

Amia

High-Performance Seating

Understated Versatility

Amia, which translates to “beloved”, brings a refined style to any space. Enhanced by labeled manual adjustments, two back options, and responsive support, Amia is a versatile best seller.

Design Details

Amia’s LiveLumbar™ system is incorporated into the overall shape of the chair, offering height adjustable spring force in the lumbar region that actively supports the lower back. Amia was also the first chair to pioneer Steelcase adaptive bolstering in the seat cushion, allowing a user’s weight to distribute evenly, and creating a comfortable sit for every body type.

Features

Back Support
Two different back options offer ergonomic support and encourage movement throughout the day. Select Amia Air with Air LiveBack® or Amia with LiveLumbar™ system.

Manual Synchro-Tilt Mechanism
A manually adjustable chair gives you total control over the adjustments to dial-in the level of recline resistance you feel in the backrest. Adjustments are labeled for ease of use.

Recline Adjustments
Recline range includes full recline with an upright back lock.

4-Dimensional Arms
Fully adjustable arms move in height, width, depth, and pivot to better support your neck and shoulders.

Lumbar Support
Additional adjustable lumbar support comes standard on Amia or Amia Air with 3D Microknit.

Seat Ergonomics
Seat is height and depth adjustable. Flexible edges and adaptive bolstering in the seat foam provide long-term, pressure-free comfort.

- Additional Options:**
- Chair or Stool
 - 4D arms (standard), height-adjustable arms or armless
 - Hard dual-wheel casters (standard), soft roll-control casters or glides
 - Platinum aluminum base
 - Contrasting seat and back
 - Fully upholstered outer back
 - CarbonNeutral® product certification available (chair only)

Amia helps organizations achieve their carbon emissions goals. Add **CN** to the end of the style number to specify Amia with CarbonNeutral product certification.
