

## Steelcase<sup>®</sup>

## Product Compliance Laboratory Confirmation of Product Compliance

8-Jul-2022

**Steelcase** Roam products have been tested and found to be in compliance with the following standards:

**IEC 62368-1:2014** Audio/Video, Information and Communication Technology Equipment - Part 1: Safety Requirements <sup>1</sup> **IEC 60065:2014** Audio, video and similar electronic apparatus - Safety requirements <sup>1</sup>

In addition, although Roam products are outside the scope of the ANSI/BIFMA Standards (American National Standards for Office Furnishings), samples representative of current production have been tested and found to be in compliance with appropriate test methods from the following ANSI/BIFMA standards:

ANSI/BIFMA X5.6-2016 (R2021) – Panel Systems Tests ANSI/BIFMA X5.9-2019 – Storage Units Tests

<sup>1</sup> This specification is not included in the Steelcase Laboratory's scope of accreditation. This testing was performed by an accredited independent lab.

Steelcase uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus - Director, Global Testing

## Note:

This document may be reproduced in full only.

Steelcase products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase application guidelines and assembly directions. The use of unauthorized non-Steelcase components, parts, or materials with integrated Steelcase product solutions VOIDS all Steelcase claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase components in an integrated product solution not designed, tested, or supported, by Steelcase is an unauthorized modification of the original product which voids all Steelcase warranties, expressed or implied.
