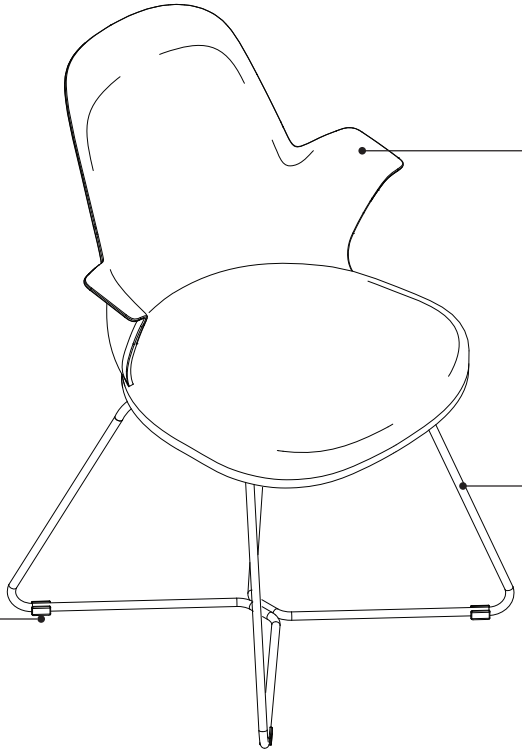
Tripod base is durable with a flat footrest rim and backpack storage. The bottom surface is perforated.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Seat height adjusts with a 5¼" range with a pneumatic adjustment mechanisms on five-arm base chairs. Chairs with a personal worksurface adjust with a 4" range. Stools have a 8½" range. A 7½" range is available as an option.

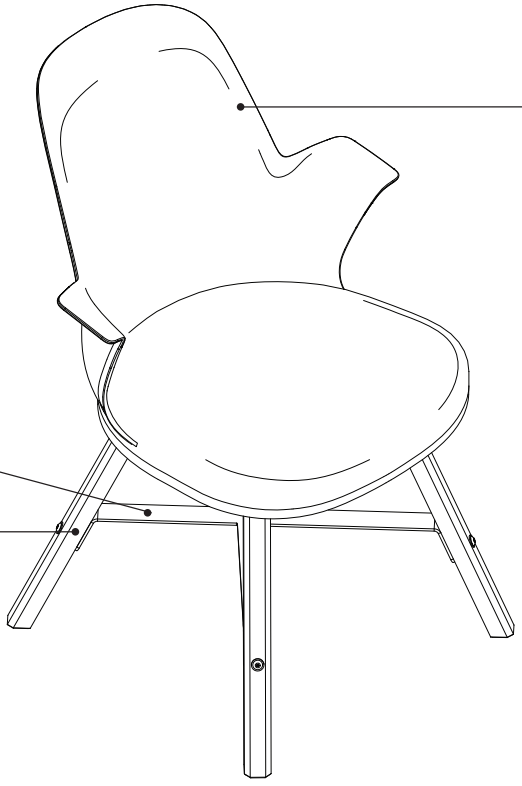
Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.



Both high back and mid back shell styles available with wire frame base. Seat cushion available.

Durable steel wire frame is lightweight and taylored in many paint colors.

Hard glides are standard. Soft, felt glides are available as an option.



Both high back and mid back shell styles available with wood frame base. Seat cushion available.

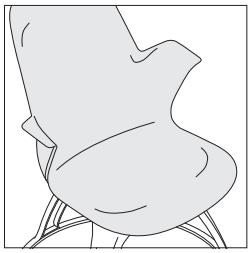
The metal leg bracket can be customized in many paint colors.

Wood legs are solid wood with polyethylene glide.

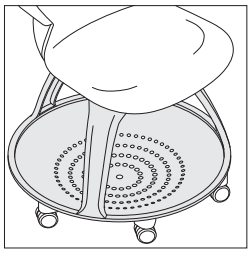
Node 480 Series, continued

Product Details

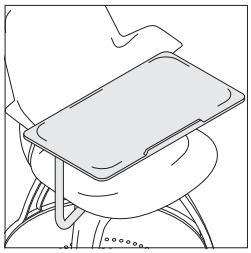
Chairs and stools are available with high-back and mid-back shells. Tripod base and five-arm base chairs are available with and without personal worksurface. Five-arm stools are also available (no worksurface). X-base is available in chair and stool height. Wood base is only available in chair height.



Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.



Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.



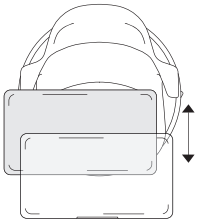
Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22$^{1}/_{4}$"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.

Node tripod and five-arm base chairs ship unassembled and cartoned with the seat shell separated from the base. No tools required for assembly. Node X base and wood base ship fully assembled.

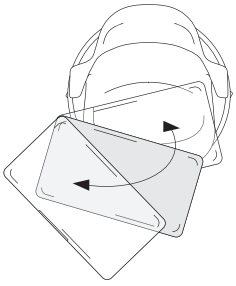
Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

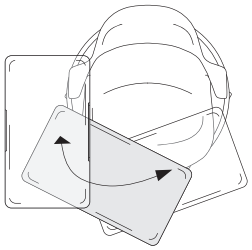
360° adjustable height swivel mechanism is standard on five-arm base models.



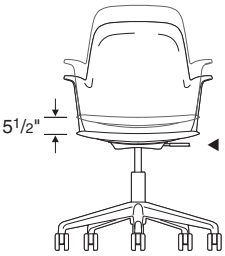
Personal worksurface depth adjustment range is 7$^{1}/_{4}$" to 15". Measurement is from lumbar to worksurface.



Personal worksurface pivot range is 48°.

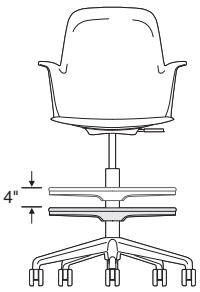


Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.



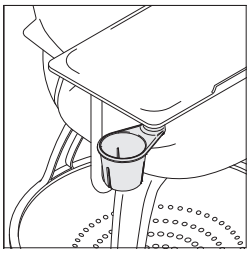
Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5$^{1}/_{4}$" from 16"H to 21$^{3}/_{16}$"H, a 3$^{3}/_{4}$" range (17$^{1}/_{8}$"H to 20$^{3}/_{4}$"H) is available on chairs with a worksurface. Stools are standard with an 8$^{1}/_{2}$" range of adjustability (23$^{1}/_{16}$"H to 31$^{3}/_{8}$"H). A 7$^{1}/_{2}$" range of adjustability (18$^{1}/_{2}$"H to 26$^{7}/_{16}$"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair or stool and maintain same height as casters.

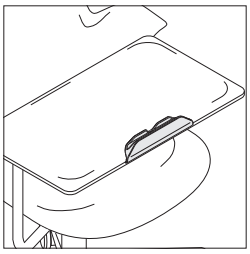


Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.



Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use.



Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed.
Tip: Devices are not secure in tablet stand when Node is moved.

Surface Materials

▶ See surface materials on page 556 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Seat Shell

Price Group 1

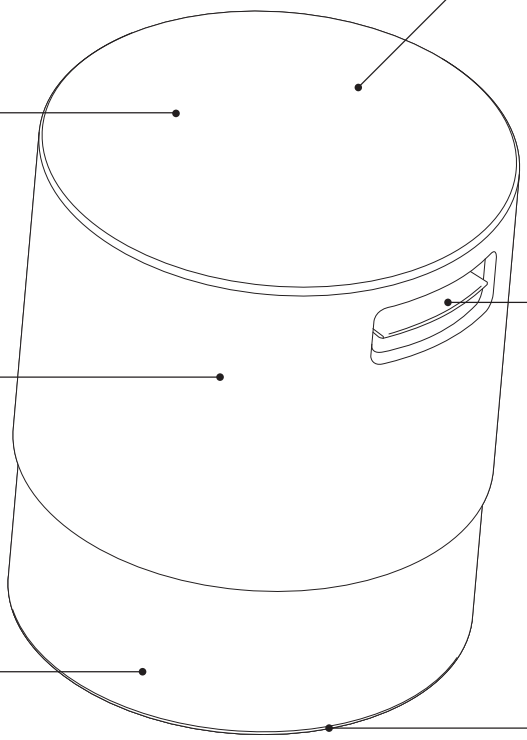
▶Page 47

Buoy

Buoy is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.
▶Specifying, page 47



Buoy cap is upholstered.

Buoy is 18" in diameter.

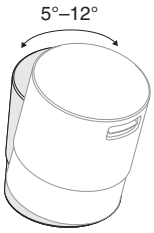
Seat height adjusts with a 5½" range from 17¼"H to 22¾"H with a pneumatic adjustment mechanism.

Buoy comes in 16 different colors, is lightweight at 20 pounds, and ships in a carton fully assembled.

Base is 6537 Merle.

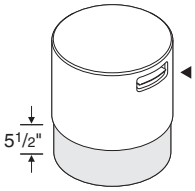
Sits at a 5° tilt.

Product Details



Tilts up to 12° to encourage active sitting.

Adjustment Features



Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off. Range of adjustability is 5½".

Surface Materials

▶See surface materials on page 556 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

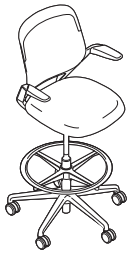
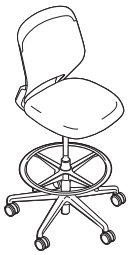
Collaborative
Chair with Arms

Collaborative
Chair without Arms



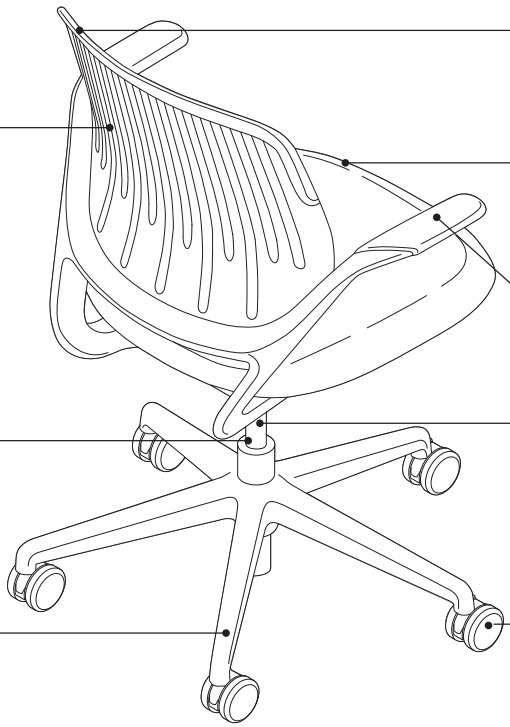
Collaborative
Stool with Arms



Collaborative
Stool without Arms

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.



Flexing fingers in back offer support while moving and conforming to the user.

Weight-activated mechanism provides support by automatically responding to the users movements.

Five-arm base is standard.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

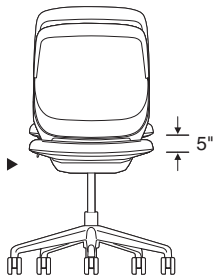
Chairs and stools are available with or without arms.

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

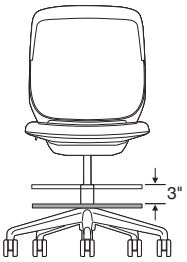
cobi ships standard assembled and uncartoned. A cartoned version is available which ships unassembled with the chair seat, back, and cylinder separated from the base and mechanism. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. No additional tools are required for assembly.

Adjustment Features

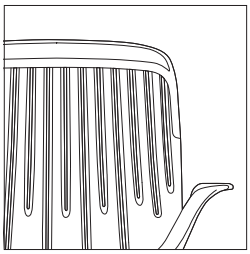
Seat Adjustments



Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

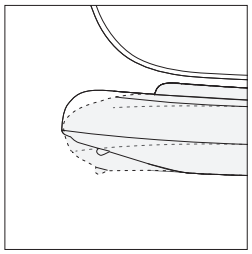


Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".



Flexing fingers in back promote movement and provide support for a wide range of postures.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.



Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

▶ See surface materials on page 556 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery
- Connect 3D (back only)

Seat Upholstery
- Cogent: Connect (seat only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.

Outer Back
- 6009 Arctic White
- 6205 Black
- 6249 Platinum
- 6295 Near Black

Arm Caps, Top Edge, and Casters
- 6205 Black
- 6249 Platinum

Tip: Frame, base, and cylinder will default to match outer back color.

Tip: if black or near black are specified on the outer back, the arm caps, top edge, and casters will be 6205 Black. If platinum or arctic white are specified on the outer back, the arm caps, top edge, and casters will be 6249 Platinum.

Glides
- Black plastic

Foot ring on stools
- 6205 Black
- 6249 Platinum

Tip: Foot ring on stool will coordinate to match outer back color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series

Cachet 487 Series

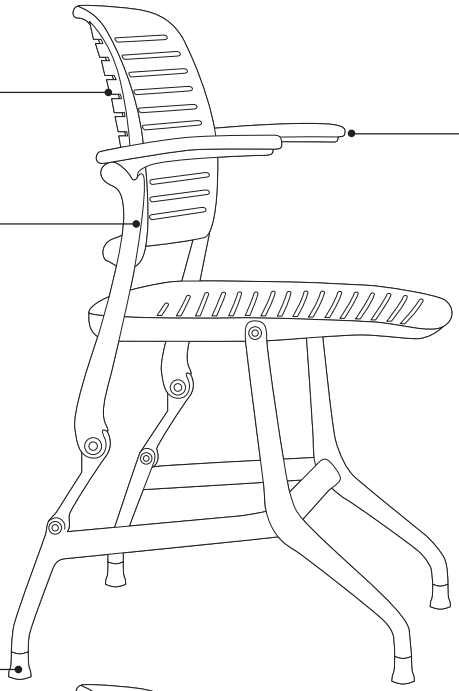
Cachet chairs are lightweight, extremely comfortable, multipurpose chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.



Flip-up arms easily lift to move out of the way or to allow for stacking.

Plastic glides are standard. Optional soft glides are available.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

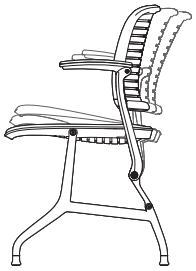
Five-arm base is standard.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2⅜" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floor and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.



Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.
Tip: You must specify plastic outer back color to match chair.

Soft dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

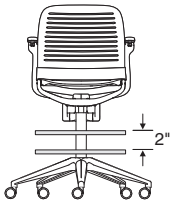
Hard plastic glides are standard on leg-base chairs.

Soft felt glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

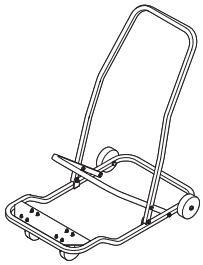
Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features



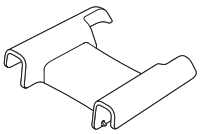
Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".



Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel- base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.



Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".
Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

▶ See surface materials on page 556 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components (frame, flip-up arms, back, seat, and base)
- Swivel and 4-leg chair models available in black, midnight, and ash
- Stool available in black only

Upholstery
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides
- Color-matched plastic on leg-base chair
- Color-matched soft plastic on leg-base chair (option)

Casters
- Hard, black plastic wheels on swivel-base chair and stool
- Soft, dual-wheel roll-control black plastic wheels (option)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories". Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

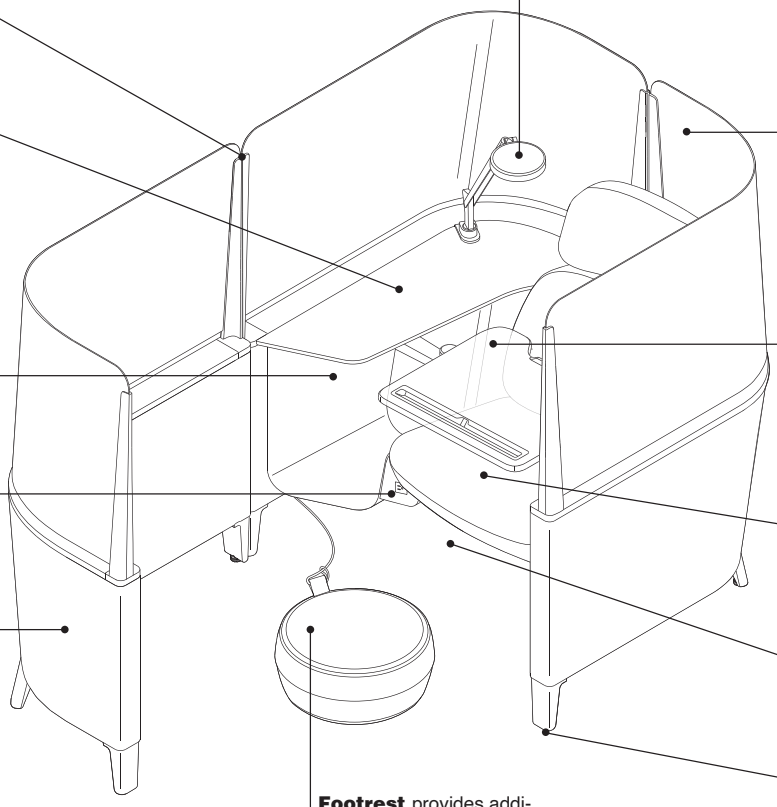
Brody WorkLounge 488 Series

The Brody WorkLounge is a private workspace designed to be good for the body and good for the brain—providing places to get away without going away. A drop-in destination for focus in a relaxed posture. Brody includes integrating power, ergonomic comfort in the highly-desired lounge posture, personal storage, lighting, privacy screens offering shelter from distractions and safe shielding, and a personal worksurface that keeps technology at eye level, reducing neck and shoulder strain.



dash mini LED light integrates seamlessly to deliver adjustable, efficient lighting where it is needed most.

Screen alignment clip ensures privacy screens remain aligned.

Side surface is a laminate surface and creates space to spread work out.

Storage caddy delivers a convenient place to store belongings off the floor and within arm's reach.

Integrated power is easily accessible, so the user can focus on work and not worry about battery level.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Screens provide shielding from visual distractions and enhance personal privacy and psychological comfort.

Personal worksurface tilts to ergonomically support a user's wrists for keyboarding while also allowing the screen to rise up to eye level, reducing neck strain.

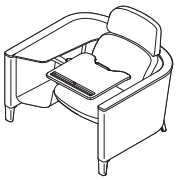
Seat has adaptive bolstering which creates comfort pockets designed to support every user.

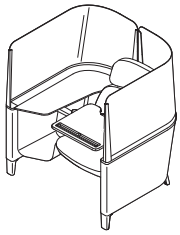
Open cavity beneath seat provides storage space for footrest.

Leveling glides on foot adjust $1\frac{1}{2}$" for uneven floors.

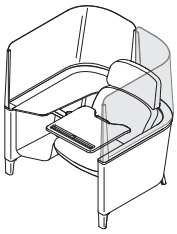
Footrest provides additional support for legs and feet, helping maintain a comfortable, reclined posture. Footrest fits under the seat when not in use.

Product Details

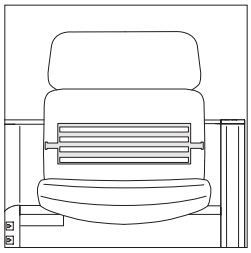




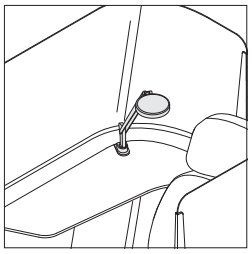
Brody is available with and without screens.



Screens on privacy WorkLounge with extension can only be omitted on the opposite side of where the side surface is located.

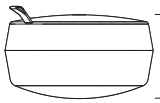


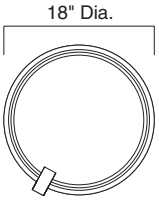
LiveLumbar offers a dialed in spring force in the lumbar region that actively supports the lower back.



dash mini LED light is available if power has been specified and can be field installed.

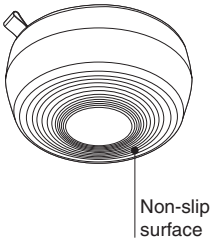
dash mini LED light adjusts 19⅞"H from the side surface. The base and head pivot 360°.





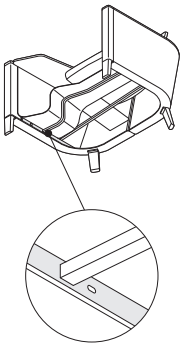
Footrest has plastic base and an overall height of 10" and a diameter of 18".

Integrated loop on footrest allows for easy repositioning of the footrest in the workspace. It is 1¾"W x 2" long and can be used to tether the footrest to the frame.

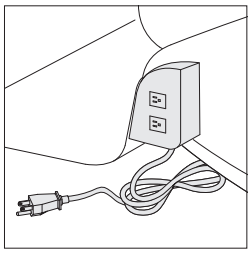


Footrest base is domed in the middle, allowing it to move to adapt to user preferences.

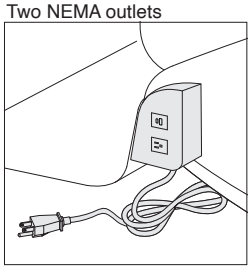
Bottom of footrest has a non-slip surface toward the outside to prevent sliding.



Footrest can be tethered to the frame. There is a small slot on the frame designed for a Kensington lock.

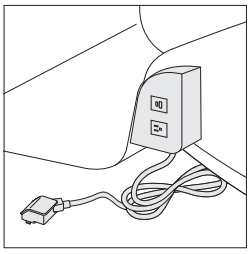


Two NEMA outlets

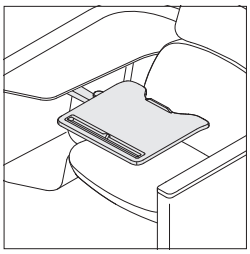


One NEMA, one USB outlet

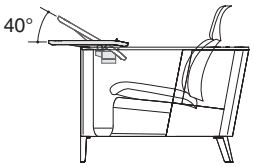
Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB outlet as an option. USB outlet includes one USB-A port and one USB-C port. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.



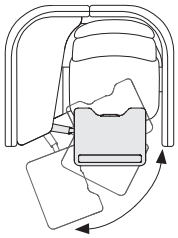
Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.



Personal worksurface has a cut out to hold technology like smart phones and tablets. The worksurface measures 16⅝"D x 18¼"W and is 26⅞"H from the floor.



Personal worksuface tilts up to 40° allowing users to bring work to eye level.



Personal worksuface swivels 125° in and out to allow easy entry and exit.

Programs & Services

▶See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM Web site. To locate the COM Web site:
- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)
- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual.*

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

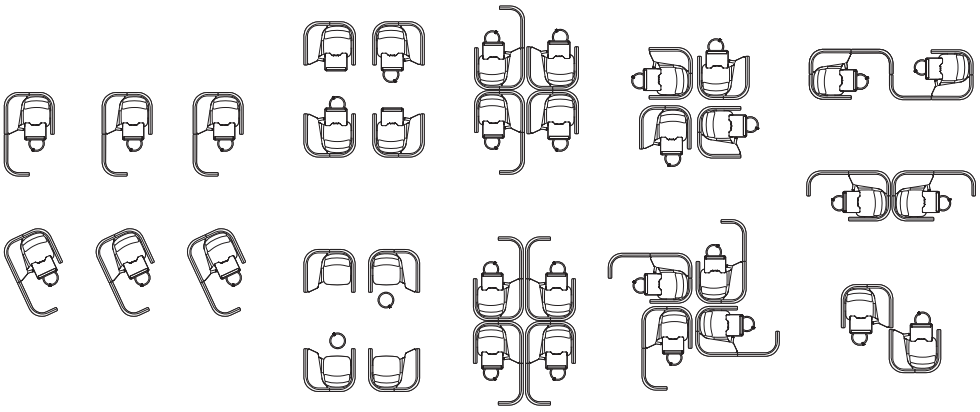
Brody WorkLounge Application Tips

Application Topics

Consider Brody for the following applications across the floorplan:

- Private individual focus area
- At thresholds to the neighborhood
- Along transition paths and in-between spaces
- As supplements to the primary workstation
- Working lounge areas



Parallel:
Side-by-Side/Angled

Booth

Clover

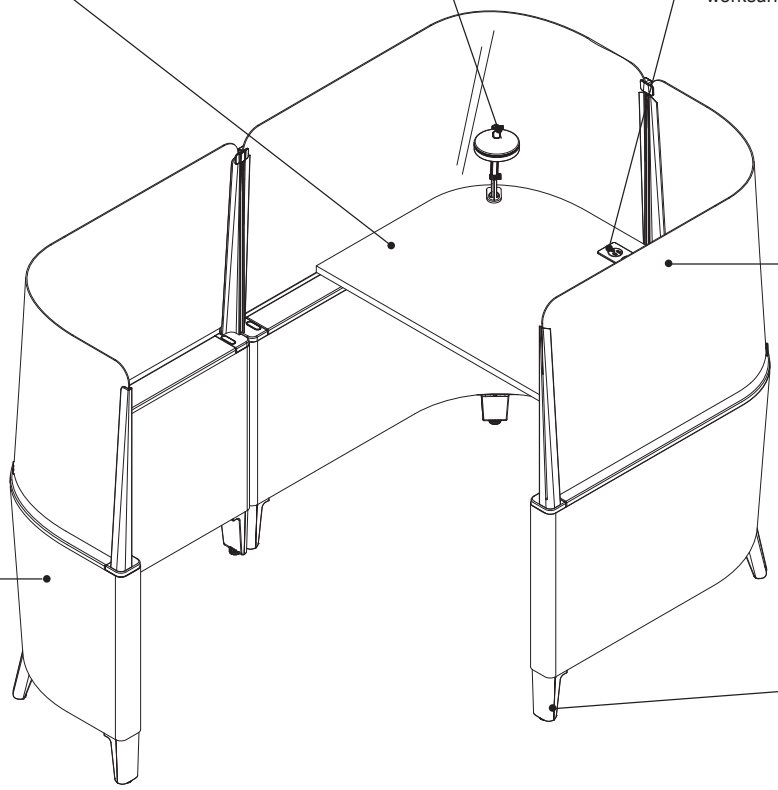
Pin Wheel

Yin Yang

Tip: Individual Brody units do not connect with brackets.

Brody Desk 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.



Worksurface is available in laminate or veneer and creates space to spread work out.

dash mini LED light is available to provide additional light when needed.

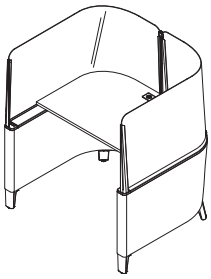
Power is conveniently integrated into the worksurface.

Screens offer additional privacy and shield from distractions.

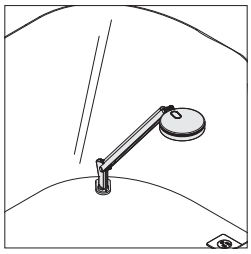
Lower surround is upholstery wrapped and creates a barrier around the workspace.

Leveling glides on foot adjust $1^1/_2$" for uneven floors.

Product Details

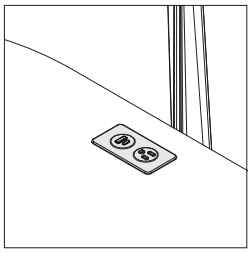


Brody desk always comes standard with screens.

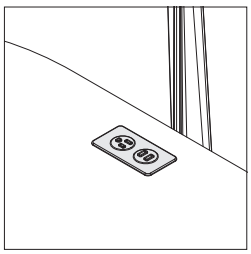


dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19⅞"H from the worksurface. The base and head pivot 360°.

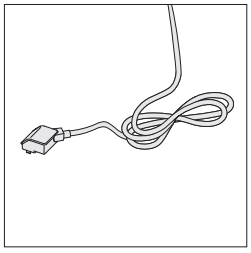


Two NEMA outlets

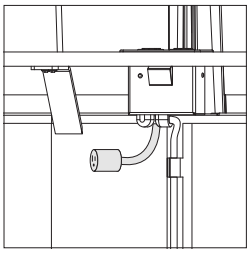


One NEMA, one USB outlet

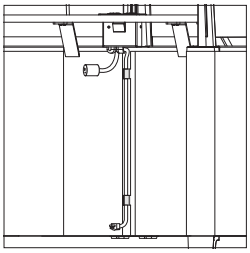
Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB outlet as an option. USB outlet includes one USB-A port and one USB-C port. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.



Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.



Power includes one convenience outlet standard below the worksurface to power the available dash mini LED light and retain a single power cord out.



Wire management clips come standard with Brody desk to manage the power cord to the floor.

Alight Lounge

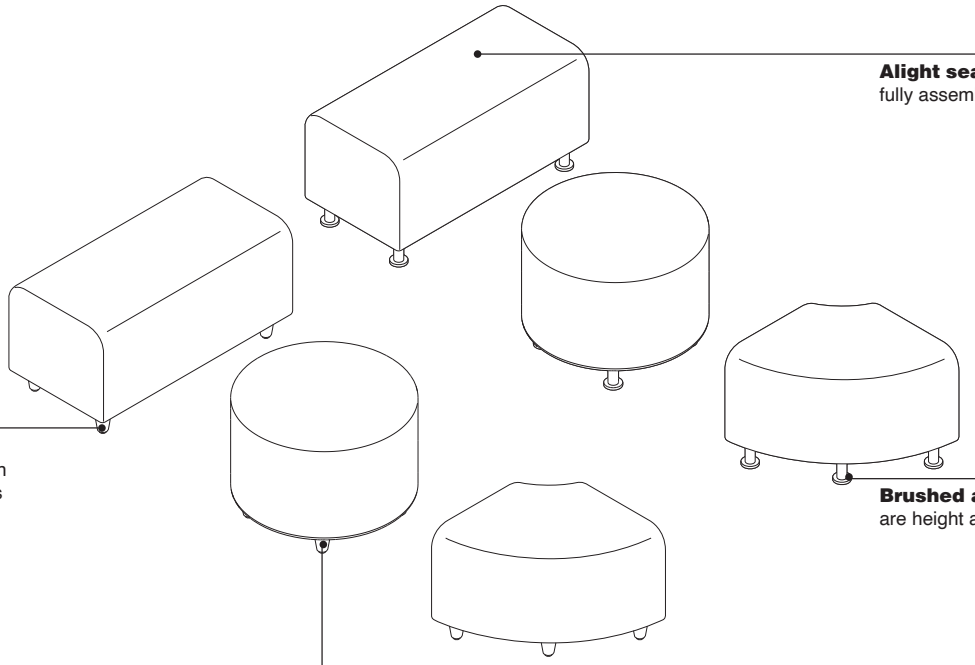
Alight comes fully upholstered as a bench, round, or corner ottoman. Alight supports up to 300 pounds.
▶ Specifying, page 115



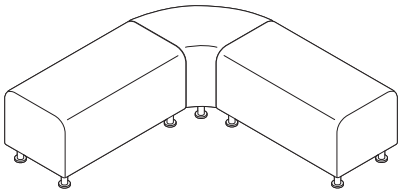
Alight seating comes fully assembled.

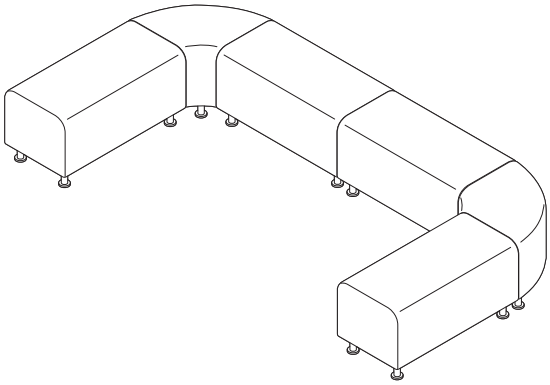
Legs come standard brushed aluminum with an option of round wood legs and low profile glides.

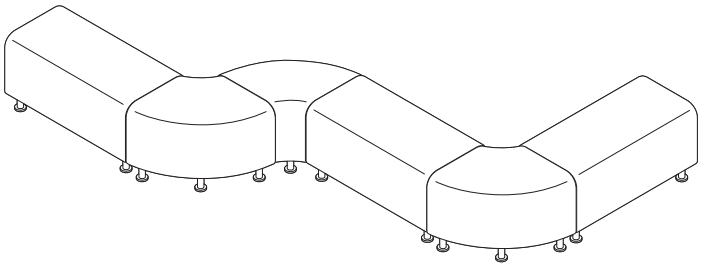
Brushed aluminum legs are height adjustable.

Round wood legs are solid maple and are available in three finishes.
Tip: Wood legs are natural wood and may have variations in color.

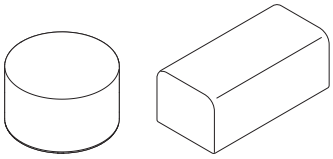
Product Details







Alight bench and corner ottoman can be combined to create a variety of configurations.



The low profile glide option reduces the overall height of the ottoman from 19" to 16".

Surface Materials

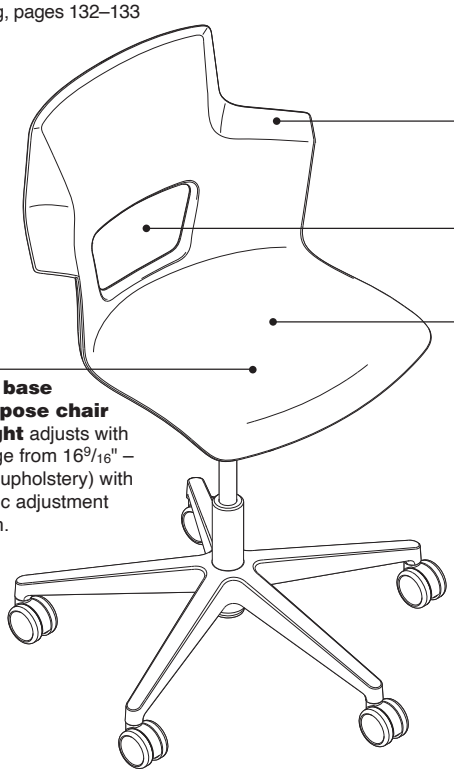
Shortcut Five-Arm Base

Shortcut is a collaborative seating collection that encourages people to move freely, change postures, and stay energized, yet comfortable in many settings.
▶Specifying, pages 132–133

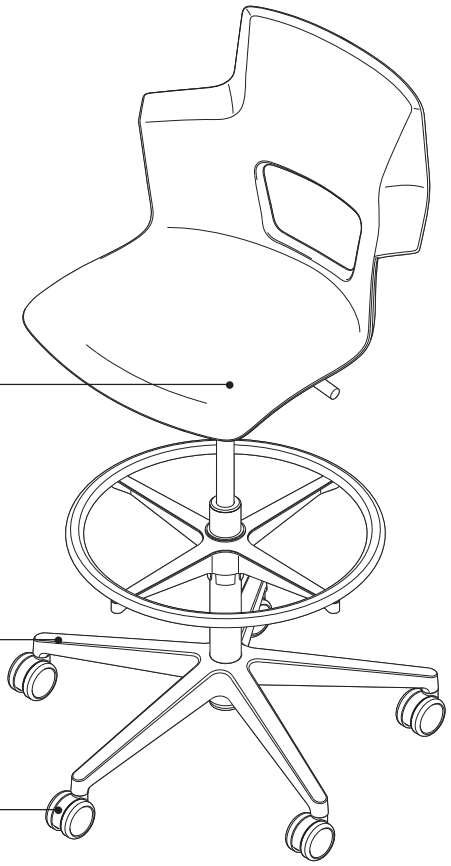


Five-arm base multi-purpose chair seat height adjusts with a $4^{5}/_{8}$" range from $16^{9}/_{16}$" – $21^{3}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

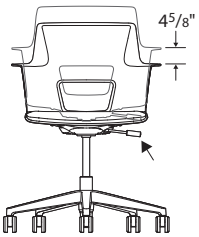


Five-arm base multi-purpose stool seat height adjusts with a $10^{3}/_{16}$" range from $22^{1}/_{8}$"– $32^{5}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

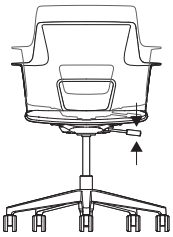
Five-arm base is standard.

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

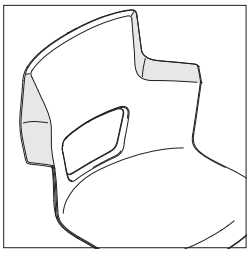
Adjustment Features



Seat height adjusts with a $4^{5}/_{8}$" range from $16^{9}/_{16}$"– $21^{3}/_{16}$" (no upholstery) with a pneumatic adjustment mechanism.

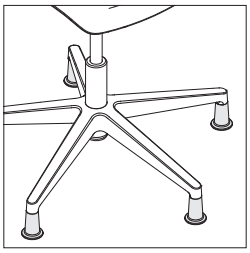


Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep weight off of the chair. Lever is located on the left hand side.



Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures.

Cushion option is available for extra support and comfort.



Black glides are available as an option. Glides ship assembled on the chair or stool and maintain the same height as casters.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Soft, dual-wheel casters are two-tone, with a merle ring, which makes them easily identifiable.

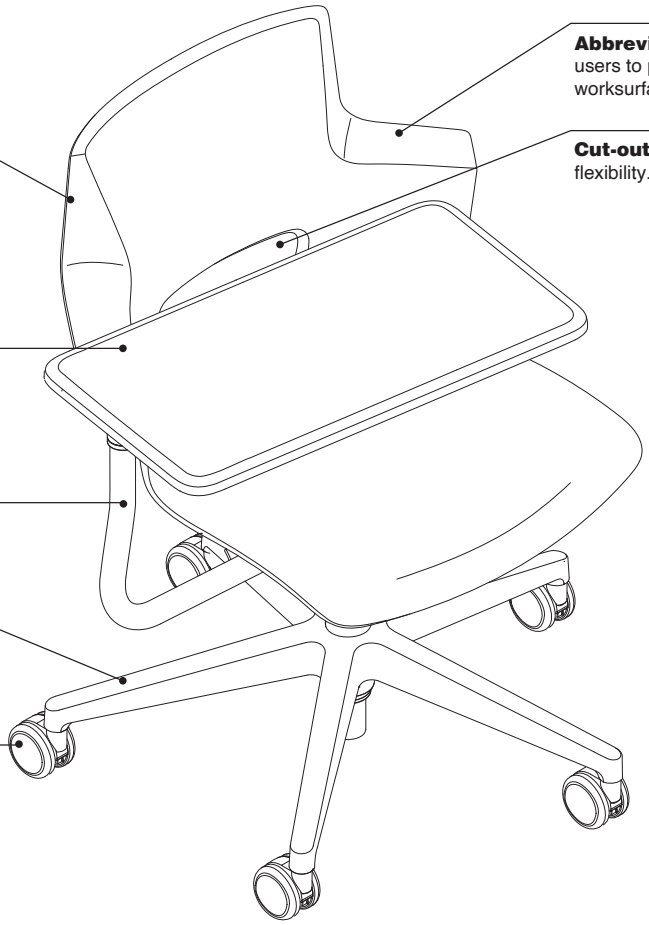
Shortcut Five-Arm Base with Personal Worksurface

▶Specifying, page 134



Abbreviated arms allow users to pull up to a worksurface with ease.

Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

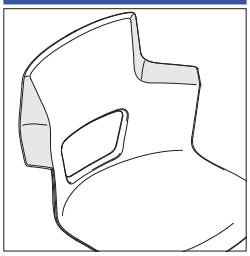
Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

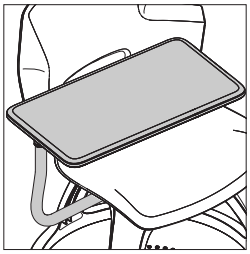
Five-arm base is standard.

Hard, dual wheeled casters are standard for use on carpets. Soft, roll-control, dual-wheel casters are available for use on hard floors or chair mats.

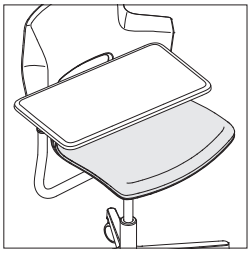
Product Details



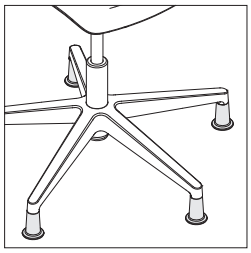
Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures. It is designed to be level when in use and may appear to have slight upward angle when not in use.



Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¼"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.



Cushion options are available for extra support and comfort.

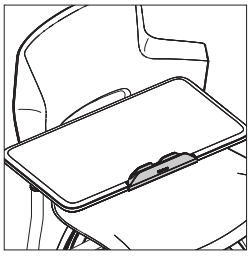


Black glides are available as an option. Glides ship assembled on the chair and maintain the same height as casters.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

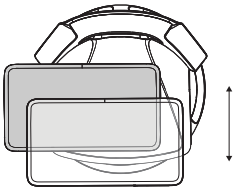
Soft, dual-wheel casters are two-tone, with a merle ring, which makes them easily identifiable.

Adjustment Features

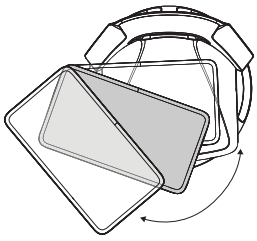


Tablet stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.
Tip: Devices are not secure in tablet stand when moved.

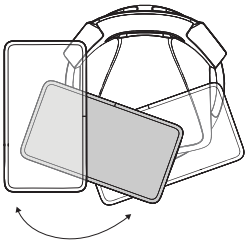
Cup holder is available as an option and it is retractable under the worksurface when not in use.



Personal worksurface depth adjustment range is 6" to 16¼". Measurement is from lumbar to worksurface.



Personal worksurface pivot range is 48°.



Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

▶ Page 130

Shortcut with Tripod Base

▶Specifying, page 138

Abbreviated arms allow users to pull up to a worksurface with ease.

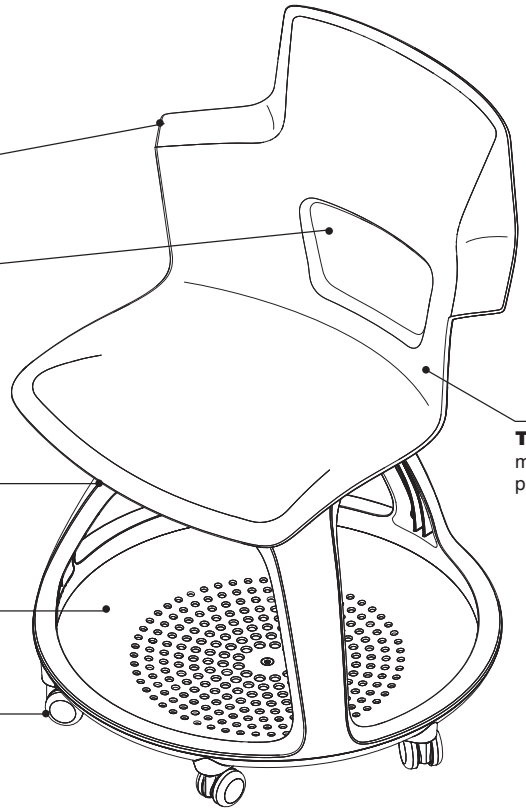
Cut-out provides more flexibility.

The Shortcut shell is made of polypropylene plastic.

360⁰-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.

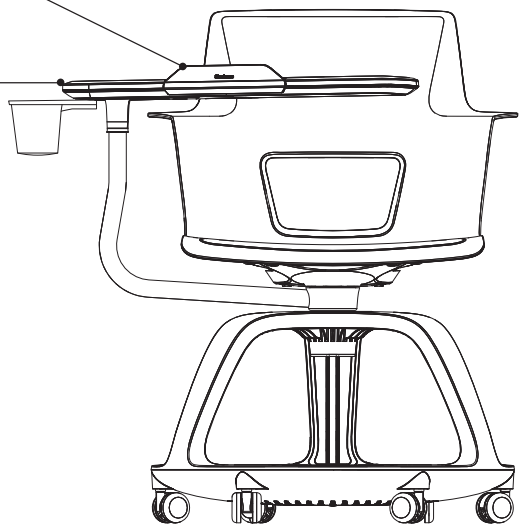


Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

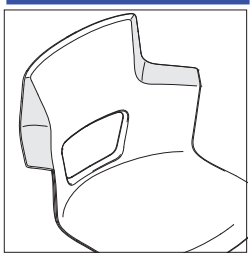
Personal worksurface moves independently of seat shell and base.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

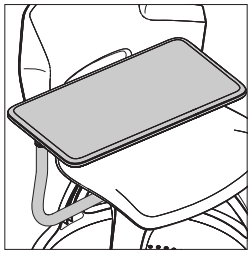
Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.



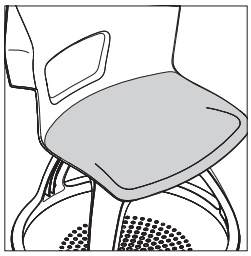
Product Details



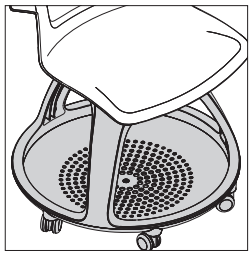
Elbow rests are abbreviated to stay out of the way as the user gets closer to the worksurface and supports a wide range of postures.



Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¼"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge. It is designed to be level when in use and may appear to have a slight upward angle when not in use.



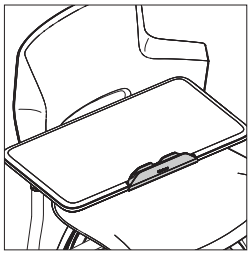
Cushion options are available for extra support and comfort.



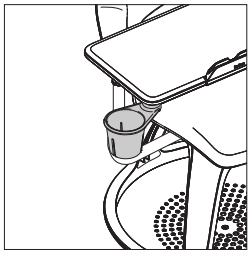
Tripod base reclaims the space under the seat. The space is 1.7 cu/ft and allows for backpack or personal belongings to be stored.

Adjustment Features

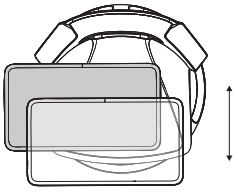
360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.



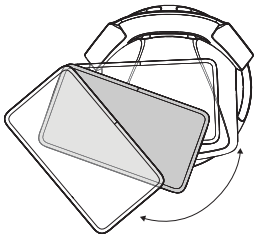
Tablet stand is available on chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials.
Tip: Devices are not secure in tablet stand when moved.



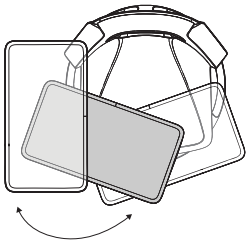
Cup holder is available as an option on Shortcut chairs with personal worksurfaces. It is retractable under the worksurface when not in use.



Personal worksurface depth adjustment range is 6" to 16¼". Measurement is from lumbar to worksurface.



Personal worksurface pivot range is 48°.



Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

The backpack storage area and overall chair width require 23¾" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface.

Planning with Shortcut

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

1 Illustrate multiple modes for each drawing to:
  a) ensure enough space is available for each reconfiguration
  b) allow the user to understand what's possible
  c) ensure that sight lines are maintained when the furniture is moved
  d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)

2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.

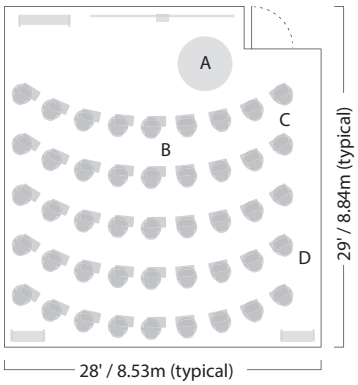
3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.

4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.

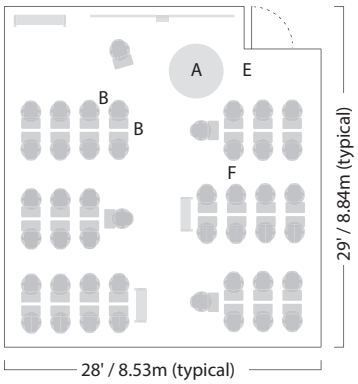
5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.

6 Annotate the drawings with design principles to confirm they are being addressed.

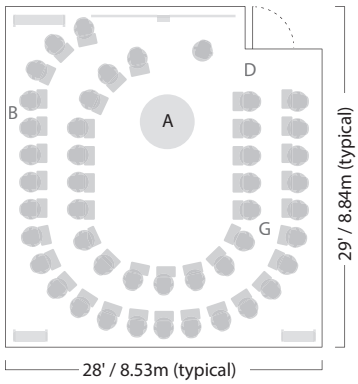
Lecture Mode



Group Mode



Discussion Mode



This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications,
▶See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

- **A** — 60"/1.52m (ADA)
- **B** — 12"/0.3m
- **C** — 18"-24"/0.46-0.61m (aisle)
- **D** — 36"/0.91m (egress)
- **E** — 60"/1.52m (egress)
- **F** — 38"/0.97m (aisle)
- **G** — 18"–36"/0.46–0.91m (aisle)

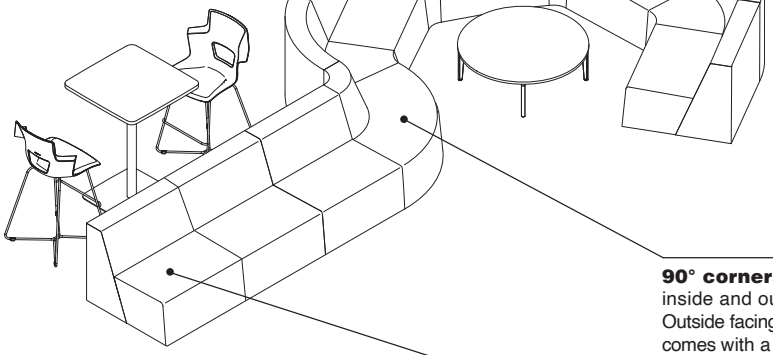
Big Lounge, Half Lounge, Corner Lounge, Ottoman, and Wedge

Big Lounge, Half Lounge, and Corner Lounges come standard armless with black plastic feet. Available options include single, multiple, or waterfall upholstery.
▶ Specifying, pages 160–174

Campfire Lounge products are fully upholstered and have a relaxed appearance. They may show soft comfort wrinkles upon use.

