# B-Free Collection

## The B-Free collection

is a full range of furniture including modular lounges, knit screens, occasional tables, and standing-height tables aimed to design flexible, easily reconfigurable casual and convenient settings where teams can collaborate. Its modular design creates settings that support the individual and group work. B-Free beam and standing-height work table promote creativity and collaboration.

## B-Free screens in knit

offer subtle privacy and promote concentration. Screens are available in small and large sizes with left or right applications in a variety of colors. Magnets allow screens to connect to another screen or connect to the large cube.

**Occasional tables** are available in coffee and corner configurations. They can be placed in between cubes, in front of cubes, on the side of cubes as an end table, or act as a corner piece with a screen configuration.

**Lounge top block** is contoured and sculpted to provide comfort for multiple postures. Top block is available on the large cube with either a straight application or a corner left or right application. Shown is a corner left application.

**Large cubes** can be standalone units or ganged together with other large cube units.

**Small cube** is both a seat and an ottoman. It can be specified with glides or casters.

B-Free Beams

**B-Free beam** encourages postural changes ranging from sit, perch, and stand, promoting wellbeing through movement while boosting creative thinking and engagement. Pair the beam with the B-Free standing height table which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

**Footrests** are painted aluminum with option to contrast the footrest from the leg finish.

**Legs** are available in finished solid wood or painted aluminum.

**B-Free beams** are available as a large three seater or a small two seater.

Actual Dimensions				
	Depth	Width	Height	Seat Depth
Large cube	29½"	31"	17⅛"	N.A.
Large cube with top block	29½"	31"	31½"	19"
Small cube	16¾"	16¾"	17⅛"	N.A.
Screen (small)	30½"	32"	59"	N.A.
Screen (large)	30½"	40⅞"	59"	N.A.
Coffee table	29½"	17¾"	15⅛"	N.A.
Corner table	29½"	29½"	15⅛"	N.A.
Large beam	16¾"	63"	28⅜"	14¼"
Small beam	16¾"	47¼"	28⅜"	14¼"

## Product Details

**Corner left and right** options on large cube integrate as armrests. The backrest is shaped to "wrap" around the user, providing greater lumbar support.

**Ganging brackets** are discreet and allow cubes to be well aligned when attached together.

**The corner occasional table** can be used as a corner piece and/or to bridge together two large cubes. It also fits perfectly next to the cube and inside of the privacy screen, or works well out front.

**The coffee occasional table** fits perfectly next to the cube and works well out in front of the cube.

**Left and right screens** are decided based on the user seated position in the cube lounge in front of a large screen. The small side of the screen is on the arm side of the cube. The large side of the screen goes behind the cube. Shown above is a large, right screen application.

**The large screen** surrounds the cube and part of a coffee table.

**The small screen** fits perfectly around the cube.

**Screen to screen magnets** come in a pair and attach two screens together.

**Screen to large cube magnets** come in a pair and attach to the bottom of the screen and to the bottom of the large cube.

**B-Free screens** were designed for stationary use. The screens may be moved when lifted and carried. They are not designed to be dragged.

For more information on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

**Solid, non-repeat fabrics** are recommended for B-Free cube lounge settings because of the unique geometric shapes. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics, vinyls, leathers, or non-patterned COM/COL.

## B-Free Beam, continued

**Upholstery****Fabric Application**

Warp horizontal application is the standard application direction for B-Free beam. Horizontal application for this product means that the warp yarns will run along the long end of the beam. If you would like the warp yarns to run parallel to the short end of the beam, specify the direction as warp vertical.

**Warp Horizontal**  
(Railroaded)

**Warp Vertical** (Woven way)

**Pattern matching** is not guaranteed on B-Free beam between top and end pieces.

**Large Beam**

**Large beam stitched seams** are included on the end of the beam and across the beam, separating the seats.

**Small Beam**

**Small beam stitched seams** are included on the ends of the beams and through the center of the beam, separating the seats.

**Programs & Services**

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

**The Customer's Own Material (COM) Program**

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit [www.steelcase.com](http://www.steelcase.com)

**Soil retardants** are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to [lineone@steelcase.com](mailto:lineone@steelcase.com).

# B-Free Standing-Height Tables

**B-Free rectangle and pint tables** make it easy to leverage in-between space across the entire floor plan and create effective workspaces for people to come together and collaborate. Tables support standing and high-sit postures encouraging postural changes while promoting wellbeing through movement and boosting creative thinking and engagement. Pair the B-Free standing-height table with the beam which share the same leg design to elevate any team setting, creating a relaxed and informal atmosphere for dynamic collaboration to flourish.

**Tables** are 39 1/2"H.

**Top** is 1" thick with High-Pressure Laminate or veneer and black backer. Laminate tops have 3 mm edge band on all sides. Edge band color is selectable for laminate tops. Veneer tops have 3 mm wood edge that matches the veneer top finish selection.

**Rectangle tops** have square corners.

**Pint tops** have square corners on the wide end of the table and 2" (50 mm) radius edges on the short end of the table. The pint table has standard dimensions of 32"D (short end: leg width 23 1/4"), 44"D (wide end: leg width 31") x 80"W.

**Legs** are available in powder coated steel. Steel legs are constructed of 2 1/2 mm material bent steel, 3 mm horizontal steel tube, and 3 mm thick powder coated epoxy resin paint.

**Legs** ship standard with four glides.

- Steel leg table: 5/8" glide adjustment range

## Product Details

**Solid core tops with 1" nominal edge thickness** have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

**Woodgrain** runs parallel to the length on rectangle and pint tops.

**Wiring and Cabling****Steel leg profile**

**Steel leg tables** include integrated wire manager and merle cover in the leg.

**Horizontal steel beam,** located in the middle of the legs, is constructed of 1<sup>1</sup>/<sub>4</sub> mm bent steel and powder coated epoxy resin paint.

**MhoB** is a 4" x 5" flip-top power module that mounts at the top surface of the table and can be configured in different power/USB configurations:

- Two receptacles for power
- One power/one dual USB

**Single/dual power and USB solutions** come standard with a 15-amp, one-circuit power solution with a 10' cord.

► See *Power Matrix* on page 566 for available options and power module locations.

**MhoB, one power module,** is located 10" from the short end of the table; on the centerline of the width/depth specified.

**MhoB, two power modules (center or both ends),** are connected by a corded system with just one infeed.

**Surface Materials****Top**

- High-Pressure Laminate (standard)
- Open Line laminate (option)
- Wood veneer (option)
- Customiz stain (option)

**Edge**

- Plastic on laminate top
- Wood veneer to match veneer top

**Steel legs**

- Accent paint
- Paint
- Lux Coatings
- PerfectMatch

**Wood legs**

- 3860 Espresso
- 3861 Natural Beech

**Power modules**
