

## Furniture for your technology

From the beginning, media:scape® was designed to seamlessly integrate furniture and technology to create the ultimate collaborative solution. media:scape is now available to host the technology of your choice. As technology evolves and the workplace shifts, media:scape continues to support the collaboration needs of your team.

## POWER AND CHOICE

media:scape furniture allows your technology to be securely supported and contained, while offering power access for every user. With a broad statement of line, media:scape offers insight-based applications that enable collaborative workstyles.

## FEATURES AND BENEFITS

- media:scape table allows ease of cable routing for a clean installation
- Media well provides access to power and technology connections for everyone at the table
- media:scape totem provides a place to mount up to two displays
- Technology components securely mount to the underside of the table or within a media:scape CODEC case

## SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It's about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

**Research and insights direct our path.** It's not only about creating goods, it's about creating good. It's not only about creating value, it's about living our values. It's not just about reducing our footprint, it's about expanding our reach. It's about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

**Innovative products and solutions result.** In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase's sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
