Collaborative Surfaces Specification Guide

Availability

Electronic price list updated with release 204.A (U.S.) and 158.A (Canada), dated February 16, 2026.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a T. Products that are scheduled to be culled are indicated with an X, followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

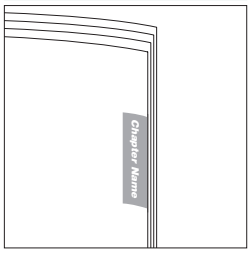
For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

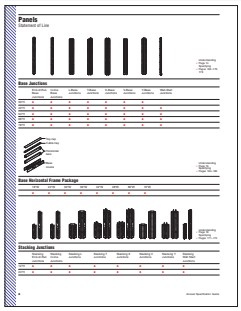
Ten Tips:
How to Get the Most Out of This Book

Tip 1



Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2



Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

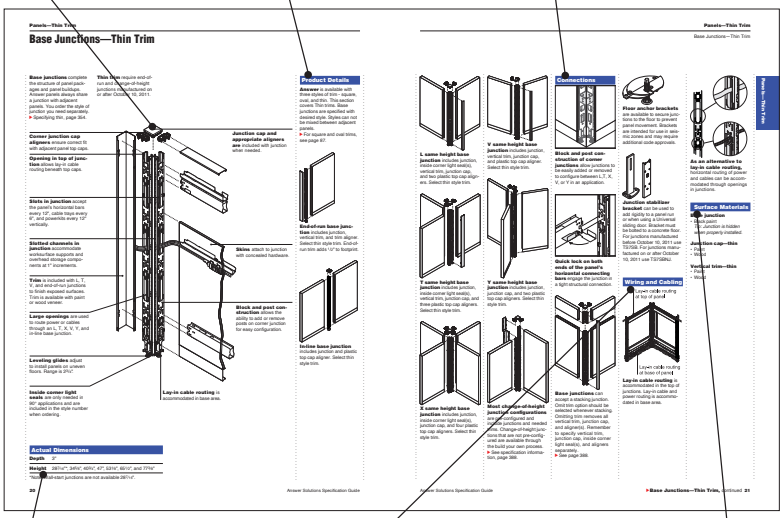
Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.



Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Steelcase
February 2026

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

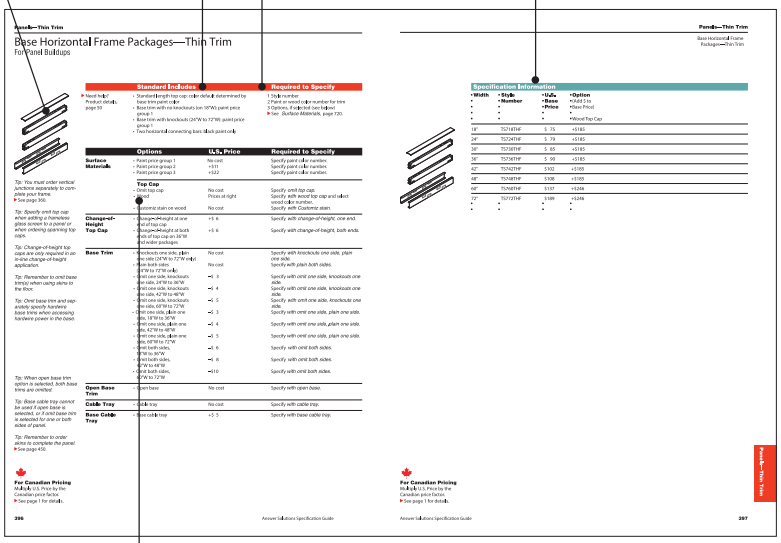
- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.



Panels—Thin Trim

Base Horizontal Frame Packages—Thin Trim
For Panel Buildups

Standard Includes | Required to Specify

Options | U.S. Price | Required to Specify

Specification Information

Panels—Thin Trim

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

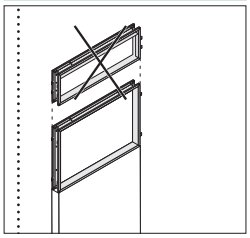
Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8



Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Collaborative Surfaces products are supported with informational materials, tools, and software to help you plan, specify, and order an installation efficiently.

Printed Materials

Other Specification Guides
Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com

Computer Tools

Electronic Catalog
Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools–Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data
Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications
You can access these digital publications at www.steelcase.com or village.steelcase.com.

Support

Steelcase Capabilities
Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to: http://www.steelcase.com/warranty/.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: https://www.steelcase.com/discover/steelcase/esg-overview/environmental/

Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Material Resources

Material Resources

e^3 environmental CeramicSteel **10**

Cleaning/Daily Care and Maintenance **11**

Material Description **12**

e³ environmental CeramicSteel

The e³ environmental CeramicSteel Difference
Steelcase Premium White Boards incorporate the e³ environmental CeramicSteel surface, which is the first and only ecologically intelligent whiteboard surface to receive a MBDC Cradle to Cradle Bronze certification. Cradle to Cradle certification evaluates products for environmentally safe and healthy materials; energy and water use during production, the ability to recycle and reuse materials, and social responsibility. Steelcase has created its fourth generation of CeramicSteel writing surfaces, e³, which delivers the properties of its best selling writing surface, P³ CeramicSteel, and complies with the Cradle to Cradle certification criteria. Steelcase will continue to follow standards set forth by MBDC Cradle to Cradle certification to reaffirm our commitment to sustainability. For over five decades, millions of boards have been produced around the world using P³ CeramicSteel. Steelcase used this cross section of consumers to gather the information that helped determine what the next generation of writing surfaces should provide. Our internationally renowned R&D team worked with experts in the field of ceramics and technology to create e³ environmental CeramicSteel surface – the new industry standard for superior quality.

The e³ environmental CeramicSteel Advantage
The ceramic finish consists of a specially formulated glass substance applied by machine. The e³ environmental CeramicSteel surface is fused to steel at a temperature of approximately 1500 degrees Fahrenheit for whiteboards. It registers at a minimum of five (5) on the revised Mohs hardness scale.

Benefits of e³
- Ultra-smooth writing surface
- Improved erasability
- Greater color contrast
- Significantly less surface/light distortion
- Optimum eye comfort
- Enhanced visibility
- Reduced chalk pressure, greater adherence
- Increased chalk/surface contrast
- Accepts magnets

Environmental Features
- Enamel fused to cold-rolled enameling-grade steel
- In all coatings, the total amount of heavy metals cadmium, mercury, hexavalent chromium, and lead is less than 0.1%
- All coatings are free of arsenic and antimony
- No Volatile Organic Compounds (VOCs)
- Steel core is made from minimum 30% post-consumer and post-industrial waste
- e³ environmental CeramicSteel surface is 99% recyclable

Cleaning/Daily Care and Maintenance

Maintenance

Before the first use of your CeramicSteel:

- Remove the protective film.
- Wipe board with a clean cloth moistened with a high-quality whiteboard cleaner.
- Wipe surface dry with a clean cloth.

Daily cleaning instructions for your CeramicSteel:

- Wipe surface with a clean cloth moistened with warm water.
- Wipe surface dry with a clean cloth.

More thorough cleaning may be required if writing is left on the board for more than two days.

Textura Fabric Cleaning and Care

Wipe with a damp cloth using soap and water or use proprietary upholstery shampoo.

- For deeper cleaning use alcohol spray or wipes. Bleach can be used by following the guidelines below.
- Anti-bacterial sprays and wipes can be used to wipe down the fabric to disinfect.

General commercial disinfection:

- Use a household bleach (containing approximately 4.5 oz per 100 oz of sodium hypochlorite), which should then be used in a 1:10 dilution.
- Follow the instructions of the brand.
- Measure out the required dose in relation to the quantity of water, soak a white or lightly colored cloth in the solution, squeeze out any access liquid and gently wipe the fabric before leaving dry.

Acoustic Cleaning and Care

Remove spills immediately using damp, clean cloth. Dab with a clean, soft white cloth dampened with a mild solution of liquid detergent and warm water. Repeat using only clean water, then pat dry with a lint free cloth. Always test in an inconspicuous area first.

Avoid using wax polishes, solvents or concentrated abrasives.

For more difficult stains, dampen a soft white cloth with a solution of household bleach (10% bleach / 90% water). Dab gently. Repeat using only a clean, water dampened cloth to remove bleach concentration then pat dry with a lint free cloth.

Note: Fabrics have been developed to withstand regular cleaning maintenance and disinfection. Please follow the manufacturer instructions on cleaning and disinfection agents. We recommend spot testing on an inconspicuous part of the material first. Fabric samples are available for testing by contacting samples@polyvision.com.

