

Beyond the Desk

Furniture solutions for our hybrid world of work

orangebox

Product Description

Beyond the Desk suggests where the real connections are happening today. And, as we adopt more informal and flexible technology to fulfil our tasks, it has proven itself as a viable alternative to desk working, and can be applied across the rich variety of hospitality, working and learning spaces we find ourselves in today.

A modular upholstery system that offers a supportive, upright sit, in combination with ergonomic fixed worktables, Beyond the Desk is complemented by integrated worktop power.

The upholstery's design, colour and texture effectively divides up spaces, offering privacy for individuals, teams, and larger collaborative work groups.

The modular design of the system also gives clients the flexibility to create both small sanctuaries and larger social hubs, all from the same sculptural collection.
