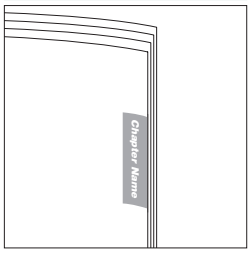
Resources 149

For ordering or product assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

For Canadian Pricing
Canadian factor can be found at www.steelcase.com/CADpricing.
Calculate in the following order to avoid rounding errors:
- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

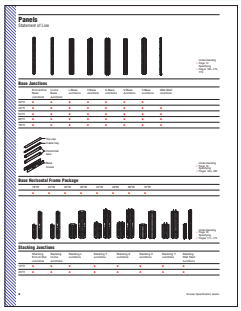
Ten Tips:
How to Get the Most Out of This Book

Tip 1



Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2



Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

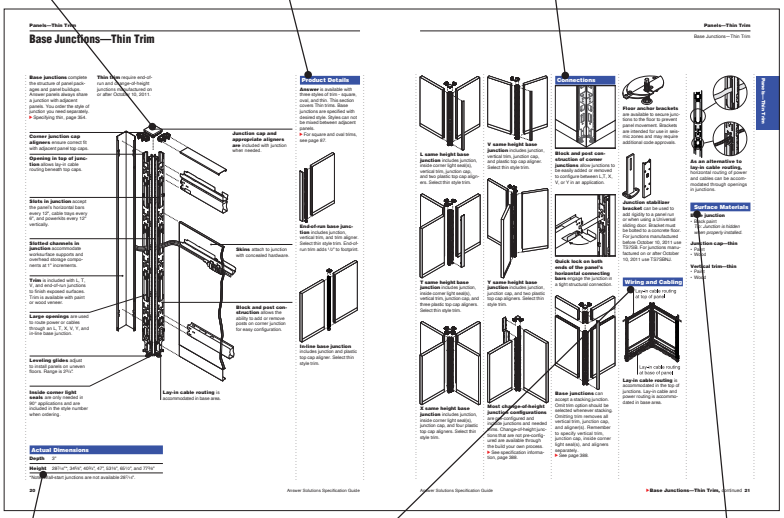
Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.



Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Steelcase
February 2026

Tip 5

Refer to the specifying pages for all the information needed to order a product. Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
  - Dimensions
  - Style Number
  - Price

Standard Includes
(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify
(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information
(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the product looks like.

396 Answer Solutions Specification Guide

Answer Solutions Specification Guide 397

Options
(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products
provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify *with Customiz Stain*

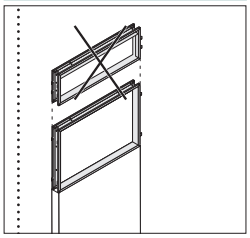
Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.
Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8



Learn what you cannot do by looking for drawings crossed out with an "X."

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

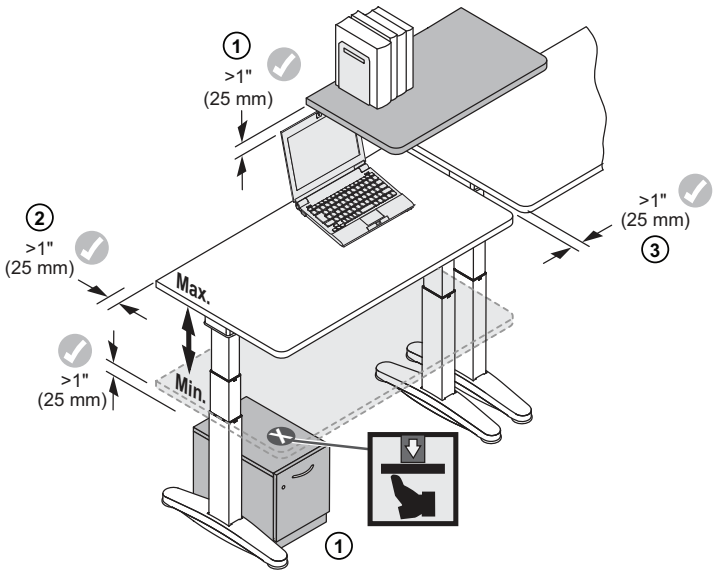
Workstation Design Guidelines and Requirements



⚠WARNING

Risk of serious injury. If not used as intended, moving worksurfaces can pinch or injure people, or damage property. Always follow theses Instructions:
1. Keep height-adjustment range free from obstructions above and below the worksurface.
2. Plan for a minimum 1" gap against a panel or wall.
3. Plan for a minimum 1" gap to adjacent furniture.

Design of the specific application and integration of Mackinac with other furniture or objects in the space must maintain the minimum one inch horizontally from the height-adjustable worksurface (including the control switch) in all directions and keep the height adjustment range free from obstructions above and below the worksurface.