Half Lounge is a generous seat for one at 33"W. When paired with other lounges use ganging brackets (ordered separately) to create a wide range of applications.



60° corners come both in an inside and outside version.

90° corners come in both inside and outside version. Outside facing version always comes with a curve in the back.

Big Lounge is 66"W and provides a comfortable seat for two. Pair with other lounges using ganging brackets (ordered separately) to create a wide range of applications.

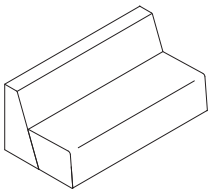
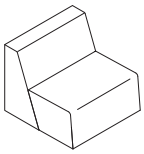
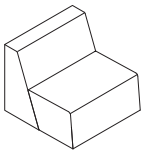
Steelcase
June 2025

Product Details

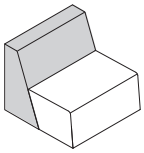




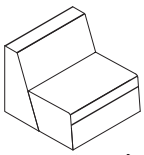
Straight seating available in Big Lounge or Half Lounge.

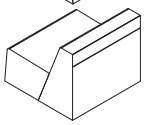


Big and Half Lounges with seams are available as standard styles. (TS3BCS and TS3HLS) Seams come standard on 90° and 60° Corner Lounges. Order Half and Big Lounges with seams when specifying with the corner lounges for a cohesive design aesthetic.

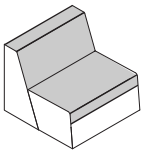


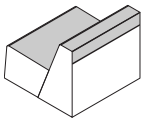
Styles with the "S" suffix, noting they have a seam, can also be ordered in multiple fabric combinations.





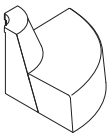
Waterfall option on lounges features upholstery that wraps around the top of the back and cascades over the front edge of the seat.

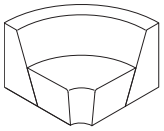




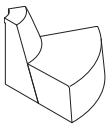
Styles with the "W" suffix, noting they have waterfall upholstery, can also be ordered in a multiple fabric combinations.

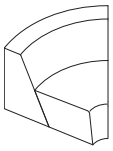
On waterfall lounges with multiple fabrics, only one thread color is used. The thread color that coordinates with the waterfall upholstery will be used on the entire unit.



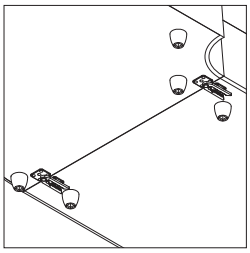


90° Lounges are available outside or inside facing.

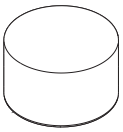




60° Lounges are available outside or inside facing.



Corner Lounges connected to other lounges require the ganging brackets (TS3GANGING) ordered separately.

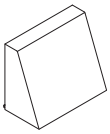


Ottoman ships fully assembled.

Ottoman is the same as Alight Round Ottoman. The Alight Round Ottoman with the low-profile glide option decreases the seat height from 19" down to 16". It is often shown with Campfire and referred to as Campfire Ottoman. It is being included in the Campfire lounge specifying section for easy reference.

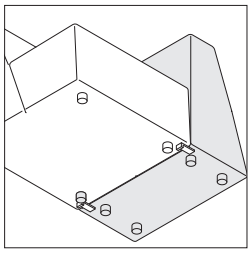
▶Specifying, page 174

Ottoman supports up to 225 pounds.

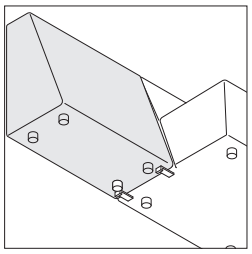


Wedge comes standard with black plastic feet and stability brackets. Independent Wedges and Half Lounges may be positioned into any configuration without moving or removing the stability brackets.

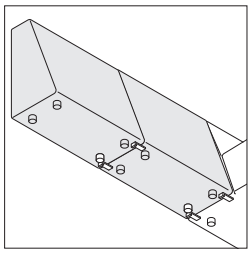
▶Specifying, page 175



Wedges connected to the side of a Half Lounge would use the stability brackets facing towards the back as they come standard.



Wedges connected to the back of a Half Lounge or in-line with another Wedge would require moving the stability brackets to the side.

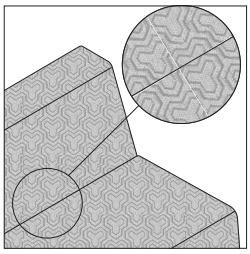


No more than two Wedges can be attached to a single lounge. Wedges can be freestanding, either alone or next to the Big Lounges or Half Lounges.

Surface Materials

Big Lounge, Half Lounge, and Wedge

- Fabric price groups 1-10
- COM



Solid, non-repeat fabrics are recommended for Campfire Lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics or patterned COM.

Comfort wrinkles are intended to occur over the time to increase the comfort of Campfire Lounge. Very little maintenance is required to reduce the definition: smooth the cushion fabric with a spreading/wiping motion.

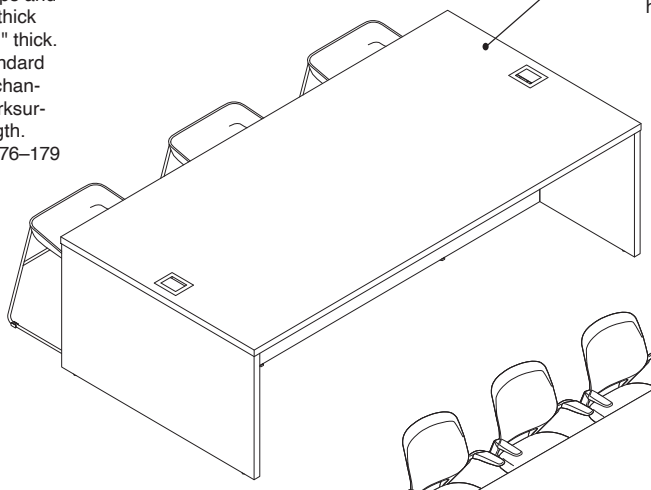
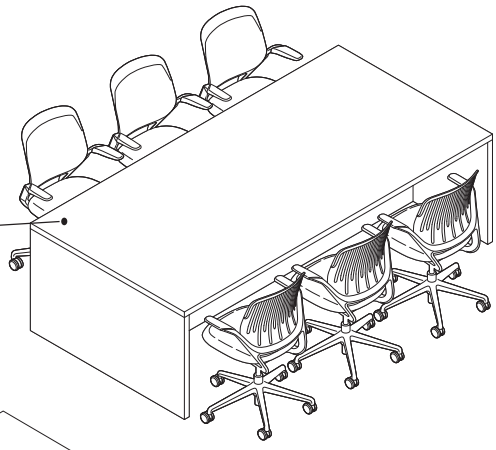
Big Table

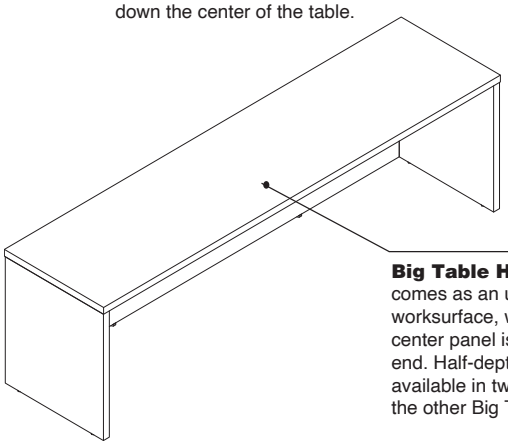
Big Tables are offered in Low-Pressure Laminate, High-Pressure Laminate, and veneer. Table tops and end panels are 1⅜" thick and center panel is 1" thick. Table top comes standard with two reinforcing channels built into the worksurface for added strength.
▶ Specifying, pages 176–179



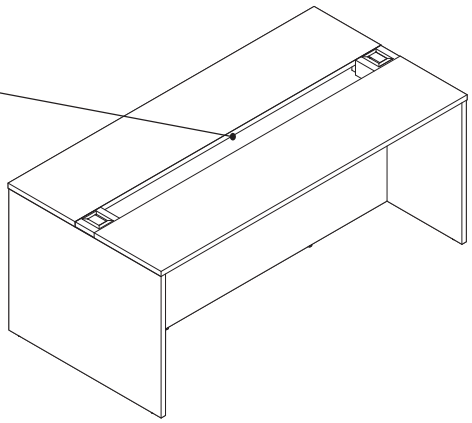
Big Tables are available at seating height of 28" high or standing height of 40" high.



Big Tables are available with an uninterrupted worksurface, uninterrupted worksurface with pop-up power, or Big Tables can be specified with a split worksurface top with a trough that runs down the center of the table.



Big Table Half Depth comes as an uninterrupted worksurface, where the center panel is moved to the end. Half-depth tables are available in two heights like the other Big Tables.

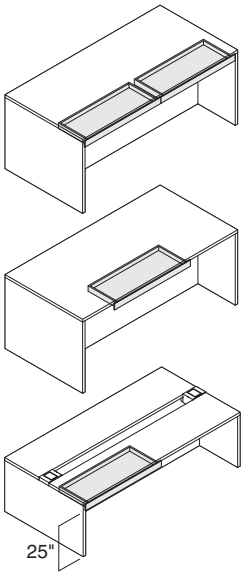


Big Table Trough has a 10" depth, with a 6" open inside the split worksurface and 2" open each side underneath the Big Table worksurface.

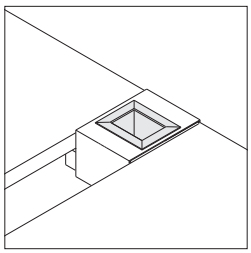
Actual Dimensions

Depth	24" or 48"
Width	96"
Height	28" or 40"

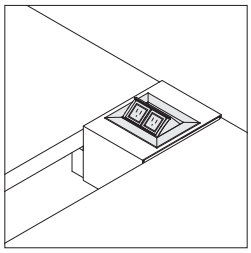
Product Details



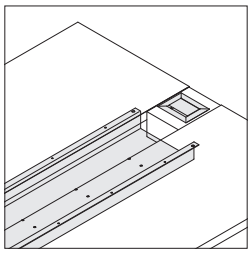
Low-Pressure Laminate Table Drawer is 3"D x 48"W, can be placed in three locations on either side of the Big Table and Big Table with Trough. Trough must be ordered separately. *Tip: When used on a 28"H Big Table knee clearance will be reduced by 3".*



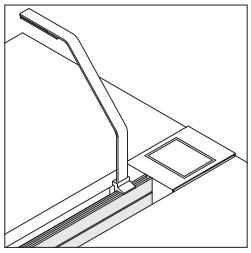
Flip grommets come standard on each end of Big Table with Trough when power is not optioned.



Two Receptacles for power (TS4TPWR) are available in place of the standard grommet on each end.

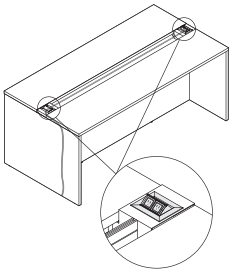


Big Table trough is a painted platinum open steel technology tray that allows for cable management. Either end of the trough comes standard with grommet that has a flip-top panel for access to route cables. Trough comes standard on split worksurface.

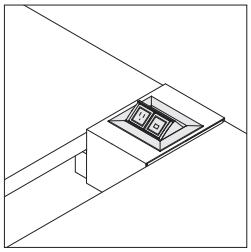


Optional anodized aluminum table Center Rail installs in the table trough and allows for SOTO rail accessories. Can be ordered separately.

Wiring and Cabling

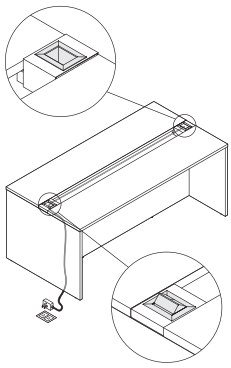


Dual power, data, and USB solutions are available as a standard option or field installed. 15-amp, one-circuit power solution with a 10' cord is standard. TS4TPWR, TS4TPWRD, and TS4TPWRUSB require one building outlet and provide four user outlets. When ordering data TS4TPWRD, user will get one outlet and one data opening on each end.



One receptacle and one data (TS4TPWRD) are available in place of the standard grommet on each end.
Tip: Includes open data port. Communication voice/data jacks are customer provided.

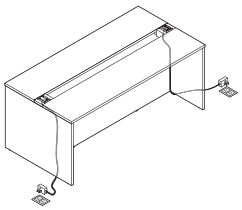
One receptable and one USB A+C 20W (TS4TPWRUSB) are available in place of the standard grommet on each end.



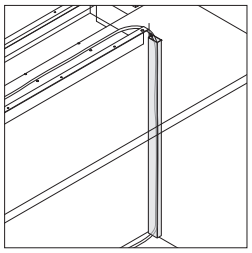
Single power, data, and USB solutions are also available for field installation. They replace one of the standard grommets. 15-amp, one-Circuit power solution with a 10' cord is standard. TS4TPWR1 and TS4TPWRD1 provide a lower cost solution that requires one building outlet and provides two user outlets. When ordering data TS4TPWRD1, user will get one outlet and one data opening.

Two receptacle (TS4TPWR1) replaces one of the standard grommets.

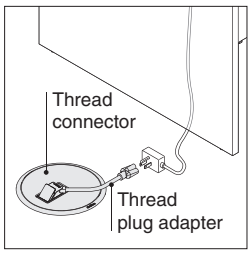
One receptacle/one data (TS4TPWRD1) replaces one of the standard grommets.



When using two single power, data, and USB solutions, a second building outlet is required.



Vertical Cord Covers (TS4TVWM28 and TS4TVWM40) come in two heights, 28"H and 40"H. Vertical Cord Covers are used to route electrical cords vertically on Big Table with Trough.



Thread Power Application
When using Thread power solutions in conjunction with Big Table power, please specify the following Thread power options to create a connection for Big Table power options to Thread power system:
- **Thread connector (PFLCNCTR)** Please note there are one-door and two-door options available.
- **Thread plug adapter (PFLADPTR)** Thread plug adapter is needed to connect Big Table power plug to Thread power system.

▶ See *Architectural Solutions Specification Guide*.

Surface Materials

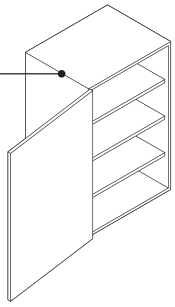
Big Table and Table Drawer
- Low-Pressure Laminate

Big Table Trough
- 4799 Platinum Metallic

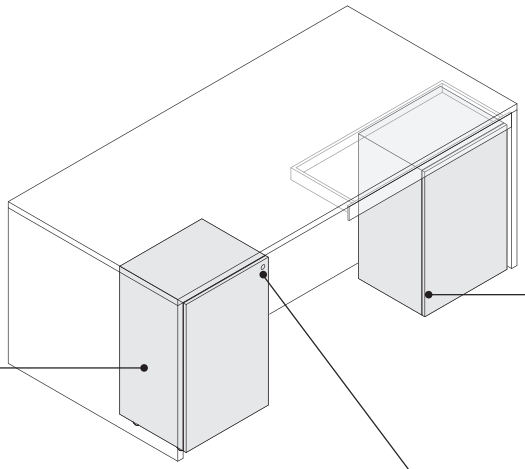
Electrical/communication components
- Paint

Vertical wire management
- Black plastic

Mobile Storage Cabinet



Mobile Storage Cabinets are offered as left-hand or right-hand units in Low-Pressure Laminate with two adjustable shelves.
▶ Specifying, page 181



Storage Cabinets can be used with 40"H Big Tables and Big Tables with Trough or as freestanding storage units.

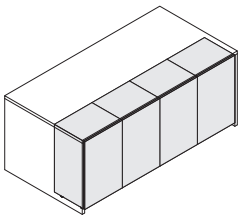
Mobile Storage Cabinets ship standard with casters. When Mobile Storage Cabinets are intended to be used underneath a Table Drawer, the glide option will need to be selected to provide enough clearance underneath the drawer.

Storage Cabinets have an optional front-removable lock.

Actual Dimensions

Depth	18½"
Width	23"
Height (with casters)	38"
Height (with glides)	35"

Product Details



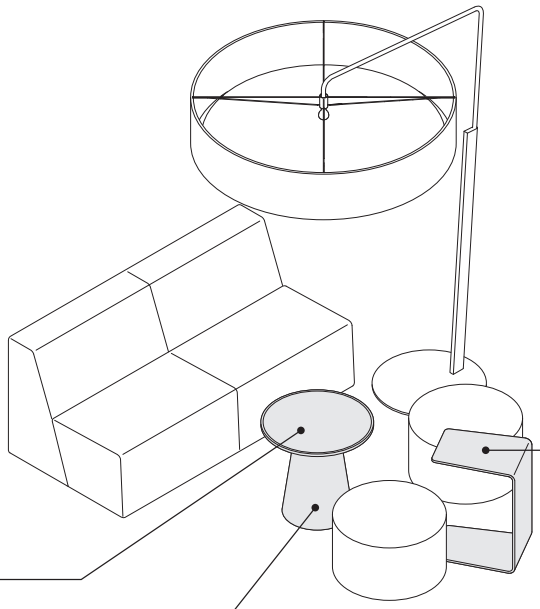
Up to four Mobile Storage Cabinets can fit up to four per side underneath a Big Table.

Cabinet Stop Brackets are available through Service Parts (TS4C025SR) to assure that the cabinets are aligned with the Big Table edge.

Surface Materials

Mobile Storage Cabinets
- Low-Pressure Laminate

Paper Table and Personal Table



Paper Table has three top configurations:
- Paper (installed over steel table top tray)
- Glass (installed over steel table top tray)
- Steel table top tray

▶ Specifying, page 182

Paper Table is constructed with laminate base, plastic rotating table top, and steel table top tray.

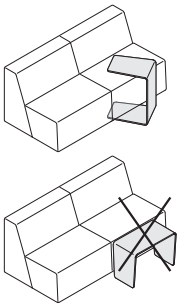
Personal Table is made from bent poplar wood with a natural edge finish. It nests underneath Campfire Lounges and can be used for a writing surface or laptop.
Tip: The Personal Table is not intended to be sat or stood on.

▶ Specifying, page 184

Actual Dimensions

	Personal Table	Paper Table
Depth	19½"	25"
Width	14"	25"
Height	26"	22½"

Product Details



Personal Table is designed to be used in the vertical position only.

Surface Materials

Paper Table base
- High-Pressure Laminate

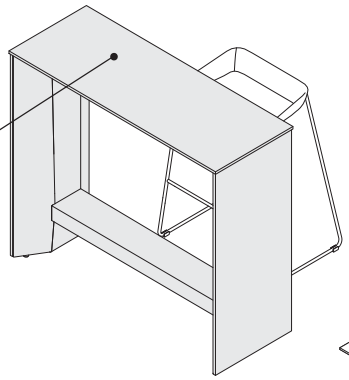
Paper Table rotating table top
- Plastic: arctic white

Paper Table top tray
- Steel: arctic white paint

Personal Table
- High-Pressure Laminate:
  - 2535 Virginia Walnut
  - 2730 Arctic White
  - 2HAT Acacia
- Open Line laminate

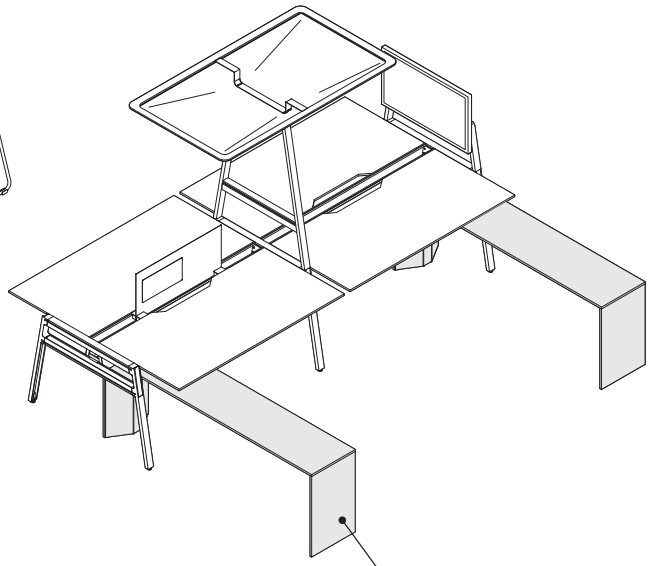
Slim Table

Slim Table serves as a functional anchor at a lounge setting, providing space definition, surface for piling, and distributing power for technology.
▶Specifying, page 186

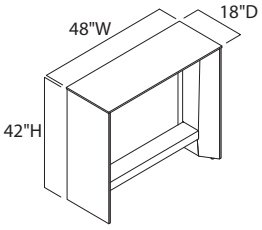


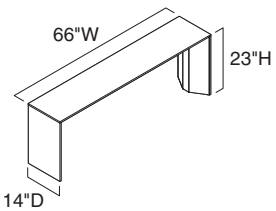
Standing Height Slim Table works in any environment: as a space divider, at the end of a bench run, in front of a meeting room, near a classroom, or as a stand-alone piece. Its shallow width maximizes available real estate.

Standing Height Slim Table is constructed of a painted steel frame with 1/2" top and side panels in Low-Pressure Laminate (LPL), High-Pressure Laminate (HPL), or veneer.



Slim Table is constructed of a painted steel frame with 1/2" top and side panels in Low-Pressure Laminate (LPL), High-Pressure Laminate (HPL), or select veneers.



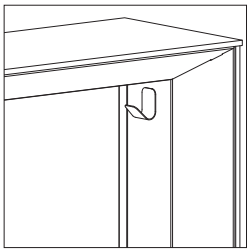


Actual Dimensions

	Standing Height Slim Table	Slim Table
Depth	18"	14"
Width	48" or 60"	66"
Height	42"	23"
Weight	109 lbs. or 121 lbs.	43 1/2 lbs.

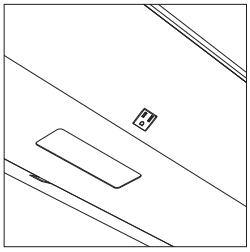
Product Details

Standing Height Slim Table serves as a short-term workstation and supports a breadth of applications.



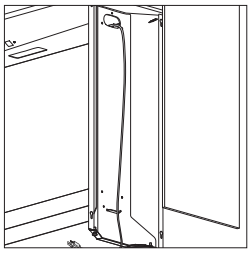
Standing Height Slim Table has built-in power on each side that keeps devices charged, and bag hooks provide a space for personal belongings.

The integrated footshelf facilitates a shift in weight for comfort and well-being, and can be specified with contrasting paint.

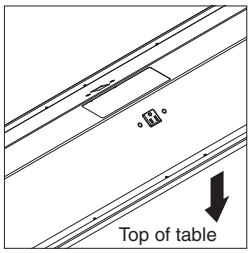


Standing Height Slim Table comes equipped with two receptacles in the middle of each side of the table, with various configurations available:

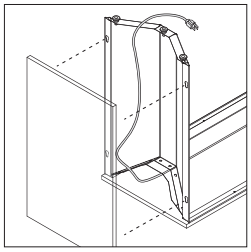
- Standard: two simplex receptacles
- Power + USB A+C 20W: one simplex receptacle and one simplex receptacle with USB A+C 20W ports
- Power + USB-C: one simplex receptacle and one simplex receptacle with one USB C port



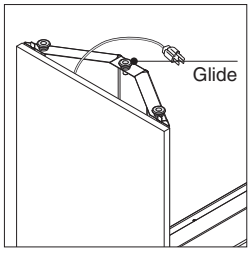
The power cord is 10" long and has 4½" of length from the bottom of the Slim Table to reach a power outlet.



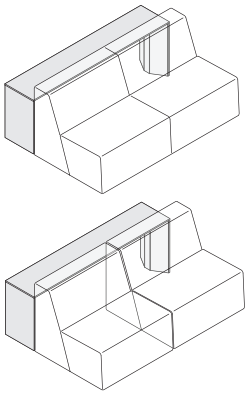
Slim Table comes equipped standard with two platinum simplex 15-amp power receptacles in the middle of each side of the table.



The power cord has 78" (6½ feet) of length from the bottom of the Slim Table to reach a power outlet.



Glides are self leveling, three on either side of the Slim Table and are not adjustable.



The Slim Table's 66" width fits perfectly behind a Big Lounge or two Half Lounges.

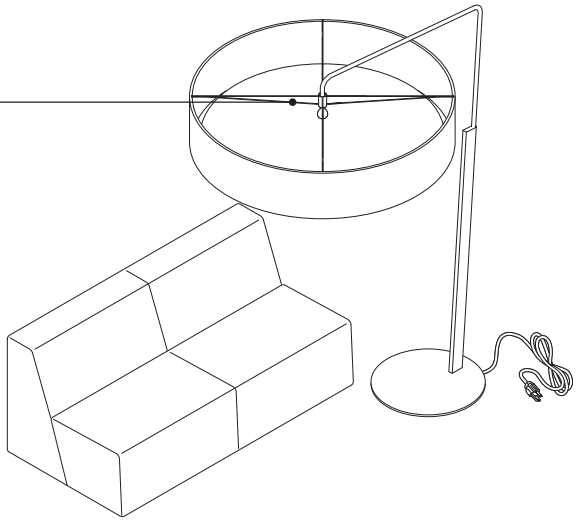
Big Lamp and Footrest

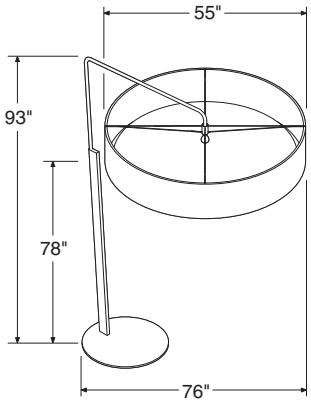


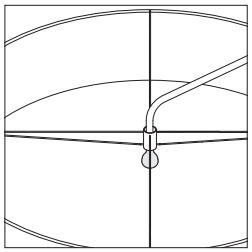
Big Lamp has a painted steel base with fabric lamp shade and white diffuser. At a height of 7'-9', the Big Lamp can be installed in a room with an 8' high ceiling or taller. 15-amp plug with 9' electrical cord and an on/off foot switch.

▶ Specifying, page 187

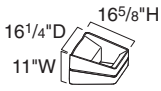
Tip: Consult local fire code authorities if a Big Lamp is placed near ceiling sprinkler system.

Product Details



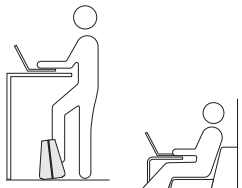


Light bulb is not included. Use a 100 watt 19 incandescent bulb or 15 watt BR30 LED flood bulb. A compact flourescent bulb may be used as long as the overall length does not exceed $4\frac{7}{16}$".



Footrest supports feet and legs and is designed to be used in multiple orientations to encourage active movement when in a lounge posture.
▶Specifying, page 187

Footrest is grey expanded polypropylene with a plastic band available in five finishes.



Standing

Lounge

Guest

Footrest can be used when in a lounge posture, seated, or standing height. It can also be used as a guest chair.

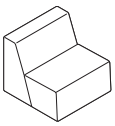
Half Lounge—Seam



Tip: Seams are located at the top of the back and the front edge of the seat to match seams on Corner Lounges. Corner Lounges come standard with seams. Specify Big and Half Lounges with seams when creating an application with Corner Lounges to create a cohesive design aesthetic.

Tip: Campfire Lounges with seams can be ordered as a single or multi-fabric upholstery.

Tip: When specifying multiple COM fabrics, indicate all surfaces where COM applies. Example: TS3HLM with Designtex 1234 on seat and Designtex 5678 on back.

Tip: Order ganging brackets TS4GANGING to gang units together for more stable applications.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on Bivi, specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Enter the required edge finish as you would a standard laminate. Laminate Approval and Material Requirements to confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements: For additional information, refer to the *Surface Materials Reference Manual*.

Steelcut Trio

Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer.

We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
• Do not store products in trailers.
• Store products in areas that simulate office temperatures (60°F to 90°F).
• Store products in areas that maintain constant, office–like humidity levels.
• Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer
Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the Surface Materials Reference Manual for descriptions of each cut.

Applies to:
• Ottoman round legs
V1AC Natural Cherry
V1AM Clear Maple
V1EW Dark Walnut

Applies to:
• Big Table

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Ⓔ = Established

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Select Surfaces

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Select Surfaces as Wood Group 1 pricing.

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:
- Visit *www.steelcase.com*

For additional information regarding Customer's Own Material, call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Customer's Own Material (COM) Program

The Customer's Own Material (COM) program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials programfor use on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website on *www.steelcase.com*. COMs are not covered under the Steelcase warranty.

Soil Retardants

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles fabrics are available pre-treated with soil retardant:

Regard General Overview

Regard is a frame-based, modular system of reconfigurable seating elements, privacy screens, tables, desk cabinets, media cabinets, and technology components.

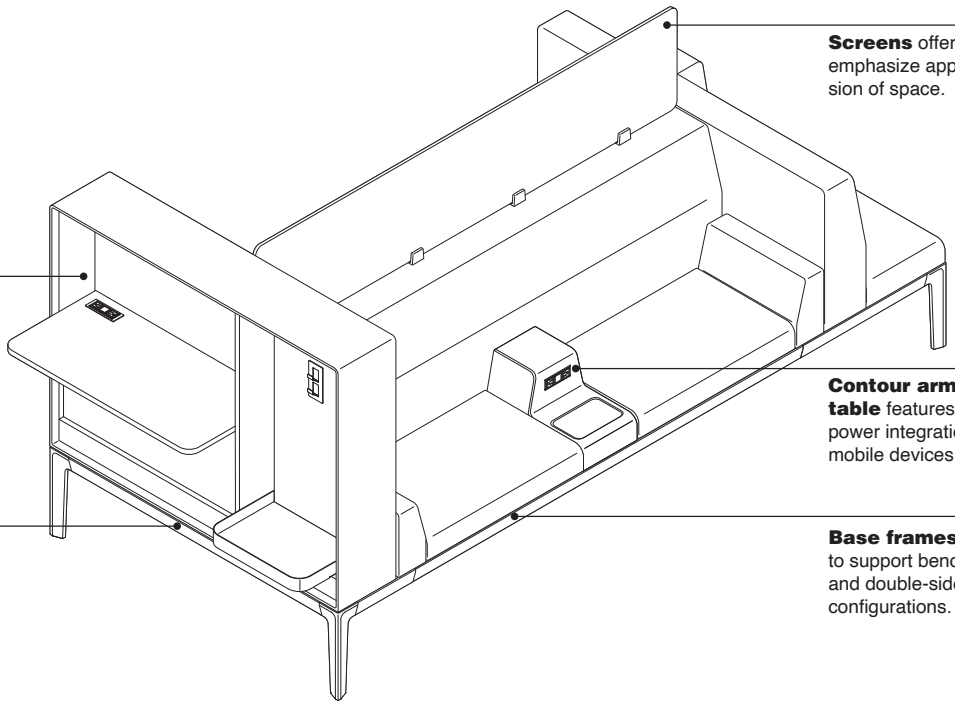
Regard readily accommodates public and personal technology through media and desk cabinets as well as optional power integration.

Regard provides privacy for individuals and groups by incorporating screens, wide arms, and cabinets.

Regard supports a variety of postures from lounge, to seated or perched.

Desk and media cabinets ensure productive waiting and optimize technology support.

Frame extensions are available in 11" and 27½" depths to accommodate desk cabinets, media cabinets, and end-of-run seating.



Screens offer privacy and emphasize appropriate division of space.

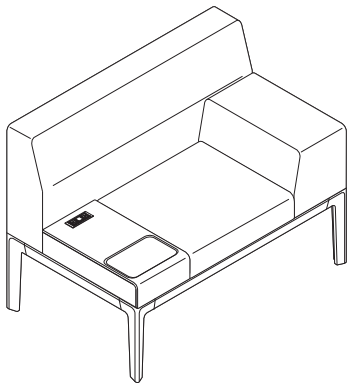
Contour arm and in-line table features optional power integration to support mobile devices.

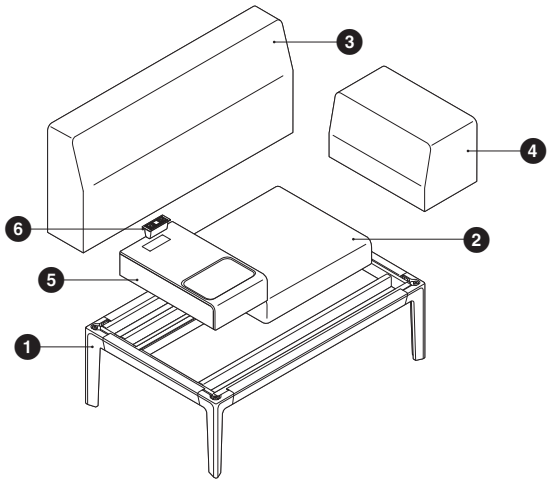
Base frames are available to support bench, single-, and double-sided configurations.

Regard Thought Starters and Applications

44"W Single-Sided Seating

11"W arm and in-line table provide space for personal belongings and optional technology support.





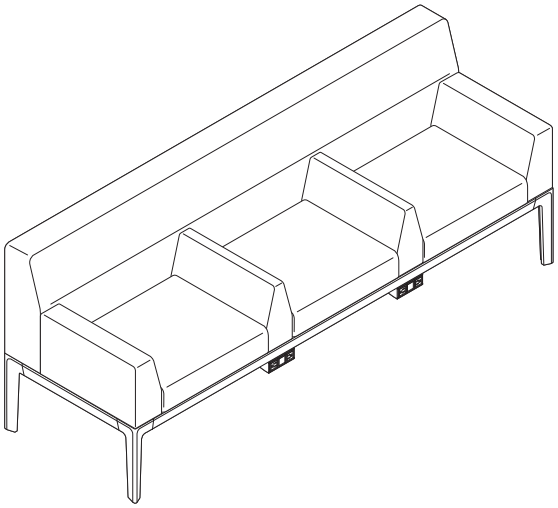
44"W Single-Sided Seating

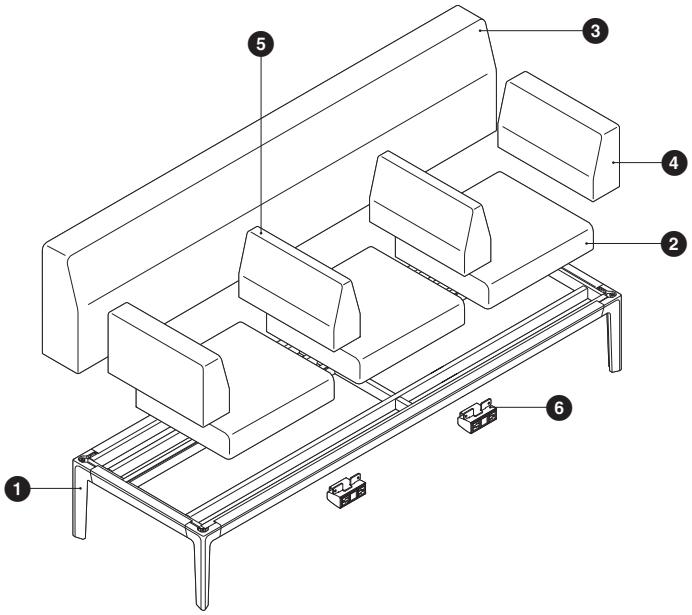
Recommended Components

	Quantity	Style Number	Description
1	1	**HS4FS44**	Single-Sided Frame – 27½"D x 44"W
2	1	**HS4H22**	Seat Cushion – 20"D x 22"W
3	1	**HS4BS44**	Single-Sided Back – 7½"D x 44"W
4	1	**HS4AS11**	Single-Sided Arm – 20"D x 11"W
5	1	**HS4TL11**	In-line Table (with power cutout) – 20"D x 11"W
6	1	**HS4VPSDC**	Power Strip

88"W Single-Sided Seating

Three-seat unit offers comfortable seating capacity with convenient optional power access.





88"W Single-Sided Seating

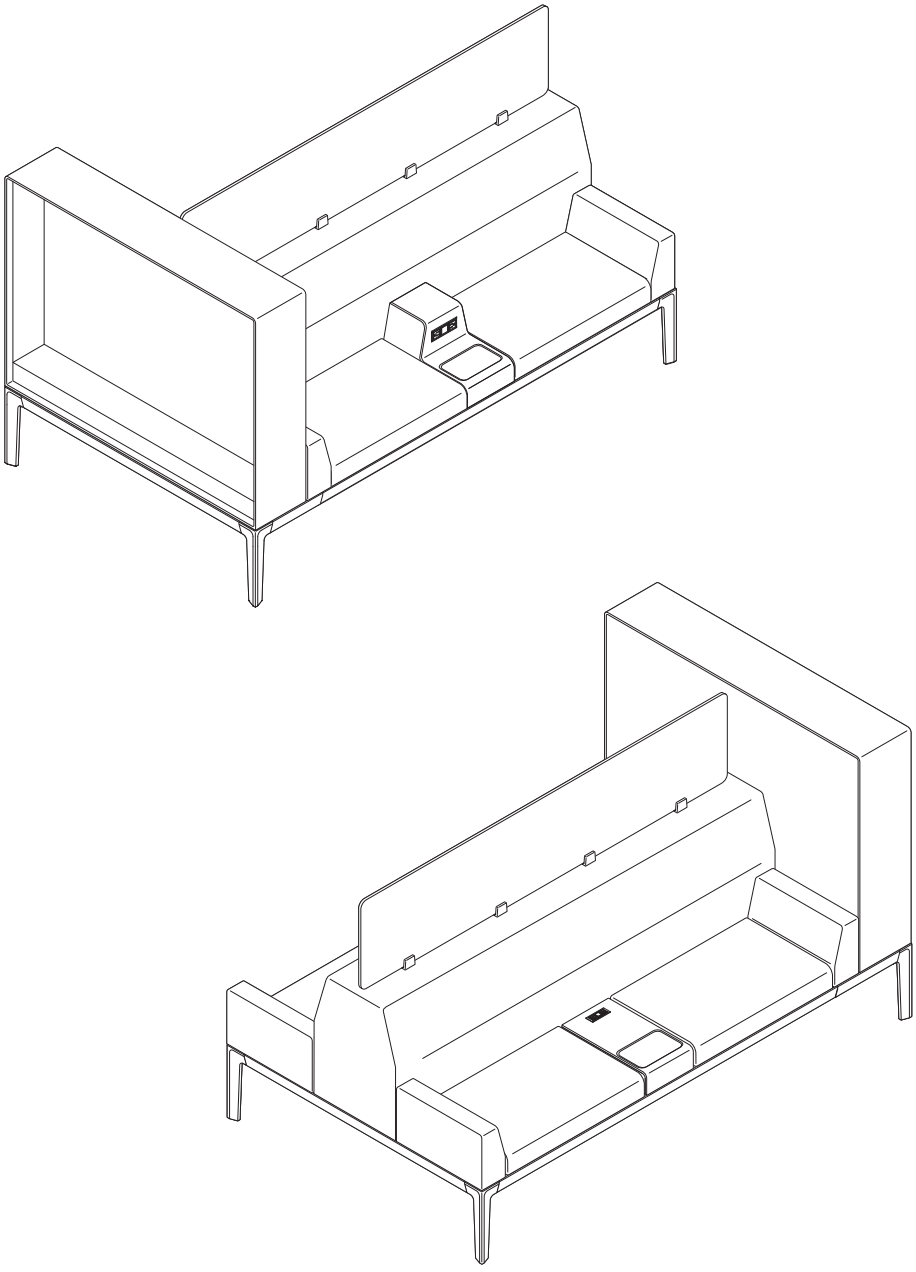
Recommended Components

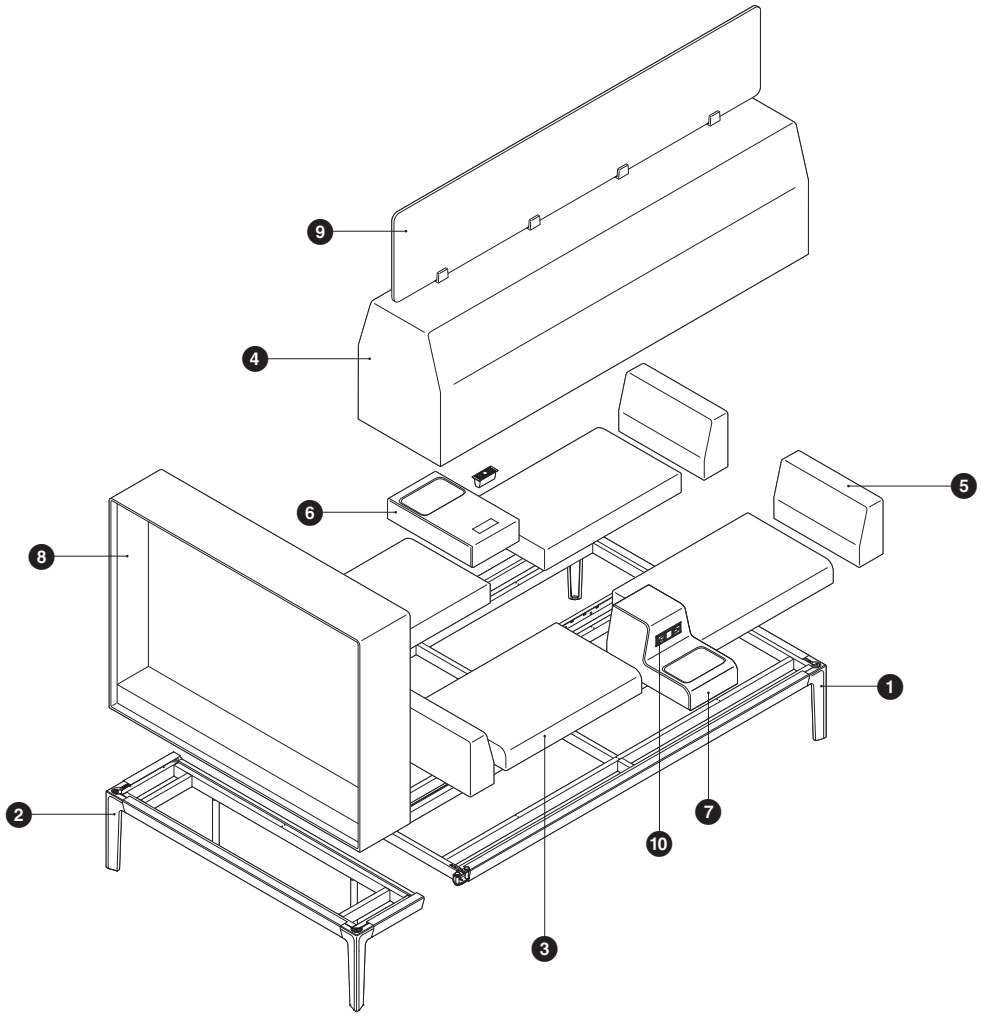
	Quantity	Style Number	Description
1	1	**HS4FS88**	Single-Sided Frame – 27½"D x 88"W
2	3	**HS4H22**	Seat Cushion – 20"D x 22"W
3	1	**HS4BS88**	Single-Sided Back – 7½"D x 88"W
4	2	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
5	2	**HS4AD6**	Double-Sided Arm – 20"D x 5½"W
6	2	**HS4VPSFC***	Power Strip

*Additional power components may be required to complete installation.

88"W Double-Sided Seating with 11"D Cabinet Extension

Wide cushion and powered arms ensure physical comfort by accommodating a variety of user needs and postures.





88"W Double-Sided Seating with 11"D Cabinet Extension

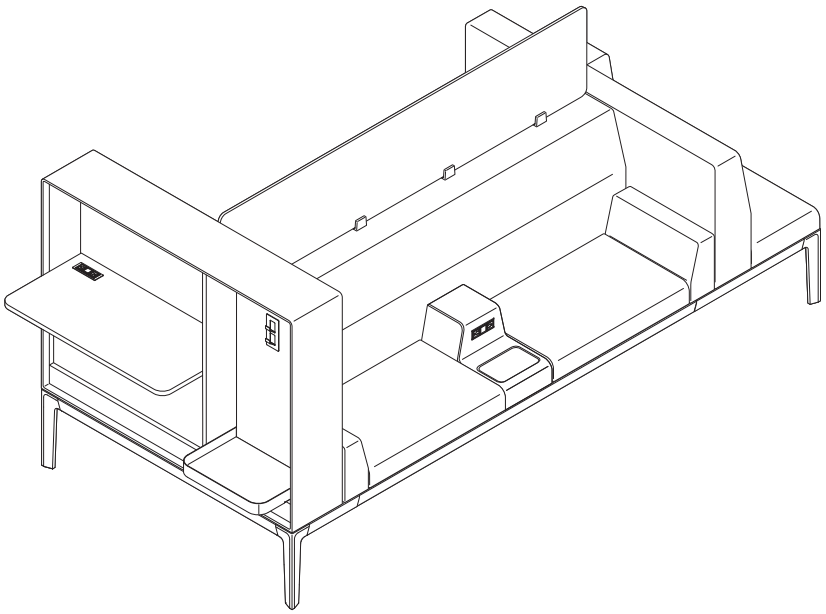
Recommended Components

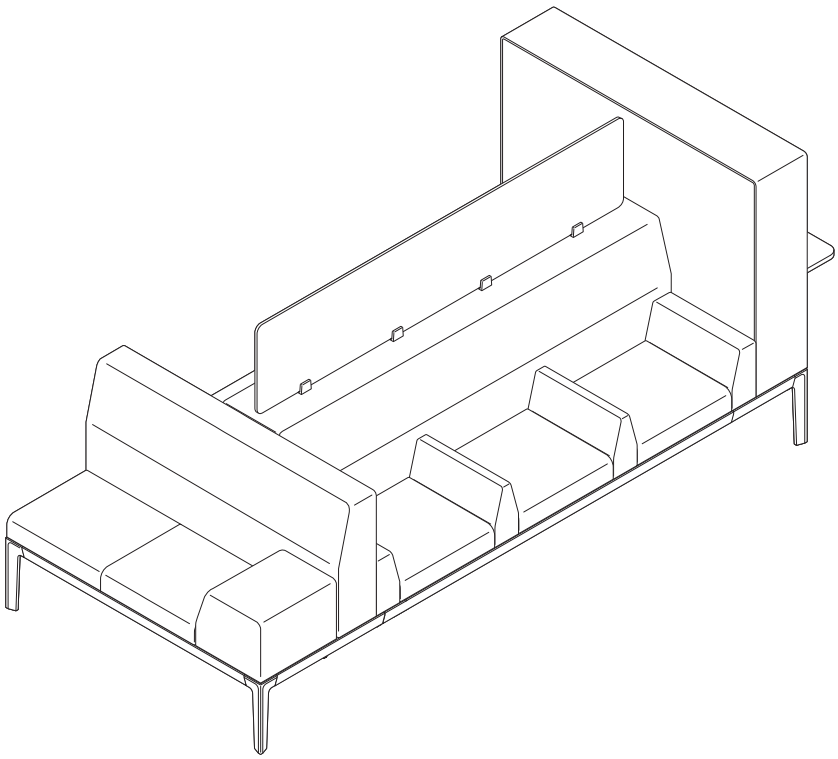
	Quantity	Style Number	Description
1	1	**HS4FD88**	Double-Sided Frame – 55"D x 88"W
2	1	**HS4FE1155**	Frame Extension – 11"D x 55"W
3	4	**HS4H33**	Seat Cushion – 20"D x 33"W
4	1	**HS4BD88**	Double-Sided Back – 15"D x 88"W
5	4	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
6	1	**HS4TL11**	In-line table (with power cutout) – 20"D x 11"W
7	1	**HS4AU11**	Contour Arm (with power cutout) – 20"D x 11"W
8	1	**HS4CM**	Media Cabinet – 11"D x 55"W
9	1	**HS4S88G**	Privacy Screen – 88"W x 14"H
10	2	**HS4VPSDC***	Power Strip

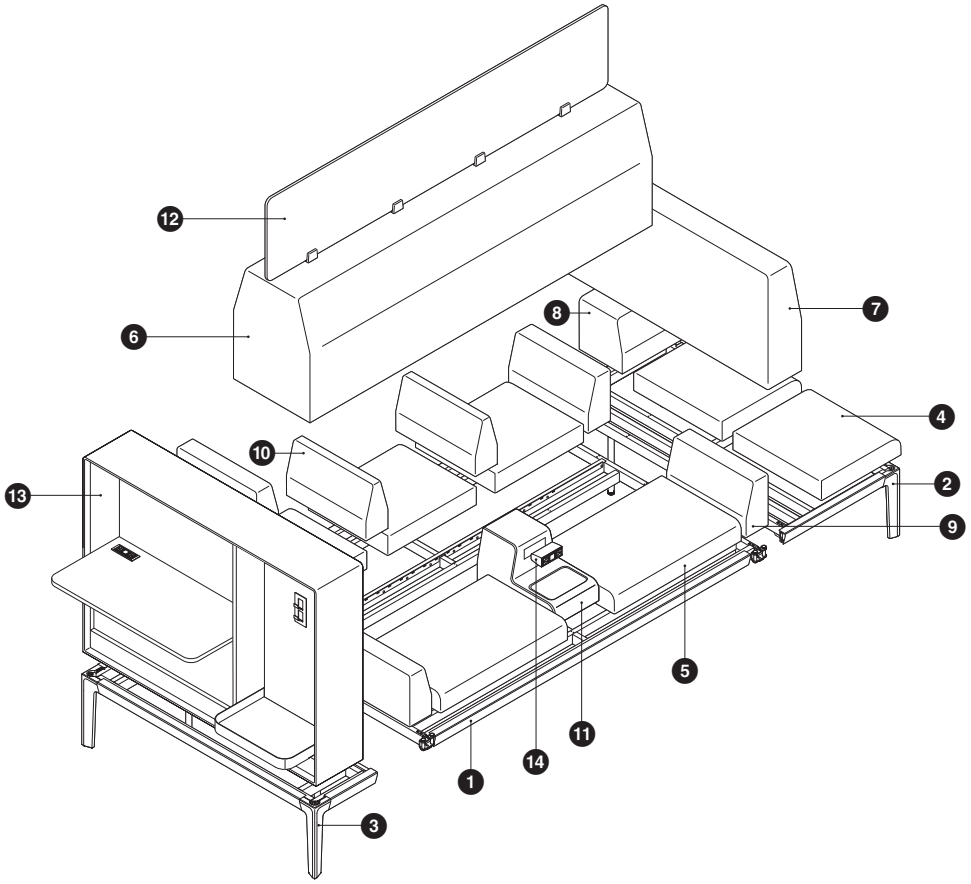
*Additional power components may be required to complete installation.

