Space is being reconfigured more frequently to optimise occupancy and reflect the changing requirements of businesses. There is also increasing demand for office solutions that strike the right balance between the needs of people using their own workstations while working alongside colleagues.

That’s why Steelcase has introduced Fusion, a desking platform designed for the entire range of application in today’s workspace.
AN ENTIRE RANGE OF APPLICATIONS

Fusion is a family of office furniture elements that can satisfy the entire range of applications required by companies in their office environments. It strikes the perfect balance between collaborative work, individual work and everywhere in-between.
TAILORED TO INDIVIDUAL NEEDS

Fusion brings together the elements of worksurface, storage, desk organisation and cable management to enable facility managers to configure the workstations based on the workstyle and type of work that needs to be done. It is also essential that the entire workstation is ergonomically sound. We have ensured Fusion succeeds ergonomically by being available with height adjustable legs.

Office lay-outs are changing with increasing frequency. A desk system needs the flexibility to be assembled or dismantled easily and quickly. It takes only 30 seconds for 2 fitters to install a Fusion desk which allows customers and users to reconfigure their office quickly.

INSTALLATION IN
30 SECONDS

WORKSURFACE
Available in various dimensions and materials. It enables to structure their office space flexibly and efficiently.

ORGANISATION
Partito rails and screens, and our 1+1 organisational tools provide privacy and enable the user to find a place for personal and work items. The Plurio single monitor arm, easily adapts to the Fusion desk.

CABLE MANAGEMENT
Fusion makes it possible to circulate cables easily and discreetly.

LEGS
The worksurface platform gives an aesthetic choice between C-leg or 4-leg.

STORAGE
The colourful storage units provide individual or team storage. Units can replace a leg or be positioned next to the desk.

30
Workers today are transitioning from focused work, to collaborative work, and back again all at their desks. Fusion creates a variety of personal spaces that are designed to support multiple activities, providing a dynamic, modern work environment giving users the type of space they need.
PERFECT FOR SMALL AND LARGE TEAMS

The drive to create more collaborative working spaces is gathering pace as companies recognise that people working in small groups are delivering improved, tangible business results. Fusion encourages and facilitates this way of working. With the addition of Partito rails and screens, people can focus on their own work, communicate easily with their colleagues and at the same time help users with the organisation of their spaces.
Benching can be a smart solution—when it’s tailored to the organisation’s work processes and individual workstyles. Fusion Bench offers tools such as privacy screens, lighting, worktools and access to power, all hosted at the worksurface on a convenient integrated rail.

**FUSION BENCH**

PARTITO SHARED SHELF

The Partito shared shelf provides a common worksurface in the middle of the bench for easy document-sharing.

LATERAL EXTENSION

The Lateral Extension provides extra space for document sharing and peripherals.

FUSION BENCH

Benching can be a smart solution—when it’s tailored to the organisation’s work processes and individual workstyles. Fusion Bench offers tools such as privacy screens, lighting, worktools and access to power, all hosted at the worksurface on a convenient integrated rail.
A PLACE FOR PERSONALISATION AND BOUNDARY

Tailor the Fusion Bench to the needs of individual workers and the work at hand with adjustable privacy screens, personal boundaries, flexible storage, and an innovative collection of organisation tools, ergonomic flat screen arms, and personal lighting.
STORAGE AT THE BENCH

Today’s workers need to store both personal and work-related material. That is why Fusion Bench offers a variety of storage items that accommodate a variety of items, in different shapes and sizes. Diagnosing users needs and providing efficient storage solutions is critical to enhancing user control at the bench. So whether you are storing your mobile devices, bottles, and bags or notebooks, Fusion storage options can support your storage needs.

SOLO LATERAL STORAGE
Stand alone or supporting a bench, it doubles up as space division and casual seating.

HIGH DENSITY STORAGE
Extends the workspace, maintains privacy and offers user comfort.

SHARE IT
Multifunctional modular storage and lockers, with efficient interior fittings.

MOBY
Mobile storage for very diverse objects, with a high level of personalisation.

FLEXBOX
Easily adapts to changing needs, with a tool free connection, includes casual seating.

IMPLICIT
Pedestals with internal and external accessories, also fit for binders and bags, and casual seating.
CONFERENCE AND RECEPTION

Fusion covers the full spectrum of office requirements, including elegant and simple solutions for meeting and conference rooms. It can also be configured for managers, office entrance areas, lobbies or reception counters.
FUSION DESK OVERVIEW

**DESIGNING FOR THE ENVIRONMENT REQUIRES INNOVATIVE THINKING AND SOLUTIONS**

**LIFE CYCLE ASSESSMENT**

Thanks to the Life Cycle Assessment (LCA) method, Steelcase quantified Fusion environmental impacts to set the stage for further improvements. This method, based on ISO 14040 and 14044 and selected by The European Union for environmental evaluation, allows us to quantify the environmental impact of our products throughout their whole lifecycle.

**MATERIALS**

21% recycled materials, by weight (2.5% pre-consumer + 18.5% post-consumer).

Wood from European sustainably managed forests.

Low formaldehyde emissions of wood-based panels according to ISO 16000 (<20µg/m³).

Plastic parts only made of PP (releasing less CO2 than most of other plastics).

Materials chemistry assessment throughout their lifecycle.

**PRODUCTION**

Assembled in Rosenheim (Germany) by Steelcase.

Uses powder-coat paints: VOC-free and free of heavy metals.

**TRANSPORT**

Assembled in Europe, close to customers.

Minimised packaging (only 2 boxes) to keep transport volumes as low as possible and improve filling rates.

**END OF LIFE**

98% theoretically recyclable by weight.

100% theoretically recyclable cardboard and LDPE film for packaging.

Quick and easy disassembly: snap fit system for most of the assemblies.

Only one plastic (PP) clearly labelled for easy sorting and effective recycling.

Designed to ensure responsible end of use strategies - refurbishing, charitable donation or recycling.

**ENVIRONMENTAL PRODUCT DECLARATION (EPD)**

**NF OFFICE EXCELLENCE CERTIFIED**

**INDOOR ADVANTAGE GOLD #02491**

**PRODUCTS**

- Environmental Product declaration (EPD)
- NF Office Excellence Certifié
- NF Environment
- Indoor Advantage Gold #02491

**MATERIALS**

- Programme for the Endorsement of Forest Certification (PEFC)
- Low concentration of formaldehyde in wood

**PLANTS**

- ISO 14001 - Environmental management system
- EMEAS - Eco-Management and Audit Scheme
- OHSAS - Occupational Health and Safety Assessment Series management system

**CERTIFICATIONS**

To show continuous improvements, we communicate its environmental performance through voluntary environmental labels and declarations. Sustainability related actions and results are communicated in the annual Steelcase Corporate Responsibility report.