Markers

Use any high-quality dry erase marker.

⚠ CAUTION

For optimal performance, Steelcase recommends the use of high quality solvent-based dry-erase markers, as opposed to water-based dry-erase markers (also called "low odor markers"). Low odor markers do not perform as well as solvent-based because the water takes longer to dry and the ink clings more aggressively to the board's surface, leaving behind a film. Replace markers when almost dry to avoid poor erasability. Replace the eraser felt regularly. Dirty felt or erasers will result in poor erasability.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

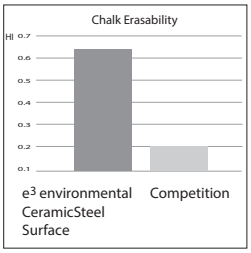
- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

Material Description

e³ environmental CeramicSteel is produced by a controlled, continuous coil-coating process. The surface consists of a steel core of .013" and .019" thickness covered on both sides with thin enamel coatings. The ceramic finish is fused to the steel at a temperature of approximately 1500°F for whiteboard and 1250°F for chalkboard.

Characteristic	e³ environmental CeramicSteel
Writeability	Whiteboards can be written on with any dry-erase, semi-permanent, water-soluble, permanent marker, pen, or crayon without damaging the surface. Chalkboards have a superior, low-gloss, matte finish that readily accepts chalk providing a sharp, unbroken line with less pressure and maximum surface adherence.
Visibility	Contrast/waviness for whiteboards (light and dark effects) shall be no greater than 15 when tested with BYK - Gardner Wave Scan 5+ measurement device showing visual acuity (contrast sensitivity) to the human eye at distances greater than 3 meters (10'–0"). Contrast/waviness for chalkboards (light and dark effects) shall be no less than 20 when tested with the contrast measurement test with 773-gram load on chalk. Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.
Erasability	For whiteboards, dry-erase marker ink can be wiped off easily with a dry cloth or standard eraser. Crayon, semi-permanent, and permanent marker pen inks can be removed with a solvent based cleaner. Chalkboards erase easily with a dry cloth or standard chalk eraser, retains minimal residual chalk dust, and will not leave "ghost writing." Color change (dark/light) after chalk erasing is reduced 60% from traditional surfaces.
Cleanability (Washability)	WET Ghost measurements on chalkboard surfaces before and after wet cleaning shall not exceed a factor of 0.49. For further care and cleaning instructions, refer to the *www.steelcase.com/en/products/category/markerboards/static-boards*.
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1250°F for chalkboards and +1500°F for whiteboards. High resistance to impact damage, abrasion, scratching, and color fading. The e³ environmental CeramicSteel surface registers at a minimum of 5 for chalkboards and 6.5 for whiteboards on the revised Mohs hardness scale.
Magnet Capability	The e³ environmental CeramicSteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.
Flame Resistance	The e³ surface is 100% non-combustible.

Low-Gloss Whiteboards



The ultra-smooth finish enables dry markers and chalk to glide easily across the e³ environmental CeramicSteel surface with minimal friction. The surface smoothness allows more dry-erase ink and chalk to be removed, improving erasability and eliminating "ghost writing".

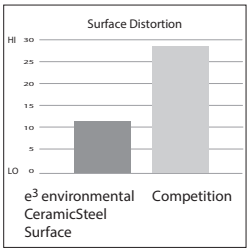
*All whiteboard erasability tests were conducted using High-Gloss e³ environmental CeramicSteel surfaces.

Writeability

Low-Gloss provides the same writing characteristics as High-Gloss.

Erasability

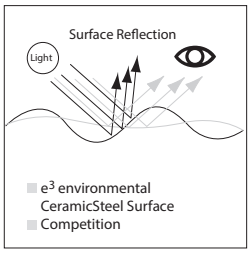
Low-Gloss surfaces will not erase as thoroughly as High-Gloss surfaces. When this occurs, a water-dampened cloth will be required to erase the surface.



Surface distortion (Orange Peel) has been reduced significantly in direct comparison with the competition's surface.

Cleanability

After normal erasing of Low-Gloss surfaces, solvents may be used to remove harder-to-erase dry marker inks and residue from other pens. Always clear water rinse after using any cleaning agent on the surface.



The e³ environmental CeramicSteel surface maximizes the performance of reflected light and reduces surface glare, resulting in improved visibility under a wide range of lighting conditions.

Understanding Parametrics

What is Parametric? Parametrics is the ability for a customer to change dimensions of a product within pre-engineered limits.

Customers do not have to go through the specials process for dimensional size changes, thus reducing lead times.

Parametric Premium Whiteboards allow for the specification of non-modular sizes in three trim styles to suit a variety of design applications. The two style numbers are PWBWTBRD for whiteboards and PWBTKBRD for tackboards.
▶Specifying, page 28

Trim styles:
- Edge Series
- 110 Series
- 555 Series

Parametric Polyvision whiteboards allow for specification of non-modular sizes with or without edge framing, varying by product selected. The two style numbers for Polyvision whiteboards are **PVFLOWPM** for Flow and **SANSPM** for Sans.

Two edge options are available:
- Sans—frameless only, optional accented edge colors
- Flow— anodized aluminum, framed or frameless

Parametric products requiring digital print graphics will need to be quoted by Specials. Refer to Sans, Sans Light, or Parametric Premium Whiteboards (modular sizes only) for standard graphic patterns and finish color options.

Overall Dimensions

Premium whiteboard and tackboard dimensions can be ordered to the 1/16 of an inch within these ranges.

For whiteboards, the range of sizes is:
- Width: 24.25" to 192.25"
- Height: 18.25" to 48.25"

For tackboards, the range of sizes is:
- Width: 24.25" to 120.25"
- Height: 18.25" to 48.25"

Polyvision whiteboard dimensions vary by product selected and orientation. Dimensions can be ordered to the 1/16 of an inch within these ranges. The marker tray option is not available for Sans or Flow parametric.

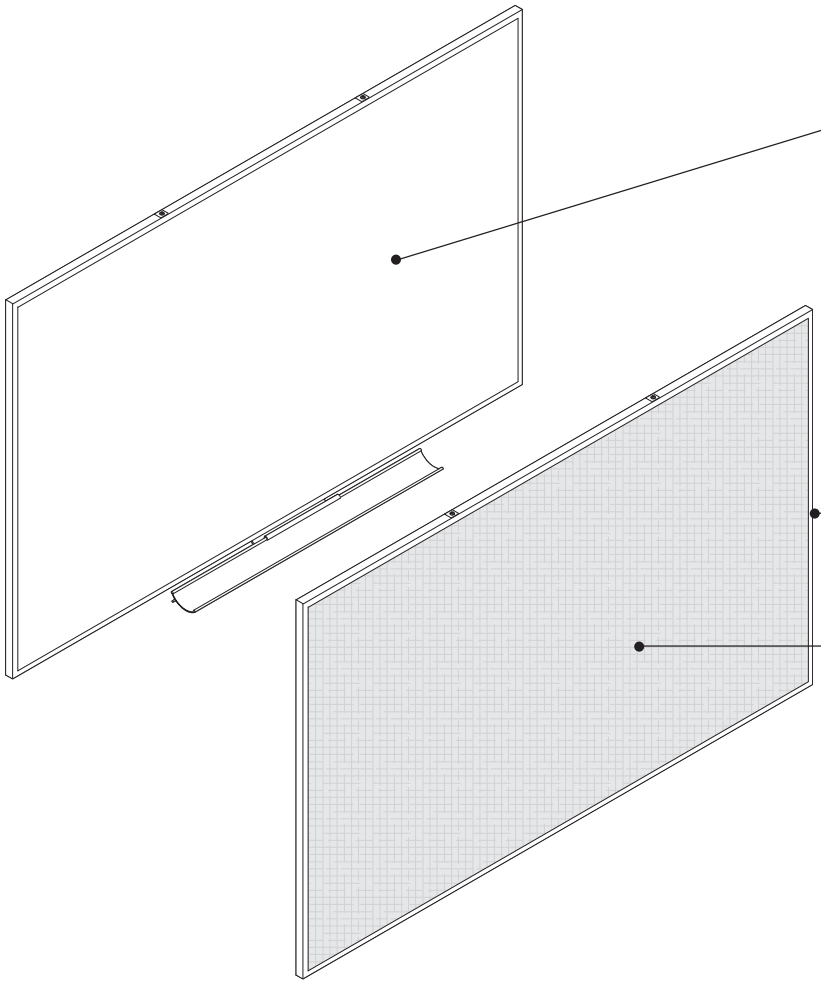
SANSPM the range of sizes is:
Horizontal:
- Width: 24" to 144" (610 mm to 3658 mm)
- Height:24" to 46.625" (610 mm to 1184 mm)

Vertical:
- Width: 24" to 46.625" (610 mm to 1184 mm)
- Height:46.6875" to 96" (1186 mm to 2438 mm)

PVFLOWPM the range of sizes is:
- Width: 46.6535 (1185 mm) The width for **PVFLOWPM** is a fixed dimension
- Height:60" to 96" (1524 mm to 2438 mm)

Parametric Premium Whiteboards and Tackboards

Edge Series, 110 Series, and 555 Series



Writing surface is 7655 White High Gloss high-performance e³ environmental CeramicSteel.