88"W Double-Sided Seating with 11"D and 27½"D Extensions

Double-sided and end-of-run seating supports desires for privacy and intimacy.







88"W Double-Sided Seating with 11"D and 27½"D Extensions

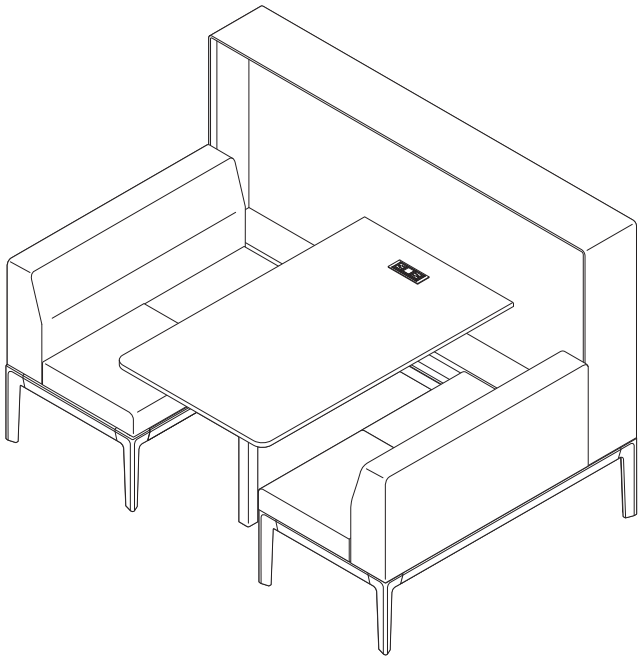
Recommended Components

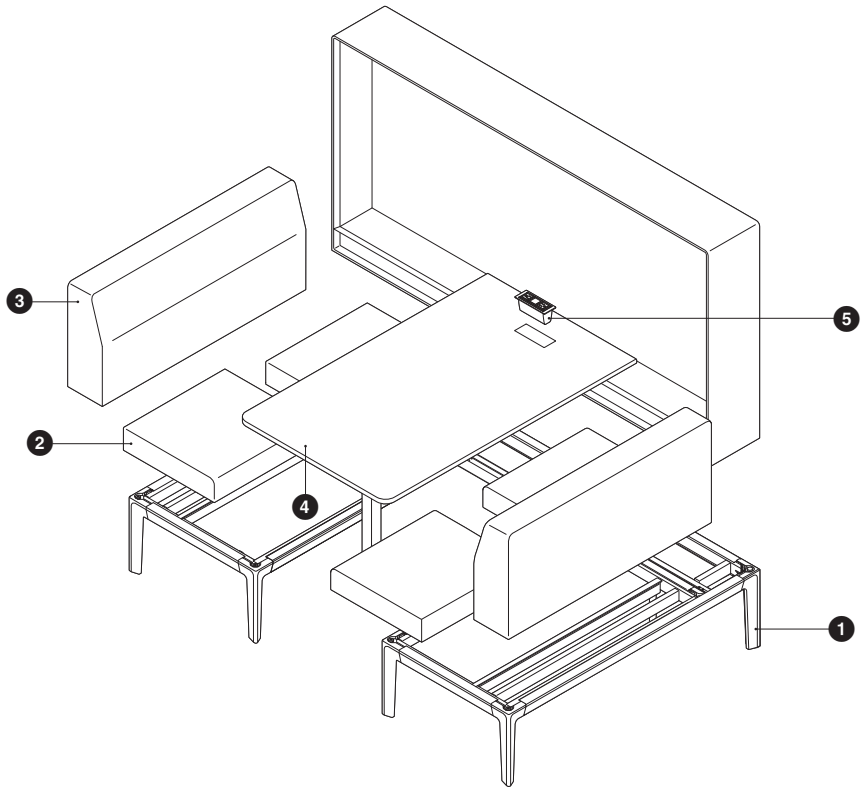
	Quantity	Style Number	Description
1	1	**HS4FD88**	Double-Sided Frame – 55"D x 88"W
2	1	**HS4FE2855**	Frame Extension – 27½"D x 55"W
3	1	**HS4FE1155**	Frame Extension – 11"D x 55"W
4	5	**HS4H22**	Seat Cushion – 20"D x 22"W
5	2	**HS4H33**	Seat Cushion – 20"D x 33"W
6	1	**HS4BD88**	Double-Sided Back – 15"D x 88"W
7	1	**HS4BS55**	Single-Sided Back – 7½"D x 55"W
8	1	**HS4AS11**	Single-Sided Arm – 20"D x 11"W
9	4	**HS4AS6**	Single-Sided Arm – 20"D x 5½"W
10	2	**HS4AD6**	Double-Sided Arm – 20"D x 5½"W
11	1	**HS4AU11**	Contour Arm (with power cutout) – 20"D x 11"W
12	1	**HS4S88G**	Privacy Screen – 88"W x 14"H
13	1	**HS4D1836L**	Desk Cabinet with Bag Retainer and Coat Hook
14	2	**HS4VPSDC***	Power Strip

*Additional power components may be required to complete installation.

55"W Booth with Four 22"W Cushions

Booth seating provides a boundary from the surrounding environment with consideration for families and small groups.





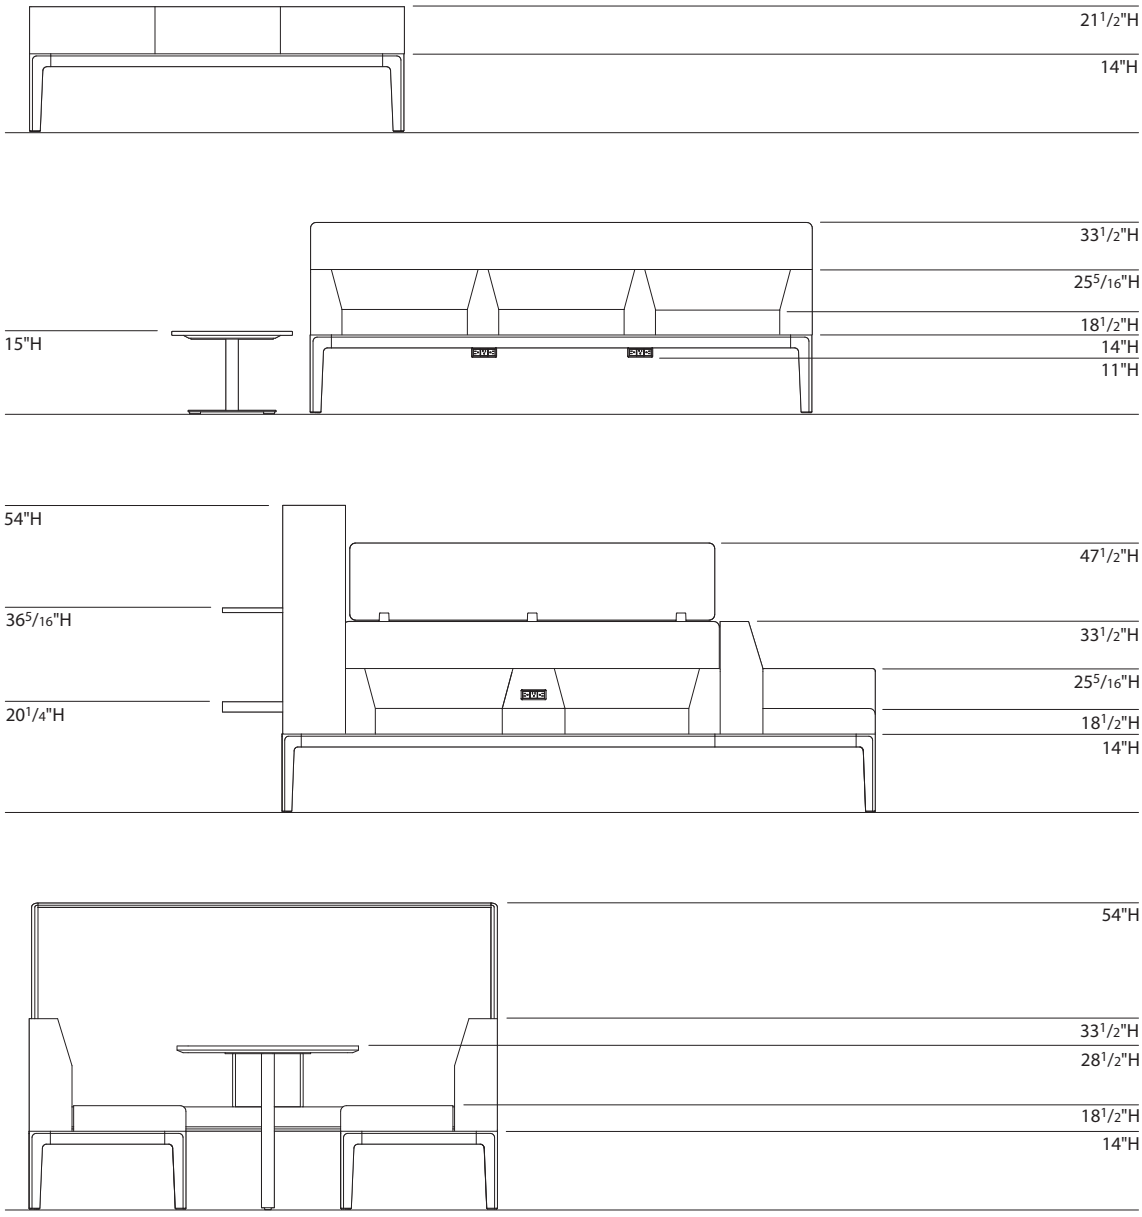
55"W Booth with Four 22"W Cushions

Recommended Components

	Quantity	Style Number	Description
1	1	**HS4FC5581**	Booth Frame – 55"D x 80½"W
2	4	**HS4H22**	Seat Cushion – 20"D x 22"W
3	2	**HS4BS44**	Single-Sided Back – 7½"D x 44"W
4	1	**HS4TC5581L**	Booth with Table (with LED light option) – 55"D x 80½"W
5	1	**HS4VPSDC***	Power Strip

*Assume power plugged directly into wall or floor outlet.

Regard Height Diagram



Regard Base Frames and Frame Extensions

Base frames and seating components allow for configuration on a 5½" module. Each base frame width can support various combinations of components.

Single-sided base frames support modular seating with accompanying single-sided backs.

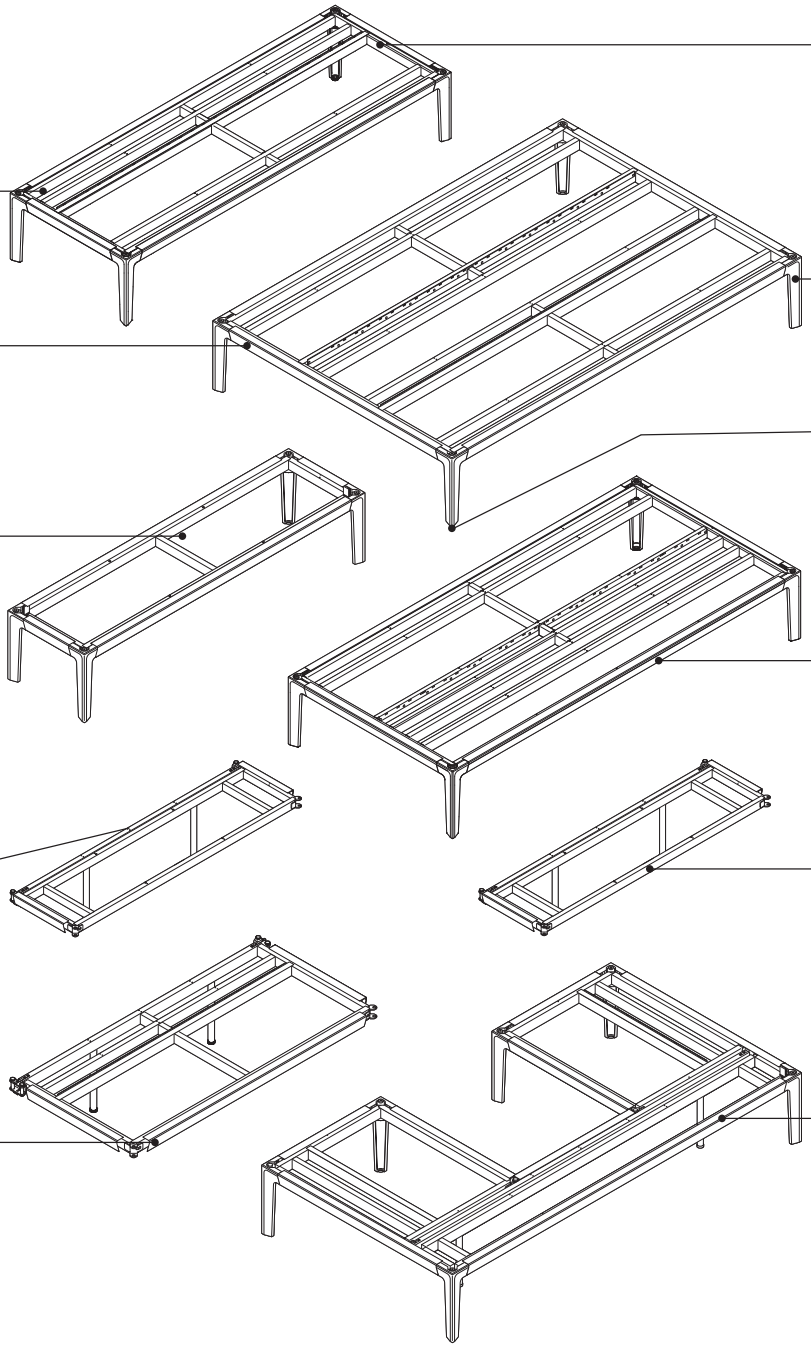
Double-sided base frames accommodate seating on opposite sides with a double-sided back in between.

Bench base frames support two or three bench cushions.

Frame extensions are available to accommodate 11"D cabinets or 27½"D seating end caps.

Cabinet frame extension provides foundation for end-of-run desk and media cabinets. Frame extensions can be added to either end of double-sided frames or to the back of a 55" single-sided unit for additional configurations.

Seating frame extensions provide foundation for end-of-run seating. Frame extensions can be added to either end of double-sided frames for additional configurations.



Frame understructure is welded tubular steel.

Cast aluminum legs connect to steel understructure to provide support and add visual continuity.

Glides have a 1½" adjustment range.

Single-sided planter frame accommodates both seating and planter components.

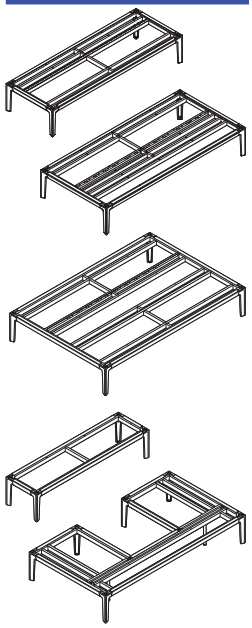
Planter frame extension provides foundation for end-of-run planter applications.

Booth base frames accommodate booth cabinet and attached seating configurations.

Actual Dimensions

	Depth	Width	Height
Base Frames			
Single-Sided	27½"	44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Single-Sided Planter	37½"	44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Double-Sided	55"	44", 55", 60½", 66", 71½", 77", 82½", and 88"	14"
Bench	18"	44" and 66"	14"
Booth	44" and 55"	80½"	14"
Wall-mount	11"	55"	14"
Frame Extensions			
Seating	27½"	55"	14"
Cabinet	11"	55"	14"
Planter	11"	44", 61", 66", 72", 77", 83", and 88"	14"

Product Details



Base frames are available in single-sided, double-sided, planter, bench, and booth configurations.

Base frames are available in two depths, 27½" for single-sided seating and 55" for double-sided seating.

Base frames are available in widths from 44"–88" for single- and double-sided seating on a 5½" increment.

Planter base frames are available 37½"D and in widths from 44"–88".

Bench base frames have a standard depth of 18" and feature either 44" or 66" widths for two- or three-seat configurations.

Booth base frames have a standard width of 80½" and feature 44" or 55" depths.

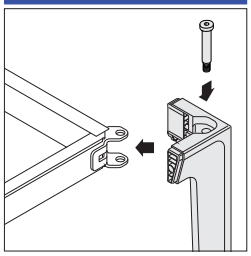
Wall-mounted frame includes two corner legs, trim, and wall-mount hardware.

Frames include legs and all required trim pieces.

Frames are dynamically tested to 500 pounds and statically tested to 750 pounds in all seating positions.

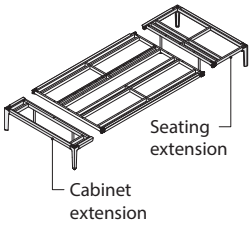
Regard Base Frames and Frame Extensions, continued

Connections

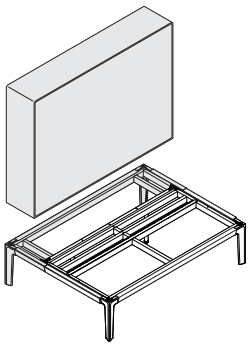


Cast legs attach to steel frame with bolts at each corner of the frame.

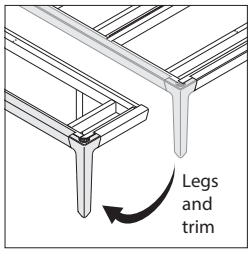
Aluminum extrusion trims span between each corner leg to lock in seats and arms. Seats can be reconfigured by removing trims.



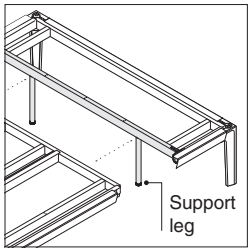
Seating, cabinet, and planter frame extensions attach to either end or both ends of a double-sided frame.



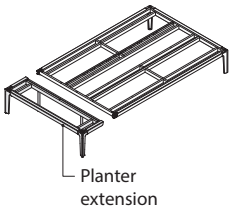
Cabinet frame extension can be added to the back side of 55"W single-sided frame.



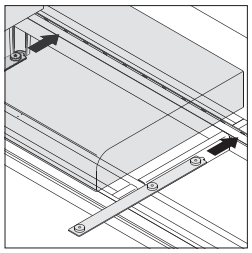
Base frame extensions link to existing base frame understructure. Legs and trim from the existing double-sided base frame are brought to the outside of the base frame extension.



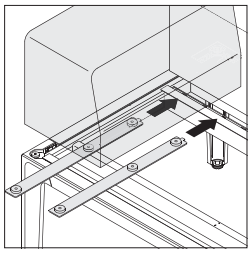
Base frame extensions include two additional support legs as standard.



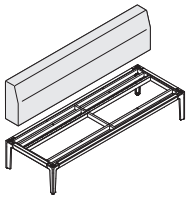
Planter frame extension attaches to existing base frame understructure allowing for the integration of a planter.



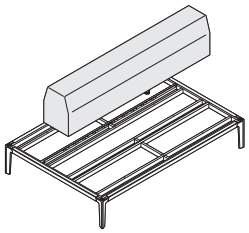
Seat cushions have standard brackets that secure to frame and frame extension without fasteners.
▶Page 212



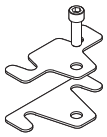
Arms and inline table connect to the frame and frame extensions in same manner as seat cushions.



Single-sided backs attach to single-sided frame with included hardware.

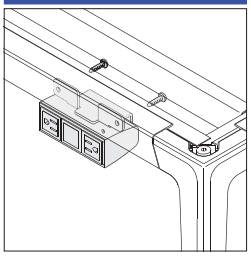


Double-sided backs attach to the middle of double-sided frames.

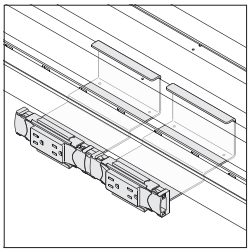


Ganging brackets are required when connecting power between two adjacent frames.

Wiring & Cabling



Power strips can attach to underside of any base frame. It can be mounted anywhere along the frame, but must avoid locations that interfere with leg connections.
Tip: Power strips are not recommended in middle of seat cushion.

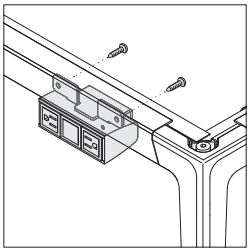


Modular power components attach to the frame with included brackets.

Power components, cords, and conduit can be attached and routed on the bottom of the steel frame.
▶See *Regard Electrical Components*, page 226

Power can be connected frame-to-frame using a modular harness. Frame-ganging brackets must be specified.
▶See *Ganging Harness Length Guidelines*, page 232

Power components are ordered separately.
▶See *Regard Electrical Components*, page 226



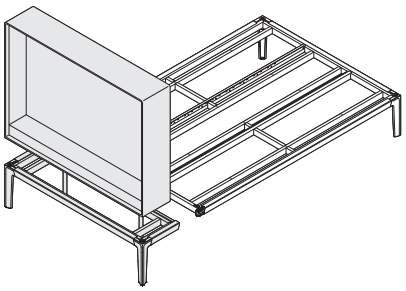
Power strips can be mounted to bench frames.

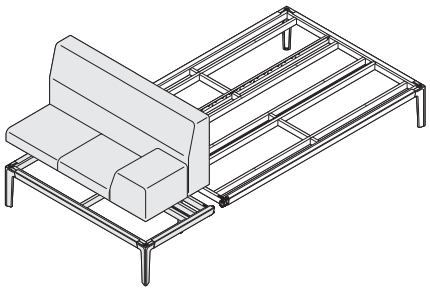
Application Topics

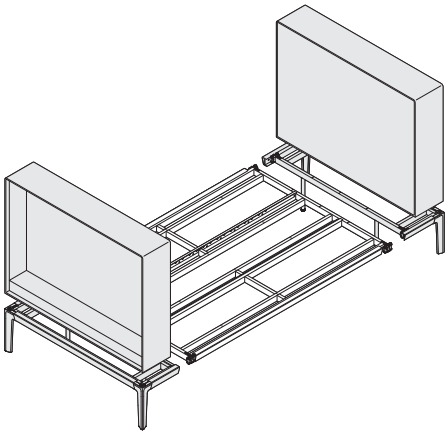
Base frames can accept backs, seat cushions, arms, and casegoods in a variety of configurations. Seating configuration is determined during specification.

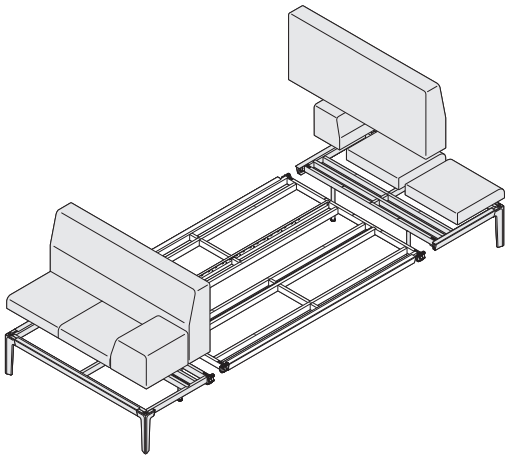
Note: For seat cushion and back configurations, refer to seat cushion or seat back.

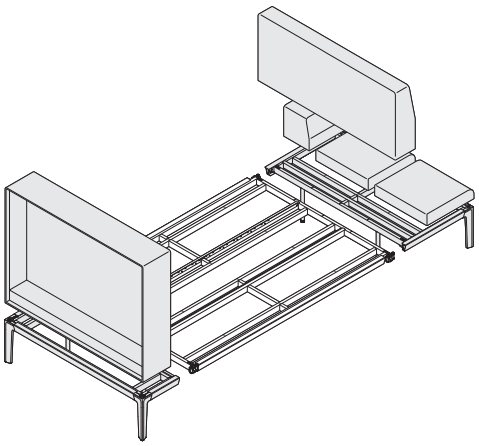
▶Page 212

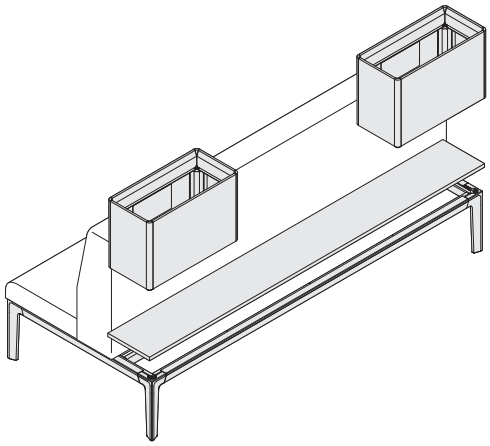












Ganging brackets are available for mechanically attaching single- or double-sided frames.

Surface Materials

Frames and legs

- Paint
- Lux Coatings*

* Does not include booth frame.

Adjustable glides

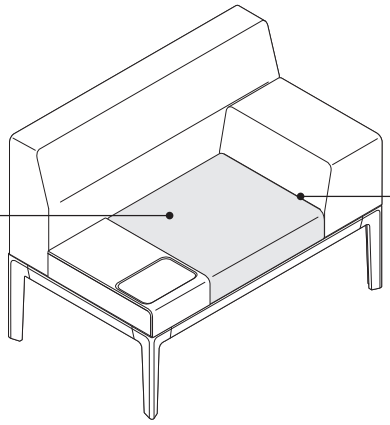
- Platinum solid plastic only

Shipping

Base frames ship knocked down in three packs that contain the steel frame, aluminum extrusion trims, and legs. Frames require field assembly, and attachment hardware is included.

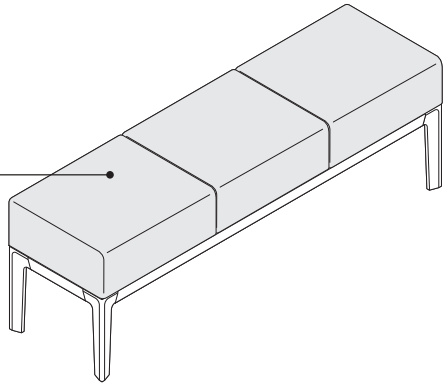
Regard Seat and Bench Cushions

Seat and bench cushions are available in three sizes to provide a comfortable sitting experience.



Seat cushions are available in two sizes and can attach in any position on the base frame on a 5½" module.

Crumb sweeps are on all three sides of seat cushion.

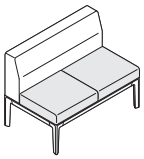


Bench cushion features a thicker cushion to accommodate a shorter, more active sit.

Actual Dimensions

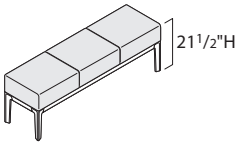
	Depth	Width	Height
Seat Cushions	20"	22" and 33"	4½"
Bench Cushion	18"	22"	7½"

Product Details



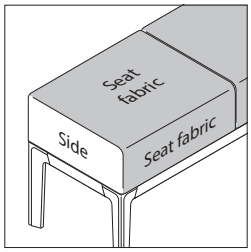
Seat cushions are 22" and 33"W, 4 1/2"H, and 20"D and available for single-sided, double-sided, booth frames, and 27"D frame extensions. When mounted to a frame seat height is 18" off the floor.

33"W seat cushion provides extra width for bariatric support or parent/child. 33"W cushion also supports alternative postures.



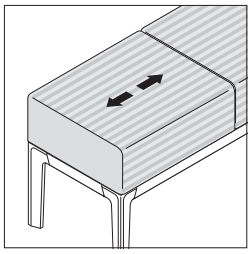
Bench cushions feature a height of 7 1/2", and when mounted to a bench frame, they provide a seat that is 21 1/2" off the ground.

Bench cushions can only be used with bench frames.



Bench cushions are available with contrasting fabric. Seat fabric is located on top, front, and back of cushion. Side fabric is located on each end of cushion.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.

Moisture barrier is an option on all seat cushions.

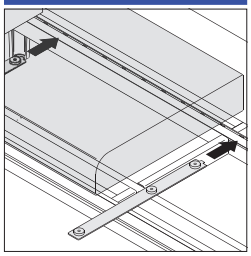


Fabric is applied to seat cushions in the railroaded or horizontal direction to remain consistent with the backs.

Patterned fabrics will not match between seats, arms, and backs.

Large patterned fabrics should be used selectively and are not recommended for use on all components. Patterns will not match between components.

Connections



Seat cushions have brackets that secure to frames and frame extensions without fasteners.
▶Page 212

Seats can be placed in any location along frame on a 5 1/2" module and can be next to any arm or other seat cushion.

Application Topics

Benches can be incorporated to achieve higher density in Regard applications.

Surface Materials

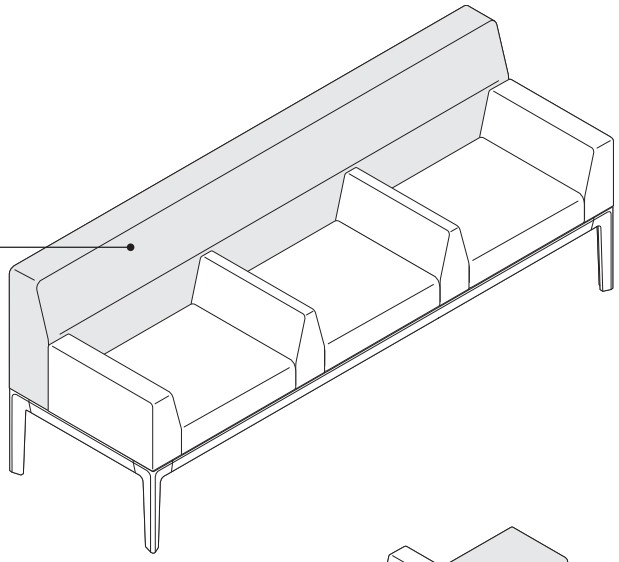
All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Seat and sides
- Fabric
- Fabric with moisture barrier (option)

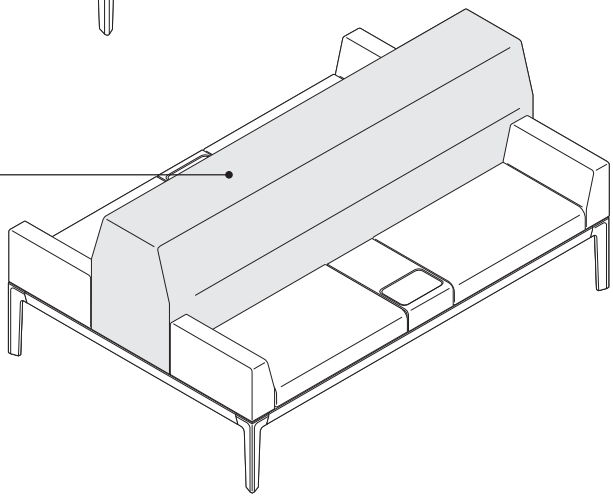
Regard Backs

Backs integrate with single-sided, double-sided, or booth frames.

Single-sided backs must attach to single-sided frames or seating frame extensions.



Double-sided backs must attach to double-sided frames.

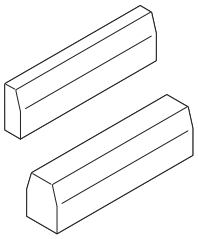


Actual Dimensions

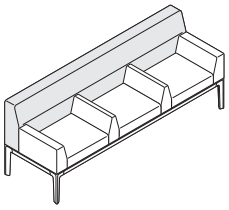
Single-Sided Back	
Depth	7½"
Width	33", 44", 55", 60½", 66", 71½", 77", 82½", and 88"
Height	19½"

Double-Sided Back	
Depth	15"
Width	33", 38½", 44", 49½", 55", 60½", 66", 71½", 77", 82½", and 88"
Height	19½"

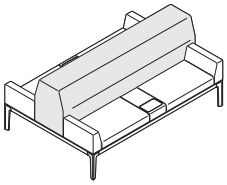
Product Details



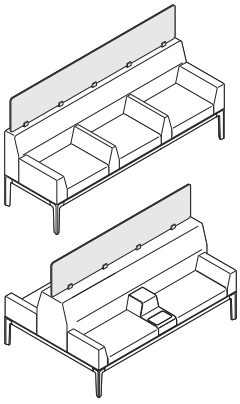
Backs are available in single-sided and double-sided options.



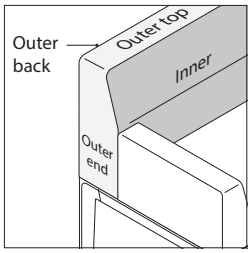
Single-sided backs attach to single-sided frames or seating frame extensions.



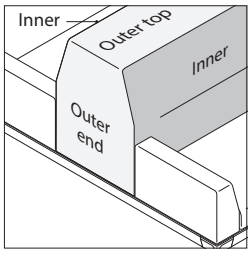
Double-sided backs attach to double-sided frames only. All backs must match the width of the of the frame.



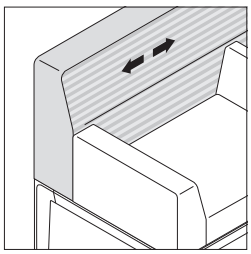
Privacy screens are available on single and double backs. Screens match the length of the back.



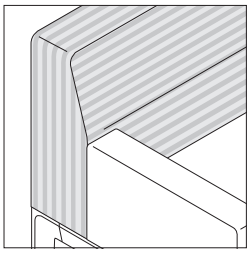
Single-sided back outer fabric is located on ends, top, and back facing away from seat cushion. Inner fabric is on the side of back facing seat cushion.



Double-sided back outer fabric is located on ends and top of back cushion. Inner fabric is on both sides of back facing both sets of seat cushions. *Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.*



Back fabric is applied in the railroaded or horizontal direction to remain consistent with seat cushions.



Fabric on the top of the back will match patterns on the front of the back but is applied to waterfall over the ends. Ends will not match top and front of back.

Patterned fabrics will not match between seats, arms, and backs.

Connections

Backs attach to frames with stanchions and brackets that are shipped with the back.

Privacy screen option must be specified when attaching a screen to the back and must match width of the back.

Privacy screens, available as a separate style number, can attach to all backs.

▶ See *Regard Privacy Screens*, page 218

Application Topics

Single- and double-sided backs should always be ordered to match the base frame length.

Surface Materials

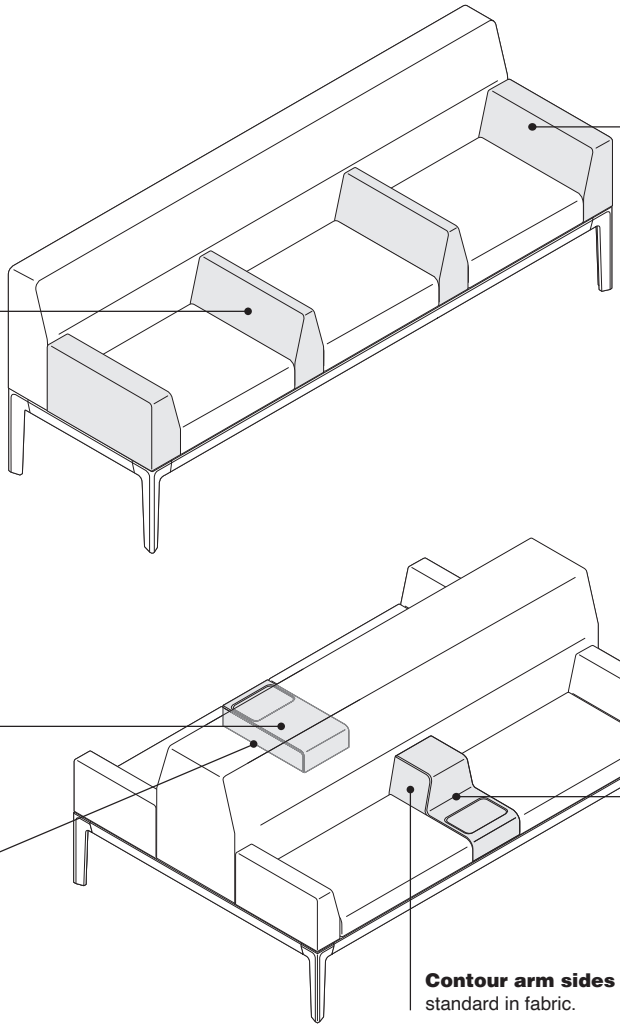
All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

Back, top, and sides

- Fabric

Regard Arms

Arms lend posture and personal belonging support to the user while providing spacial boundaries and separation between users.



Single-sided arms are available for placement at the end-of-seating runs.

Double-sided arms are available for placement between seat cushions.

In-line arm is standard with durable plastic top. Power cutout is optional with in-line arm.

In-line arm sides are standard in fabric.

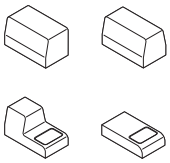
Contour arm is standard with durable plastic top. Power cutout is optional with contour arm.

Contour arm sides are standard in fabric.

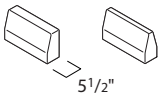
Actual Dimensions

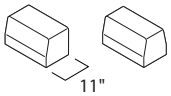
Depth	20"
Width	5½" and 11"

Product Details

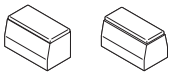


Arm options include single- and double-sided, contour, and in-line designs.

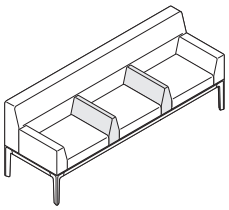




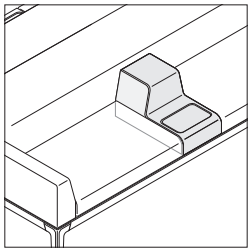
Single- and double-sided arms are available in 5½" and 11" widths, consistent with the 5½" modularity.



Single- and double-sided arms are available with plastic arm caps.

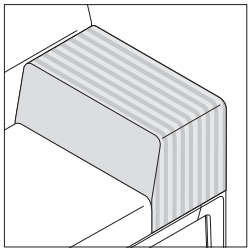


Double-sided arms are designed to be placed between seats with the angled edges adjacent to the occupants, providing the benefit of additional space, and posture support.

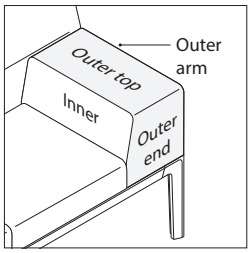


Contour and in-line arms feature durable plastic tops and upholstered sides.

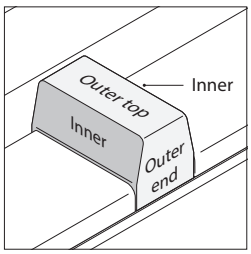
Contour arms should only be specified between seat cushions.



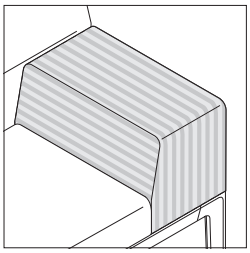
Contrasting fabrics are available on single- and double-sided arms.
Tip: Thread color that is associated with the more dominant fabric color or surface area will be applied throughout the upholstery.



Single-sided arm outer fabric is located on ends, top, and back facing away from seat cushion. Inner fabric is on the side of arm, facing seat cushion.



Double-sided arm outer fabric is located on ends and top of back cushion. Inner fabric is on both sides of arm facing both sets of seat cushions.



Fabric on the top of the arm will match patterns on inner arm but is applied to waterfall over the ends. Ends will not match top and sides of arm.

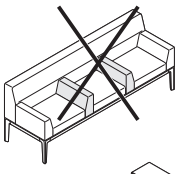
Patterned fabrics will not match between seats, arms, and backs.

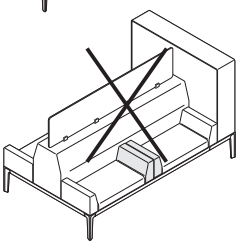
Large patterned fabrics should be used selectively and are not recommended for use on all components. Patterns will not match between components.

Connections

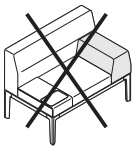
Arms are shipped with brackets for attachment.

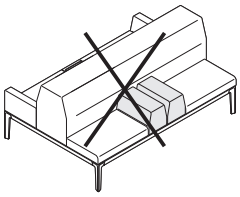
Application Topics



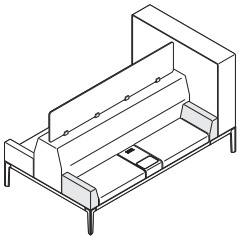


Single-sided arms should not be placed between seat cushions or next to other arms.

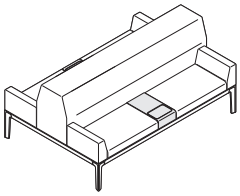


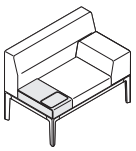


Double-sided arms should not be placed at end-of-run seating or other double-sided arms.

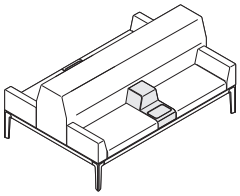


Single-sided arms are designed to be placed in the end positions. Frame extensions fit tight to single-sided arms if specified.



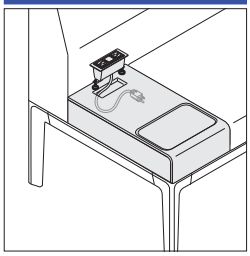


In-line arms can be positioned between seats or in the end positions.



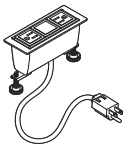
Contour arm should only be placed between seat cushions.

Wiring & Cabling



Contour and in-line arms can be specified to accommodate power integration.

Power cutout option must be specified when incorporating power.



Power strip with cord or hardwire option must be specified when power is needed for use with contour or in-line arm. Over current protection is required in California.
▶ See *Regard Electrical Components*, page 226

All Steelcase Health seating with standard upholstery fabrics comply with the State of California Technical Bulletin 117-2013.

- Fabric

Sides of contour and in-line arms
- Fabric

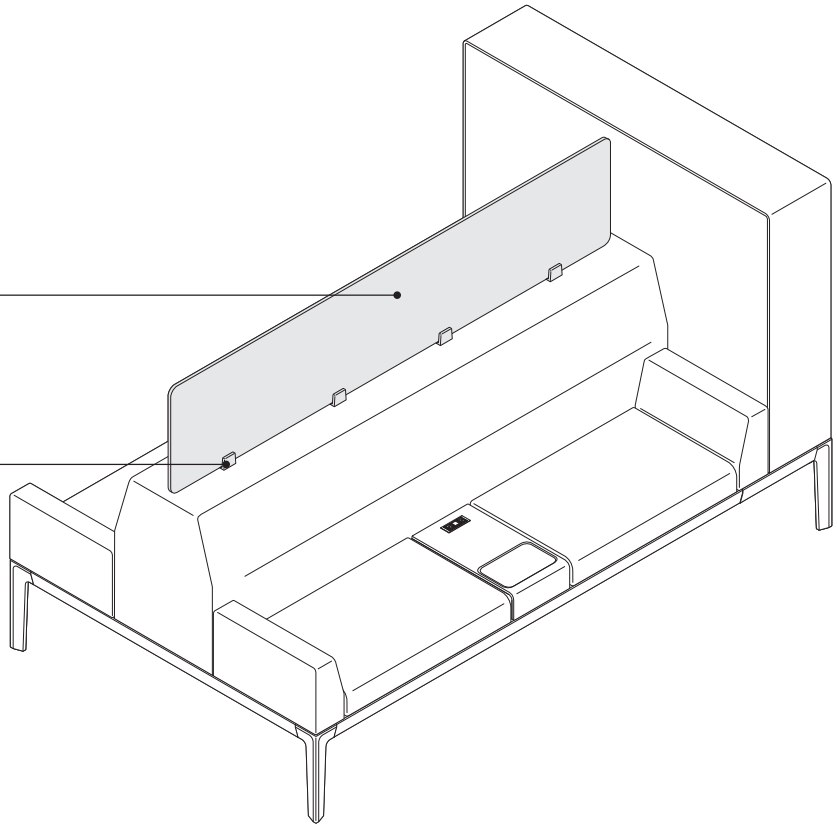
Arm caps
- Plastic

Regard Privacy Screens

Privacy screens not only divide space, but also create intimate settings while instilling a sense of visual calm.

Privacy screens are standard in frosted tempered glass.

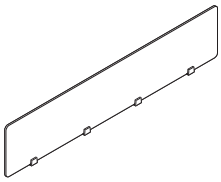
Attached brackets are included in shipping.



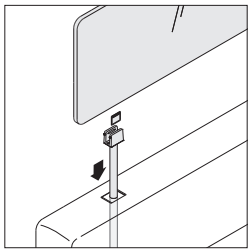
Actual Dimensions

Depth	3⁄8"
Width	33", 38½", 44", 49½", 55", 60½", 66", 71½", 77", 82½", 88"
Height	14"

Product Details



Privacy screens range in size from 33"W to 88"W to match the width of the back.



Privacy screen includes glass screen, brackets, supports, and top of cap with holes to accommodate brackets.

Connections

Privacy screens attach to the top of seat backs with metal brackets that are included with the screen. Backs must be specified with the screen attachment option.
▶See Application Topics for specific size requirements.

Screen brackets and stanchions can be specified separately to allow users to supply own screen material.
Tip:When specifying custom screen materials, screen lengths 33"–55" require two brackets and stanchions and screen lengths 60 1/2"–88" require four brackets and stanchions.

When using custom screen materials, the installer must attach glass tabs to the screen. Glass connection tabs come with screen brackets and stanchions.

Application Topics

Field-Installed Glass Size Requirements

Style Number	Maximum Height	Maximum Width	Thickness Range (min-max)	Corner Radius
Standard				
HS4S33G	14"	33"	.350-.400"	1"
HS4S39G	14"	38 1/2"	.350-.400"	1"
HS4S44G	14"	44"	.350-.400"	1"
HS4S50G	14"	49 1/2"	.350-.400"	1"
HS4S55G	14"	55"	.350-.400"	1"
HS4S61G	14"	60 1/2"	.350-.400"	1"
HS4S66G	14"	66"	.350-.400"	1"
HS4S72G	14"	71 1/2"	.350-.400"	1"
HS4S77G	14"	77"	.350-.400"	1"
HS4S83G	14"	81 1/2"	.350-.400"	1"
HS4S88G	14"	88"	.350-.400"	1"

Tip: Field installed glass should always be tempered. Laminated glass must not be used.

Tip: Order connection tabs, 24035701SR, for each field installation screen.

Tip: All non-standard screens should be ordered 2" shorter than Steelcase standard. All edges must be rounded and beveled.

Surface Materials

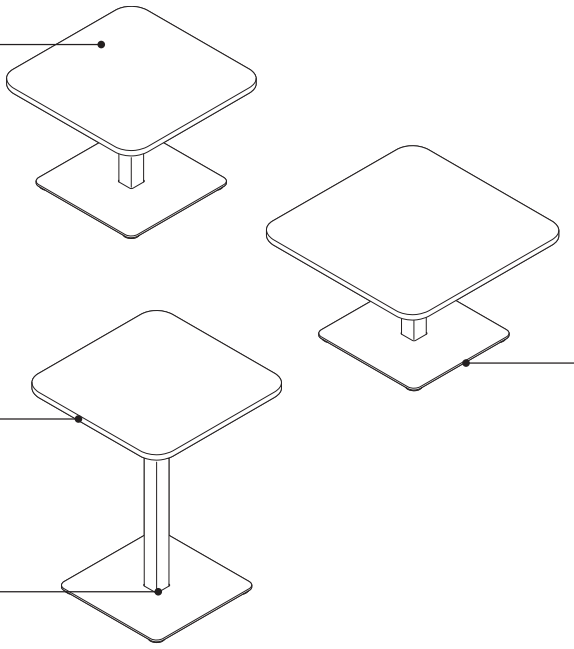
Screen
- 6530 Frosted Glass

Brackets
- Paint

Regard Tables

Tables are available in three designs to coordinate with Regard seating.

Tables are standard in ¾" thick High-Pressure Laminate or 1¼" thick solid surface.



Glides are plastic and not adjustable.

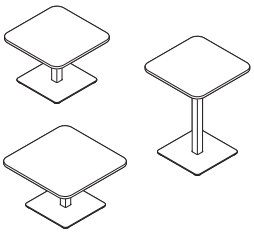
Edges on laminate table are finished with 3 mm plastic trim.

Column and base are standard in painted steel.

Actual Dimensions

	Depth	Width	Height
Square tables	22" and 26"	22" and 26"	15"
Personal table	22"	22"	29"

Product Details



Tables include two 15"H square tables and one personal table at the 29" standard worksurface height. Tables are freestanding.

Application Topics

26" square table can be used for turning a 90° corner with single-sided seating.

Personal table supports work postures in banquette applications.

Surface Materials

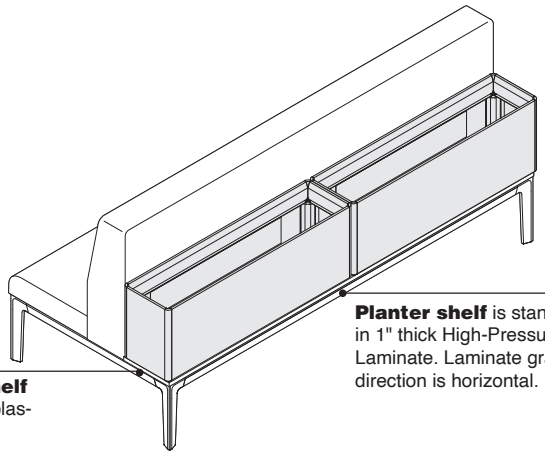
Table tops
- High-Pressure Laminate
- Solid surface

Edges
- 3 mm plastic on laminate table
- Solid surface on solid surface table

Legs and bases
- Paint

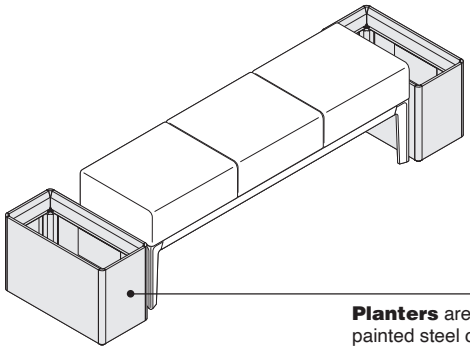
Glides
- Plastic

Planters and Planter Shelves



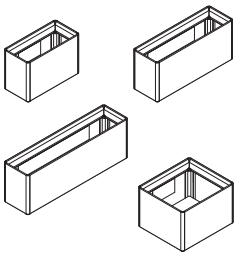
Planter shelf is standard in 1" thick High-Pressure Laminate. Laminate grain direction is horizontal.

