Ancillary in action at the Lilith Games in Shanghai, China

A standout feature of the design is the library space (pictured above, top left), a reflection of Lilith Games' commitment to encouraging literacy and learning, particularly among the younger generation. Housing over 10,000 books, the library offers an open and inviting environment where employees can feel comfortable and inspired to read and learn.

Lilith Games, a leading gaming company headquartered in Shanghai China, is known for its innovation and creativity in the gaming industry. The company is deeply committed to fostering a culture of continuous learning and collaboration among its employees. To support these goals, Steelcase supported Lilith Games in building dynamic campuses through its mature space solutions that reflect their values, enhance employee experience, and attract top talent.

Driven by the CEO's vision to attract and retain top talent, the project aimed to align workplace design with Lilith Games' purpose of fostering innovation and strengthening company culture.

The result is a space where employees feel inspired, engaged, and empowered to do their best work.

Ancillary in action at the ANSR office in Bangalore, India

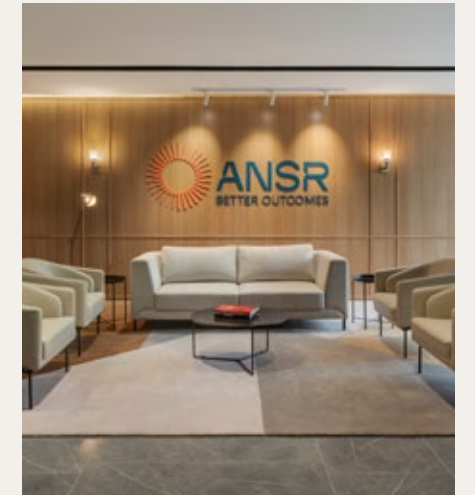

ANSR, a global leader in establishing and operating Global Capability Centers, sought to create a workspace in Bangalore that could support the diverse needs of international businesses setting up or expanding in India.

Their vision was to design a space that facilitates both collaboration and privacy, enabling seamless interaction between companies while providing areas for focused work. Steelcase partnered with ANSR to bring this vision to life, crafting an environment that feels welcoming, adaptable, and sophisticated. The design features communal spaces that encourage social interactions and the exchange of ideas, alongside private offices tailored for individual companies' operational needs.

A notable element of the project is the balance achieved between open, collaborative areas and secluded, focused zones. Communal spaces, furnished with Wendelbo's timeless and sophisticated pieces, create a comfortable atmosphere for informal meetings or for enjoying coffee.

A centerpiece barista bar at the entrance provides a warm welcome for visitors and employees alike, while an open cafeteria with banquette seating and flexible café furniture ensures adaptability for large gatherings or events. By combining innovative design with thoughtful functionality, Steelcase and ANSR delivered a workspace that reflects a perfect harmony of collaboration, privacy, and hospitality—empowering businesses to thrive in a dynamic environment.