Digital printing is available in either standard graphics or custom graphics (requires Polyvision print number) on modular sizes only. For custom graphics, please contact your Polyvision sales representative at: sales@polyvision.com to start the process and acquire a custom print job number.

Trim and marker tray are 8043 Clear Anodized Aluminum.

Tackable surface on tackboards is optional and available in a selection of standard or Select Surface fabrics. COM is also available.

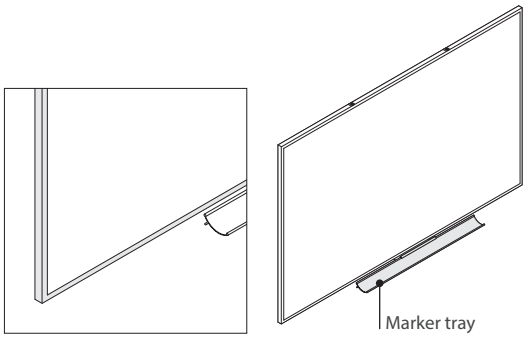
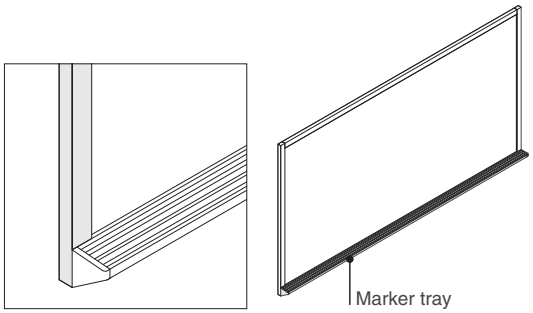
Trim and Marker Trays:

Edge Series



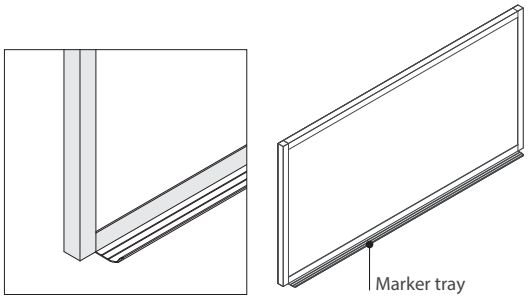
Trim is ¼" with undersized marker tray. Both are clear anodized aluminum. Trim is also available in 4750 Champagne Metallic.

555 Series



Trim is 1¼" with full width box style marker tray. Both are clear anodized aluminum.

110 Series



Trim is ¾" with full width blade style marker tray. Both are clear anodized aluminum.

Product Details

Sizes of whiteboards and tackboards are nominal and parametric; refer to actual dimensions for exact specifications.

Modular size option allows specification of height and width in pre-defined combinations.

Whiteboards		Tackboards	
Height	Width	Height	Width
18.25	24.25	18.25	24.25
24.25	36.25	24.25	36.25
36.25	48.25	36.25	48.25
48.25	36.25	48.25	36.25
48.25	48.25	48.25	48.25
48.25	60.25	48.25	60.25
48.25	72.25	48.25	72.25
48.25	96.25	48.25	96.25
48.25	120.25	48.25	120.25
48.25	144.25*		
48.25	192.25*		

Tackboard construction is ⅜" fiber board over ⅛" hardboard.

Fabric is available on tackboards only and comes in a selection of standard or Select Surface fabrics. COM is also available.
▶ See page 90

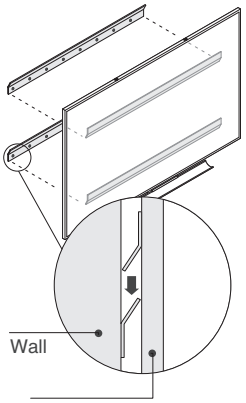
The tray width for Edge Series will correspond to the overall whiteboard width. See the matrix below for the breakdown. The tray width for 110 and 555 Series will be the width of the board.

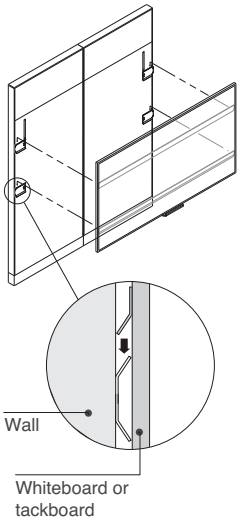
Board Width (Inches)	Tray Width
24.25000– 36.00000	18"
36.06250– 48.00000	24"
48.06250– 60.00000	36"
60.06250– 72.00000	48"
72.06250– 96.00000	48"
96.06250–120.00000	60"
120.06250–144.00000	72"
144.06250–192.25000	96"

A no tray option is also available for whiteboards.

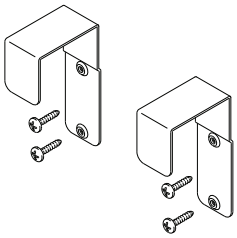
Connections

Edge Series





On- and off-module bracket allows for Premium Whiteboards to be mounted on Privacy Wall, Answer, or Kick using a standard metal cleat-mounting system.

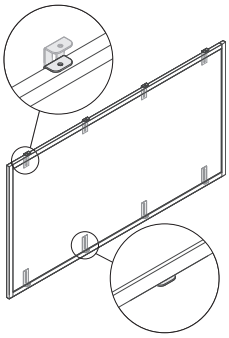


2" over panel bracket/ hook mounting system allows for Premium Whiteboards to be mounted on Kick and Avenir.

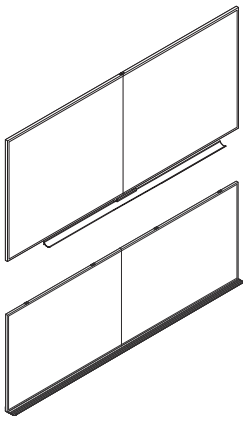
3" over panel bracket/ hook mounting system allows for Premium Whiteboards to be mounted on Answer and Montage.

110/555 Series

Metal cleat-mounting system is standard on Edge Series.

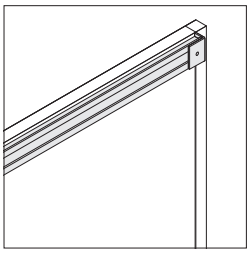


Wall-anchored mounting system is standard on 110 and 555 Series.



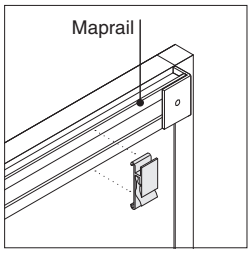
Spline joints allow larger format boards to be delivered in two equal pieces and require assembly on-site. There will be a visible seam where the boards and marker trays are joined that will not hinder the performance or writeability of the board in any way. They are available as options with upcharge on Edge, 110, and 555 trim types 120.25" and larger in width.

Additional options for 110 and 555 Series include maprail, map hook/ clips, flag holder, and roller bracket.

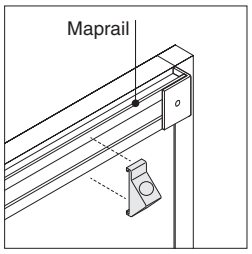


1" maprail is of cork construction and allows for versatility with accessories. Maprail is not available on tackboards.

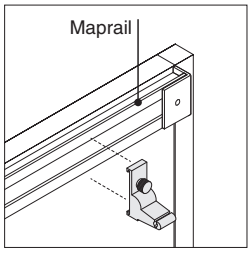
Map hook/clip, flag holder, and roller bracket must be specified with maprail; cannot be specified separately.



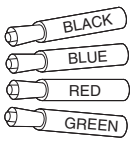
1" map hook/clip comes as a set of two and allows for ease in hanging maps and charts for presentation purposes.