Edges on planter shelf are finished with 3 mm plastic trim.

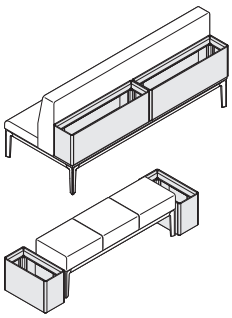


Planters are standard in painted steel construction.

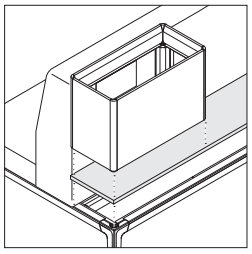
Product Details



Planters are available in four sizes to align with various configurations.



Planters can be use with planter frame or on the floor. *Tip: 22"D x 22"W planter is for use on the floor only.*



Planter shelf must be specified when using the planter frame or planter frame extension. Shelf is ordered separately from frame.

Surface Materials

Planters
- Paint

Planter shelf
- High-Pressure Laminate

Edges on planter shelf
- 3 mm plastic on laminate shelf

Shipping

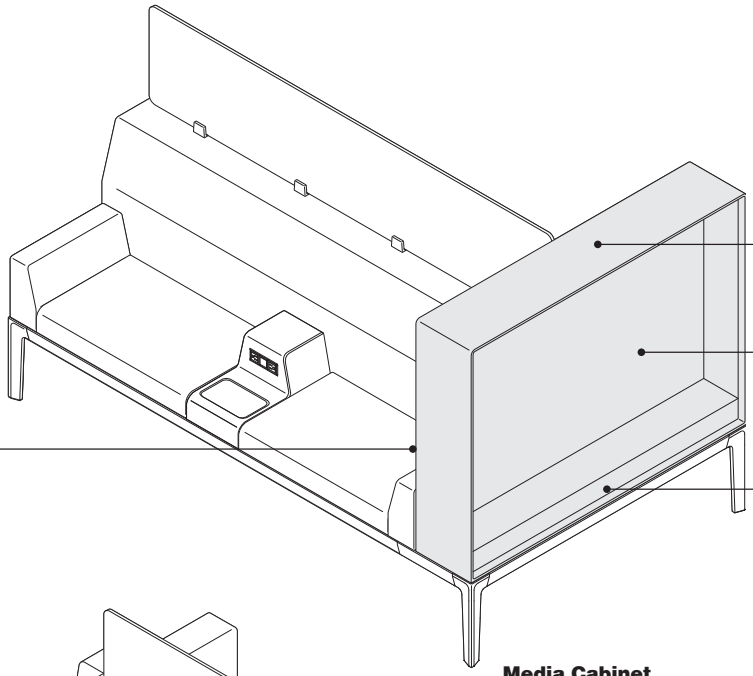
Planter ships standard with glides for use on floor. When specified with shelf bracket option, glides are omited and bracket to attach planter to frame are included.

Actual Dimensions

	Depth	Width	Height
Rectangular Planters	11"	22", 33", or 44"	14"
Square Planters	22"	22"	14"

Regard Desk and Media Cabinets

Desk and media cabinets are designed to divide space and provide privacy to engage in focused work, conversation, research, or entertainment.



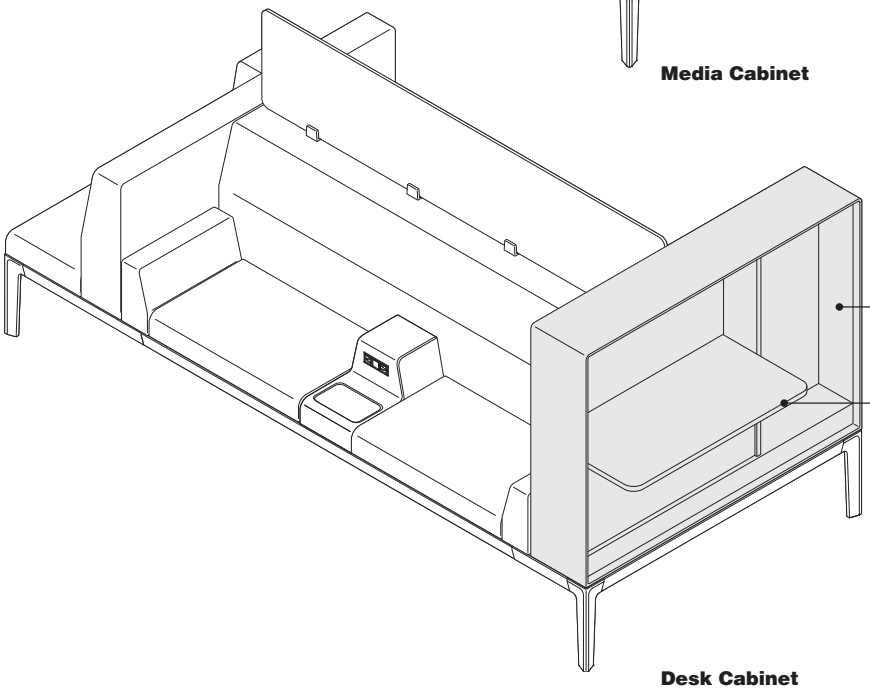
Back panel is Low-Pressure Laminate on all cabinets. Laminate grain direction is horizontal.

Shroud is standard in paint.

Vertical surfaces are standard in Low-Pressure Laminate. Laminate grain direction is horizontal.

Cabinet base is standard in painted steel and always matches the shroud.

Media Cabinet



Worksurface is available in High-Pressure Laminate or solid surface.

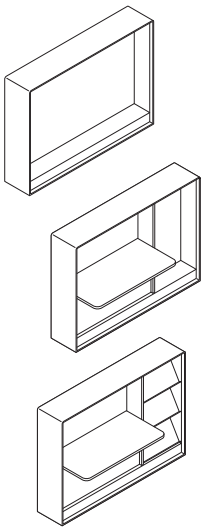
Edges on laminate worksurface are finished with 3 mm trim.

Desk Cabinet

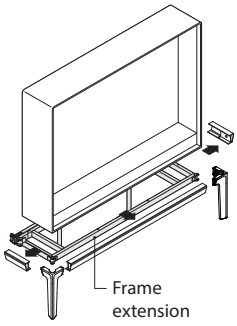
Actual Dimensions

	Depth	Width	Height with Frame
Media Cabinet	11"	55"	54"
Desk Cabinets	11"	55"	54"
Desk Cabinet Worksurface	18"	36"	36"

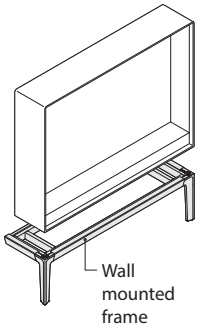
Product Details



Desk and media cabinets are 11"D and 55"W.



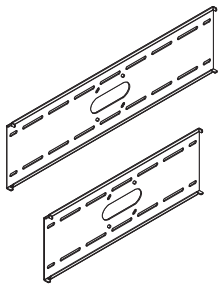
Desk and media cabinets can be mounted using an 11" frame extension.



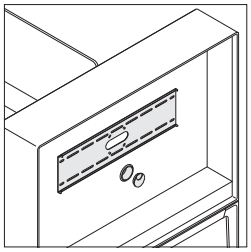
Desk and media cabinets can be wall mounted. 11" wall-mounted frame must be ordered separately.

Wall-mounted desk or media cabinets do not attach to the wall. Cabinets are mounted to wall-mount frame using provided brackets.

Cabinet back panels can be omitted for wall-mounted applications.



Monitor, brackets are available in two sizes. Small bracket for monitor 32"W or less or large bracket for monitors 32"W to 60"W and up to 200 lb.

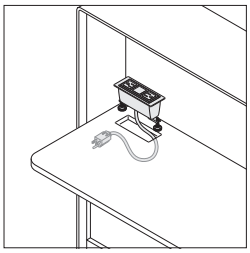


Monitor bracket option comes grommet hole, hole is field drilled in the media cabinet to accommodate varying cord loctions.

46" monitor is recommended in the media cabinet.

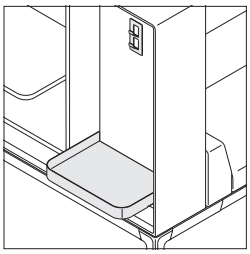
Maximum monitor size for media cabinet is 60". Inside media cabinet width is 53".

Monitor bracket option is not available on the desk cabinet. Monitors are recommended to be placed on the worksurface. Opening above worksurface is 17"H and 36"W.

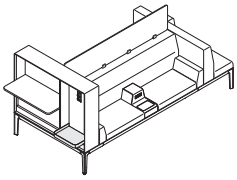


Power cutout is available as an option on desk cabinets to provide power to the worksurface area.

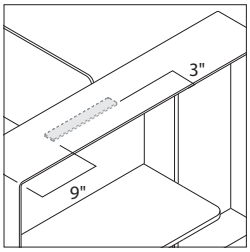
Power cutout is positioned in the rear left corner of the desk worksurface.



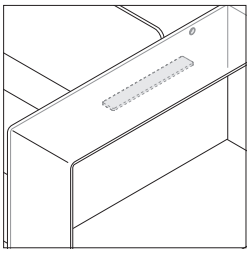
Coat hook and bag retainer are available as options on the open desk cabinets only.



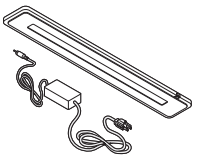
Coat hook and bag retainer are always located to the right-hand side of the desk unit as you face the unit.



Optional LED task lighting can be specified above desk worksurfaces and attaches to the shroud.



Grommet and cutout are included with LED light option for easy cord routing.

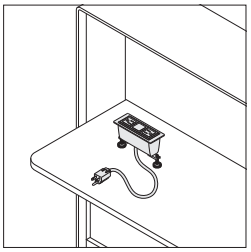


LED light includes the lamp and power supply with cord set.

LED light cord is 9' in total length.

Power supply uses a modular cord with standard three prong plug an integrated low voltage cord and connector to attach to light.
▶ See LED shelf light in *Montage Solutions Specification Guide.*

LED Shelf light is the Steelcase under-storage task light.
▶ See *Montage Solutions Specification Guide* for product details.



Power strip must be specified separately. Over current protection is required in California.
▶ See page 256

Wiring and Cabling

Power cutout must be specified when mounting drop-in power strip to the worksurface.

LED light and power strip cords are routed to the frame between the laminate back panel and the front vertical laminate panel.

LED lights and worksurface power strip can be plugged into outlets in the floor, wall, or modular power system.
Tip: When powering cabinets from the wall, the top of the wall-mounted power module faceplate should be below 11" above the ground to avoid interference with the frame.

Surface Materials

Worksurface
- High-Pressure Laminate
- Solid surface

Edges
- 3 mm plastic on laminate worksurface
- Solid surface on solid surface worksurface

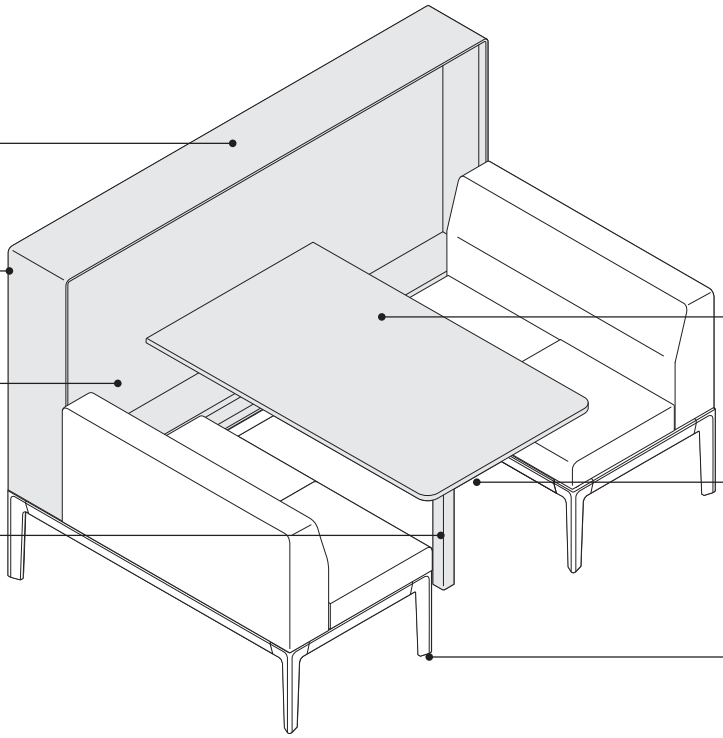
Vertical surfaces and back panel
- Low-Pressure Laminate

Shroud
- Paint
  7275 Seagull
  7276 Arctic White
  7277 Sand

LED Shelf light
- 6009 Arctic White

Regard Booth with Table

Booth with table configuration is available in two frame sizes with optional convenient power access.



Shroud is standard in paint.

Back panel is Low-Pressure Laminate. Laminate grain direction is horizontal.

Vertical surfaces are standard in Low-Pressure Laminate. Laminate grain direction is horizontal.

Table column is standard in paint to match the base frame color selected.

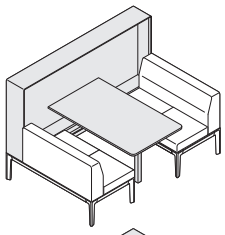
Table is available in High-Pressure Laminate or solid surface.

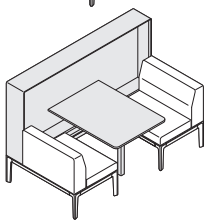
Edges on laminate table are finished with 3 mm trim.

Adjustable glides are standard on the table column.

Actual Dimensions	
Table Depth	44" and 55"
Table Width	32"
Table Height	28½"
Shroud Width	80½"
Height with Frame	54"

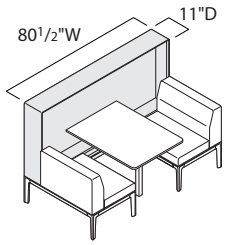
Product Details



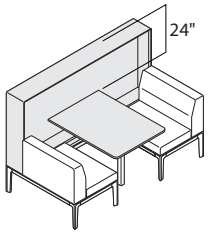


Booth with table frame is available in two depths: 44" to accommodate one 33" cushion on either side, or 55" to accommodate two 22" cushions on either side. All booth settings come standard with an 11" deep shroud.

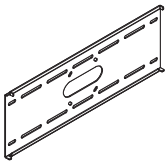
Table is available in two sizes to correspond with the 44"D or 55"D frames.



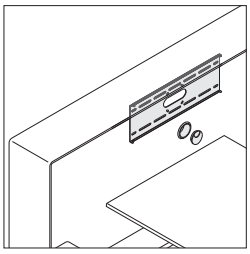
Booth shroud is 11"D and 80½"W.



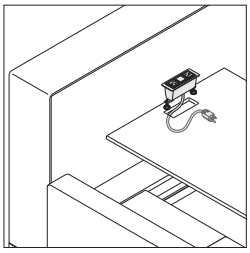
Opening between the worksurface and underside of shroud is 24".



Monitor bracket is available for monitors 32"W or smaller. 27"W monitor is recommended.

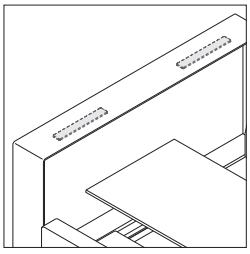


Monitor bracket option comes with pre-drilled cord pass through and grommet in the media cabinet.

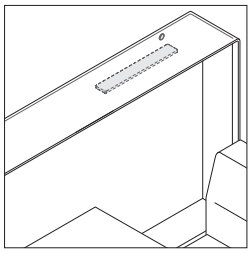


Power cutout is available as an option to provide power to the table area.

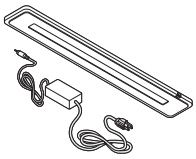
Power cutout is positioned in the center rear of the table.



Optional LED task lighting can be specified and has two LED lights mounted to the underside of the cabinet shroud.



Grommet and power cutout are included with LED light option for easy cord routing.



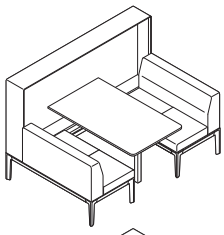
LED light includes the lamp and power supply with cord set.

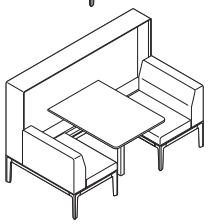
LED light cord is 9' in total length.

Power supply uses a modular cord with standard three prong plug an integrated low voltage cord and connector to attach to light.

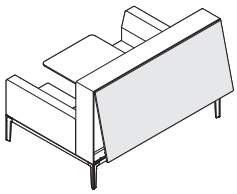
LED shelf light is the steelcase under-storage task light.
▶See LED shelf light in *Montage Solutions Specification Guide*.

Application Topics

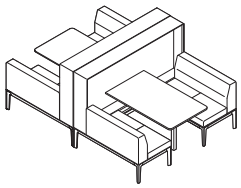




Booth applications are freestanding and do not require wall-mounting.



Booth applications against the wall allow omitting of back panel as an option.



Booth units can be placed back to back and do not require additional brackets.

Booth applications are completed by ordering the corresponding frame, two backs, and seat cushions.

Wiring & Cabling

Power cutout must be specified when mounting drop-in power strip to the worksurface.

Booth cabinets have 4"W cord chase behind the laminate face for cord management to the wall, floor, or base frame.

LED light and power strip cords are routed to the frame between the laminate back panel and the front vertical laminate panel.

LED lights and worksurface power strip can be plugged into outlets in the floor, wall, or modular power system.
Tip: When powering cabinets from the wall, the top of the power module faceplate should be below 11" above the ground to avoid interference with the frame.

Surface Materials

Table

  7275 Seagull
  7276 Arctic White
  7277 Sand

LED Shelf light
- 6009 Arctic White

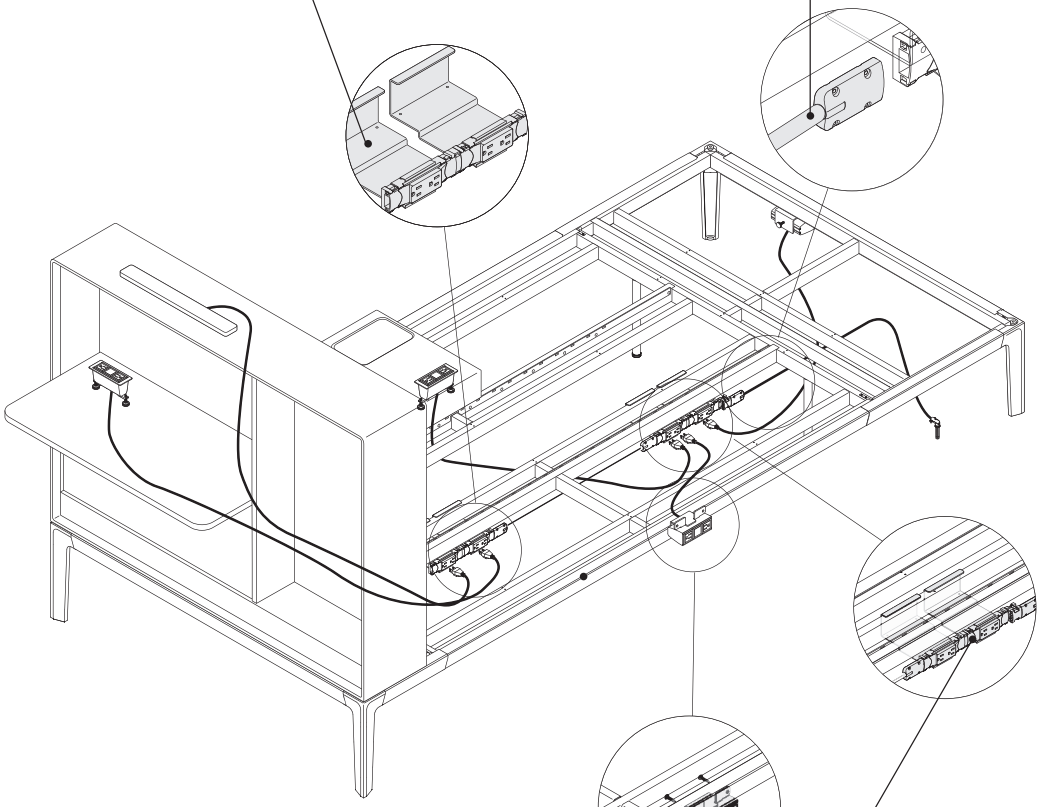
Regard Electrical Components

Distribution and Access

Regard is designed to support technology. Electrical needs can be solved in a variety of ways.

A modular power system is available to plug into the power strips. This system can be ordered as a complete kit for each frame size or built up as components if power is being daisy chained from one frame to another, or if two circuits must be specified.

Users can access power strips that are incorporated into the contour arms, in-line tables, and desk and booth cabinets, or mounted to the underside of the base frames. These power strips can be plugged into the building, hardwired, or plugged into the modular power system.



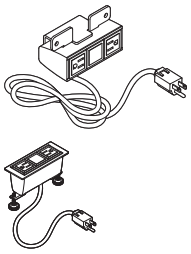
Power kit

Modular harness is used to connect receptacles kits and distribute power through the frame.

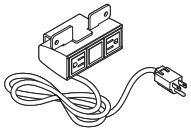
Power strips can be placed in worksurfaces, utility arms, and under the frame. They are powered by a modular system.

Power kits can be placed on the underside of the frame to collect and distribute power throughout the frame with one building interface. Modular harnesses are used to distribute power through the application.

Product Details



Power strips provide user access to outlets and are available in corded or hard-wire option. Power strips are available in drop-in or frame mounted styles. Receptacle options available include standard power, tamper resistant, and USB configurations. All corded options are available with OCP (over current protection) which is a requirement in California.



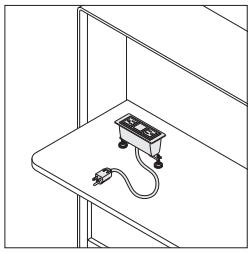
Corded power strip can plug into a modular receptacle kit or into a building receptacle. Connection must be accessible.

Corded power strips can also be plugged into a modular power system.

Corded power strips have a 6'L or 10'L cord and a 15-amp grounded plug. California requires over current protection on corded power strips..

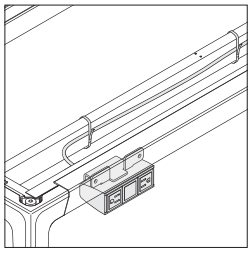
Hardwire power strips are available for Chicago and other municipalities that may require it. They include 10' of flexible conduit. California does not require over current protection on hardwire power strips.

Corded and hardwire power strips can be mounted at any point along the underside of the frame.



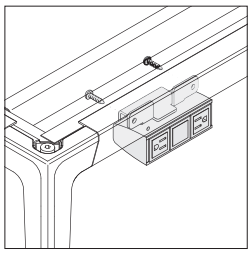
Drop-in power strips are for use in the contour arm, in-line table, desk cabinet, and booth cabinet. California requires over current protection on drop-in power strips.

Drop-in power cutouts must be specified to accommodate the drop-in power strips.



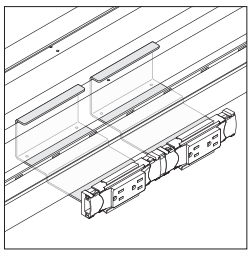
Power cords and harnesses can be managed under the frame. Cable ties are included with the harness and kit components. *Tip: Other wire clips and cord managers can be found in the* Answer Solutions Specification Guide *(32WCP, 999CHT, TS5LEGCLP).*

Modular power can either be specified in complete power kits or as a separate component to connect from one base to another, or when two circuits are needed.



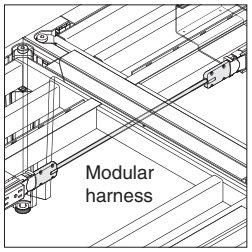
Modular power can be mounted at any point along the underside of the frame.

Modular power can be specified to accommodate multiple power strips.



Power kits collect and distribute power to power strips throughout the base frame using one building interface.

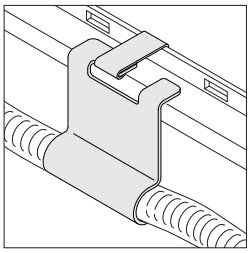
Power kits attach to steel frame with included brackets and face outward.



Modular harnesses are used to distribute power when power kits are used.

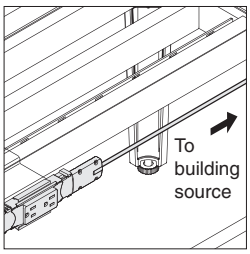
Modular harnesses are available to jump from one frame to another. Frames must be ganged together using style number HS4FG when jumping power between frames.

Modular harnesses are available in lengths from 12" to 42" to accommodate connection of power kits at different ends of the frame or to jump from one frame to another when ganged. Modular harnesses are compatible with one-circuit and two-circuit receptacle kits.



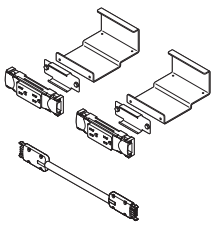
Power infeeds include bracket for mounting to the frame and can be attached to either end of the power kits.

Power infeeds can connect to power kits or branching connectors only.



Hardwire-to-modular power infeeds bring the power from the building power source to the base frame.

Hardwire-to-modular power infeed is available in 9'L. The hardwired end is connected by an electrician to a junction box wherever it is located in the building. The harness is routed to the bottom of the frame and connected to a power kit. Non-PVC is standard.

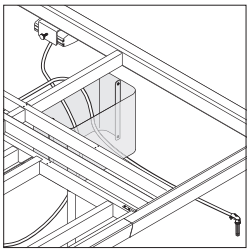


Power kits include the necessary receptacle kits, brackets, connectors and harnesses to accommodate specified frame sizes and power module quantity needs.

Power kits are single circuit only. Modular power should be ordered as components when two circuits are needed.

Power kits do not include base power in which must be specified separately.

Power kits are available with one, two, three or four power module options depending on your frame size and power need.



Vertical cable risers can be used to hide cords or power conduit coming from the floor to the frame. Vertical risers are bolted to the floor at any location under the frame. Attachment hardware is included.

Regard Electrical Components Distribution and Access, continued

Connections

Drop-in power strips are shipped with all hardware included and can be removed without tools.

Frame-mounted power strips are mounted to bracket without tool.

Receptacle kits include one power module and one bracket that is mounted to the underside of the tube-steel frame.

Hardwired base power-in must be secured to the frame with a strain-relief bracket that is included with the base power-in style number.

Wiring and Cabling

All power components are non PVC.

All electrical components are UL listed to the appropriate industry standards in accordance with the National and Canadian Electrical code.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper installation of all electrical components.

Hardwire power is also available for cities where codes require it.

Underwriters Laboratory (UL) listed. These products have been designed to meet U.S. and Canadian national electrical and energy codes and most local building codes. Local electrical codes vary. Consult a qualified electrician or electrical engineer for proper installation of all electrical equipment.

How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

If your usage is not known in advance:
The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in.

If your usage is known in advance:
Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.

▶See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

Approximate power consumption for common devices

• Device	• Wattage	• Amperage	• Voltage	• Number of Devices Supported on Single 20 Amp Circuit
Laptop (Low)	30	0.25	120	64
Laptop (High)	100	0.83	120	19
CPU/Desktop Computer (Low)	65	0.54	120	30

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

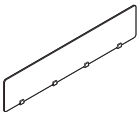
Regard Privacy Screens

Tip: Must specify the privacy screen attachment option for each back, as well as the privacy screen style number. Screens can only be attached when the option is selected on each back.

Standard Includes	Required to Specify
▶ Need help? Product details, page 218	1 Style number
• Glass screen: 6530 Frosted Glass	2 Paint color number for brackets
• Two brackets, 33"W – 55"W: paint	▶ See *Surface Materials,* page 259.
• Four brackets, 60½"W – 88"W: paint	



Tip: Screen width must match width of back width.

Tip: When using custom screen materials, screen widths must be ordered 2" less than widths shown at right. All edges must be rounded and beveled.

Screens with Brackets

Specification Information			
• Dimensions W	H	• Style Number	• U.S. Price
33"	14"	**HS4S33G**	$ 694
38½"	14"	**HS4S39G**	$ 759
44"	14"	**HS4S44G**	$ 825
49½"	14"	**HS4S50G**	$ 920
55"	14"	**HS4S55G**	$ 985
60½"	14"	**HS4S61G**	$1053
66"	14"	**HS4S66G**	$1116
71½"	14"	**HS4S72G**	$1181
77"	14"	**HS4S77G**	$1247
82½"	14"	**HS4S83G**	$1312
88"	14"	**HS4S88G**	$1377

Tip: Screen brackets and stanchions can be specified separately to allow users to supply own screens.

Tip: When specifying custom screen materials, screen lengths 33"–55" require two brackets and stanchions and screen lengths 60½"–88" require four brackets and stanchions.

Tip: When using custom screen materials, the installer must attach glass tabs to the screen. Glass connection tabs come with screen brackets and stanchions.

Screen Brackets and Stanchions

Two brackets and stanchions	**HS4SA2**	$ 205
Four brackets and stanchions	**HS4SA4**	$ 381

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶ See page 1 for details.

Regard Tables

	Standard Includes	Required to Specify
▶ Need help? Product details, page 220	• Table top: High-Pressure Laminate, or solid surface • Metal support leg and base: paint • Edges on laminate table, if selected; 3 mm plastic	1 Style number 2 Laminate color number for top, if selected 3 Solid surface color number for top, if selected 4 Plastic color number for laminate table edge, if selected 5 Paint color for leg and base 6 Options, if selected (see below) ▶ See *Surface Materials,* page 259.

Tip: Open Line laminate requires a selection of standard edge band finish.

Tip: Table top is ¾" thick for laminate and 1¼" thick for solid surfaces.

	Options	U.S. Price	Required to Specify
Surface Materials	**Laminate**		
	• Steelcase Health laminate	No cost	▶ See *Surface Materials,* page 259.
	• Steelcase laminate	No cost	▶ See *Surface Materials,* page 259.
	• Open Line laminate	+$138 plus the cost of laminate	▶ See *Surface Materials,* page 259.
	Paint		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2 for 22"H square tables	+$ 42	Specify paint color number.
	• Paint price group 2 for 26"H square and personal tables	+$ 76	Specify paint color number.
	• Paint price group 3 for square and personal tables	+$150	Specify paint color number. ▶ See *Surface Materials,* page 556.

Laminate

Laminate

2570 Sugarloaf Maple
2572 Samba Cherry
2574 Dark Rum Cherry
2575 Shiraz Cherry

Steelcase Health Laminates that are not called out as standard on Steelcase products will be processed as an Open Line laminate and Open Line laminate charges will apply.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on Regard, specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified using the plastic edge band offering.

Modular Casegoods Directional Laminate

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

8	59DH
9	59DJ
10	59DK

Then enter the fabric information in the Special Fabric Information pop up window. Enter the appropriate deal code from the list below, based on the fabric supplier.

Supplier	Deal Code
Architex	ARCHTX0001
ArcCom	ARCCOM0001
CF Stinson	CFSTIN0001
Designtex	DSGNTX0001
Momentum	MOMENT0001
Ultrafabrics	ULTRAF0001

Fabric application direction must be specified.
▶See page 268 for *Fabric Application Direction Guidelines* to ensure fabric is specified in the correct direction.

For a comprehensive list of patterns and price grades in Steelcase Health offering, visit *www.steelcase.com/surface-materials* under the Healthcase Select Surfaces section.

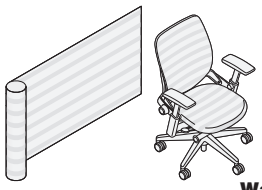
Fabric Application Direction Guidelines

What is the issue?

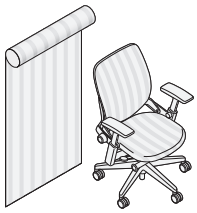
Some textiles are simple and look the same regardless of how you apply them to a product. Other fabrics are patterned, textured, or have luster that will have a distinctly different appearance applied in a different direction on a chair. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase Health products, it is important to understand fabric application direction when ordering a product to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll.

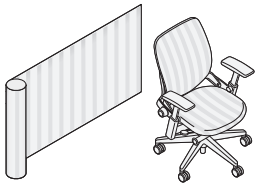


Warp Horizontal
(Railroaded)



Warp Vertical
(Woven Way)

It is NOT determined by the way the pattern looks on the product. For example, the image below shows the fabric applied warped horizontal although the stripes appear vertical.



Terminology

Steelcase uses the terms warped horizontal and warped vertical. There are other terms within the industry that are used that have the same meaning:

- Warped horizontal is also referred to as: railroaded or across roll
- Warped vertical is also referred to as: woven way, down roll, or top out

Why is it important?

Dealers must specify fabric application direction when ordering COMs and Steelcase Health Select Surfaces fabrics. We require the dealer to specify the direction because we do not know which way customers want to see a pattern on the furniture. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase Health builds and ships each order to the customer's expectation each and every time.

How do I know which way the fabric comes off the roll?

Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Vinyl

Vinyl generally only passes on Steelcase Health product in a horizontal or across roll direction. This is due to physical properties of the material. If a vinyl is applied in the opposite direction, too much stretch in the material can compromise the overall aesthetics of the final upholstery. If a patterned vinyl is being specified and the vinyl must be run in a vertical direction, pre-approval must be arranged through Steelcase Health . Steelcase Health will consider the request and a decision will be made based on the specific vinyl and product combination. Contact Steelcase Health's Customer Care line.

Required Action Steps before Specifying

1. Verify by using Steelcase's COM website that the fabric is approved on the product.
2. Verify the direction that the fabric can be applied. Occasionally a fabric is only approved in one direction.
3. Confirm with the customer how they want the fabric to look on the furniture.
4. Confirm using the swatch card or vendor's website the direction the sample is shown.
5. Now you're ready to place the order.

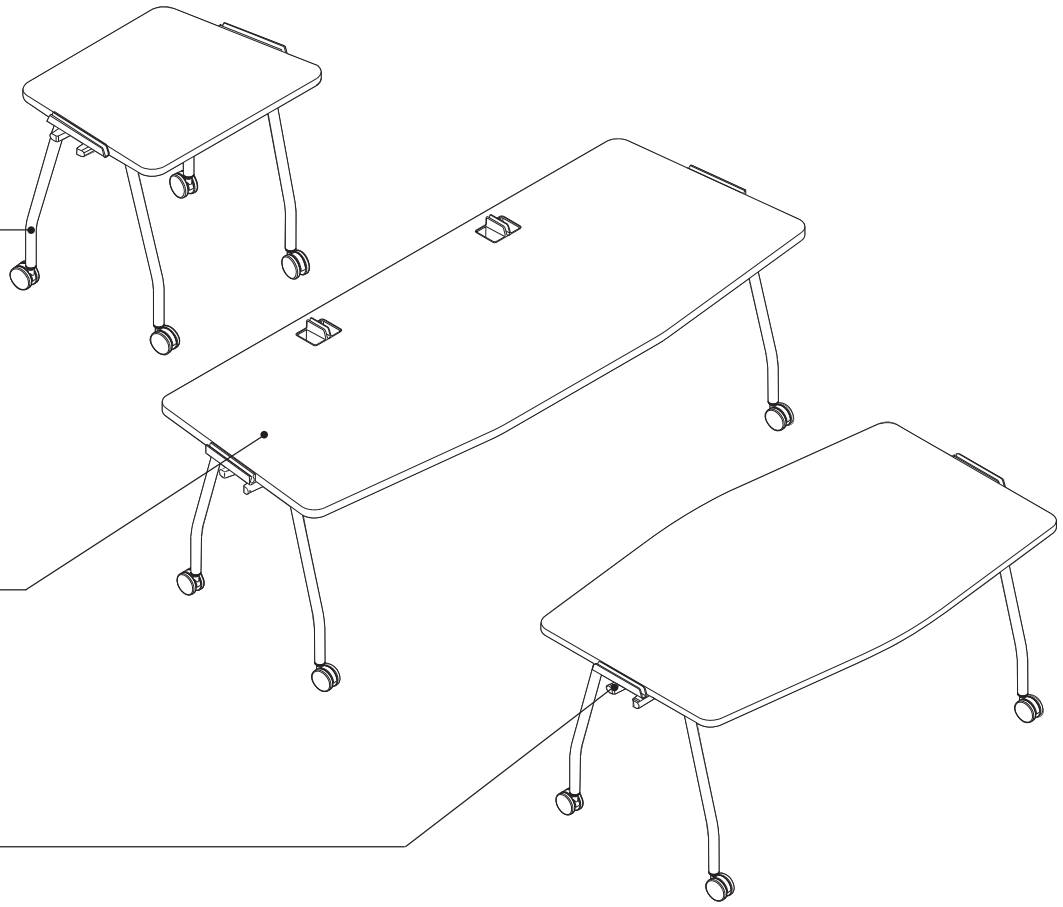
Verb

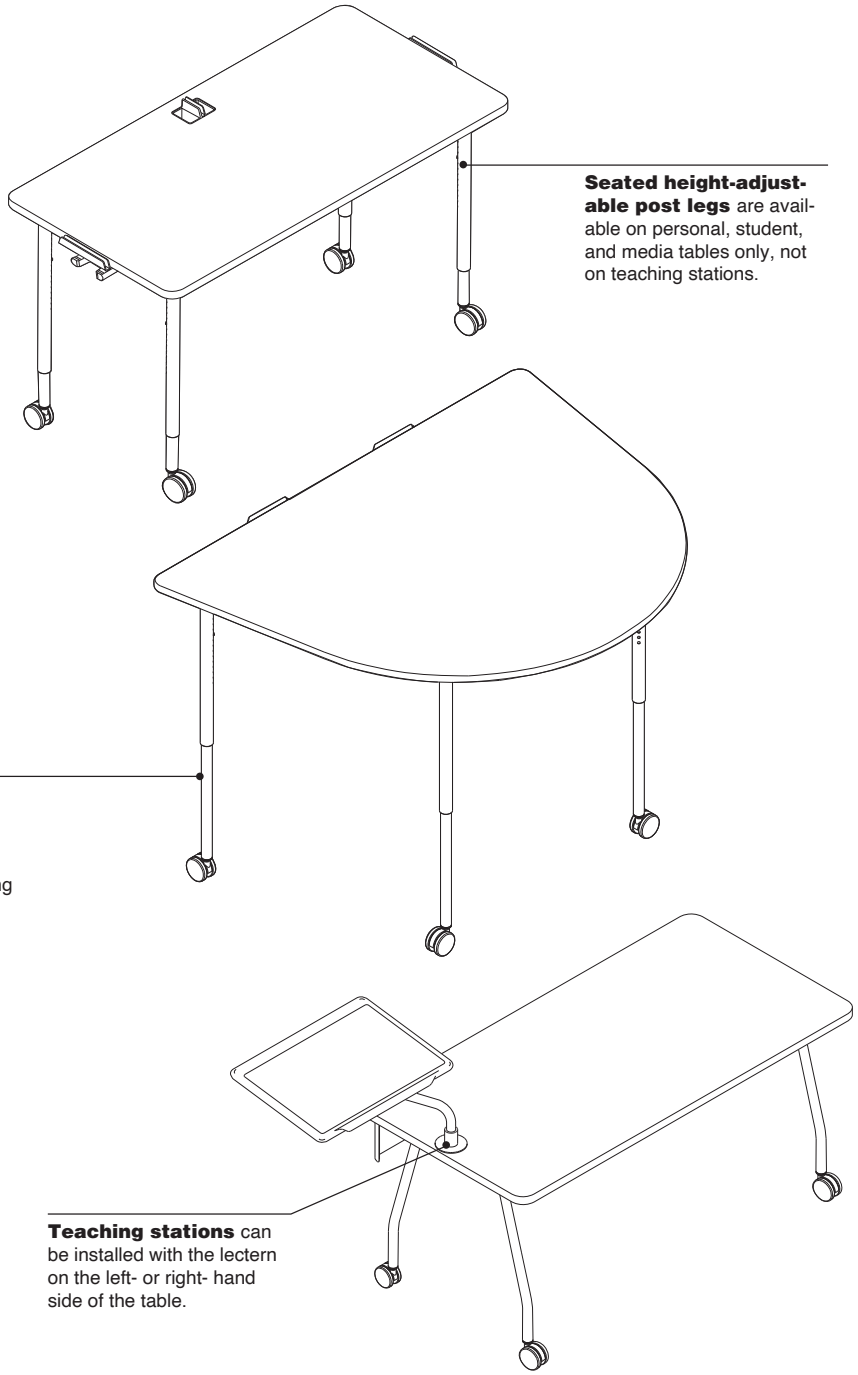
Verb is an integrated collection of classroom furniture designed to support a full range of teaching and learning styles on demand.



Tables come standard with access legs. Other options are available.

Verb worksurfaces are $1^{1}/_{8}$" thick wood-core with High-Pressure Laminate top and plastic edge band.

Plastic components are optional and used to provide storage and display for Verb whiteboards.



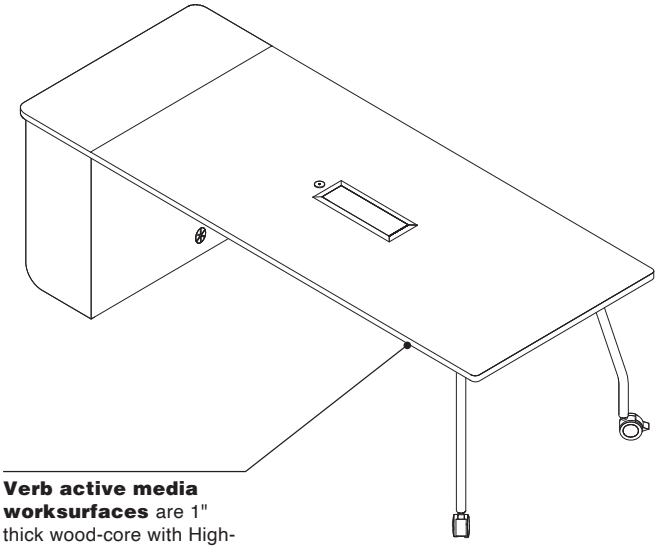
Seated height-adjustable post legs are available on personal, student, and media tables only, not on teaching stations.

Standing height-adjustable post legs are available on student and media tables, not on personal tables or teaching stations.

Teaching stations can be installed with the lectern on the left- or right- hand side of the table.

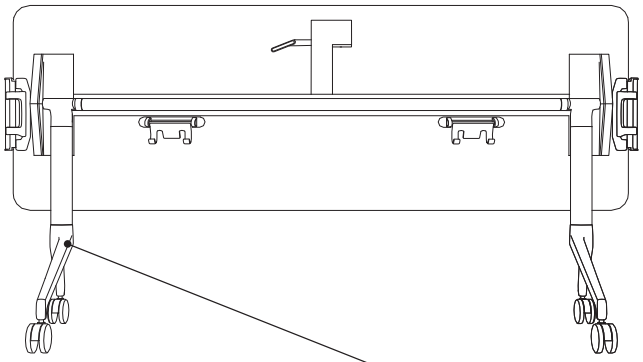
Verb, continued

Active media tables



Verb active media worksurfaces are 1" thick wood-core with High-Pressure Laminate tops and plastic edge bands.

Flip-top tables



Flip-top legs are available on student tables and not on personal tables, media tables, or teaching stations.

Table Shapes

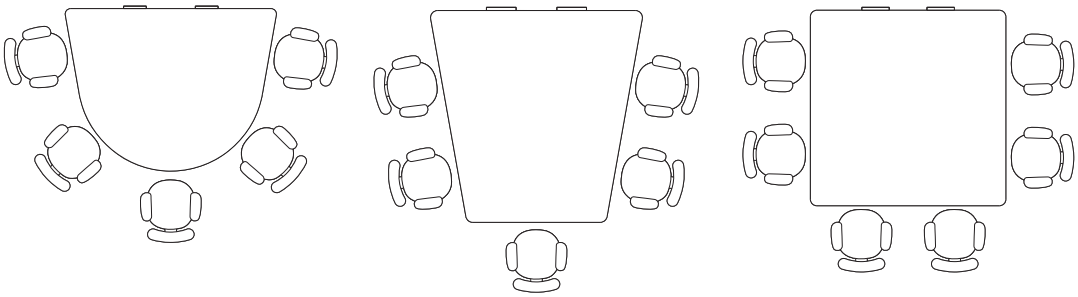
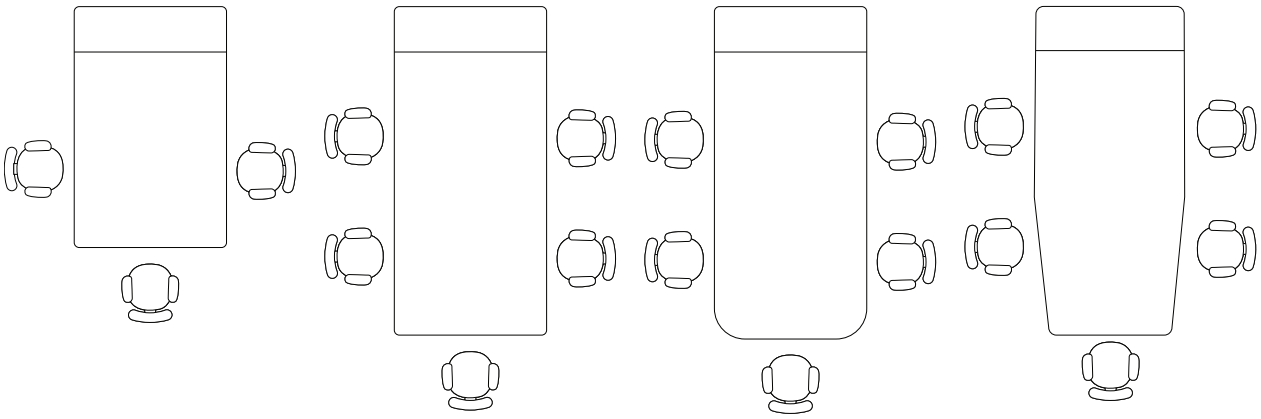
Media Tables



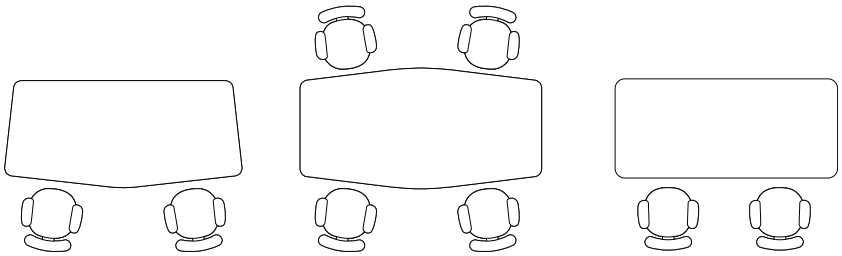
Rounded Trapezoid Square

Active Media Tables



Rectangle 61" Rectangle 87" Rounded Tapered

Flip-Top Tables



Chevron Team Rectangle

Personal Tables

The Verb ecosystem is designed to quickly and easily reconfigure while providing equal access to collaborative tools.

Verb personal tables are designed for active learning environments where flexibility and student engagement are key. Personal tables provide students a highly mobile, easy to reconfigure personal workspace that supports the active learning environment.

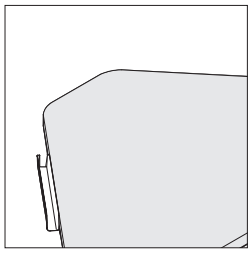
Product Details

Personal tables come in keystone, rectangle, and triangle shapes to support active learning in a small footprint.

The keystone shape table provides the optimal reconfiguration capabilityin a small footprint, and can achieve the same arc created in lecture applications as the chevron table. Keystone tables are available with access legs, and seated height-adjustable post legs with glides.

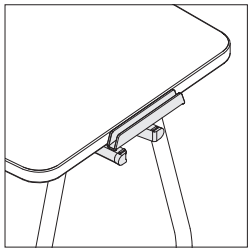
The rectangle shape table supports more traditional configurations in small footprints. Rectangle tables are available with access legs, and seated height-adjustable post legs with glides.

The triangle shape table supports small footprints and is standard with three access legs with glides.



Triangle tables have a rounded rear corner to support lecture and discussion applications and provide access to Thread hubs.

Worksurfaces are wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have a 2" radius.



Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.
Tip: Side docks are not available on 19"D personal tables with casters.
Tip: Only one side dock set is available on triangle tables.
▶See *Dock Storage Availability,* page 296.

Two leg designs are available on personal tables, the access leg and the seated height-adjustable post leg.

Personal tables come standard with the access leg with non-locking casters. Access legs are also available as an option with four locking casters, four glides, or two non-locking casters and two glides.

Seated height-adjustable post legs are available with four glides on personal tables.
▶See *Table Top and Leg Choices*, page 294.

Table height on access legs is 28½". On seated height-adjustable post legs, the midpoint is 28½" and the legs adjust 4½" up and 4½" down for a total range of 24"–33".
Tip: Tables with seated height-adjustable post legs set below standard table height will not allow the personal whiteboards to be hung on the plastic side hooks as they will not have sufficient clearance. The boards may still be used with the side docks since table height does not affect board display.

Glides are available and are used for leveling for installation on uneven floors. The glide is 1½" long and provides 1" of leveling.

Student Tables

Verb student tables are designed for active learning environments where flexibility and student engagement are key.

Product Details

Student tables have chevron shape tables, team shape tables, trapezoid shape tables, and rectangle shape tables.

