SERIES 1 (SEAGULL FRAME, LICORICE KNIT, GRAPHITE FLEXOR AND NEW BLACK HARLEY SEAT)

## INTUITIVE SUPPORT

Series 1 was thoughtfully designed with the performance you've come to expect from Steelcase. With integrated LiveBack® technology, adaptive bolstering and 4D adjustable arms, Series 1 delivers dynamic performance without sacrificing attainability.

### INTEGRATED LIVEBACK® TECHNOLOGY WITH ADJUSTABLE LUMBAR SUPPORT

Allows the chair back to change shape and mimics the user's spine as it moves throughout the day. Contours to fit a user's spine through a system of flexors tucked neatly inside the backrest, offering continuous lower-back support as you move in your chair.

### 4D ADJUSTABLE ARMS

Move in height, width and depth, and pivot to better support the user's neck and shoulders. The cantilevered arm design encourages postural change.

### ADAPTIVE BOLSTERING

Enables the seat to conform to the user's shape, providing dynamic support that can adapt to the body as postures change.

### WEIGHT-ACTIVATED MECHANISM

Allows for quick, intuitive seat adjustments.

### SEAT DEPTH

Allows the seat to be positioned forward or backward for long-term comfort.

## A RANGE OF AESTHETICS

Series 1 offers 11 mix-and-match knit, flexor and lumbar color options, and a wide range of shell and finish options that enable organizations to express their brand in a way that best represents them. Plus, it's available in standard and stool heights with headrest and coat hanger options to support a wide range of tasks and workstyles.