For example, if Elective Elements floating shelves in a wall-mount application are included in the workstation, the designer must ensure the shelves do not encroach into the minimum 1" clearance or into the height adjustment range.
Note: Stand-alone Mackinac applications with integrated shelving within the tower are already designed to maintain the minimum required clearances, but other objects in the space must be addressed by the workstation application design.

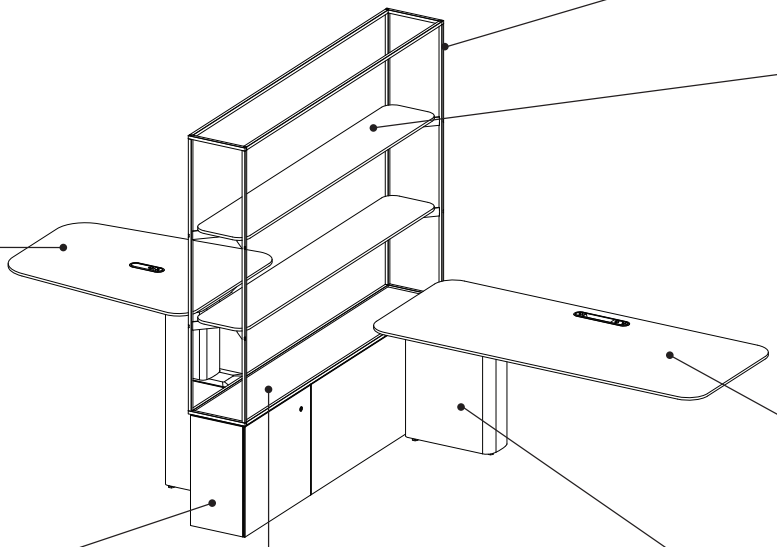
Mackinac Settings

Mackinac is a furniture solution that creates a collection of microzones to optimize everyday work—from critical focus time to collaborating. Mackinac also supports movement as leaders and their teams transition throughout the dynamic workday.

Tower lights are an option.



Towers provide a higher level of boundary separation between users, or zones, within the office.

Tower shelves allow users an opportunity to customize their space and display personal items.

Collaborative worksurfaces create a small meeting zone within the private office or open plan.

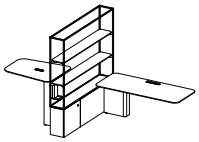
Personal worksurfaces support the individual's need for focus work, while also providing uninterrupted kneespace for guest collaboration.

Foundation top skin lifts off for easy access to power and cabling routed inside the foundation.

The foundation defines spatial boundaries while supporting the worksurfaces, power routing, and providing drawer storage.

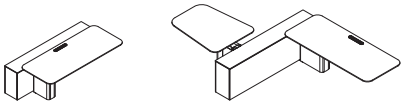
Worksurface column supports the cantilever structure and is available in fixed standing height, fixed seated height, or height adjustable.

Product Details

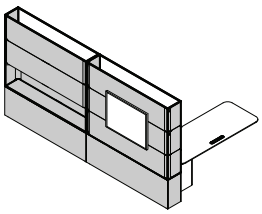


Mackinac is typically specified as a complete setting with a foundation. Mackinac settings include:
- Foundation
- Personal worksurfaces
- Collaborative worksurfaces
- Towers (optional)
- Tower lighting (optional)

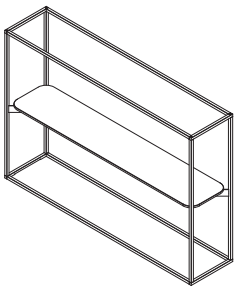
CET SmartTools is designed to support the ordering process to reduce application errors and ensure stability.
Tip: Worksurfaces can be ordered separately for wall-mount applications.



Settings with worksurfaces can be ordered as single-sided or dual-sided with a variety of worksurface combinations (personal and collaborative) and configurations (perpendicular and parallel). Worksurface placement, left, right, or center, is configured within CET SmartTools.

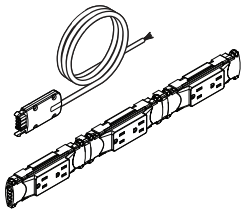


Foundation settings without worksurfaces are specified for additional storage or as open plan space division or for collaborative settings. Towers are included as an option.



Towers for Mackinac settings are specified as an option within the setting configuration. Towers are also available as separate style numbers for later additions to existing installations.

Connections



Foundation power starter kit includes power infeed for Mackinac settings. The starter kit is ordered separately from the setting and is required to provide power to worksurfaces, tower lighting, and tower mounted monitors.
▶See *Foundation Power Starter Kit*, page 30.

