Steelcase Series® M

Modular. Versatile.
Quick to revamp.
Built to last.

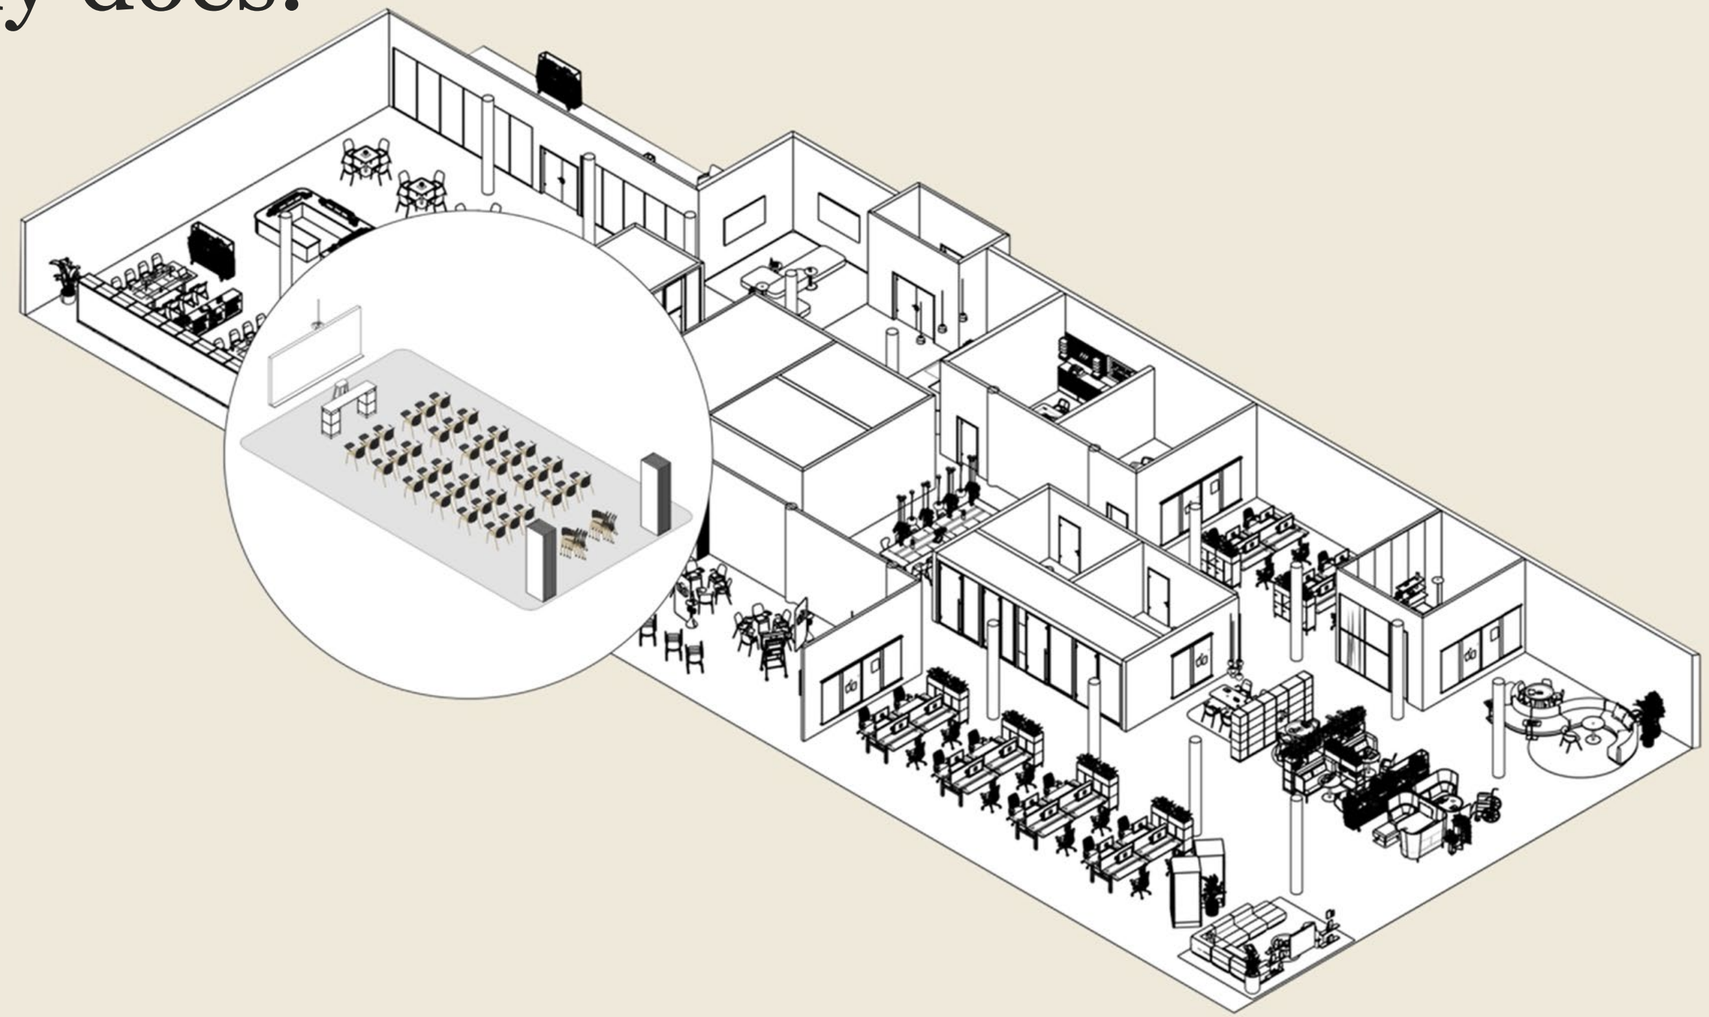

Steelcase Series® M is a family of office side chairs and conference chairs you can rely on, for *today and tomorrow*.

The problem

Workplaces change. Furniture rarely does.

Traditional side chairs are configured for a single purpose.

When space, work styles or aesthetics change, these products often becomes obsolete before the materials do.

The solution

Keep what works.
Change only what is needed.

5

Interchangeable bases

120+

Possible combinations

4-Leg chairs with castors

4-Leg chairs with glides

Sled-base chairs

Cantilever chairs

4-Star chairs

5-Star chairs

One platform

One chair, multiple experiences.

With one coherent design language, Steelcase Series M supports any type of work, from focused learning and quick touch-downs to collaboration and formal meetings.

Stackable

Classroom

Visitor

Side

Collaborative

Conference

Continuous renewal for a longer life, in four moves.

Use

Supports any type of work

Adapt

Easy to swap bases or shells

Refresh

Upholstery refresh or components replacements

Recover

No glues or staples – materials can be separated for proper recycling

Replace components, not products,
for a more sustainable approach to workspace design.

„With Series M, there is no B-side.
Every surface and every detail is designed for *human interaction*. We spent an enormous amount of time understanding how users and facility teams would take the chair apart and put it back together—making disassembly and reassembly intuitive rather than an afterthought.”

PENGHAO SHAN
STEELCASE INDUSTRIAL DESIGNER

One Chair for Today and *Tomorrow*

Recyclable Materials

No glues or staples used, materials can be separated for proper recycling at the end of the life cycle.

Modular Design Reduces Waste

Replace parts, not the chair. Seats and back are interchangeable across all base options, and upholstery can be added, removed, or replaced tool-free.

Extended Product Life

Thanks to this modularity, you can easily refresh your chair with new elements rather than replacing the entire product.

Eco-Friendly Packaging

Steelcase Series® M ships in 100% recyclable cardboard packaging to minimize environmental impact.

„Circularity only creates meaningful impact when it is accessible at scale. That is why affordability was not a compromise, but a core design requirement: Series M had to fit within real-world budgets so that more people could actually choose it.”
