

Steelcase Health

Volume 2 Casegoods

Specification Guide

Availability

Electronic price list updated with release 204.A (U.S.) and 158.A (Canada), dated February 16, 2026.

All specifications subject to change without notice. Reference the electronic catalog/Hedberg for current pricing.

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at www.steelcase.com/finishlibrary/.

► For a list of all trademarks, refer to the last page of this specification guide. © 2026 Steelcase Inc.

For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing/. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Additional Resources

Steelcase Health products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources web site at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual

This publication provides surface material information for Steelcase products:

- An explanation of the surface materials
- “Available on” matrices
- Vertical surface fabric selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Steelcase Health Specification Guides

These specification guides contain multiple Steelcase, Steelcase Health, and Coalesse products which are most commonly used in healthcare environments. This collection of products has been pulled together for your convenience.

Other Specification Guides

Steelcase offers a comprehensive portfolio of furniture and solutions. For the full offering of products, refer to the individual product specification guides. These can be accessed at the www.steelcase.com web site or at village.steelcase.com.

Planning Tools

Express Program Specification Guide

This specification guide describes all Steelcase and Coalesse products including the finishes and options that are available as Express orders - manufactured and shipped within 7 business days.

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase’s design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Product Training

Basic training for many Steelcase products is part of the Building Product Muscle (BPM) curriculum on the Steelcase University Web site at village.steelcase.com.

More Information

For more information about these and other software tools to help you plan effective healthcare environments, email fsl@steelcase.com

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our Web site: www.steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: <https://www.steelcase.com/discover/steelcase/esg-overview/environmental/>

Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Designing with Casework

Overview

Casework is an architectural product that must be coordinated within the built environment. This means having a head start and being proactive is key to understanding how the product should integrate with all agencies and interface with additional trades including electrical, plumbing, and equipment.

Architectural products fall within the construction process and require coordination with the general contractor on the job. Being involved and engaged in early conversations can help achieve the ultimate goal of being the "basis of design".

Typical project flow of an architectural product

Tip: Concepts and schematic design are often years prior to the order and installation. This tends to be vastly different than furniture products and requires a different structure to support the management and execution.

Key personnel required to have a successful project. These individuals should be involved from the moment purchasing casework becomes a viable opportunity, well before order placement.

Construction projects often require a DPR (delivery planning report) to properly plan for deliveries on site. This may require a specific skill set to properly plan orders and shipments.

Installers for casework should have a carpentry skill set. This may require bringing in third party resources to support opportunities.

Designing with Casework

Concept–Preliminary Design

At this point, the customer is identifying the need and vets out the idea within their organization. This may include research or the development of an estimate to determine feasibility.

Understanding the customers' pain points can help drive the direction to take with initial concepts. Budget, ADA requirements, storage requirements, workflow, and culture are all things to understand when laying out a space. The Design Studio: Health Ideas has great starting points for common spaces within healthcare environments.

► Visit <https://www.steelcase.com/village/pages/sales-design/design-studio/design-studio-health-ideas/>

Ideally at this point in the project, the customer would need to provide:

- Project narrative
- Floor plans and elevations, if applicable

Important points to understand within the room are:

- Overall footprint
- Electrical and plumbing requirements
- Ceiling heights
- Use of the space, for example, consultation, minor procedure, etc.
- Equipment requirements/Technology storage requirements
- Compliance, for example, ADA

ADA Requirements

The most common compliance component in healthcare are ADA requirements. All ADA requirements can be located at www.ada.gov.

The key areas to focus on include:

- Lavatories and sinks clearances
- Reach ranges

Key Points to Understand During Concept Phase

This is a high-level budgetary estimate that can set the course for future conversations. To become the "basis of design," the architect must write the casework product line into the specifications. CSI (Construction Specifications Institute) specifications are used by the majority of construction professionals in the industry. CSI specifications are broken up into divisions and written in MasterFormat® - which is why the documents to be shared should remain in a word doc format.

Convey has specifications written for both Division 06: Wood, Plastics, Composites, and Division 12: Furnishings. CSI specifications for Convey are located on the Convey product page: <https://www.steelcase.com/resources/documents?search=Convey%20Modular%20Casework>

These outline the key specifications of the product, including materiality, grades of hardware, and construction process. These are different than the *Convey Technical Cut Sheet*. The *Convey Technical Cut Sheet* is utilized to provide additional planning guidelines to architects and general contractors in preparation for designing and receiving product.

▶ See *Convey Technical Cut Sheet*, available at village.steelcase.com

Often times architectural specifications are drawn in with stock cabinetry that may or may not be ideal for the setting. Conversations and thought starters provided to the customer can help generate new ideas and position Steelcase as an insight driver. This can help with utilizing good/better/best scenarios that also outline the differences in cost of different layouts chosen. Positioning the product in this fashion can be helpful when interfacing with a budget-conscious customer.

▶ See the good/better/best scenarios at <https://www.steelcase.com/resources/documents/design-studio-good-better-best-exam/>

Basic

Basic + Mounting Board and Sloped Fascia

Basic + Full Mounting Board/Backsplash and Sloped Fascia

Designing with Casework

Cabinetry and Worksurface Types

Wall Suspended vs. Floor Extended Cabinetry

Determining whether to use wall suspended or floor extended can have multiple effects on the wall structure, the budget, and future modifications.

Wall Suspended

Base cabinetry can have a worksurface that extends to 25"D. Most times this will suffice within exam and patient environments.

In non-seismic zones, blocking/banding is required behind base cabinetry. This is an item that should be coordinated with the general contractor.
 ▶ See page 24 for additional blocking/banding specifications.

Wall-suspended cabinetry allows for easier cleaning under the base of cabinets and can be reconfigured or serviced without requiring interaction with a flooring trade.

Wall-suspended base cabinets are always 23"H. Above finished floor height depends on the location of the rail.

Floor Extended

Base cabinetry can have a worksurface that extends to 30"D which may be required for larger equipment.

In non-seismic zones, blocking/banding is not required behind base cabinetry, but is recommended.

Most floor-extended cabinetry in healthcare environments requires cove molding on the base trim. This can require interaction with the flooring trades for future renovations or service work.

Floor-extended base cabinets are available in several planning heights, and often includes more material including four glides that can add to the overall cabinet cost.

Designing with Casework

Top Conditions

Healthcare facilities

often require a top condition that prevents individuals from storing items on top of the cabinetry. Sloped fascia and vertical fascia are frequently utilized for this purpose. Convey offers multiple top conditions.

▶ See page 86 for Convey top conditions.

Components such as vertical fascia

can be used to create the design intent of cabinetry going to the ceiling while providing a flexible solution that can fit within a ceiling grid and often reduce the cost of a cabinet.

Vertical fascia includes a track system to fit into a grid system or direct to dry wall.

Cabinetry this close to the ceiling often results in thin gaps that are difficult to fill.

Convey ceiling fillers are scribe-to-fit components which are designed to fill these gaps.

Making cabinets over 36" H tall requires additional hinges and can add cost.

Cabinetry this tall results in unreachable, therefore unusable space.

Designing with Casework

Schematic Design

Within schematic design, a concept is established as a design is being developed and assessed.

Ideally at this point in the project, the customer would need to provide:

- Determine what is driving the specification.
If Steelcase was not involved prior to this point, determine what product is specified and where Steelcase differs.
- Timelines, including other trades coordination and tentative installation timeframe.
- Project narrative
- Project specification, if complete
- Floor plans and elevations CAD drawings

Important points to understand within the room are:

- Overall footprint
- Ceiling heights
- Compliance requirements
- Backing and blocking requirements
- Electrical and plumbing requirements
- Use of the space, for example, consultation, minor procedure, etc.
- Equipment requirements/Technology storage requirements

If cabinetry has already been designed into the space, identify where alternatives may need to be requested. Before diving into design work, it's important to understand the requirements and make suggestions to position Steelcase. Consult the healthcare applications design team for support.

The below image is an example of a layout you may receive from an architect.

Point out any misalignment between uppers and lowers as this may have been overlooked by the architect or customer.

Convey is designed with fillers to scribe to fit and allow for architectural variances. Clarify if these are required.

Tip: If they are not pictured, a millworker will not quote them.

ADA worksurface height is 34" AFF (Above Finished Floor). Especially since an angled sink is present, clarify with the architect if this was meant to be 36" AFF.

Standard angled front sink cabinets have a minimal value of 18" from the centerline for ADA compliance in most states. Sometimes this is okay to go smaller if they have a side approach, but it should be clarified with the architect.

When laying out a space,

it is good to understand the maximum space constraints within the environment. Having clear communication around storage and equipment requirements can help guide decisions.

Plumbing locations

should be some of the first areas that a clinician can access when entering a room. Putting them on the outside of the run rather than up against a wall can also prevent water splashes and eventual damage to adjacent walls.

Maximum length of run is 60"W

Understanding how the environment, such as door swings may interfere with the furniture and cabinetry, are important to note.

Designing with Casework

Fillers

Architectural walls

are allowed a $\frac{1}{2}$ " variance over a 10' run, which means they will never be perfectly straight even in new builds. Putting a pre-manufactured component into an imperfect environment requires adjustability in the field.

When up against an architectural wall, fillers should always be used, not cover panels.

Ceiling and wall fillers accommodate for architectural variance. These come in 3" increments and are field cut (scribed) for a perfect fit.

Floor extended cabinetry includes floor glides at all four corners allowing for 2" of adjustment on uneven floors.

Adjustment on the wall is created through the rail-to-bracket attachment method with Convey. For a visual aid, see *the Convey animation*: <https://youtu.be/41S4GSvY30>.

$\frac{3}{4}$ " fore and aft and $\frac{7}{8}$ " vertical adjustment is allowed through the bracket attachment.

Designing with Casework

Banding and blocking, Attachment Method for Non-Seismic Applications

Banding and blocking is recommended at all casework locations for aid in the installation of the product. The following are requirements for Steelcase's Convey modular casework.

All Convey casework utilizes a continuous anodized aluminum rail system for installation.

- Rails come in 8' sections and are field cut for each application.
- Banding/blocking is required for wall-suspended cabinets. Banding/blocking for floor-extended cabinets may not be required. Check local and state codes for banding/blocking requirements (i.e. seismic zones).
- Wall-suspended base cabinets and cantilevers require 16-gauge x 6" steel banding or 2" x 6" wood blocking inside the wall construction for non-seismic applications.

Standard installation instructions and banding and blocking requirements are outlined for non-seismic applications. Seismic zones are not limited to the west coast. They also are prevalent in areas such as Chicago, Memphis, and Atlanta. The design must be braced for structural stability and specification must be reviewed and approved by a structural engineer.

Banding/Blocking Requirements

Wall Suspended

Floor Extended

Cantilevers

Tip: Banding and blocking locations depend on rail height.

Example dimensions:

- H = 34"
- CH = 23"
- TBH = 28 1/2"
- SBH = 11"

Designing with Casework

Design Development

During the design development phase, pricing is often updated to reflect any design changes and you start refining accessory components and finish options.

Ideally at this point in the project, the following should be discussed with the customer:

- Determine what is driving the specification. If Steelcase was not involved prior to this point, determine what product is specified and where Steelcase differs. Limited changes are likely allowed at this point in the process.
- Timelines – including other trades coordination and tentative installation timeframe.
- Project specifications
- AutoCAD drawings, such as, Floor Plans, Elevations, RCP (Reflected Ceiling Plan), and MEP (Mechanical Electrical Plumbing)

Key Points

There are multiple aspects of the site that must be understood as it pertains to the design:

- Is the product in a seismic zone? Refer to the backing and blocking details for important items to address.
 - ▶ See page 24.
- What is the ceiling type? This information can be helpful to understand if you are utilizing a vertical fascia that has to go into a ceiling grid, or perhaps working under an architectural bulkhead that requires a filler.
- Is it existing or new construction? Again, this relates back to the wall construction requirements.

Base Cabinet, Angled Sink

- What are the finish selections, including door and drawer pulls?
 - D pulls, jazz, and contemporary pulls are at a 128 mm spacing.
 - Hidden pulls are available on upper storage cabinets only.
 - Convey offers standard Steelcase finishes as well as select surfaces from Wilsonart and Formica.

- What are the locking requirements?
 - Manual locking
 - Electronic locking
 - Wireless receiver latches can be installed in doors and drawers and are activated by a transmitter (keypad) located within 15' of the cabinets. Receivers can be set to a non-self-locking mode, self-locking mode, or single use mode.
- ▶ See page 98 for more information on locks.

- What are the electrical and plumbing requirements and placement?
 - Convey sections include the section views for all cabinetry and “go, no go” zones to be communicated to the electrician or plumber working on the site. This information should be provided to the appropriate trades early in the process.
 - Sink selection

Designing with Casework

Construction Documents

At this point in a project, the customer has agreed to a final design and documents are being prepared for bid. Typically, no changes are allowed at this point and any design changes need to go through a formal alternate request process.

Submittals

A shop drawing is a drawn description of the information provided in the project's construction documents. It provides greater detail about all aspects of the application including floorplan elevations, detailed drawings of product interface points, as well as finish and hardware schedules. Follow the *Convey Technical Submittal Package Template* for guidelines on how to properly prepare a shop drawing.

► See <https://www.steelcase.com/resources/documents/convey-technical-submittal-package-template/>

Notes

Notes for Architect and General Contractor:

- Banding / blocking
 - Wall suspended base cabinets require 2" x 6" wood blocking or 6" x 16-gauge sheet steel banding. 6" x 16.
 - Upper cabinets do not require banding/blocking, but it is helpful for installation. Seismic zones require banding/blocking in all locations. See elevations for required banding/blocking centerlines.
 - Electronic locks specified. These locks are installed in door and drawers on site.

Notes for Dealer:

- Faucets and drain hardware are not included, but shown for reference. Faucet holes are to be drilled on site.
- Electronic locks specified. These locks are installed in door and drawers on site. Bezel included but it's optional.
- Hinge angled limiter to be installed in upper cabinet.
- Top condition: These applications are shown with sloped fascia.
- This drawing set contains a standard product response to CAD drawing received by Steelcase. Please review carefully.

Dimensions and Labels:

- 1" Filler. Scribe on site.
- 54-1/2"W Solid Surface. Corian B252 integral sink bowl shown.
- 1" Filler. Scribe on site.
- Overall width dimension: 54-1/8"
- Upper cabinet width: 22", 30-1/2"
- Upper cabinet height: 24"
- Mounting Height: 20"
- 54" Mounting Height
- 76" Cabinet Height
- Lower cabinet width: 22", 30"
- Lower cabinet height: 34"
- Upper cabinet depth: 1-5/16"
- Upper cabinet width: 21-3/8"
- Lower cabinet depth: 1-5/16"
- Lower cabinet width: 51-7/16"
- 28-1/2" To CL of Rail-Holes
- 74" To CL of Rail-Holes
- Lower cabinet depth: 23-1/4"
- Lower cabinet height: 7-15/16"
- O.C. 38-1/16"

Designing with Casework

Overarching Project Checklist

Preliminary Design

- Needs assessment with the customer
- Intake call when Steelcase support is required within the architectural health team
- Modular solutions positioned
 - ▶ See Convey Village product page, village.steelcase.com, for more information around positioning modular casework.

Schematic Design

- CDA pricing
- Budget operations costs
- Define local installer labor
- Estimate delivery/truck/etc. costs
- 3rd party material/labor costs
- Initial project schedule
- Rough timeline and logistics

Design Finalized

- Elevations and renderings complete for all layouts
- Specials identified
- Review designs and process with customer
- Update quotes and drawings

Field Verification

- Keying conference
- Project execution review
- Steelcase reservations
- Mock-up

Order Finalized

- Attend construction meetings
- Finalize project schedule
- Coordinate dates with general contractor, electrician, voice/data, plumbing, etc.
- Audit final orders
- Install plans created
- Visit site two weeks prior to delivery installation

Guidance For Third-Party Worksurfaces

Convey worksurfaces are available in solid surface and High-Pressure Laminate. Certain worksurface types and conditions warrant the use of third-party worksurfaces.

Tip: When utilizing third-party worksurfaces, weights exceeding those of the standard solid surface tops and thicknesses should be verified by the structural engineer of record. Alternative fasteners from those provided with Convey may be required for appropriate length.

Know when to source surfaces locally. The most common applications and situations where locally sourced tops are required include:

- Alcoves
- Corners
- Convey cabinets longer than 138"W with solid-surface worksurfaces
- Changes in depth of surface
- Drop-in sinks with solid-surface worksurfaces
- Different materiality including granite, phenolic resin, and stainless steel

To properly plan for a locally sourced worksurface, coordination is required between the client/plumber and the dealer supplied submittal package. Areas to take into consideration include:

• Application

- Planning height—ADA or non-ADA
- Cover panels—present or not
- Adjacent casework
- Adjacent architectural components

• Local Worksurface

- Who is the subcontractor?
Tip: Shop drawings (submittal packages) should be exchanged.
- Materiality—solid surface, laminate, stone, etc.
- Size—width and depth
Tip: Also consider whether an overhang is being requested.
- Worksurface thickness
- Backsplash—required or not and thickness

• Sink Bowl Sink

- Type—drop in, undermount, etc.
- Integral—if using integral, provide information regarding the Dupont Corian sink bowls that have been vetted in the Convey casework based on width and depth that Steelcase recommends. See page 32.
- Size—depth, width, and height
- Drain location

• Faucet

- Specifications

Additional Considerations

Steelcase does not provide faucets or drain hardware with standard worksurfaces. However, this information still needs to be coordinated both when the tops are Steelcase supplied or locally supplied.

When the worksurfaces are not in the Steelcase scope, typically the Architect or General Contractor is validating the application to ensure all work by the various subcontractors is coordinated and planned.

Templating the locally sourced top in the field after the casework is installed is the ideal scenario to ensure a proper fit. If tops are made prior to installation, be sure to overlay the worksurface and/or sink bowl over the Convey section views to verify there will be no interferences between the plumbing and the cabinetry. Section views are available at village.steelcase.com.

Height Matrix—Wall-Suspended Cabinets

Tip: Cabinet heights are different than AFF (Above Finished Floor) heights. The chart assumes Convey solid surface worksurfaces are being used, which have a thickness of 1 1/2". If supplying worksurfaces locally, worksurface thickness should be added onto cabinet height to determine AFF (Above Finished Floor) heights.

Tip: This chart assumes AFF (Above Finished Floor) planning heights of 34", 36", and 42". Wall-suspended cabinets can be mounted at whatever height the customer specifies, based on the rail location chosen.

34"H Planning Height Wall-Suspended Cabinets

36"H Planning Height Wall-Suspended Cabinets

42"H Planning Height Wall-Suspended Cabinets

Height Matrix—Floor-Extended Cabinets

Tip: Cabinet heights are different than AFF (Above Finished Floor) heights. The chart assumes Convey solid surface worksurfaces are being used, which have a thickness of 1 1/2". If supplying worksurfaces locally, worksurface thickness should be added onto cabinet height to determine AFF (Above Finished Floor) heights.

Floor-Extended Base Cabinets with Doors

Floor-Extended Base Cabinets with Drawers and Specialty Cabinets

Tip: Drawer heights are designed to align consistently across all layouts at the same plan height.

Floor-Extended Tall Storage and Wardrobes

Tip: Tall storage and wardrobe cabinets drive the location of the upper cabinets when using a continuous rail. Space between a worksurface and the base of an upper cabinet will be driven by this mounting location.