1" flag holder allows for convenient hanging of flags.



Roller bracket holds maps or roll-up projection screens and can be ordered if 1" maprail option is selected. Roller bracket is not available on tackboard.



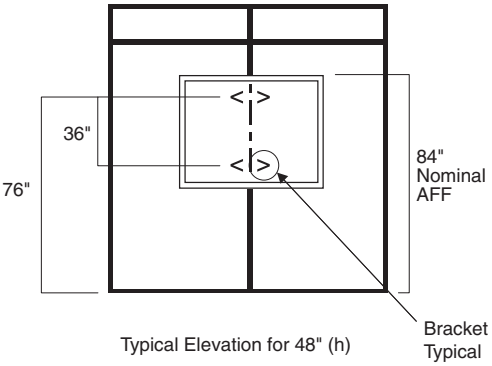
Package of four dry-erase markers (black, blue, red, and green) and one eraser is included with whiteboards.

PPPW (Privacy Wall) Bracket Application Guide

- On- and off-module bracket for installation of whiteboards and tackboards on Privacy Wall, Answer, and Kick.
- Allows Premium Whiteboards to be mounted on Privacy Wall, Answer, Avenir, or Kick using a standard metal cleat mounting system.
- Ideal application on a Privacy Wall or when spanning multiple Answer/Kick panels with a single whiteboard.
- Not for use with 110 and 555 Series.
- Cannot install two boards at right angles.
- Ships with four or six non-handed brackets; field-modify for application by removing tabs per instructions.
- The required minimum number of PPPW (Privacy Wall) Brackets must be installed to ensure secure application of board.
- Brackets must be installed in the correct orientation; i.e. left or right hand, as indicated in the key and diagrams below.

NOTE: Space between panel face and rear of board is ± 1/4".

Standard Mounting Height and Centerline Application

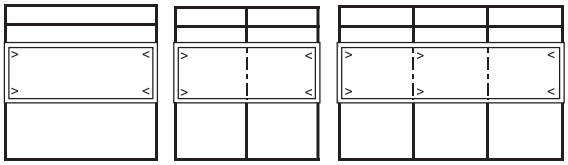


Typical Elevation for 48" (h) Board Applications

- 48"H x 48"W only

On-Module — Minimum Bracket Application

Board Width	48"	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	4	6	6	6



KEY:

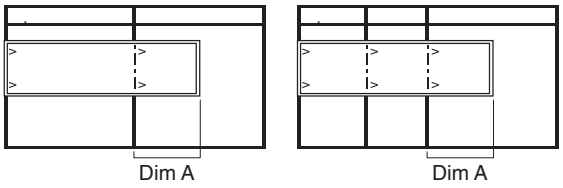
> Right Hand Application of PPPW Bracket

< Left Hand Application of PPPW Bracket

Asymmetrical Off-Module Overhang Allowances and Minimum Bracket Application

Board Width	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension A - Maximum Overhang	18"	22"	25"	29"	36"	38"	38"	38"

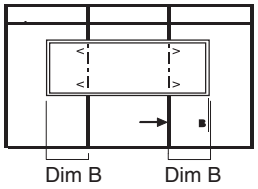
NOTE: Bracket direction must be the same as the overhang direction. This example shows right hand bracket installation with right hand overhang.



Symmetrical Off-Module Overhang Allowances and Minimum Bracket Application

Board Width	60"	72"	84"	96"	120"	144"	168"	192"
Minimum Number of Brackets	4	4	4	4	4	6	6	6
Dimension B - Maximum Overhang	18"	22"	25"	29"	36"	38"	38"	38"

NOTE: Dimension B must be equal on both the left and the right. For example, a 60" board may have a maximum 18" overhang both left and right side.



Digital Print Options

Digital printing is offered on Parametric Premium Whiteboards, Sans, Sans Light, and Flow products. Digital print graphics are permanently baked into the CeramicSteel surface and are scratch, abrasion, bacteria, chemical, fire, and graffiti resistant. Both standard and custom options are available.
Tip: Flow only available with custom option.

Flow

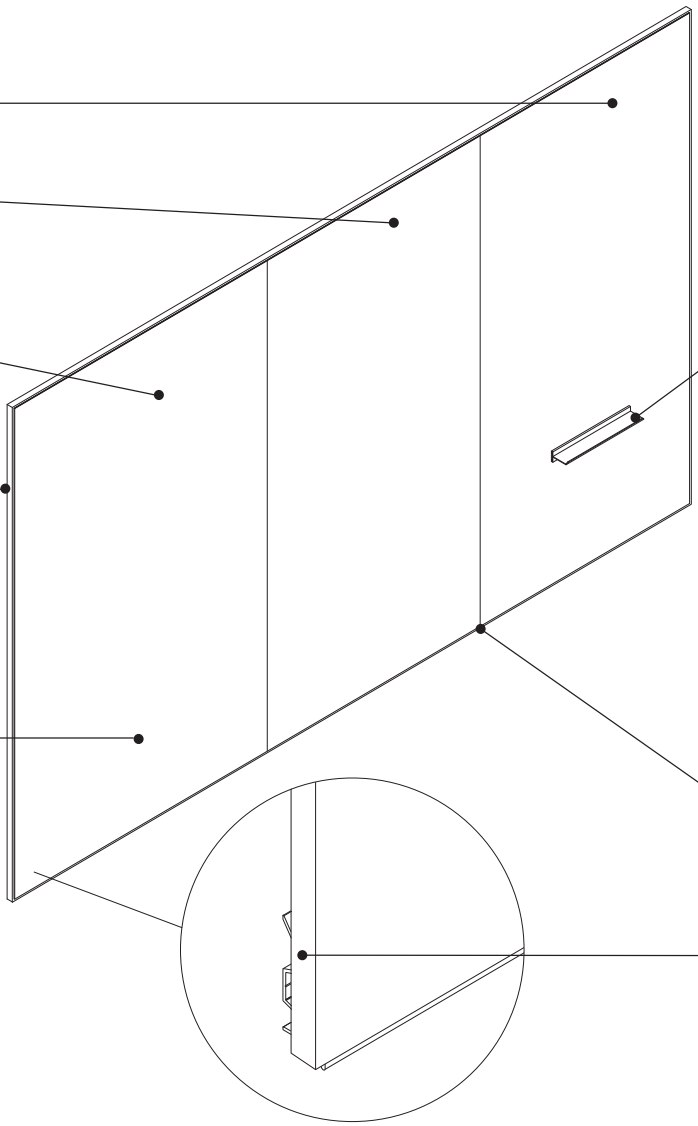
Flow is a modular panel system with no vertical joint covers providing a large format writing surface. Available as frameless or with outer aluminum frame.

For custom capability and parametrics for special sizes, please see *Parametric Collaborative Surfaces.*
▶ See page 42



Right-end panel position

Intermediate panel position

Left-end panel position

Outer frame is extruded, clear anodized aluminum.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS or PV09 Hygienic White Gloss. 7661 Gray Chalk 6502C CS requires chalk sticks or liquid chalk for writing.

Custom graphic option is available. Polyvision print number required. For custom graphics, please contact your Polyvision sales representative at: sales@polyvision.com to start the process and acquire a custom print job number.

Marker tray, dry erase markers, and eraser come standard with white gloss finish for single panel and right-end panel options. If gray chalk finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories. Parametric does not include accessories.

Inner vertical joint allows for a frameless panel seam.

Frameless Flow, has a precision cut and sealed edge with durable lacquer painted edge. Edges are waterjet cut and sealed with high quality paint. Edges show striations. Frameless edge comes standard in the same finish as specified CeramicSteel color number of the panel.

Actual Dimensions

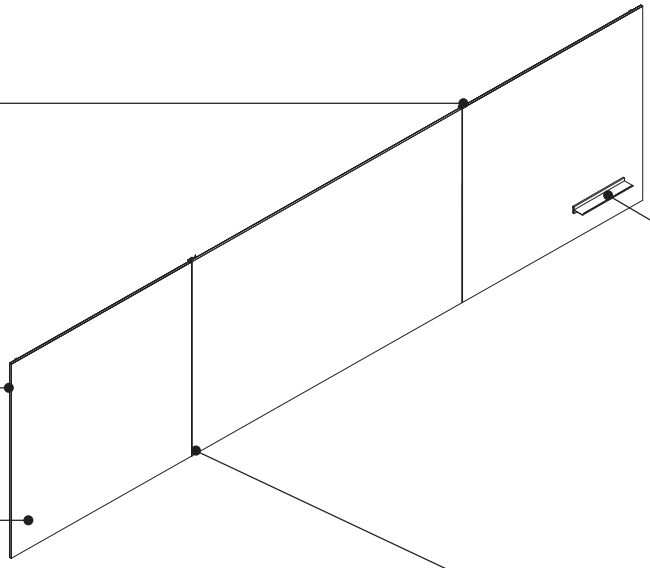
Tip: 7661 Gray Chalk 6502C CS is a true chalkboard surface. Chalk sticks and liquid chalk can be used. Liquid chalk requires wet erase.