Tower shroud

Privacy/modesty screen

Tower shrouds and worksurface privacy/modesty screens are ordered separately from Mackinac settings.
▶See *Tower Shrouds*, page 33.
▶See *Privacy/Modesty Screens*, page 34.

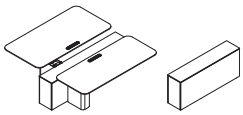
Height	11 1/8"	11 1/8"	11 1/8"	11 1/8"

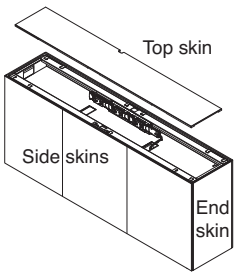
Product Details



Foundation with two parallel worksurfaces

Foundation

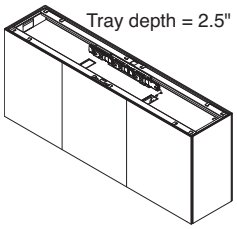
Foundations can be ordered with worksurfaces for workstation settings or without worksurfaces for additional storage, space division, or collaborative settings.



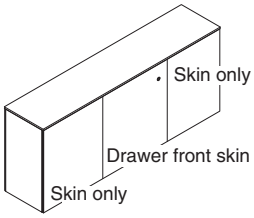
Foundation side and end skins are available in laminate, veneer, glass, or Corian and must all be specified in the same finish. They attach to the foundation frame and are field installed.

The top skin is available in laminate, veneer, glass, or Corian and is allowed to be a different finish and materiality from the other foundation skins.

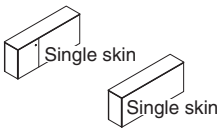
Top skins for foundations with towers are undersized to accommodate the tower frame. Top skins are available as a separate style number for future reconfigurations where towers are added or removed.



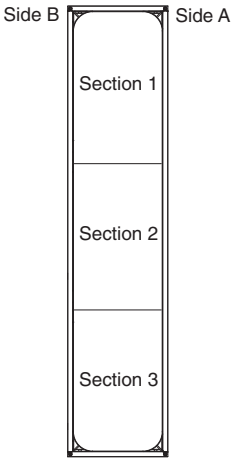
Ample space within the top channel of the foundation allows for power infeed harnesses, power and data cables, and power jumpers. Top skin lifts off for access to outlets and connections.



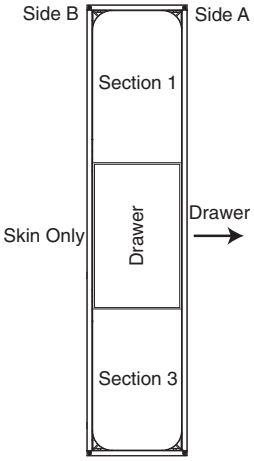
Side skins can be skin only or drawer front skins. Skins which are skin only are used behind desk columns, on the opposite side of the foundation from drawers, or if drawers are not desired. Drawer skins are specified as "drawer".



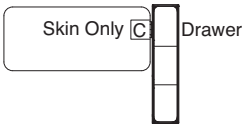
Skins specified in side-by-side sections will drive a single larger skin covering each segment.



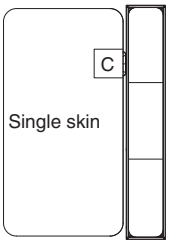
For planning purposes foundations are divided into three sections with a designated Side A and Side B. Worksurface columns, drawers, and skins can be positioned in these sections.



Drawers occupy a full section and will open to the side specified. The opposite side of the drawer must be a skin only.

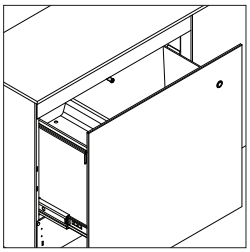


Drawers may not be placed in the same postion as a column. Worksurface columns (C) require a skin only. A drawer can occupy the opposite side of the section unless a HD (heavy duty) counterweight is required.



In parallel worksurface applications, drawers cannot be placed below the worksurface. A single skin will cover all sections.

▶See *Mackinac Application Guidelines* for more detailed information about drawer, worksurface, counterweight locations, and rules.

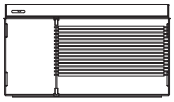


All drawers come standard with push to open touch latch, which provides a clean aesthetic uninterrupted by pulls.

