## INDIVIDUAL SPEECH PRIVACY

Sonet Qt mimics the sound of soothing airflow to help improve concentration within the workstation, helping to improve privacy of conversation and reducing unwanted distractions.

# 63%

of workers list noise level as the top factor that effects the way they work.

IM#: 12-0000546

Sonet Qt is an individual speech privacy system based on Qt Quiet Technology™, consisting of two emitters (can be expanded to four) and a volume control module that plugs into any wall outlet. The system was designed to help improve speech privacy, productivity and comfort at work or in a home office in spaces up to 250 sq feet.

Sonet Qt gives users control over the placement and level of their sound masking. The system works with existing furniture, ceiling and flooring treatments to tailor each user's acoustical background. Sonet Qt is portable, flexible and easy to install.

## STATEMENT OF LINE

Sonet Qt individual sound masking system

- Sonet Qt controller
- two emitters (speakers)
- all required wiring
- mounting hardware
- AC power supply for 110 VAC 50-60Hz

Sonet Qt two speaker extension kit

- two additional emitters
- wiring and mounting hardware

## SUSTAINABILITY

### PEOPLE. PLANET. PROFIT.

By rethinking our business systems and designing our products to avoid negative impacts on humans and the environment, we contribute to a sustainable future for the planet and its people. We commit to advance our practices through continuous learning and building partnerships with our customers, business partners and environmental thought leaders to optimize our performance and contribute to the science and practice of sustainability.