Tip: See CeramicSteel Cleaning/Daily Care and Maintenance *for additional information.*
▶Page 11

Tip: For custom graphics, please contact your Polyvision sales representative at: sales@polyvision.com to start the process and acquire a custom print job number.

Horizontal Flow

Horizontal Flow is a multi-panel panel system with no vertical joint covers providing a large and long format writing surface. Available as frameless or with outer aluminum frame.



Inner vertical joint allows for a frameless, splined panel seam.

Outer frame is extruded, clear anodized aluminum. Frameless available as an option.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS or PV09 Hygienic White Gloss. 7661 Gray Chalk 6502C CS requires chalk sticks or liquid chalk for writing.

Custom graphic option is available. Polyvision print number required. Please contact your Polyvision sales representative at: sales@polyvision.com to start the process and acquire a custom print job number.

Marker tray, dry erase markers, and eraser come standard with white gloss finish for single panel and right-end panel options. If gray chalk finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

Frameless Horizontal Flow, has a precision cut and sealed edge with durable lacquer painted edge. Edges are waterjet cut and sealed with high quality paint. Edges show striations. Frameless edge comes standard in the same finish as specified CeramicSteel color number of the panel.

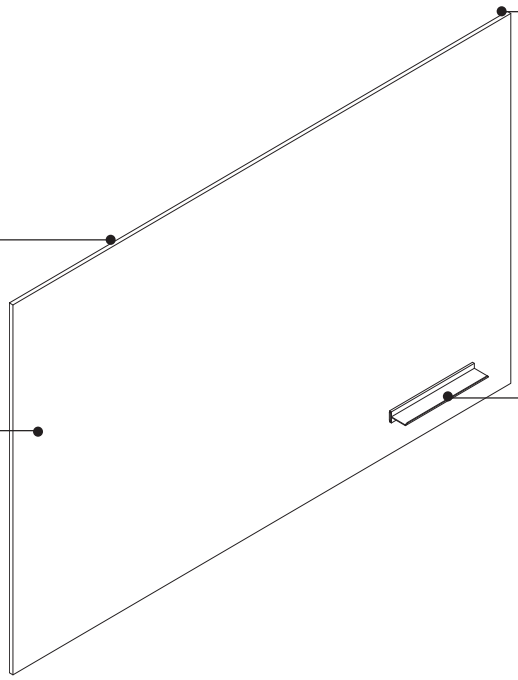
Sans

Sans is a writing board with streamlined, precision cut, frameless edges. Orientation of writing board can be mounted horizontally or vertically.

For custom capability and parametrics for special sizes, please see *Parametric Collaborative Surfaces.*
▶ See page 50

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Contrasting options are also available. Panel thickness is ½" or 13 mm.

CeramicSteel surface is offered in 7655 White High Gloss, 7661 Gray Chalk 6502C CS, 7671 Arctic White 2 CS, 7673 Merle CS, 7674 Platinum Solid CS, and PV09 Hygienic White. 7661 Gray Chalk 6502C CS is a true chalkboard surface that requires chalk sticks or liquid chalk for writing.
Tip: Available with standard graphics and custom graphics. Please contact your Polyvision sales representative at: sales@polyvision.com to start the process and acquire a custom print job number.



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

Marker tray, dry erase markers, and eraser come standard with all markerboard surfaces. If chalkboard finish is selected then an eraser and marker tray come standard. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories. Parametric does not include accessories.

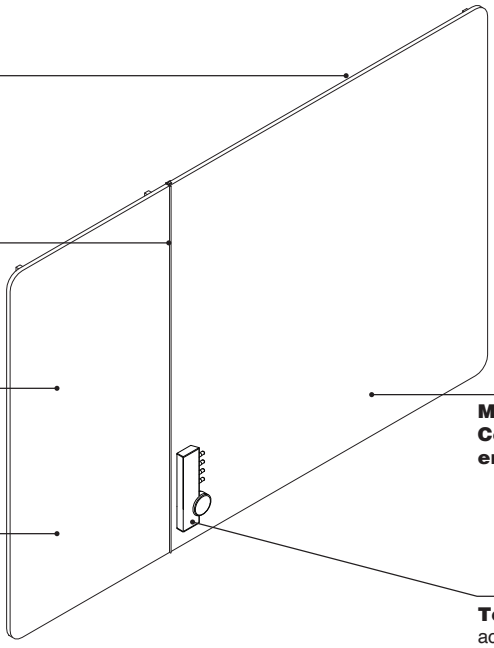
Accord

Accord is a combination board where writing and sound absorbing features are combined in a streamlined, precision cut, and frameless design.



Frameless edge comes standard in the same finish as the specified color number of the panel. Contrasting options are also available.

Bumper consists of matte black ABS divider that separates acoustic and CeramicSteel material.

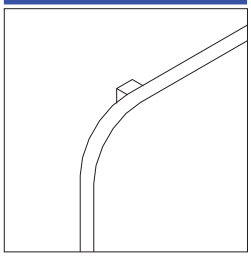
Tackable board with sound absorbing properties is available in different colors and prints.

Sound diffusing acoustic panel made from 100% recycled material.

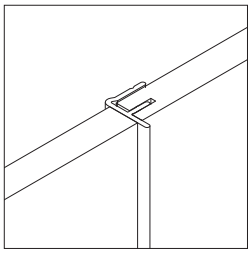
Markerboard with CeramicSteel dry erase surface.

Toolbar is included with accessory kit.

Product Details



Accord features four rounded corners R45 mm and installs with Z-brackets. The markerboard has a ½" MDF core. Acoustic material has a 12 mm core. Acoustic Material: Cost effective sound solution—NRC = 0.45–0.80 for 12 mm.



Accord features 4 mm protection bumper, material ABS.

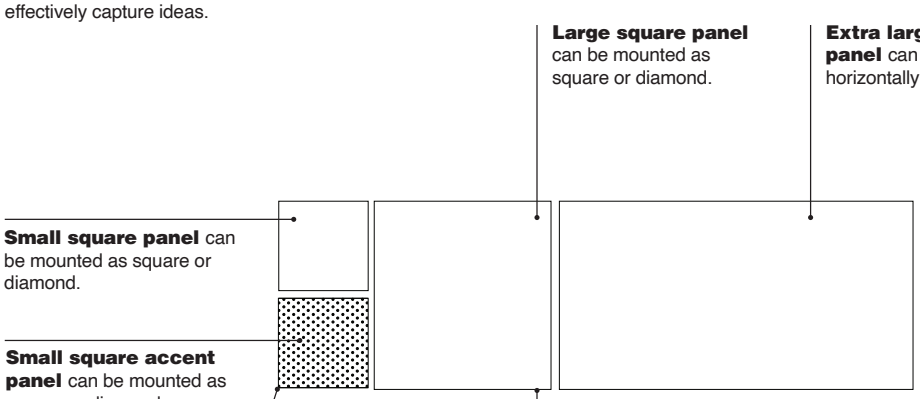
Motif

Motif is a high-performance collaborative panel that can be configured in countless ways to turn unused wall space into places where teams express and share ideas together. Flexible placement encourages spontaneous inspiration while a superior Polyvision CeramicSteel writable worksurface helps teams effectively capture ideas.



Large square panel can be mounted as square or diamond.

Extra large rectangle panel can be mounted horizontally or vertically.

Small square panel can be mounted as square or diamond.

Small square accent panel can be mounted as square or diamond.

Motif panels have 4 mm radius corners and should be installed with a 6 mm gap in between. Spacer tool is included with each panel.

Motif panels are frameless and lightweight for easy installation. Motif is recommended to be installed on drywall. Panels must be mounted four inches off the floor and one inch from the ceiling. When mounting panels near a corner, Motif should be placed four inches from the corner of the wall.

