## Steelcase Contribution to LEED

LEED-BD&C

LEED is a rating system that drives integrated design thinking as it relates to various aspects of green buildings.

Steelcase's products can contribute to a project's pursuit of LEED Certification across the two rating systems: Green Interior Design & Construction (ID&C), and Green Building Design & Construction (BD&C).

Materials & Resources	MR 3.2 – Resource Reuse, 30% Furniture and Furnishings		Reusing Leap in a space may contribute.
	MR 4 – Recycled Content, 10-20% (post-consumer + ½ pre-consumer)	MR 4 – Recycled Content, 10-20% (post-consumer + ½ pre-consumer)	<ul> <li>Leap is made from 20% recycled materials by weight (Calculations from 2007)</li> <li>To reevaluate recycled content and split it into post-consumer and pre-consumer content, Steelcase is currently starting the process of aligning worldwide researches and calculations methods.</li> <li>Disclaimer: Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Steelcase makes conservative assumptions when compiling this information to provide the most accurate recycled content calculations possible but variability in market conditions or manufacturing processes may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.</li> </ul>
	MR 5 – Regional Materials, 20% Manufactured Regionally	MR 5 – Regional Materials, Manufactured and Harvested or Extracted	Leap is manufactured in Sarrebourg (FR) by Steelcase. Projects ≤ 800 km from these locations may qualify.
	MR 6 – Rapidly Renewable	MR 6 – Rapidly Renewable	Steelcase offers wool textiles that may contribute to achieving the point for this credit.
	MR 7 – Certified Wood	MR 7 – Certified Wood	n/a
Indoor Environmental Quality	IEQ 4.5 – Low Emitting Materials, Systems Furniture and Seating	IEQ 4.5 – Schools	Leap is Indoor Advantage Gold certified in Europe, certifying compliance with the indoor air quality emission requirements defined by the ANSI/BIFMA M7.1-2007 standard, thus meeting the requirement.
Innovation in Design	ID 1 – Innovation in Design	ID 1 – Innovation in Design	Leap environmental impacts have been assessed in 2007 through a Life Cycle Assessment approach, which results are transparently communicated in an Environmental Product Declaration (ISO/TR 14025). Innovation credits offer an opportunity to demonstrate how the applicant has gone beyond the LEED requirements or has advanced the state of knowledge on green buildings. Innovation credits are project specific and must be applied for in the context of each specific project.
