Ordering and Warranty

HOW TO ORDER

Coalesse furniture is available through authorized retailers. Select products are available for order from our web site. The authorized dealer can help you with everything from surface material selection and order placement, to specialized services, such as space planning and design, delivery and installation. Best of all, they are part of your local community, providing expert advice with a thorough understanding of local needs. For more information and a listing of dealers and retailers, visit www.coalesse.com or call 1.800.627.6770.

Coalesse reserves the right to limit distribution of any or all models.

CREDIT, PRICES, AND TERMS

Credit may be established upon acceptance of satisfactory references. For payment terms, contact Coalesse's Credit Department. Coalesse may cancel or change credit terms at its discretion and may request advance payment at any time.

The order confirmation will be deemed by the customer and by Coalesse, as the final expression of agreement and will be deemed the exclusive statement of terms. The order confirmation supersedes all prior writings and may not be modified or rescinded, except by a revised Coalesse order confirmation signed by the customer. No changes are binding on Coalesse until delivery of the order confirmation.

Any storage charges and applicable sales taxes are in addition to the prices shown for merchandise. Inside delivery, uncartoning and installation are customer's responsibility unless separately quoted. All list pricing shown includes freight prepaid to one destination for delivery in the 48 contiguous United States. Hawaii and Alaska are not included. We reserve the right to increase prices without notice due to increases in labor and material costs. If timely payment is not made, customer is liable for reasonable collection costs, including attorney's fees.

SHIPPING

Published pricing includes shipment via standard carrier on Steelcase truck within continental US 48 states to a business location only. In the event that Retail Partner requires drop ship delivery to a small location that is inappropriate for delivery via standard carrier or Steelcase truck, such as a consumer or small business, shipment via FedEx Ground is available for an upcharge on a per Product basis. Rates for FedEx Ground delivery can be quoted by Coalesse's Retail Customer Service Representative. Such shipping charges will be included in the invoice. Retail Partner will determine if FedEx Ground is required, as opposed to delivery via common carrier or Steelcase truck. Any fees incurred by Coalesse to deliver Products to a location that was incorrectly specified as needing FedEx Ground will be charged to Retail Partner.

CLAIMS

Merchandise shipped from Coalesse is thoroughly inspected and properly packed before leaving the factory. Responsibility of its safe delivery is assumed by the carrier at the time of shipment. Customer must match the freight delivered with the bill of lading. Customer must examine packaging material upon delivery and note any damage on the carrier bill of lading. If there is damage to the packaging material, inspect the furniture immediately. If concealed damage is found, contact the carrier within 10 days of delivery date. Save all packaging materials until after inspection.

Freight damage and claims must be reported by the purchaser to the carrier. Coalesse is not responsible for freight claims. Claims for loss or damage must not be deducted from our invoice, nor payment withheld awaiting adjustment of such claims. Do not return any merchandise to Coalesse without a Return Authorization number. By following these procedures carefully, Coalesse guarantees our full support of your claims to protect you against loss or damages. All claims against Coalesse for errors or shortages must be made by customer in writing within fifteen (15) days after delivery. Failure to make claims within fifteen (15) days constitutes acceptance of merchandise and waives claims. Cutting of textiles deems acceptance of yardage and waives all defects, errors, and shortages. Coalesse is not liable for subsequent damages.

SPECIAL / CUSTOM PRODUCTS

Coalesse prides itself on being responsive to our customer's needs. Contact our customer service team at 1.866.279.6216 to discuss a special opportunity. Due to product modifications and engineering time, special orders may not be cancelled. Charges will apply.

FOR MORE INFORMATION (on ordering our products)

Please contact Coalesse Customer Service at: 1.866.279.6216 .

ORDER CANCELLATIONS/CHANGES:

All order change/cancellation requests must be submitted using the Coalesse order change/cancellation request form. Late changes could jeopardize the committed delivery of an order.

Coalesse products:

- No charges will be assessed for change or cancellation 14 or more calendar days prior to the manufacturing completion date (excludes holidays and/or large quantity project size orders). For import products, charges may apply.
- No manufacturing changes are allowed 0-13 calendar days prior to the manufacturing completion date. Simple changes including shipping address changes are subject to approval but will be accommodated when possible.
- No cancellations or product changes will be accepted for quick ship or special/custom product orders including special laminates. A cancellation fee will be applicable for any custom product and/or change may jeopardize lead time.
- If COM/COL has been received at time of change or cancellation, it is the dealer's responsibility to advise disposition or return of materials. Coalesse will not store materials after 30 days.

