a³ CeramicSteel Motif

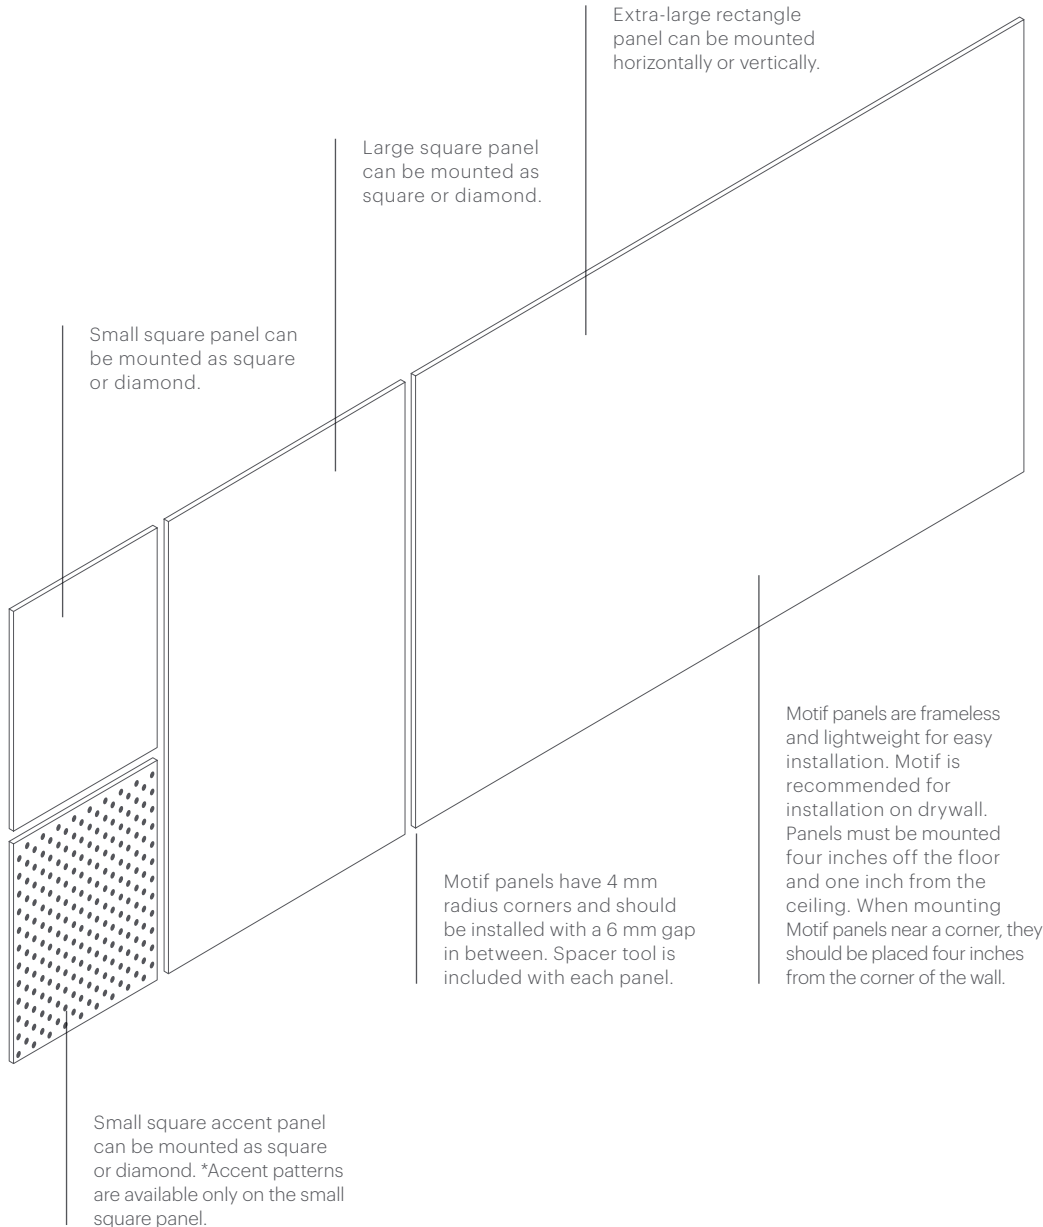

Designed for the way people work today, a³™ CeramicSteel Motif™ is a writing surface when needed, and a piece of art when not in use. Bringing functionality and style together as one, this modular panel system allows users to personalize their collaborative space.

a³ CeramicSteel Motif

Configure this high-performance collaborative panel in countless ways to turn underutilized wall space into places where teams express, share and create ideas together. Flexible arrangement encourages spontaneous inspiration while a superior a³ CeramicSteel writable worksurface helps teams effectively capture ideas.