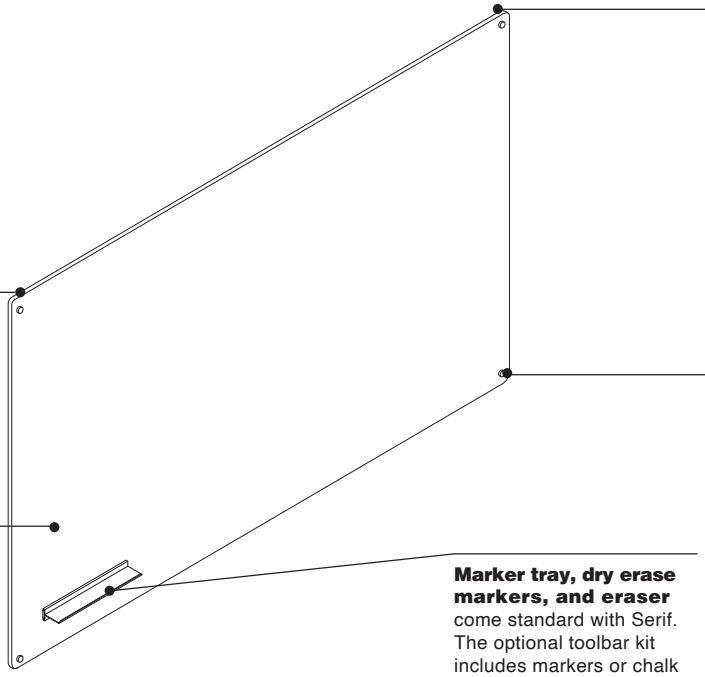
Serif

Serif is a thin CeramicSteel writing board mounted with standoff mounts in a satin chrome finish. Precision cut edges are sealed with a durable lacquer, while rounded corners provide a modern, premium look. Orientation of writing board can be mounted horizontally or vertically.

Frameless edge comes standard in the same finish as the specified CeramicSteel color number of the panel. Frameless edge corners have a 4 mm radius. Contrasting options are also available.

CeramicSteel surface is offered in 7655 White High Gloss or PV09 Hygienic White Gloss.



Edges are waterjet cut and sealed with high quality paint. Edges show striations.

Mounting comes standard with standoff mounts. Mounts vary by size of panel.

Marker tray, dry erase markers, and eraser come standard with Serif. The optional toolbar kit includes markers or chalk sticks depending on the surface type, a round magnetic eraser with replacement microfiber cloths, and the magnetic toolbar to store the writing accessories.

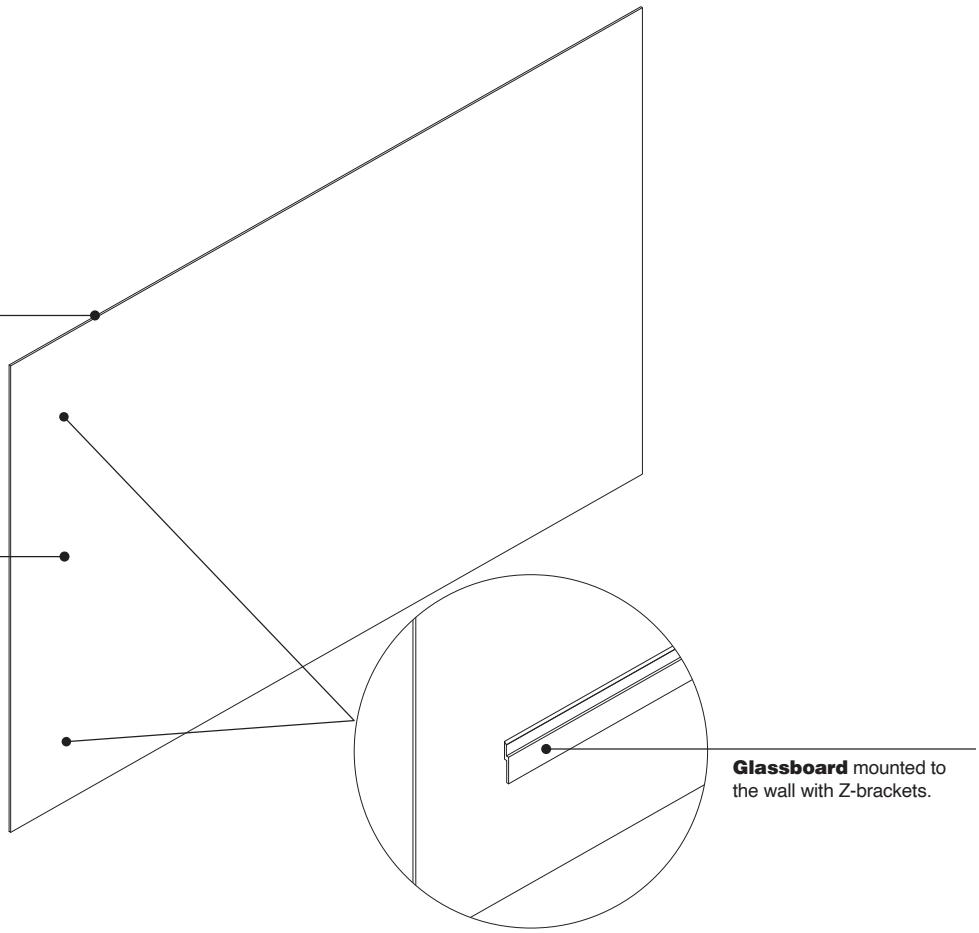
Glass

High quality glassboard is made with 3/16" thick low-iron tempered glass and is non-porous, non-ghosting, and non-staining. With the ability to configure both vertically or horizontally, the compact structure of this glassboard sits close to the wall using a Z-bracket installation. Accepts rare earth magnets.

Thin, smooth, frameless edge.

Glass surface is offered in 25 color options.
Tip: For information on custom color finishes, please contact your Polyvision sales representative at: sales@polyvision.com.



Glassboard mounted to the wall with Z-brackets.

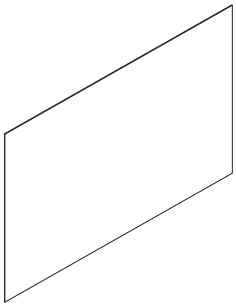
Glass



Tip: Glassboards have a steel backer that support use for rare earth magentic accessories.

Tip: Not compatible with toolbar.

Tip: Glassboards are not intended to be mounted side-by-side as there may be a slight variance in paint batches. Contact sales@polyvision.com if the design concept of a sales order requires this setup.

Tip: Rectangle glassboards are available in horizontal or vertical orientation. Hardware is attached during manufacturing. Orientation must be selected during the ordering process.

Mobile and Privacy

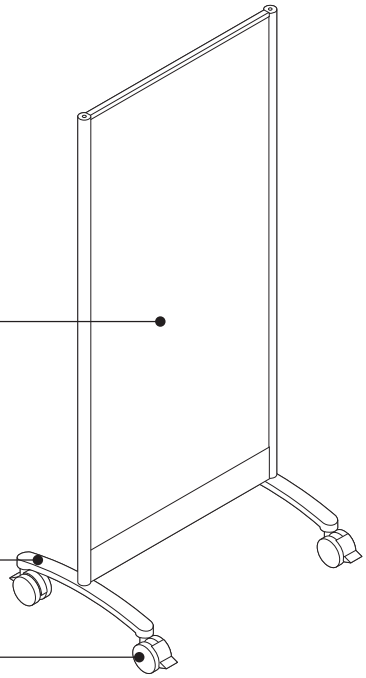
Mobile and Privacy

Groupwork Screens and Marker Trays **66**
Textura Mobile **71**
Verb Whiteboards and Easels **73**
Boundri **78**

Groupwork Screens and Marker Trays

Screens are available with laminate markerboards on both sides, e³ CeramicSteel on both sides, or tackboard on both sides. Screens are available in two heights—54"H and 66"H—and five widths—24"W, 30"W, 36"W, 42"W, and 48"W—to coordinate with Kick panel systems.

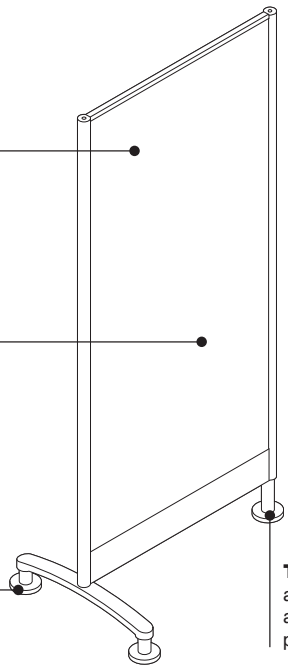
▶Specifying, page 68



Laminate markerboard surface has a non-glare writing surface and accepts all standard dry-erase markers. e³ CeramicSteel surface is magnetic.