ADDITIONAL CHARGES:

- Changes or cancellations that involve any of the following may be subject to a charge earlier and/or greater than shown above: Special engineering product, CSM, pre-ordered components, materials with extended lead times (e.g., veneers, special paint, etc.) or large quantities of standard materials.
- Use our Order Change/Cancellation Request Form for all order changes. It is Coalesse responsibility to accurately process change order requests. It is the dealer's responsibility to verify that we have accurately interpreted your change requests by checking the acknowledgement after the change has been made. If you do not use the web-based change order form process and an error occurs during our translation which cannot be corrected prior to ship, all costs will be shared on a 50/50 basis. Changing ship dates or adding product to your order is subject to the availability of manufacturing capacity.
- Cartoning changes and shipping address changes are subject to approval and to a change charge. Please consult your Customer Service for specific information pertaining to your order.

RESERVED FABRIC POLICY

Prior to order receipt, reserving textiles (COM/COL, Maharam, and Designtex Select Surfaces) is the responsibility of the retailer. Coalesse cannot reserve textiles based on projected orders. Coalesse cannot guarantee Maharam or Designtex fabric availability. If retailer reserves Maharam or Designtex textiles, Coalesse will require the reserve number and zip code for locating purposes when ordering.

Ordering and Warranty

SCHEDULE ENHANCEMENTS

Coalesse will entertain schedule enhancements on a case-by-case basis; however, please understand that we must receive complete information such as installation date, opening date etc...to make informed scheduling decisions.

No order move-ups or move-outs are allowed on any order that falls within the 15-working day period of its manufacturing completion date. If it is within the 15-working day period, Coalesse will invoice at shipment but may offer storage options at a charge for manufactured product.

Surface Materials

ELMOTIQUE, ELMOSOFT, ELMORUSTICAL LEATHER CARE

Only the finest hides are used for Elmo leather. Expect some color variations from hide to hide due to the aniline state of the product. Color fading may occur if leather is exposed to direct or intense light. Care is required to allow this product to achieve the rich natural patina that beautiful natural leather develops. The hallmarks of this leather include some naturally occurring markings, such as healed scars, insect bites, stretch marks, and fat wrinkles. Dorado's leather treatment is very natural with little protection from spills or body oils. This rich leather will exhibit stains and oils through normal use. Coalesse is not responsible for discoloration, spotting, or staining on this leather.

SPECIAL COLOR MATCH LEATHER

Coalesse can provide a special color match in its leather to any supplier's leather color, paint color, carpet color, wallpaper color, etc. Sample to match must be submitted to Coalesse with purchase order. Sample for approval can be supplied if requested.

Note: - Minimum order 2,500 sq. ft.

UPHOLSTERY

All Coalesse textiles are priced by groups. Some Coalesse fabrics can be treated for flame retardancy, contact Customer Service. All Coalesse products are handcrafted making each unique. Certain fabrics and leathers will appear loose and may differ from like products due to comfort wrinkles when upholstered.

A contrasting welt is available on some products. Consult Customer Service for yardage or square feet requirements and prices. All stripes will be applied vertically unless customer specifies otherwise. Loose cushions on Coalesse products are not fully upholstered (not reversible).

Designtex and Maharam fabrics are graded in our pricing. Simply order Coalesse products with Designtex and Maharam specified. Designtex and Maharam fabrics are graded in on Coalesse products; however, Coalesse does not stock fabrics and can only respond based on Designtex and Maharam lead times. For current groups, refer to Coalesse website: www.Coalesse.com.

Pre-approved CAL 133 Textiles

Designtex and Maharam textiles have been graded into our pricing; however, not all textiles are recommended on all seating. For current group and approval information, please visit our website and click on FABRIC EVALUATIONS to obtain group pricing for a specific pattern.

WOOD AND FINISH SPECIFICATIONS

Solid hardwood is a renewable natural resource, and each section of a tree is unique. The color and grain pattern will vary emphasizing the natural beauty of each product built. Wood is a natural material and will accept stain differently. Coalesse cannot guarantee finished products to be an exact match to finish samples due to the natural characteristics of wood. Light finishes will exhibit some mineral streaks and dark graining due to the natural wood.

