

**FEATURES**

**Charging Ports**

Each mobile power unit has a best-in-class capacity of over 200 watt hours that can power three users simultaneously with USB-C and USB-A devices for a full day, or an individual for a full week. Intelligent technology recognizes each device's power needs and distributes power to the device that needs it most.

**Proprietary Charging**

A fixed, proprietary charging tray takes less than eight hours to charge five mobile power units, so they are ready for the next day's work.

**Portable and Lightweight**

Just under 1.4 kg, each unit is lightweight and easy to take with you wherever you work. A flexible handle makes it easy to grab and go.

**Refined**

Steelcase Flex Mobile Power is refined and can look great sitting on any tabletop, in any environment.

**Power Level Indicator**

A power level indicator lets you know when the unit is running low.

**STATEMENT OF LINE**

### WORK ANYWHERE

Teams and individuals need the freedom to work in a range of spaces, but access to power limits where they can go. With Steelcase Flex Mobile Power, people can charge their laptops or other personal devices anywhere, so they never have to worry about where and how they will stay powered up. The first of its kind enterprise-level, high-capacity mobile power solution allows workplaces to become more fluid and for teams to work wherever they need to.

### FUNCTIONAL BEAUTY

Steelcase Flex Mobile Power is both functional and beautiful. Its design was inspired by handcrafted ceramic tableware. Soft and silky finishes, 3D texture and a responsive, flexible handle make way for a powerful, beautiful and portable solution that can fit into any workplace aesthetic, from upscale to casual.

### HIGH PERFORMANCE

Designed and developed in collaboration with Anker, a global leader in charging technology, Steelcase Flex Mobile Power brings enterprise-level mobile power to the workplace.