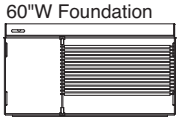
Drawer widths vary by the width of the foundation:

- 18" for 54"W foundation
- 20" for 60"W foundation
- 22" for 66"W foundation
- 24" for 72"W foundation

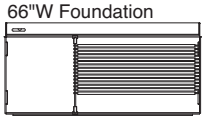
18"W Drawer
54"W Foundation



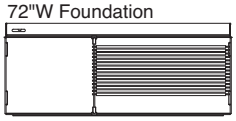
20"W Drawer
60"W Foundation



22"W Drawer
66"W Foundation

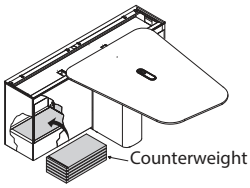


24"W Drawer
72"W Foundation

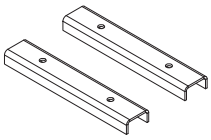


All drawers come standard with one file rail, and 0.833 linear feet of filing capabilities. Only front to back filing is accommodated. Legal filing is capable in 60"W foundation drawers and larger. If the personal drawer accessory package is specified, the file rail can not be used.

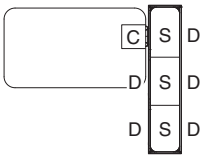
A personal drawer accessory package is available **(MCKDRWACC)**. This package includes a PET (polyethylene terephthalate) drawer liner, drawer light, and pencil tray. The drawer light is battery powered and takes four AA batteries. The light utilizes a sensor so that it automatically turns on and off. The backing is magnetic and can attach to any desired position inside the drawer or onto the pencil tray.



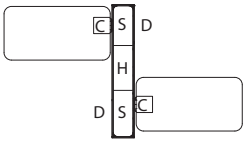
Foundation counterweights are required for some configurations, due to the varying weight of the cantilevered worksurface. Some configurations require a standard counterweight package, whereas others require a heavy duty (HD) counterweight package.



A floor mounted foundation is available as an option on all foundations, as an alternative to counterweights. The foundation floor attachment kit is also available as a separate style number **(MCKBRKFL)**. If bolting to a raised floor, ensure the floor is connected to the building. Blocking may be required.



Configurations which require a standard counterweight package(s) consists of 15 individual plates. The 15 plates are divided evenly between each foundation section. The plates fit in the foundation cavity below drawers.

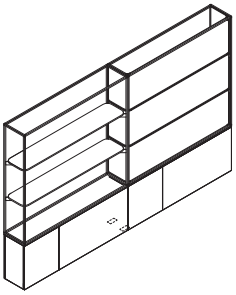


Configurations which require the HD counterweight package (H) consist of 30 plates. 15 plates are divided evenly between each section with the remaining 15 placed in the location indicated by H in the Application Guidelines and Assembly Directions.

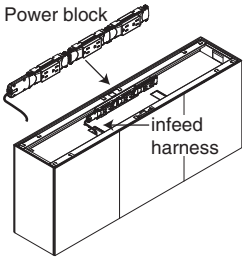
Configurations with HD counterweights, cannot have a drawer placed in that section of the foundation. Sections with standard counterweight (S) may have drawers (D) in that section. *Tip: Refer to Mackinac Guidelines for more information regarding counterweight locations.*

▶ See page 42

Connections



Ganging bracket is available to connect and align foundations end to end for larger settings. End skins are always shipped with the foundation and are removed when ganging bracket is used.



Foundation power starter kit is ordered separately for applications with foundations. Two-circuit starter kit includes power infeed harness and foundation power block with 3 15-amp duplex receptacles (6 power outlets).

▶ See *Power and Data* for more details about foundation power, page 35.