The finish used by Coalesse on hardwood frames and occasional tables is pre-catalyzed lacquer which can be easily repaired in the field if damage occurs. Veneer is sanded prior to finish application, and sanded between coats. The lacquer top coat is then polished after final application with wool wax. 4 to 6 layers of finish are applied during the process. The CH process varies from our internal processes.

Coalesse Tables and Casegoods

Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. contoured products, such as wood side chairs & occasional tables, are finished with post-catalyzed vinyl, which provides similar properties and matches the sheen and color of Clarity. due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

STAIN-TO-MATCH PROGRAM

Coalesse will offer a stain to match program at no additional upcharge for all products with wood finish options.

Customer must supply Coalesse Customer Service with sample to be matched. (internal note - CSR's will have samples of bare wood to compare and define species when applicable that will be used to accomplish the closest stain to match).

Standard Coalesse sheen will be standard unless specified by customer.

Sheen to match is available as part of the stain/sheen to match program at no upcharge.

Species to match is considered a special and requires to special request to Coalesse Customer Service. Species to match may require an upcharge.

Express

The Express program provides a broad selection of our most popular seating, outdoor furniture, and tables with expedited manufacturing. To view and specify products that are included in the Express program, please refer to the *Express Program Specification Guide*. The comprehensive Coalesse offering in this program can easily provide a range of solutions for any setting. Express is designed for clients whose needs require fast delivery of products. All products are made-to-order and Express orders are manufactured within 7 business days and typically deliver within 8-16 business days (weekends, national holidays, and Steelcase holidays are not included).

Warranty

For warranty information, please go to <http://www.coalesse.com/warranty/>.

Sustainability

As our understanding of sustainability evolves in the contract furniture business, Coalesse is being launched on three important fronts: responsibly harvested woods, better ways of plating metal, and manufacturing for the highest level of durability. To ensure all new products are socially responsible, we have engaged the "cradle-to-cradle" design consultancy, MBDC, to advise us and provide third-party analysis of the materials and processes we use to create our products. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

**WOODS:
FSC CERTIFICATION**

Our policy with wood sourced from outside North America and our approved European partners is that they must be certified by The Forestry Stewardship Council (FSC) to ensure these woods have been responsibly harvested from sustainable forests, and that the rights and welfare of workers and local communities are being respected. Through an FSC label, wood can be traced back to its original source of supply.

Our Grand Prairie, TX and Geneva, NY manufacturing locations have chain of custody certification for working with FSC certified woods.

**TRIVALENT CHROME: A
NEW ALTERNATIVE**

Chromed steel is a mainstay of the contract furniture industry because it is considered a premium finish with high durability. But depending on the type of chrome processing used, it can have a detrimental impact on human and environmental health. The most common method of chrome plating uses hexavalent chrome, a known carcinogen and considered by MBDC in their color-coded rating system (green, yellow, red), to be a "hard-red" chemical. There are no health hazards associated with chrome once it has been applied, but the hexavalent chrome electroplating process can be hazardous.

Is there an alternative? Coalesse is opting for a safer method of plating and has partnered with a domestic supplier who uses only "trivalent" chrome, a non-carcinogenic form of the metal. Few, if any, metal finishing processes are without environmental challenges, and chrome is no exception. Working with the best technology currently available, we will continue to seek new and better alternatives.

BUILDING TO LAST

Building longevity into products is an important sustainability strategy. A chair or table that lasts for 50 or 100 years or more will not have to be replaced, saving the materials and finishes and embodied energy from being duplicated in another form. Coalesse is quality furniture designed to outlast its buyers. Our hope is that every piece in our collection appreciates in value over the years, so it will be passed on.

ONGOING AUDITS

As the Coalesse collection grows, our intention is to live by the cradle-to-cradle (C2C) philosophy described by MBDC this way: "Instead of designing cradle-to-grave products, dumped in landfills at the end of their 'life,' the goal is create products for cradle-to-cradle cycles, whose materials are perpetually circulated in closed loops. Maintaining materials in closed loops maximizes material value without damaging ecosystems." Coalesse has contracted MBDC to audit the materials used in the majority of our existing products, and to advise us as we develop new products. We intend to achieve Cradle to Cradle certification on the highest percentage of products possible. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

Designers

Brian Kane—USA

Bindu

Brian Kane graduated from the University of Bridgeport, Connecticut, in 1970 with a Bachelor of Science degree in Industrial Design. He worked for several New York City design studios and spent a year in Milan, Italy, working for Architect Silvio Coppola. His projects included the design of seating and casegoods for such companies as Mobil Italia Spa. and Bernini Spa.