Collaborative Worktools Specification Guide

Specifications

a³ CeramicSteel Motif

a³ CeramicSteel Motif

How to Order

Choose your Motif board by specifying:

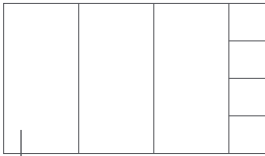

- 1. Hedberg PDX Catalog
- 2. Style number
- 3. Panel size
- 4. Color

Panel placement is supported by installation templates that can be mounted side by side or individually spaced out. Refer to planning ideas for support.

Product Planning Ideas

Create customized configurations using Motif’s three standard-sized panels. Below represents a variety of configurations to get your idea started.

Motif: Vertical Wall

3 Extra-Large Rectangle
4 Small Square (accent or neutral)

Motif: Organize and Strategize

Extra-Large and Large square panels can be interchangeable depending on available wall space.

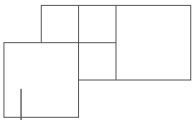

4 Small Square (accent or neutral)
1 Extra-Large Rectangle

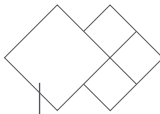

4 Small Square (accent or neutral)
1 Large Square

Motif: Inspire

3 Small Square (accent or neutral)
2 Large Square

3 Small Square (accent or neutral)
in diamond orientation
1 Large Square in diamond orientation

Standard Material Numbers

Neutral Material Number	Size	List Price
MTFPNL	Small Square (22.5" x 22.5")	\$399
MTFPNL	Large Square (45.25" x 45.25")	\$1099
MTFPNL	Extra-Large Rectangle (45.25" x 90.75")	\$1999

Accent Material Number	Size	List Price
MTFPNLA	Small Square Accent (22.5" x 22.5")	\$399

Standard Includes

- Panel: a³ CeramicSteel panel
- Installation hardware and templates
- 1 marker: black marker with Arctic White, Seagull and Platinum panels. Neon orange marker with Merle and Sterling Dark panels. Accent pattern panels do not ship with markers.

Customization

With PolyVision Surface Imaging capabilities you can apply custom graphics to the small square and large square panels.

Artwork specifications required. Soft proofs and strike-offs available upon request.

a³ CeramicSteel Sans

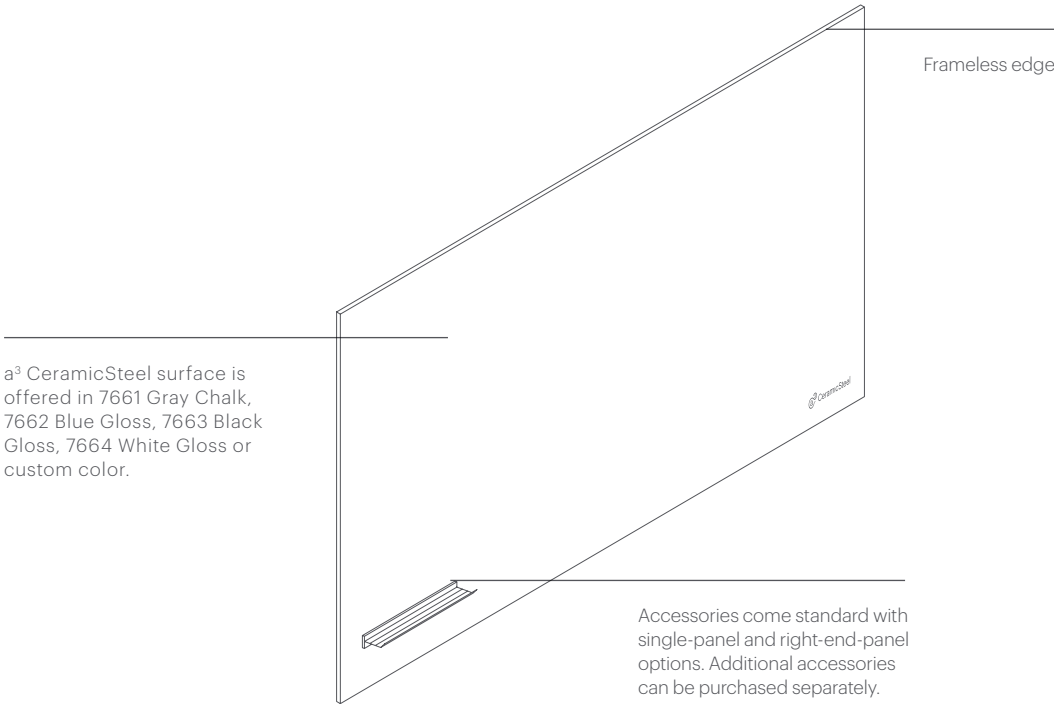

A modern take on the traditional framed whiteboard, a³™ CeramicSteel Sans™ is sleek, frameless and appears as if it's floating on the wall. Featuring precision-cut, sealed edges and simple installation, the solution removes barriers to workplace inspiration.

