Acoustic Excellence
Panels absorb and reflect sounds

UL 1286
ETL- Intertek listed

Patented Louvered Roof

Our beautifully designed sound-blocking aluminum blades not only maximize acoustic performance and increase global compliance, but they go from closed to open in only 20 seconds, increasing air flow and providing instant fresh air, so there's no need to change existing sprinkler systems or air conditioning units.

Square 3x3 with
Opening Roof

External: 14'4"D x 13'4W x 8'4"H
Internal: 14'1"D x 13"W x 7'H

On the Qt

...for when you need a 'little' privacy.

Choose your Aesthetic
Customize with options and materials

Whiteboard Option
Create additional collaborative spaces

Sitting
Short booths offer plenty of legroom when seated

Air, Light and Power
Everything you need for video conferencing

Easy to Setup
Assemble in less than 2 hours and movable with a pallet jack

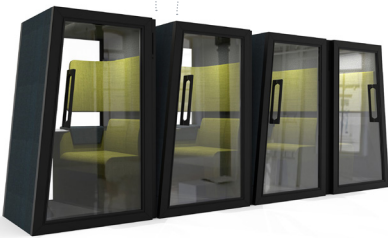

Standing
Include a stool and a lean pad for added comfort and privacy

Tell Me About the "Kink"

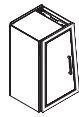

The angled, or "kinked", air gap between booths allows sound to bounce down and away-- minimizing reverb and the distance sound travels. When booths are facing the same directions, users talk into the gap, reducing the amount of noise from booth to booth.

The "kink"

Product Range

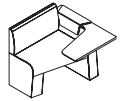

On the Qt's small office footprint makes a big impact. Now you can videoconference, take a call or focus on the task at hand—in privacy and comfort.

OB1QT01