Wiring and Cabling

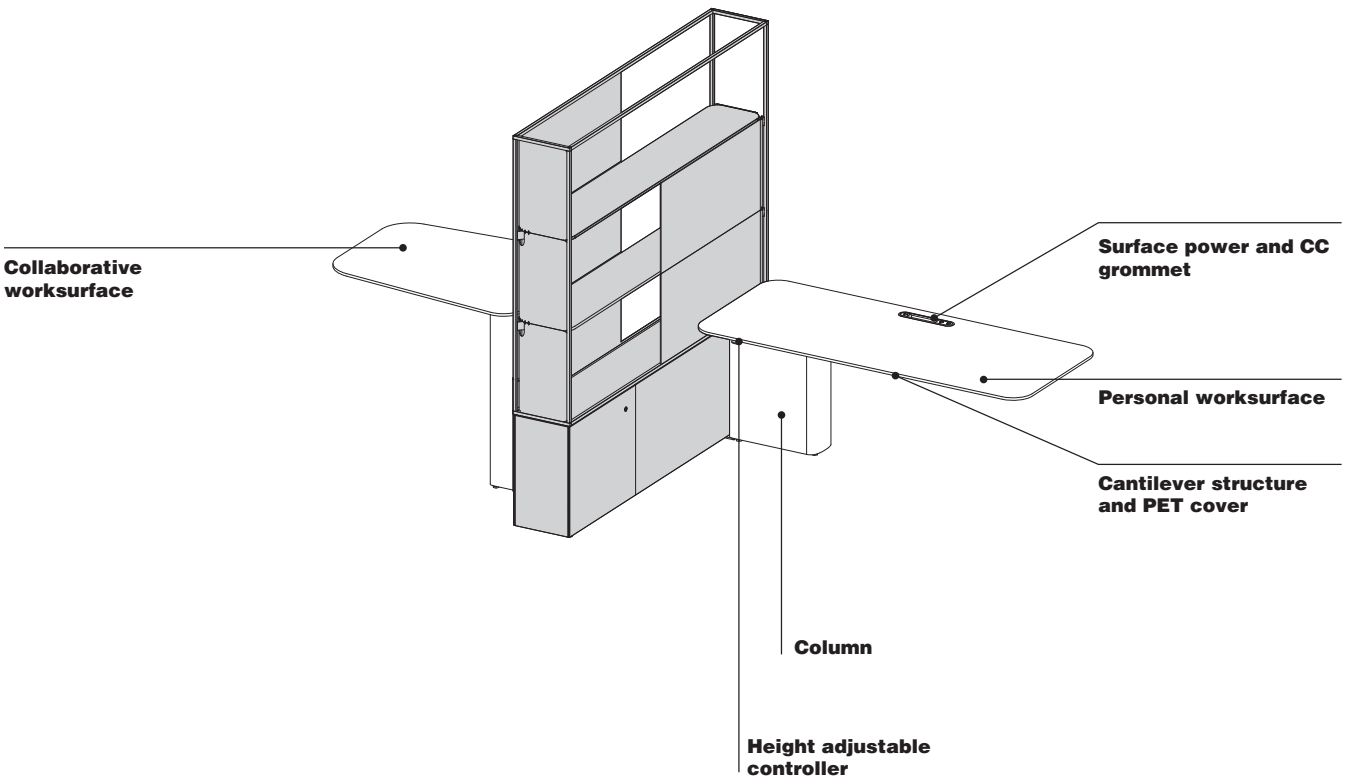
Height	11 1/8"	11 1/8"	11 1/8"	11 1/8"

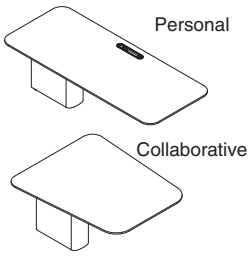
Mackinac Worksurfaces

Mackinac worksurfaces are available as personal and collaborative. Personal worksurfaces support focus work while collaborative support meetings.



Product Details

Worksurfaces

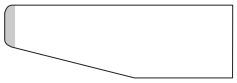


The two types of worksurfaces are personal and collaborative.

Worksurfaces are available as:
- Fixed seated height (28¼"H)
- Fixed standing height (41¼"H)
- Height adjustable (27½"H–44½"H)

Worksurfaces are available as laminate, veneer, glass, or Corian. Standard offering on glass is back-painted glass. Soft etch glass is available via Specials on worksurfaces only.

Worksurfaces are ¾" thick when laminate or veneer finish and ½" thick when solid surface or glass finish.

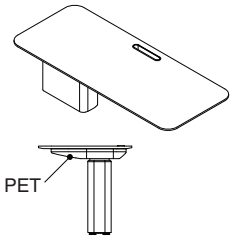


Slice Edge, Plastic or Wood Veneer

Solid Surface or Glass Edge

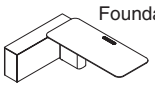
Worksurfaces are available in a slice edge profile with a laminate or veneer finish and a square edge profile with a solid surface or glass finish.

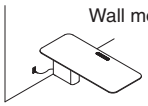
Laminate and veneer worksurfaces come standard with a 3 mm edgeband on all sides. The worksurface edge is always horizontal grain.



Worksurfaces come standard with a PET (polyethylene terephthalate) cover which conceals the worksurface cantilever structure.

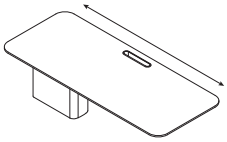
Columns are painted steel.



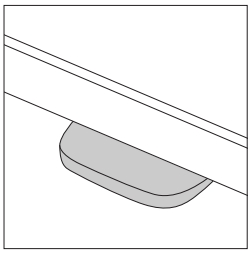


Worksurfaces are cantilevered from the column which attaches to the foundation.
▶See *Wall-Mount Worksurfaces*, page 26.

Personal Worksurfaces

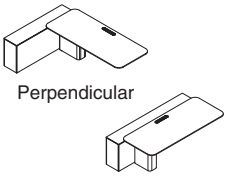


Personal worksurfaces are available in modular and parametric sizes with the exception of Corian solid surface. Collaborative worksurfaces are available in modular sizes only.

