Steelcase to distribute Officebricks in Europe, Middle East and Africa (en inglès

Munich, 11th October 2018 – Many of today's workplaces are set up as open offices to encourage collaboration. This type of design can be efficient in terms of estate utilization but the imbalance between interaction and privacy at many off has reached crisis proportions, taking a heavy toll on workers' creativity, product and engagement.

The solution Steelcase proposes is an ecosystem of open, shielded or enclosed spaces where employees can choose the level of privacy they require. This is fundamentally about empowering individuals with choices and giving them cont over their work environment. To pursue this vision, **Steelcase announces toda** new collaboration with Officebricks which offers an innovative sound insulating cabin system for professional use in offices. Officebricks® caprovide exceptional acoustic performance ensuring that employees have private and secluded spaces to get things done, whether working alone in teams. The characteristic design and construction of Officebricks calcoffers extreme speed of installation, ease of assembly and disassembly well as a distinctive palette of color choices to personalize office space

"It's difficult for employees to find the privacy they need to concentrate, reflect rejuvenate – all critically important activities in the quest to innovate and for overwellbeing at work", says Alessandro Centrone, VP Marketing EMEA at Steelcase. number one complaint from office workers is now a lack of privacy, both visual acoustic. That's why we are thrilled to bring scale to the sophistication of acoust performance solutions provided by Officebricks. We are confident that this new collaboration will provide our clients with a simple and smart solution for acoust isolated private spaces within open collaborative areas."

Steelcase will offer the full range of Officebricks products throughout Europe, MicEast and Africa, with availability expected in Fall 2018. The Officebricks collection augments the extensive Steelcase portfolio of office furniture, technology and architecture solutions for the modern workplace, offering architects, designers a customers expanded design options, easily accessed through the largest dealer network in the industry.

"The open plan must come along with private spaces. As single offices are decreasing, Officebricks offers the confidentiality that is needed for the open plawork, where people can seek respite. Our collaboration with Steelcase is the opportunity to balance the need for collaboration and privacy and offer the best solution for our customers. We are a young business, but we see a lot of potential our partnership with Steelcase", says Peter Smeets, CEO of Officebricks.

Steelcase partners with a diverse network of thought-leaders and organizations around the world. These partners enrich its offering, contribute to continuous lead and promise greater value to Steelcase customers.
