Materials	Key facts	Thickness	Layer thickness	Density	In/outdoor	Water	UV color fastness	Flame retarding
		inch	micron					
Structured powder coated ZnAlMg steel tabletop & seat	• A technique of applying dry paint to a part • Electrostatically charged and sprayed onto the object • More scratch-resistant than non structured powder coating	0,06	60	0,47 $_{10^3lb/ft^3}$	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	NEN-EN 13501-1 A2-s1 **
Structured powder coated electro galvanized steel tabletop frame	• Easy to clean • Electro galvanized (for an extra protection against rust), then powder-coated • More scratch-resistant than non structured powder coating	0,16	100	0,47 $_{10^3lb/ft^3}$	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	NEN-EN13501-1 A1 *
Structured powder coated steel tabletop frame (only for 2-seater)	• Easy to clean • More scratch-resistant than non structured powder coating	0,08	80	0,50 $_{10^3lb/ft^3}$	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	NEN-EN13501-1 A1 *
Structured powder coated stainless steel legs	• Easy to clean • Stainless steel (for protection against rust), then powder coated • More scratch-resistant than non structured powder coating	0,08	80	0,50 $_{10^3lb/ft^3}$	Outdoor & indoor	n.a.	Very good: color can fade to some extent when exposed to UV	NEN-EN13501-1 A1 *
Woolfelt cushion	• 100% wool felt • Polyether foam filling	0,08	n.a.	175 $_{oz/ft^3}$	Store indoors	n.a.	(ISO 105-B02: 2014)	/
Stainless steel AISI 316 floor fastening	• High rust resistance • Periodical maintenance required	0,06	n.a.	0,50 $_{10^3lb/ft^3}$	Outdoor & indoor version	n.a.	Very good	NEN-EN13501-1 A1 *

* NEN-EN13501-1 A1	Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.
** NEN-EN13501-1 A2-sl	Satisfying the same criteria as class B for the SBI-test according to EN 13823. In addition, under conditions of a fully developed fire these products will significantly contribute to the fire load a fire growth.

Applications

Residential: Virus is the solution we came up with while designing compact furniture for urban patios, rooftop terraces and balconies. The design responds to the trend for smaller living. The number of seats is variable, so Virus adapts to the number of family members. Perfect for city dwellers!

Project: For hospitality or corporate lunch areas, indoor and outdoors. Create a landscape of Viruses with matching colours, in different sizes. There is an ideal Virus table for every gathering.

Good to know

- Acquiring a Virus table is space saving. Virus requires only the exact space that is needed for a company of 3, 4 or 5 people. The identical seating frame is configured around a tabletop that fits exactly what you need for a simple lunch or breakfast. Nothing more, nothing less.
- There is a version with a flat tabletop and a version with drainage holes & a parasol hole of ø38 mm.
- Virus combines perfectly with Acacia or Inumbrina ø250, ø320 (only with parasol foot).

Fun fact

The holes in the tabletop are a pattern of stars in the galaxy M101 (Pinwheel Galaxy).

F.A.Q.

Q: Why are the seats hollow?
A: For comfort reason en water draining.

Q: Is Virus stackable?
A: Yes, Stackable up to 3 pieces and protect with blankets.

Floor fastening

Our Virus picnic tables can be fixed to the floor, to prevent them from being moved, or worse, from being stolen. However, attaching it to the floor is not always enough, as bolts can always be unscrewed. We offer a floor fastening piece that replaces the end cap at the bottom of a table leg. We strongly advise to use one piece per seat in order to attach the table firmly to the floor. A three-seater needs three pieces of floor fastening, a four-seater needs four pieces, and so on.

Stacking spacer & purse hanger

Our Virus picnic tables are stackable up to 3 high. Stack them with equal number of seats and the stacking spacer / purse hanger.

A three-seater needs three pieces, a four-seater needs four pieces, and so on.

Maintenance

Find maintenance instructions at the downloads section of extremis.com for:

POWDER COATED PARTS
- White powder coating obviously requires more maintenance.
- Clean stains with a magic eraser.

FELT CUSHIONS
- Hand-wash in lukewarm water, please don't squeeze but spread them out for drying.
- Use a mild detergent and don't bleach, pleae also don't remove stains with aggressive chemicals but mild detergents.