After returning to the U.S., he worked in New York for Atelier International (A.I.). Work involved special contract furniture design projects, showroom design, and the startup of U.S. production of Italian designs by Cassina, B&B, and Tecno.

Kane joined the design staff at Metropolitan Furniture Corporation (Coalesse) in January, 1977. Less than three years later, he became one of four partners assuming ownership of the firm, and took on the responsibilities of Vice President of Design and Product Development.

In 1987, Metropolitan was acquired by Steelcase. For the next two years, Kane maintained his position as Vice President and was responsible for all aspects of Coalesse's design, including products, showrooms, and graphics.

In March of 1989, Kane established Kane Design Studio in San Francisco.

Kane's designs have won over 80 design awards and have been exhibited at the Whitney and Brooklyn Museums in New York and the Museum of Modern Art in San Francisco.

Patricia Urquiola—Spain

Hosu and Last Minute

Patricia Urquiola began training as a student in architecture at Facultad de Arquitectura de Madri before graduating in design from Politecnico di Milano in 1989, where she studied under Achille Castiglione.

In 1991, as head of the product development team at De Padova, Urquiola designed her first commercial furniture pieces (in collaboration with Vico Magistretti). They were highly imaginative yet functionally pragmatic, an appealing combination that has defined her work since.

From 1993 to 1996, Urquiola owned a studio with two friends, accepting commissions in architecture, interiors, showrooms, and restaurants. From 1996 to 2000 she managed the design group Lissoni Associati, then opened her own studio in Milan, focusing on product design, displays, and architecture.

Best known for her many designs for Moroso, Urquiola has also worked for De Padova, Agape, B&B, Alessi, Triade, Foscarini, Kartell, Flos, Molteni, and Artelano among other well-known furniture houses. She has won numerous design awards and is sought after as a speaker at conferences and universities.

Coalesse

Massaud Lounge Seating

DESIGN JEAN-MARIE MASSAUD

Massaud Conference Seating

DESIGN COALESSE DESIGN GROUP AND JEAN-MARIE MASSAUD

Tip: For duvet conference chairs, fabrics and leathers will appear loose with comfort wrinkles when upholstered.

Tip: For Customer's Own Material or Leather, see necessary requirements, important processing instructions, and ordering information.

► See *Coalesse Surface Materials Reference Guide* and online fabric database at <http://fabric.coalesse.com>

Tip: Pneumatic height adjustment allows user to change seat height, with the assistance of a pneumatic gas cylinder. Synchro-tilt mechanism has three recline positions and two tension positions.

Tip: Faux leathers and vinyls are not recommended on arm cap upholstery.

Tip: Loop arms can be adjusted out 1" on either side. Requires tools and must be done by a facility manager.

Tip: Easy slide glides are to be used on carpet and soft flooring.

Surface Materials—Upholstery

Upholstery

All Coalesse textiles are priced by groups. Some Coalesse fabrics can be treated for flame retardancy, contact Customer Service. All Coalesse products are handcrafted making each unique. Certain fabrics and leathers will appear loose and may differ from like products due to comfort wrinkles when upholstered.

A contrasting welt is available on some products. Consult Customer Service for yardage or square feet requirements and prices. All stripes will be applied vertically unless customer specifies otherwise. Loose cushions on Coalesse products are not fully upholstered (not reversible).

Designtex and Maharam are graded in our pricing. Simply order Coalesse products with Designtex and Maharam specified. Designtex and Maharam fabrics are graded in on Coalesse products; however, Coalesse does not stock fabrics and can only respond based on Designtex and Maharam lead times. For current groups, refer to Coalesse website: www.Coalesse.com.

Pre-approved CAL 133 Textiles Designtex and Maharam textiles have been graded into our pricing; however, not all textiles are recommended on all seating. For current group and approval information, please visit our website and click on FABRIC EVALUATIONS to obtain group pricing for a specific pattern.

Seating Upholstery

Coalesse fabrics are priced by groups from 1-10 and leathers 1 and 2. Fabrics and leathers may be purchased separately, see page 25.

Some fabrics can be treated for flame retardancy, please contact customer service.

