## Product Description

Joy's deceptive simplicity is the result of ergonomic research. Joy offers users a level of comfort and performance previously unimaginable in this class of product, and, thanks to its unique form, contours and proportions, this holds true regardless of the user's body shape and size.

When specified in the Camira Oxygen Fabric, Joy can be offset against carbon, saving equivalent carbon to that generated in the production of the chair through investment in sustainable energy projects. This makes it a Climate Neutral product (in association with Climate Care).

**Top** – JOY-03 & 04, **Bottom** – JOY-14
