

Steelcase

SILQ
Office Chairs

SILQ is a breakthrough in seating design that responds to the movement of your body and offers a canvas for high design. It's perfect for shorter sits and bringing beauty to any environment.

Artful Innovation

SILQ's organic construction is a breakthrough in seating design. With only one manual adjustment for seat height - everything else adjusts to the unique movement of your body, delivering a personal experience.

Dynamic Movement

SILQ responds to the natural movement of the body thanks to the high-performance polymer making the user feel like part of it. It is a flexible system that behaves as a cohesive mechanism.

Intuitive Design

To keep things simple, SILQ has only one manual adjustment for seat height.

Dynamic Seat

The High-resilience moulded foam creates instant comfort.
