

C7530 | MEDIA:SCAPE MOBILE (WG)

## COLLABORATION. TRANSPORTED.

**media:scape® mobile** is a new addition to the media:scape family, transporting the media:scape experience anywhere in an organisation. Bring media:scape to a diverse range of settings, wherever collaboration may occur.

# 78%

of organisations struggle to effectively connect their workplaces, and help people collaborate virtually and face-to-face.

IBM 2010 HR Study

Easily transport the **media:scape experience** anywhere four wheels will allow.

Optimised for small teams of 2-4 to collaborate without interruption, **media:scape mobile** is always available.

No cables to pass, remotes to lose, or software to install.

With the 4 PUCKs in the media well, everyone at the table has equal access to share critical information.

Height adjustability support various working postures and settings between seating and standing height.

Distributed teams can be connected easily by integrating with HD videoconferencing.

Plug media:scape mobile into a standard power outlet to bring power to the monitor and the 4 power outlets inside the media well.