The chevron shape tables provide a sense of personal space division as well as creating a subtle arc when in lecture mode to allow line of sight to everyone in the row.

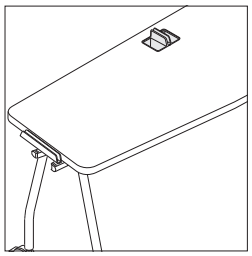
The team shape tables are designed specifically for small group work and project teams, offering the same angled shape as the chevron tables but on both sides of the table.

On 84"W chevron and team tables, there is a slight modification to the shape to allow three people to sit at the table instead of two. Rather than having two facets on the angled side of the table, 84" tables have three facets.

The trapezoid shape table is designed specifically for small group work and project teams. Each table can accommodate three people.

The rectangle shape tables can be used for more traditional applications as well as when smaller table sizes are necessary because the rectangle tables are available in 39" and 48" widths as well as the larger sizes.

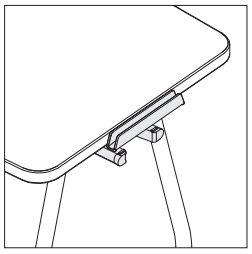
Worksurfaces are wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have a 2" radius.



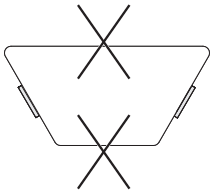
Center docks are optional and used to provide a storage area for markers, erasers, and other items students may bring as well as providing a dock for supporting test mode.

84"W tables are designed to have three students and will have two center docks (if center docks are specified).

Center docks are not available on tables smaller than 60" because they are designed primarily for test mode and tables smaller than 60" do not accommodate two students.
Tip: Center docks are not available on team and trapezoid tables.



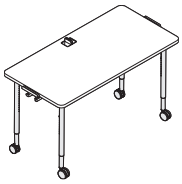
Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.



Side docks may only be placed on the angled sides of the trapezoid table.
▶See *Dock Storage Availability*, page 296.

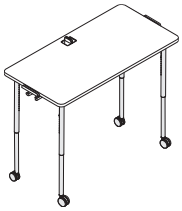
Three leg designs are available on student tables: the access leg, the seated height-adjustable post leg, and the standing height-adjustable post leg.

Access legs with non-locking casters are standard on student tables. Access legs are also available as an option with four locking casters, four glides, or two non-locking casters and two glides.



Seated height-adjustable post legs are available with four non-locking casters, four locking casters, four glides, or two non-locking casters and two glides.

Tables that are either 19"D or up to 39"W are available with glides only when using the seated height-adjustable post legs due to stability test requirements.



Standing height-adjustable post legs are available with four non-locking casters, four locking casters, four glides, or two non-locking casters and two glides.
Tip: Standing height-adjustable trapezoid tables are only available with glides.

Table height on access legs is 28½".

On seated height-adjustable post legs, the midpoint is 28½" and the legs adjust 4½" up and 4½" down every ¾" for a total range of 24"–33".
Tip: Tables with seated height-adjustable post legs set below standard table height will not allow the personal whiteboards to be hung on the plastic side hooks as they will not have sufficient clearance. The boards may still be used with the side docks since table height does not affect board display.
▶See *Table Top and Leg Choices*, page 294.

On standing height-adjustable post legs, legs adjust every ¾" for a total range of 28½"–42".

Modesty panels are available for chevron and rectangle tables and are made of painted steel. Modesty panels are not available on 19"D x 39"W or 24"D x 39"W rectangle tables.
Tip: When ordering tables with a modesty panel, it is not necessary to order optional reinforcing channel as the modesty panel acts as a reinforcing channel.

Tip: On tables 24"D with standing height-adjustable post legs and modesty panels, chevron and rectangle tables are only available with glides.

Tip: On tables with standing height-adjustable post legs and casters, chevron tables 30"D x 60"–84"W must be used with a modesty panel.

Tip: On tables with standing height-adjustable post legs and casters, rectangle tables 30"D x 48"–84"W cannot be used with a modesty panel.

Reinforcing channel is not required on tables smaller than 60"W. On tables 60"–72"W a reinforcing channel is strongly recommended for medium to heavy duty applications to minimize deflection over time. 84"W tables come standard with a reinforcing channel.

Glides are available and are used for leveling for installation on uneven floors. The glide is 1½" long and provides 1" of leveling.

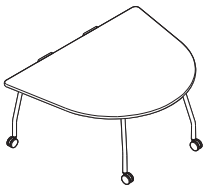
Media Tables

Verb media tables are designed for active learning environments where flexibility, student engagement, and technology collaboration is important.

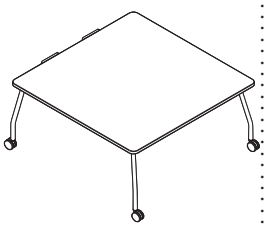
Media tables are offered in three shapes to encourage collaboration through technology display and facilitate a seamless flow of information sharing during the learning process. The tables optimize the use of media:scape mini and media:scape mobile, while also offering the ability to incorporate personal whiteboards for analog content creation.

Product Details

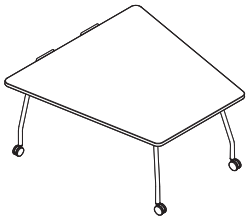
Media tables come in three shapes; rounded, square, and trapezoid.



The rounded shape table provides seamless small group, face-to-face, and technology collaboration. The rounded table can accommodate up to five people.

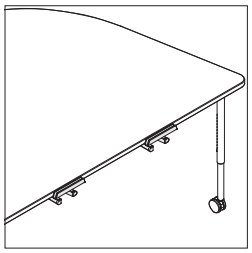


The square shape table provides small group, face-to-face and technology collaboration in a smaller footprint. The square table can accommodate up to six people.



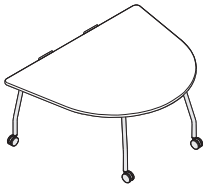
The trapezoid shape table provides an optimal view of technology screens and more surface for class materials. The trapezoid tables can accommodate up to five or six people.

Worksurfaces are 1⅛" thick wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have 2" radius.

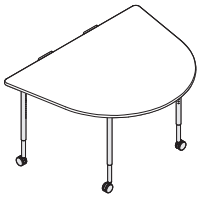


Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.
▶See *Dock Storage Availability,* page 296.

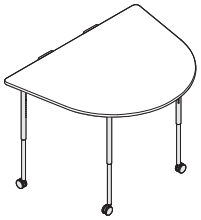
Three leg designs are available on media tables, the access leg, the seated height-adjustable post leg, and the standing height-adjustable post leg.



Access legs with non-locking casters are standard on media tables. Access legs are also available as an option with four locking casters, four glides, or two non-locking casters and two glides.



Seated height-adjustable post legs are available with four non-locking casters, four locking casters, four glides, or two non-locking casters and two glides.



Standing height-adjustable post legs are available with four non-locking casters, four locking casters, four glides, or two non-locking casters and two glides.
▶See *Table Top and Leg Choices*, page 294.

Table height on access legs is 28½".

On seated height-adjustable post legs, the midpoint is 28½" and the legs adjust 4½" up and 4½" down every ¾" for a range of 24"–33".
Tip: Tables with height-adjustable legs set below standard table height will not allow the personal whiteboards to be hung on the plastic side hooks as they will not have sufficient clearance. The boards may still be used with the side docks since table height does not affect board display.

On standing height-adjustable post legs, legs adjust every ¾" for a total range of 28½"–42".

Reinforcing channels are standard on all media tables.

Glides are available and are used for leveling for installation on uneven floors. The glide is 1½" long and provides 1" of leveling.

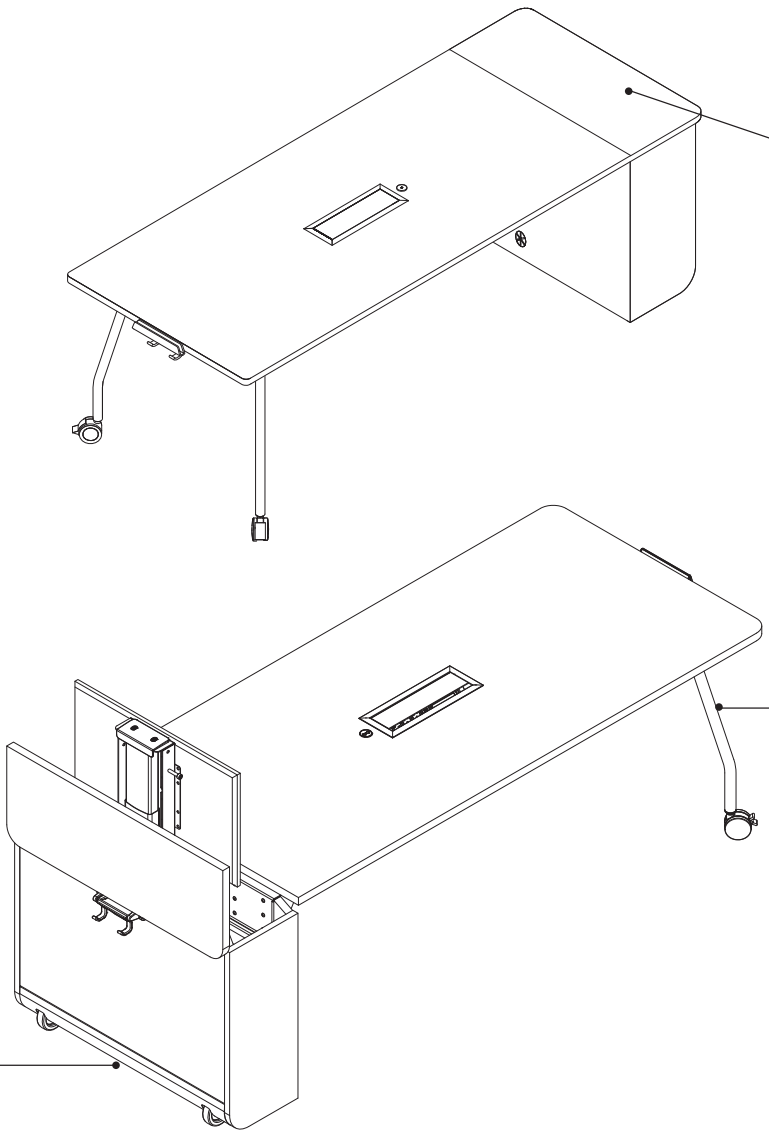
Active Media Tables

Verb active media tables provide versatile, intuitive, and unobstructed technology support for the classroom. The mobile table can support a range of existing technology and provide a flexible, cost-effective solution for institutions. Digital and analog white board storage and display integration encourages continuous collaboration and idea-sharing among students and educators.



Worksurfaces are 1" thick wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have 2" radius.

The media case top can be selected with a contrasting finish. The media case surface and table worksurface will always match.

Active media tables come in three table shapes: rectangle, rounded, and tapered.

Optional side docks allow for display of whiteboards on the table while stow hook allows for the storage of whiteboards on the table. Stow hooks allow storage for up to two whiteboards per hook.

Access legs with locking casters are standard on active media tables.

Brackets, legs, and shroud share the same finish.

Verb active media tables are designed for active learning environments where flexibility, student engagement, and technology collaboration is important.

Active media tables are offered in three shapes to encourage collaboration through technology display and facilitate a seamless flow of information sharing during the learning process. The tables offer the ability to incorporate personal white-boards for analog content creation.

Product Details

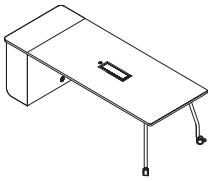
Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.

Side dock and hooks are not available on the rounded active media table.



Access legs with non-locking casters are standard on active media tables. Access legs are also available as an option with glides.

Table height on access legs is 28½".

Glides are available and are used for leveling for installation on uneven floors. The glide is 1½" long and provides 1" of leveling.

Media Case

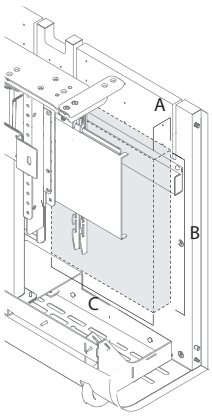
Lift mechanisms support monitors up to 43 pounds with a near silent operation and no exposed tracks or gears. Lift control box comes standard with a contact closure interface.

Lift mechanism for 32" deep tables:
- Supports monitor size: 29.32"W x 21.20"H x 3.5"D
- Travels 23"

Lift mechanism for 43" deep tables:
- Supports monitor size: 38.32"W x 22.22"H x 3.65"D
- Travels 26½"

Universal mounting patterns accommodates standard VESA mounts:
- 75 mm x 75 mm
- 100 mm x 100 mm
- 200 mm x 100 mm
- 200 mm x 200 mm

The active media case is designed with a lid that has a 2" overhang over the worksurface.

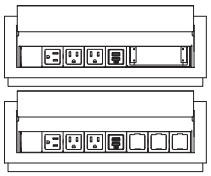


Available space for technology within the media case:
34" case:
A: 2¾" (75 mm)
B: 15 ¾" (400 mm)
C: 8" (210 mm)

43" case:
A: 3¾" (96 mm)
B: 13¾" (350 mm)
C: 12" (310 mm)

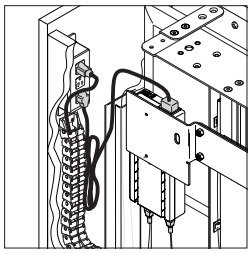
Technology

The active media table is a technology agnostic solution, allowing one to bring their own technology application to the table. Customers are responsible for bringing and integrating technology and audio visual components.
Tip: Consult an AV or IT professional early on in the design process for potential technology applications.



User power trough provides access to power and technology connections for everyone at the table. (3 outlet, 1 dual USB and 3 knockouts) or (3 Outlet, 1 dual USB and extron adapter plate cover).
Tip: AV cords or extron AAP super plates will not be included, customers will need to specify own AV configuration.

Technology components can be securely mounted to the media case and powered by the power recpetacles within the media case.



Wire managers allow ease of cable routing and managing.

Active media table is for commercial and institutional use only. Children and people with cognitive disabilities should be supervised.

Surface Materials

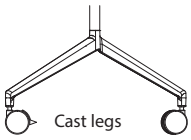
- 6337 Element

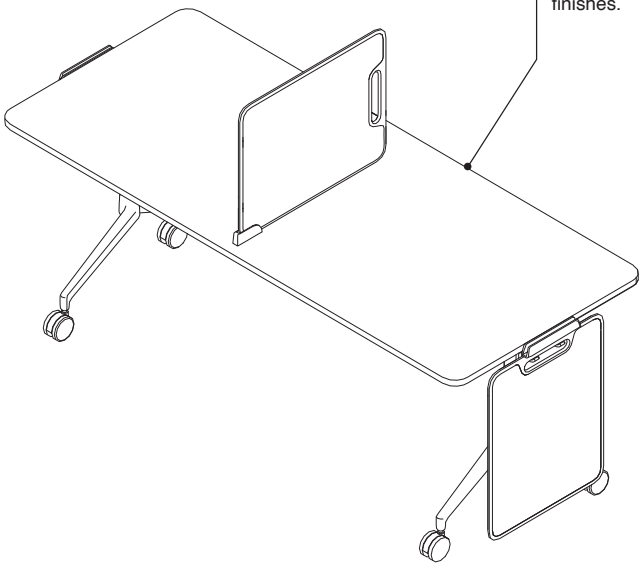
Flip-Top Tables

Verb flip-top tables are a folding and nesting table for active spaces. With easy to use one-handed folding lever and mechanism, one person can set it up, take down, move, and compactly store a roomful of tables with minimal effort. The table series is available in three shapes and with casters.

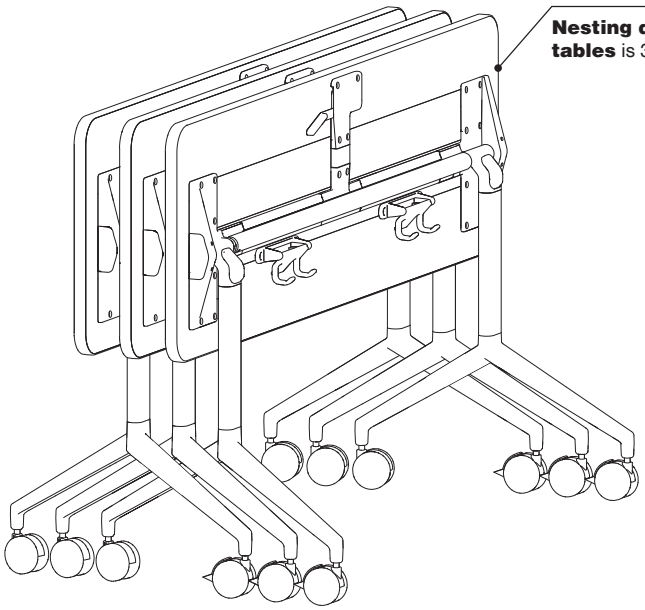


Legs are extruded and die-cast aluminum available in a cast base.

Cast leg:
- 19"D, 24"D, and 30"D tables
- Chevron, team, and rectangle tables



Top is 1" thick particle board core with laminate surface and three backer finishes.

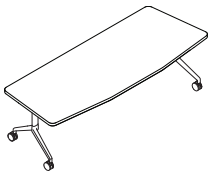


Nesting depth between tables is 3¾".

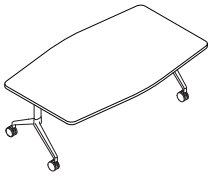
Verb flip-top tables are designed for active learning environments where flexibility and student engagement are key.

Product Details

Flip-top tables have chevron shape tables, team shape tables, and rectangle shape tables.

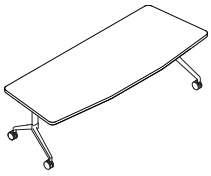


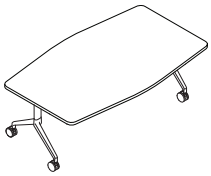
The chevron shape tables provide a sense of personal space division as well as creating a subtle arc when in lecture mode to allow line of sight to everyone in the row.



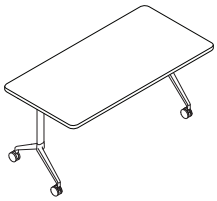
The team shape tables are designed specifically for small group work and project teams, offering the same angled shape as the chevron tables but on both sides of the table.

Casters are 3" diameter, dual wheels that allow the tables to move easily on carpet or hard floors. Flip-top tables are standard with two locking casters (user/flip-handle side) and two non-locking casters. Glides are not available on the flip-top table.



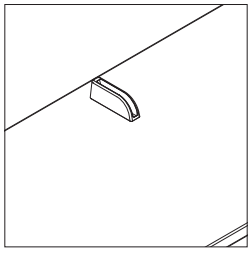


On 84"W chevron and team tables, there is a slight modification to the shape to allow three people to sit at the table instead of two. Rather than having two facets on the angled side of the table, 84" tables have three facets.



The rectangle shape tables can be used for more traditional applications as well as when smaller table sizes are necessary because the rectangle tables are available in 39" and 48" widths as well as the larger sizes.

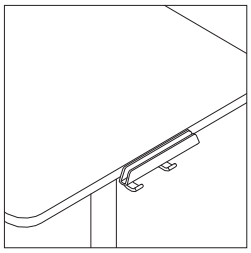
Worksurfaces are wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have a 2" radius.



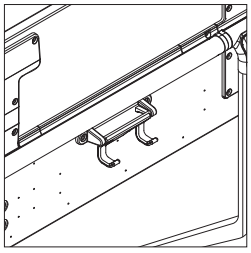
Center docks without storage are optional and provide a dock to support test mode.

84"W tables are designed to have three students and will have two center docks (if center docks are specified).

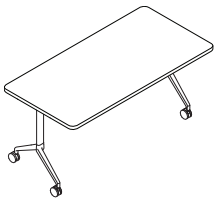
Center docks are not available on tables smaller than 60" because they are designed primarily for test mode and tables smaller than 60" do not accommodate two students.
Tip: Center docks are not available on team tables.



Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.



Stow hook allows for easy whiteboard storage when the table is in flipped mode.

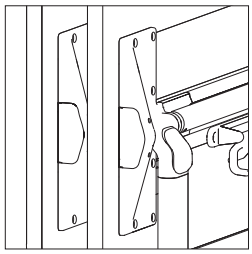


Two non-locking and two locking casters are standard on flip-top tables. Legs are also available with four locking casters.

Table height on legs is 28½".

Reinforcing channel is not required on tables smaller than 60"W. On tables 66"W to 84"W, reinforcing channel comes standard to minimize deflection. The reinforcing channel will match the understructure finish selection (light or dark).

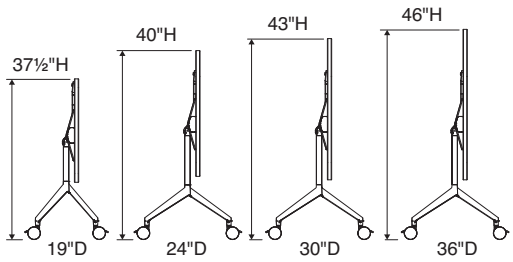
Flip-top modesty panels are constructed of a lightweight fiberglass substrate wrapped with Buzz2 fabric. Panel attaches to the underside of the table with a plastic extrusion that allows the panel to rotate from both the in-use and nested position with ease. Modesty panel stays with the table when flipped and in nesting position, or in-use position. Modesty panels are available for 39", 48", 60", 66", 72", and 84" flip-top rectangle and chevron tops.



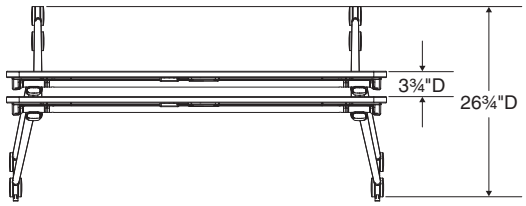
Leg bumper will always be the main point of contact between two nesting tables, even with the stow hooks and whiteboards.

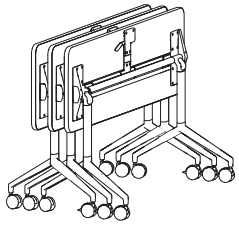
Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters for damage, and inspecting all moving parts for damage and wear.

Release handle is black and only used to unlock the table from the in-use position. Flip-top tables in the in-use position have a natural flex in them and are not completely static.



Rectangle table dimensions shown above





Flip-top tables can be nested for space saving storage. Each nested flip-top table adds approximately 3¾" to the nesting depth.

Surface Materials

Top
- High-Pressure Laminate
- Open Line laminate (option)

3 mm radius profile edge
- Plastic

Access legs, seated height-adjustable post legs, and standing height-adjustable post legs
- Paint

Dock and hooks on student tables

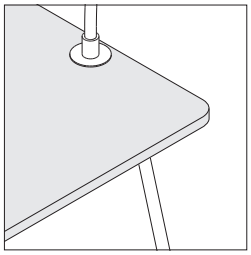
The underside of the table can be specified in one of these color options:
- Light
- Dark

Teaching Stations

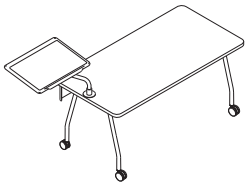
The Verb teaching station is designed to provide support for a range of postures and work modes, including instruction, collaboration, and concentrated work.

Product Details

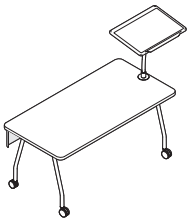


Verb teaching station worksurfaces are wood-core with High-Pressure Laminate top and plastic 3 mm edge band.

Teaching stations are 30"D and come in 50", 60", and 72" widths.



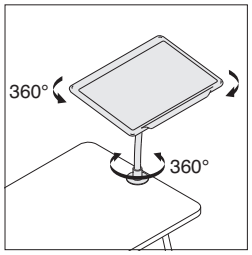
The lectern can be installed on the right or left side of table.



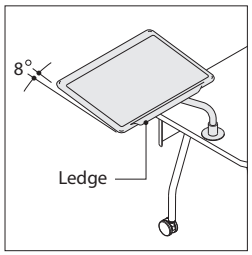
Modesty panels are optional on teaching stations.

Access legs with non-locking casters come standard on teaching stations. Access legs are also available as an option with four locking casters, four glides, or two non-locking casters and two glides. *Tip: Seated and standing height-adjustable post legs are not available on teaching stations.*

▶See *Table Top and Leg Choices*, page 294.



The lectern top and lectern arm swivel 360° allowing for maximum position flexibility and enhanced sightlines.



The lectern has an ergonomic 8° slant and a ledge at the bottom.

The lectern top is a High-Pressure Laminate with a urethane edge.

The lectern has an optional cup holder.

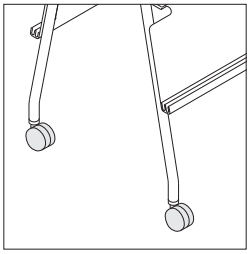
Easel and Wall Track

Verb easel facilitates effective display, storage, and presentation of Verb whiteboards.

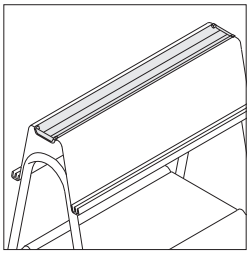
Verb wall track offers additional display options for the Verb whiteboards and can add functionality to otherwise blank walls.

Product Details

Two-sided easel comes standard with two shelves on each side and is 36"W.



Each easel comes standard with casters for ease of mobility.



The easel top shelf can be used to store markers and erasers and is available only in 6249 Platinum Solid finish.

Wall track comes in 6' and 8' lengths and is made from extruded anodized aluminum. It may be easily cut to length in the field.

Each wall track comes standard with hooks for use with the whiteboards.

Maintenance

- Wipe board with a clean cloth moistened by a liquid markerboard cleaner or a solution of 50% water and 50% isopropyl alcohol.
- Rinse with clear water.
- Wipe dry with a clean cloth If your board is used daily, the cleaning should be performed at least 2-3 times a week.

More thorough cleaning may be required if writing is left on the board for more than two days.

Markers

Use any high-quality dry erase marker.

CAUTION! The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions above. Remember to discard eraser if used with Low Odor markers.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *www.steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery.

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate on Verb, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual.*

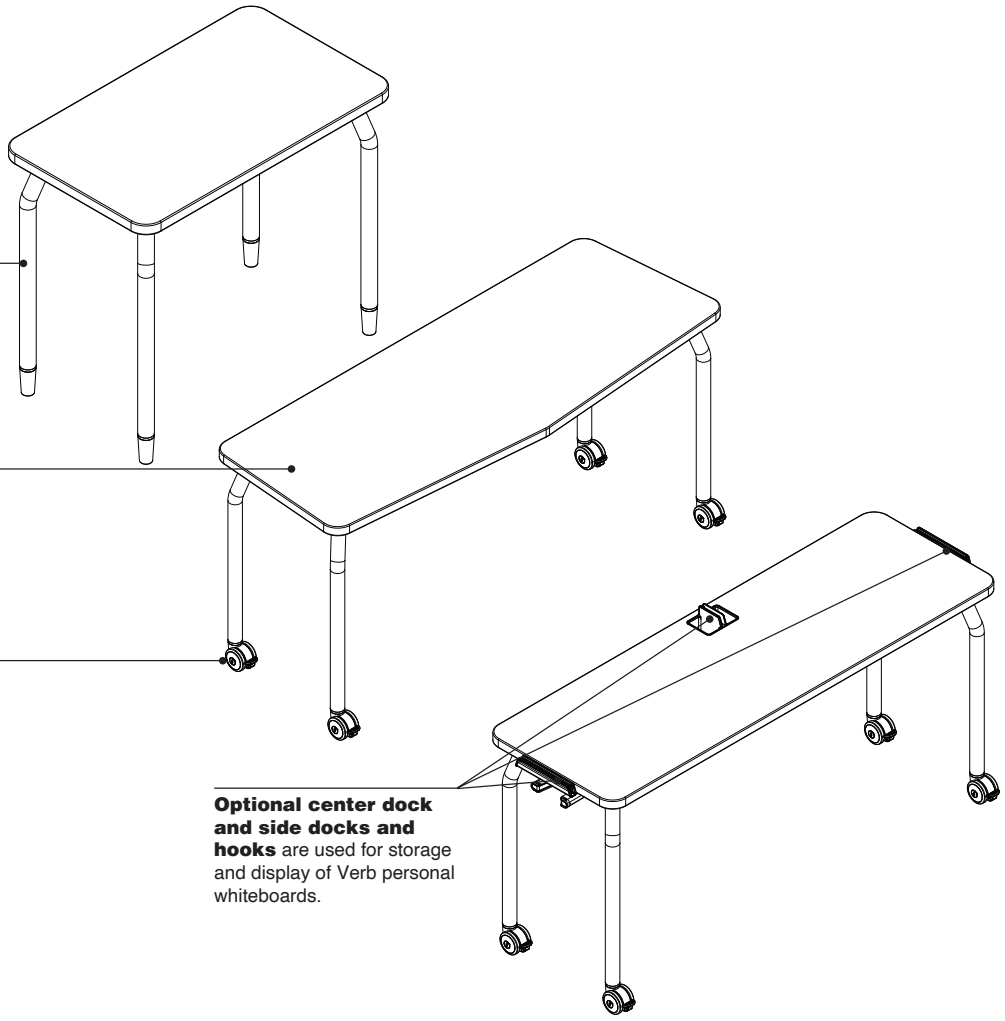
Agree Tables

The Agree Table Collection by Smith System is a curated collection of classroom tables designed to support a variety of learning modes with access to collaborative tools.

Agree leverages Smith System manufacturing but is available exclusively through Steelcase dealers.



Tables are available with seated-height tube legs and come standard with hard nylon glides.

Agree worksurfaces are 1⅛" thick and offered with High-Pressure Laminate and a plastic edge band.

Soft felt glides or soft casters are available as an option with an upcharge.

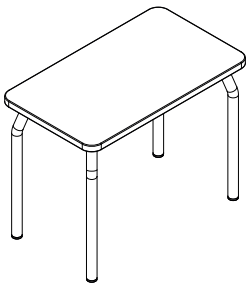
Optional center dock and side docks and hooks are used for storage and display of Verb personal whiteboards.

Personal Tables

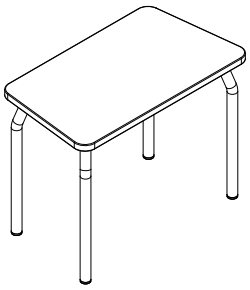
Product Details

Agree personal tables are designed for active learning environments where flexibility and student engagement are essential. Personal tables allow for focused individual work and are easily reconfigured to also support collaborative learning.

Personal tables comes in rectangle and keystone shapes to support active learning in a small footprint.



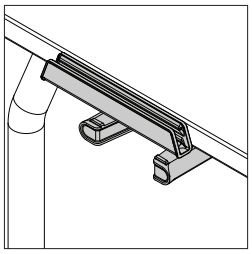
The rectangle shape table supports more traditional configurations in small footprints.



The keystone shape table provides the optimal reconfiguration capability in a small footprint and can achieve the same arc created in lecture applications as the chevron table.

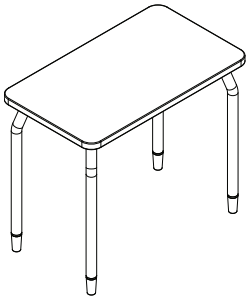
The 24"X40" personal table meets ADA requirements.

Worksurfaces are 1⅛" wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have a 2" radius.



Side docks allow display of whiteboards on the tables. For best result, rock the board into place rather than pressing straight down.

Side hooks allow storage of up to four boards per hook, except on tables with 20" depth, which holds one whiteboard.
Tip: Only one side dock and hook are available on personal tables.



Personal tables come standard with hard nylon glides. Legs are also available with four soft locking casters or soft felt glides. Table height is 28½". When glides are selected, the color will match the selected table leg color. Casters are only available in black.

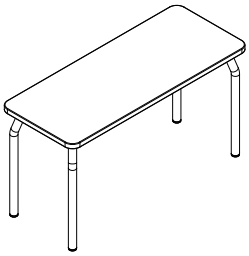
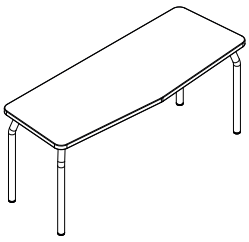
Student Tables

Product Details

Agree student tables are available in rectangle, chevron, and trapezoid shapes.



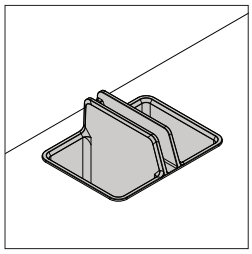
The rectangle shape tables can be used for more traditional applications and are available in 48", 60", and 72" widths.



The chevron shape tables provide a sense of personal space division, as well as creating a subtle arc when in lecture mode to allow line of sight to everyone in the row. Chevron tables are available in 60" width.

The trapezoid shape table is designed specifically for small group work and project teams. Each table can accommodate three people.

Worksurfaces are 1⅛" wood-core with High-Pressure Laminate top and plastic 3 mm edge band. All corners have a 2" radius.



Center docks are optional and used to provide a storage area for markers, erasers, and other items students may bring, as well as providing a whiteboard dock to support test mode.
Tip: Center docks are only available on 60" and 72" wide tables. Center docks are not available on trapezoid tables.

Side docks allow display of whiteboards on the tables. For best results, rock boards into place rather than pressing straight down. Side hooks allow storage for up to four boards per hook. Side docks and hooks are only offered in sets of two (used on both sides of the table) on student and trapezoid tables.

Student tables come standard with hard nylon glides. Legs are also available with four soft locking casters or soft felt glides. Table height is 28½". When glides are selected, the color will match the selected table leg color. Casters are only available in black.

Reinforcing channels are used on 60" and 72" wide tables to minimize deflection over time. Reinforcing channels are not used on trapezoid tables.

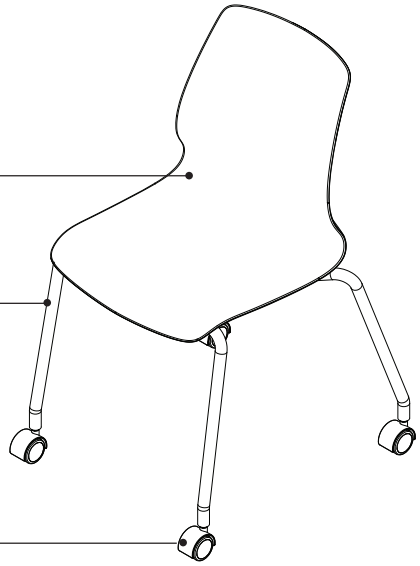
Agree Chair and Stool

The Agree Chair Collection by Smith System is designed for flexible and active learning environments in grades 6-12, higher education, or corporate learning spaces.

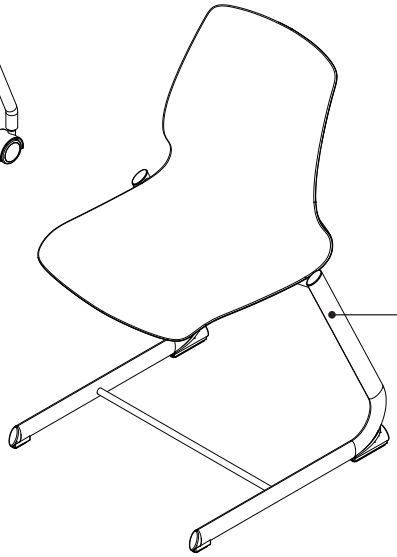
Agree leverages Smith System manufacturing but is available exclusively through Steelcase dealers.

The seat shell flexes with the user, allowing for movement and comfortable support.

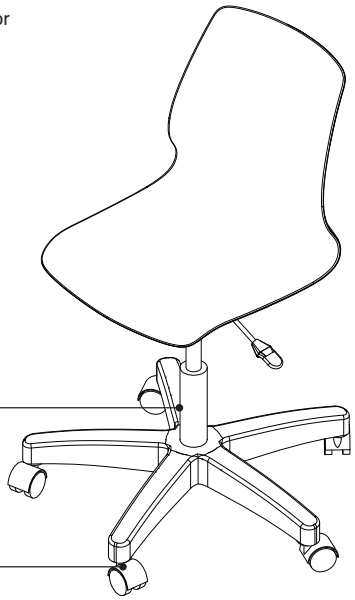
The Agree chair and stool are supported by steel frames.



Agree four-leg chairs can be stacked four high and are available with hard casters, hard nylon glides, or soft felt glides.



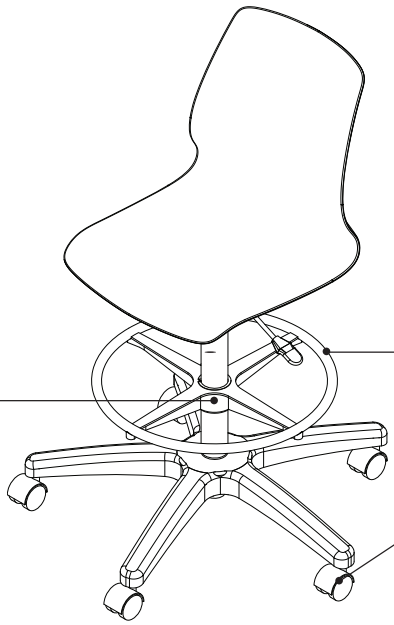
The cantilever base makes the chair more difficult to tip backwards. Nylon glides for carpeted floors are standard. Felt glides for hard flooring are also available on the cantilever base.



The adjustable chair offers five inches of height adjustability.

The adjustable chair is available with hard casters or hard nylon glides.

The adjustable stool offers ten inches of height adjustability.



The stool features an adjustable-height foot ring to support the user's feet.

The adjustable stool is available with hard casters or hard nylon glides.

Product Details

Agree is tested to 275 pounds maximum weight capacity.

Agree four-leg and cantilever chairs ship fully assembled. The adjustable height chair and stool require assembly in the field, although no tools are required.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *www.steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery.

Paint

Steelcase Surfaces

Applies to:
- Agree table legs
- Agree chairs and stool bases

Smooth Paint
4241 Platinum Grey
4710 Low Gloss Black

Laminate

Applies to:
- Agree worksurfaces

Steelcase Surfaces

High-Pressure Laminate

Price Group 1

Solid Laminate
2730 Arctic White

Woodgrain Laminate
2409 Clear Maple
2535 Virginia Walnut
2HAW Ash Wenge
2HCW Clay Wenge
2HSW Storm Wenge

Plastic

Steelcase Surfaces

Applies to:
- Agree edge bands

6009 Arctic White
6237 Clear Maple
6242 Virginia Walnut
6703 Ash Wenge
6704 Storm Wenge
6706 Clay Wenge

Tip: Edge band finish is not user selectable and is applied based on laminate color selected.

Tip: Light color plastic edges are susceptible to degradation due to normal wear and tear. Staining (e.g., ball point pen or clothing dyes such as blue jeans) and dirt effects are more pronounced in light colors and are not considered defects.

Applies to:
- Dock and hooks

6059 Sterling Dark Solid

Applies to:
- Agree chair and stool seat shells

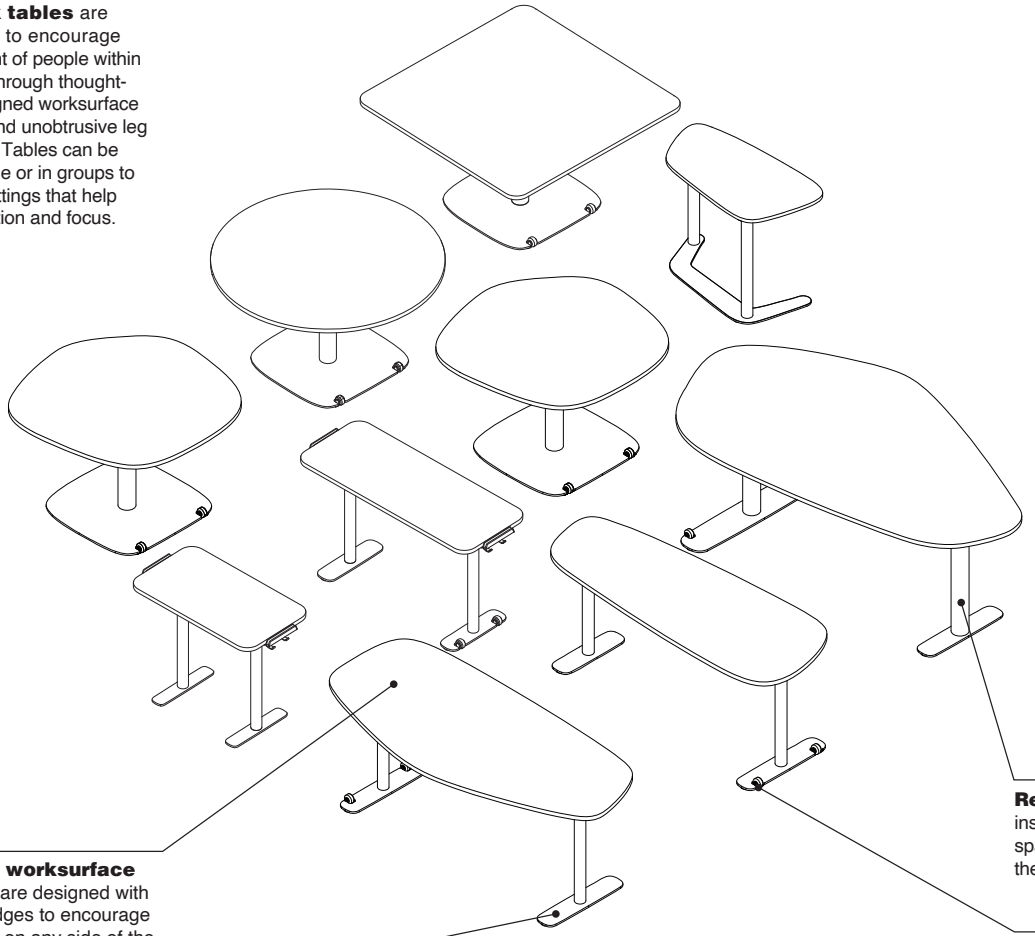
Elbrook

Elbrook tables are designed to encourage movement of people within a space through thoughtfully designed worksurface shapes and unobtrusive leg supports. Tables can be used alone or in groups to create settings that help collaboration and focus.



Recessed table legs are inset to allow maximum knee space while sitting around the table.

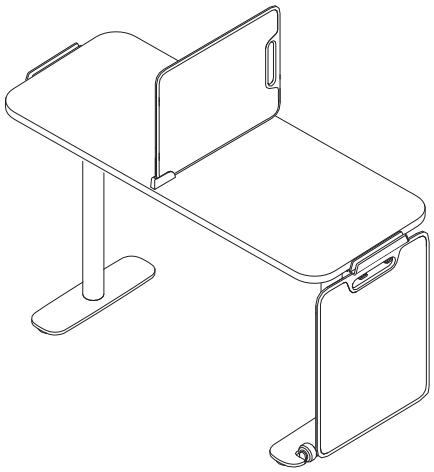
Elbrook worksurface shapes are designed with curved edges to encourage gathering on any side of the table.

Skateboard wheels are highly durable for an ultra smooth movement when reconfiguring.

Low profile bases are unobtrusive as users pull up to work.

Lounge, seated, and standing heights are available for a variety of spaces.

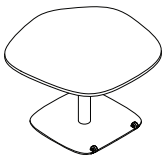
The Elbrook rectangle table supports worktools such as the Verb personal whiteboards, side dock and hooks, center docks, and fabric modesty panels.



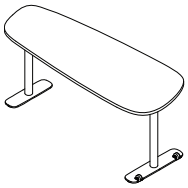
Product Details

The Elbrook table collection is designed to allow people to move freely within a space. With organic worksurface shapes and inset table legs, Elbrook supports user needs while allowing maximum flexibility and freedom of movement.

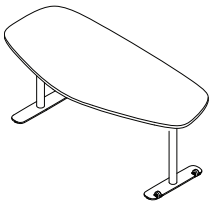
Elbrook personal table has a surface specifically designed to hold digital and analog worktools. The angular base is designed to clear chair legs as the user pulls up to the surface and also nestles under lounge furniture as a side table. Elbrook personal table comes in lounge height 26"H and seated height 28 1/2"H.



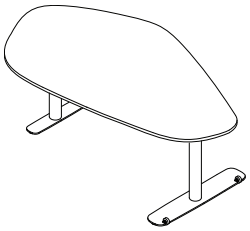
Elbrook huddle table's curved, organic shape works well in small areas allowing a space on any side. The huddle table works cohesively with the other shapes in the collection and is available in three heights; lounge height 26"H, seated height 28 1/2"H, and standing height 38 1/2"H.



Elbrook team table is the ideal size for two users. The surface is large enough to spread out and work in teams or individually, with easy access for others to join in as needed. Elbrook team table is available in lounge height 26"H, seated height 28 1/2"H, and standing height 38 1/2"H.



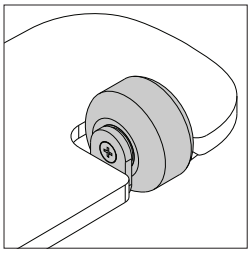
Elbrook group table is a versatile table for active learning. The unique shape holds four to six users comfortably and can be pushed together with other Elbrook tables to make a large discussion group. Elbrook group table comes in seated height 28 1/2"H and standing height 38 1/2"H.



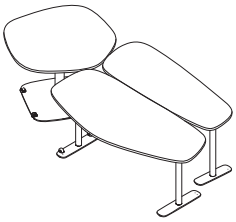
Elbrook collaborative table allows for users to gather on any side of the table. The large, organic shape works well in small spaces as users gather on all sides or place many users in a large space to create a dynamic workflow. Users can freely move around the table without traditional corner-mounted legs getting in the way. Elbrook collaborative table comes in seated height 28 1/2"H, and standing height 38 1/2"H.

Worksurfaces are wood-core with a High-Pressure Laminate top and plastic 3 mm edgeband. All corners have a 2" radius.

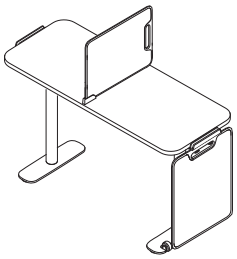
The team, group, collaborative, and rectangle tables come with two large glides under each base. The personal table includes five glides and the huddle table includes four glides for ease of movement on hard or soft surfaces.



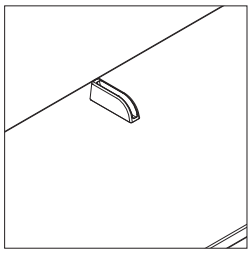
In-line wheels aid in movement and reconfiguration of tables. Skateboard wheels are used for smooth rolling and high durability. Wheel assembly can be field replaced if damaged. Dimensions from floor to top of wheel is 1.94" and floor to top of base is .73".



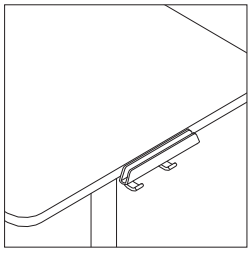
Elbrook worksurface shapes are designed to work together for informal group discussion and collaborative work.



The rectangle shaped tables can be used for more traditional applications and come in a wide range of sizes. The rectangle tables have fixed depths of 19"D, 24"D, 30"D, and 42"D. The widths are highly versatile and offered in 47"W–90"W depending on the depth.



Center docks are available on tables 62"W and larger.
Tip: You can apply two center docks on tables 83"W and larger. These tables will accommodate three users on one side.



Side docks allow display of whiteboards on the tables. For best results, rock the boards into place rather than pressing straight down. Side hooks allow storage of up to four boards per hook.

Modesty panels are available on Elbrook rectangle table and constructed of a lightweight fiberglass substrate wrapped with Buzz2 fabric. Panel attaches to the underside of the table with a plastic extrusion that allows the panel to rotate. Modesty panels are sized for 48"W, 60"W, 66"W, and 72"W.
Tip: The 72"W modesty panel can be used for sizes up to 90"W, however there will be gaps on either side.

Surface Materials

Top
- High-Pressure Laminate
- Open Line laminate (option)

Tip: Grain direction runs horizontal with width of table.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *www.steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery.

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate on Elbrook, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
• Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Flip-Top Training Tables

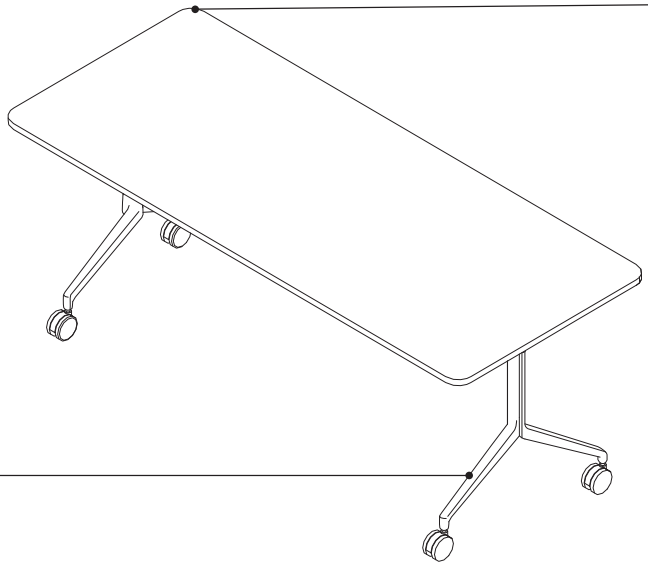
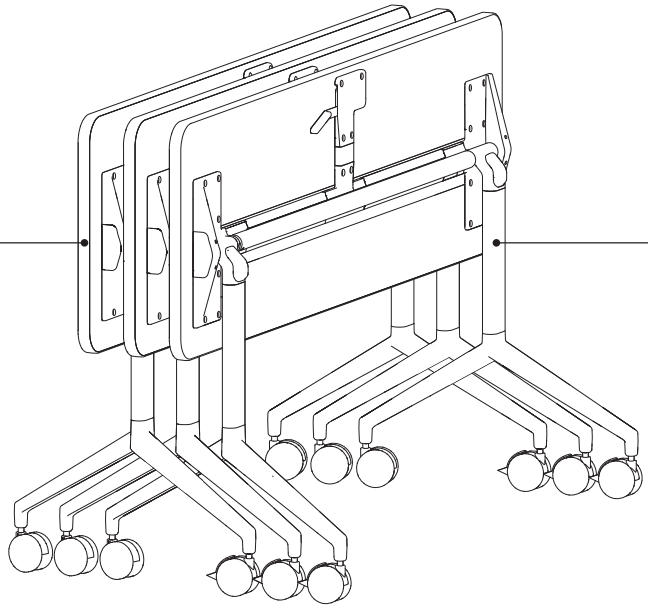
Groupwork flip-top training tables offer a solution for active learning environments and multipurpose rooms. With its easy to use one-handed activation lever and mechanism on the user side, one person can set it up or take it down, move it, and compactly store a roomful of tables with minimal effort.