Surface Materials—Leather/Faux

Leather

ELMOSOFT, ELMORUSTICAL LEATHER CARE

Only the finest hides are used for Elmo leather. Expect some color variations from hide to hide due to the aniline state of the product. Color fading may occur if leather is exposed to direct or intense light. Care is required to allow this product to achieve the rich natural patina that beautiful natural leather develops. The hallmarks of this leather include some naturally occurring markings, such as healed scars, insect bites, stretch marks, and fat wrinkles. Elmorustical's leather treatment is very natural with little protection from spills or body oils. This rich leather will exhibit stains and oils through normal use. Coalesse is not responsible for discoloration, spotting, or staining on this leather.

Elmo Leather

Coalesse uses leathers that are provided by Elmo of Sweden. Elmosoft is a full grain, aniline dyed, semi-aniline finish. With Elmosoft leather, now recyclable and chromium-free, you have the opportunity to bid on green projects when requested. Elmosoft leathers are never corrected, buffed, or altered in any way. Coalesse purchases only original full grain leathers. The quality of this genuine leather can be felt in the hand immediately. Other leathers are often stiff because of the amount of pigment needed to cover the imperfections of an inferior hide. Using leather of a low quality affects the overall quality of the furniture it is upholstered on. You can feel confident in leather purchased from Coalesse.

Surface Materials—Wood

Wood

Standard Wood Finishes

Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Contoured products, such as wood side chairs and occasional tables, are finished with post-catalyzed vinyl, which provides similar properties and matches the sheen and color of Clarity. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Samples contact Customer Service at 1.800.627.6770

Oak

Surface Materials—Metal/Paints

Metal/Paint

Coalesse powder coats all painted metal components for an exceptionally durable, environmentally responsible finish — eliminating VOC's (volatile organic compounds) from being released into the environment. Electrostatically charged powder coat material is applied to an exacting thickness and then temperature baked, resulting in a smooth, flawless finish that is abrasion and impact resistant.

Care and Maintenance

Chrome

Use commercial cleanser and polish, according to manufacturer's directions.

Fabric

Under normal use, clean with soft cloth dampened with water. For spots and spills, we recommend professional cleaning. For COM, refer to the specific cleaning instructions recommended by the fabric supplier.

For stubborn stains use mixture of one gallon cold water, 1/2 cup bleach and 1/4 cup mild soap for one hour.

Detergents can be used without harm, though they may remove some of the water and stain resistant properties in the fabric.

Laminate and solid phenolic should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Leather

Under normal use, regular dusting and vacuum cleaning are all that is necessary. For spots and spills, wipe excess liquid immediately. If necessary, use lukewarm water cleaning the entire area where spot occurred and air dry. For stubborn spots or stains, use a solution of mild non-detergent soap and air dry. For butter, oil, or grease, wipe excess with dry cloth and then leave alone. The spot will dissipate into the leather. Do not apply water.

Granite/Glass

Under normal use, clean with Windex and soft cotton cloth.

Powder coat finishes on chairs and table bases should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Polished Aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Protecting Wood Surfaces

Use desk pads and coasters to help protect the finish against dents, scratches, moisture and hot and cold liquids. Do not use desk pads that have plastic backing. Use felt or leather pads on the bottoms of office equipment and accessories.

Periodically move desk accessories and other objects kept on the worksurface to ensure even aging.

Lift objects when you move them, instead of pulling or pushing them across the surface, to avoid scratching the surface. Avoid leaving vinyl binders on worksurface for long periods.

If you use a protective glass top, insert felt pads between the glass and the worksurface, to create an air space and allow the wood to breathe.

Keep your furniture away from direct sunlight. Avoid extreme temperatures and humidity. Maintain temperatures between 60 and 80 degrees Fahrenheit and humidity levels between 30 and 50 percent.

Cleaning Wood Surfaces

Keep a supply of soft, clean, absorbent cloths handy for wiping up spills and regular dusting.

To dust, wipe with a slightly damp, soft cloth, using another soft cloth to dry. Always wipe the surface in the direction of the woodgrain.

Use a quality cleaner or flax soap formulated especially for use on wood surfaces. Do not use oils or ammonia. Dilute the cleaner as directed by the manufacturer. Dampen but do not saturate a soft cloth with the diluted cleaning solution. Wipe the surface in the direction of the woodgrain to remove dirt and fingerprints. Wipe the surface clean with a soft, dry cloth.

Vinyl

Under normal use, clean with soft cloth dampened with mild soap solution. For stubborn stains and spills, a sponge or soft brush may be used with mild non-abrasive cleaner.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.
