Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

Seat and back are available in plastic or with an upholstered cushion.

Plastic glides have a hard plastic insert.

Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with hard plastic inserts are recommended for carpeted surfaces.

Soft felt glides for use on non-carpeted surfaces are available as an option.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58½"D x 25½"W x 37½"H.

Fully loaded transport dolly measures 58½"D x 25½"W x 58½"H.

Product Weight

- Move chair: 16.4 pounds

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

Custom Surfaces

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.