a³ CeramicSteel Sans

This frameless writing board comes in either horizontal or vertical orientation and features a smooth, inert surface and streamlined edges, sealed for durability and a clean aesthetic. Simple to install with no exposed fasteners, Sans offers a smooth finish in any workplace environment.

a³ CeramicSteel Sans

How to Order

Choose your Sans board by specifying:

- 1. Hedberg PDX Catalog
- 2. Size
- 3. Panel orientation
- 4. Surface color and/or accented edge color

Panel position should be considered when mounting multiple panels side by side. Refer to suggested planning ideas below. To continue product expansion, insert additional intermediate panels between left-end and right-end panels.

Sans can be mounted horizontally or vertically. It is important to note that these are not splined together. The panels are mounted side by side, non- progressively. Adjacent panel configurations are recommended to have a 0.5" gap.

Sans panels are available with accented edges. Color desired should be noted on order along with part number. Accented edges are not recommended for panels placed in side-by-side configurations.

a³ CeramicSteel Serif

With a slim profile, clean edges and rounded corners, a³™ CeramicSteel Serif™ delivers a blend of design, materiality and functionality for busy collaboration spaces in corporate and educational environments.

a³ CeramicSteel Serif

Designed to promote creativity and facilitate teamwork, Serif is a thin CeramicSteel panel mounted with standoff mounts in a satin chrome finish. Precision cut edges are sealed with a durable lacquer, while rounded corners provide a modern, premium look. Available in our brightest white yet, this surface delivers crisp clarity with no shadowing effects, making reading and writing easier than ever.

a³ CeramicSteel Flow

This full-height writing system brings collaborative freedom into any workspace. a³™ CeramicSteel Flow™ is easy to configure and maximizes wall coverage.

a³ CeramicSteel Flow

This large-format CeramicSteel panel system is an easy way to leverage vertical space. A series of vertically oriented writing board panels, of a standard height, are spline jointed together with the option to trim outer edges with an aluminum extrusion, making this modular system easy to install and configure.

*Logo not drawn to scale

RE1	Brush eraser

Cleaning Instructions

First use of your CeramicSteel:

1. If present, remove the protective film.
2. Wipe board with a clean cloth moistened with a high-quality whiteboard cleaner.
3. Wipe surface dry with a clean cloth.

Daily cleaning instructions for your CeramicSteel:

1. Wipe surface with a clean cloth moistened with warm water.
2. Wipe surface dry with a clean cloth.

Weekly cleaning instructions for your CeramicSteel:

1. Wipe surface with a clean cloth moistened with a high-quality whiteboard cleaner. Note: Using a non-appropriate cleaner may result in poor dry erasability due to the buildup of residues from the cleaner on the surface.
2. Wipe surface dry with a clean cloth.
3. Surfaces used moderately should be cleaned two to three times per week. Surfaces used more intensely may require daily cleaning.

PolyVision Studio

PolyVision Studio is here to help guide designers through the process to achieve their design vision. With CeramicSteel as the canvas, PolyVision Studio invites you to design custom one-of-a-kind collaborative worktools and works of art.

Warranty

CeramicSteel Surface: Forever warranty

PolyVision warrants that all porcelain-enameled surfaces and/or products made with e^{3™} CeramicSteel (Premium Writing Surfaces) or a^{3™} CeramicSteel (Collaborative Worktools) will retain their writing and erasing qualities and maintain their gloss variance and color consistency for the life of the building or for as long as the product is in use, whichever comes first.

Panel Construction: 10-year limited warranty

PolyVision warrants that our panels, under normal atmospheric conditions and when sealed from moisture, will not delaminate from the substrate or warp for a period of 10 years.

Should any failure to conform to this warranty become apparent, then, upon written notice from the customer, PolyVision, at its option, will correct such nonconformity by repair or replacement. Correction in the manner provided above shall constitute a fulfillment of all liabilities of PolyVision with respect to the quality of the CeramicSteel. The warranty is applicable only under normal usage and maintenance and does not cover defects caused by improper handling, vandalism or abuse, or arising from failure to follow PolyVision’s instructions and recommendations for maintenance.

The warranty is voided if any modifications are made to the products by the customer or other trades with or without PolyVision’s written consent or prior knowledge. The warranty does not include the cost of removal or reinstallation. This warranty is effective as of June 4, 2009, and supersedes the terms and conditions of all prior surface warranties issued to the customer by PolyVision.

This limited warranty is the sole remedy for product defects, and no other express or implied warranty is provided, including but not limited to any implied warranties of merchantability or fitness for a particular purpose. PolyVision shall not be liable for consequential or incidental damages arising from any product defect.