▶Specifying, pages 388–392



Worksurfaces have 2" radius corners with 3 mm edge band on all sides when Low-Pressure or High-Pressure Laminate is specified. Edge band color is specifiable.

Legs support 19"D, 24"D, and 30"D rectangle tables and 36"D team tables.

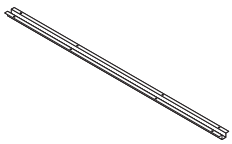


Top is 1" thick particle board with Low-Pressure or High-Pressure Laminate and two coordinating backer finishes or wood veneer with Gatorboard backer.

Tables are 28½"H.

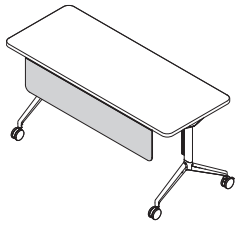
Product Details

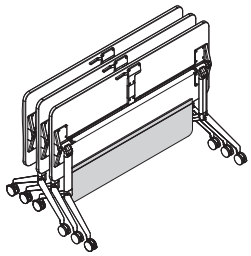
Underside of table can be specified in light or dark. *Tip: Veneer worksurfaces do not have a colored laminate underside. The underside color must still be specified for the support brackets and reinforcing channels.*



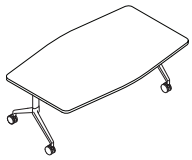
Reinforcing channel must be used on worksurfaces 66"W and greater to minimize deflection. On tables 66"W to 84"W, reinforcing channels come standard and are field installed. When installed, channels add 1" below the table. The reinforcing channel will match the understructure finish selection (light, medium, or dark).

Casters are 3" diameter, dual wheels that allow the tables to move easily on carpet or hard floors. Flip-top training tables are available with either two locking casters (user/handle side) and two non-locking casters or with four locking casters. Soft casters are available as an option and can be specified light or dark. The brake on soft casters is always red. Soft casters are recommended for use on hard floors. Glides are not available on the flip-top training table.





Modesty panels are constructed of a lightweight fiberglass substrate wrapped with fabric. Panel attaches to the underside of the table with a plastic extrusion that allows the panel to rotate from both the in-use and nested position with ease. Modesty panel stays with the table when flipped and in nesting position, or in-use position.



Modesty panels can not be used on 36"D team tables.

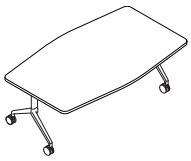
Modesty Panel Dimensions

Table Width	Actual Width
36"	22 1/5"
42"	25 1/5"
48"	31 1/5"
60"	46 1/5"
66"	49 1/5"
72"	55 1/5"
84"	67 1/5"

Flip-top training table flips from its in-use position to its nesting position by using one hand to pull the release handle and in the same motion lift the top to its nesting position. The movement is easy and controlled and no additional locking is required.

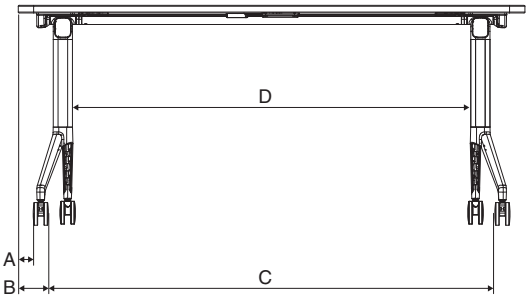
Release handle is black and is only used to unlock the table from the in-use position. *Tip: Flip-top tables in the in-use position have a natural flex in them and are not completely static.*

Rectangle training tables are parametric in width from 36"W to 84"W in 1/16" increments. Team training tables are parametric in width from 60"W to 84"W in 1/16" increments.



Team tables are designed specifically for small group work and project teams offering an angled shape on both sides of the table.

Clamp on power units are not recommended on flip-top tables due to possible collision when tables are nested. *Tip: Attaching monitor arms to freestanding tables with casters or glides is not recommended due to tipping hazards.*



Depth	Width	A	B	C	D
19"	48"	2 1/2"	4 1/2"	39 1/16"	34"

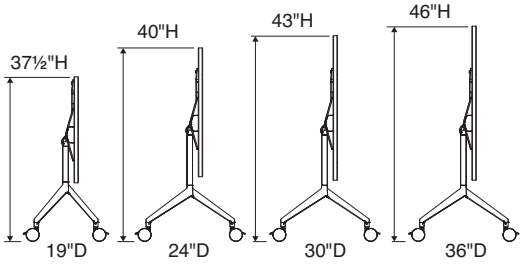
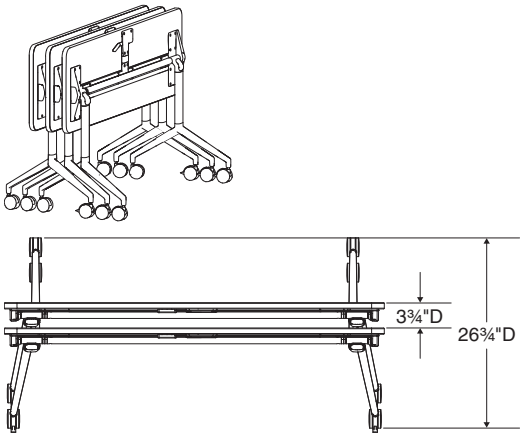
36"	72"	2"	4"	64 1/8"	58"
36"	84"	2"	4"	76 1/8"	70"



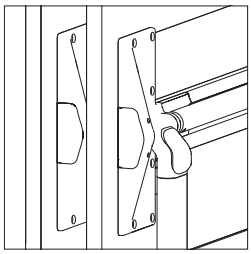
Flip-Top Training Tables, continued



Flip-top training tables can be nested for space saving storage. Two 24"D or 30"D tables nested together are 26¾"D while two 19"D tables nested together are 21¾"D. Each nested flip-top table adds approximately 3¾" to the nesting depth. Three tables nested together fit through a standard door.
*Tip: Old flip-top tables (**TS4FL2724TC2** and **TS4FL2730TC2**) cannot be nested with new flip-top tables (**TS4FLIP** and **TS4FLIP2**).*

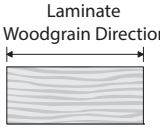
Tip: It is recommended to move one table at a time for both in-use or nested position.

Tip: For legs, the 19"D legs are different and do not nest with 24/30/36"D legs. 24", 30", and 36"D tables use the same legs.



Leg bumper will always be the main point of contact between two nesting tables.

Surface Materials



Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Steelcase stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.
Tip: Finished tops may vary slightly in tone or character from each other or from the samples Steelcase produces. No guarantee can be made of an absolutely exact match.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Stains applied to Steelcase wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Steelcase strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.
Tip: Never use ammonia based cleaners or wax on wood surfaces.

Powder coat finishes on table legs should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

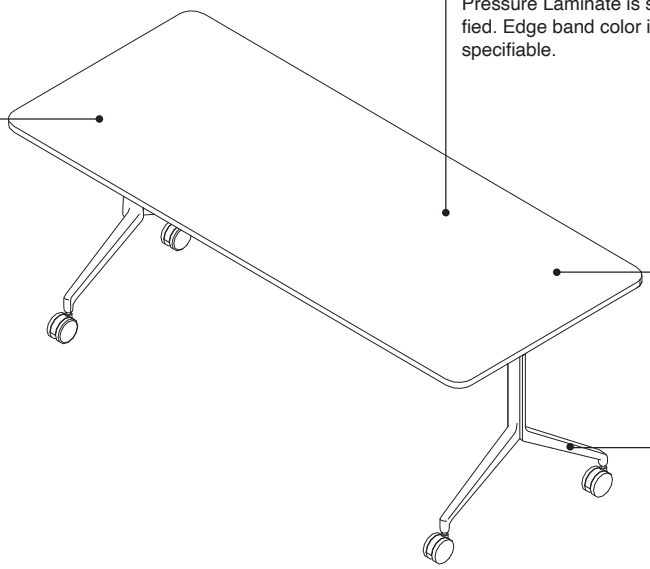
Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters for damage, and inspecting all moving parts for damage and wear.

Non-Flip Training Tables

Groupwork non-flip training tables offer a solution for active learning environments and multipurpose rooms. With its light but sturdy construction, tables are easily rearranged to fit any room or layout. This table series is available in multiple top sizes on casters or glides.
▶Specifying, pages 396–400

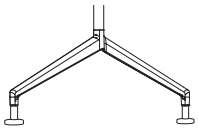
Worksurfaces have 2" radius corners with 3 mm edge band on all sides when Low-Pressure or High-Pressure Laminate is specified. Edge band color is specifiable.

Top is 1" thick particle board with Low-Pressure or High-Pressure Laminate and two coordinating backer finishes or wood veneer with Gatorboard backer.



Tables are 28½"H.

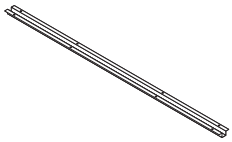
Legs support 19"D, 24"D, and 30"D rectangle tables and 36"D team tables.



Glides are available on non-flip tables only. Cast leg glides are painted to match the leg color chosen. Overall height of the table remains the same whether standard casters, soft casters, or glides have been chosen.

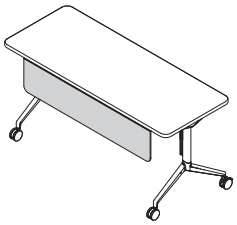
Product Details

Underside of table can be specified in light or dark. *Tip: Veneer worksurfaces do not have a colored laminate underside. The underside color must still be specified for the support brackets and reinforcing channels.*

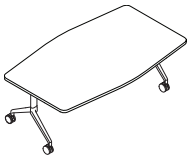


Reinforcing channel must be used on worksurfaces 48"W and greater to minimize deflection. Tables 60"W and greater require 2 channels. On tables 48"W to 84"W, reinforcing channels come standard and are field installed. When installed, channels add 1" below the table. The reinforcing channel will match the understructure finish selection (light, medium, or dark).

Casters are 3" diameter, dual wheels that allow the tables to move easily on carpet or hard floors. Non-flip training tables are available with either two locking casters (user/handle side) and two non-locking casters or with four locking casters. Soft casters are available as an option and can be specified light or dark. The brake on soft casters is always red. Soft casters are recommended for use on hard floors. Glides are available on non-flip training tables only.



Modesty panels are constructed of a lightweight fiberglass substrate wrapped with fabric. Panel attaches to the underside of the table with a plastic extrusion.



Modesty panels can not be used on 36"D team tables.

Modesty Panel Dimensions

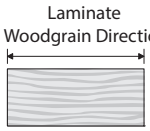
Surface Materials



Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

Table top
- Low-Pressure Laminate
- High-Pressure Laminate
- Open Line laminate
- Wood veneer
- Customiz stain (option)

Edge
- 3 mm plastic
- Wood veneer

Legs
- Paint

Underside
- Laminate backer

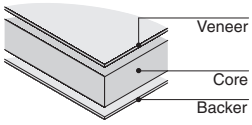
Pop-up power
- 4799 Platinum Metallic
- 7243 Seagull
- 7360 Merle

Flush power
- 6053 Seagull
- 6527 Merle

Grommet
- Black plastic

Vertical cable manager
- 6527 Merle

Horizontal cable manager
- P631 Dark Heather Grey



Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Non-Flip Training Tables, continued

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Steelcase stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.
Tip: Finished tops may vary slightly in tone or character from each other or from the samples Steelcase produces. No guarantee can be made of an absolutely exact match.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Stains applied to Steelcase wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Steelcase strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.
Tip: Never use ammonia based cleaners or wax on wood surfaces.

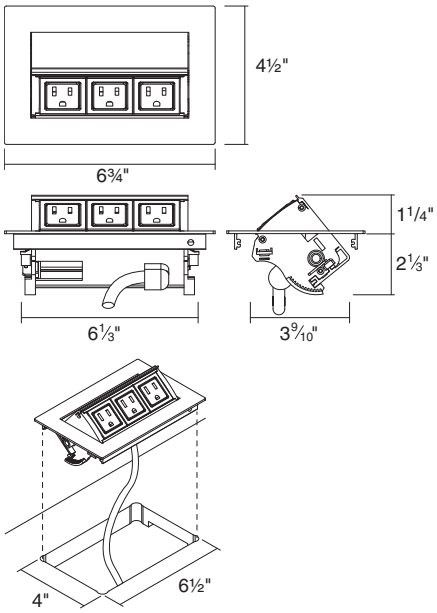
Powder coat finishes on table legs should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Training Table Power and Connections

Power, Data, and Wiring

Pop-Up Power



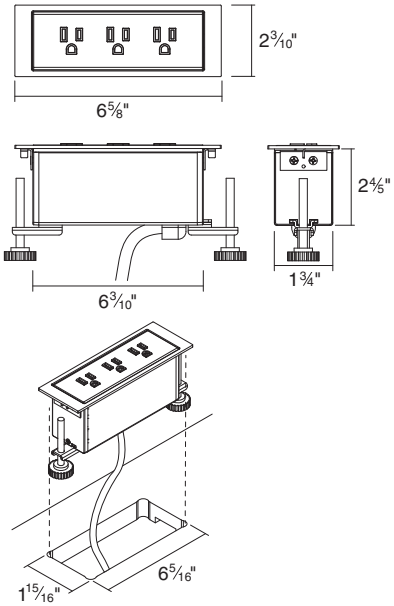
Pop-up power is a 4½" x 6¾" desktop module and can be configured in several choices:
- Three power
- Two power/one data
- Two power/one USB-A+C 20W
- One power/one USB-C 100W

The pop-up power unit has a six-foot power cord and choice of standard NEMA 15-amp plug or low profile plug type.

For access to the outlets, the user opens a hinged door. Pop-up power can not be closed when cords are attached. Pop-up power are NRTL and CSA listed. When data is specified, an array of faceplates are supplied to accommodate a range of voice/data communication outlets.

Hinge Door	Outlets
4799 Platinum	6527 Merle
7243 Seagull	6053 Seagull
7360 Merle	6527 Merle

Flush Power



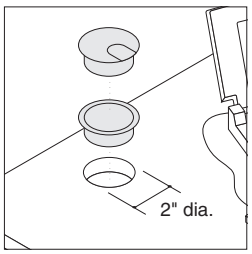
Flush power is is an 2³⁄₁₀" x 6⅝" desktop module and can be configured in several choices:
- Three power
- Two power/one data
- Two power/one USB-A+C 20W
- One power/one USB-C 100W

The flush power unit has a six-foot power cord and choice of standard NEMA 15-amp plug or low profile plug type. Flush power are NRTL and CSA listed.

When data is specified, an array of faceplates are supplied to accommodate a range of voice/data communication outlets.

Factory installed cutouts are available as standard option for tables. For the top to have a factory installed cutout, you must specify the option, where applicable, otherwise the table will be shipped without a cutout.
▶ See pages 371 and 372

Field installed desktop modules are ordered separately, not as an option, therefore, the table top will not have a cutout and must be cut in the field per the required locations.
▶ See pages 371 and 372



Grommets are available and have a 2" diameter opening. For factory cutout, specify the grommet as an option on the table. Field installation is available. To specify, order the grommet and the table as separate items.

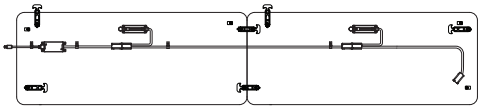
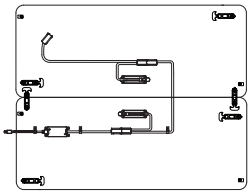
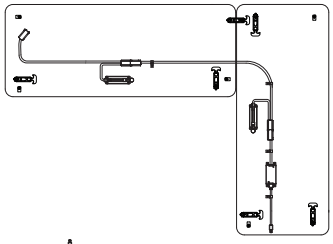
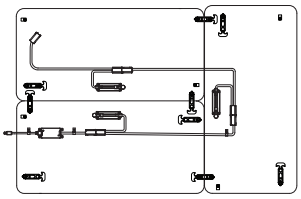
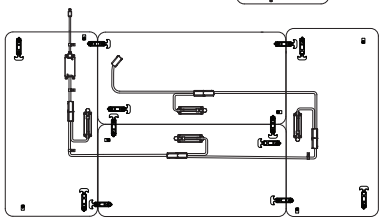
When several tables need to be connected to one another, providing power to the entire series, modular power can be specified as an option. When modular power is specified, a flush or pop-up power unit is required to be specified in order to access power. When modular power is selected, an infeed needs to be ordered. These are ordered separately. One infeed can support up to a maximum of eight connections. Tables 60"W or less require one infeed per eight tables. Tables 60 1/16"W and greater with one power unit require a jumper which counts as a connection, so one infeed per four tables is needed. Jumpers ship automatically when needed. Each power unit also counts as a connection so tables 72"W and greater with two power units require a new infeed every four tables.

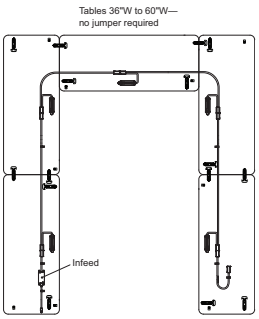


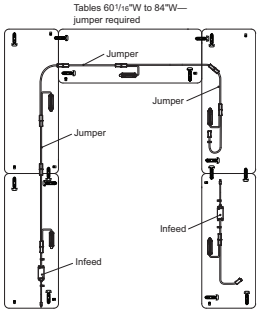






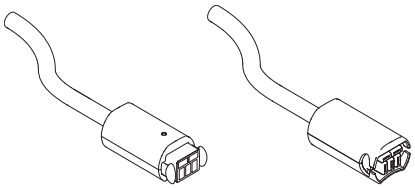




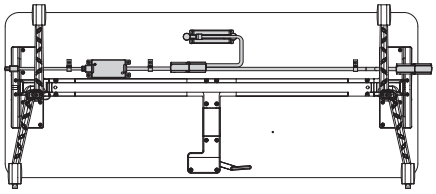


The installation of the modular power system must be followed in accordance with all assembly directions. Improper usage could result in risk of fire or electric shock. Only connect to products labeled "Modular Power System". For use in indoor, dry locations only.

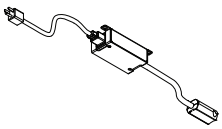
The modular power kit consists of one "male" modular connector and one "female" modular connector allowing only one way to connect the power system. The modular connectors snap together, and easily disengage by pressing the release buttons on either side of the connection. The modular connectors are designed for easy end-user reconfigurations.



The modular connectors are pattern-coded for intuitive match-up when connecting the modular power system. Match the pattern in order to properly connect tables together.

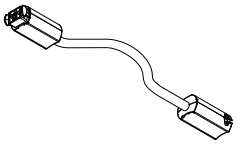


The modular power system is easily installed into pre-drilled holes in the table. The modular power system connectors are easily accessible and always in the same location, and comes with all the necessary hardware.



Modular power requires an infeed to power the tables which are ordered separately. The power cord is 6 feet with the option for either a 15-amp plug or a low profile plug.

One infeed can support up to a maximum of eight connections. Tables 60"W or less require one infeed per eight tables. Tables 60 1/16"W and greater with one power unit require a jumper which counts as a connection, so one infeed per four tables is needed. Jumpers ship automatically when needed. Each power unit also counts as a connection so tables 72"W and greater with two power units require a new infeed every four tables.

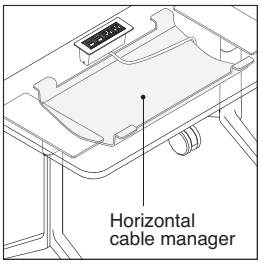


The modular power system is based on the width of the table. For tables wider than 60", a jumper is required and will be shipped automatically, no need to order separately. There are eight connections allowed per infeed, using jumpers adds connections and reduces the number of tables that can be linked together before a new infeed is required.

Specifying desktop power with modular power system.

Tip: Grommets cannot be mixed with desktop modules on a single table.

1. **Determine the type of desktop module required and its configuration.**
   Desktop power is required when using modular power. Choose between flush or pop-up power and pick the desired configuration.
   Tip: Grommets are available, however, cannot be used with desktop or modular power as they occupy the same space as desktop power units.
2. **Determine how many desktop modules.**
   Understand the number of people sitting at the table with the requirements between power, data, and USB along with where the desktop modules are located, one in the center or two in left and right position for individual or shared use.
3. **Table width determines your modular power harness length.**
   When table width has been specified and modular power is selected, SmartTools will automatically select the proper length modular power unit for your table. It will also automatically include a jumper if required.
4. **Determine number of infeeds required.**
   Infeeds are required when using modular power and are ordered separately with either a 15-amp plug or a low profile plug to power the tables. One infeed can support up to a maximum of eight connections. One infeed per eight tables is required on tables 60"W or less. One infeed per four tables is required on tables greater than 60"W.

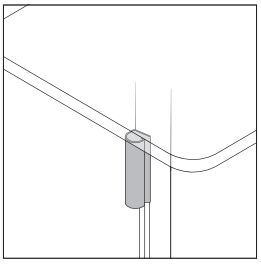


Horizontal Cable Manager Dimensions

Plan Width	Actual Width
36"	20"
42"	23"
48"	29"
60"	44"
66"	47"
72"	53"
84"	65"

Horizontal cable managers are available as an option or a separate style number and match the width of the table. They are made of molded PET felt and hinge on one side for easy user access.

Tip: Horizontal cable managers on 24"D tables with pop-up power selected will have interference with the power unit. The PET can be cut in the field to accommodate the power, if required.



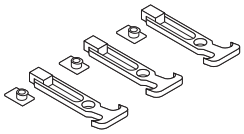
Vertical cable managers can be added to help route cables down the leg to the floor or wall.

Vertical Cable Manager Dimensions

Plan Depth	Actual Depth
19"	5"
24"	10"
30"	10"
36"	10"

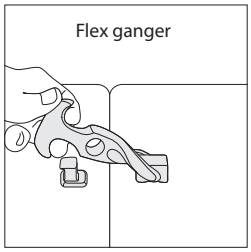
Vertical cable managers designed to work on 24/30"D and 36"D legs will not fit on 19"D legs.

Connections



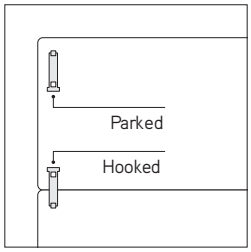
Flex Ganger Package	Style Number
Flex Ganger	**TS4FG**

Flex ganger packages are available and are installed on-site. They are useful in situations when tables will frequently be reconfigured and reganged. Specify one package for each table.



Flex gangers can be used to easily link adjacent tables in multiple configurations. Flex gangers use a flexible loop that engages a hook to hold two adjacent table tops in place. No tools are required to stretch the loop across the seam between two table edges and to connect it to the hook on the adjacent table. All flex ganger locations are pre-drilled for simple relocation when desired.

When modular power is selected, flexible ganging brackets are required and will automatically be added to your order. If additional ganging brackets are desired, more can be ordered using style number **TS4FG**.



Flex gangers that are not in use can be folded back into the parked position.

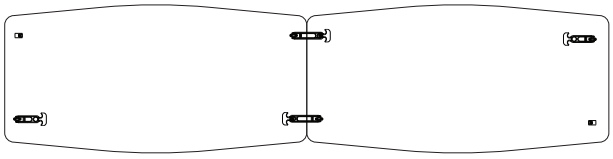
End-and-back

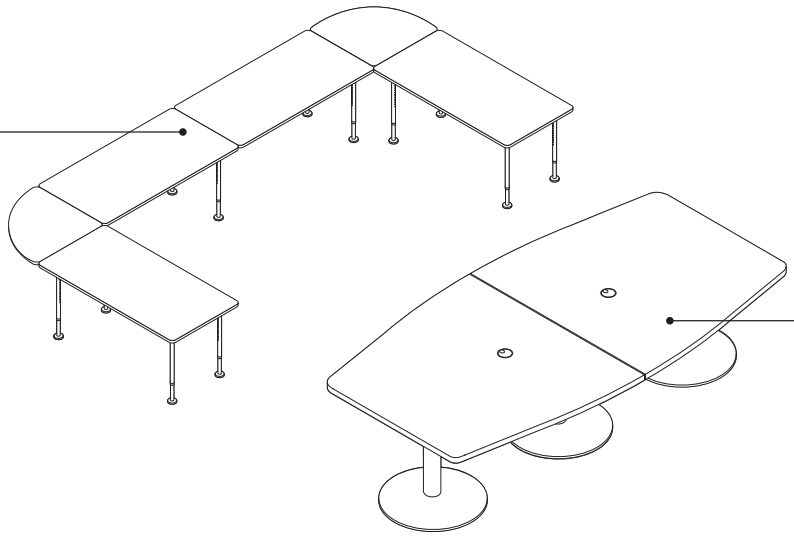
Team Tables Flex Ganger Locations



Tables

Groupwork furniture supports team activities. It is appropriate in an open plan and an enclosed work space. Table tops and table legs are ordered separately.
▶Specifying, page 404

Tables are 28½"H.

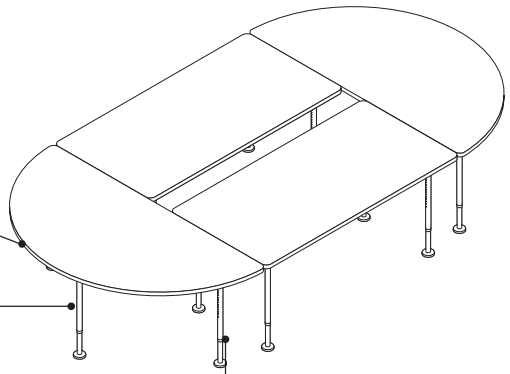


90° corner bridge creates additional seating where space is a premium.

Worksurfaces are woodcore with laminate top and plastic edge band. Low-Pressure Laminates or High-Pressure Laminates are available.

Worksurfaces have 2" radius corners with 3 mm edge band on all sides. Edge band color is selectable.

Table legs ship standard with levelers. Casters are optional.

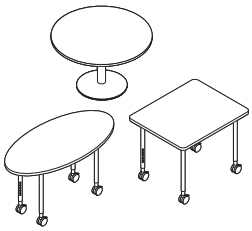


Groupwork tables are available with post legs.

Conference tops come standard with a grommet. For one-piece conference tops, the grommet is centered in the middle of the table. For two-piece conference tops, two grommets are standard, with grommets positioned 21" from the middle to the center of the grommet. Flip grommets are available for cable routing needs. Conference tops are offered in four shapes—rectangular, boat-shaped, racetrack, and oval. Table tops come in one piece (96"W) or two pieces (120"W or 144"W). Oval is offered in 96"W only. All tops are offered in standard 1⅛" or optional 1⅜" thickness. All conference tops come standard with grommet. Conference table tops 120"W and 144"W, two-piece with HPL woodgrain laminates, will always be grain matched. These same tops, with LPL woodgrain laminates will not be grain matched, as well, LPL laminate 25L5 Virginia Walnut and 25L6 Blackwood will not be available on 120"W and 144"W table tops. You can use HPL 2535 Virginia Walnut and 2536 Blackwood on 120"W and 144"W and they will be grain matched.

Tip: 25L5 Virginia Walnut and 25L6 Blackwood are not available on 120"W and 144"W groupwork conference table tops.

Product Details



Round and square table tops should be used with either Groupwork round table bases or Groupwork post legs. 48"W oval table top should only be used with Groupwork post legs. All tops are offered in standard 1⅛" or optional 1⅜" thickness.

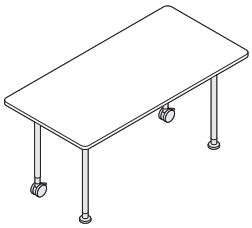


Table legs can be ordered individually to create a combination of two legs with levelers and two legs with casters.

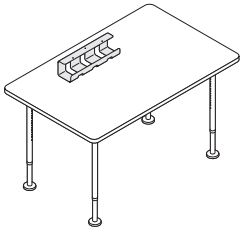
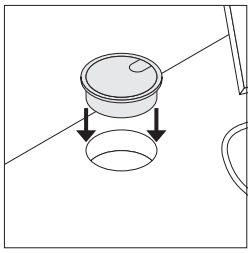
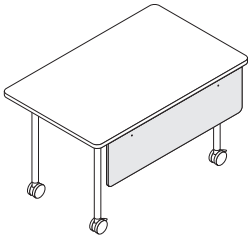


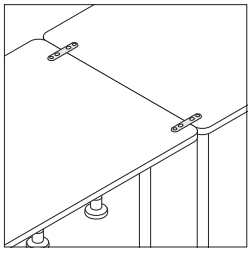
Wire management trough attaches to underside of worksurface to provide cable management and has capacity to support a powerstrip.



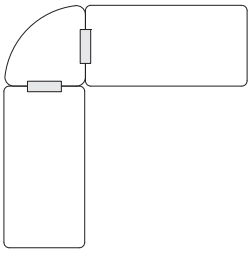
Grommets are available to finish exposed edges of field-installed openings in the worksurface for vertical cable routing. Grommets are 2" diameter black plastic.



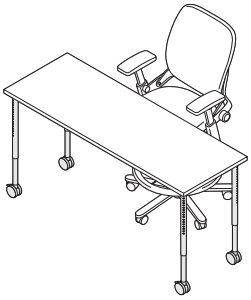
Laminate modesty panel attaches below rectangular table tops to provide privacy. Modesty panels are 9"H and are ½" thick. Modesty panels are finished with High-Pressure Laminate on both sides. Laminate modesty panels can be used with any table leg specification, except training tables (**TS4FLIP2** and **TS4NFLIP**).



Groupwork tables can be attached together using Kick tie plates **(TSATTIE)**.



90° corner bridges use Kick in-line support plates for connectivity. 14"D in-line support plates are used with 24"D bridges, and 20"D in-line support plates are used with 30"D bridges.



Standing-height adjustable legs adjust on 1" increments from 28½"–45" (includes top thickness). The legs measure 24"–40½" with 3⅜" levelers. Due to the large range of the leveler, tables may vary in height depending on how far the leveler is inserted into the leg. The 1" adjustments match the Kick Systems vertical upright adjustment pattern.

Tip: Standing-height adjustable legs have natural movement in them and are not completely rigid due to the two-piece construction.

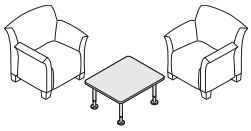


Table tops used with coffee table legs create reception areas or informal team spaces.

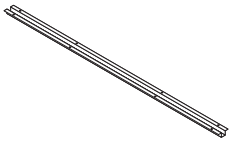
Groupwork tables with post legs also blend with Kick Systems furniture. Post leg tables are 28½" tall (includes top thickness). The legs measure 24" with 3⅜" levelers. Due to the large range of the leveler, tables may vary in height depending on how far the leveler is inserted into the leg.

Levelers adjust 2½" for installation on uneven floors.



Reinforcing channel (TSATRC39, TSATRC48, TSATRC57, or TSATRC72), ordered separately, must be used with tops 60"W and larger. Please refer to the matrix for the appropriate worksurface brace size and quantity. Table dimensions not listed in the matrix do not require bracing.

▶See *Groupwork Table Reinforcing Channel Requirement Matrix*, page 378.

Tip: Wider rectangular tables with casters, sizes 66", 72", and 84"W, require multiple reinforcing channels. One long and one short channel can be used to maintain the use of modesty panels, grommets, and wire management troughs. Please reference the Table Reinforcing Channel Requirement Matrix *for details.*

Tip: Attaching monitor arms to freestanding tables with casters or glides is not recommended due to tipping hazards.

Table Reinforcing Channel Requirement Matrix

48"W = 39 1/4" clearance
60"W = 51 1/4" clearance
66"W = 57 1/4" clearance
72"W = 63 1/4" clearance

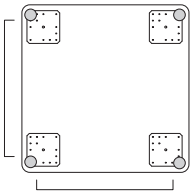
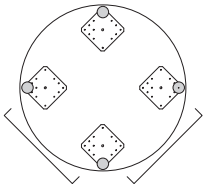
Square Tops



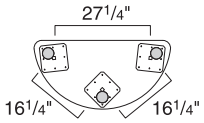
24"W = 15 1/2" clearance
30"W = 21 1/2" clearance
36"W = 27 1/2" clearance
42"W = 33 1/2" clearance
48"W = 39 1/2" clearance

Round Tops

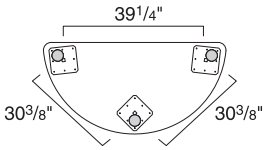


36"W = 19" clearance
42"W = 23 1/4" clearance
48"W = 27 1/2" clearance

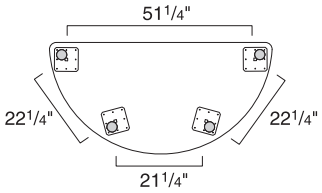
Half-Round Top—18" x 36"



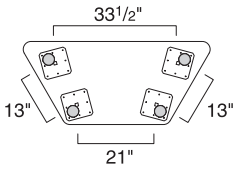
Half-Round Top—24" x 48"



Half-Round Top—30" x 60"



Trapezoid Tops—24" x 48" and 30" x 60"



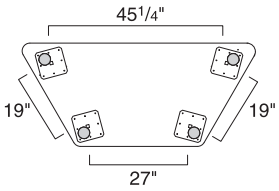


Table Bases

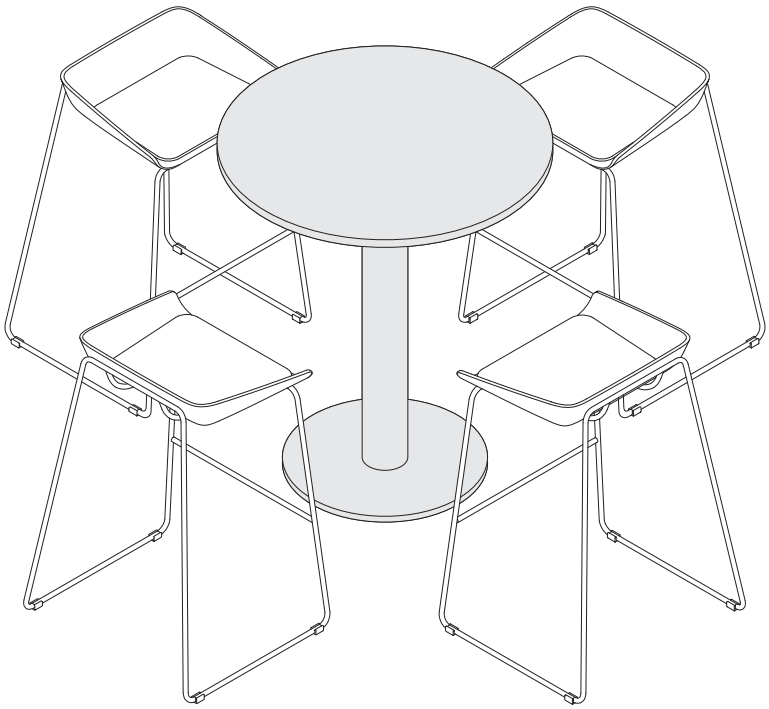
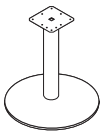
Bases attach to square, round, or conference table tops. Bases support square and round tops at 28½"H or 42"H overall, including top thickness. 28"H bases support conference table tops at 28½"H overall, including top thickness.

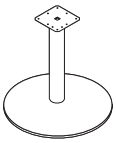
▶Specifying, page 412



Product Details

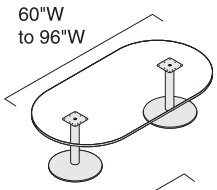


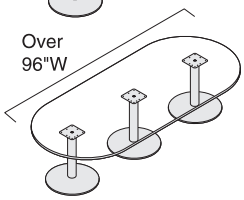
22" diameter by 27⅜"H or 41"H bases can be used to create standard-height or cafe-height tables with smaller-size round and square tops (24"–30") in cafeterias or teaming areas. Glides are standard.



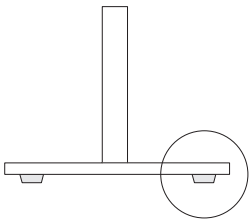
28" diameter by 27⅜"H or 41"H bases can be used to create standard-height or cafe-height tables with smaller-size round and square tops (24"–36") in cafeterias or teaming areas. Large-size round and square tops (42" and 48") and conference tops in all sizes can be used with the 5" diameter column. For heavy use applications with any size top, it is recommended to use the 28" diameter base with 5" diameter column for added rigidity. Glides are standard.

Attachment hardware (screws) is to be used with Currency, Groupwork, or Kick table tops only.





Conference table tops can be used with **TS4TBASE285** or **TS4TCAFE285** only. Both the 27⅜"H and 41"H bases are designed to structurally support the additional load bearing requirements of the larger conference table tops. Two bases must be used with tops 60"W to 96"W, and three bases must be used with all tops over 96"W.



Glides on Groupwork round table bases are not adjustable.

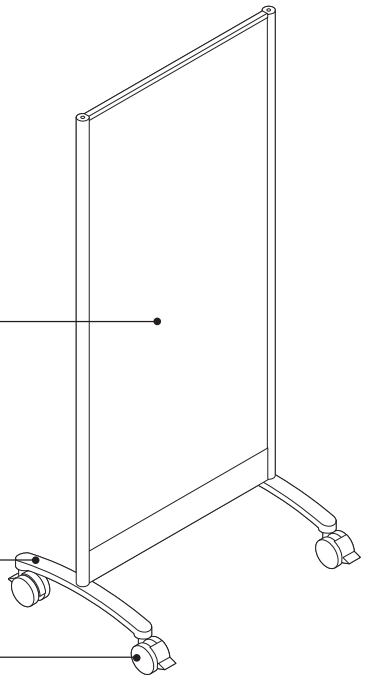
★★★★ = To ensure proper stability, standing-height adjustable post legs with caster option only cannot be used on these top sizes.

★★★★★ = For heavy use applications, it is recommended to use the 28" diameter base with 5" column for added rigidity.

Screens and Marker Trays

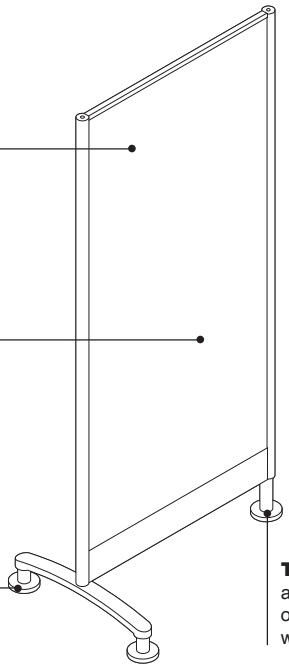
Screens are available with laminate markerboards on both sides, e³ CeramicSteel on both sides, or tackboard on both sides. Screens are available in two heights—54"H and 66"H—and five widths—24"W, 30"W, 36"W, 42"W, and 48"W—to coordinate with Kick panel systems.
▶Specifying, page 420



Laminate markerboard surface has a non-glare writing surface and accepts all standard dry-erase markers. e³ CeramicSteel surface is magnetic.

Four-leg base is standard on screens.

Four locking casters allow for easy movement.



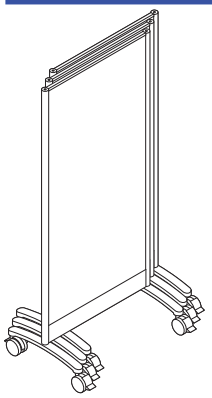
Tackboard surface is available in a variety of fabric options.

Laminate markerboard surface is available in the U.S. only. For Canada orders, specify either e³ CeramicSteel on both surfaces or tackboard on both sides.

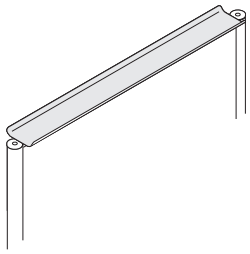
Levelers adjust ¼" for uneven floors. Levelers do not slide and should be used in applications where infrequent movement is required.

Three-leg base is available on 54"H screens as an option to create a privacy wall.

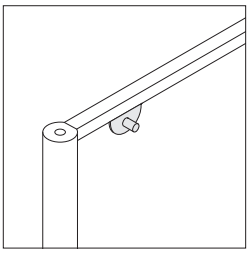
Product Details



Screens nest easily and require minimal space. The leg bases are 16"D, and each screen nested adds another 1½" to the depth.



Marker tray is available to hold dry erasers and markers. The tray is attached on top of the screen top cap. Marker trays are available in all five screen widths.



Flip-chart pegs are available as an option on the top cap. They are positioned 17⅝" apart center to center and are available on one side only. Flip-chart peg top cap works in conjunction with marker trays.

	• Pop-up power	+$412	Specify *with pop-up power* and select color number.
	• Grommet	+$109	Specify *with grommet only.*
Power Position	• Center	No cost	Specify *with center position.*
	• Left and right	No cost	Specify *with left and right power position.*
Power Configuration	**For Flush Power**		
	• Two power, one data	No cost	Specify *with two power, one data.*
	• Three power	+$ 5	Specify *with three power.*
	• Two power, one USB A+C	+$192	Specify *with two power, one USB A+C.*
	• One power, one USB-C 100W	+$362	Specify *with one power, one USB-C 100W.*
	For Pop-Up Power		
	• Two power, one data	No cost	Specify *with two power, one data.*
	• Three power	+$ 5	Specify *with three power.*
	• Two power, one USB A+C	+$192	Specify *with two power, one USB A+C.*
	• One power, one USB-C 100W	+$362	Specify *with one power, one USB-C 100W.*

Tip: Grain direction is only available when veneer is specified.

Tip: Short grain can only be applied to tops less than 60"W.

Tip: Soft casters are recommended for use on hard floors.

Tip: If a modesty panel is ordered with a clamp mount desktop device, the cords or the bottom of the desktop device will be on the outside of the modesty panel.

Tip: Horizontal cable managers are not available on 19"D tables.

Tip: Horizontal cable managers on 24"D tables with pop-up power selected will have interference with the power unit.

Tip: Pop-up power is not available on 19"D tables.

Tip: Left and right available on tables 72"W and greater.

Tip: When left and right is specified, cost of power configuration will double.

Tip: When USB A+C is specified, there are two USB ports. When USB-C is specified, there is one USB port.

Table Tops

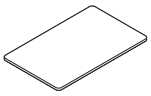
Rectangular, Half-Round, Trapezoid, 90° Corner Bridges

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*

*Tip: Reinforcing channel (**TSATRC39**, **TSATRC48**, **TSATRC57**, or **TSATRC72**), ordered separately, must be used with tops 60"W and larger.*

▶ See page 416, *Supports.*
▶ See page 378 for *Groupwork Table Reinforcing Channel Requirement Matrix.*



Tip: To ensure proper leg usage, consult the groupwork table top, leg, and base combination section of the specification guide.

▶ See page 384.

Conference Table Tops

Tip: Conference tops that are 120"W or wider ship in two pieces with quick-connect hardware and brackets.

Tip: Standard worksurfaces are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) worksurfaces is slightly different. It is recommended that only worksurfaces of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different worksurface types.

For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: When ordered in HPL woodgrain laminates, two-piece tops will have matching grain patterns where the tops meet. When ordered in LPL woodgrain laminates, two-piece tops will not have matching grain patterns where the tops meet.

Surface Materials

This listing includes all the surface material choices that are available for the products in this section.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on Universal worksurfaces and Universal Storage tops, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Edge color for the Open Line laminate on worksurfaces must be determined by the dealer and customer before orders can be entered. Specify appropriate 2K finish number.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual.*

Wood

Applies to:
- Groupwork flip-top and non-flip training tables

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

E = Established

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Wood Group 2

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as a part of our Select Surfaces program and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Select Surfaces

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Select Surfaces as Wood Group 1 pricing.

Composite Quarter-Cut Open-Pore
3LEX QC/OP Desert Oak on Oak Composite
3LGX QC/OP Chai on Walnut Composite
3LJX QC/OP Ebony on Walnut Composite

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

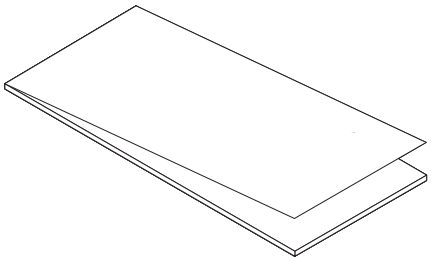
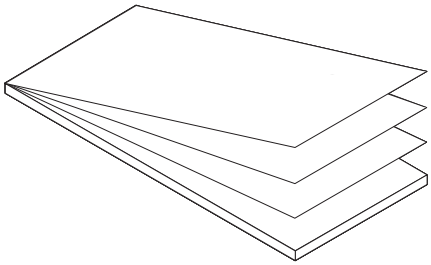
Understanding Low-Pressure and High-Pressure Laminates



Low-Pressure Laminates, or LPLs, are created by dipping decorative crafted paper in melamine resin. The melamine dipped paper is then bonded to a wood core under heat and high-pressure. LPLs are generally suitable for use in lower impact areas. LPLs are generally used in vertical applications as well as tops for workstations and private offices. Generally, it is more cost effective to use LPLs when the performance of HPLs are not required.



High-Pressure Laminates, or HPLs, are composed of multiple layers of crafted paper individually soaked in resin. There are 7-15 layers of paper combined to make the final sheet. The top layers are translucent melamine sheet and a decorative layer. The sheets are combined under heat and high pressure to form a single laminate sheet. The resulting sheet is then bonded under heat and high pressure to a wood core. HPLs are generally considered more durable then LPLs due to the extra layers of craft paper (backer) used in their creation. While they cost more, they are more durable. HPLs are generally used in higher traffic areas such as cafeterias and conference rooms. Generally, it is more cost effective to restrict their use to areas needing the added durability HPLs provide.

Thread

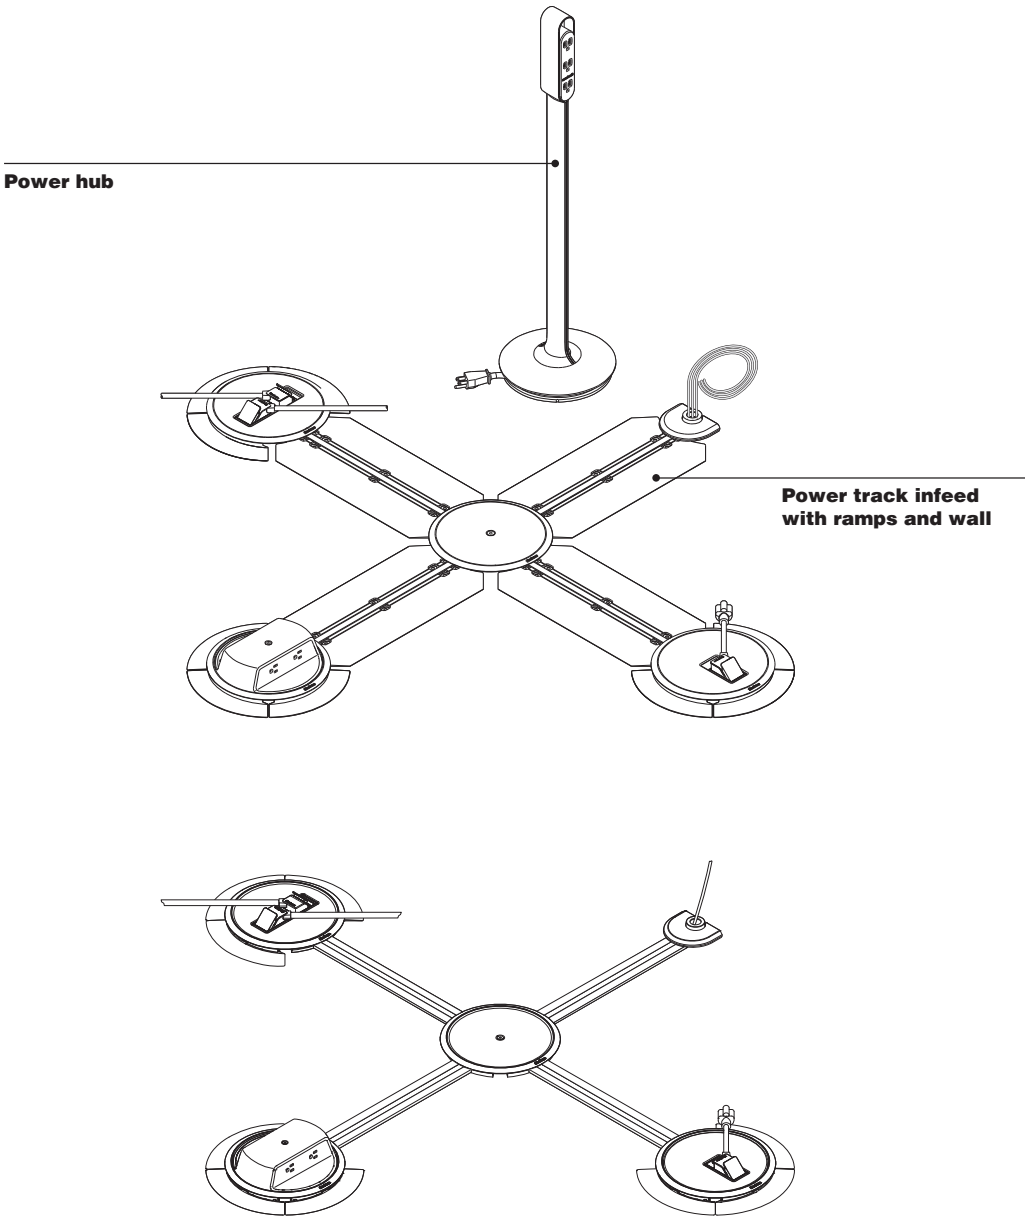
Power Track and Power Track Infeeds

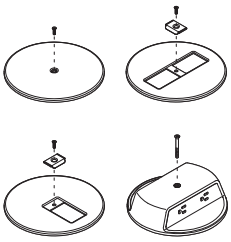


Product Details

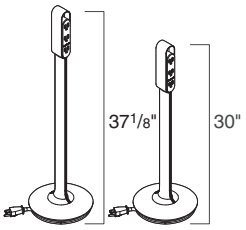
Power track infeeds provide the option of connecting the Thread system to the building power, either through the wall or through the floor. Infeed lengths are available from 24" to 144" in 12" increments and in single or dual circuit.