Four-leg base is standard on screens.

Four locking casters allow for easy movement.



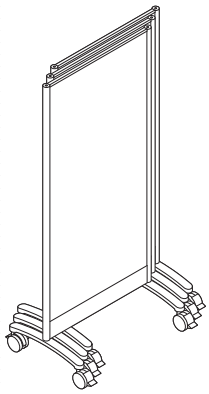
Tackboard surface is available in a variety of fabric options.

Laminate markerboard surface is available in the U.S. only. For Canada orders, specify either e³ CeramicSteel on both surfaces or tackboard on both sides.

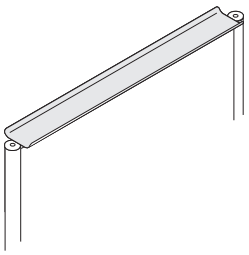
Levelers adjust ¼" for uneven floors. Levelers do not slide and should be used in applications where infrequent movement is required.

Three-leg base is available on 54"H screens only as an option to create a privacy wall.

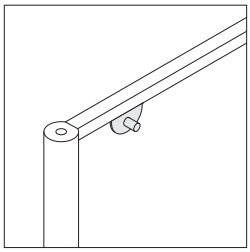
Product Details



Screens nest easily and require minimal space. The leg bases are 16"D, and each screen nested adds another 1½" to the depth.

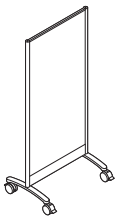


Marker tray is available to hold dry erasers and markers. The tray is attached on top of the screen top cap. Marker trays are available in all five screen widths.



Flip-chart pegs are available as an option on the top cap. They are positioned 17⅝" apart center to center and are available on one side only. Flip-chart peg top cap works in conjunction with marker trays.

Groupwork Screens



Tip: Screens must be specified with fabric on both sides, e³ CeramicSteel on both sides, or laminate on both sides. For Canada, screens are available in fabric or e³ CeramicSteel on both sides only.

Tip: See CeramicSteel Cleaning/Daily Care and Maintenance *for additional information.*
▶Page 11

Tip: 54"H screens are available in vertical or horizontal fabric direction. 66"H screens are available in vertical fabric direction only.

Tip: e³ CeramicSteel writing surface is magnetic.

Tip: Three-leg base is used when two or more screens are placed next to each other on angles. Four-leg bases can be used next to each other only in a straight configuration.

Tip: 66"H screens are not available with the three-leg base option.

Tip: Levelers have 1/4" adjustment (higher only) and do not slide. If frequent movement is needed, order screen with casters.

Tip: Flip-chart pegs, located 17 5/8" apart, are located on only one side of the top cap.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

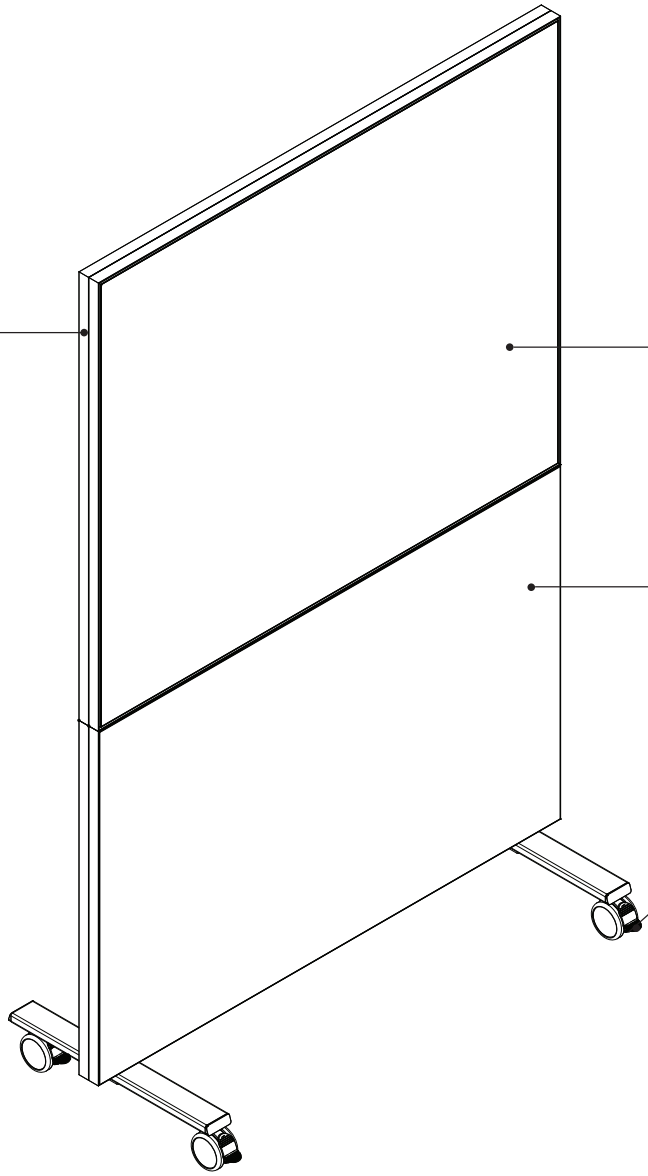
Textura Mobile

Textura mobile blends sound-diffusing acoustic panels with durable CeramicSteel writing surfaces for a multi-purpose collaborative worktool on wheels.
▶Specifying, page 72

Powdercoat traffic white aluminum frame



Surface finish available in 7671 Arctic White 2 CS or PV09 Hygienic White Gloss. Single- or double-sided whiteboard option is available. The single sided option has one side all acoustic.

Acoustic panel fabric selection is the same for both sides. Not intended for use as tackboard.

Locking casters

Accessories are not included. Refer to related products for toolbar accessories.

Side A defaults to markerboard and acoustic panel. Side B offers a selection between markerboard and acoustical panel or acoustical panel only. Acoustical panel only is fabric covered top to bottom.

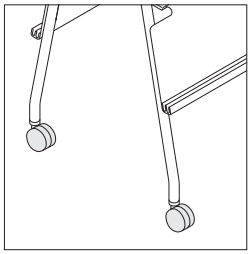
Verb Whiteboards and Easels

Verb easel facilitates effective display, storage, and presentation of Verb whiteboards.

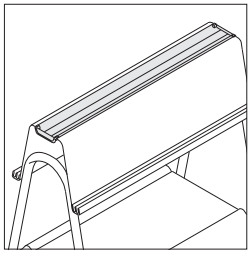
Verb wall track offers additional display options for the Verb whiteboards and can add functionality to otherwise blank walls.

Product Details

Two-sided easel comes standard with two shelves on each side and is 36"W.



Each easel comes standard with casters for ease of mobility.



The easel top shelf can be used to store markers and erasers and is available only in 6249 platinum solid finish.

Wall track comes in 6' and 8' lengths and is made from extruded anodized aluminum. It may be easily cut to length in the field.

Each wall track comes standard with hooks for use with the whiteboards.

Maintenance

- Wipe board with a clean cloth moistened by a liquid markerboard cleaner or a solution of 50% water and 50% isopropyl alcohol.
- Rinse with clear water.
- Wipe dry with a clean cloth If your board is used daily, the cleaning should be performed at least 2-3 times a week.

More thorough cleaning may be required if writing is left on the board for more than two days.

Markers

Use any high-quality dry erase marker.

CAUTION! The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions above. Remember to discard eraser if used with Low Odor markers.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

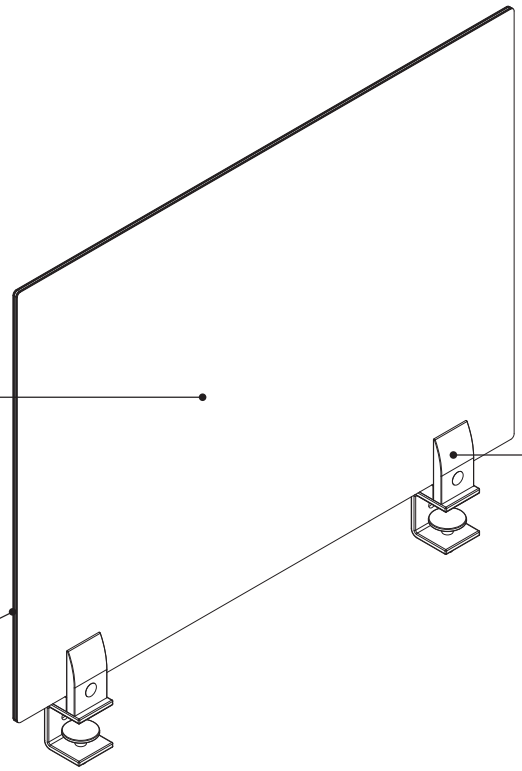
Boundri

Boundri is a privacy screen made from think double-sided Polyvision CeramicSteel featuring adjustable mounts that make it easy to transform almost any desk or table into a private workspace. The multifaceted tool can help employees and students maintain safe distances and provide them a personal collaboration tool to keep track of daily tasks and reminders.



