Keyboard Supports

Offices can promote healthy posture and reduce desk clutter with keyboard platforms. Give employees more control over their environment while avoiding poor posture and strained wrists in the process.

IM: 15-0011167

Platform Options

IM: 15-0011111

19" Platform

As workstations get smaller, the need to have more tools in a smaller proximity is key. The 19" Platform puts everything you need – keyboard, mouse, cabling – right at hand. This platform is made of 100% recycled Kraft paper content.

IM: 15-0011133

26" Platform

Both productivity and overall worker health can be affected by an improperly aligned keyboard. The 26" Platform is easily mounted and configurable to meet every need. This platform is made of 100% recycled Kraft paper content.

IM: 15-0011114

Jules

This platform is designed for the computer-intensive user, with features like an ambidextrous mousing surface for left- or right-handed users and a 2" thick palm rest that covers the entire front edge of the platform.

IM: 15-0011166

FrameOne Platform

This platform is meant for FrameOne and other shallow worksurfaces. It's compact footprint and swiveling mousing surface allows it to be easily stowed under a FrameOne worksurface over 24" deep. This platform is a must-have ergonomic add-on for shallower fixed-height applications.

Mechanism Options

IM: 15-0011135

Stella Mechanism

Stella provides flexibility and a smooth user experience that other keyboard mechanisms simply can't match. Stella is crafted using aircraft quality materials to create a platform that's as sturdy as it is flexible.

IM: 15-0011134

Lift & Lock Mechanism

Lift & Lock Mechanism lets you position your keyboard in the most comfortable, easy to use position. 7" Lift & Lock provides added range, and is recommended for corner applications.