Available in single circuit and dual circuit.

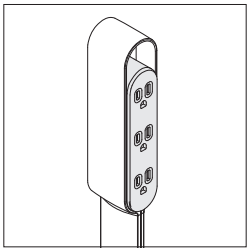
Power track lengths are available from 24" to 144" in 12" increments. They connect to an infeed to distribute power. Power tracks can be ordered with ramps or with infills.



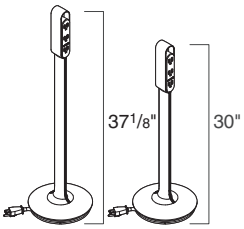
Connectors, four varieties: Blank (No power access), one-door low-profile (provides one access point utilizing Steelcase's proprietary low-profile plug), two-door low-profile (provides two access points utilizing Steelcase's proprietary low-profile plug), and the NEMA monument, which provides four standard three-prong plug (NEMA 5-15) receptacles. NEMA monument is available with standard and tamper resistant receptacles.



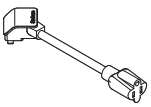
Power hub is available in lounge height and desk height and with a standard three-prong plug or Steelcase's proprietary low-profile plug. The hub provides a user interface for power that is off the floor and capable of moving around the space. It features an integrated cord wrap in the design of the base.



The Thread power hub provides six standard three-prong (NEMA 5-15) receptacles to provide power access where users need it. (indoor dry locations only).



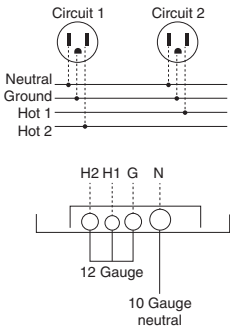
The power hub is available in two heights, lounge height and desk height. The lounge height hub is 30" tall overall with the user interface starting at 22". The desk height hub is 37⅛" tall overall with the user interface starting at 28".



Low-profile plug adapter is an 8¾" long adapter that allows a single three-prong plug to connect to Steelcase's proprietary low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.
Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Connections

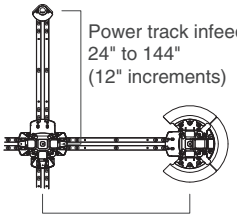


The single circuit power track infeeds utilize three standard 12 gauge insulated wires encased in a riveted metal housing.

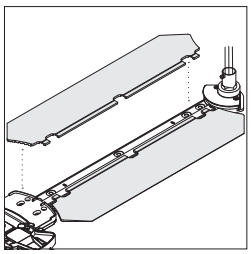
The dual circuit power track infeeds utilize three 12 gauge insulated wires along with a 10 gauge shared neutral wire.

All infeeds stand ¼" off of the subfloor.

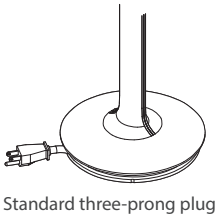
The infeed track comes with 12' of extra wiring to easily connect to the building power through a new or existing junction box. If longer infeed wiring is necessary, it may be submitted to specials.



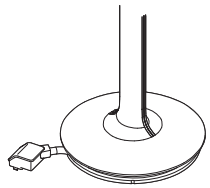
Thread power track and power track infeeds are prefabricated modular tracks capable of distributing up to 20 amps of power per circuit and come in lengths of 24" to 144" in 12" increments. These tracks must be fastened to subfloor, but can be reconfigured or removed without leaving substantial damage to the subfloor like more permanent solutions do. Thread power track cannot be field cut.
▶Please refer to page 438 for more information on applications and reconfiguration.



Each power track and infeed track comes with either two flexible ramps or two infills. The ramps ease the transition between the subfloor and the height of the track. These ramps simply rest on top of the track and do not need to be adhered or fastened. The infills rest within the track to create a smooth surface for the floor covering to be applied over. When ordering a power track and/or infeed track, you can specify the track and ramps or the track and infills, depending on your installation method determined by your flooring selection.

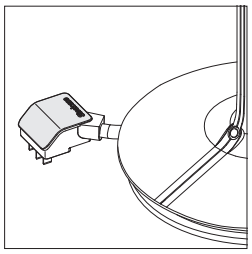


Standard three-prong plug

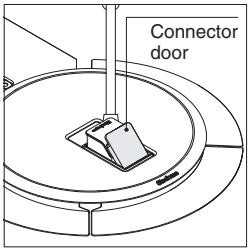


Low-profile plug

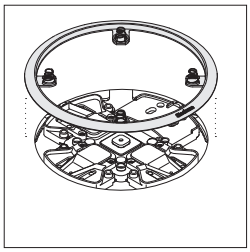
The cord is 5' long and is available with either a standard three-prong plug for use with standard receptacles or with Steelcase's proprietary low-profile plug for use with one-door and two-door low-profile connectors. Cord length can be changed to be 2–9' by ordering through Specials. The base only has the capacity to wrap 5' of cord within.



The metal connector cover on the low-profile connectors is a stamped, painted steel plate. This connector cover is ADA compliant for egress locations.



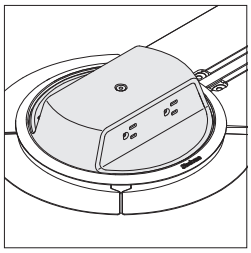
The low-profile connector doors are made of cast zinc. They are spring loaded and gasketed to ensure compliance with small liquid spill requirements. The system is not fully waterproof and is only acceptable for use indoors in dry locations.



The plastic trim ring is spring loaded to provide a tight fit against the flooring. It provides a simple ramp transition to the ½" maximum height of the connector cover and hides any imperfections in the access hole cut in the carpet.

NEMA connector is designed to accept most standard NEMA three-prong plug and cord orientations. If cord exits in a non-standard fashion, please check for fit before ordering. A low-profile connector and adapter should be utilized for non-standard configurations.

Thread, Power Track and Power Track Infeeds, continued



The NEMA monument is made of a two piece plastic housing that provides access to four standard three-prong receptacles. This connector is not ADA compliant for egress locations. NEMA monument is available with standard and tamper resistant receptacles.

When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

▶See page 438 for additional power planning information.

Technical Electrical Information and Power Planning

The Thread system is listed as a 20 amp branch circuit. It utilizes three standard 12 gauge wires (hot, neutral, and ground). When more than one circuit is required to support a space or application, additional circuits will need to be provided using Thread power track infeeds connected to other circuits in the building. The number of circuits available to pull from will be determined by building construction. Please consult your electrician if you are unsure of the building power capabilities.

Thread is designed to accommodate 20 amps per circuit. Amps x volts = watts. In the U.S., this means 2,400 watts of potential. However, most locations only allow for power planning of up to 80% of potential. For example, 2,400 watts x 80% is 1,920 watts. When planning, consider whether a single or dual circuit is needed based on power needs.

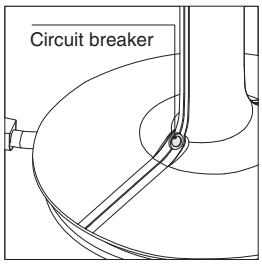
▶See page 230 for *How to Calculate Power Needs.*

The Thread power track infeed begins with a universal connector that is capable of connecting to any standard $^1/_2$" conduit or other listed product such as Wiremold or Conduit. The building electrical supply connection must be performed by a licensed electrician. Please consult with your electrician if you have questions regarding what type of conduit will be used.

Due to voltage drop, the National Electric Code (NEC) recommends that the distance between the building circuit box and the user access point not exceed 75–150 feet (depending on gauge of wires running from the building circuit box to the Thread infeed junction). Since the distance from the Thread infeed junction to the building circuit box may be difficult to ascertain, we recommend planning conservatively for the total distance of any individual Thread branch and keep it as short as possible. Thread branches longer than 70 feet per circuit may risk contributing to voltage drop exceeding acceptable levels.

Listing categories: Thread power track is listed as a multi-outlet assembly and is considered a 20 amp branch circuit, which means it meets the same requirements as the hard wire outlets in the wall. The power hub is listed as a relocatable power tap (RPT, which means it is treated the same as a typical power strip). The plug adapter is listed as an accessory to the Thread system.

UL 5 is the standard for multi-outlet assembly (which correlates to article 380 in the National Electric Code) and UL1363 is the standard for RPT, but has no direct correlation in the NEC.



The power hub has a circuit breaker in the base that is intended to trip should excessive power draw occur. If the total draw from all receptacles on a hub exceed 15 amps, the breaker will trip and a black button will pop out of the base where it meets the stalk. Pressing the black button back in will reset the circuit.

It is important to plan for expected power consumption in a given application to ensure enough infeeds are present to prevent tripping the circuit breaker either at a hub or at the building circuit box.

Building construction varies and there may be components hidden below the floor surface that must be avoided when drilling holes to anchor the power track infeed and power track. Subflooring, including concrete, may contain electrical wiring, structural cabling, radiant heating lines, etc. To avoid potential property damage or unsafe conditions, consult with the building architect or Engineer of Record to plan accordingly. The subfloor can only have $^1/_8$" of variance under where the Thread power track lies. If greater than $^1/_8$", floor leveling is required.

The building electrical supply connection must be performed by a licensed electrician. Only connect this system to a dedicated 120-127 V~ 60Hz 20A single phase GFCI protected building power circuit.

Codes Information

Thread is UL certified as a multi-outlet assembly and not a manufactured wiring assembly. Manufactured wiring systems are defined in Article 604 of the NEC and provide very clear guidelines regarding construction methods. Thread is constructed in a manner not consistent with any defined method in this section of the NEC and because of this, cannot be considered a manufactured wiring system. It is consistent with the definition for multi-outlet assemblies as defined in Article 380.

NEC 210.71: This 2017 code requires that any habitable room of at least 215 sq. ft. must have at least two floor outlets no less than 6 ft. from the wall. One outlet is required for every 215 sq. ft. of space. Thread is a solution to this code.

The system is capable of distributing 20 amps of power. Power planning to 80% consumption means the system is not designed to deliver more than 16 amps total. Each connection point can only connect to one circuit at a time. Thread is compatible with 5-15 plug types, not 5-20 plug types.

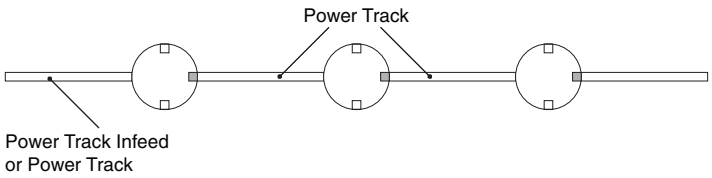
The NEC does not permit plugging an extension cord or relocatable power tap (RPT) into another extension cord or RPT. Many of the power units embedded in furniture are listed as a RPT and, per the NEC, are required to be plugged into a building hardwired receptacle. The Thread cord adapter is a listed multi outlet accessory and as such, is not considered an RPT, extension cord or a building receptacle. We recommend the NEMA monument for any Thread application where furniture-hosted power will be plugged in but some may desire to use the low-profile connector with an adapter for this application. Please note that while it is not a safety hazard, a local inspector may not approve because of the definitions and restrictions mentioned above.

Thread is listed as a multi outlet assembly in accordance with Article 380 of the NEC; it is not a flat conductor cable system (FCC) as identified in Article 324. FCC is not permitted in education, healthcare, or residential facilities.

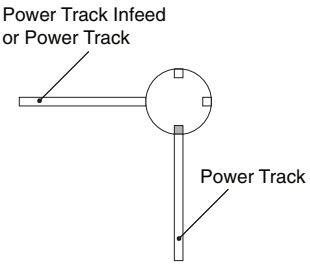
The intent of this requirement within the code is that outlets are not to be covered by carpet. The traditional multi outlet assembly design was covered with receptacles across the entire face and field wired. With that type of design, it is easy to understand it applies to the entire product. Thread is a new design, yet certified as a multi outlet assembly. The raceway is factory wired and able to be covered with carpet, but the connector/receptacle still cannot.

Track Configurations

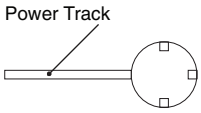
Inline



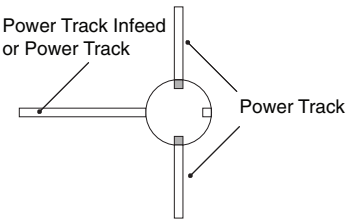
L 90°



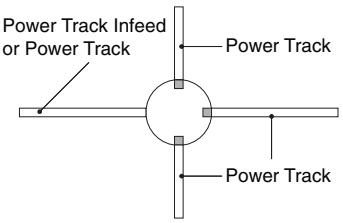
End of Run



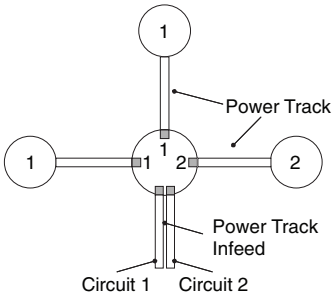
T



X



Single Circuit and Dual Circuit



Track Configurations and Power Access Points Legend

Inline	= connector of any type
L/90°	= one door or NEMA connector
End of Run	= connector of any type
T	= one door or NEMA connector
X	= blank connector only

Infeed Circuit Types: Single circuit infeeds distribute the same circuit through all tracks and power access points. Dual circuit infeeds distribute one circuit at 90° and 180° from the infeed track. The second circuit is distributed at 270° from the infeed track.

Steelcase has recommended a maximum of 10 receptacle outlets to avoid code variation and Hub maximization.

- Blank covers do not count towards the total number of receptacles because no access points are present in this configuration.
- One door and two door low profile connectors each count as a single receptacle.
- NEMA monument counts as two receptacles.
- Hub counts as zero receptacles.
- cULus listed.

Thread, Power Track and Power Track Infeeds, continued

Applications

Floor Specifications

The Thread power distribution system is intended for indoor use/dry locations only. Each connector in the system will require a hole to be cut in the flooring to permit access to the system. This is true for every connection point, even if only using a blank cover where no power access is needed. For this reason, we strongly recommend carpet tile when carpet is used. See installation guide for tools and direction.

Flooring surface compatibility is dependent on which track solution is used. Track with ramps is designed for carpet only. Carpet tile is preferred over broadloom. Carpet thickness must be between 0.225" and 0.450". Track with infill is used for carpet and resilient tiled surfaces with conforming properties (most types of LVT meet these standards). Rely on the flooring provider to determine if the surface meets the needs of the system (ability to screw down the connectors without the surface breaking). Flooring thickness must be between 0.100" to 0.250" for both carpet and LVT.

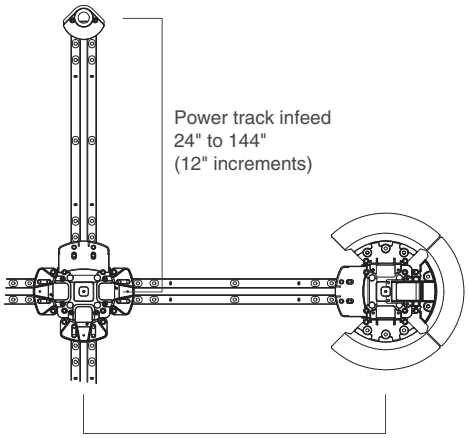
Tracks with infill require a field-supplied 6 mm underlayment.

Each piece of Thread power track or power track infeed must be fastened to the subfloor using one screw at each end of the track and one additional screw every 48". This means for power tracks that are shorter than 48" only two screws are required. For tracks 60" to 96" in length, three screws are required and for tracks longer than 96", four screws are required. Connectors require additional screws in to the subfloor. The track itself has multiple holes to allow it to be screwed down and has many more holes than are needed. For example, at the end of each track you will find four holes placed closely together but only one screw needs to be used. The extra holes are available in case of a damaged screw or some form of interference in the subfloor (like a rock in concrete) that might prevent a hole from being used. The same is true for holes all the rest of the way down the track; there are holes on both sides of the track and they are placed approximately every 12" to provide multiple options in case of interference in the subfloor. Please see installation guide for detailed instructions regarding this topic, including recommended types of fasteners and locating pilot holes.

A wall power infeed may be installed perpendicular to a wall or at any angle between 45° and 135°. However, it should be noted that once the infeed track is installed, all subsequent track connections will be either inline or at right angles to this track. There is no ability to create an angled connection between two tracks. Please refer to the installation guide for detailed instructions and drawings.

The Thread system does have some flexibility to accommodate uneven floors, however flooring elevation changes greater than $^1/_8$" must be filled in or sanded down to even out the surface. The area underneath and immediately surrounding a junction (connector of any type, including a blank) must be flat within $^1/_{16}$" in a 9" radius from the center of the junction. The Thread system is not designed for use on raised floors, across building expansion joints, or in areas where it will be subject to constant or rolling loads heavier than people. Please refer to the installation guide for additional details.

For connectors that will be in an ADA defined egress location, in order for the low-profile connector to be considered ADA compliant, the floor thickness stated above must be followed. Thinner surfaces can be used but will leave gaps and will not be ADA compliant. Thicker surfaces than stated are incompatible.



The length of a track is measured from the center of one connector to the center of another connector; a 24" power track by itself may not be precisely 24". This is intended to simplify planning and layouts.
Note: While this system has been developed to minimize its impact on the physical environment and to work with a broad range of existing furniture, certain conditions exist that may create undesirable interactions with other products. One example is the use of sled-base chairs since it may not sit flat when interacting with the track or connectors. Chairs utilizing pneumatic cylinders with minimum clearance of less than ½" should be used with care as the bottom of the cylinder can catch on a connector cover or on the slightly raised profile of the track beneath the carpet. Steelcase always strives to exceed the ½" clearance on our seating products but if you identify a seating product that does not have this level of clearance, a spacer ring is available from our service parts that can be placed between the cylinder and the base to increase the clearance. Please see part number 895446201SR in the Service Parts catalog, or part number 895446201MP for a quantity of 10 spacers.

Notice Regarding Installation: Thread must be anchored to the building floor for safe and proper use. Building construction varies and there may be components hidden below the floor surface that must be avoided when drilling holes to anchor the power track infeed and power track. Subflooring, including concrete, may contain electrical wiring, structural cabling, radiant heating lines, etc. To avoid potential property damage or unsafe conditions, consult with the building's architect or Engineer of Record to plan accordingly.

media:scape Tables TC

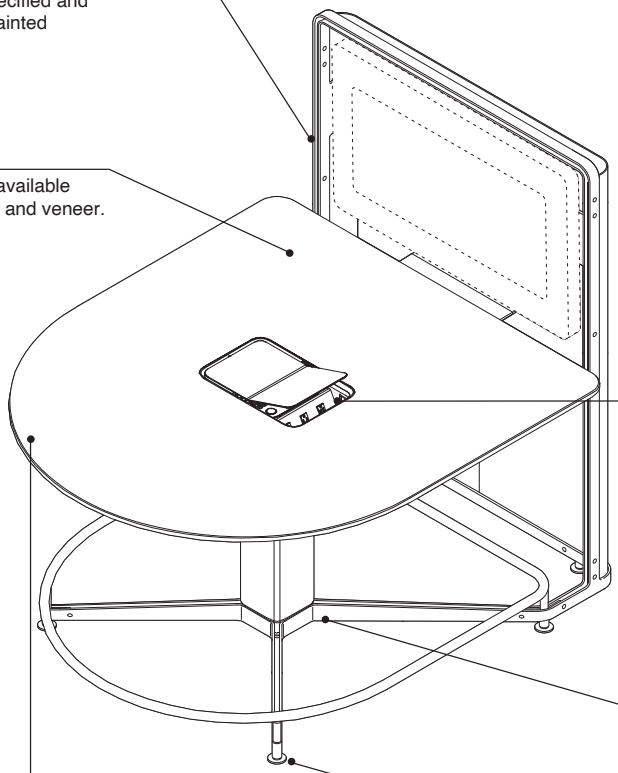
media:scape tables TC (Technology of Choice) support small team, collaborative meeting spaces. The tables are offered in three heights to facilitate collaborative work in multiple postures.
▶ Specifying, page 462

media:scape tables TC are available in three table heights: 28½"H desk-height and 38"H stool-height. Surfaces are 1³⁄₁₆" thick with a wood core and are supported by a column structure. All surfaces are available in laminate or veneer and come standard with a knife edge.

Desk-height and stool-height tables TC are available in ten shapes: square, rectangular, pear, round, small D-shaped, medium D-shaped, large D-shaped, capsule, offset, and TeamStudio (stool-height only). All are offered with an attached totem, except round.

Offset tables TC have a two-piece top which comes standard with two totems, one on each end of the table.



Totem is available in three finishes. Totems may be attached to all media:scape tables except round. The totem supports one flat screen monitor with an option to support two. An infill must be specified and is available in painted aluminum.

Surfaces are available in both laminate and veneer.

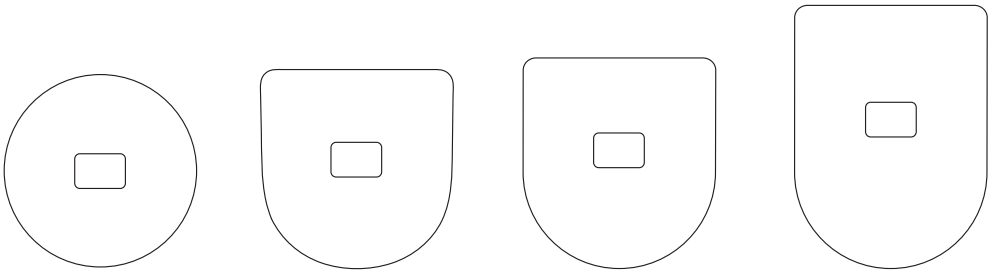
media:scape tables TC can be specified with or without the media well (cutout/power well). When a media well is specified, it houses six power receptacles, data ports, and has a hinged cover. No PUCKs, cables, or power button are included in media:scape tables without technology.

Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Profile surfaces have a 3 mm edge banding along all sides.

Glides provide 1" of adjustment for leveling.

Tip: Tables can be specified without media well (cutout/power well).



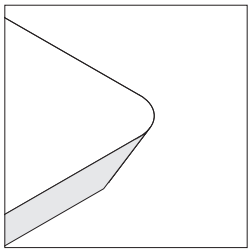
Round

D-Shaped Small

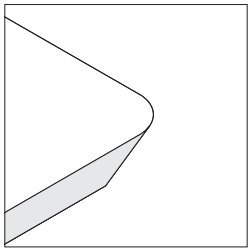
D-Shaped Medium

D-Shaped Large

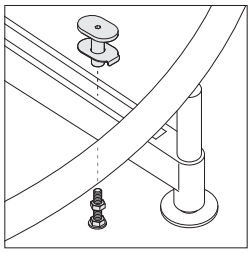
Product Details



Laminate surface edges are plastic and finish selection is available.
▶See *Recommended Surface Edge Finishes*, page 481, for recommendations.



Veneer surface edges are veneer and match the top surface.



Seismic anchor brackets secure the media:scape leg to the floor in seismic zones or in settings that need to be permanently attached to the floor. Brackets are ordered separately in a package of two (two packages should be ordered per table).
▶See page 470.

To secure a monitor to media:scape, a locking mechanism can be ordered from an external supplier such as PDR (pdrmounts.com/pdr2/) model number PDM-0108.

Safety Disclaimer

All Steelcase warranties and certifications are explicitly limited to the Steelcase product. For information regarding any non-Steelcase electrical or electric components, refer to the identification label(s) and use instructions provided with those components.

Power and Data

Power is included whenever the media well (cutout/power well) is specified.

Wires can be housed in the column media well.

Data:
End user accessible network cables can be connected within the media:scape media well for end users who require a physical network connection.

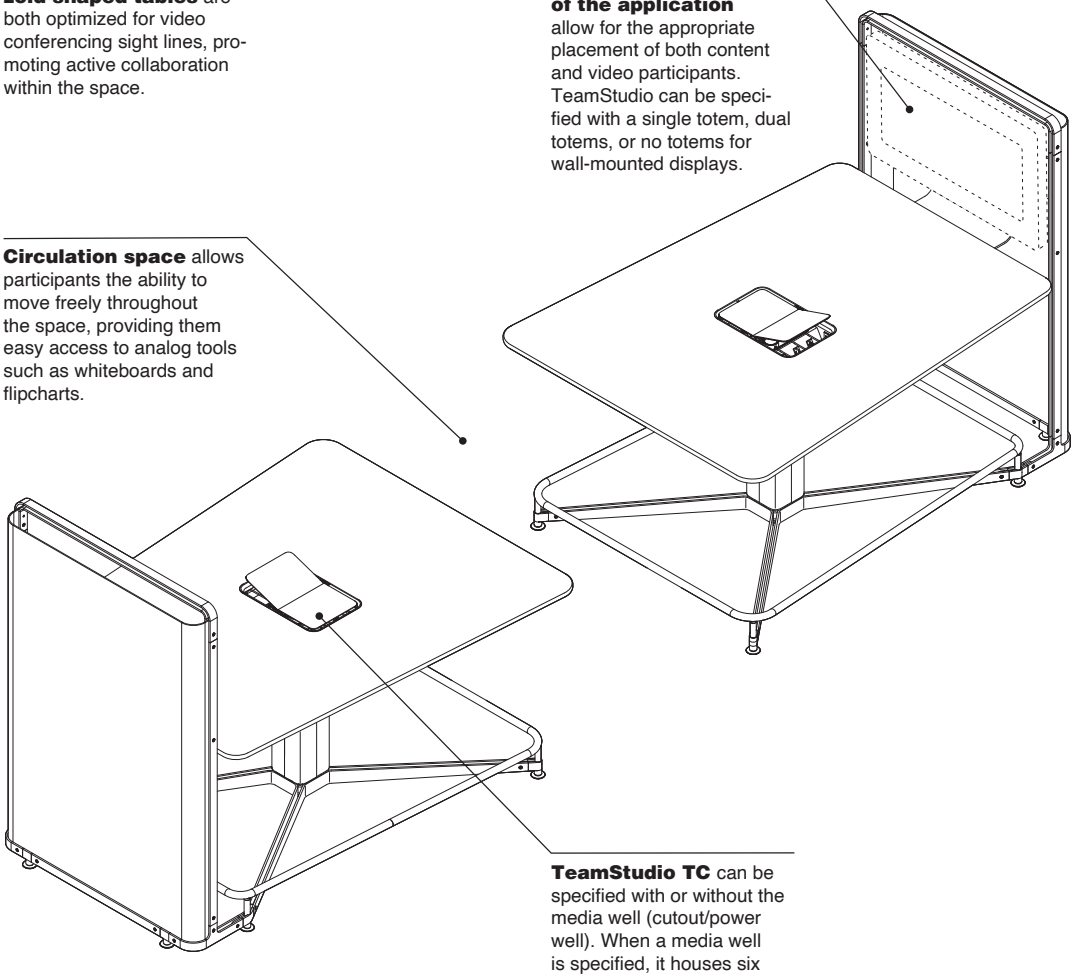
media:scape TeamStudio TC

media:scape TeamStudio TC (Technology of Choice) is designed for active project teams collaborating on video. The tables are offered in stool-height to optimize for video sight lines and for multiple work modes. media:scape TeamStudio facilitates the sharing of both digital and analog information, while amplifying project team collaboration for both sides of the video conference.
▶ Specifying, page 462

Two opposing trapezoid-shaped tables are both optimized for video conferencing sight lines, promoting active collaboration within the space.

Displays on both sides of the application allow for the appropriate placement of both content and video participants. TeamStudio can be specified with a single totem, dual totems, or no totems for wall-mounted displays.

Circulation space allows participants the ability to move freely throughout the space, providing them easy access to analog tools such as whiteboards and flipcharts.



TeamStudio TC can be specified with or without the media well (cutout/power well). When a media well is specified, it houses six power receptacles, data ports, and has a hinged cover. No PUCKs, cables, or power button are included in media:scape without technology tables.

Product Details

Safety Disclaimer

Please note that these are the parameters used by Steelcase. We do not have a way of checking that the work done in the field meets all our quality standards. Therefore, please be aware that by doing a field cutout/retrofit/mounting additional equipment, you assume full responsibility for local inspections, workmanship, reliability, and ultimate performance of the product.

The safety certifications for this product, as it is sold without electronics, are provided by Steelcase. This product as sold has no EMC certifications because there are no electronic components using any frequency above 9,000hz (cycles per second). Any required safety and EMC certifications for any third party electronic systems provided by the owner will need to be acquired by the owner at its expense. Steelcase cannot provide any assistance in this electronic equipment certification.

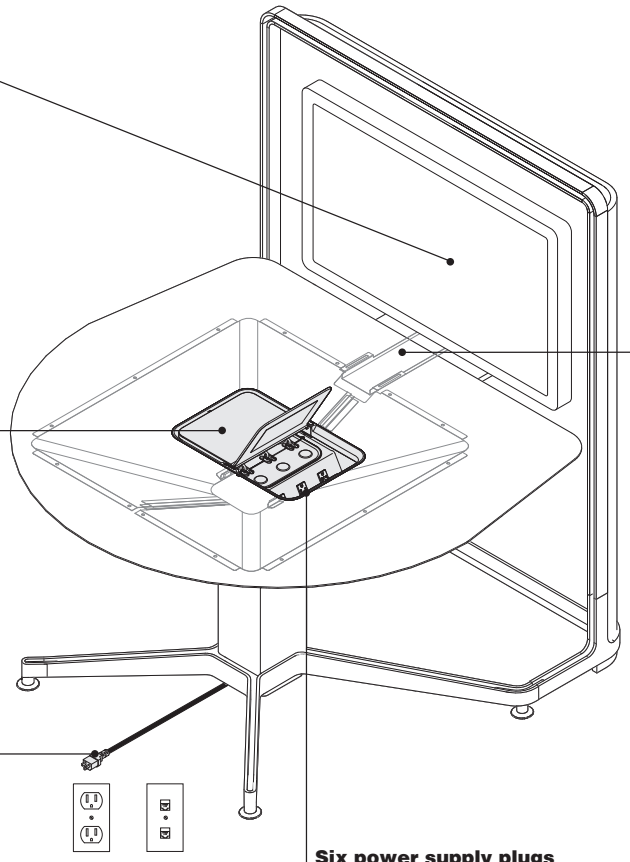
Extension cables for media:scape TeamStudio are provided and can be routed through the floor (raised floor or cored) or via a cable track from an external supplier such as Connectrac model 3.7 In-carpet or On-floor Wireway (www.connectrac.com). The overall length of the cable track should be at least 116".

Under the Hood—media:scape Table TC

A single monitor table with totem should be specified with a 46"–50" diagonal screen dimension for optimal viewing. A dual monitor table with totem should be specified with a 40"–42" diagonal screen dimension. The inside dimension of the totem, from above the table top to the underside of the totem, is 28 1/2"H, and the internal width between the two sides of the totem is 47 1/2"W.

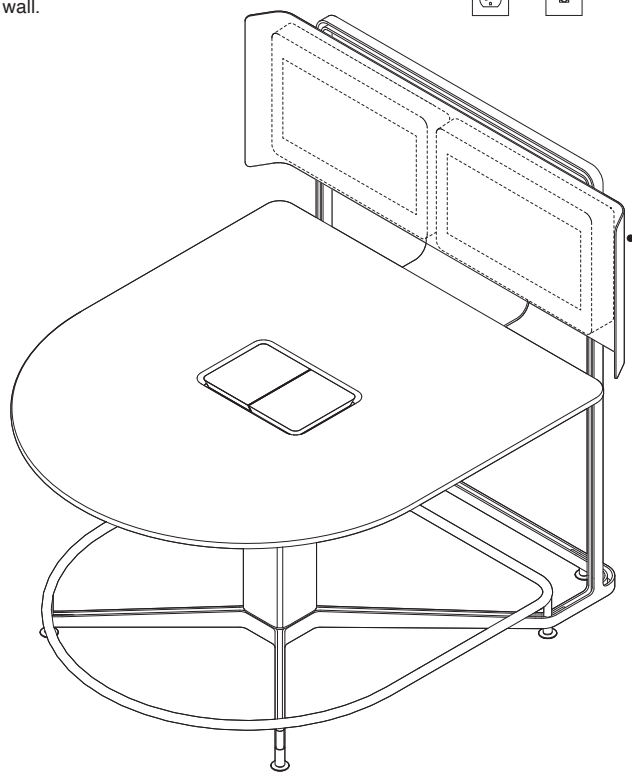
Media well provides power receptacles. Data ports can be added if desired.
▶See page 460

A 7' power cord exits the base of the column and can be plugged into the floor or wall.



A bridge cover for ease of cable management is included on all tables with a totem. The dimensions for this bridge cover is 5"W x 7/8"H.

Six power supply plugs are provided within the media well of every media:scape table, when specified with media well (cutout/power well).



For dual monitor solutions with a totem, a shroud is supplied to which 43" monitors can be attached.

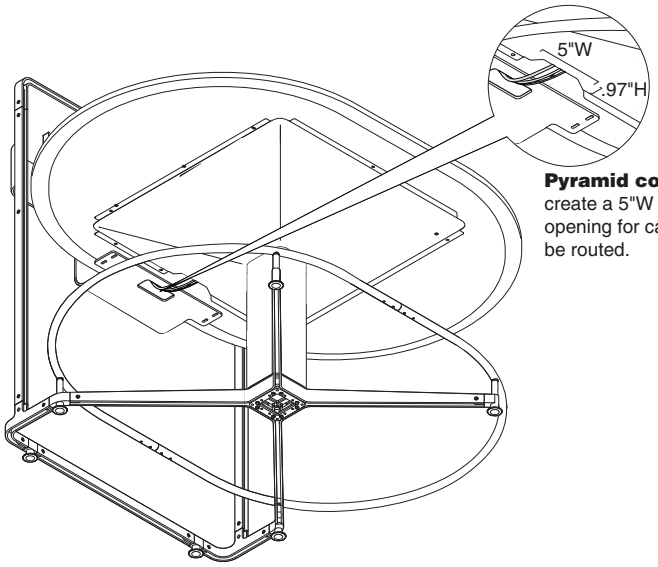
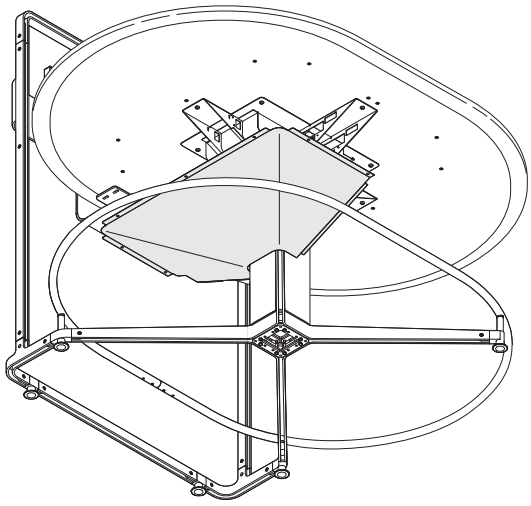
media:scape TC—Data Cable Routing

Data cables can be routed up through the column and connected to the data jacks housed in the media well.

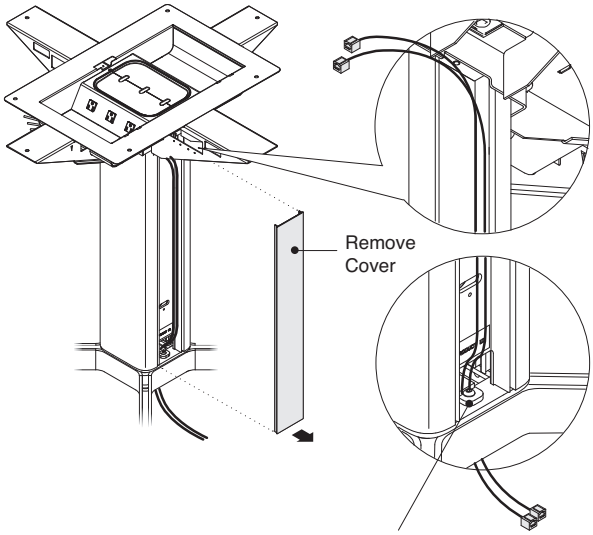
When the unit is specified with no media well (no cutout/power well), the space available is 21"D x 11.32"W x 3.45"H.



Pyramid covers create a 5"W x 0.97"H opening for cables to be routed.

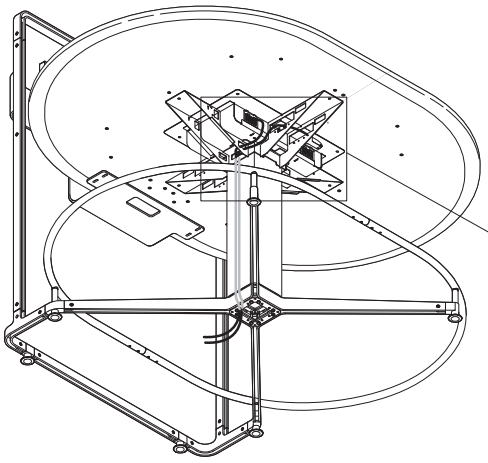


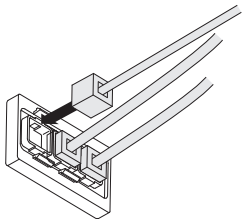
1. Remove covers



2. Route cables.

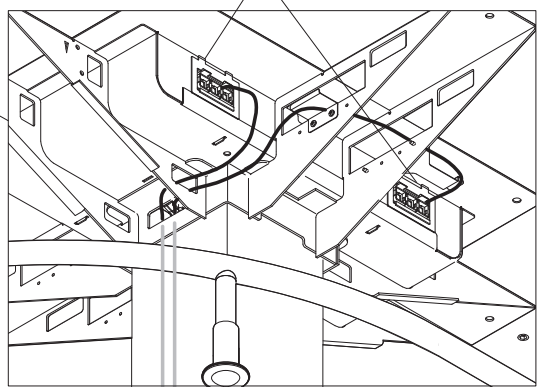
Dimensions of the space available within the column for cables is 0.93"D x 3.15"W.





CommScope black faceplates
M13C-003 (included)

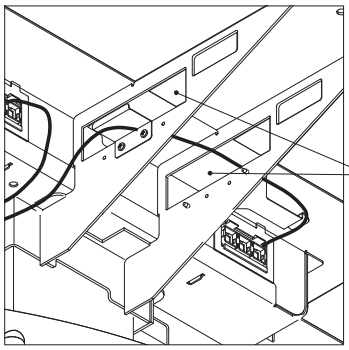
Tip: The faceplates can be removed and replaced with other standard faceplates. The faceplate opening size is 1.38"H x 2.71"W.



3. Plug in data cables.

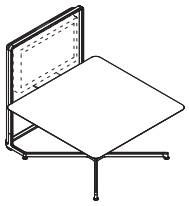
media:scape - well

4. Replace covers.



Slotted support structure can fit 5.5"D x 10"W x 1.6"H technology devices or components. Note that this opening exists on both sides of the column.

Desk-Height Tables TC



Tip: Please note that these are the parameters used by Steelcase. We do not have a way of checking that the work done in the field meets all our quality standards. Therefore, please be aware that by doing a field cutout/ retrofit/mounting additional equipment, you assume full responsibility for local inspections, workmanship, reliability, and ultimate performance of the product. The safety certifications for this product, as it is sold without electronics, are provided by Steelcase. This product as sold has no EMC certifications because there are no electronic components using any frequency above 9,000hz (cycles per second). Any required safety and EMC certifications for any third party electronic systems provided by the owner will need to be acquired by the owner at its expense. Steelcase cannot provide any assistance in this electronic equipment certification.

For composite veneers, wood and laminate group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

ScapeSeries Tables

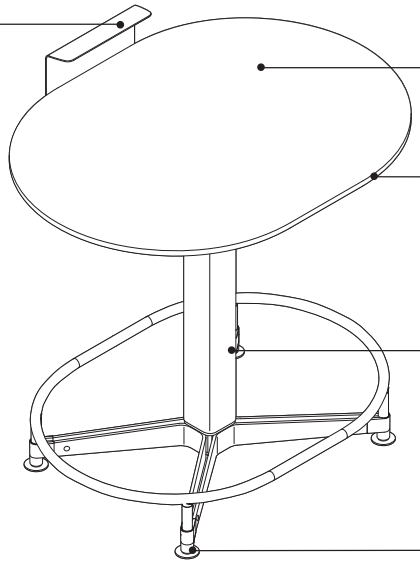
ScapeSeries table supplies power to users and invites others to walk up and collaborate in multiple postures. It combines cornerless curves with straight sides that may dock alongside walls more effectively than typical round café tables, resulting in a more thoughtful relationship between worksurfaces, users, and the interior architecture.
▶Specifying, page 474

Shroud comes standard with the table. It clamps to the underside of the worksurface and conceals the power and data strip.



Surfaces are available in both laminate and veneer.

Profile surfaces have a 3 mm edge banding along all sides.

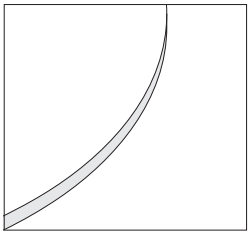
Base is available in three finishes and includes a column and legs. A stainless steel foot ring is standard on the stool-height tables.

Glides provide 1" of adjustment for leveling.

Actual Dimensions

Depth	32"
Width	42"
Thickness	¾"
Desk Height	29"
Stool Height	38"

Product Details



Laminate surface edges are plastic and finish selection is available.
▶See *Recommended Surface Edge Finishes,* page 481, for recommendations.

Veneer surface edges are veneer and match the top surface.

Power and Data

Power and data strip is ordered separately. Cables are routed along the underside of the worksurface and down the column. Electrical specifications are: ~120V, 15A, 180W, and 60HZ.

Surface Materials

Surface
- Laminate
- Wood veneer

Edge
- Plastic—laminate surfaces
- Wood veneer—wood veneer surfaces

Base

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual.* Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see www.*steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on c:scape and media:scape, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

For additional information, refer to the *Surface Materials Reference Manual*.

Wood

Applies to:
- media:scape tables
- ScapeSeries tables

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the Surface Materials Reference Manual for descriptions of each cut.

Applies to:
- Ottoman round legs

V1AC Natural Cherry
V1AM Clear Maple
V1EW Dark Walnut

Applies to:
- Big Table

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Open-Pore Planked Veneer
3P41 OP Planked Cherry
3P51 OP Planked Maple
3P61 OP Planked Oak
3P71 OP Planked Walnut
3VFX OP Unmarked Oak

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Wood Group 2

Flat-Cut Full-Fill
3064 FC/FF Graphite Walnut

Surface Materials, continued

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as a part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

e³ environmental CeramicSteel

The e³ environmental CeramicSteel Difference
Steelcase Premium Whiteboards incorporate the e³ environmental CeramicSteel surface, which is the first and only ecologically intelligent whiteboard surface to receive a MBDC Cradle to Cradle Bronze certification. Cradle to Cradle certification evaluates products for environmentally safe and healthy materials; energy and water use during production, the ability to recycle and reuse materials, and social responsibility. Steelcase has created its fourth generation of CeramicSteel writing surfaces, e³, which delivers the properties of its best selling writing surface, P³ CeramicSteel, and complies with the Cradle to Cradle certification criteria. Steelcase will continue to follow standards set forth by MBDC Cradle to Cradle certification to reaffirm our commitment to sustainability. For over five decades, millions of boards have been produced around the world using P³ CeramicSteel. Steelcase used this cross section of consumers to gather the information that helped determine what the next generation of writing surfaces should provide. Our internationally renowned R&D team worked with experts in the field of ceramics and technology to create e³ environmental CeramicSteel surface – the new industry standard for superior quality.

The e³ environmental CeramicSteel Advantage
The ceramic finish consists of a specially formulated glass substance applied by machine. The e³ environmental CeramicSteel surface is fused to steel at a temperature of approximately 1500 degrees Fahrenheit for whiteboards. It registers at a minimum of five (5) on the revised Mohs hardness scale.

Benefits of e³
- Ultra-smooth writing surface
- Improved erasability
- Greater color contrast
- Significantly less surface/light distortion
- Optimum eye comfort
- Enhanced visibility
- Reduced chalk pressure, greater adherence
- Increased chalk/surface contrast
- Accepts magnets

Environmental Features
- Enamel fused to cold-rolled enameling-grade steel
- In all coatings, the total amount of heavy metals cadmium, mercury, hexavalent chromium, and lead is less than 0.1%
- All coatings are free of arsenic and antimony
- No Volatile Organic Compounds (VOCs)
- Steel core is made from minimum 30% post-consumer and post-industrial waste
- e³ environmental CeramicSteel surface is 99% recyclable

Cleaning/Daily Care and Maintenance

Maintenance

Before the first use of your CeramicSteel:

- Remove the protective film.
- Wipe board with a clean cloth moistened with a high-quality whiteboard cleaner.
- Wipe surface dry with a clean cloth.

Daily cleaning instructions for your CeramicSteel:

- Wipe surface with a clean cloth moistened with warm water.
- Wipe surface dry with a clean cloth.

More thorough cleaning may be required if writing is left on the board for more than two days.

Textura Fabric Cleaning and Care

Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.

- For deeper cleaning use alcohol spray or wipes. Bleach can be used by following the guidelines below.
- Anti-bacterial sprays and wipes can be used to wipe down the fabric to disinfect.

General commercial disinfection:

- Use a household bleach (containing approximately 4.5 oz per 100 oz of sodium hypochlorite), which should then be used in a 1:10 dilution.
- Follow the instructions of the brand.
- Measure out the required dose in relation to the quantity of water, soak a white or lightly colored cloth in the solution, squeeze out any access liquid and gently wipe the fabric before leaving dry.

Acoustic Cleaning and Care

Remove spills immediately using damp, clean cloth. Dab with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. Always test in an inconspicuous area first.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently. Repeat using only a clean, water dampened cloth to remove bleach concentration then pat dry with a lint free cloth.

Note: Fabrics have been developed to withstand regular cleaning maintenance and disinfection. Please follow the manufacturer instructions on cleaning and disinfection agents. We recommend spot testing on an inconspicuous part of the material first. Fabric samples are available for testing by contacting samples@polyvision.com.

Markers

Use any high-quality dry erase marker.

⚠ CAUTION

For optimal performance, Steelcase recommends the use of high quality solvent-based dry-erase markers, as opposed to water-based dry-erase markers (also called "low odor markers"). Low odor markers do not perform as well as solvent-based because the water takes longer to dry and the ink clings more aggressively to the board's surface, leaving behind a film. Replace markers when almost dry to avoid poor erasability. Replace the eraser felt regularly. Dirty felt or erasers will result in poor erasability.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

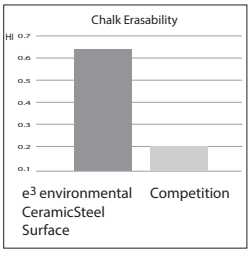
- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

Material Description

e³ environmental CeramicSteel is produced by a controlled, continuous coil-coating process. The surface consists of a steel core of .013" and .019" thickness covered on both sides with thin enamel coatings. The ceramic finish is fused to the steel at a temperature of approximately 1500°F for whiteboard and 1250°F for chalkboard.

Characteristic	e³ environmental CeramicSteel
Writeability	Whiteboards can be written on with any dry-erase, semi-permanent, water-soluble, permanent marker, pen, or crayon without damaging the surface. Chalkboards have a superior, low-gloss, matte finish that readily accepts chalk providing a sharp, unbroken line with less pressure and maximum surface adherence.
Visibility	Contrast/waviness for whiteboards (light and dark effects) shall be no greater than 15 when tested with BYK - Gardner Wave Scan 5+ measurement device showing visual acuity (contrast sensitivity) to the human eye at distances greater than 3 meters (10'–0"). Contrast/waviness for chalkboards (light and dark effects) shall be no less than 20 when tested with the contrast measurement test with 773-gram load on chalk. Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.
Erasability	For whiteboards, dry-erase marker ink can be wiped off easily with a dry cloth or standard eraser. Crayon, semi-permanent, and permanent marker pen inks can be removed with a solvent based cleaner. Chalkboards erase easily with a dry cloth or standard chalk eraser, retains minimal residual chalk dust, and will not leave "ghost writing." Color change (dark/light) after chalk erasing is reduced 60% from traditional surfaces.
Cleanability (Washability)	WET Ghost measurements on chalkboard surfaces before and after wet cleaning shall not exceed a factor of 0.49. For further care and cleaning instructions, refer to the *www.steelcase.com/en/products/category/markerboards/static-boards*.
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1250°F for chalkboards and +1500°F for whiteboards. High resistance to impact damage, abrasion, scratching, and color fading. The e³ environmental CeramicSteel surface registers at a minimum of 5 for chalkboards and 6.5 for whiteboards on the revised Mohs hardness scale.
Magnet Capability	The e³ environmental CeramicSteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.
Flame Resistance	The e³ surface is 100% non-combustible.

Low-Gloss Whiteboards



The ultra-smooth finish enables dry markers and chalk to glide easily across the e³ environmental CeramicSteel surface with minimal friction. The surface smoothness allows more dry-erase ink and chalk to be removed, improving erasability and eliminating "ghost writing".

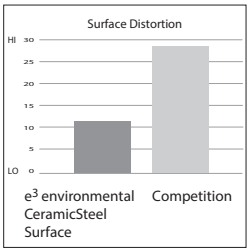
*All whiteboard erasability tests were conducted using High-Gloss e³ environmental CeramicSteel surfaces.

Writeability

Low-Gloss provides the same writing characteristics as High-Gloss.

Erasability

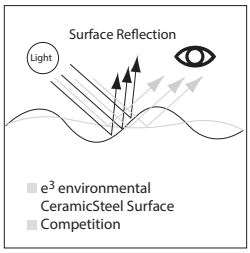
Low-Gloss surfaces will not erase as thoroughly as High-Gloss surfaces. When this occurs, a water-dampened cloth will be required to erase the surface.



