

Nurture by Steelcase is now Steelcase Health

Healthcare is in a time of great change. We're seeing shifts...

... to a focus on **wellbeing**

... to a business model where providers are rewarded for **successful outcomes and patient satisfaction**

... to a process that demands **greater collaboration** between patients, caregivers and partners

And we are responding to these changing dynamics.

INTRODUCING STEELCASE HEALTH

Since Nurture by Steelcase was established in 2006, we have focused on insight-driven, user-centered approaches to healthcare. We are building on that foundation as Steelcase Health. Steelcase Health continues to advance our core belief in the power of place to deliver greater connection, empathy and wellbeing for everyone involved in the experience of health.

We believe in the power of place

We study the places that support health, and then we deliver insights, applications and solutions to create moments that can lead to change - moments that enhance interactions and engagement between clinicians, patients and families.

For more information on this evolution, and to see our latest insights, applications and solutions, visit us at SteelcaseHealth.com.
