

How to Make Your Office Feel Like Home

Mitchell Gold + Bob Williams and Steelcase create unique, comfortable places to work.

When you walk into Mitchell Gold + Bob Williams' North Carolina headquarters, you'll see banners on the wall and coffee cups that say "When a home has been furnished successfully, just walking in the door is like getting a hug." So, when the company entered into a relationship with Steelcase to bring greater choice and ease of purchase to the workplace, they wanted to bring the same feeling to the office with residential inspired products.

"We were thinking that's what a lot of offices want to be like. When people walk in, they should just feel welcome with a big hug," said co-founder Mitchell Gold.

To celebrate the companies' collaboration, the Steelcase WorkLife in New York played host to a variety of new work spaces featuring beautiful and comfortable furniture from Mitchell Gold + Bob Williams.
