Distinctive + Elegant

Outlook Empress™ makes a statement with its mission-inspired vertical side slats, tapered legs and the warmth of solid maple wood. Flat reverse bevel arms create an intentional overhang that is easy to grip while entering or exiting the chair.

Empress provides attractive, comfortable seating in waiting areas and in the patient room. It is available in single, two-seat, three-seat and bariatric models, with high-back options.

INSIGHT

Patient and guest seating must work hard to serve many people with differing needs. Aesthetics also count. Spaces with a sense of warmth and welcome can help put patients and families at ease.

Made for Healthcare

Empress is designed to withstand nonstop use in demanding healthcare spaces. Steel construction and webbed seat suspension provide comfort and durability. Cleaning is simplified through choice of surface materials as well as generous clean-out space between seats and backs.

Coordinating Tables

Freestanding tables with tapered legs complement the elegant style of Empress seating and make room for work or personal belongings.