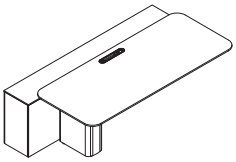


Simple touch controller comes standard with height-adjustable worksurfaces and easily adjusts height of worksurface at a rate of 1½" per second, by lifting or pressing down on the controller. The controller is mounted on the user side, in line with the column.

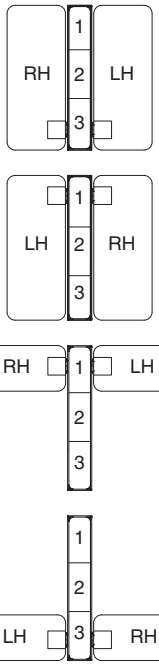
Mackinac height adjustable worksurfaces have a slow-down feature to prevent unexpected collisions when the worksurface is lowered. When lowering the worksurface from standing height, the worksurface will stop at approximately 34½"H, the controller must be released before pushing down again. From 34½" to 27½", the rate of downward adjustment will be slower.



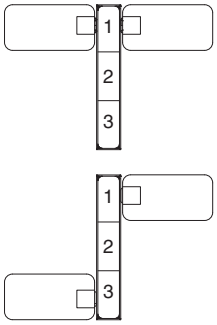
Personal worksurfaces can be perpendicular or parallel when planned with foundations or in wall-mount applications.



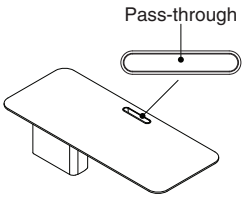
Personal parallel worksurfaces can never be longer than the foundation, however, 48"W personal worksurface can never be placed parallel.



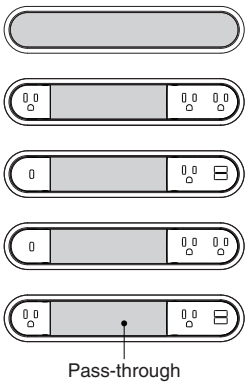
Personal worksurface handedness is determined by column location in relation to the user.



Personal worksurfaces are allowed to be placed in sections one or three. For dual-sided applications, they can be across from each other or placed yin yang from each other.
Tip: Refer to Mackinac Application Guidelines *for more information regarding worksurface locations.*
▶See page 42

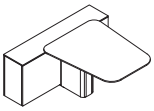


Personal worksurfaces are standard with surface power. The CC grommet features a cord pass through to permanent power connections below the worksurface. Surface power comes standard even when the no power or no surface power options are selected.

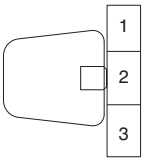


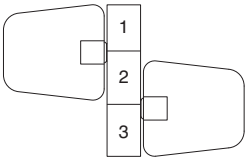
Surface power is available with no power (CC grommet only), standard power outlets, USB-A, and USB-C power combinations.
▶See *Power and Data* for more details about surface power, page 35.

Collaborative Worksurfaces

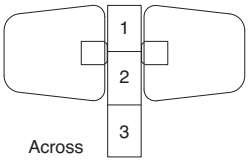


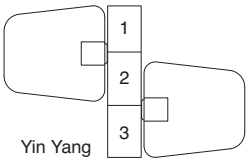
Collaborative worksurfaces are only available in modular sizes. They are always perpendicular to the foundation or wall.

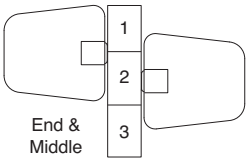




Collaborative worksurfaces are non-handed and are allowed to be placed in Sections 1, 2, or 3 when planned with foundations.



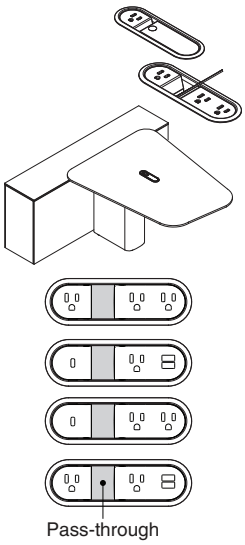




For dual-sided applications, they can be placed across from each other, or yin yang, or they can be placed on the end on one side and middle on the other.

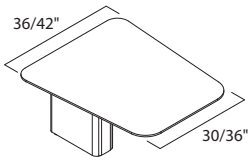
Tip: Refer to Mackinac Application Guidelines *for more information regarding worksurface locations.*

▶See page 42



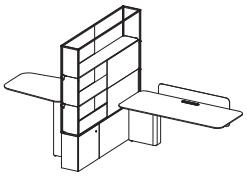
Collaborative worksurfaces are standard without surface power. Optional surface power is available with no power, standard power outlets, USB-A, and USB-C power combinations. The grommet has one exposed receptacle, a small passthrough, and a flipper door which conceals two receptacles. The pass through allows cord routing to permanent power below the worksurface.

