## Privacy Without Isolation

In treatment areas, comfort, control and connection are highly important. Sonata™ modular caseloads define personal space to provide just enough privacy – while maintaining clear sightlines and access to clinicians.

Sonata emphasizes comfort, both physical and emotional. Open storage makes room for personal items in sight, where they won't be forgotten.

All components are available in both single- and double-sided styles. A common base routes utilities and seals to the floor to facilitate cleaning.