Surface distortion (Orange Peel) has been reduced significantly in direct comparison with the competition's surface.

Cleanability

After normal erasing of Low-Gloss surfaces, solvents may be used to remove harder-to-erase dry marker inks and residue from other pens. Always clear water rinse after using any cleaning agent on the surface.



The e³ environmental CeramicSteel surface maximizes the performance of reflected light and reduces surface glare, resulting in improved visibility under a wide range of lighting conditions.

Understanding Parametrics

What is Parametric? Parametrics is the ability for a customer to change dimensions of a product within pre-engineered limits.

Customers do not have to go through the specials process for dimensional size changes, thus reducing lead times.

Parametric Premium Whiteboards allow for the specification of non-modular sizes in three trim styles to suit a variety of design applications. The two style numbers are PWBWTBRD for whiteboards and PWBTKBRD for tackboards.
▶Specifying, page 502

Trim styles:
- Edge Series
- 110 Series
- 555 Series

Parametric Polyvision whiteboards allow for specification of non-modular sizes with or without edge framing, varying by product selected. The two style numbers for Polyvision whiteboards are **PVFLOWPM** for Flow and **SANSPM** for Sans.

Two edge options are available:
- Sans—frameless only, optional accented edge colors
- Flow— anodized aluminum, framed or frameless

Parametric products requiring digital print graphics will need to be quoted by Specials. Refer to Sans, Sans Light, or Parametric Premium Whiteboards (modular sizes only) for standard graphic patterns and finish color options.

Overall Dimensions

Premium whiteboard and tackboard dimensions can be ordered to the 1/16 of an inch within these ranges.

For whiteboards, the range of sizes is:
- Width: 24.25" to 192.25"
- Height: 18.25" to 48.25"

For tackboards, the range of sizes is:
- Width: 24.25" to 120.25"
- Height: 18.25" to 48.25"

Polyvision whiteboard dimensions vary by product selected and orientation. Dimensions can be ordered to the 1/16 of an inch within these ranges. The marker tray option is not available for Sans or Flow parametric.

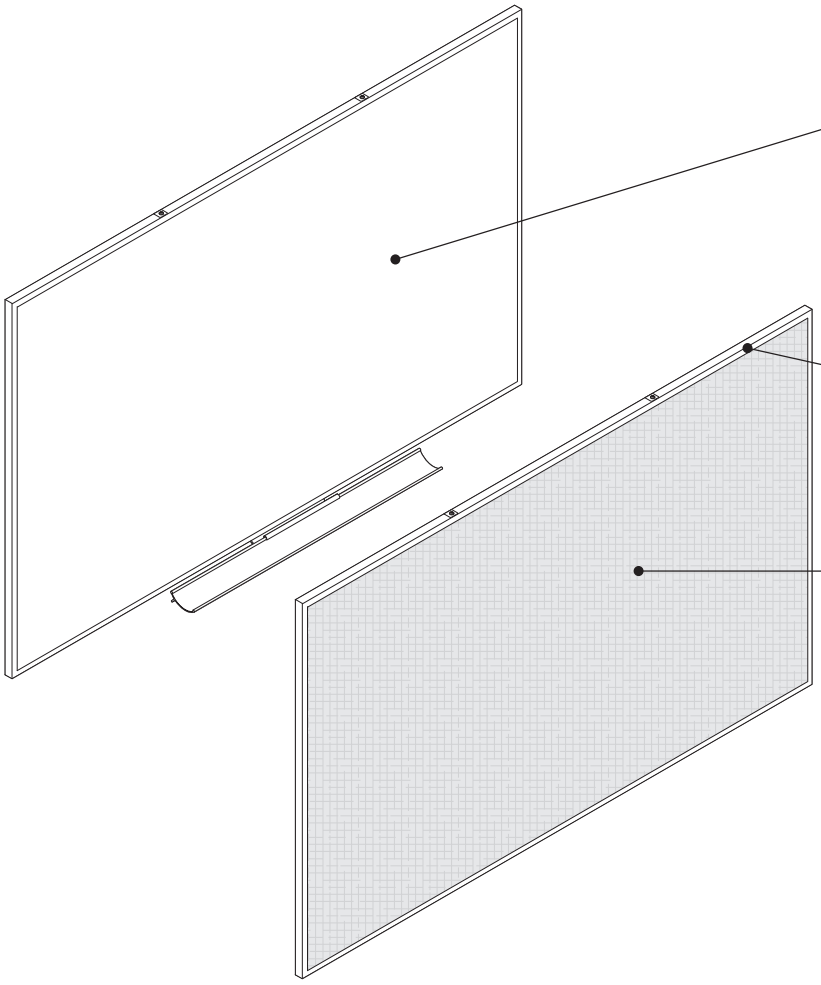
SANSPM the range of sizes is:
Horizontal:
- Width: 24" to 144" (610 mm to 3658 mm)
- Height:24" to 46.625" (610 mm to 1184 mm)

Vertical:
- Width: 24" to 46.625" (610 mm to 1184 mm)
- Height:46.6875" to 96" (1186 mm to 2438 mm)

PVFLOWPM the range of sizes is:
- Width: 46.6535 (1185 mm) The width for **PVFLOWPM** is a fixed dimension
- Height:60" to 96" (1524 mm to 2438 mm)

Parametric Premium Whiteboards and Tackboards

Edge Series, 110 Series, and 555 Series



Writing surface is 7655 White High Gloss high-performance e^3 environmental CeramicSteel.

Digital printing is available in either standard graphics or custom graphics (requires Polyvision print number) on modular sizes only. Please contact pvstudioteam@polyvision.com to acquire a custom print number.

Trim and marker tray are 8043 Clear Anodized Aluminum.

Tackable surface on tackboards is optional and available in a selection of standard or Select Surface fabrics. COM is also available.

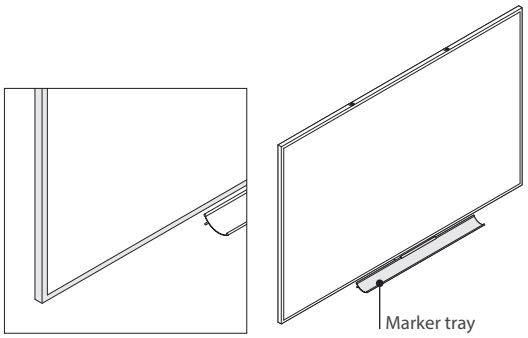
Parametric Premium Whiteboards and Tackboards, continued

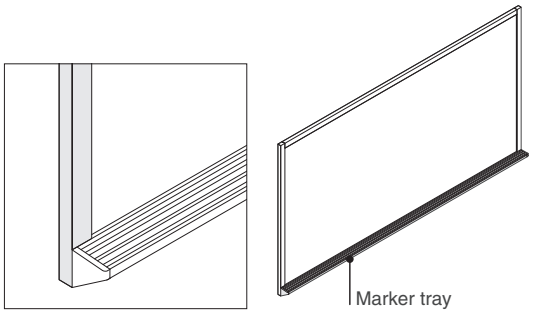
Trim and Marker Trays:

Edge Series



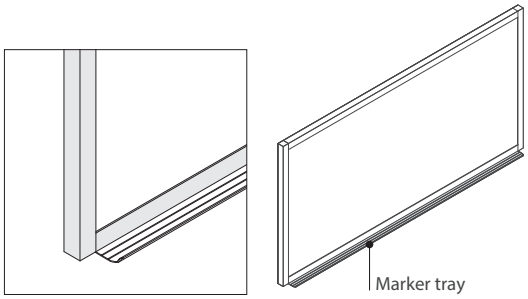
Trim is ¼" with undersized marker tray. Both are clear anodized aluminum. Trim is also available in 4750 Champagne Metallic.

555 Series



Trim is 1¼" with full width box style marker tray. Both are clear anodized aluminum.

110 Series



Trim is ¾" with full width blade style marker tray. Both are clear anodized aluminum.

Product Details

Sizes of whiteboards and tackboards are nominal and parametric; refer to actual dimensions for exact specifications.

Modular size option allows specification of height and width in pre-defined combinations.

Whiteboards		Tackboards	
Height	Width	Height	Width
18.25	24.25	18.25	24.25
24.25	36.25	24.25	36.25
36.25	48.25	36.25	48.25
48.25	36.25	48.25	36.25
48.25	48.25	48.25	48.25
48.25	60.25	48.25	60.25
48.25	72.25	48.25	72.25
48.25	96.25	48.25	96.25
48.25	120.25	48.25	120.25
48.25	144.25*		
48.25	192.25*		

Tackboard construction is ⅜" fiber board over ⅛" hardboard.

Fabric is available on tackboards only and comes in a selection of standard or Select Surface fabrics. COM is also available.
▶ See page 556.

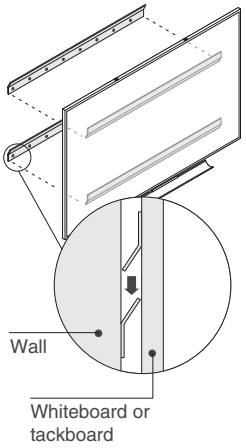
The tray width for Edge Series will correspond to the overall whiteboard width. See the matrix below for the breakdown. The tray width for 110 and 555 Series will be the width of the board.

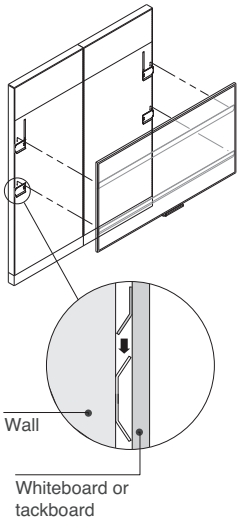
Board Width (Inches)	Tray Width
24.25000– 36.00000	18"
36.06250– 48.00000	24"
48.06250– 60.00000	36"
60.06250– 72.00000	48"
72.06250– 96.00000	48"
96.06250–120.00000	60"
120.06250–144.00000	72"
144.06250–192.25000	96"

A no tray option is also available for whiteboards.

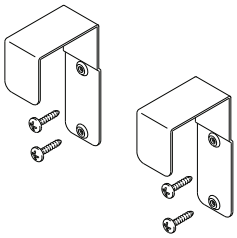
Connections

Edge Series





On- and off-module bracket allows for Premium Whiteboards to be mounted on Privacy Wall, Answer, or Kick using a standard metal cleat-mounting system.

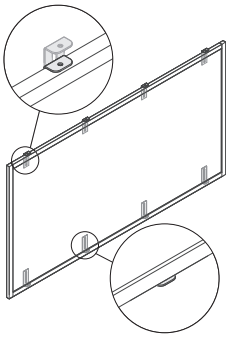


2" over panel bracket/ hook mounting system allows for Premium Whiteboards to be mounted on Kick and Avenir.

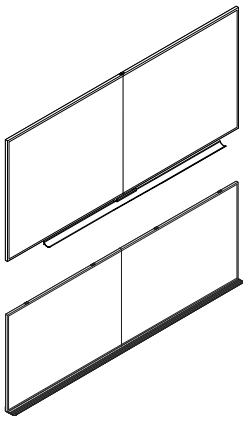
3" over panel bracket/ hook mounting system allows for Premium Whiteboards to be mounted on Answer and Montage.

110/555 Series

Metal cleat-mounting system is standard on Edge Series.

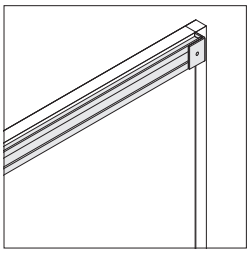


Wall-anchored mounting system is standard on 110 and 555 Series.



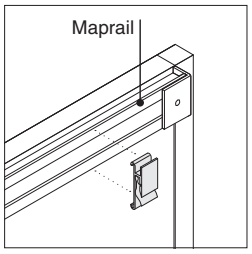
Spline joints allow larger format boards to be delivered in two equal pieces and require assembly on-site. There will be a visible seam where the boards and marker trays are joined that will not hinder the performance or writeability of the board in any way. They are available as options with upcharge on Edge, 110, and 555 trim types 120.25" and larger in width.

Additional options for 110 and 555 Series include maprail, map hook/ clips, flag holder, and roller bracket.

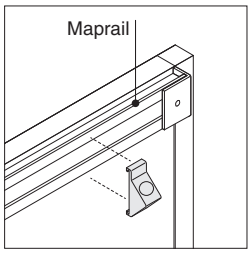


1" maprail is of cork construction and allows for versatility with accessories. Maprail is not available on tackboards.

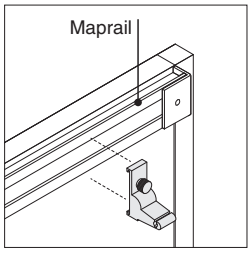
Map hook/clip, flag holder, and roller bracket must be specified with maprail; cannot be specified separately.



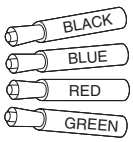
1" map hook/clip comes as a set of two and allows for ease in hanging maps and charts for presentation purposes.



1" flag holder allows for convenient hanging of flags.



Roller bracket holds maps or roll-up projection screens and can be ordered if 1" maprail option is selected. Roller bracket is not available on tackboard.



Package of four dry-erase markers (black, blue, red, and green) and one eraser is included with whiteboards.

Parametric Premium Whiteboards and Tackboards

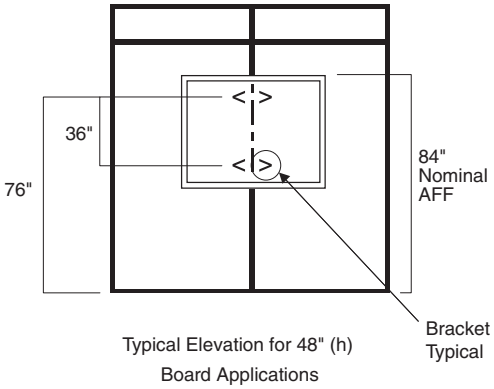
PPPW (Privacy Wall) and On/Off Module Bracket Application Guide

PPPW (Privacy Wall) Bracket Application Guide

- On- and off-module bracket for installation of whiteboards and tackboards on Privacy Wall, Answer, and Kick.
- Allows Premium Whiteboards to be mounted on Privacy Wall, Answer, Avenir, or Kick using a standard metal cleat mounting system.
- Ideal application on a Privacy Wall or when spanning multiple Answer/Kick panels with a single whiteboard.
- Not for use with 110 and 555 Series.
- Cannot install two boards at right angles.
- Ships with four or six non-handed brackets; field-modify for application by removing tabs per instructions.
- The required minimum number of PPPW (Privacy Wall) Brackets must be installed to ensure secure application of board.
- Brackets must be installed in the correct orientation; i.e. left or right hand, as indicated in the key and diagrams below.

NOTE: Space between panel face and rear of board is ± 1/4".

Standard Mounting Height and Centerline Application

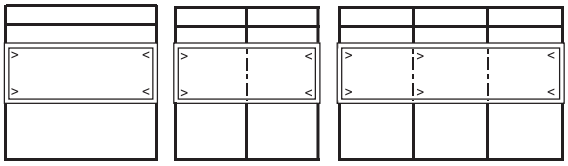


Typical Elevation for 48" (h)
Board Applications

- 48"H x 48"W only

On-Module — Minimum Bracket Application

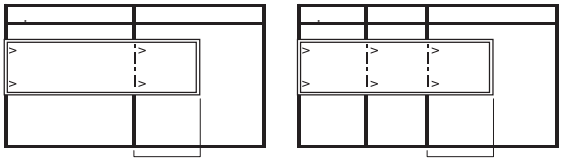
Board Width	48"	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	4	6	6	6



Asymmetrical Off-Module Overhang Allowances and Minimum Bracket Application

Board Width	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension A - Maximum Overhang	18"	22"	25"	29"	36"	38"	38"	38"

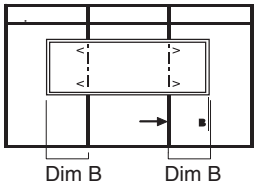
NOTE: Bracket direction must be the same as the overhang direction. This example shows right hand bracket installation with right hand overhang.



Symmetrical Off-Module Overhang Allowances and Minimum Bracket Application

Board Width	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension B - Maximum Overhang	18"	22"	25"	29"	36"	38"	38"	38"

NOTE: Dimension B must be equal on both the left and the right. For example, a 60" board may have a maximum 18" overhang both left and right side.



KEY:

> Right Hand Application of PPPW Bracket

< Left Hand Application of PPPW Bracket

Digital Print Options

Digital printing is offered on Parametric Premium Whiteboards, Sans, Sans Light, and Flow products. Digital print graphics are permanently baked into the CeramicSteel surface and are scratch, abrasion, bacteria, chemical, fire, and graffiti resistant. Both standard and custom options are available.
Tip: Flow only available with custom option.

Standard Digital Print Options for Sans, Sans Light, and Premium Whiteboards

Flow

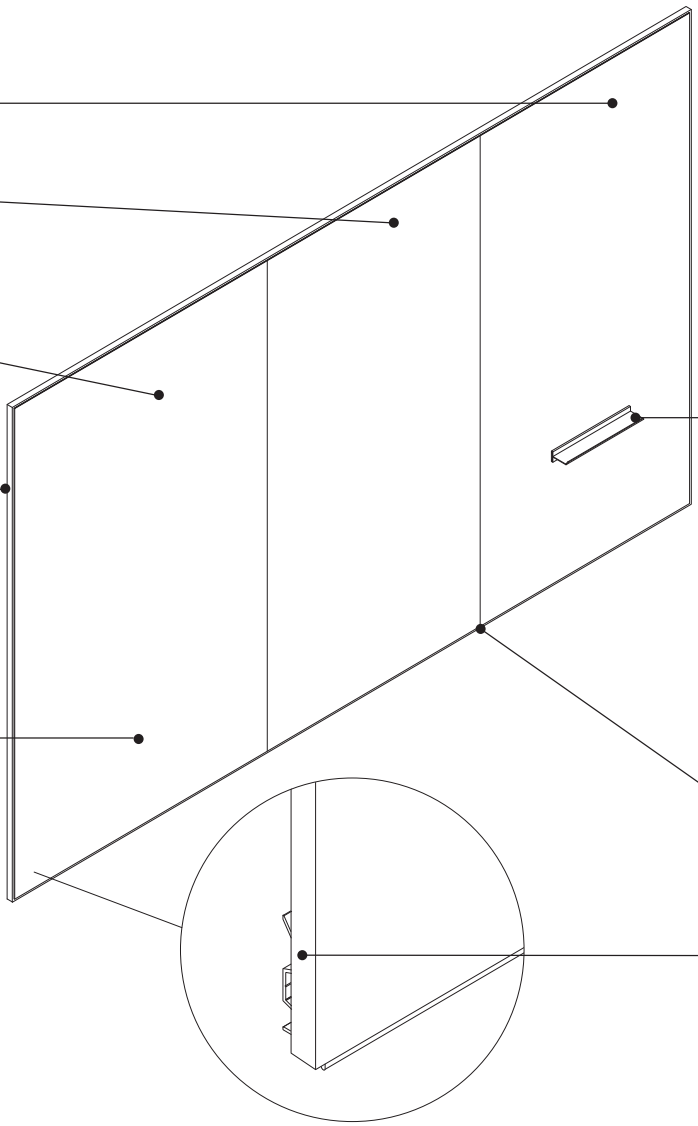
Flow is a modular panel system with no vertical joint covers providing a large format writing surface. Available as frameless or with outer aluminum frame.

For custom capability and parametrics for special sizes, please see *Parametric Collaborative Surfaces.*
▶ See page 512



Right-end panel position

Intermediate panel position

Left-end panel position

Outer frame is extruded, clear anodized aluminum.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS, or PV09 Hygienic White Gloss. 7661 Gray Chalk 6502C CS requires chalk sticks or liquid chalk for writing.

Custom graphic option is available. Polyvision print number required. Please contact pvstudioteam@polyvision.com to acquire a custom print number.

Marker tray, dry erase markers, and eraser come standard with white gloss finish for single panel and right-end panel options. If gray chalk finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

Inner vertical joint allows for a frameless panel seam.

Frameless Flow, has a precision cut and sealed edge with durable lacquer painted edge. Edges are waterjet cut and sealed with high quality paint. Edges show striations. Frameless edge comes standard in the same finish as specified CeramicSteel color number of the panel.

Horizontal Flow

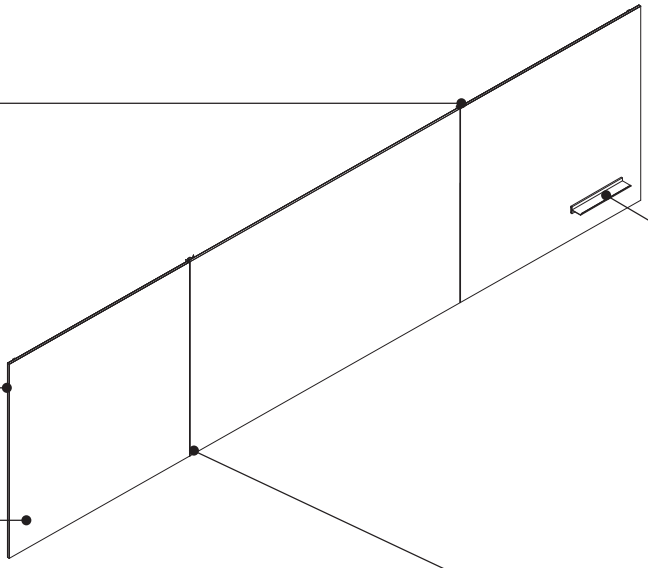
Horizontal Flow is a multi-panel panel system with no vertical joint covers providing a large and long format writing surface. Available as frameless or with outer aluminum frame.

Inner vertical joint allows for a frameless, splined panel seam.

Outer frame is extruded, clear anodized aluminum. Frameless available as an option.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS, or PV09 Hygienic White Gloss. 7661 Gray Chalk 6502C CS requires chalk sticks or liquid chalk for writing.

Custom graphic option is available. Polyvision print number required. Please contact pvstudioteam@polyvision.com to acquire a custom print number.



Marker tray, dry erase markers, and eraser come standard with white gloss finish for single panel and right-end panel options. If gray chalk finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

Frameless Horizontal Flow, has a precision cut and sealed edge with durable lacquer painted edge. Edges are waterjet cut and sealed with high quality paint. Edges show striations. Frameless edge comes standard in the same finish as specified CeramicSteel color number of the panel.

Sans

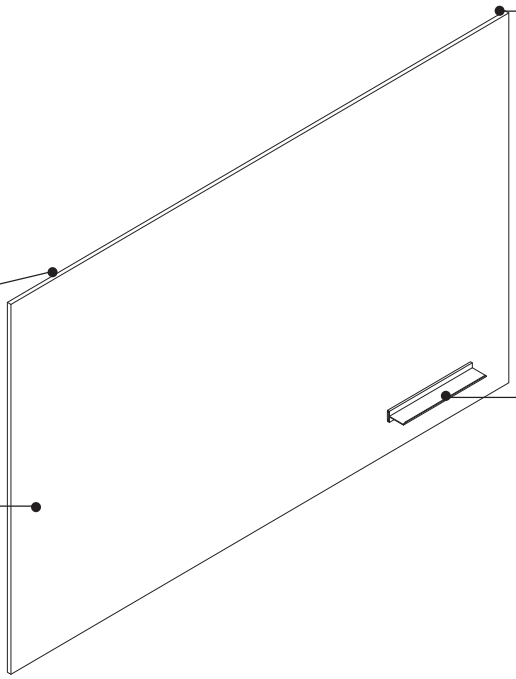
Sans is a writing board with streamlined, precision cut, frameless edges. Orientation of writing board can be mounted horizontally or vertically.

For custom capability and parametrics for special sizes, please see *Parametric Collaborative Surfaces.*
▶ See page 524

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Contrasting options are also available. Panel thickness is 1/2" or 13 mm.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS, 7673 Merle CS, 7674 Platinum Solid CS, and PV09 Hygienic White. 7661 Gray Chalk 6502C CS is a true chalkboard surface that requires chalk sticks or liquid chalk for writing.
Tip: Available with standard graphics and custom graphics.

Tip: For custom graphics, please contact pvstudioteam@polyvision.com *to acquire a custom print number.*



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

Marker tray, dry erase markers, and eraser come standard with all markerboard surfaces. If chalkboard finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

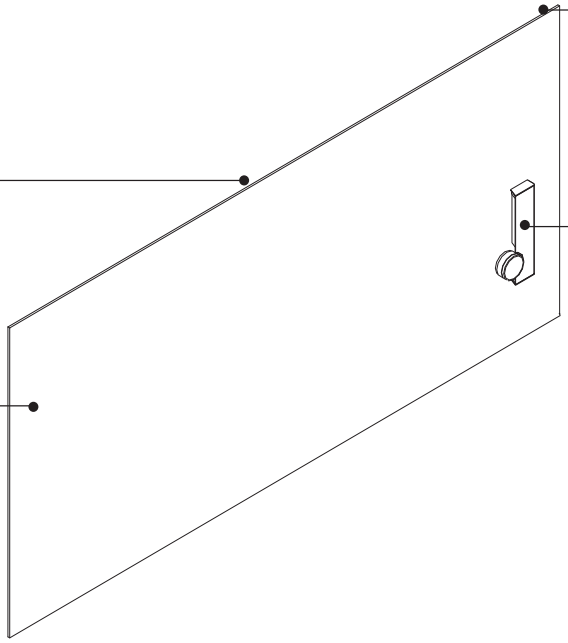
Sans Light

Sans Light is a writing board with streamlined, precision cut, frameless edges. Orientation of writing board can be mounted horizontally or vertically.



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Contrasting options are also available. Panel thickness is ¼" or 6½ mm.

The toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS, 7673 Merle CS, 7674 Platinum Solid CS, and PV09 Hygienic White Gloss. 7661 Gray Chalk 6502C CS is a true chalkboard surface and requires chalk sticks or liquid chalk for writing.
Tip: Available with standard graphics and custom graphics.

Tip: For custom graphics, please contact pvstudioteam@polyvision.com *to acquire a custom print number.*

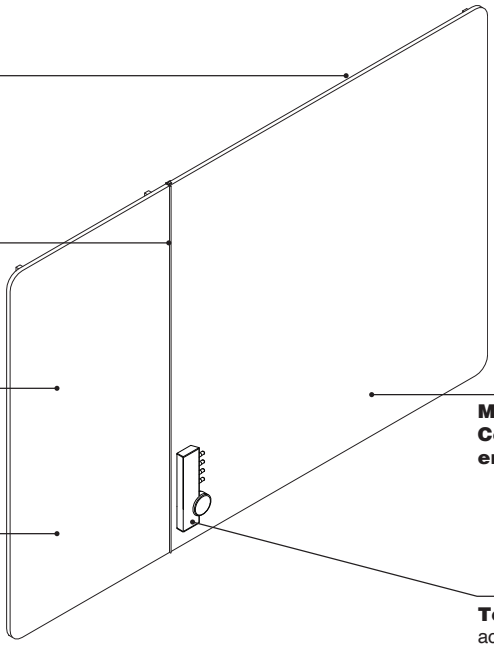
Accord

Accord is a combination board where writing and sound absorbing features are combined in a streamlined, precision cut, and frameless design.



Frameless edge comes standard in the same finish as the specified color number of the panel. Contrasting options are also available.

Bumper consists of matte black ABS divider that separates acoustic and CeramicSteel material.

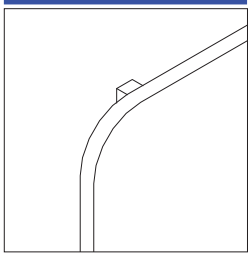
Tackable board with sound absorbing properties is available in different colors and prints.

Sound diffusing acoustic panel made from 100% recycled material.

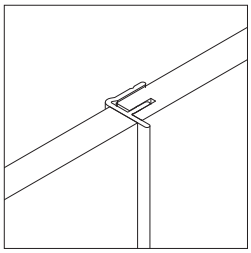
Markerboard with CeramicSteel dry erase surface.

Toolbar is included with accessory kit.

Product Details



Accord features four rounded corners R45 mm and installs with Z-brackets. The markerboard has a ½" MDF core. Acoustic material has a 12 mm core. Acoustic Material: Cost effective sound solution—NRC = 0.45–0.80 for 12 mm.



Accord features 4 mm protection bumper, material ABS.

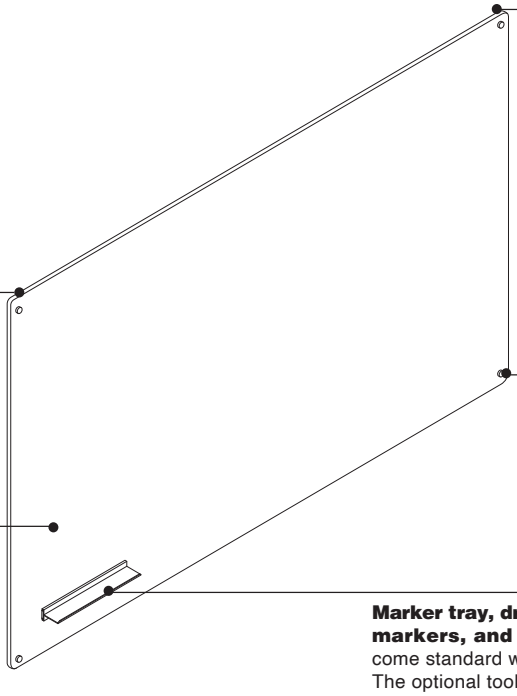
Serif

Serif is a thin CeramicSteel writing board mounted with standoff mounts in a satin chrome finish. Precision cut edges are sealed with a durable lacquer, while rounded corners provide a modern, premium look. Orientation of writing board can be mounted horizontally or vertically.



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Frameless edge corners have a 4 mm radius. Contrasting options are also available.

Mounting comes standard with standoff mounts. Mounts vary by size of panel.

CeramicSteel surface is offered in 7655 White High Gloss or PV09 Hygienic White Gloss.

Marker tray, dry erase markers, and eraser come standard with Serif. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

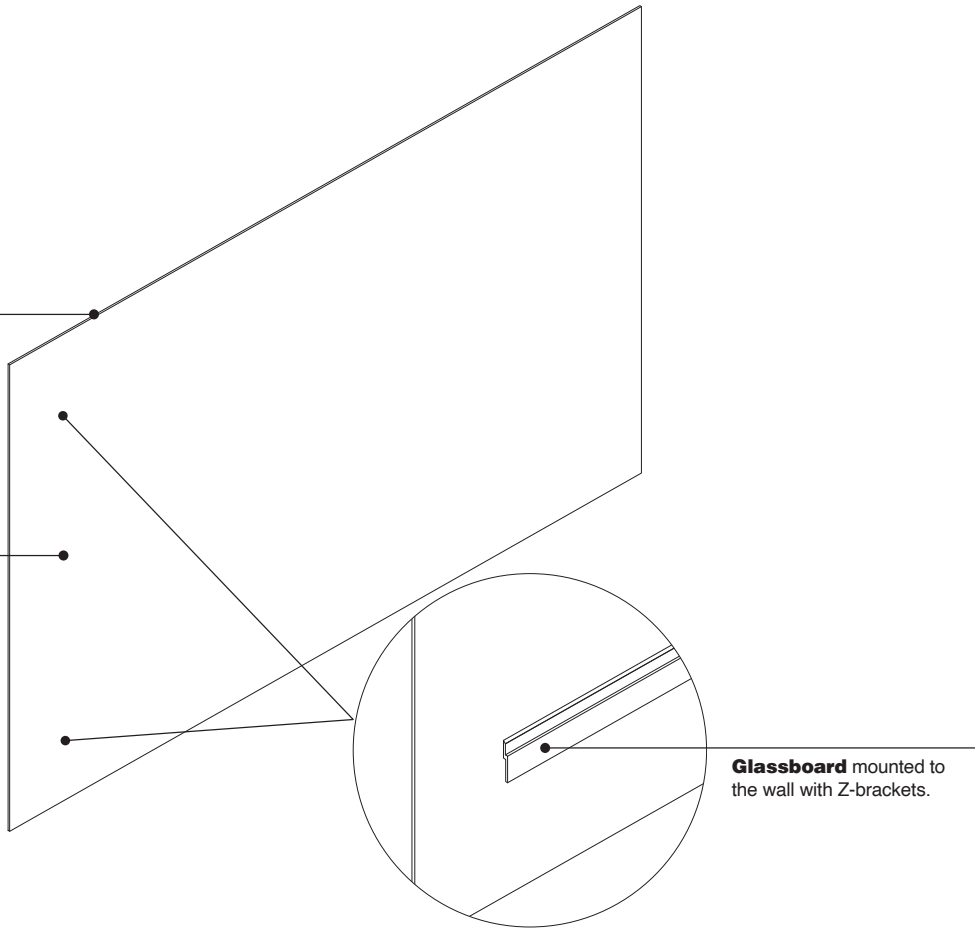
Glass

High quality glassboard is made with 3/16" thick low-iron tempered glass and is non-porous, non-ghosting, and non-staining. With the ability to configure both vertically or horizontally, the compact structure of this glassboard sits close to the wall using a Z-bracket installation. Accepts rare earth magnets.

Thin, smooth, frameless edge.

Glass surface is offered in 25 color options.
Tip: For information on custom color finishes, please contact pvstudioteam@polyvision.com.



Glassboard mounted to the wall with Z-brackets.

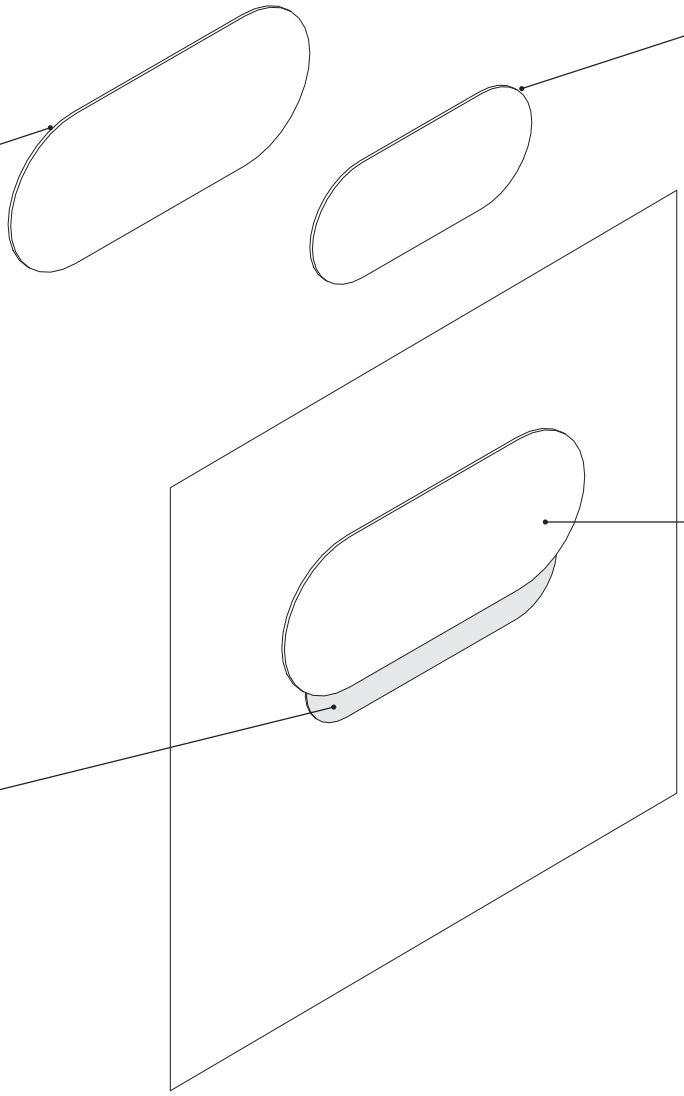
Frank Lloyd Wright Racine Whiteboard

The Frank Lloyd Wright Racine whiteboard represents the natural, organic shape and depth of the Frank Lloyd Wright Racine furniture collection while maintaining highly functional properties. The writing surface is CeramicSteel and the solution can be customized with accented edges and acoustic/tack material available in numerous colors and patterns.

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Contrasting options are also available to match acoustic materials. Panel thickness is 1/2" or 13 mm.



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

CeramicSteel surface is offered in 7671 Arctic White 2 CS.

Optional toolbar kit includes markers, a round-magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

Acoustic/tack material is an optional feature. Tackable board with 6 mm sound absorbing properties is available in different colors.

Actual Dimensions

	Small	Large

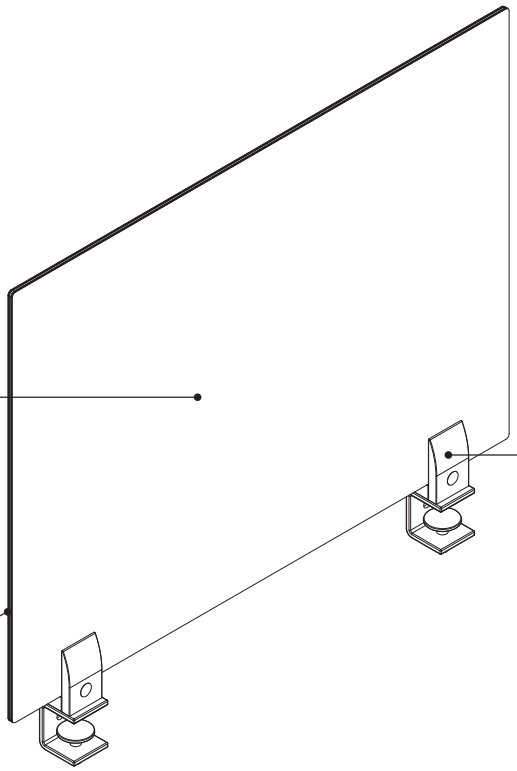
Boundri

Boundri is a privacy screen made from think double-sided Polyvision CeramicSteel featuring adjustable mounts that make it easy to transform almost any desk or table into a private workspace. The multifaceted tool can help employees and students maintain safe distances and provide them a personal collaboration tool to keep track of daily tasks and reminders.



Boundri screens are 1/5" thick and corners have a 3/20" radius.

Edges are coated with high quality, durable paint that matches the surface finish.

Boundri screens are attached with adjustable mounts. 18" and 24" height screens that are available in 24", 36", 48", 60", and 72" widths. The screen and hardware may be used on (nominal) ¼" to 1¼" thick worksurfaces.

Actual Dimensions

Height	18", 24"
Width	24", 36", 48", 60", or 72"
Depth	11/64" or 42/5 mm
18"H Weight (lbs)	7, 10, 13, 17, or 20
24"H Weight (lbs)	9, 14, 18, 22, or 27

Tip: Panel sizes are nominal.

Mount Table

Screen Size (Height x Width)	Number of mounts
18" x 24", 18" x 36" , 24" x 24", and 24" x 36"	2
18" x 48", 24" x 36", and 24" x 48"	3
18" x 60", 18" x 72", 24" x 60", and 24" x 72"	4

Product Details

Boundri screens include adjustable brackets with divider/writing surface element for most height-adjustable desks and fixed worksurfaces.

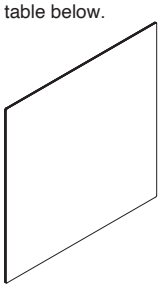
Screens are double-sided CeramicSteel and can be mounted to various desks and worksurfaces using the adjustable mounting hardware.

When applying the Boundri screen to the side of Migration or Migration SE desk, at lease a 2" overhang is required.

Mounts are not compatible with Elective Elements worksurfaces.

Mounts are movable to accommodate various features or interferences on a minimum tabletop thickness of ¼" or 6 mm and a maximum tabletop thickness of 1¼" or 34 mm.

The number of mounts varies by size of the screen specified. Refer to the mount table below.

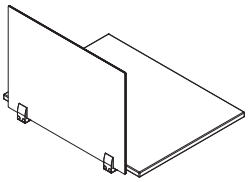


The edge of the screen is coated with a high quality, durable paint that matches the surface finish. Corners have a 4 mm radius.

The screen and hardware may be used on a minimum tabletop thickness of ¼" or 6 mm and a maximum tabletop thickness of 1¼" or 34 mm.

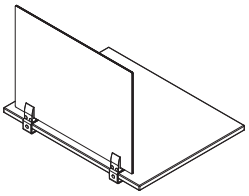
The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Application Topics



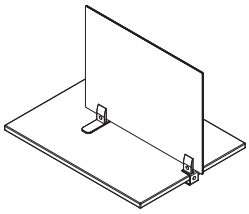
Privacy/Back Mount

Mount assembles with the screen grip section attaching to the exterior side of the adjustable table-top clamp. Position supports screen installation with zero space gap.



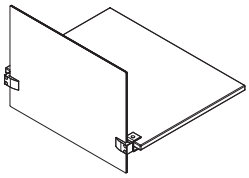
Privacy/Top Mount

Mount assembles with the screen grip section attaching to the top side of the adjustable table-top clamp. Application supports screen installation with space gap of 5⁄8" above worksurface.



Side Divider/Top Mount

Multiple mount assembly types are required for this application. Edge bracket assemblies with the screen grip section attaching to the top side of the adjustable table-top clamp. Screen grip piece is positioned to support screen direction. Table-top mount uses screen grip and table top plate is positioned to support screen direction. Application supports screen installation with space gap of 5⁄8" above worksurface.



Privacy/Modesty

Mount assembles with the screen grip section attaching to the exterior side of the adjustable table-top clamp. Screen clamp is rotated 90° prior to attachment. Position supports divider screen installation with benefit of modesty panel.

Boundri screens mount to worksurfaces using an adjustable mount with tightening screw. Bracket positioning is moveable with suggested placement by screen size.

Screen heights and widths cannot be adjusted in the field. Placement of screens on worksurfaces can be adjusted in the field.

Privacy configuration allows screen heights and widths to be determined by the orientation of the screen installed.

Modesty is limited to 7½" on height adjustable desks to maintain proper clearances. Recommended for 18" x 24", 18" x 36", 24" x 24", and 24" x 36" sizes. Larger panels not recommended for use in this orientation.

Boundri panels to be used with FrameOne do not ship with **FMSK2** or **FMSK3** brackets. Additional brackets would need to be purchased separately. Contact your Collaborative Surfaces Representative with any questions: collabsolutions@steelcase.com.

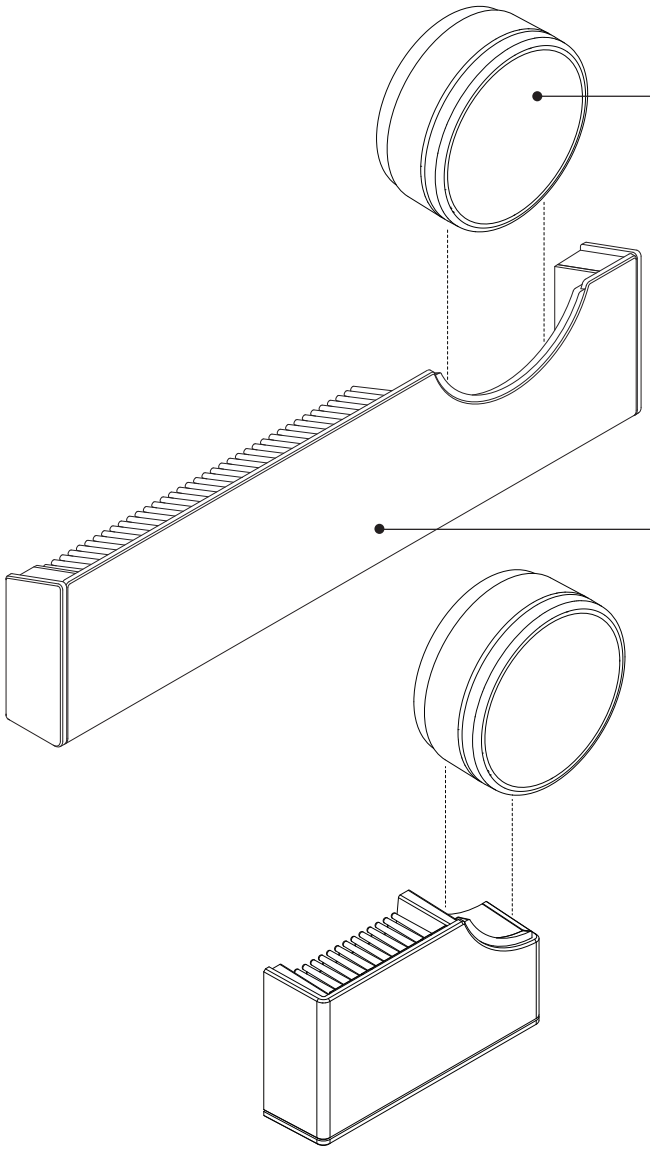
Collaborative ToolBars

Collaborative ToolBar is an elegant design element that enhances the functionality of any Polyvision CeramicSteel markerboard. With a unique docking station, it offers a thoughtful home for a magnetic eraser and markers or chalk, ensuring tools stay organized and secure. The ToolBar is intuitive to use, easy to clean, and provides users with the freedom to orient the kit anywhere on the board. With a design that feels good to the touch, it blends functionality with a premium aesthetic.

Kits are available for different writing board finishes. Markers are included with the standard and neon kits. Chalk sticks are included with the chalkboard kits. All kits include a round magnetic eraser and two replacement microfiber cloths.

Chalk sticks come with brand chalk stick holders.

ToolBar mini is a smaller version that comes standard with two markers and the round magnetic eraser.



Round magnetic eraser fits effortlessly in the docking station.

The versatile ToolBar can be positioned both horizontally and vertically.

ToolBar and eraser come standard in a black satin finish.

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see *www.steelcase.com/surface-materials*.

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Open Line Laminate (OLL)

Applies to:
• Brody 488 Series desks

This service allows you to order non-standard laminate at an additional processing fee of $105 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
• Visit *www.steelcase.com*

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open–pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Applies to:
• Brody 488 Series desks

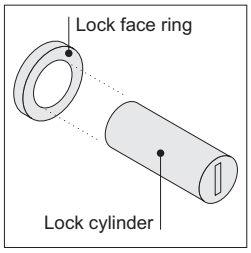
Lock and Keying Options 562

Style Number Index 564

Lock and Keying Options



Front-removable lock cylinders can be installed or removed in the field with a special tool. This feature allows you to field install lock cylinders after the furniture is installed.

All locks are designated with key numbers. You can specify a key number; however, if you don't specify a key number, the locks in your order will be keyed random.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Standard Keying

All products are standard keyed random.

Step 1

Furniture will be shipped with a plastic shipping plug. Specify lock cylinder and keying options separately. Only products with factory-installed lock mechanisms can accept lock cylinders in the field.
Tip: Be sure to specify a lock color number (9201 Polished Chrome or 9250 Ember Chrome) for the lock face ring.

Step 2

Order enough lock cylinders to fill each lock location. You must also order a lock tool.
Tip: Lock tools are reusable. You don't need to order additional lock tools with every furniture order.
Lock cylinders and the installation tool will be shipped separately so that you can install the locks when you are ready.

To specify lock cylinders, list the total number of lock cylinders that you want with the appropriate style number. If you are specifying key numbers, list the breakdown of the quantity of each key number.

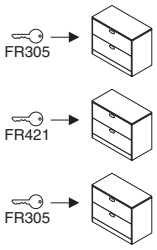
An example of how your order should look is shown below:

Example:

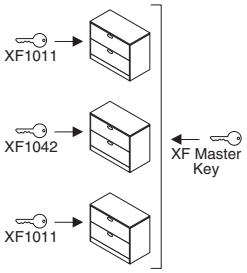
10	LOCKFR FR320
5	LOCKFR FR350
15	LOCKXF XF1100
30	Total
1	877102003SR standard lock tool
1	877102002SR master lock tool

Keying Options

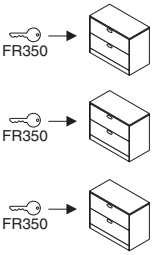
Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR999.
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.



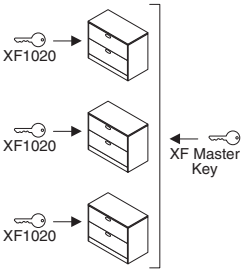
Master key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from XF1001 to XF3000. All XF locks can be opened with a master key.
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key numbers for all locks.



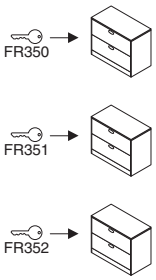
Key specific means that you can specify any key number from FR305 to FR999. This option can be used to key all the furniture units in a workstation or department the same.
Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.



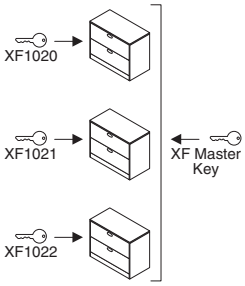
Master key specific means that you can specify any key number from XF1001 to XF3000. All the locks in the XF series can be opened with a master key.
Tip: Designate the quantity per key number in your specification when ordering more than one product with the same style number.



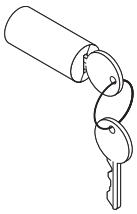
Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR999.



Master key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from XF1001 to XF3000. All the locks in the XF series can be opened with a master key.



Lock Cylinders



Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Standard Includes	Required to Specify
• Lock cylinder, keyed random • Two keys	1 Style number 2 Lock finish 9201 Polished Chrome 9250 Ember Chrome 3 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR999.
Key consecutive	No cost	Specify *key consecutive* and must select beginning key number from FR305–FR999.
Master key random	+$37 each	Specify *master key random.*
Master key specific	+$37 each	Specify key number from XF1001–XF3000.
Master key consecutive	+$37 each	Specify *master key consecutive* and must select beginning key number from XF1001–XF3000.

Specification Information

• Style Number	• U.S. Base Price

FR Series (Standard Keying System)—Lock Cylinder

LOCKFR	No cost

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Standard Lock Tool

877102003SR	$37

XF Series (Master Keying System)—Lock Cylinder

LOCKXF	No additional cost. Price included in price of furniture with master-keyed locks.

Master Lock Tool

877102002SR	$37

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
