Global Palette
Steelcase Surfaces

Steelcase

Global consistency.

The surface materials Global Palette allows companies to create a consistent aesthetic in workspaces throughout the world, even when furniture selection varies from region to region. Intentionally selected to complement one another, textiles, paints, laminates and melamines make global consistency easy.

IM#: 13-0000140

Paints

Paint is the foundation of materials choice within the Global Palette. To ensure a balanced and complete offering, color family, value, range, neutrality and global trends were considered. The result is an offering with a broad range of creative choice that is beautiful, efficient, intuitive and easy to order.

Laminates / Melamines

From warm to cool tones, this collection of solid and woodgrain laminates and melamines were deliberately selected to complement Global Palette paint options.

IM#: 13-0000144

IM#: 14-0006079

Plastics

From classic neutrals to fundamental color selections, these plastic choices were carefully curated to coordinate with the paints, laminates/melamines, and textiles within the Global Palette.

Textiles

A deliberate range of textures, patterns, colors and price options make up the Global Palette of textiles. Each color and pattern were specifically chosen based on global acceptance and relevance to multiple regions around the globe.

*The acronym EMEA stands for Europe, the Middle East, and Africa.

Not all finishes are available on all product lines, in all geographies. For additional details around geography and product availability, finish number translations, timing of finish availability by region and more, visit us online.

There may be variation in color, texture, and finish between these images and the actual product. Before specifying a finish, a sample should be reviewed.

To order samples of finishes in the Global Palette, contact your local Steelcase sales representative.

SUSTAINABILITY

At its heart, sustainability at Steelcase is about people. It’s about creating and supporting the economic, environmental and social conditions that allow people and communities to reach their full potential.

Research and insights direct our path.

It’s not only about creating goods, it’s about creating good. It’s not only about creating value, it’s about living our values. It’s not just about reducing our footprint, it’s about expanding our reach. It’s about creating lasting and meaningful change to enable the long-term wellbeing of current and future generations.

Innovative products and solutions result.

In the development of our products, we work to consider each stage of the life cycle: from materials extraction, production, transport, use and reuse, until the end of its life. We demonstrate performance through third-party verified certifications and voluntary product declarations.

Steelcase’s sustainability promises, actions, and results are communicated in an annual Corporate Sustainability Report.
