

Steelcase®

Ocular™ Collection

Hybrid Solutions

Innovative solutions
for connecting in
the new workplace

The Ocular Collection is a
range of products designed
to create more engaging,
equitable, and empowering
experiences for people
across the hybrid workplace.

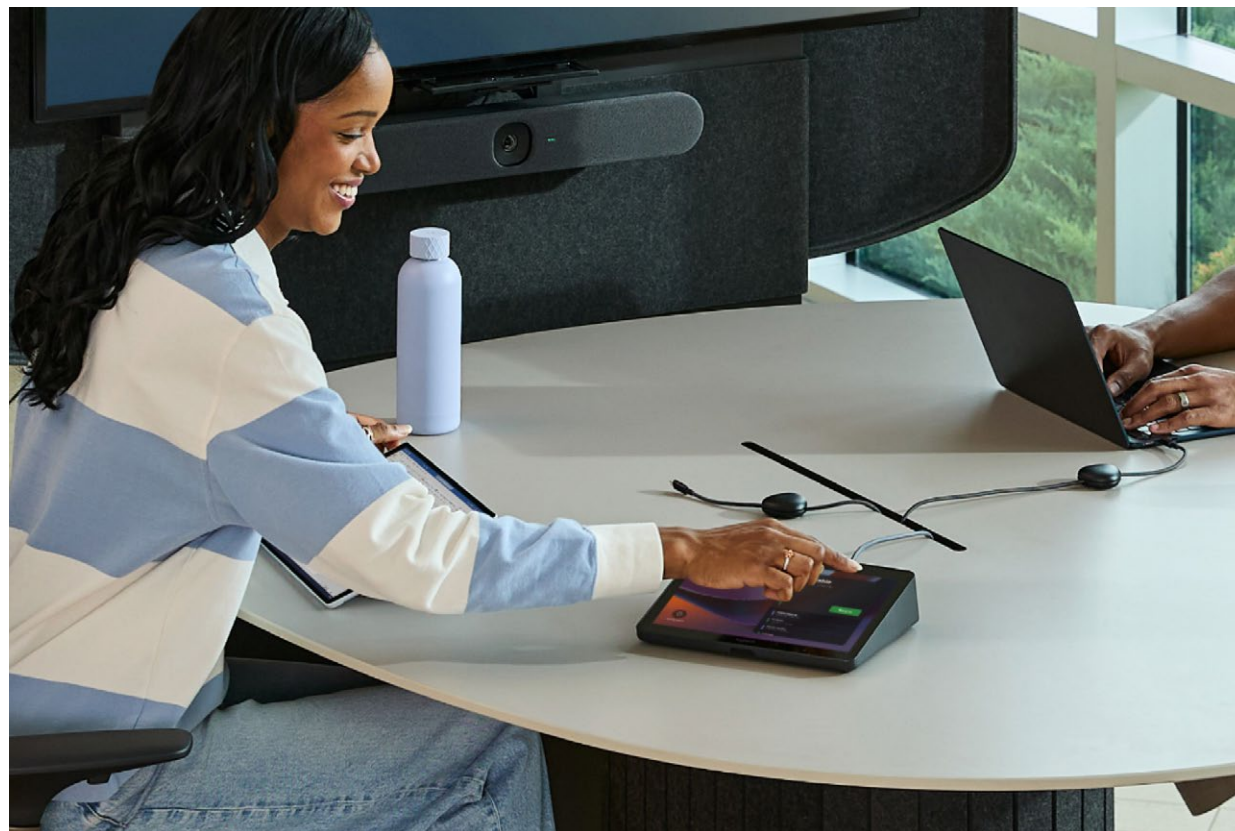

Grounded in Research

Shaped by research and real-world insights, the Ocular Collection reimagines hybrid work with solutions that improve how people see, hear, and connect.

Ocular Design Pillars

The Ocular Collection has three common design pillars that are core to the product line.

Designed for Everyone

The Ocular Collection curates meaningful interactions on both sides of the screen, ensuring everyone feels focused and motivated to perform at their best.

Inspired by the Future

Steelcase has partnered with tech leaders to deliver collaboration solutions that enhance today's hybrid workspace, while prototyping, iterating, and evolving for the future.

Ocular View

A realistic, extended-reality meeting experience that creates a more personal and immersive face-to-face connection.

Meet the
Collection

Ocular Tables

A range of organic shaped tables designed for hybrid work, setting the stage for better meeting experiences in huddle spaces to large meeting rooms.

Ocular Tower

Seated and standing height solution with fully integrated technology supports huddle or in between spaces across the open plan.

Coupe Tables

Ocular™ Coupe tables support three to five seated participants and are designed for generative meetings in huddle to small conference rooms.

Arc Tables

Ocular Arc tables support up to seven seated participants in meeting spaces leveraging technology on the long wall. Arc tables offer a more formal on-camera appearance, great for informative meetings or presentations.

Sightline Tables

Ocular Sightline tables provide an improved collaborative meeting experience for up to ten seated participants in spaces that leverage technology on the short wall.

Ocular Meeting Tables

The Ocular Collection of meeting tables are designed specifically for hybrid collaboration. Unique table shapes improve sightlines, creating a more equitable experience for in person and remote meeting participants.

Ocular Coupe Tower

Ocular™ Tower is a collaboration-ready, versatile, standalone solution that integrates technology and furniture in open and enclosed huddle spaces.

Standing height option promotes movement and flexibility, enhancing productivity and overall well-being in the workspace.

Seated height option offers comfort and ergonomic support for longer duration tasks that require additional focus.

Ocular View

Co-developed by Steelcase and Logitech, Ocular™ View is an immersive, realistic and personal meeting experience that makes you feel like you're together, even if you're miles apart.

Ocular Across the Floorplan

The Ocular Collection fits seamlessly throughout the evolving workplace, offering spaces for people to meet, share, and collaborate that spark creativity and innovation.

1

Open Plan Touchpoints

Ocular Coupe Tower

An open touchdown space with integrated technology enables content sharing and collaboration with in-person colleagues.

2

Informative Presentations

Ocular Arc 7

This space supports Microsoft Teams Front Row on an ultra-wide display, ensuring seamless interaction between remote and in-room participants, with a curved Ocular Arc table for optimal visibility.

3

Large Team Reviews

Ocular Sightline

This boardroom provides a more formal setting to support presentations, hosting, and hybrid meetings for up to 10 people, with improved sightlines for all participants.

4

Generative Workshops

Ocular Coupe5

This medium sized huddle room accommodates up to five in-person participants, offering space for teams to share content and work collaboratively with teammates in-person and remote.

5

Immersive Connections

Ocular View

Ocular View creates an authentic and immersive experience for one-on-one virtual meetings which fosters engagement and nurtures relationships.

6

Small Team Huddles

Ocular Coupe3

This small huddle room accommodates up to three in-person participants, offering space for individuals or small teams engage in quick touchpoints and day to day connections.
