

Steelcase

Steelcase Karman

High-Performance Seating

Beyond Mesh

Sit back and let physics do its job. With a proprietary performance textile and an impossibly light frame, Karman goes beyond leading mesh office chairs to provide effortless comfort by naturally responding to a body's movement.

Design Details

Comfort is built into every aspect of Steelcase Karman—the suspension seat with integrated cushioning provides maximum comfort for as long as you sit and the ultra-light frame flexes to eliminate painful pressure points common in other mesh chairs.

Performance Features

Intermix with LiveBack®

Weight-Activated Mechanism
+ Boost Tension Setting

High Back Option

Patented Hybrid Seat

Features

LiveBack®
LiveBack® technology conforms to support the full spine in its natural, healthy S-shape and excels in providing continuous lower-back support.

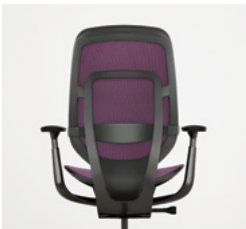

Weight-Activated Synchro-Tilt Mechanism
A weight-activated mechanism responds intuitively to your body as you sit and change postures in every direction.

Recline Adjustments
Comfort dial offers four settings: Upright back lock, mid-back stop, a boost setting (offers additional recline tension resistance for individuals who need it) and weight-activated full recline.

4D Arms
Fully adjustable arms move in height, width, depth, and pivot to better support your neck and shoulders. The cantilevered arm design encourages posture change.

Lumbar Support
Optional added lumbar support lets you customize support for your lumbar region.

Patented Hybrid Seat
The suspension seat with integrated cushioning provides maximum comfort for as long as you sit.

Comfort Edge
The ultra-light frame flexes to eliminate hard edges and pressure points on your legs and body, encouraging natural movement throughout your day.

Additional Options:

- Stool or high back chair
- 4D arms (standard), height-adjustable arms, fixed arms or armless
- Hubless and standard hard casters, soft casters, or glides
- Polished Aluminum Fixed Arm
- CarbonNeutral® Product Certification

Karman helps organizations achieve their carbon emission goals. Add **CN** to the end of the style number to specify Karman with CarbonNeutral product Certification.