Convey Base Cabinets

Wall Suspended

Wall-suspended base cabinets meet storage needs in a variety of settings.
▶ Specifying, page 100

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.
▶ See page 144 for cover panels.

Adjustable shelf is standard inside the cabinets with doors. Shelves adjust in 32 mm increments. Additional shelves are available and must be ordered separately.
▶ See page 168 for accessories.

Seismic clips are available for adjustable shelves. These clips lock the shelf and prevent movement from front to back, as well as up and down.

Blocking/banding will be required in architectural walls behind the rail. Placement of blocking/banding is to be coordinated with responsible trades.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.
▶ See page 168 for rail.

Drawers and doors can be locked manually or electronically. Electronic locks are available as an option or can be ordered separately.
▶ See page 174 for electronic locks.

Drawers include heavy-duty, full-extension drawer slides.

D pulls are standard on doors and drawers and are in a nickel finish. Additional finishes and pull options are available.

Wall-suspended base cabinets flex parametrically in 1" increments for width and depth.

All edges are finished from the factory with matching plastic edge banding.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.

▶ See page 172 for hinge angle limiter.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Double-door cabinets open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left. This is beneficial when locking the cabinet as only the right door needs the locking mechanism. The sequential latch can be removed in the field.

All door cabinets include one adjustable shelf.

Wall-suspended base cabinets are available with one small drawer and one large drawer or with three small drawers.

If third party file storage is required in large drawers, please reference the *Convey Section Views* for clearances, available at village.steelcase.com.

Cabinets with drawers cannot exceed 24"W.

Drawers include heavy-duty, full-extension drawer slides.

The top drawer extends 2" less than others due to the bracket clearance.

Woodgrain laminate matches on all door and drawer sets and is always applied vertically.

Wall-suspended base cabinets are only available in one height: 23"H. Width and depth can adjust parametrically in 1" increments.

D pulls are standard.

Additional door and drawer pull options are available. Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately. ▶ *Lock and Keying*, page 398

When manual locks are specified, a lock plug will default in all doors and drawers of the individual cabinet.

Electronic locks are optional and field installed. Lock receivers are installed on drawers and doors and are wirelessly controlled by a transmitter. *Tip: Transmitters are ordered separately.* ▶ See page 174 for electronic locks.

When electronic locks are specified, all doors and drawers will default to locking on the individual cabinet.

Connections

Base cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet. ▶ See page 168 for rails.

Cabinets should be ganged together with screws provided.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Surface Materials

Cabinet, drawer front, door front, and shelf

- High-Pressure Laminate

Edges

- Matching plastic

Cabinet interior

- 2730 Arctic White

D pulls, contemporary, and jazz pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

Bracket covers

- 6009 Arctic White

Euro hinges

- Nickel

Lock

- 9201 Polished Chrome only

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Application Topics

Worksurface will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces.
 ▶ See pages 154-158 for worksurfaces.

Fillers close the gap between the side of a cabinet and a structural wall. Additional length worksurface will be required.
 ▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.
 ▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.
 ▶ See page 178 for V.I.A. spacer.

Base cabinets cannot be planned at 28 1/2" surface height as there is not enough room to support the structural beams needed at the bottom and top of the case.

Convey Base Cabinets

Floor Extended

Floor-extended base cabinets meet storage needs in a variety of settings.

► Specifying, page 102

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

► See page 144 for cover panels.

All edges are finished from the factory with matching plastic edge banding.

Blocking/banding may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

► See page 168 for rails.

Base trim must be added to floor-extended base cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately.

► See page 172 for base trim.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

Adjustable shelf is standard inside cabinets with doors. Shelves adjust in 32 mm increments. Additional shelves are available, and must be ordered separately.

► See page 168 for accessories.

Seismic clips are available for adjustable shelves. These clips lock the shelf and prevent movement from front to back, as well as up and down.

D pulls are standard on doors and drawers in a nickel finish. Additional finishes and pull options are available.

Drawers and doors can be locked manually or electronically. Electronic locks are available as an option or can be ordered separately.

► See page 174 for electronic locks.

Drawers include heavy-duty, full-extension drawer slides.

Floor-extended base cabinets flex parametrically in 1" increments for width and depth.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.
▶ See page 172 for hinge angle limiter.

Door cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Drawer/door cabinets 24"W or less have one door and one drawer. Drawer/door cabinets 25"W or wider default to two side-by-side drawers and two doors.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left. This is beneficial when locking the cabinet as only the right door needs the locking mechanism. The sequential latch can be removed in the field.

All door cabinets include one adjustable shelf.

Floor-extended base cabinets are available with various drawer configurations, depending on the height:

- 27"H cabinets can have one small and one large drawer, or three small drawers.
- 32¹/₂"H cabinets can have two small drawers and one medium drawer.
- 34¹/₂"H cabinets can have two large drawers, two small drawers and one large drawer, or four small drawers.

If third party file storage is required in large drawers, please reference the *Convey Section Views* for clearances, available at village.steelcase.com.

Cabinets with only drawers cannot exceed 24"W.

Drawers include heavy-duty full-extension drawer slides.

The top drawer extends 2" less than others due to the bracket clearance.

Woodgrain laminate matches on all door and drawer sets and is always applied vertically.

Floor-extended base cabinets are only available in modular heights. Widths and depths can adjust parametrically in 1" increments.

D pulls are standard.

Contemporary Jazz

Additional door and drawer pull options are available. Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately.
▶ *Lock and Keying,* page 398

When manual locks are specified, a lock plug will default in all doors and drawers of the individual cabinet.

Electronic locks are optional and field installed. Lock receivers are installed on drawers and doors and are wirelessly controlled by a transmitter.
Tip: Transmitters are ordered separately.
▶ See page 174 for electronic locks.

When electronic locks are specified, all doors and drawers will default to locking on the individual cabinet.

Connections

Base cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.

▶ See page 168 for rails.

Cabinets should be ganged together with screws provided.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at *village.steelcase.com*.

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Application Topics

Worksurface will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces.

▶ See pages 154-158 for worksurfaces.

Base trim must be added under base cabinet prior to application of cove molding. Cove molding is applied over base trim and is generally supplied by general contractor or client and must be coordinated. Base trim is always black.

▶ See page 172 for base trim.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See *Convey Technical Cut Sheet*, available at *village.steelcase.com*.

Fillers close the gap between the side of a cabinet and a structural wall.

▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.

▶ See page 144 for cover panels.

Convey Printer Cabinets

Floor-extended and wall-suspended printer cabinets

provide a pullout shelf for easy access to a printer or other storage items.

► See page 108 for specifying.

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

Notches must be covered by cover panels or notch filler for end-of-run conditions.

► See page 144 for cover panels.

D pulls are standard on drawers in a nickel finish. Additional finishes and pull options are available.

All edges are finished from the factory with matching plastic edge banding.

Blocking/banding is required for wall-suspended cabinets. Blocking/banding for floor-extended cabinets may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Base trim must be added to floor-extended base cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately.

► See page 172 for base trim.

For floor-extended printer cabinets, adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Drawers include heavy-duty, full-extension drawer slides.

Pull-out printer cabinets can also be utilized for ADA height microwave storage. Equipment specifications and ventilation requirements should be verified.

Floor-extended and wall-suspended base cabinets flex parametrically in 1" increments for width and depth.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

► See page 168 for rails.

Printer cabinets can be specified with or without a drawer under the pullout shelf.

Printer cabinet exposed interiors are finished with the specified High-Pressure Laminate. Drawer interiors and the interior of pullout shelf fronts are finished with 2730 Arctic White High-Pressure Laminate.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Pullout printer shelves fully extend, providing easy access and visibility.

A 2 1/4" gap is present at the back of the pull-out printer shelf which allows space for cable management.

Printer cabinets without a drawer will have an open cavity below the pull-out shelf. The open cavity is 6 3/8"H.

When adding a drawer to the printer cabinet, cabinets 24"W or less will include a single drawer. Cabinets 25"W or wider default to two drawers, side by side.

Drawers include heavy-duty, full-extension drawer slides.

Printer cabinets are only available in modular heights. Widths and depths can adjust parametrically in 1" increments.

Woodgrain laminate matches on all drawer sets and is always applied vertically.

D pulls are standard.

Additional drawer pull options are available. Optional pulls include:

- Contemporary
 - Jazz
 - No pull
- Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.*

Surface Materials

Cabinet, drawer front, and shelf

- High-Pressure Laminate

Edges

- Matching plastic

Drawer interior and pullout shelf front interior

- 2730 Arctic White

D pulls, contemporary, and jazz pulls

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Connections

Printer cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.
▶ See page 168 for rails.

Cabinets should be ganged together with screws provided.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Convey Printer Cabinets, continued

Application Topics

Workspace will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces. ▶ See pages 154-158 for worksurfaces.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See *Convey Technical Cut Sheet*, available at village.steelcase.com.

Base trim must be added to floor-extended printer cabinets prior to application of cove molding. Base trim is always black. Base trim must be ordered separately. ▶ See page 172 for base trim.

Fillers close the gap between the side of a cabinet and a structural wall. ▶ See page 144 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width. ▶ See page 146 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam. ▶ See page 178 for V.I.A. spacer.

Base cabinets cannot be planned at 28 1/2" surface height as there is not enough room to support the structural beams needed at the bottom and top of the case.

Electrical Clearance Zones

Tip: See all Convey sections by visiting <https://www.steelcase.com/resources/documents/convey-sections/>

Convey Pullout Trash Cabinets

Floor-extended and wall-suspended pullout trash cabinets provide a concealed storage location for trash, soiled linens, and other customer-supplied bins.

Tip: Trash bins are not included.

► Specifying, page 112

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

► See page 144 for cover panels.

All edges are finished from the factory with matching plastic edge banding.

Blocking/banding is required for wall-suspended cabinets. Blocking/banding for floor-extended cabinets may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Base trim must be added to floor-extended base cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately. ► See page 172 for base trim.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

D pulls are standard on drawers in a nickel finish. Additional finishes and pull options are available.

Pullout trash cabinets include a wire hoop utilized to hold customer-supplied interior bins in place.

Drawers include heavy-duty, full-extension drawer slides.

Cabinets mount along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

► See page 168 for rails.

Floor-extended and wall-suspended base cabinets flex parametrically in 1" increments for width and depth.

For floor-extended trash cabinets, adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Pullout drawer includes heavy-duty, full extension slides, providing easy access and visibility.

A removable wire hoop is included in the pullout drawer to hold customer supplied interior bins in place.

Trash cabinets are only available in modular heights. Widths and depths can adjust parametrically in 1" increments. See the *Convey Technical Cut Sheet* for interior dimensions ([village.steelcase.com](#)).

Woodgrain laminate is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional drawer pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Connections

Trash cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet. ▶ See page 168 for rails.

Cabinets should be ganged together with screws provided.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at [village.steelcase.com](#).

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Application Topics

Worksurface will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces. ▶ See pages 154-158 for worksurfaces.

Base trim must be added under base cabinet prior to application of cove molding. Base trim is always black. ▶ See page 172 for base trim.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See *Convey Technical Cut Sheet*, available at [village.steelcase.com](#).

Fillers close the gap between the side of a cabinet and a structural wall. Additional length worksurface will be required. ▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width. ▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam. ▶ See page 178 for V.I.A. spacer.

Base cabinets cannot be planned at 28 1/2" surface height as there is not enough room to support the structural beams needed at the bottom and top of the case.

Convey Garage Cabinets

Garage cabinets are floor extended and provide a storage location for carts and other equipment.

▶ Specifying, page 114

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

▶ See page 144 for cover panels.

All edges are finished from the factory with matching plastic edge banding.

Blocking/banding may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Cove molding is required and is to be supplied by others.

Exposed interiors are finished with the specified High-Pressure Laminate.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

▶ See page 168 for rails.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

Garage cabinets can be ordered with or without a back, depending on the plumbing, electrical, or venting requirements.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Floor-extended base cabinets flex parametrically in 1" increments for width and depth.

Garage cabinets can be ordered with or without a door.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Garage cabinets extend to the floor and have inset floor glides.

Garage cabinets do not have a base and are open to the floor.

Garage cabinets can be specified with or without a back and with or without a door. Open back garage cabinets include upper and lower stretchers. Reference the *Convey Section Views* for clearance zones, available at village.steelcase.com.

Edges on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm edge banding.

Bracket covers are included with cabinets and are available in white or merle.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Garage hinges encroach the interior clearance by 2 5/8" per side.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.

▶ See page 172 for hinge angle limiter.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Double-door cabinets open from the center out.

Garage cabinets are only available in modular heights. Widths and depths can adjust parametrically in 1" increments.

Woodgrain laminate matches on all door sets and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional door pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no door pulls or drill holes.

Connections

Garage cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.

▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability

accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Cabinet interior on garage cabinets with doors

- 2730 Arctic White

D pulls, contemporary, and jazz pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

Bracket covers

- 6009 Arctic White
- 6527 Merle (option on open garage cabinets only)

Euro hinges

- Nickel

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Application Topics

Worksurface will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces.

▶ See pages 154-158 for worksurfaces.

Cove molding must be field installed onto the garage cabinet base to complete an installation and is supplied locally. See *Convey Technical Cut Sheet*, available at village.steelcase.com.

Fillers close the gap between the side of a cabinet and a structural wall. Additional length worksurface will be required.

▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.

▶ See page 144 for cover panels.

Convey Sink Base Cabinets

Sink base cabinets are available with doors in a floor-extended or wall-suspended application, or in a wall-suspended cabinet with a removable angled front.

▶ See page 118 for specifying.

Sinks are specified with the worksurface for work-surfaces with sinks and are integral.

▶ See page 154 for specifying.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

▶ See page 146 for cover panels.

All edges are finished from the factory with matching plastic edge banding.

Angled sink base cabinets are designed to coordinate with both floor-extended and wall-suspended adjacent cabinets.

Back of sink base cabinets are open to access plumbing.

Blocking/banding is required for wall-suspended cabinets. Blocking/banding for floor-extended cabinets may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

▶ See page 168 for rails.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

Tops of cabinets are open and require attachment to a worksurface that is ordered separately. Attachment hardware is included with the cabinetry.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

For floor-extended sink base cabinets, adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Floor-extended and wall-suspended base cabinets flex parametrically in 1" increments for width and depth.

Base trim must be added to floor-extended sink base cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately.

▶ See page 172 for base trim.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Angled sink base cabinets meet the guidelines set forth in the United States Department of Justice 2010 ADA Standards for Accessible Design (www.ada.gov/2010A-DA-standards). Floor to underside of cabinet must clear dimension of 27"H. For compliance, worksurface must be maximum 34" AFF (Above Finished Floor). Not all states follow the same ADA guidelines. Reference local codes.

Angled sink base cabinets are available 21"H and 23"H. Change-of-height angled-sink cabinets are 21"H and allow for installation of a 34" AFF (Above Finished Floor) sink cabinet next to 36"H AFF (Above Finished Floor) base cabinets. This is required to allow for one continuous rail.

When sizes between 37"W-42"W are required, a 42"W cabinet must be specified and be cut to fit in the field.

Angled sink base cabinets have a removable panel that can be removed without tools for easy access to plumbing.

All sink cabinets are open to the wall, providing easy access to plumbing.

Wall-suspended sink base cabinets do not have a base and are open to the floor.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications. ▶ See page 172 for hinge angle limiter.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Double-door include a sequential latch. The right door must be opened prior to the left.

Double doors include a sequential latch. The right door must be opened prior to the left. This is beneficial when locking the cabinet as only the right door needs the locking mechanism. The sequential latch can be removed in the field.

All door cabinets include one adjustable shelf.

Sink base cabinets are only available in modular heights. Widths and depths can parametrically adjust in 1" increments.

Woodgrain laminate matches on all door sets and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional door pull options are available. Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no door pulls or drill holes.

Sink base cabinets with doors default to locking.

Locks are only available with master keying. Locks are field installed and must be specified separately. ▶ *Lock and Keying*, page 398

When manual locks are specified, a lock plug will default in all doors of the individual cabinet.

Electronic locks should not be used with sink cabinets.

Surface Materials

Cabinet and door fronts

- High-Pressure Laminate

Edges

- Matching plastic

Cabinet interior

- 2730 Arctic White

D pulls, contemporary, and jazz pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

Bracket covers

- 6009 Arctic White

Euro hinges

- Nickel

Lock

- 9201 Polished Chrome only

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Connections

Sink base cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.
 ▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

Cabinets should be ganged together with screws provided.

For minimum wall construction and electrical clearances, see Convey Technical Cut Sheet, available at village.steelcase.com.

Application Topics

Worksurface will span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces.
 ▶ See pages 154-158 for worksurfaces.

Integral, seamless solid surface sink bowl and integral back-splash is available on solid surface work-surface only. Additive backsplash is available for High-Pressure Laminate worksurface. Additive sidesplash is available for both solid surface and High-Pressure Laminate worksurfaces.

Faucet and drain hardware are not offered from Steelcase and must be coordinated with parties responsible. Faucet holes are not factory drilled and must be coordinated in the field.
 ▶ See pages 154-158 for worksurfaces.

Sinks must be field supplied and installed for High-Pressure Laminate worksurfaces.

Plumbing must be coordinated and communicated with responsible trades.

Base trim must be added to floor-extended sink base cabinets prior to application of cove molding. Base trim is always black. Base trim must be ordered separately.
 ▶ See page 172 for base trim.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See *Convey Technical Cut Sheet*, available at village.steelcase.com.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Fillers close the gap between the side of a sink base cabinet with doors and a structural wall. Fillers are not available on angled sinks. Additional length worksurface will be required.
 ▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of case-work and add a 1/2" to the overall planning width.
 ▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.
 ▶ See page 178 for V.I.A. spacer.

Base cabinets cannot be planned at 28 1/2" surface height as there is not enough room to support the structural beams needed at the bottom and top of the case.

Plumbing Clearance Zones

Base Cabinet, Angled Sink

Tip: See all Convey sections by visiting <https://www.steelcase.com/resources/documents/convey-sections/>

Convey Wardrobe Cabinets

Floor-extended and wall-suspended wardrobe cabinets

are available with hooks or rods for patient or caregiver belongings.

► Specifying, page 122

All edges are finished from the factory with matching plastic edge banding.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

► See page 168 for rails.

Blocking/banding is required for wall-suspended cabinets. Blocking/banding for floor-extended cabinets may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Drawers include heavy-duty, full-extension drawer slides.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

► See page 144 for cover panels.

Base trim must be added to floor-extended wardrobe cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately.

► See page 172 for base trim.

Wardrobe cabinets default with one fixed upper shelf.

Open wardrobe cabinets exposed interiors are finished with the specified High-Pressure Laminate. Drawer interiors and the interior of closed wardrobe cabinets are finished in 2730 Arctic White High-Pressure Laminate.

The tops of the wardrobe cabinets are finished.

Top conditions can be specified separate from the wardrobe cabinets, including sloped fascia, vertical fascia, flat top-cap cover panels, or ceiling fillers.

► See pages 148–152 for top conditions.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

For floor-extended wardrobe cabinets, adjustable glides adjust for installation on uneven floors. Adjustability range is 2".

Wall-suspended wardrobe cabinets can be specified with or without a drawer in the base.

Wardrobe cabinets can be specified open or closed with a hinged door.

Wardrobe cabinets flex parametrically in 1" increments for width, depth, and height.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Wall-suspended wardrobe cabinets require both an upper and lower rail. Floor-extended cabinets only require an upper rail.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.

▶ See page 172 for hinge angle limiter.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left.

