

Empath

Recliner Seating

Across healthcare applications, Empath is designed to reduce stress and the potential for injury for both patients and clinicians while increasing physical and emotional connectedness.

Developed from Real-World Insights

Our research revealed that clinician's top concerns are keeping patients comfortable and safe while promoting overall quality of care. Empath is built to meet these needs, with the versatility and durability needed to adapt to a wide range of uses—including patient rooms, treatment areas, exam spaces, emergency departments and outpatient centers.