Boundri screens are 1/5" thick and corners have a 3/20" radius.

Edges are coated with high quality, durable paint that matches the surface finish.

Boundri screens are attached with adjustable mounts. 18" and 24" height screens that are available in 24", 36", 48", 60", and 72" widths. The screen and hardware may be used on (nominal) ¼" to 1¼" thick worksurfaces.

Actual Dimensions

Height	18", 24"
Width	24", 36", 48", 60", or 72"
Depth	11/64" or 42/5 mm
18"H Weight (lbs)	7, 10, 13, 17, or 20
24"H Weight (lbs)	9, 14, 18, 22, or 27

Tip: Panel sizes are nominal.

Mount Table

Screen Size (Height x Width)	Number of mounts
18" x 24", 18" x 36" , 24" x 24", and 24" x 36"	2
18" x 48", 24" x 36", and 24" x 48"	3
18" x 60", 18" x 72", 24" x 60", and 24" x 72"	4

Product Details

Boundri screens include adjustable brackets with divider/writing surface element for most height-adjustable desks and fixed worksurfaces.

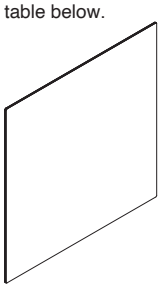
Screens are double-sided CeramicSteel and can be mounted to various desks and worksurfaces using the adjustable mounting hardware.

When applying the Boundri screen to the side of Migration or Migration SE desk, at lease a 2" overhang is required.

Mounts are not compatible with Elective Elements worksurfaces.

Mounts are movable to accommodate various features or interferences on a minimum tabletop thickness of ¼" or 6 mm and a maximum tabletop thickness of 1¼" or 34 mm.

The number of mounts varies by size of the screen specified. Refer to the mount table below.

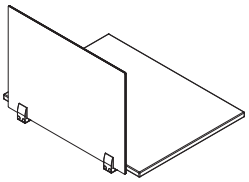


The edge of the screen is coated with a high quality, durable paint that matches the surface finish. Corners have a 4 mm radius.

The screen and hardware may be used on a minimum tabletop thickness of ¼" or 6 mm and a maximum tabletop thickness of 1¼" or 34 mm.

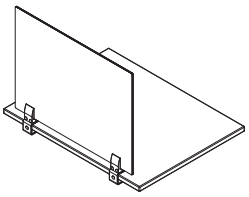
The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Application Topics



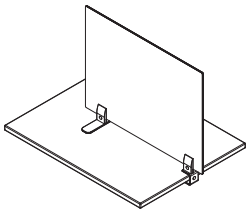
Privacy/Back Mount

Mount assembles with the screen grip section attaching to the exterior side of the adjustable table-top clamp. Position supports screen installation with zero space gap.



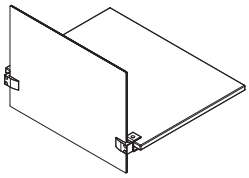
Privacy/Top Mount

Mount assembles with the screen grip section attaching to the top side of the adjustable table-top clamp. Application supports screen installation with space gap of 5⁄8" above worksurface.



Side Divider/Top Mount

Multiple mount assembly types are required for this application. Edge bracket assemblies with the screen grip section attaching to the top side of the adjustable table-top clamp. Screen grip piece is positioned to support screen direction. Table-top mount uses screen grip and table top plate is positioned to support screen direction. Application supports screen installation with space gap of 5⁄8" above worksurface.



Privacy/Modesty

Mount assembles with the screen grip section attaching to the exterior side of the adjustable table-top clamp. Screen clamp is rotated 90° prior to attachment. Position supports divider screen installation with benefit of modesty panel.

Boundri screens mount to worksurfaces using an adjustable mount with tightening screw. Bracket positioning is moveable with suggested placement by screen size.

Screen heights and widths cannot be adjusted in the field. Placement of screens on worksurfaces can be adjusted in the field.

Privacy configuration allows screen heights and widths to be determined by the orientation of the screen installed.

Modesty is limited to 7½" on height adjustable desks to maintain proper clearances. Recommended for 18" x 24", 18" x 36", 24" x 24", and 24" x 36" sizes. Larger panels not recommended for use in this orientation.

Boundri panels to be used with FrameOne do not ship with **FMSK2** or **FMSK3** brackets. Additional brackets would need to be purchased separately. Contact your Collaborative Surfaces Representative with any questions: collabsolutions@steelcase.com.

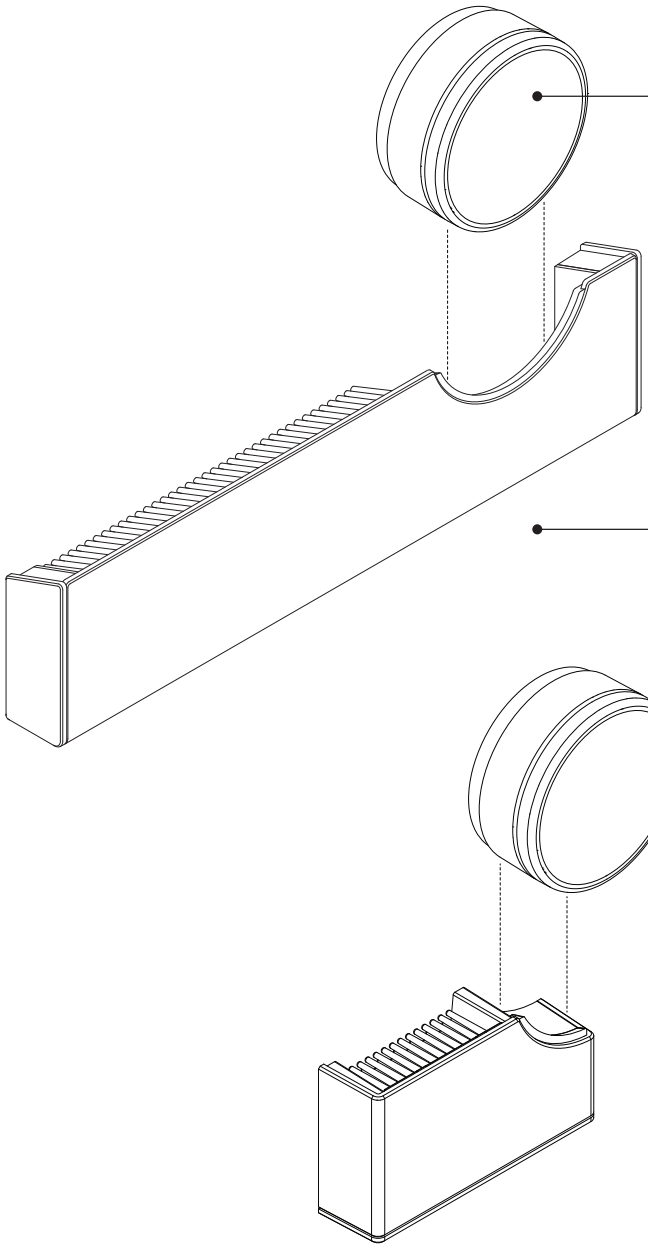
Collaborative ToolBars

Collaborative ToolBar is an elegant design element that enhances the functionality of any Polyvision CeramicSteel markerboard. With a unique docking station, it offers a thoughtful home for a magnetic eraser and markers or chalk, ensuring tools stay organized and secure. The ToolBar is intuitive to use, easy to clean, and provides users with the freedom to orient the kit anywhere on the board. With a design that feels good to the touch, it blends functionality with a premium aesthetic.

Kits are available for different writing board finishes. Markers are included with the standard and neon kits. Chalk sticks are included with the chalkboard kits. All kits include a round magnetic eraser and two replacement microfiber cloths.

Chalk sticks come with brand chalk stick holders.

ToolBar mini is a smaller version that comes standard with two markers and the round magnetic eraser.



Round magnetic eraser fits effortlessly in the docking station.

The versatile ToolBar can be positioned both horizontally and vertically.

ToolBar and eraser come standard in a black satin finish.