Double doors include a sequential latch. The right door must be opened prior to the left. This is beneficial when locking the cabinet as only the right door needs the locking mechanism. The sequential latch can be removed in the field.

Wardrobe cabinets come with one fixed shelf.

Wardrobe cabinets less than 24"D and less than 24"W include two hooks, one on the inside left and one on the inside right. Floor-extended wardrobe cabinets greater than 24"D and less than 30"W will have a coat rod side to side. Wall-suspended wardrobe cabinets 24"D and 24"W include a clothing rod front to back.

Optional drawer on wall-suspended wardrobe with door includes heavy-duty, full-extension slides.

Wardrobe cabinet heights, widths, and depths can parametrically adjust in 1" increments.

Woodgrain laminate matches on all door and drawer fronts and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional door pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately.

▶ *Lock and Keying*, page 398

When manual locks are specified, a lock plug will default in all doors and drawers of the individual cabinet.

Electronic locks are optional and field installed. Lock receivers can be installed on drawers and doors and are wirelessly controlled by a transmitter.

Tip: Transmitters are ordered separately.

▶ See page 174 for electronic locks.

When electronic locks are specified, all doors and drawers will default to locking on the individual cabinet.

Connections

Cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.

▶ See page 168 for rails.

Cabinets should be ganged together with screws provided.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

Bracket covers

- 6009 Arctic White
- 6527 Merle (option on open wardrobe cabinets only)

Euro hinges

- Nickel

Lock

- 9201 Polished Chrome only

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Application Topics

Sloped fascia, vertical fascia, or flat top-cap cover panels can be specified as a top condition on the wardrobe.

▶ See pages 148–152 for top conditions.

Wardrobe cabinets specified with a sloped fascia top condition, and installed next to an upper cabinet of a different depth, will result in a step down. Doors will align between upper cabinet and wardrobe cabinet. Cover panels will be required in between the wardrobe cabinet and upper cabinet.

▶ See pages 148–152 for top conditions.

Base trim must be added to floor-extended wardrobe cabinets prior to application of cove molding. Base trim is always black. Base trim must be ordered separately.

▶ See page 172 for base trim.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See the *Convey Technical Cut Sheet*, available at village.steelcase.com.

Fillers close the gap between the side of a cabinet and a structural wall. Ceiling fillers can also be specified to fill the gap between the top of a wardrobe cabinet and a structural ceiling.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.

▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.

▶ See page 178 for V.I.A. spacer.

Base cabinets cannot be planned at 28 1/2" surface height as there is not enough room to support the structural beams needed at the bottom and top of the case.

Convey Tall Storage Cabinets

Storage cabinets are available as floor extended only.

▶ Specifying, page 128

Storage cabinets include shelves and can be specified with or without a hinged door.

Storage cabinets default with one centered, fixed shelf. Additional adjustable shelves are dependent on the height of the cabinet.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

▶ See page 168 for rails.

Blocking/banding may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

▶ See page 144 for cover panels.

Base trim must be added to storage cabinets prior to application of cove molding. Cove molding is required and is to be supplied by others. Base trim is always black. Base trim must be ordered separately.

▶ See page 172 for base trim.

Open storage cabinets exposed interiors are finished with the specified High-Pressure Laminate. Interiors of closed storage cabinets are finished in 2730 Arctic White High-Pressure Laminate.

▶ See page 152 for vertical fascia.

The tops of the storage cabinet are finished.

Top conditions can be specified separate from the storage cabinets, including sloped fascia, vertical fascia, flat top-cap cover panels, or ceiling fillers.

▶ See pages 148–152 for top conditions.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

Tall storage cabinets flex parametrically in 1" increments for width, depth, and height.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets. They can be specified in white or merle, when open. They are white only when closed.

Storage cabinets require an upper rail only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.
▶ See page 172 for hinge angle limiter.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left.

Storage cabinets default to one centered, fixed shelf. Additional adjustable shelves are dependent on the height of the cabinet. Cabinets less than 60"H receive two adjustable shelves. Cabinets 60"H or greater, but less than 72"H, receive three adjustable shelves. Cabinets 72"H or greater receive four adjustable shelves.

Tip: There is a forced shelf count within storage cabinets. Extra adjustable shelves must be ordered separately.
▶ See page 168 for accessories.

Seismic clips are available for adjustable shelves. Clips lock the shelf and prevent movement front to back and up and down.

Storage cabinet heights, widths, and depths can adjust parametrically in 1" increments.

Woodgrain laminate matches on all doors fronts and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional door pull options are available.

- Optional pulls include:
- Contemporary
 - Jazz
 - No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately.
▶ *Lock and Keying*, page 398

When manual locks are specified, a lock plug will default in all doors and drawers of the individual cabinet.

Electronic locks are optional and field installed. Lock receivers can be installed on drawers and doors and are wirelessly controlled by a transmitter.
Tip: Transmitters are ordered separately.
▶ See page 174 for electronic locks.

When electronic locks are specified, all doors will default to locking on the individual cabinet.

Connections

Cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.

▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

Cabinets should be ganged together with screws provided.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com

Surface Materials

Cabinet, door front, and shelf

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Floor-extended glides are not installed on the cabinets prior to shipping. Holes are pre-drilled. These items must be field-installed.

Application Topics

Sloped fascia, vertical fascia, or flat top-cap cover panels

can be specified as a top condition on the storage cabinet.

▶ See pages 148–152 for top conditions.

Storage cabinets specified with a sloped fascia top condition, and installed next to an upper cabinet of a different depth, will result in a step down. Doors will align between upper cabinet and tall storage cabinets. Cover panels will be required in between the storage cabinet and upper cabinet.

▶ See pages 148–152 for top conditions.

Base trim must be added to storage cabinets prior to application of cove molding. Base trim is always black. Base trim must be ordered separately.

▶ See page 172 for base trim.

Cove molding must be field installed on base trim to complete an installation and is supplied locally. The base trim on the cabinet is inset. See the *Convey Technical Cut Sheet*, available at village.steelcase.com.

Fillers close the gap between the side of a cabinet and a structural wall. Ceiling fillers can also be specified to fill the gap between the top of a tall storage cabinet and a structural ceiling.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.

▶ See page 144 for cover panels.

Convey Upper Storage Cabinets

Upper storage cabinets

address storage needs above a worksurface.
 ▶ Specifying, page 132

Tops of upper cabinets are finished.

Seismic clips are available for adjustable shelves. These clips lock the shelf and prevent movement front to back and up and down.

Adjustable shelf is standard inside cabinets with doors. Shelves adjust in 32 mm increments. Additional shelves are available and must be ordered separately.
 ▶ See page 168 for accessories.

Cabinets can be specified with or without glove cutouts and holders, creating an organized solution for gloves. Width determines the quantity of glovebox supplies.

A no-bottom cabinet can be specified for easy access to suspended supplies.

Over-the-sink, no-bottom cabinet can be specified to conceal worktools behind the cabinet door, while maintaining easy access to supplies. The cabinet's shallower depth accommodates for proper head clearance when over a sink.

Blocking/banding may not be required in architectural walls behind the rail depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

All edges are finished from the factory with matching plastic edge banding.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.
 ▶ See page 144 for cover panels.

Top conditions can be specified separate from the storage cabinets, including sloped fascia, vertical fascia, flat top-cap cover panels, or ceiling fillers.
 ▶ See pages 148–152 for top conditions.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.

▶ See page 172 for hinge angle limiter.

Cabinets 24"W or less have a single door. Cabinets 25"W or wider default to two doors.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left. This is beneficial when locking the cabinet as only the right door needs the locking mechanism. The sequential latch can be removed in the field.

All door cabinets include one adjustable shelf.

Cabinets can be specified with glove cutouts, with glove holders, or with both cutouts and holders.

Over-the-sink, no-bottom cabinet includes one adjustable shelf that defaults to a seismic clip. No additional adjustable shelves can be added.

Glovebox cutouts are driven by the width of the cabinet doors. Cabinets less than 15"W do not offer glovebox cutouts. Cabinets 15"W–19"W will have two glovebox cutouts. Cabinets greater than 19"W and less than or equal to 24"W will have three glovebox cutouts. Cabinets greater than 24"W and less than 30"W do not offer glovebox cutouts due to each door being less than 15"W. Cabinets 30"W or greater will have four glovebox cutouts, split between the doors, i.e. two glovebox cutouts in each door.

Glovebox cutouts are only available with vertical orientation.

Grommets are fitted within the cutouts and are always merle.

Glovebox holders should not be specified in no bottom cabinets. There is not enough room to suspend paper towel holders or soap dispensers behind glove box holders.

▶ See *Convey Section Views* for exact clearances, available at village.steelcase.com.

Glove box holders can accommodate a glove box up to 3 1/2"D and 5 1/4"W.

Upper storage cabinets height, width, and depth can adjust parametrically in 1" increments.

Woodgrain laminate matches on all doors and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Hidden pull

Additional door pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- Hidden pull
- No pull

Tip: Cabinets with no pull option selected come with no door pulls or drill holes.

Cabinets include one adjustable shelf. Shelves are adjustable and removable. Additional adjustable shelves can be ordered separately.

▶ See page 168 for accessories.

Seismic clips are available for adjustable shelves. Clips lock the shelf and prevent movement front to back and up and down.

Cabinet doors extend 2 1/2" below the bottom of case. This provides a space for a light valance and allows for a continuous task light in between adjacent cases.

No-bottom cabinet doors match the case.

Light valances can be ordered when using task lighting to conceal the cables.

▶ See page 173 for accessories.

Light valances cannot be installed on a no-bottom cabinet.

To enclose ends, a cover panel or light valance should be added.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately.

When manual locks are specified, a lock plug will default in all doors of the individual cabinet.

Electronic locks are optional and field installed. Lock receivers can be installed on drawers and doors and are wirelessly controlled by a transmitter. *Tip: Transmitters are ordered separately.*
▶ See page 174 for electronic locks.

When electronic locks are specified, all doors will default to locking on the individual cabinet.

Connections

Upper storage cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.
▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Application Topics

Sloped fascia, vertical fascia, or flat top-cap cover panels can be specified as a top condition on the upper cabinets.

▶ See pages 148–152 for top conditions.

Upper cabinets specified with a sloped fascia top condition and installed next to a wardrobe or tall storage cabinet of a different depth will result in a step down. Doors will align between upper cabinet and wardrobe or tall storage. Cover panels will be required in between the wardrobe or tall storage cabinet and upper cabinet.

▶ See pages 148–152 for top conditions.

Fillers close the gap between the side of a cabinet and a structural wall. Ceiling fillers close the gap between upper cabinets and the ceiling.
▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.
▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.
▶ See page 178 for V.I.A. spacer.

Convey Upper Microwave Cabinets

Upper microwave cabinets include an extended lower shelf, which is designed to adequately store microwaves, or other equipment, while adding additional cabinet storage above.

▶ Specifying, page 136

Tops of upper cabinets are finished.

Notches must be covered by cover panels or a notch filler for end-of-run conditions.

▶ See page 144 for cover panels.

Interior of open and closed storage is finished with the specified High-Pressure Laminate.

Blocking/banding may not be required in architectural walls behind the rail depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.

▶ See page 168 for rails.

All edges are finished from the factory with matching plastic edge banding.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.
▶ See page 172 for hinge angle limiter.

The microwave shelf is always 20"D, regardless of the depth of the upper door cabinet.

Upper cabinets always include double doors and open from the center out.

Double doors include a sequential latch. The right door must be opened prior to the left.

Microwave cabinets height, width, and depth can adjust parametrically in 1" increments.

Woodgrain laminate matches on all doors and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Additional door pull options are available. Optional pulls include:

- Contemporary
- Jazz
- No pull

Tip: Cabinets with no pull option selected come with no door pulls or drill holes.

Application Topics

Sloped fascia, vertical fascia, or flat top-cap cover panels can be specified as a top condition on the microwave cabinet.
▶ See pages 148–152 for top conditions.

For internal microwave storage clearances see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Microwave upper cabinets, specified with a sloped fascia top condition and installed next to a wardrobe or tall storage cabinet of a different depth, will result in a step down. Doors will align between microwave cabinet and wardrobe or tall storage. Cover panels will be required in between the wardrobe or tall storage cabinet and upper microwave cabinet.
▶ See pages 148–152 for top conditions.

Fillers close the gap between the side of a cabinet and a structural wall. Ceiling fillers close the gap between upper microwave cabinets and the ceiling.
▶ See page 166 for fillers.

Notch fillers or cover panels must be used to conceal the bracket-to-rail connection at the end of a run. Cover panels attach to the side of casework and add a 1/2" to the overall planning width.
▶ See page 144 for cover panels.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.
▶ See page 178 for V.I.A. spacer.

Surface Materials

Cabinet, door front, and shelf

- High-Pressure Laminate

Edges

- Matching plastic

D pulls, contemporary, and jazz pulls

- 0835 Black
- 9201 Polished Chrome
- 9211 Nickel
- 9212 Silver

Bracket covers

- 6009 Arctic White

Euro hinges

- Nickel

Shipping

All cabinets ship fully assembled.

Handles will be shipped on the cabinets, but facing the interior to prevent damage.

Connections

Upper microwave cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.

▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

Cabinets should be ganged together with screws provided.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Electrical Clearance Zones

Tip: See all Convey sections by visiting <https://www.steelcase.com/resources/documents/convey-sections/>

Convey Upper Corner Cabinets

Tops of upper corner cabinets are finished.

Cabinet interiors are finished with 2730 Arctic White High-Pressure Laminate.

Cabinets mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cabinet. Rail must be ordered separately from the cabinet.
▶ See page 168 for rails.

Blocking/banding may not be required in architectural walls behind the rail depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

D pulls are standard on doors in a nickel finish. Additional finishes and pull options are available.

All edges are finished from the factory with matching plastic edge banding.

Product Details

Cabinets have a wet glue and dowel, case clamp construction.

All surfaces, including cabinet interiors, are finished with High-Pressure Laminate.

Edges on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Bracket covers are included with cabinets and come in white only.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Soft close door hinges are standard.

Hinge angle limiter is available for door units and limits the angle to 87°. This is recommended when near adjacent walls or in corner applications.

▶ See page 172 for hinge angle limiter.

Cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Upper corner cabinets are only available in modular widths and depths. Upper corner cabinet's height can adjust parametrically in 1" increments.

Woodgrain laminate matches on all doors and is always applied vertically.

D pulls are standard.

Contemporary Jazz

Hidden pull

Additional door pull options are available.

- Optional pulls include:
- Contemporary
 - Jazz
 - Hidden pull
 - No pull

Tip: Cabinets with no pull option selected come with no drawer pulls or drill holes.

Corner cabinets 30"H include one fixed shelf. Cabinets less than 30"H do not include a shelf.

Light valances can be ordered when using task lighting to conceal the cables.

▶ See page 172 for accessories.

Field modification is required when using a light valance on a corner cabinet to properly align with adjacent light valances and cover panels.

Connections

Upper corner cabinets attach to a rail system utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cabinet.
▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Application Topics

Vertical fascia can be specified as a top condition on the corner cabinet.

▶ See pages 148–152 for top conditions.

Fillers close the gap between the side of a cabinet and a structural wall. Ceiling fillers close the gap between upper cabinets and the ceiling.

▶ See page 166 for fillers.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam.
▶ See page 178 for V.I.A. spacer.

Convey Mobile Storage Cart

Carts are available in a range of sizes and configurations to provide a flexible storage solution that fits within a Convey setting. Carts can also provide storage and workspace on their own.

Carts have High-Pressure Laminate on both the exterior and interior surfaces. Cart interior is standard in 2730 Arctic White laminate for increased visibility when cleaning.

Tops can be seamless thermoform with a raised lip or solid surface.

Base is a durable thermoform bumper.

Casters are 65 mm low-profile or 4" high mobility.

Drawer dividers are available to help organize cart contents. Dividers are available in 4" and 6" heights.

Front-locking casters are standard.

Locks are available in both keyed and keyless options.

Pulls are available in different profiles and finishes, including a no pull option.

Various drawer configurations are available to best serve storage needs.

Drawers are wood core, wet glue and dowel construction, with full-extension heavy-duty slides.

Drawer fronts are High-Pressure Laminate with 3 mm edge band for increased durability in a high-touch-point space.

Actual Dimensions

Depth	19 ¹ / ₂ "
Overall Width	19 ¹ / ₂ ", 22 ¹ / ₂ ", and 25 ¹ / ₂ "
Height	30.144", 32.549", 34.144", 36.549", 38.144", and 40.549"

Product Details

Case is a wet glue and dowel case clamp construction.

Edges of cabinet cases are complimenting 1 mm edge band. Contrasting edge band is not offered.

Edges of drawer fronts are complimenting 3 mm edge band for increased durability in a high touch point space. Contrasting edge band is not offered.

Cart outer base protects walls by interacting with walls before the case.

Drawer configuration options are driven by the cart height.

- 40.549"H and 38.144"H carts allow any drawer configuration that adds up to 30".
- 36.549"H and 34.144"H carts allow any drawer configuration that adds up to 26".
- 32.549"H and 30.144"H carts allow drawer configuration that adds up to 22".

Grain direction matches vertically on all drawer sets in cart.

Drawers include heavy-duty, full-extension drawer slides.

Carts are available with a thermoform or solid surface top.

Thermoform tops have a raised lip on the perimeter to help trap liquid and supplies.

Thermoform and solid surface tops overhang with "finger pull" underneath for easy maneuvering when in tight spaces or under countertops.

D pulls are standard.

Contemporary Jazz

Additional drawer pull options are available,

- Contemporary
- Jazz
- No pull

Tip: Carts with no pull option selected come with no drawer pulls or drill holes.

Drop-in drawer dividers with moveable interiors

can be specified for all drawers. Lower height dividers fit the 4"H drawers. The taller dividers should be used in both the 6"H and 8"H drawers. Due to precise fit within the drawers, the larger dividers require the drawer to be disengaged from the slide assembly and slid forward about 1" (not removed) for the dividers to drop into the drawer as an assembly.

Drawer divider label holders are also available to order.

Locks are optional and only available with master keying. Locks are field installed and must be specified separately.
▶ See *Lock and Keying*, page 398.

Accessory rails can be added to the cart sides and back for storage of supplies and tools. Accessory rails are a Paladin profile.

Accessories can be ordered through medical device manufacturers to pair up with the rail. Rail and rail accessories will add to the total width of the unit, particularly important when placing cart within a garage application.
Tip: Rails on the back add to the depth of the cart.

Connections

Carts are designed to be standalone or integrated within a Convey application.

Carts are freestanding and do not need to be ganged to other furniture or bolted to the floor.

25 ¹ / ₂ "W Drawer	13.639"	19.768"	6.385"	6.385"

Convey Cover Panels

Cover panels create a finished end and can be removed, allowing cabinetry to be rearranged.

▶ See page 144

Cover panels attach directly to the side of casework.

Cover panels may or may not be required, based on the application. Refer to SmartTools.

Cover panels are an additive piece that increase the overall width of a layout by $\frac{9}{16}$ " per panel.

Finish options for the panels are chosen independent of the casework and can be an opportunity to create a framed-in look.

Product Details

Cover panels are High-Pressure Laminate and 1 mm edge banding.

Cover panels are $\frac{9}{16}$ " thick.

Cover panels include a cut-to-fit option in SmartTools, which will add an extra inch to the cover panel depth. This creates the ability to scribe the panel onsite for a premium fit and finish in an imperfect built-in environment. This option is typically not required.

