

Collaborative ToolBar

Amp up collaboration with a sleek accessory kit.

The Collaborative ToolBar is a sophisticated, all-in-one accessory kit that keeps erasers and markers or chalk always at hand.

Collaboration Enhanced

The right tools are essential to collaboration. Without them, meetings and lessons are often stalled or disrupted. Now, users can spend less time searching for tools and more time collaborating and expressing ideas with PolyVision's Collaborative ToolBar — a sophisticated, all-in-one storage system that keeps erasers and markers or chalk always at hand.

It's collaboration, enhanced.

Intentional Design for Intuitive Use

The Collaborative ToolBar is an elegant design element that enhances the functionality of any markerboard. With a unique docking station, it offers a thoughtful home for a magnetic eraser and markers or chalk, ensuring tools stay organized and secure.

The ToolBar is intuitive to use, easy to clean and provides users with the freedom to orient the kit anywhere on the board. With a design that feels good to the touch, it blends functionality and a premium aesthetic.

Flow in White Gloss

Always Close at Hand

The Collaborative ToolBar gives teams the tools they need to create and innovate. Gone are the days of scattered markers and lost erasers — each tool has its place.

Creative design. Practical solution. A ToolBar for every surface and space.

Make Your Mark

The ToolBar is designed to fit nicely on any size board. At 85 mm (3.3") wide and 346 mm (13.6") long, it provides optimal function while occupying minimal writing space. The slim profile, measuring just 42 mm (1.6") deep, won't protrude into the room like traditional accessories.

Standard colored or neon markers and chalk sticks fit snugly in the ToolBar's patented design which prevents markers from rolling together so individual colors are easy to identify, select and put back. Together, the ToolBar, writing tools and magnetic eraser create one integrated system that boosts collaboration and creativity in any space.

The magnetic eraser's round design fits nicely in any hand measuring just 90 mm (3.5") in diameter and encourages a circular motion when in use. It glides smoothly into a nook on the ToolBar, making it easy to grab at a moment's notice and return back to the docking station for safekeeping. The base features a microfiber cloth, which studies show erase three times better than felt erasers. The cloth can be washed or replaced to extend the life of each eraser without losing its function.
