

LEGACY AS
CONNECTION

**“ROOTED IN LAW,
DRIVEN BY LEGACY”**

NEXT is a global law firm that prioritizes people, purpose, and long-term impact. They believe that legacy is measured not by prestige, but by the **impact** and **meaning** we leave on others’ lives.

NEXT’s goal is to create a law office where **empathy**, **connection**, and **impact** are built into the environment, focusing on the **human connections** that shape people’s paths.

LEGACY AS CONNECTION

The (human) connections and experiences we create every day (**tangible and intangible**) are what we leave behind. In the NEXT office, these connections happen in 3 layers: **Emotional, Cognitive, Physical**.

Emotional: Sense of Belonging

How people feel cared for: clients feel heard, staff supported

Find meaning > Inclusion
> **Empathy** (SW 6384)

Cognitive: Social Support

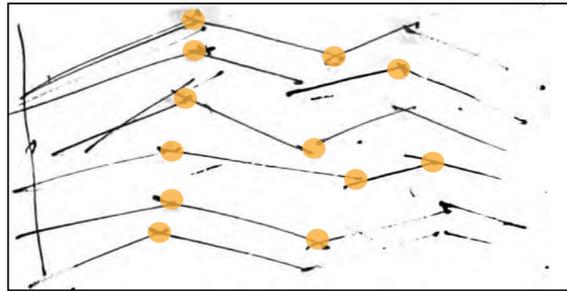

How people learn, mentor, collaborate: coworkers interactions

Experiences/ Stories > Relationships
> **Connection** (SW 2803)

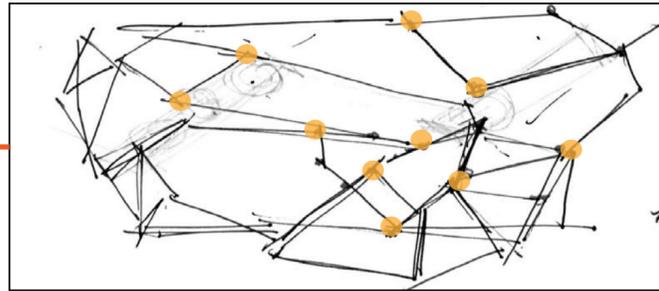

Physical: Connection to Context

How the office extends beyond itself: ROW & Law context

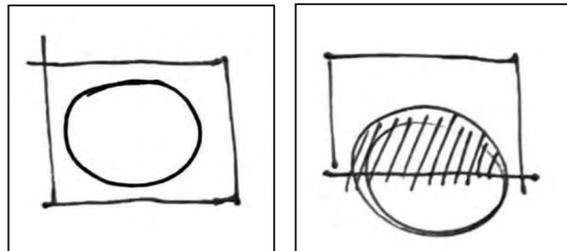

Community Contact > Human Care
> **Impact** (SW 2803)