Wood grain on cover panels is always vertical.

Cover panel height and depth flex parametrically to match adjacent cabinets. See SmartTools.

Top conditions must be chosen when specifying a cover panel. No top extension for cabinets is available, as all cabinets have a finished top.

When choosing vertical fascia, a 24" or 30" addition will be added to the cover panels.

▶ See pages 148–152 for top conditions.

Cover panels include guide locations for attaching to the cabinet.

Depending on the application chosen, cover panels will either include no cutouts, one top cutout, one bottom cutout, or two cutouts (top and bottom). The cutout provides a space for the continuous rail when in the middle of a run of cabinetry. Refer to SmartTools.

When cover panels are not required, a notch filler could be utilized to cover the notch created by the bracket-to-rail connection.

Notch fillers come in a pack of ten.

Surface Materials

- Cover panels**
 - High-Pressure Laminate
- Cover panel edges**
 - Matching plastic

- Notch filler**
 - 6009 Arctic White
 - 6527 Merle

Application Topics

When specifying a sloped fascia or a vertical fascia, a cavity is created and must be enclosed with a cover panel.

Cover panels will align with the fronts of doors and drawers.

Cabinet tops are finished to create a flat top. A flat top-cap cover panel can be utilized, along with side cover panels, if desired.

▶ See page 86 for more information on top conditions.

Convey Top Conditions

Flat Top-Cap Cover Panels, Sloped Fascia, and Vertical Fascia

Flat top-cap cover panels can be added to create a framed in look when paired with side cover panels.

► Specifying, page 148

Sloped fascia is the best practice for infection control, due to the ease of cleanability.

► Specifying, page 150

Sloped fascia is always a 20° slope.

Vertical fascia adds a continuous finished look to the ceiling.

► Specifying, page 152

Ceiling fillers can be utilized to fill the space between a cabinet and a structural ceiling.

► See page 166 for fillers.

Product Details

Sloped fascia adds a 20° slope to the top of upper cabinets, wardrobes, and tall storage cabinets.

Vertical fascia can be ordered in 24" or 30" heights and scribed to fit in the field.

Cover panels must be utilized to enclose the cavity created by the sloped and vertical fascia.

▶ See page 144 for cover panels.

Sloped fascia and vertical fascia come in widths up to 96", creating a continuous run across multiple cabinets, without seams.

Sloped fascia and vertical fascia can be specified with a horizontal or vertical grain direction. Widths greater than 48" are only available in horizontal grain.

For appropriate fit and finish a 1/16" gap is created between adjacent cabinets. For example: Two 24"W side-by-side cabinets will actually be 48 1/16"W.

This will cause the sloped or vertical fascia to exceed the 48"W maximum for vertical grain so the grain must be horizontal.

Vertical grain in the fascias will not match the vertical grain in the cabinets it is mounted on.

Vertical grain is allowed up to 48" wide.

Sloped fascia trim is utilized to attach sloped fascia to the wall.

Vertical fascia trim is utilized to attach vertical fascia to the ceiling.

Sloped and vertical fascia width flexes in 1/16" increments.

Vertical fascia can be ordered in 24" or 30" heights and scribed to fit in the field.

Cabinetry is finished on all sides. A flat top-cap cover panel can be utilized, along with side cover panels, to create a framed aesthetic.

Ceiling clips must be specified with vertical fascia. Identify the type of ceiling grid the clips will be used on. ▶ See pages 88 and 89 for examples.

Surface Materials

Sloped fascia and vertical fascia

- High-Pressure Laminate. Select Surfaces (Laminate price group B) are only available with a vertical grain.

Sloped fascia trim and vertical fascia trim

- 4140 Arctic White Gloss
- 4799 Platinum Metallic
- 7360 Merle

Application Topics

Upper cabinets specified with a sloped fascia top condition and installed next to a wardrobe or tall storage cabinet of a different depth will result in a step down. Doors will align between upper cabinet and wardrobe or tall storage. Cover panels will be required in between the wardrobe or tall storage cabinet and upper cabinet.

Ceiling Clip Application

Tip: All planning and application guidelines contained in this section of the specification guide are based on the requirement that ceiling track is connected to a ceiling in order to properly install and align the wall components as shown. When any partition is fastened to a suspended ceiling grid, it may be necessary for an architect or engineer to verify that the grid can adequately support the partition. Local codes may require additional bracing.

T Grid Ceiling Fastener Kits

Bolt Slot Grids Ceiling Fastener Kits

Ceiling clips support the most common types of ceiling systems.

Concealed Grids - Field-Purchased Generic Fasteners

For these and other types of ceilings, the following fasteners can be sourced locally by the installer:

Concealed spline	#7 – 17 x 1 5/8" Bugle Head Self-Drilling Screws
Drywall	#14 – 1" Phillips Head SMS with plastic anchor
Plaster	1/4 – 20 Toggle Bolt
Concrete	Tapcon Anchor x 2"
Metal Pan	#7 – 17 x 1" Bugle Head Self-Drilling Screws

Convey Worksurfaces

Solid surface worksurfaces attach to the top of base cabinets and can be specified with or without an integral sink.

► Specifying, pages 154-158

Solid surface worksurfaces have the option to include an integral backsplash.

All solid surface worksurfaces are Corian.

Solid surface worksurfaces have a thickness of 1½".

Solid surface worksurfaces include a ½" overhang on the side and 1" overhang on the front, with a built-in drip edge.

Ten integral sink bowl options are available for solid surface worksurfaces.

► See page 154 for sink bowl options.

No corresponding sinks are included with the High-Pressure Laminate worksurfaces. If a sink is desired, it must be field cut.

Moisture resistant core (MR10) is available as an option for the High-Pressure Laminate worksurface, backsplash, and sidesplash. MR10 is recommended for areas where liquids may be present.

Tip: MR10 core is not available when specifying Formica finishes.

High-Pressure Laminate worksurfaces include a ½" overhang on the side and a 1" overhang on the front. High-Pressure Laminate worksurfaces do not have a drip edge.

4"H solid surface sidesplash is available in multiple depths and is specified separately.

► See page 168 for accessories.

4"H High-Pressure Laminate backsplash is available. High-Pressure Laminate edges have 1 mm edgebanding.

4"H High-Pressure Laminate sidesplash is available in multiple depths and is specified separately. High-Pressure Laminate sidesplash edges have 1 mm edgebanding.

High-Pressure Laminate worksurfaces attach to the top of base cabinets.

Front edge has a 3 mm edgeband. Back of worksurface and sides of worksurface have 1 mm edgeband.

High-Pressure Laminate worksurfaces have a thickness of 17/16".

Product Details

Worksurfaces can attach to the top of one base cabinet or can span entire length of run of cabinets, up to 138"W for solid surface worksurfaces and up to 120"W for High-Pressure Laminate worksurfaces.

Solid surface worksurfaces have a thickness of 1½". 1" is particle board substrate covered by ½" of solid surface.

High-Pressure Laminate worksurfaces have a thickness of 17/16".

Solid surface worksurfaces include ½" overhang on the side and 1" overhang on the front, with a built-in drip edge.

High-Pressure Laminate worksurfaces include ½" overhang on the side and 1" overhang on the front, with no drip edge.

High-Pressure Laminate worksurfaces have 3 mm edge banding on front edge.

Solid surface worksurfaces can be specified with or without an integral sink.

MR10 core is standard on all solid surface worksurfaces.

MR10 core is available on High-Pressure Laminate worksurfaces, backsplashes, and sidesplashes. MR10 is recommended for areas where liquids may be present.
Tip: MR10 core is not available when specifying Formica finishes.

Integral sink bowls can be added to solid surface worksurfaces a minimum of 30"W and up to 138"W.

▶ See page 30 for *Sink Bowl Overview*.

Ten sink bowl options are available for solid surface worksurfaces. All sink bowls are white. No corresponding sinks are included with the High-Pressure Laminate worksurfaces. If a sink is desired, it must be field cut.

Most sink drains are 1¾" in diameter. The drain on the 5414 sink is 2". Drain hardware is provided by responsible trades.

Some sink bowls offer offset drains. For sink bowl details see page 30.

Faucets must be sourced locally and faucet holes must be field drilled by responsible trades.

Backsplash is available on High-Pressure Laminate worksurfaces and is ¾" thick.

Integral backsplashes are available on solid surface worksurfaces. Solid surface integral backsplashes are ½" thick.

Sidesplash is available for solid surface and High-Pressure Laminate worksurfaces.

Sidesplash is available in multiple depths and must be ordered separately. Solid surface sidesplash is available left or right handed. High-Pressure Laminate sidesplashes and backsplashes have 1 mm edgebanding.

High-Pressure Laminate backsplashes and sidesplashes have horizontal laminate grain direction.

Sidesplash depth is determined by the adjacencies, (i.e. a wardrobe cabinet, etc).

Sidesplash must be adhered to adjacent cabinet or wall and sealed to the worksurface by responsible trades.

Sidesplashes are recommended near wet zones.

Floating worksurfaces can be achieved using cantilevers.
▶ See page 161 for cantilevers.

Unique worksurface configurations, shapes, or cutouts should be sourced locally.

Worksurfaces and sidesplash depths flex parametrically in 1" increments. Widths flex parametrically in ⅛" increments.

For more details on sink fit, see page 30.

Connections

Some cabinets include brackets that are used to attach the worksurface to the base cabinets in the field and are included with the cabinets. Others involve attachment directly to stretchers.

Surface Materials

Worksurface, back-splash, and sidesplash

- Solid surface
- High-Pressure Laminate

Sink bowls

- White Frost
- Glacier White

Tip: Glacier White only applies to sink bowls 815 and 816.

Edge on High-Pressure Laminate worksurface and sidesplash

- Plastic

Application Topics

Worksurfaces always include 1" overhang on the front and ½" overhang on the sides. Refer to SmartTools.

Convey Cantilevers

Cantilevers can be used to suspend a worksurface. ▶ See page 161

Cantilevers must be located every 48" on center, or less.

Cantilevers can be specified as right, left, or intermediate. This determines whether the cantilever is at the end of a run or located in the middle, allowing the rail to pass through.

Cantilevers mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every cantilever. Rail must be ordered separately from the cabinet. ▶ See page 168 for rails.

Cantilevers are designed for worksurfaces no deeper than 25"D.

Blocking/banding is required at the top and bottom of cantilevers. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades. ▶ See page 16 for *Designing with Casework*.

Product Details

Exposed rail under the worksurface can be concealed using a rail cover. ▶ See page 168 for accessories.

Cantilevers include a cantilever bracket cover. A package of one merle and one white cover will be included.

Cantilever depths flex parametrically in 1" increments.

Connections

Cantilevers attach to a rail system, utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the cantilever. ▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Surface Materials

Cantilevers

- High-Pressure Laminate

Bracket covers

- 6009 Arctic White
- 6527 Merle

Application Topics

Worksurfaces will span the entire length of run up to 138"W. Hardware packages for attachment are included with the cantilevers. ▶ See page 154 for worksurfaces.

Cantilevers cannot stand alone. They must have another cabinet, cantilever, or end panel to support the worksurface.

V.I.A. will accept Convey wall-suspended cabinets and upper cabinets. Convey follows all V.I.A. application rules for hang on components. See the *V.I.A. Specification Guide* for more details.

Maximum plan width for V.I.A. vertical posts with Convey is 48"W. Skins may be specified longer than 48"W and span these vertical components.

The Convey rail can span multiple 48"W lengths.

Reinforcing structural beams (FEBSTR) are required at rail locations inside the V.I.A. frame. An additional structural beam is required at the bottom to distribute the load evenly.

Convey rails attach to the structural beam by screwing through the skins. The V.I.A. spacer is required to fill the gap between the skin and the beam. Spacers are not visible once the skin is in place. Spacers span the width of the structural beam. ▶ See page 178 for V.I.A. spacer.

End panels can be used to create a garage for carts or equipment or as a desk space.

▶ Specifying, page 162

End panels can be specified as left hand or right hand. This determines which side of the end panel will be finished, and which will be notched for the rail location.

End panels mount and align along a continuous rail system. The bracket-to-rail attachment allows for micro-adjustability. Brackets and bracket covers are included with every end panel. Rail must be ordered separately from the cabinet. ▶ See page 168 for rails.

Blocking/banding may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Product Details

End panels are available in modular heights. End panel depths flex parametrically in 1" increments.

Exposed rail under the worksurface can be concealed using a rail cover. ▶ See page 168 for accessories.

End panels include a bracket cover. A package of one white and one merle cover will be included.

Connections

End panels attach to a rail system, utilizing a bracket connection. The rail aids in alignment to adjacent cabinets. The rail must be ordered separate from the end panel. ▶ See page 168 for rails.

Integrated rail attachment bracket's micro-adjustability accounts for architectural wall variances to deliver refined alignment.

For minimum wall construction and electrical clearances, see *Convey Technical Cut Sheet*, available at village.steelcase.com.

Surface Materials

End panels

- High-Pressure Laminate

Bracket covers

- 6009 Arctic White
- 6527 Merle

Application Topics

Worksurfaces will span the entire length of run, up to 138"W. Hardware packages for attachment are included with the cantilevers. ▶ See page 154 for worksurfaces.

End panels cannot stand alone. They must have another cabinet, cantilever, or end panel to support the worksurface.

Convey Mounting Boards

Mounting boards provide a location for mounting clinician worktools. They eliminate the need to continually drill into the drywall.

▶ See page 164

If height is greater than 48", width must be less than or equal to 48" and vice versa.

If the width and height are 12"–48", horizontal or vertical grain can be specified. If the width is greater than 48"W, only horizontal grain can be specified. If height is greater than 48"H, only vertical grain can be specified.

Mounting board height and width flex parametrically in 1/8" increments.

Mounting boards include brackets for attachment. These allow for removal.

Brackets mount into channel on back of mounting board. This allows for flexible placement.

Mounting boards have a slight gap between the board and the wall. This is created by the attachment brackets and provides access to remove the board at a later date.

Surface Materials

Mounting board

- High-Pressure Laminate. Select Surfaces (Laminate price group B) are only available with a vertical grain.

Fillers are available for use with base cabinets, wardrobe cabinets, tall storage cabinets, and upper storage cabinets.

► Specifying, page 166

Fillers close the gap between a cabinet and a structural wall or structural ceiling. Field cutting a filler may be required to achieve architectural fit.

Product Details

Wall fillers enclose the space between a cabinet and a wall on the front, top, and bottom.

Wall and ceiling fillers come in 3" widths. Plan for 1 1/2"-2" for the filler to be scribed on site.

Upper cabinets and wall-suspended base cabinets utilize the side corner filler to enclose the space made where the corner meets. This includes the reveal, the top, and bottom of the run.

Floor-extended base cabinets can utilize the floor-extended corner filler to enclose the gap where the corners meet.

Upper cabinets, wardrobe cabinets, and tall storage cabinets utilize the ceiling filler to enclose the gap between the cabinets and the ceiling or bulkhead.

Ceiling fillers come in 8 foot lengths and are cut to fit on site.

Wall-suspended base cabinets and upper cabinets can utilize the wall fillers to enclose the gap between a cabinet and a wall on the front, top, and bottom.

Filler depth and height flex parametrically in 1" increments.

Surface Materials

- High-Pressure Laminate

Convey Accessories

Rail

► Specifying, page 168

Product Details

Rails are required to mount all casework components onto architectural walls.

Rails come in 8' sections and are cut to fit in the field.

Rails drive precise alignment and fit through a common connection point.

Rails are exposed on end-of-run conditions and require a notch filler or cover panel.

Blocking/banding is required for wall-suspended cabinets. Blocking/banding for floor-extended cabinets may not be required in architectural walls behind the rail, depending on the application. Check local and state codes for blocking/banding requirements (i.e. seismic zones). Placement of blocking/banding is to be coordinated with the responsible trades.

Surface Materials

Rail

- Clear anodized aluminum

Rail Cover

► Specifying, page 168

Product Details

In any application where the rail is exposed, a rail cover is recommended. Examples of this would include the garage without doors and a worksurface with cantilever applications.

Rail cover comes in 8' sections and is cut to fit in the field.

Surface Materials

Rail cover

- 6527 Merle

Adjustable Shelf

► Specifying, page 170

Product Details

Adjustable shelves can be added to upper storage cabinets, base storage cabinets, and tall storage cabinets.

Shelves adjust in 32 mm increments.

Seismic clips are available for adjustable shelves. Clips lock the shelf and prevent movement front to back, and up and down.

Adjustable shelves flex parametrically in relation to the cabinets in which they are installed.

Surface Materials

Shelf

- High-Pressure Laminate

Edge

- 1 mm plastic matching edge band

Notch Filler

► Specifying, page 172

Product Details

When cover panels are not required, a notch filler could be utilized to cover the notch created by the bracket-to-rail connection.

Notch fillers come in a package of 10.

Surface Materials

Notch filler

- 6009 Arctic White
- 6527 Merle

Hinge Angle Limiter

► Specifying, page 172

Product Details

Hinge angle limiter is available for door units and limits the angle to 87°.

Hinge angle limiter comes in a package of 25.

Hinge angle limiter quantity required based on cabinet:

- All upper cabinets and base cabinets require two **HCMHAL** per door. Example: a double-door upper cabinet requires four hinge angle limiters.
- Tall storage cabinets, floor-extended, and wall-suspended wardrobe cabinets require four **HCMHAL** per door.

Surface Materials

Hinge angle limiter

- Nickel

Base Trim

► Specifying, page 172

Product Details

Base trim is required on all floor-extended cabinets and provides a location for cove molding to adhere to. Cove molding must be field installed on base trim to complete an installation and is supplied locally.

Base trim is always black.

Base trim is provided in 8' lengths and is cut to fit in the field.

Base trim contains moisture-resistant properties.

Base trim includes three clips to attach to the face of the floor extended cabinet glides; this is two for the fronts and one extra. If the cabinet does not have any adjacencies, an additional clip will be required. See Service Parts to order.

Surface Materials

Base trim

- 2746 Black High-Pressure Laminate

Edge

- 1 mm plastic matching edge band

Light Valance

► Specifying, page 173

Product Details

Light valances can be added to upper storage cabinets to conceal task lights and electrical components mounted underneath.

Brackets are included to attach underneath cabinets.

Cabinets are designed to allow a continuous run of light valance and customer supplied task lighting.

Surface Materials

Light valance

- High-Pressure Laminate

Edge

- 1 mm plastic matching edge band

Application Tips

Steelcase offers LED Lights that work well with Convey upper cabinetry.

LED Shelf Lights

All LED shelf lights are 18"W x 2 1/2"D x 1/2"H
 LSL18* - Standalone light (includes 18"W power supply)
 LSL18YA* - Daisy chain starter light (includes 60"W power supply only)
 LSL18YB* - Daisy chain secondary light (includes daisy chain cords only)
 *Optional fastener kit for use with wood shelf needs to be chosen when specified

LED Linear Shelf Lights

LED linear shelf lights come standard with both magnet mount and wood mounting attachment.
 LLL17 - 17"W Standalone light (includes 18"W power supply)
 LLL17YA - 17"W Daisy chain starter light (includes 60"W power supply only)
 LLL17YB - 17"W Daisy chain secondary light (includes daisy chain cords only)
 LLL31 - 31"W Standalone or daisy chain starter light (includes 60"W power supply only)
 LLL31YB - 31"W Daisy chain secondary light (includes daisy chain cords only)
 LL44 - 44"W - Standalone or daisy chain starter light (includes 60"W power supply only)
 LLL44YB - 44"W Daisy chain secondary light (includes daisy chain cords only)
 LLL58 - 58"W Standalone or daisy chain starter light (includes 60"W power supply only)
 LLL58YB - 58"W Daisy chain secondary light (includes daisy chain cords only)

Wall Trim

► Specifying, page 174

Product Details

Wall trim can be used to conceal the bracket-to-rail connection at the end of a run.

