Work Chairs

Adjustable work chairs offer basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height, back tension, and upright back lock. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

Protégé 433 Series

Protégé is an economic, general-use solution with basic ergonomic features. Protégé is stylish, comfortable, and well suited for a wide range of tasks, including moderate computer use.

Outer back is plastic. Fully upholstered outer back is an option.

Arms are standard with soft arm caps.

Seat height adjusts with a 5" range from 15"H to 20"H with a pneumatic adjustment mechanism.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Work chairs are available with or without arms.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease.

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.
