

**Move. Gather. Learn.**

With Elbrook, learning flows naturally. Elbrook tables encourage students to move, collaborate and gather. Worksurface shapes were designed to accommodate a variety of students’ belongings, while inset legs and low-profile bases reduce barriers and make movement throughout a space easy, so everyone can focus on what matters most—learning.

**Easy to Reconfigure**  
Beautiful and modern, Elbrook can be intentionally arranged in a variety of different configurations to allow for easy movement around the classroom.

**Biophilic Design**  
Worksurface shapes were specifically designed with soft corners so students can come together to collaborate from any angle. These organic shapes support the natural flow of active learning and promote wellbeing.

**Made for Movement**  
In-line wheels allow for simple, smooth and convenient movement that supports students as they transition between learning modes.

**A Versatile Range**  
Elbrook comes in a variety of table shapes and sizes—from lounge to seated and standing heights—that offer a versatile solution anywhere on campus.

## Statement of Line

Available in lounge (26"), seated (28.5"), and standing (38.5") heights, Elbrook tables are designed to encourage student movement and foster the natural flow of learning throughout the classroom. A variety of worksurface shapes and recessed legs allow for ease of collaboration.