Wall trim comes in 10' lengths.

Wall trim ships with an adhesive strip that must be applied during installation.

Surface Materials

Wall trim

- Plastic

Electronic Locks

► Specifying, page 174

Product Details

Electronic locks are available and are field installed to secure the door and drawers of a cabinet. Components include a transmitter, receiver, and an optional bezel. One transmitter pad can operate single or multiple receiver latches.

When electronic locks are chosen, all drawers and doors will include a receiver.

Receivers are installed within cabinet drawers and doors.

Receivers are not visible from the exterior of the cabinet.

Wireless receiver

latches can be installed in doors and drawers and are activated by a transmitter (keypad) located within 15' of the cabinets. Receivers can be set to a non-self-locking mode, self-locking mode, or single use mode.

- Non-self-locking mode allows the cabinet to be used by a single code. This requires a code and unlock button to open and a code and lock button to re-engage the lock.
- Self-locking mode automatically re-locks the receiver latch after a programmed amount of time between 2-60 seconds.
- Single use mode allows for a revolving user code, so the lock may be used by multiple people without having to reprogram the receiver latch each time.

Receiver latches

utilize four AAA batteries (included), and the transmitter utilizes a CR2032 coin battery (included).

Lock receivers are not visible on the exterior of the cabinets.

One transmitter pad

can activate an unlimited number of receiver latches.

Receivers can accept one supervisor and one user code. For programming information, please visit www.stealthlock.com.

The transmitter pad operates within a 15' range. Keypads are user programmable with optional modes of operations for single-use or self-lock.

The bezel is optional to frame in and secure the transmitter to a mounting location. The bezel is offered in black only.

► See the *Installation and Programming Instructions* at village.steelcase.com/convey.

Convey Printer Cabinets

► Need help?
Product details,
page 48

Standard Includes

- Printer cabinet: High-Pressure Laminate
- D pull and euro hinges: nickel
- Bracket cover: plastic
- Edges: matching 3 mm plastic drawers and matching 1 mm plastic on all other edges
- Four adjustable glides for floor-extended printer cabinet, if selected
- Printer pullout shelf

Required to Specify

- 1 Style number
 - 2 Cabinet depth (see below under Required Selections)
 - 3 Cabinet height (see below under Required Selections)
 - 4 Cabinet width (see below under Required Selections)
 - 5 Laminate color number for printer cabinet
 - 6 Plastic color number for bracket cover:
6009 Arctic White
6527 Merle
 - 7 Drawer configuration (see below under Required Selections)
 - 8 Options, if selected (see below)
- See *Surface Materials*, page 376.

Tip: The increment for parametric depth and width is 1".

Tip: Refer to page 37 for planning heights.

Tip: Drawer configuration defaults to two side-by-side on cabinets 25"W or wider. Cabinets 24"W or less will have one small drawer.

*Tip: For finish codes and more information on laminate price group B, see *Surface Materials*.*

► See page 376

	Required Selections	U.S. Price	Required to Specify
Cabinet Depth	Parametric depth		
	• Wall-suspended printer cabinets – 16"D–24"D	Prices at right	Specify with 16"D–24"D.

Convey Garage Cabinets

► Need help?
Product details,
page 54

Standard Includes

- Base cabinet: High-Pressure Laminate
- D pull and euro hinges, if selected: nickel
- Bracket cover: plastic
- Edges: matching 3 mm plastic on doors and matching 1 mm plastic on all other edges
- Four adjustable glides
- Integrated base trim

Required to Specify

- 1 Style number
 - 2 Cabinet depth (see below under Required Selections)
 - 3 Cabinet height (see below under Required Selections)
 - 4 Cabinet width (see below under Required Selections)
 - 5 Handedness (see below under Required Selections)
 - 6 Laminate color number for garage cabinet
 - 7 Plastic color number for bracket cover:
6009 Arctic White
6527 Merle
 - 8 Options, if selected (see below)
- See *Surface Materials*, page 376.

Tip: The increment for parametric depth, height, and width is 1".

Tip: Refer to page 38 for planning heights.

Tip: Handedness is only required on 24"W cabinets and smaller. 25"W cabinets or wider defaults to two doors.

Tip: Left and right is determined when facing units.

Tip: For finish codes and more information on laminate price group B, see Surface Materials.

Convey Wardrobe Cabinets

► Need help?
Product details,
page 62

Standard Includes

- Wardrobe cabinet: High-Pressure Laminate
- D pull and euro hinges: nickel
- Bracket cover: plastic
- Edges: matching 3 mm plastic on doors and matching 1 mm plastic on all other edges
- One fixed shelf
- Four adjustable glides for floor-extended wardrobe cabinet, if selected
- Less than 24"W wall-suspended wardrobe cabinet, if selected: hooks
- 24"W wall-suspended wardrobe cabinet, if selected: clothing rod
- Less than 24"D floor-extended wardrobe cabinet, if selected: hooks
- 24"D or deeper floor-extended wardrobe cabinet, if selected: clothing rod

Required to Specify

- 1 Style number
 - 2 Wardrobe cabinet depth (see below under Required Selections)
 - 3 Wardrobe cabinet height (see below under Required Selections)
 - 4 Wardrobe cabinet width (see below under Required Selections)
 - 5 Laminate color number for wardrobe cabinet
 - 6 Plastic color number for bracket cover: 6009 Arctic White
6527 Merle
 - 7 Handedness for wardrobe cabinets with door (see below under Required Selections)
 - 8 Options, if selected (see below)
- See *Surface Materials*, page 376.

Tip: The increment for parametric depth, height, and width is 1".

Tip: Wall-suspended wardrobe with a small drawer can only go down to 16"D.

Tip: Refer to page 37 for planning heights.

	Required Selections	U.S. Price	Required to Specify
Wardrobe Depth	Parametric depth		
	• Wall-suspended wardrobe cabinet – 13.132"D–23.132"D	Prices at right	Specify with 13.132"D–23.132"D.
	• Wall-suspended wardrobe cabinet with door(s) – 14"D–24"D	Prices at right	Specify with 14"D–24"D.
	• Floor-extended wardrobe cabinet – 13.132"D–28.132"D	Prices at right	Specify with 13.132"D–28.132"D.
Wardrobe Height	• Floor-extended wardrobe cabinet with door(s) – 14"D–29"D	Prices at right	Specify with 14"D–29"D.
	Parametric height		
Wardrobe Width	• Wall-suspended wardrobe cabinet – 66½"H–74½"H	Prices at right	Specify with 66½"H–74½"H.
	• Floor-extended wardrobe cabinet – 48"H–84"H	Prices at right	Specify with 48"H–84"H.
	Parametric width		
Handedness	• Wall-suspended and floor-extended wardrobe cabinets – 12"W–23"W	Prices at right	Specify with 12"W–23"W.
	• Wall-suspended wardrobe cabinet with door(s) – 12"W–24"W	Prices at right	Specify with 12"W–24"W.
	• Floor-extended wardrobe cabinet with door(s) – 12"W–36"W	Prices at right	Specify with 12"W–36"W.
Wardrobe cabinet with door	• Left hand	No cost	Specify with <i>left hand</i> .
	• Right hand	No cost	Specify with <i>right hand</i> .

Tip: Left and right is determined when facing units.

Tip: Handedness is only required on 24"W wardrobes with doors and smaller, 25"W or wider wardrobes default to two doors.

Glove Holders	<ul style="list-style-type: none"> No glove holders: No cost Glove holders with no cutouts: +\$ 89 per door Glove holders with cutouts: +\$109 per door 	<ul style="list-style-type: none"> Specify with no glove holders. Specify with glove holders with no cutouts. Specify with glove holders with cutouts.
Glove Holders Location	<p>Upper storage cabinet over-the-sink with door(s) and no bottom</p> <ul style="list-style-type: none"> Two left glove holders: No cost Two right glove holders: No cost Three glove holders: No cost Two left and two right glove holders: No cost 	<ul style="list-style-type: none"> Specify with two left glove holders. Specify with two right glove holders. Specify with three glove holders. Specify with two left and two right glove holders.

Tip: Glovebox cutouts are driven by the width of the cabinet doors. Cabinets less than 15"W do not offer glovebox cutouts. Cabinets 15"W–19"W will have two glovebox cutouts. Cabinets greater than 19"W and less than or equal to 24"W will have three glovebox cutouts. Cabinets greater than 24"W and less than 30"W do not offer glovebox cutouts due to the doors being less than 15"W. Cabinets 30"W or greater will have four glovebox cutouts, split between the doors, i.e. two glovebox cutouts in each door.

Tip: When width is greater than 30", only two or four glove holders are options.

Tip: Please refer to SmartTools to specify sizes.

Convey Upper Corner Cabinet

► Need help?
Product details,
page 78

Standard Includes

- Upper corner cabinet, door fronts, and shelves: High-Pressure Laminate
- D pull and euro hinge: nickel
- Bracket cover: 6009 Arctic White
- Edges: matching 3 mm plastic on doors and matching 1 mm plastic on all other edges

Required to Specify

- 1 Style number
 - 2 Cabinet depth (see below under Required Selections)
 - 3 Cabinet height (see below under Required Selections)
 - 4 Cabinet width (see below under Required Selections)
 - 5 Laminate color number for cabinet
 - 6 Handedness (see below under Required Selections)
 - 7 Options, if selected (see below)
- See *Surface Materials*, page 376.

Tip: The increment for parametric height is 1".

Tip: Corner cabinets 30"H include one fixed shelf. Cabinets less than 30"H do not include a shelf.

Tip: For finish codes and more information on laminate price group B, see Surface Materials.
► See page 376

Tip: Electronic locks are available and must be installed in the field.
► See page 174

Convey Cover Panels

Tip: The increment for parametric depth and height is 1".

Tip: Cover panels flex parametrically in relation to the cabinets they are adjacent to.

Tip: For finish codes and more information on laminate price group B, see Surface Materials. ▶ See page 376

Tip: Left and right is determined when facing units.

Tip: Fascia height needs to be specified when vertical fascia top extension is chosen.

Tip: Some applications require cutouts to be applied when a mounting rail will go through the cover panel.

Standard Includes	Required to Specify

Convey Worksurfaces

Solid Surface

▶ Need help?
Product details,
page 90

Standard Includes

- Worksurface: solid surface price group A
- Moisture resistance: MR 10
- Backsplash

Required to Specify

- 1 Style number
 - 2 Solid surface color number for worksurface and backsplash
 - 3 Worksurface depth (see below under Required Selections)
 - 4 Worksurface width (see below under Required Selections)
 - 5 Sink bowl, if solid surface worksurface with sink is selected (see below under Required Selections)
 - 6 Options, if selected (see below)
- ▶ See *Surface Materials*, page 376.

Tip: Worksurface depths flex parametrically in 1" increments. Widths flex parametrically in 1/8" increments.

Tip: Integral sink bowls can be added to worksurfaces a minimum of 30"W and up to 138"W.

Tip: Add sink cost to tops with sinks. See separate table with list price. Specifying the X or Y sink bowl position does not add cost.

	Required Selections	U.S. Price	Required to Specify
Worksurface Depth	Parametric depth		
	• Solid surface worksurface – 15"D–30"D	Prices at right	Specify with 15"D–30"D.
	• Solid surface worksurface with sink – 20"D–30"D	Prices at right	Specify with 20"D–30"D.
Worksurface Width	Parametric width		
	• Solid surface worksurface – 12"W–138"W	Prices at right	Specify with 12"W–138"W.
	• Solid surface worksurface with sink – 30"W–138"W	Prices at right	Specify with 30"W–138"W.
Sink Bowl	Solid surface worksurface with sink		
	• 810 no overflow	+\$ 878	Specify with 810 no overflow.
	• 5414 no overflow	+\$ 932	Specify with 5414 no overflow.
	• 816 no overflow	+\$ 987	Specify with 816 no overflow.
	• 8254 no overflow	+\$1002	Specify with 8254 no overflow.
	• 8252 no overflow	+\$1071	Specify with 8252 no overflow.
	• 7412 no overflow	+\$1110	Specify with 7412 no overflow.
	• 7418 no overflow	+\$1221	Specify with 7418 no overflow.
	• 7722 no overflow	+\$1221	Specify with 7722 no overflow.
	• 815 no overflow	+\$1393	Specify with 815 no overflow.
	• 5315 no overflow	+\$1847	Specify with 5315 no overflow

	Options	U.S. Price	Required to Specify
Surface Materials	Top surface		
	• Solid surface group A	Prices at right	▶ See <i>Surface Materials</i> , page 376.
	• Solid surface group B	Prices at right	▶ See <i>Surface Materials</i> , page 376.
	• Solid surface group C	Prices at right	▶ See <i>Surface Materials</i> , page 376.
	• Solid surface group D	Prices at right	▶ See <i>Surface Materials</i> , page 376.
Backsplash	• No backsplash	Prices at right	Specify with no backsplash.
	• With backsplash	Prices at right	Specify with backsplash.

Sync

Double-Sided Bases and Worksurfaces

Double-sided units have fixed height combinations and accommodate multiple clinical workers. Two work-surfaces allow for collaboration and sharing of technology to support the work process.

Tile encases technology stretcher and is standard in High-Pressure Laminate. An optional frame tile for custom inserts is available. Tile is removable for easy access to technology.

Worksurfaces are available in High-Pressure Laminate and solid surface finishes.

Flush caps are standard.

Upper and lower work-surfaces are different widths to help support numerous users.

Legs are bolted to floor for stability and leveling.

Base power-in cover is standard and bolts to the floor.

Foot covers are standard.

360° foot ring is standard on 36"H and 42"H combination units. Foot ring not available on 28½"H side.

Technology stretcher has CPU hangers with straps to accommodate two large CPUs or up to eight thin client PCs. ▶ See *Technology Stretcher Computer Capacities*, page 192.

Actual Dimensions

Worksurface

Upper Width	64", 76", 88", or 100"
Lower Width	72", 84", 96", or 108"

Base

Width*	72", 84", 96", or 108"
Upper Height	36" or 42"
Lower Height	28½" or 36"

*Nominal planning dimension

Product Details

Worksurfaces are available in three shapes: interaction, process, and transaction for upper worksurface heights and two shapes: interaction and process for lower worksurface heights.

Worksurfaces are available in four widths: 72", 84", 96", and 108". The width of the worksurface must match the width of the base.

Tile can snap open for easy accessibility to technology and CPUs. Straps hold the tile in the open position and can be released to remove tile completely.

Custom signage can be attached to create a more personalized aesthetic.

Frame tile allows user to have a custom insert other than standard High-Pressure Laminate. Custom inserts are provided by the dealer or customer and are field installed. Frame tile will be located on the taller side of the double-sided base, standard High-Pressure Laminate must be specified for the lower tile.

Frame tile fits customer's own material, insert material is not provided by Steelcase Health. Actual dimensions are available at village.steelcase.com or contact 1.800.342.8562 (see assembly directions for custom tile replacement).

Frame tile will be located on the taller side of the double-sided base, standard High-Pressure Laminate must be specified for the lower tile.

42"H and 36"H

36"H and 28 1/2"H

360° foot ring is standard on all 36"H and 42"H combination units. Foot ring not available on 28 1/2"H side.

Slatwall is standard and varies in size depending on choice of worksurface heights and widths.

Technology Stretcher includes CPU straps that allow up to two large sized CPUs or up to eight thin client PCs.

▶ See *Technology Stretcher Computer Capacities*, page 192.

Airflow is supported with openings above and below technology stretcher for proper circulation.

Connections

Worksurfaces are secured to standard cantilevers for support. Transaction cantilevers are available to support transaction depth worksurfaces and are specified as an option to the base unit.

Wiring & Cabling

Power is hardwired in the field by a certified electrician.

Base power-in cover mounts to floor to allow cables to run from the floor into the unit.

Floor attachment bolts are not provided with the unit. The Engineer of Record must specify appropriate attachment hardware. Plate loading information is available at village.steelcase.com or by contacting 1.800.342.8562. Bolts will secure the leg to the floor and will provide the leveling system to ensure stability on uneven floors. Template is available to position loading plates to aid installation.

Template can be ordered as a service part, 943102528SR. This template can be used with all double-sided bases, single-sided bases and single leg bases with 90° top.

Junction box mounting locations are standard. Eight boxes fit into the 72"W and 84"W bases. Twelve boxes fit into 96"W and 108"W bases. Junction boxes are field installed and provided by the electrical contractor.

Receptacle openings are standard on the lower side of the unit. 72"W units have four openings. 84"W and 96"W and 108"W units have six openings. Receptacles are provided by the electrical contractor.

Receptacle opening fillers fill in the electrical cutouts when not required and are ordered separately, as a customer service part, 943102877SR.

Sync Single-Sided Bases and Worksurfaces

Single-sided fixed height units accommodate multiple clinical workers. The unit is placed along a wall for easy access to power and data connections.

Worksurfaces are available in High-Pressure Laminate and solid surface finishes.

Tile encases technology stretcher and is standard in High-Pressure Laminate. An optional frame tile for custom inserts is available. Top cap and tile are removable for easy access to technology.

Technology stretcher has straps to accommodate two desk top CPUs or two thin client PCs.
▶ See *Technology Stretcher Computer Capacities*, page 192.

Cable trays are standard.

Worksurfaces are fixed-height, and accommodate seated, counter, and standing heights.

Legs are bolted to floor for stability and leveling.

Foot ring is standard on 36"H and 42"H units. Foot ring is not available on 28½"H units.

Foot covers are standard.

Product Details

Worksurfaces are available in two shapes: interaction and process.

Worksurfaces are available in four widths, 72", 84", 96", and 108". The width of the worksurface must match the width of the base.

Top cap and tile can be removed for easy accessibility to technology and CPUs.

Frame tile allows user to have a custom insert other than standard High-Pressure Laminate. Custom inserts are provided by the dealer or customer and are field installed.

Frame tile fits customer's own material, insert material is not provided by Steelcase Health. Actual dimensions are available at village.steelcase.com or contact 1.800.342.8562 (see assembly directions for custom tile replacement).

36"H

42"H

Foot ring wraps 180° around base on 36"H and 42"H units. Foot ring not available on 28½"H units.

Technology stretcher includes CPU straps that allow up to two desk top CPUs or two thin client PCs. ▶ See *Technology Stretcher Computer Capacities*, page 192.

Airflow is supported with openings under technology stretcher and open back for proper circulation.

Connections

Floor attachment bolts are not provided with the unit. The Engineer of Record must specify appropriate attachment hardware. Plate loading information is available at village.steelcase.com or by contacting 1.800.342.8562. Bolts will secure the leg to the floor and will utilize a leveling system to provide the stability on uneven floors. Template is available to position loading plates to aid installation.

Template can be ordered as a service part, 943102528SR. This template can be used with all double-sided bases, single-sided bases and single leg bases with 90° top.

Worksurfaces are secured to standard mounting plate for support.

Wiring & Cabling

Open back of technology stretcher allows power and data access into the technology stretcher from wall.

USB extensions or USB hub are needed to extend keyboard and mouse cables and other USB accessories.