▶See *Power and Data* for more details about surface power, page 35.



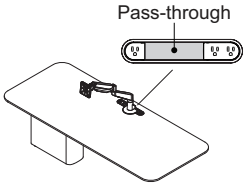
Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Connections



Privacy/modesty screens are available in back painted glass or fabric. The screens are attached to the worksurface and are 18"H or 24"H. They provide 6"H or 12"H desktop privacy and 12"H of modesty privacy below the worksurface.

Privacy/modesty screens are only allowed on personal, perpendicular worksurfaces.



CF Series monitor arms (listed below) with C-clamp option can mount through the CC grommets of personal worksurfaces.

- CF Intro—all versions with C-clamp option
- CF Plus—all versions with C-clamp option
- CF Plus HD—all versions with C-clamp option.

A maximum of 35 pounds (including monitor and arm) is allowed for laminate and veneer worksurfaces. Clamping to glass or solid surface is not allowed, free-standing monitor stands are recommended.

For edge mount c-clamping, contact Studio (Specials) for a special wedge bracket which will accommodate mounting to the knife edge of Mackinac.

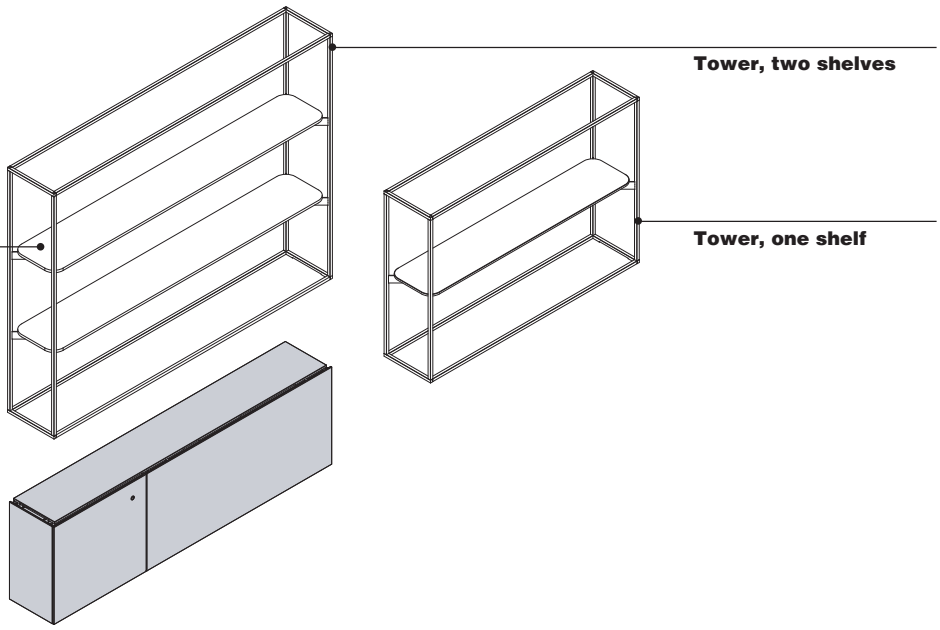
Dimension	Planning Dimensions for Personal Worksurface	Actual Dimensions for Personal Worksurface
Depth	30" or 36"	29" or 35"
Parallel Width	54", 60", 66", or 72"	52", 58", 64", or 70"
Perpendicular Width	48", 54", 60", 66", or 72"	46", 52", 58", 64", or 70"
Height	27¼"– 44½"	27¼"– 44½"
	Tip: Parametric personal worksurface depth can be specified in 1/16" from 30"D–36"D.	*Tip: Worksurfaces are undersized to eliminate pinchpoints when height adjustable.*
	Tip: Parametric personal worksurface width can be specified in 1/16" from 54"W–72"W.	

Dimension	Planning Dimensions for Collaborative Worksurface	Actual Dimensions for Collaborative Worksurface
Depth	42", 48", or 54"	41", 47", or 53"
Width	36" or 42"	36" or 42"
Height	27¼"– 44½"	27¼"– 44½"
	Tip: If 36"W is specified, the only available depth is 42"D.	*Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.*
	Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.	*Tip: Worksurface dimensions are undersized to eliminate pinchpoints when height adjustable.*

Dimension	Actual Dimensions for Fixed Column		Actual Dimensions for Height-Adjustable Column	
	Parallel	**Perpendicular**	**Parallel**	**Perpendicular**
Depth	14⅝"	18½"	14"	18"
Width (Front)	6"	6"	7¼"	7¼"
Width (Back)	7¼"	7¼"	N.A.	N.A.
Seated Height	28¼" or 28½"	28¼" or 28½"	N.A.	N.A.
Standing Height	41¼"	41¼"	N.A.	N.A.
Height	N.A.	N.A.	27½"–44½"	N.A.
	Tip: When column is wall attached, it adds ¼" to the depth of the column. The gap between the worksurface and the wall then becomes 1¼" instead of 1".			

