MATERIALS WE LOVE

A TRIBUTE TO NATURE

When we carefully select the materials we use to create our designs, we are inspired by the ever-changing nature that surrounds us. The magnificent natural textures, the soft colours, the calming atmospheres, and the breathtaking landscapes.

CAREFULLY SELECTED MATERIALS

We create beautiful and timeless quality designs that are designed and built to last. The solid craftsmanship and durable, certified materials let us offer you a 10-year warranty on every single design in our collection. Read more at [Bolia.com](https://bolia.com).

TESTED, CERTIFIED, DURABLE, & SAFE

We focus on using long-lasting and safe materials in our designs, such as FSC® certified wood, traceable leathers, and OEKO-TEX® STANDARD 100 certified fabrics, and more.

FABRICS

TACTILE FABRICS

Bouclé, New Zealand wool, linen, velvet, or durable textiles made from recycled fibres. Whatever you prefer, you can be sure that every fabric is of the finest quality. Discover the beautiful variants within each category and read about how to best care for your fabric.

OEKO-TEX® STANDARD 100

All our fabrics are OEKO-TEX® STANDARD 100 certified. This means that the textile has been tested for harmful substances. The test is conducted by independent OEKO-TEX® institutes, taking into account both regulated and non-regulated substances that can be harmful to human health. In many cases, limit values go far beyond national and international requirements. The criteria are updated at least once a year and expanded on the basis of new scientific and statutory requirements.

BOUCLÉ & TEXTURE

With luxurious and inviting softness, textured fabrics and bouclé awaken the senses beautifully – woven with elegant techniques that create a tactile feel and add interest and pattern. A textured fabric is great at concealing small imperfections, making it ideal for both formal and casual settings.

Memory

Memory has a roughly textured weave, with a fine melange effect that creates a fabric with a vibrant structure and an eye-catching interplay of colours. Woven in Belgium in a blend of natural and synthetic European yarns.

SPECIFICATIONS

Material	56% Acrylic / 30% Polyester / 7% Viscose / 5% Linen / 2% Cotton
Price group	4
Martindale	40,000
Light fastness	5

FABRIC & LEATHER
OVERVIEW

SMOOTH WEAVE

Smoothly woven fabrics have an airy and inviting quality that blends effortlessly into any space, allowing the shapes and curves of a design to take full focus. The tight weave ensures fantastic durability and gives a sleek and serene expression – making them both beautiful and practical in any home.

Baize

Baize is a soft upholstery fabric with a finely woven structure that gives it a natural appearance and a completely classic and timeless look. The fabric can be washed at 30°.

SPECIFICATIONS

Material	100% Polyester
Price group	3
Martindale	78,000
Light fastness	5
Pilling	4-5
Country of origin	China
Tests & regulations	OEKO-TEX® STANDARD 100 - 1776-271 DTI, CAL TB 117, EN 1021-1

London

London is woven with a distinct structure and shiny surface. The fabric is woven from durable polyester, with very high abrasion resistance, making it suitable for both private and professional use. Washable at 30°.

SPECIFICATIONS

Material	100% Polyester
Price group	4
Martindale	100,000
Light fastness	4
Pilling	4-5
Country of origin	China
Tests & regulations	OEKO-TEX® STANDARD 100 - 1776-271 DTI, CAL TB 117-2013, EN 1021-1

Qual

Qual is made from 100% pure wool from New Zealand and is a classic wool fabric with a soft and warm texture. Wool is naturally stain and abrasion resistant, so you get a durable upholstery fabric of the highest quality.

SPECIFICATIONS

Material	100% Wool
Price group	4
Martindale	76,000
Light fastness	5
Pilling	4
Country of origin	Lithuania
Tests & regulations	OEKO-TEX® STANDARD 100 - 1076-182 DTI, CAL TB 117-2013, EN 2021-1, EN 2021-2, BS 5852 Source 0 & 1

Nantes

Nantes is a timeless upholstery fabric with a fine weave and very high durability, which makes it suitable for both private homes and professional use. Washable at 30°.

WOOD & LAMINATE

FABRIC & LEATHER
OVERVIEW

VELVET & CORDUROY

Velvet and corduroy beautifully catch the light, creating the stunning visual effect that never goes out of style – whether you prefer the retro charm of corduroy or the grand elegance of classic velvet. Despite their luxurious appearance, these fabrics are easy to maintain and hide imperfections well.

Linea

Linea is a classic corduroy with the fine, inviting lines. The fabric feels soft to the touch and has an incredible durability, allowing it to be washed at 30° and making it suitable for any busy setting.

STONES

Natural stones add a sensual and peaceful dimension to a space – and no two pieces are exactly alike. Every type of stone has its own natural colours and patterns, from classic white marble to mesmerising travertine, making every piece of furniture unique.

Marble

Marble is a breathtakingly beautiful natural stone that has formed in rocks over millions of years. And depending on the unique composition and nature's impact on its place of origin, different types of marble are formed with unique patterns and colours. No two pieces are alike, which is why every piece of marble furniture will be utterly unique.

Grey White Beige Jura Grey Grigio Bottarga Brown Pietra Grey

Travertine

Travertine is a unique natural stone with a beautiful and dreamy expression. The tranquil patterns and colours invite calm and nature inside, and together with wood and other natural materials create the framework for a light and soothing universe.

Beige

Concrete

Concrete has a calm and stylish appearance that is reminiscent of the clean lines of modern architecture and the raw aesthetics of industry. A natural material with unique and beautiful properties consisting of only cement, sand, stone, and water.

FABRIC & LEATHER
OVERVIEW

WOOD AND LAMINATE

We love natural, living materials such as solid wood and veneer – which beautifully reflect our Scandinavian design heritage.

Solid Wood

Solid wood isn't just beautiful, it's also a durable and luxurious material that brings us closer to nature. Its tactile surface is warm, sensuous, and beautiful, and every single piece of wood is unique and patinates beautifully over the years.

Wood is a living material that over time will naturally be affected by its surroundings. A dry and warm room can cause the wood to dry out and contract, and a room with high humidity can cause the wood to expand. It's precisely because of the natural properties of the wood that proper maintenance helps extend its service life.

Veneer

Veneer is formed from very thin slices of wood cut from tree trunks. The fine veneer craftsmanship was originally developed to cover furniture and interiors with rare and expensive wood types – today, we use it to maintain the beautiful, natural properties of solid wood, in a more uniform, thin, and stable form, which also requires less raw material to produce.

Teak

Our teak is 100% FSC® certified and produced in Panama. The trees are planted exclusively on grassland, never at the expense of natural forest areas, and are cultivated with minimal use of pesticides.

Teak has unique properties and is extremely durable. The wood naturally has a high oil content, which prevents water and moisture from penetrating the wood and thereby protects it from the elements. When the furniture is new, it has a beautiful golden colour and gradually as the wood is exposed to sunlight and oxidation, it will fade and turn silvery grey. If you love the greyish, faded look, don't apply oil. If you prefer the warm glow, you should treat it with oil regularly.

Laminate

Laminate is a durable material with many beautiful possibilities, with a soft and pleasant surface that is very durable and flexible. It is suitable for busy homes, dining tables and public spaces that experience lots of wear and tear.

We only use HPL laminate and FENIX NTM nanolaminate, created by Italian Arpa Industriale.