Sync Single Leg Bases and Worksurfaces

Single fixed and adjustable units provide flexible ergonomic support for clinical workers. The worksurfaces allow for a single user or collaboration between users. The unit is placed along a wall for easy access to power and cable.

Cable trays are standard on both sides of the worksurface.

Vertical cable manager extends with height adjustable leg. The cable manager keeps all necessary cables for monitor, keyboard, and mouse enclosed.

Tile encases technology stretcher and is standard in High-Pressure Laminate. An optional frame tile for custom inserts is available. Top cap and tile are removable for easy access to technology.

Technology stretcher has CPU straps to accommodate one CPU on single leg units. Stretchers are available in 24"W.

► See *Technology Stretcher Computer Capacities*, page 192.

Worksurfaces are available in High-Pressure Laminate and solid surface finishes. Worksurfaces are available in full arc or scoop shapes to support one or two user operation.

Push button simple touch controller adjusts height at a rate of 1½" per second.

Legs are electronically height adjustable for single or double leg units or fixed positions for single leg units. Adjustable units range from sitting height of 26"H to a standing height of 45"H. Legs are bolted to the floor for stability and leveling.

Foot covers are standard.

Individual foot rings are standard on all units excluding single leg fixed 28½"H applications. Foot rings must be specified for 90° or 135° applications.

Actual Dimensions

Worksurface

Depth	25¾"
Width	25¾" or 43⅔"

Legs

Width*	24"
Fixed Height	28½", 36", or 42"
Adjustable Height	26"–45"

*Nominal planning dimension

Product Details

Worksurfaces are available in 90° and 135° full arc and 135° scoop shapes.

Top cap and tile can be removed for easy accessibility to technology and CPUs.

Frame tile fits customer's own material. Actual dimensions are available at village.steelcase.com (see assembly directions for custom tile replacement) or contact 1.800.342.8562.

36"H, 42"H, or height-adjustable

Foot ring is standard on 36"H and 42"H bases. Foot ring is not available on 28½"H fixed base.

Simple touch controller easily adjusts the height of the work surface, at a rate of 1½" per second. The controller is field installed and the cord for the controller will attach at the top of the single leg base under the work surface.

Worksurfaces are factory drilled for easy simple touch controller installation.

Technology stretcher for the single leg unit is 24" and accommodates one CPU and adjustability control box if adjustability is selected. If desktop CPU is used, control box will need to be mounted to the underside of work surface. ▶ See *Technology Stretcher Computer Capacities*, page 192.

Airflow is supported with an opening under technology stretcher and open back for proper circulation.

Connections

Floor attachment bolts are not provided with the unit. The Engineer of Record must specify appropriate attachment hardware. Plate loading information is available at village.steelcase.com or by contacting 1.800.342.8562. Bolts will secure the leg to the floor and will utilize a leveling system to provide the stability on uneven floors. Template is available to position loading plates to aid installation.

Two templates are available for single leg base units. For 90° tops order service part 943102528SR. For 135° tops order service part 943102529SR.

Worksurface is secured by use of the surface mounting plate which is standard with the base.

Wiring & Cabling

Open back of technology stretcher allows power and data to enter into technology stretcher from wall.

Vertical cable manager attaches from stretcher and opens up to work surface.

USB extensions or USB hub are needed to extend keyboard and mouse cables and other USB accessories.

Sync Monitor Mount Suggestions

Monitor Arm Placement

Monitor arms with slatwall brackets can be placed anywhere on the slatwall. Slatwall is only available on double sided applications with 42" upper height and 28½" lower.

Slatwall monitor arms are recommended for use with 42"H/28½"H double-sided bases on the 28½" side. Slatwall monitor arms can also be used on 36"H/28½"H on the 28½" side.

Tip: Slatwall monitor arms cannot be used on 42"H/36"H units.

Upper Height 42"
Lower Height 28½"

CF Series Intro, CF Plus, CF PlusHD monitor arms with C-clamp bracket can be placed in the locations with arrows.

Upper Height 42"
Lower Height 28½"

Sync Single-Sided Bases

Tip: Worksurface heights are in fixed positions. Units can not be adjusted.

Tip: Up to two desk top CPUs or two thin client computers can fit in each technology stretcher.

▶ See *Technology Stretcher Computer Capacities*, page 192.

Tip: Frame tile should be specified when using custom insert. Custom inserts are provided by dealer or customer and are field installed.

Tip: Foot ring is not standard on 28½"H fixed height bases.

Tip: To aid installation, order template.

▶ See page 185

Tip: The width of the work-surface must match the width of the base.

Standard Includes		Required to Specify	
▶ Need help?	• Legs: 4799 Platinum only	1 Style number	
▶ Product details, page 188	• Foot ring: 4799 Platinum only	2 Appropriate tile	
	• Foot cover	3 High-Pressure Laminate color number for tile, if selected

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Folio 28"H Base Cabinets

28"H base cabinets meet storage needs in clinical settings. Base cabinets connect to a worksurface to create a single unit or a multicabinet wall unit.

Top of cabinet is open and requires attachment to a worksurface that is ordered separately.

Sides are finished so the cabinet can stand alone or be used in right- or left-hand positions.

All edges are finished from the factory with matching plastic edge banding.

Large drawers and 36"W small drawers have single-wall steel sides and full extension, heavy-duty slides to handle the additional load.

Shelf is adjustable and removable.

The interior and exterior are finished with matching Low-Pressure Laminate.

Adjustable shelf is standard inside the cabinet. Shelves adjust in 1/4" increments. Additional shelves are available, and must be specified separately.

D pulls are standard on doors and drawers and are nickel only. Additional pull styles are available as an option.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1/2".

Small drawers have single-wall steel sides, and three quarter extension slides. Drawer configurations are available to accommodate supplies and equipment.
Tip: 36"W small drawers have full extension, heavy-duty slides to handle the additional load.

Base elevates the cabinet and is 3/4"H with the glide in the lowest position.

Actual Dimensions

Features	Overall Depth	Width	Height without Worksurface	Height with High-Pressure Laminate Worksurface	Height with Solid Worksurface
With open shelves	21 1/8"	12", 18", 21", 24", 30", or 36"	27 7/16"	28 5/8"	28 7/16"
With single door	23"	12", 18", 21", or 24"	27 7/16"	28 5/8"	28 7/16"
With double doors	23"	30" or 36"	27 7/16"	28 5/8"	28 7/16"
With drawers	23"	12", 18", 21", 24", 30", or 36"	27 7/16"	28 5/8"	28 7/16"

*Height with Solid Worksurface assumes 1/2" solid surface and 1/2" substrate. Contractor specified Solid Surface may be 1 1/2".

Product Details

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Large drawers and 36"W small drawers, when opened, extend their full depth.

Small drawers with the exception of 36"W small drawers, when opened, extend three quarters of their depth.

Woodgrain Low-Pressure Laminate matches on all drawer and door sets on base cabinets.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Five-knuckle hinge is optional and allows the door to open 270° or 180° if connected to adjacent cabinet.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

D pulls are standard.

Contemporary Jazz

Opus

Additional door and drawer pull options

are available. Optional pulls include:

- Contemporary
- Jazz
- Opus

Lock is optional and factory- or field-installed to secure the doors or top drawer of the cabinet. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, Page 398

Cove molding must be field installed on base to complete installation. The front base of cabinet is recessed 1 3/4". The sides and back are set in 1/4" to allow cove molding to fit flush. Cove molding must be supplied locally.

Laminate worksurface, ordered separately, is available with High-Pressure Laminate. High-Pressure Laminate has a matching 3 mm plastic front edge and 1 mm plastic edge on sides and back. Backsplash is standard with the worksurface. High-Pressure Laminate sidesplash is also available in two depths and must be ordered separately.

► Page 284

Solid surface worksurface, ordered separately, has an integrated backsplash. A solid surface sidesplash is also available in two depths and must be ordered separately.

Connections

Base cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

V.I.A. hang-on bracket option must be used when mounting to V.I.A. on module. Brackets include one left- and one right-hand bracket.

Cam-lock assembly hardware is used.

Worksurface is available to connect to one cabinet or to span multiple cabinets. It fastens to the top of cabinet with brackets and is field-installed. Brackets are included as standard with base cabinets.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired.

Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.

Filler closes the gap between a cabinet and a structural wall. Additional length worksurface will be required. Field cutting of filler and worksurface may be required to achieve architectural fit.

Application Topics

Cleat systems must be used when mounting to drywall. Mounting cleats and attachment hardware are included with upper storage cabinets. Check local codes.

Skin configuration must allow access to V.I.A. structure in a width that matches Folio product.

Reinforcing structural beams (FEBSTR) must be specified to allow cabinet to attach off module to V.I.A. There is no weight applied to the skin itself.

▶ See *V.I.A. Specification Guide*.

Cabinets can be mounted from both faces of a structural beam.

Hang-on components should not be mounted in a wall with a door frame (reversible or sliding).

Since most hang-ons are not designed to be viewed from the back, it is not recommended to mount hang-ons over glass frames except for back-painted glass.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Folio

33"H ADA Base Cabinets

33"H ADA base cabinets provide a modular solution to meet storage needs in clinical settings. Base cabinets connect to a worksurface to create a single unit or a multicabinet wall unit.

Top of cabinet is open and requires attachment to a worksurface that is ordered separately.

Sides are finished so the cabinet can stand alone or be used in right- or left-hand positions.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1 1/2".

Small drawers have single-wall steel sides, and three quarter extension slides. Drawer configurations are available to accommodate supplies and equipment.

Tip: 36"W small drawers have full extension, heavy-duty slides to handle the additional load.

Shelf is adjustable and removable.

All edges are finished from the factory with matching plastic edge banding.

Cleat systems must be used when mounting to drywall. Mounting cleats and attachment hardware are included with upper storage cabinets. Check local codes.

Reinforcing structural beams (FEBSTR) must be specified to allow cabinet to attach off module to V.I.A. There is no weight applied to the skin itself.
 ▶ See *V.I.A. Specification Guide*.

Cabinets can be mounted from both faces of a structural beam.

Skin configuration must allow access to V.I.A. structure in a width that matches Folio product.

Hang-on components should not be mounted in a wall with a door frame (reversible or sliding).

Since most hang-ons are not designed to be viewed from the back, it is not recommended to mount hang-ons over glass frames except for back-painted glass.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Folio Sink Cabinets

Sink cabinet accommodates a sink, which is independently purchased and field installed. Cabinets are available with a removable angled front or with doors.

Angled front panel can be removed without tools for easy access to plumbing and allows toe space.

The interior and exterior are finished with matching Low-Pressure Laminate.

Back of sink cabinet with angled front is open to access plumbing.

All edges are finished from the factory with matching plastic edge banding.

Top of cabinet is open and requires attachment to a worksurface that is ordered separately.

Back of sink cabinet with single door or double doors is closed.

Sides of cabinet are finished so the cabinet can be used as a single unit or be used in right- or left-hand positions.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1 1/2".

Sink cabinet front panel is fixed.

D pulls are standard on sink units with doors and are nickel only. Additional pull styles are available as an option.

Actual Dimensions

Features	Overall Depth	Width	Inside Depth	Width	Height	Height without Worksurface	Height with High-Pressure Laminate Worksurface	Height with Solid Worksurface
33"H ADA Sink Cabinet with angled front	22 7/8"	30" or 36"	20"	32"	4 2/5"	18 3/4"	19 7/8"	19 3/4"

*Height with Solid Worksurface assumes 1/2" solid surface and 1/2" substrate. Contractor specified Solid Surface may be 1 1/2".

Product Details

ADA sink cabinets meet the guidelines as set forth in the United States Department of Justice 2010 ADA Standards for Accessible Design (www.ada.gov/2010A-DA-standards). Floor to underside of cabinet clear dimension is 27"H.

For minimum wall construction, plumbing, and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

ADA sink cabinets, when used in an application where adjacent casework/architecture is not present on both sides, require a special bracket called the 'Perry Bracket'. This should be acquired utilizing eSpecials.

Angled front sink and base cabinet

Angled front sink and end panel

Sink cabinets with angled front must be attached to an end cabinet, end panel, or wall with the ability to connect on both sides. If connected to wall, hardware will not be included.

Sink must be independently purchased and field installed. Sink cutout must be cut in field.
Tip: Sink for ADA cabinet must meet ADA guidelines. Check with sink manufacturer.

Maximum sink cutout size is 16" front to back. Minimum cutout requirements are 5" from front edge and 3" from back and side edges.

Edge, on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Woodgrain Low-Pressure Laminate matches on all drawer and door sets on base cabinets.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Five-knuckle hinge is optional and allows the door to open 270° or 180° if connected to adjacent cabinet.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

D pulls are standard.

Contemporary Jazz

Opus

Additional door pull options are available. Optional pulls include:

- Contemporary
- Jazz
- Opus

Lock is optional and factory- or field-installed to secure the doors. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
► Lock and Keying, Page 398

Cove molding must be field installed on base to complete installation. The front base of cabinet is recessed 1 3/4". The sides and back are set in 1/4" to allow cove molding to fit flush. Cove molding must be supplied locally. Sink cabinets with angled fronts do not extend fully to the floor and do not require cove molding.

Laminate worksurface, ordered separately, is available with High-Pressure Laminate. High-Pressure Laminate has a matching 3 mm plastic front edge and 1 mm plastic edge on sides and back. Backsplash is standard with the worksurface. High-Pressure Laminate sidesplash is also available in two depths and must be ordered separately. ▶ Page 284

Solid surface worksurface, ordered separately, has an integrated backsplash. A solid surface sidesplash is also available in two depths and must be ordered separately.

Integrated solid sink bowl is available. Use engineering quote to specify location.

Connections

Base cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

Cam-lock assembly hardware is used.

Worksurface is available to connect to one cabinet or to span multiple cabinets. It fastens to the top of cabinet with brackets and is field-installed. Brackets are included as standard with base cabinets.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired. *Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.*

Filler closes the gap between a cabinet and a structural wall. Additional length worksurface will be required. Field cutting of filler and worksurface may be required to achieve architectural fit. ▶ Page 291

Application Topics

Corner cabinets support worksurfaces in a corner application. Field cutting of work surface may be required to achieve architectural fit.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Folio Storage Cabinets

Storage cabinets include open shelf and closed cabinet storage configurations for clinical settings. Storage cabinets are available in 84"H with flat top and 92"H with sloped top.

Top is finished.

Sides are finished.

Five shelves are standard inside the storage cabinet. One shelf is fixed at 36"H and all other shelves are adjustable. Shelves adjust in 1 1/4" increments. Additional shelves are available and must be specified separately.

Base elevates the cabinet and is 3 3/4"H with the glide in the lowest position.

The interior and exterior are finished with matching Low-Pressure Laminate.

All edges are finished from the factory with matching plastic edge banding.

Sloped top style cabinets are available to comply with certain local codes. Check local codes for specific requirements.

D pulls are standard on doors and are nickel only. Additional pull styles are available as an option.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1 1/2".

Actual Dimensions

• Features	• Overall Depth	• Width	• Height without Worksurface
Flat top with open shelves	22 1/8"	12", 18", 21", 24", 30", or 36"	84"
Flat top with single door	23"	12", 18", 21", or 24"	84"
Flat top with double doors	23"	30" or 36"	84"
Sloped top with open shelves	22 1/8"	12", 18", 21", 24", 30", or 36"	92"
Sloped top with single door	23"	12", 18", 21", or 24"	92"
Sloped top with double doors	23"	30" or 36"	92"

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Product Details

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Double-door cabinets open from the center out.

Five-knuckle hinge is optional and allows the door to open 270° or 180° if connected to adjacent cabinet.

D pulls are standard.

Contemporary Jazz

Opus

Additional door pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- Opus

Lock is optional and factory- or field-installed to secure the doors. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ Lock and Keying, Page 398

Cove molding must be field installed on base to complete installation. The front base of cabinet is recessed 1 3/4". The sides and back are set in 1/4" to allow cove molding to fit flush. Cove molding must be supplied locally.

Sloped tops on storage, wardrobe, bookcase, and upper storage cabinets have a 20° slope. The height of a 24"D storage or wardrobe cabinet with a slope top is 92"H. The height of a 14"D bookcase cabinet with a sloped top or a 14"D wall-mounted upper storage cabinet with a sloped top is 89"H. The difference in heights is to allow the door fronts to align on adjacent cabinets of different depths. Storage and wardrobe cabinets are 24"D and bookcase and upper storage cabinets are 14"D. When placing a bookcase or upper storage cabinets with sloped top next to a storage or wardrobe cabinet with a sloped top, a step-down in height of 3" will result, but doors on all units will align.

Connections

Storage cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

V.I.A. hang-on bracket option must be used when mounting to V.I.A. on module. Brackets include one left- and one right-hand bracket.

Cam-lock assembly hardware is used.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired.
Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.

Surface Materials

Cabinet, door front, and shelf

- Low-Pressure Laminate

Edges

- Matching plastic

D pulls, contemporary, and jazz pulls

- Nickel

Opus pulls

- Champagne

Euro and five-knuckle hinges

- Nickel

Face lock

- 9201 Polished Chrome only

Shipping

All cabinets ship fully assembled.

Application Topics

Cleat systems must be used when mounting to drywall. Mounting cleats and attachment hardware are included with upper storage cabinets. Check local codes.

Skin configuration must allow access to V.I.A. structure in a width that matches Folio product.

Reinforcing structural beams (FEBSTR) must be specified to allow cabinet to attach off module to V.I.A. There is no weight applied to the skin itself.
 ▶ See V.I.A. Specification Guide.

Cabinets can be mounted from both faces of a structural beam.

Hang-on components should not be mounted in a wall with a door frame (reversible or sliding).

Since most hang-ons are not designed to be viewed from the back, it is not recommended to mount hang-ons over glass frames except for back-painted glass.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Folio Wardrobe Cabinets

Wardrobe cabinets offer coat and other storage for a clinical setting. Wardrobe cabinets are available in 84"H with flat top and 92"H with sloped top.

Top is finished.

The interior and exterior are finished with matching Low-Pressure Laminate.

Sloped top style cabinets are available to comply with certain local codes. Check local codes for specific requirements.

Hanger bar runs the width of the cabinet.

Sides are finished.

Base elevates the cabinet and is 3¾"H with the glide in the lowest position.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1½".

All edges are finished from the factory with matching plastic edge banding.

Shelf is fixed at 64¼"H.

D pulls are standard on doors and are nickel only. Additional pull styles are available as an option.

Product Details

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Five-knuckle hinge is optional and allows the door to open 270° or 180° if connected to adjacent cabinet.

Actual Dimensions

Features	Overall Depth	Width	Height
Flat top with single door	23"	12", 18", 21", or 24"	84"
Flat top with double doors	23"	30" or 36"	84"
Sloped top with single door	23"	12", 18", 21", or 24"	92"
Sloped top with double doors	23"	30" or 36"	92"

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

D pulls are standard.

Contemporary Jazz

Opus

Additional door pull options are available. Optional pulls include:

- Contemporary
- Jazz
- Opus

Lock is optional and factory- or field-installed to secure the doors. Factory-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ Lock and Keying, Page 398

Cove molding must be field installed on base to complete installation. The front base of cabinet is recessed 1 3/4". The sides and back are set in 1/4" to allow cove molding to fit flush. Cove molding must be supplied locally.

