

AIR-29

Reconfigurable, modular
meeting rooms

orangebox

Product Description

Launched in 2014, Orangebox's award-winning Air³ acoustic pod range can act as a freestanding meeting room, private space, phone booth or touchdown room. The Air³ combines new materials with a wider range of finishes and the most advanced room system on the market, all of which helps make it the world's most complete pod system.

Air³ has been designed as a scalable system, able to work globally. Its internationally patented opening roof system features an advanced fire safety system developed specifically for sprinklered office and other environments.

Interchangeable panels allow you to refresh your AIR³ at will, swapping, changing and refreshing colors and fabrics to make it unique. Its combination of high quality glass and soft acoustic panelling delivers both a refined aesthetic and a high level of insulation and speech privacy.

Like all Orangebox pods, Air³ is demountable – so it can be moved, re-positioned or re-used to suit changing needs.

Our range of Air³ pods offer a pleasing variety of square, small and large private meeting spaces.

Product Specification

Standard Product Description

- Glass:** Clear Glass.
- Hoop Power:** Service Hoop 3 x Power with Integrated Lighting and Control Panel.
- Upholstery:** Upholstered Internal and External Panels.
- Fan:** Air Circulation Fan.

Flexible Spaces

Air³ can be positioned anywhere within a building as long as there is a power / data connection point, as they are not part of the building structure. They can be relocated when the business needs change or even reconfigured if a different size room is required.

Optional Upcharges

- Monitor Bracket:** Hoop Mounted Fixed Monitor Bracket or Over Upholstery Fixed Monitor Bracket as an upcharge.
- Whiteboards:** Straight Glass Magnetic Whiteboard as an upcharge.
- Fixtures:** Seismic Kit. Available on request if required.
- Door Options:** Door Lock or Ontario Compliant Door, AODA as an upcharge.

Integrated Tables

- Table Top Finishes:**
Various finishes in Groups 1, 2, 3.
Group 1 - High Pressure Laminate options (HPL).
Group 2 - High Pressure Laminate options (HPL).
Group 3 - High Pressure Laminate options (HPL).
Open Line Laminate options (OLL).
- Table Legs:**
Silver or Black. Chrome/Polished as upcharge.

Orangebox Air³ pods with louvered roofs are ETL listed compliant to the UL 1286 Office Furnishings Safety Standard. This includes the entire assembly, not just individual components like the ventilation fans or lighting.

Minimum recommended ceiling height 8ft 4 13/32 inch to accommodate pod and fan.

Roof

Air³ can be positioned anywhere within a building as long as there is a power / data connection point, as they are not part of the building structure. They can be relocated when the business needs change or even reconfigured if a different size room is required.

The opening roof is specifically designed to enable the Air³ to conform to fire standards below through creating "by default" sprinkler coverage to the inside of the rooms.

Opening Roof - Ceiling Height

Opening Roof - In the event of a fire

Electronic System/Power

It is the responsibility of the qualified site electrician to supply and install a suitable power connection to the building in accordance with local codes.

A suitable cable restraint must be fitted to the supplied 7/8 inch diameter opening.

There are several types of conduits and cables that could be used in accordance with Chapter 3 of the NEC.

Occupied - 100w
(Not including any plugged in external equipment)
Unoccupied - 1w or Less

Power & Control Panel

Control panels allow you to manage scene, air and roof settings.

Accessories & Finishes

Air³ can be furnished with a variety of seating and tabling products to suit various workspace requirements. Whiteboards and monitor brackets can also be directly integrated into the Air³ structure.

Glass Magnetic Whiteboards

- Whiteboards are positioned on layers 3 + 4 of the upholstery panels.
- The whiteboards can only be mounted on the internal screens.

Monitor Brackets

Over Upholstery Fixed Monitor Bracket or Hoop Mounted Fixed Monitor Bracket.

- Max Weight 55 lbs
- 32 - 55" Monitors

Seismic Bracket

The seismic brackets are used to anchor the Air³ safely in your chosen position.

Standard Fittings

LED Lighting System

- High light output, low energy consumption.
- Extremely long lamp life - Min 5 Years.
- Recyclable.
- Zero Maintenance.

Air³ Circulation Fan

Air³ Handling Capability of the Air³ Fan CO₂ Level Outside Pod: 500ppm (parts per million)

Required airflow rate per person:
10 Liters/s Person = 40 Liters/s for 4 people
Air³ Fan provides a maximum of 380m³/hr = 105 Liters/s.

Doors

Door opens from right to left as standard. Not specified on order but at time of install if required.

Fabric Option Diagrams

Air³ can be customized with a range of fabric choices on upholstered panels.

*Please see our Surface Materials Guide or contact your regional Orangebox representative for information on approved fabrics.

Color Options

Options use different color, layers and gradation to personalize your pod. Different fabric type or color can be specified internally and externally.

Single

You can specify 1 single color, alternatively you can have 1 color internal and a different color external.

Layered

Layers 3 + 4 shown in a different color. Again, you can specify this differently internally to externally. Even selecting different layers.

Gradation

Choose from Orangebox's standard gradation colors.