Sloped tops on storage, wardrobe, bookcase, and upper storage cabinets have a 20° slope. The height of a 24"D storage or wardrobe cabinet with a sloped top is 92"H. The height of a 14"D bookcase cabinet with a sloped top or a 14"D wall-mounted upper storage cabinet with a sloped top is 89"H. The difference in heights is to allow the door fronts to align on adjacent cabinets of different depths. Storage and wardrobe cabinets are 24"D and bookcase and upper storage cabinets are 14"D. When placing a bookcase or upper storage cabinets with sloped top next to a storage or wardrobe cabinet with a sloped top, a step-down in height of 3" will result, but doors on all units will align.

Connections

Wardrobe cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

V.I.A. hang-on bracket option must be used when mounting to V.I.A. on module. Brackets include one left- and one right-hand bracket.

Cam-lock assembly hardware is used.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired. *Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.*

Folio Bookcases

Bookcases offer convenient storage for binders, books, and other objects used in a clinical setting. Bookcases are available in 84"H with flat top and 89"H with sloped top.

Top is finished.

Sides are finished.

Five shelves are standard in the bookcase. One shelf is fixed at 36"H and all other shelves are adjustable. Shelves adjust in 1¼" increments. Additional shelves are available and must be specified separately.

Base elevates the bookcase and is 3¾"H with the glide in the lowest position.

The interior and exterior are finished with matching Low-Pressure Laminate.

All edges are finished from the factory with matching plastic edge banding.

Sloped top style cabinets are available to comply with certain local codes. Check local codes for specific requirements.

Folio Upper Storage Cabinets

Upper storage cabinets address storage needs above a worksurface. They are available in open shelf, closed cabinet, and combination open shelf with closed cabinet models. They are available with a flat top or sloped top.

The interior and exterior are finished with matching Low-Pressure Laminate.

Top is finished.

Shelf is adjustable and removable. Shelves adjust in 1¼" increments. Additional shelves are available and must be specified separately.

Sides are finished.

Sloped top style cabinets are available to comply with certain local codes. Check local codes for specific requirements.

D pulls are standard on doors and are nickel only. Additional pull styles are available as an option.

All edges are finished from the factory with matching plastic edge banding.

Actual Dimensions

Features	Overall Depth	Width	Height
Flat top with open shelves	13 ³ / ₈ "	12", 18", 21", 24", 30", or 36"	24" or 30"
Flat top with single door	14 ¹ / ₄ "	12", 18", or 21"	24" or 30"
Flat top with double doors	14 ¹ / ₄ "	24", 30", or 36"	24" or 30"
Flat top with double doors and open shelf	14 ¹ / ₄ "	24", 30", or 36"	30"

Sloped top with double doors	14 ¹ / ₄ "	24", 30", or 36"	28 ⁷ / ₈ " or 34 ⁷ / ₈ "
Sloped top with double doors and open shelf	14 ¹ / ₄ "	24", 30", or 36"	34 ⁷ / ₈ "

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Product Details

Edges on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Five-knuckle hinge is optional and allows the door to open 270° or 180° if connected to adjacent cabinet.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

D pulls are standard.

Contemporary Jazz

Opus

Additional door pull options are available.

- Optional pulls include:
- Contemporary
 - Jazz
 - Opus

Bottom shelf is fixed on all upper storage cabinets.

Open shelf is adjustable. 24"H units include one adjustable shelf and the 30"H units include two adjustable shelves.

Shelf behind full door is adjustable and removable.

Shelf on upper storage cabinet with single or double door and open shelf is fixed.

Lock is optional and factory- or field-installed to secure the doors of the cabinet. Factory-installed locks are available keyed-random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.
▶ Lock and Keying, Page 398.

Sloped tops on storage, wardrobe, bookcase, and upper storage cabinets have a 20° slope. The height of a 24"D storage or wardrobe cabinet with a slope top is 92"H. The height of a 14"D bookcase cabinet with a sloped top or a 14"D wall-mounted upper storage cabinet with a sloped top is 89"H. The difference in heights is to allow the door fronts to align on adjacent cabinets of different depths. Storage and wardrobe cabinets are 24"D and bookcase and upper storage cabinets are 14"D. When placing a bookcase or upper storage cabinets with sloped top next to a storage or wardrobe cabinet with a sloped top, a step-down in height of 3" will result, but doors on all units will align.

Connections

Cabinets must always be fastened to wall. It is recommended that upper storage cabinet be mounted to a wall stud. Mounting cleats and attachment hardware are included with upper storage cabinets.

V.I.A. hang-on bracket option must be used when mounting to V.I.A. on module. Brackets include four left- and four right-hand brackets.

Cam-lock assembly hardware is used.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired.
Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.

Filler closes the gap between an upper storage cabinet and a structural wall.

Wiring & Cabling

Recessed area under the cabinet provides space for task lighting that is ordered separately.

The recessed area actual dimensions are:

Cabinet Width	Recessed Area		
	Depth	Width	Height
12"	12 ¹¹ / ₁₆ "	10 ¹ / ₂ "	1 ⁷ / ₈ "
18"	12 ¹¹ / ₁₆ "	16 ¹ / ₂ "	1 ⁷ / ₈ "
21"	12 ¹¹ / ₁₆ "	19 ¹ / ₂ "	1 ⁷ / ₈ "
24"	12 ¹¹ / ₁₆ "	22 ¹ / ₂ "	1 ⁷ / ₈ "
30"	12 ¹¹ / ₁₆ "	28 ¹ / ₂ "	1 ⁷ / ₈ "
36"	12 ¹¹ / ₁₆ "	34 ¹ / ₂ "	1 ⁷ / ₈ "

Application Topics

Cleat systems must be used when mounting to drywall. Mounting cleats and attachment hardware are included with upper storage cabinets. Check local codes.

Skin configuration must allow access to V.I.A. structure in a width that matches Folio product.

Reinforcing structural beams (FEBSTR) must be specified to allow cabinet to attach off module to V.I.A. There is no weight applied to the skin itself.

▶ See *V.I.A. Specification Guide*.

Cabinets can be mounted from both faces of a structural beam.

Hang-on components should not be mounted in a wall with a door frame (reversible or sliding).

Since most hang-ons are not designed to be viewed from the back, it is not recommended to mount hang-ons over glass frames except for back-painted glass.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Folio Worksurfaces

Worksurfaces attach to the top of base or sink cabinets. They provide a writing or display surface.

Backsplash is standard with each worksurface. Laminate backsplash must be field installed. Solid surface has integrated backsplash.

Edges on High-Pressure Laminate worksurface are finished with 3 mm edge banding on front and 1 mm plastic edge banding on sides and back. High-Pressure Laminate sidesplash has 1 mm matching plastic edge banding all around.

High-Pressure Laminate worksurface and backsplash have a particle board core with a High-Pressure Laminate surface.

Sidesplash in High-Pressure Laminate or solid surface is available in two depths to accommodate various applications. High-Pressure Laminate sidesplash is non-handed. Solid surface sidesplash is available right- or left-handed. Sidesplashes must be ordered separately.

Solid surface worksurface with integrated backsplash is available.

Actual Dimensions

Features Depth	Overall Width	Height	
High-Pressure Laminate worksurfaces	24"	12", 18", 21", 24", 27", 30", 33", 36", 39", 42", 45", 48", 51", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108", 114", or 120"	1 ³ / ₁₆ "
High-Pressure Laminate sidesplash	21", 24"	1 ³ / ₁₆ "	4"
Solid surface sidesplash	21", 24"	1/2"	4"
Solid worksurfaces	24"	12", 18", 21", 24", 27", 30", 33", 36", 39", 42", 45", 48", 51", 54", 60", 66", 72", 78", 84", 90", 96", 102", 108", 114", or 120"	1"

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Product Details

Worksurface can attach to the top of one base cabinet or desk frame, or it can span multiple storage cabinets to create a wall unit.

Extended worksurface option is available and adds 13/16" length to the worksurface for attachment to one support end panel. Support end panel must be ordered separately.

Tip: 12"W, 18"W, 21"W, and 120"W worksurfaces are not available with the extended worksurface option.

Overall length of 21"D sidesplash is intended to be used adjacent to tall cabinets to eliminate interaction with doors.

Connections

Brackets are used to attach the worksurface to the base cabinet in the field. Brackets are included as standard with base cabinets.

Integrated sink bowls for solid surface worksurfaces can be coordinated through Specials.

Field support from a third party is often required for drop-in or under-mount stainless steel sink bowls with the High-Pressure Laminate worksurfaces. Careful coordination is required to ensure the sink sizes match the cutout sizes in the worksurfaces and that the sinks are appropriately sized to fit in the sink base cabinet.

Surface Materials

Worksurface, backsplash, and sidesplash

- High-Pressure Laminate
- Solid surface

Tip: Select Surface solid surfaces are available.

▶ See Surface Materials section for complete listing.

Edges

- Plastic on High-Pressure Laminate worksurface

Folio Desk Frames

Desk frames attach under a worksurface and to an adjacent base or sink cabinet or structural wall to create a desk or garage configuration to store carts or other items.

Worksurface must be attached to a desk frame. Specify worksurface separately.

Desk frames are available with or without a back panel.

Base or sink cabinet or structural wall must be attached to one or both sides of a desk frame.

Doors are optional on desk frames with back panels to create a garage application.

Actual Dimensions

	Without Back Panel	With Back Panel
Depth	22 ¹ / ₈ "	22 ¹ / ₈ "
Width	12", 18", 24", 30", 36", 42", 48", 54", 60", or 72"	24", 30", or 36"
Height	2 ⁵ / ₈ "	35"

Tip: Dimensions are for reference only. See shop drawings for actual measurements at village.steelcase.com.

Product Details

When desk frame with back panel is selected, side panels are included. This unit is nominally 31" in height, it is meant to be used in conjunction with the 35"H base cabinets or end panels. It is not meant to be freestanding, nor to be used on the end of a run with additional support. Side and back panels extend to the top of the base of the adjacent cabinet to allow for easy installation of the cove molding.

Doors are optional on desk frames with back panels. Single doors, hinged left or right, are available on 24"W desk frames. Double doors are available on 30"W and 36"W desk frames.

Doors align with doors on adjacent cabinets to allow visual access at floor level.

Desk frames with the single-door option are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Desk frames with the double-door option open from the center out.

Euro hinge is standard on units with doors and allows the door to open a full 110°.

Five-knuckle hinge is optional on units with doors and allows the door to open 270° or 180° if connected to adjacent cabinet.

D pulls are standard when doors are specified.

Contemporary Jazz

Opus

Additional door pull options are available.

Optional pulls include:

- Contemporary
- Jazz
- Opus

Laminate worksurface, ordered separately, is available with High-Pressure Laminate. High-Pressure Laminate has a matching 3 mm plastic front edge and 1 mm plastic edge on sides and back. Backsplash is standard with the worksurface. High-Pressure Laminate sidesplash is also available in two depths and must be ordered separately. ▶ Pages 284–287

Solid surface worksurface, ordered separately, has an integrated backsplash. A solid surface sidesplash in two depths is also available and must be ordered separately.

Connections

Base or sink cabinets, or structural wall, must be attached to one or both sides of desk frame.

When utilizing end panels on both sides of the desk frame, anchoring end panels to the floor and the desk frame to the architectural wall is required. If end panels cannot be anchored to the floor, angle brackets can be used to secure the end panel to the rear architectural wall.

V.I.A. hang-on bracket option must be used when mounting to V.I.A. on module. Brackets include one left- and one right-hand bracket.

Cam-lock assembly hardware is used.

Surface Materials

Desk frame

- Low-Pressure Laminate

D pulls, contemporary, and jazz pulls

- Nickel

Opus pulls

- Champagne

Euro and five-knuckle hinges

- Nickel

Application Topics

Reinforcing structural beams (FEBSTR) must be specified to allow cabinet to attach off module to V.I.A. There is no weight applied to the skin itself.

▶ See *V.I.A. Specification Guide*.

Cleat systems must be used when mounting to drywall. Mounting cleats and attachment hardware are included with upper storage cabinets. Check local codes.

Cabinets can be mounted from both faces of a structural beam.

Hang-on components should not be mounted in a wall with a door frame (reversible or sliding).

Skin configuration must allow access to V.I.A. structure in a width that matches Folio product.

Since most hang-ons are not designed to be viewed from the back, it is not recommended to mount hang-ons over glass frames except for back-painted glass.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Storage Shelves

► Specifying, page 290

Product Details

Folio

Wall-Mounted 24"H Base Cabinets

24"H Wall-mounted base cabinets meet storage needs in clinical settings. Base cabinets connect to a worksurface to create a single unit or a multicabinet wall unit.

Top of cabinet is open and requires attachment to a worksurface that is ordered separately.

Interior is finished with matching Low-Pressure Laminate.

Sides are finished so the cabinet can stand alone or be used in right- or left-hand positions.

All edges are finished from the factory with matching plastic edge banding.

Large drawers have a full extension and small drawers have a $\frac{3}{4}$ extension. Drawers have a single-wall drawer body construction.

Shelf is adjustable and removable.

Adjustable shelf is standard inside the cabinet. Shelves adjust in $1\frac{1}{4}$ " increments. Additional shelves are available, and must be specified separately.

D pulls are standard on doors and drawers and are nickel only. Additional pull styles are available as an option.

Actual Dimensions

Features	Overall Depth	Width	Height without Worksurface	Height with High-Pressure Laminate Worksurface	Height with Solid Worksurface
With single door and one adjustable shelf	18 $\frac{1}{2}$ "	18" or 24"	23 $\frac{11}{16}$ "	25 $\frac{1}{16}$ "	24 $\frac{11}{16}$ "

With double door and one adjustable shelf	18 $\frac{1}{2}$ "	36"	23 $\frac{11}{16}$ "	25 $\frac{1}{16}$ "	24 $\frac{11}{16}$ "
With three small drawers	18 $\frac{1}{2}$ "	18" or 24"	23 $\frac{11}{16}$ "	25 $\frac{1}{16}$ "	24 $\frac{11}{16}$ "

Product Details

Edges on cabinets are matching 1 mm plastic edge banding. Drawer and door edges are matching 3 mm plastic edge banding.

Woodgrain and solid laminate matches on all door and drawer sets, and interior of base cabinets.

Euro hinge is standard on cabinet door and allows the door to open a full 110°.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

D pulls are standard.

Contemporary Jazz

Opus

Additional door and drawer pull options are available. Optional pulls include:

- Contemporary
- Jazz
- Opus

Lock is optional and factory- or field-installed to secure the doors or top drawer of the cabinet. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, Page 398

Laminate worksurface, ordered separately, is available with High-Pressure Laminate. High-Pressure Laminate has a matching 3 mm plastic front edge and 1 mm plastic edge on sides and back. Backsplash is standard with the worksurface. High-Pressure Laminate sidesplash is also available in two depths and must be ordered separately.

► Pages 318–319

Solid surface worksurface, ordered separately, has an integrated backsplash. A solid surface sidesplash is also available in two depths and must be ordered separately.

Wall-mounted units must be coordinated with electrical and plumbing stub-outs.

Connections

Base cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

Cam-lock assembly hardware is used.

Worksurface is available to connect to one cabinet or to span multiple cabinets. It fastens to the top of cabinet with brackets and is field-installed. Brackets are included as standard with base cabinets.

Bolts are used to align adjacent cabinets in a multi-unit configuration. The bolts can be removed and reinstalled if a different multi-unit configuration is desired. *Tip: Side of cabinet will be defaced by bolts. Exposed bolt holes will require field fix.*

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Filler closes the gap between a cabinet and a structural wall. Additional length worksurface will be required. Field cutting of filler and worksurface may be required to achieve architectural fit.

Folio Wall-Mounted Sink Cabinets

Sink cabinet accommodates a sink, which is independently purchased and field installed. Cabinets are available with a removable angled front or with doors.

Product Details

Sink must be independently purchased and field installed. Sink cutout must be cut in field. For clinical sink application guidelines, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Maximum sink cutout size is 16" front to back. Minimum cutout requirements are 5" from front edge and 3" from back and side edges.

Edge, on cabinets are matching 1 mm plastic edge banding. Door edges are matching 3 mm plastic edge banding.

Woodgrain laminate matches on all drawer and door sets on base cabinets.

Product Details

High-Pressure Laminate work surface, ordered separately, is available with High-Pressure Laminate. High-Pressure Laminate has a matching 3 mm plastic front edge and 1 mm plastic edge on sides and back. Backsplash is standard with the work surface. High-Pressure Laminate side-splash is also available in two depths and must be ordered separately.

► Pages 318–319

Solid surface work surface, ordered separately, has an integrated backsplash. A solid surface sidesplash in two depths is also available and must be ordered separately.

Wall-mounted units must be coordinated with electrical and plumbing stub-outs.

Connections

Base or sink cabinets, or structural wall, must be attached to one or both sides of desk frame.

Cam-lock assembly hardware is used.

For minimum wall construction and electrical clearances, see *Folio Technical Cut Sheet*, available at village.steelcase.com.

Bedside Tables

	18"W
With one drawer and one door	●
With three drawers	●

Park Bedside Tables

Bedside tables are available in three configurations to meet the storage needs of the patient.

Top is rigid thermoform foil. Spill collector top is standard.

Back is Low-Pressure Laminate and finished to match cabinet.

Drawers are wood core, miter-fold construction with full-extension, 1/2" ball-bearing slides.

Door is hinged and is rigid thermoform foil.

Integral pull on doors and drawers is standard.

Drawer fronts are rigid thermoform foil.

Bedside table case is Low-Pressure Laminate.

Base is painted in 4799 Platinum Metallic only.

Actual Dimensions

Depth 18"

Box Width 18"

Top Width 24¹/₄"

Height 30"

Product Details

Edges on cabinet cases are matching 1 mm plastic trim for Low-Pressure Laminate. Rigid thermoform drawer and door front edges are wrapped in thermoform foil.

30"H bedside tables are available with three drawers or with one small drawer and a door cabinet below. Door is available hinged on the left or right. A left-hand unit has hinge on left side of door. A right-hand unit has the hinge on right side of door.

Euro hinge is standard on cabinet doors and allows the door to open a full 110° for easy access.

Grain direction matches vertically on all drawer and door sets in cabinet.

Integral drawer pulls are standard.

Casters are optional. They have a 2½" diameter and are non-marring. The front casters swivel for steering and are lockable to hold the table in place when necessary. The back casters swivel and do not lock.

Rear rollers and front glides are optional to assist in moving the table. Rear rollers are non-directional and are placed adjacent to the rear legs.

Gallery rails are available as an option. Rails are a stained veneer that match the case finish.

Lock is optional and factory- or field-installed to secure the doors or top drawer of the cabinet. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, Page 398.

Connections

Cam-lock assembly hardware is used.

Bedside tables are free-standing and do not need to be ganged to other furniture or bolted to the floor.

Senza Wardrobe Cabinets

Wardrobe cabinets are available in single-door and double-door versions and may be specified with drawers to meet diverse storage needs.

Top is Low-Pressure Laminate with 3 mm plastic edge to match fronts.

Hanger bar runs the width of each cabinet.

Wardrobe cabinets are provided in Low-Pressure Laminate to match fronts.

Back is finished to match fronts.

Doors have hinges and are available in rigid thermoform or Low-Pressure Laminate.

Wood-leg base is standard on cabinets.

Fixed shelf provides an additional storage surface. Shelf is Low-Pressure Laminate to match case.

Bow pulls on doors and drawers are standard in brushed nickel.

Drawers are wood core, miter-fold construction with full-extension, 1/2" ball-bearing sides.

Drawer fronts are rigid thermoform or Low-Pressure Laminate.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1 1/2".

Product Details

Edges on cabinet cases are matching 1 mm plastic trim for Low-Pressure Laminate. Drawer and door edges are matching 3 mm plastic trim for Low-Pressure Laminate. Rigid thermoform drawer and door fronts have the edges wrapped in thermoform foil.

Single-door cabinets are hinged on the left or right side. A left-hand unit has the hinge on the left side of the door. A right-hand unit has the hinge on the right side of the door.

Double-door cabinets open from the center out.

Bottom drawer is available on single- and double-door cabinets.

Actual Dimensions

Depth 24"

Width 24" or 36"

Height 68"

Grain direction matches vertically on all door combinations. Grain direction also matches vertically on all drawer sets.

Additional bases are available as an option. Optional bases include:

- Enclosed base on cabinets with rigid thermoform or Low-Pressure Laminate fronts.
- Metal base on cabinets with rigid thermoform or Low-Pressure Laminate.

Euro hinge is standard on cabinet doors and allows the door to open a full 110° for easy access.

Center vertical divider is optional for use on 36"W double-door cabinets only. Divider matches the finish of the cabinet and is Low-Pressure Laminate for Low-Pressure Laminate cabinets. The center divider is shipped installed.

Bow pulls are standard.

Flat Knob

Opus

Jazz

Line

Additional door and drawer pull options are available. Optional pulls include:

- Flat knob pull
- Opus pull
- Jazz pull
- Line pull

J-bar control is available as an option on 24" and 36" wide wardrobes and attaches to the underside of the fixed shelf. This is the suggested option when patient safety is a concern.

Lock is optional and factory- or field-installed on single-door and double-door wardrobe cabinets without drawers. Factory-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, Page 398

Single-door wardrobe with drawer has one lock in door and one lock in drawer. Locks are available field-installed only.

Double-door wardrobe with drawer has one lock for doors and one lock in drawer. Locks are available field-installed only.

Connections

Cam-lock assembly hardware is used.

Wardrobe cabinets must always be fastened to a wall. Attachment hardware is included with cabinets.

Surface Materials

Wardrobe cabinet and fixed shelf

- Low-Pressure Laminate

Top

- Low-Pressure Laminate with 3 mm matching plastic edge

Drawer fronts

- Low-Pressure Laminate
- Rigid thermoform

Door fronts

- Low-Pressure Laminate
- Rigid thermoform

Door and drawer pulls

- Brushed nickel on bow pull
- 9211 Nickel on flat knob pull (option)
- Champagne on Opus pull (option)
- 9211 Nickel on Jazz pull (option)
- 4799 Platinum Metallic on line pull (option)

Hanger bar

- Black only

Base

- Low-Pressure Laminate on enclosed base
- Wood veneer on wood-leg base
- 4799 Platinum Metallic on metal base

Locks

- 9201 Polished Chrome only

Senza Dressers

Dressers are available with three- and four-drawer configurations for storage of clothing in patient rooms.

Dresser is available in Low-Pressure Laminate to match fronts.

Top is available in rigid thermoform to match rigid thermoform fronts and High-Pressure Laminate with 3 mm plastic edges to match Low-Pressure Laminate fronts.

Back is finished to match fronts.

Drawers are wood core, miter-fold construction with full-extension, 1/2" ball-bearing sides.

Adjustable glides adjust for installation on uneven floors. Adjustability range is 1 1/2".

Drawer fronts are rigid thermoform or Low-Pressure Laminate.

Wood-leg base is standard on cabinets.

Bow pulls on drawers are standard in brushed nickel.

Actual Dimensions

Depth 18"

Width 32"

Height 30" or 38"

Product Details

Edges on cabinet cases are matching 1 mm plastic trim for Low-Pressure Laminate. Drawer and door edges are matching 3 mm plastic trim for Low-Pressure Laminate. Rigid thermoform drawer and door fronts have the edges wrapped in thermoform foil.

Grain direction matches vertically on all drawer sets in cabinet.

Bow pulls are standard.

Flat Knob

Opus

Jazz

Line

Additional door and drawer pull options

are available. Optional pulls include:

- Flat knob pull
- Opus pull
- Jazz pull
- Line pull

Additional bases are available as an option. Optional bases include:

- Enclosed base on cabinets with rigid thermo form or Low-Pressure Laminate fronts.
- Metal base on cabinets with rigid thermoform or Low-Pressure Laminate.

Lock is optional and factory- or field-installed to secure the top drawer of the cabinet. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

▶ Lock and Keying, Page 398

Solid surface top is available as an option on cabinets with Low-Pressure Laminate or wood fronts only.

Connections

Cam-lock assembly hardware is used.

Dressers must always be fastened to a wall. Attachment hardware is included with dressers.

Bow pulls are standard.

Flat Knob

Opus

Jazz

Line

Additional door and drawer pull options are available. Optional pulls include:

- Flat knob pull
- Opus pull
- Jazz pull
- Line pull

Vent slot extends the entire width of the cabinet for even airflow and improved moisture control.

Casters are optional. They have a 2½" diameter and are non-marring. The front casters swivel for steering and are lockable to hold the table in place when necessary. The back casters swivel and do not lock.

Rear rollers and front glides are optional to assist in moving the table. When selecting option for metal or enclosed base, rear rollers are non-directional and are placed adjacent to the rear legs. When selecting option for wood base, rear rollers are non-directional and replace rear legs.

Gallery rails are available as an option. Solid wood rails are positioned on the back and sides of the top.

Lock is optional and factory- or field-installed to secure the top drawer of the cabinet. Factory-installed locks are available keyed random only. Optional field-installed locks are available with consecutive, specific, or random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, Page 398

Solid surface top is available as an option on cabinets with Low-Pressure Laminate fronts only.

Connections

Cam-lock assembly hardware is used.

Bedside tables are free-standing and do not need to be ganged to other furniture or bolted to the floor.

Opus Mobile Overbed Table

Mobile overbed table with mechanical column

provides a height-adjustable surface to support patient and caregiver needs including eating, writing, or personal storage space.

Table top is seamless thermoform overcoated top. Patient's primary surface provides spill retaining edges and height adjustability.

Cup holders are integrated to avoid spills. It is 3½" in diameter.

Caregiver and patient secondary surface remains stationary for ready-use.

Open cubby on end of secondary surface accommodates charts or other materials.

Primary vertical surfaces allows for mounting of accessories and matches Opus finishes and aesthetics.

Concave surface enables table to be close to the patient.

Lever on both sides of top allows for non-handed application.

Supplemental sliding surfaces are available for non-handed application. This option reduces the height of the open cubby from 6.4" to 4.05".

Impact resistant plastic column bumper protects table as it interfaces with other elements.

Dual casters are standard for easy maneuverability.

Base cap is seamless impact resistant plastic with a low profile to slide easily under beds and chairs.

Actual Dimensions

Overall depth	18"
Overall width	48"
Height with fixed surface	38"
Height with adjustable surface	28½"-44"
Depth of fixed surface	18"
Width of fixed surface	13"
Depth of adjustable surface	18"
Width of adjustable surface	34"
Depth of base	16½"
Height of base	27⁄8"

Product Details

Supplemental sliding surfaces are available as an option to provide extra surface space on both sides. This option reduces the height of the open cubby from 6.4" to 4.05".

Adjustable height range of overbed table with mechanical column allows the table top height to be positioned in a 28 1/2"H-44 1/2"H range from floor. Breakaway safety feature is standard.

Vanity drawer mirror option is available for placement under patient surface. Two-sided for non-handed applications.

Surface Materials

Table top and supplemental sliding surface

- Dune thermoform

Tip: As of February 2020, finish name has changed from sand to dune.

Primary vertical surface

- High-Pressure Laminate with 3 mm plastic edge band

Mechanical column

- Chrome

Casters

- Black only

Base

- Dune only

Shipping

Table ships fully assembled.

Mobile Overbed Tables with C-Base

Mobile overbed tables with C-base are available to hold food trays, and personal items, and to provide a writing surface.

Rectangular tops are offered in High-Pressure Laminate with plastic edge band or rigid thermoform with spill collector top.

Mechanical column adjusts table height. Breakaway safety feature is standard.

Adjustable-height, heavy duty C-base is standard in chrome.

Casters allow the tables to move easily.

Product Details

Adjustable-height C-base allows the table top height to be positioned in a 30"H–45⁵/₈"H range (to top of table).

Spill collector top includes a trough to collect and prevent liquids from spilling over the edge.

Vanity drawer is available as an option to store small personal items. Drawer includes a mirror and is non-locking. Two-sided for non-handed applications.
Tip: Vanity drawer is not available with kidney top overbed tables.

Surface Materials

Rectangular table top

- High-Pressure Laminate
- Rigid thermoform

Edge band on top

- 3 mm plastic to match High-Pressure Laminate top

Adjustable-height C-base

- Chrome

Vanity drawer

- Almond only

Casters

- Black only

Shipping

All tables ship knocked down.

Actual Dimensions

Width of top	34"
Depth of top	18"
Table top height	30"–45 ⁵ / ₈ "
Width of base	33"
Depth of base	18"
Height of base	3 ⁷ / ₈ "

Mobile Overbed Tables with U-Base

Mobile Overbed Tables with U-Base

Accessories

Mobile overbed tables with U-base are available in three top shapes and two sizes to hold food trays, and personal items, and to provide a writing surface.

Rectangular table top is High-Pressure Laminate with plastic edge band or rigid thermoform with spill collector top.

Rectangular top

Adjustable-height U-base has a low profile and is standard in chrome.

Low profile U-base

Casters allow the tables to move easily.

Kidney top

Mechanical column adjusts table height. Breakaway safety feature is standard.

Oval top

Actual Dimensions

Width of top	30" or 34"
Depth of top	15" or 18"
Table top height	28 ⁵ / ₁₆ "–44"
Width of base	34 ³ / ₄ "
Depth of base	18"
Height of bases	2 ¹ / ₂ "

Product Details

28⁵/₁₆"H to 44"H

Adjustable-height U-base allows the table top height to be positioned in a 28⁵/₁₆"H–44"H range (to top of table).

Spill collector top includes a trough to collect and prevent liquids from spilling over the edge.

Vanity drawer is available as an option to store small personal items. Drawer includes a mirror and is non-locking. Two-sided for non-handed applications. *Tip: Vanity drawer is not available with kidney top overbed tables.*

Surface Materials

Rectangular table top

- High-Pressure Laminate
- Rigid thermoform

Kidney and Oval table tops

- Rigid thermoform with spill collector

Edge band on top

- 3 mm plastic to match High-Pressure Laminate top

Adjustable-height U-base

- Polished chrome
- Platinum metallic

Vanity drawer

- Almond only

Casters

- Black only

Shipping

All tables ship knocked down.

Pocket

Pocket includes easy to roll carts that provide a mobile worksurface, simple technology support, light storage, and magnetic accessories.

Cubby is molded soft plastic and provides for cable storage. Easily removeable without use of tools for cleaning.

Top is textured powder coated steel with softened edges and waterfall front edge with integral handle.

Fixed or adjustable height column is available and accommodates cable pass through from monitor down to the cable cubby with grommated outlet through the bottom of the cubby.

Back and side wrap of bin unit is available in 7243 Seagull paint only.

Technology bay back wrapper is available in 7190 Platinum Solid paint only.

Technology bay front wrapper is available in 7243 Seagull paint only.

Technology bay is powder coated steel with internal adjustable nylon strap for secure retention of technical components. Bays have front and rear ventilation and a grommated opening in rear for cable outlet.

Monitor mount is standard on 25"x24" top surface. 75 and 100MM VESA mount allows for 20 pound capacity. VESA mount is adjust-able for various angles on the vertical axis and accommodates cables. Monitor mount adds 13 1/2" to overall height.

Drawers and top and bottom of bin unit are available in 6249 Platinum Solid or 6260 Coastal plastic.

Two bin unit has wrapped sides and back and is textured painted steel. Bins have integral pulls and molded slides with in and out stops. Bins are interchangeable and easily removeable for cleaning. Interior dimensions are approximately 12" x 8 1/2" x 4".

Quiet soft casters have quick locking mechanism on front casters and are 4".

Base is powder coated cast aluminum available in 7243 Seagull paint only.

Relay

Relay arm provides a fixed platform for technology that is easy to use and offers incremental height adjustment to meet user needs in a health-care environment.

Relay arm is standard with 75 mm/100 mm VESA mounting bracket and supports monitors weighing up to 20 pounds.

Wall-mount column is available with 34" track length and includes cable cover.

Track allows 22" of height adjustment to accommodate the transition from standing to sitting positions.

Pivot limiter protects unit by eliminating contact with the wall.

Extension arm for 34" tracks, ordered separately, provides a 20" extension.

Worksurface provides a 27"W x 10"D surface to accommodate documents or accessories.

Keyboard tray for 34" tracks flips up for easy storage when not in use.

Whiteboard on underside of keyboard tray.

Features

	• Monitor Height Adjustment	• Maximum Weight	• Arm Reach	• Monitor Rotation	• Tilt Range	• Mounting Standard
Relay Arm	9½"H	20 lb	10"L–42"L	180°	45°	VESA 75 mm/100 mm

Product Details

Monitor tilt range is 45°.

Monitor has a height adjustment range of 9 1/2".

Keyboard tray flips up for easy storage when not in use.

Track allows height adjustment of 22", to accommodate the transition from standing to sitting positions.

Pivot limiter provides varying degrees of stop rotation and is standard.

Adjustable keyboard tray angle adjusts from 0° to 15°.

Extension arm adds 20" to the length of arm unit and is ordered separately.

Standard CPU holder is 10"W and 7 1/4"H.

Enclosed CPU holder provides for an increased level of security for the CPU. Enclosed CPU holder is 4"D x 15 3/4"W x 12 1/8"H. Maximum recommended wattage of CPU is 396 watts.

Relay arm conveniently stores 9 1/2" from the wall when not in use.

Wall-mount column is available with 34" track length, and is 5" wide.

Monitor rotates independently 180° left to right.

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional fee per unit. See the specification pages for upcharge information.

- Applies to:
- Sync worksurfaces

Steelcase Health Laminates that are not called out as standard on Steelcase products will be processed as an Open Line Laminate and Open Line Laminate charges will apply.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line Laminate on Folio and Sync, specify 2900 in the laminate finish field and enter the OLL manufacturer information.

Edge bands must also be specified using the plastic edge band offering.

Modular Casegoods Directional Laminate

The appearance of laminate may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase or Steelcase Health product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call

1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

For Steelcase Health products, call 1.800.342.8562.

Steelcase Health Select Surface Programs

Steelcase Health Select Surface Program: Solid Surface

A collection of solid surfaces are available as part of a Select Surface Program. The collection is from the Corian solid surface offering. Samples can be ordered through corian.com

These solid surfaces are Select Surface for the Convey, Folio, Sync, and Senza products only. The collection on these pages is not Select Surface for other Steelcase brands or product lines.

To order these solid surfaces, enter the finish code which corresponds with the solid surface price group.

Price Group	Finish Code
A	29DA
B	29DB
C	29DC
D	29DD

Then enter the solid surface information in the Special Solid Surface Information pop up window. If prompted, enter the finish code CORIAN001 based on the solid surface supplier.

Ultrafabrics

A collection of textiles

are available as part of a Select Surface Program. The collection from the leading suppliers in the market consists of high-performance textiles that meet the demands of healthcare environments. Note that not all fabrics can be applied to all seating products. Refer to the Steelcase COM database for the most current application information.

To order these fabrics, enter the finish code which corresponds with the fabric price group.

Price Group	Finish Code
2	59DB
3	59DC
4	59DD
5	59DE
6	59DF
7	59DG
8	59DH
9	59DJ
10	59DK

Then enter the fabric information in the Special Fabric Information pop up window.

Fabric application direction must be specified.

► See page 395 for *Fabric Application Direction Guidelines* to ensure fabric is specified in the correct direction.

For a comprehensive list of patterns and price grades in Steelcase Health offering, visit steelcasehealth.com/resources/grade-in

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Other fabrics are patterned, textured, or have luster that will have a distinctly different appearance applied in a different direction on a chair. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase Health products, it is important to understand fabric application direction when ordering a product to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the “warp” yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll.

It is NOT determined by the way the pattern looks on the product. For example, the image below shows the fabric applied warped horizontal although the stripes appear vertical.

Terminology

Steelcase uses the terms warped horizontal and warped vertical. There are other terms within the industry that are used that have the same meaning:

- Warped horizontal is also referred to as: railroaded or across roll
- Warped vertical is also referred to as: woven way, down roll, or top out

Why is it important?

Dealers must specify fabric application direction when ordering COMs and Steelcase Health Select Surface fabrics. We require the dealer to specify the direction because we do not know which way customers want to see a pattern on the furniture. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase Health builds and ships each order to the customer's expectation each and every time.

Incorrect?

Correct?

How do I know which way the fabric comes off the roll?

Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Vinyl

Vinyl generally only passes on Steelcase Health product in a horizontal or across roll direction. This is due to physical properties of the material. If a vinyl is applied in the opposite direction, too much stretch in the material can compromise the overall aesthetics of the final upholstery. If a patterned vinyl is being specified and the vinyl must be run in a vertical direction, pre-approval must be arranged through Steelcase Health. Steelcase Health will consider the request and a decision will be made based on the specific vinyl and product combination. Contact Steelcase Health's Customer Care line.

Required Action Steps before Specifying

1. Verify by using Steelcase's COM website that the fabric is approved on the product.
2. Verify the direction that the fabric can be applied. Occasionally a fabric is only approved in one direction.
3. Confirm with the customer how they want the fabric to look on the furniture.
4. Confirm using the swatch card or vendor's website the direction the sample is shown.
5. Now you're ready to place the order.

Lock and Keying

For Use with Convey, Folio, Park, and Senza

Locks are optional and factory or field-installed to secure the doors or top drawers of a cabinet. Factory-installed locks are available keyed random with consecutive, specific, or random keying options. Master-key locks are also available. Field-installed lock cylinders must be specified separately.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Optional factory-installed locks are always key random or master key random. Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR999 (Master keying numbers: XF1001 to XF3000).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders. ▶ See below.

Key Random

- FR305
 - FR421
 - FR305
 - or
 - XF1011
 - XF1042
 - XF1011
- } XF Master Key

Required to Specify

Master key random	+\$39	Specify with master key random.
--------------------------	-------	---------------------------------

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Three keying choices are available for field installation — random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key Random

- FR305
 - FR421
 - FR305
 - or
 - XF1011
 - XF1042
 - XF1011
- } XF Master Key

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR999 (Master keying numbers: XF1001 to XF3000).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR999 (Master keying numbers: XF1001 to XF3000). This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification. ▶ See example at right.

Key Specific

- FR350
 - FR350
 - FR350
 - or
 - XF1020
 - XF1020
 - XF1020
- } XF Master Key

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR999 (Master keying numbers: XF1001 to XF3000).

Key Consecutive

- FR350
 - FR351
 - FR352
 - or
 - XF1020
 - XF1021
 - XF1022
- } XF Master Key

Example of a typical lock cylinder specification is shown below:

10	LOCKFR FR320
5	LOCKFR FR350
15	LOCKXF XF1100
<hr/>	
30	Total
1	877102003SR standard lock tool
1	877102002SR master lock tool

Field-Installed Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Wood Touch-Up Kits

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J.Kaltz Co. Specific Steelcase finish codes (such as 3422) can be found under Finishes > Dealer Kits. Each kit contains one brush tip marker and one fill stick.

Place orders as follows:

- Phone: 616.942.6070
- Web: <http://www.jkaltzco.com>