Mackinac Towers

Towers attach to foundations to provide space division, shelf storage, and privacy. They must match the width of the foundation and are specified as an option to Mackinac settings.

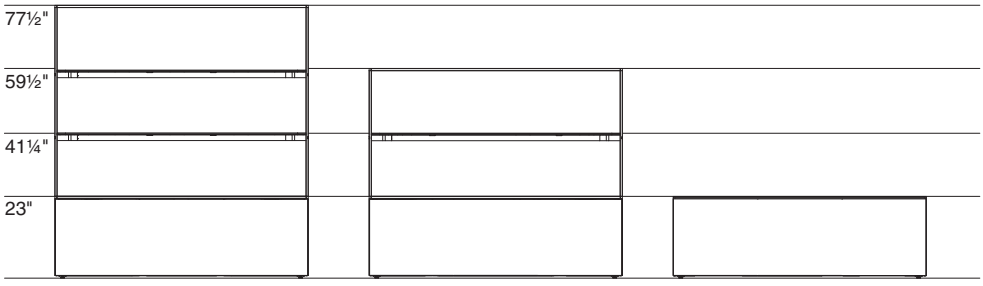


Actual Dimensions for Tower

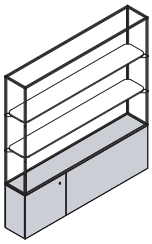
Depth	12"
Width	54", 60", 66", or 72"
Height	59½" or 77½"

Tip: The height dimensions for the tower are from the bottom of the foundation to the top of the tower.

Foundation and Tower Height Matrix

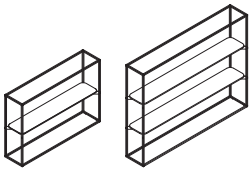


Product Details



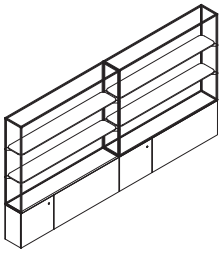
Towers attach to foundations to provide space division, shelf storage, and privacy with optional tower shrouds. They must match the width of the foundation and are specified as an option to Mackinac settings.

Towers are also available as a separate style number for future addition or reconfiguration. If adding a tower to an existing foundation without a tower, a new foundation top skin will be needed to fit within the tower frame.

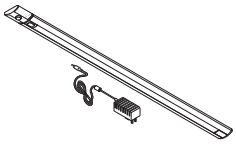


Towers are available with one or two shelves. The top of the tower is open, without a shelf.

The tower frame is painted steel. Shelves are available in laminate, wood veneer, Corain, or glass. Each shelf can be specified in a different finish if a variety of materiality is desired.

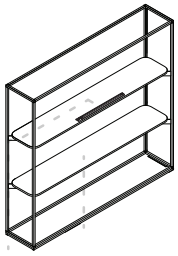


Towers of the same height can be ganged together with ganging bracket **(MCKBRKTTWR)**. A tower with one shelf cannot be ganged to a tower with two shelves.



Tower lights are available as an option. Lights are low-voltage LED with a single touch on/off pad plus touch and hold dimming for easy individual user control. Lighting features an automatic turn off after 10 hours. The average rated lamp life of LED linear shelf lights is 50,000 hours.

Magnetic mounts allow shelf lights to be installed without tools below shelves.



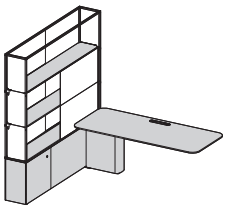
The 11' power cord routes under and down the tower frame with clear tape and can be concealed by tower shrouds. The cord enters the foundation on either side of the top skin through a foam gap concealer.

Lights plug into the foundation power block.

Tower lights can be ordered separately after installation or if an occupancy sensor is desired. Order the LED linear shelf light found in the *Worktools Specification Guide*. Use this size chart to determine the proper shelf light size:

- 54" tower = 31" light
- 60" tower = 31" light
- 66" tower = 44" light
- 72" tower = 44" light

Connections



Tower shrouds attach to the tower frame with magnets to provide a higher level of privacy. Shrouds can be specified for each opening in a variety of fabrics.

Tower shrouds are ordered separately from Mackinac settings and towers.

Wiring and Cabling

▶ See *Power and Data* for more information, page 35.

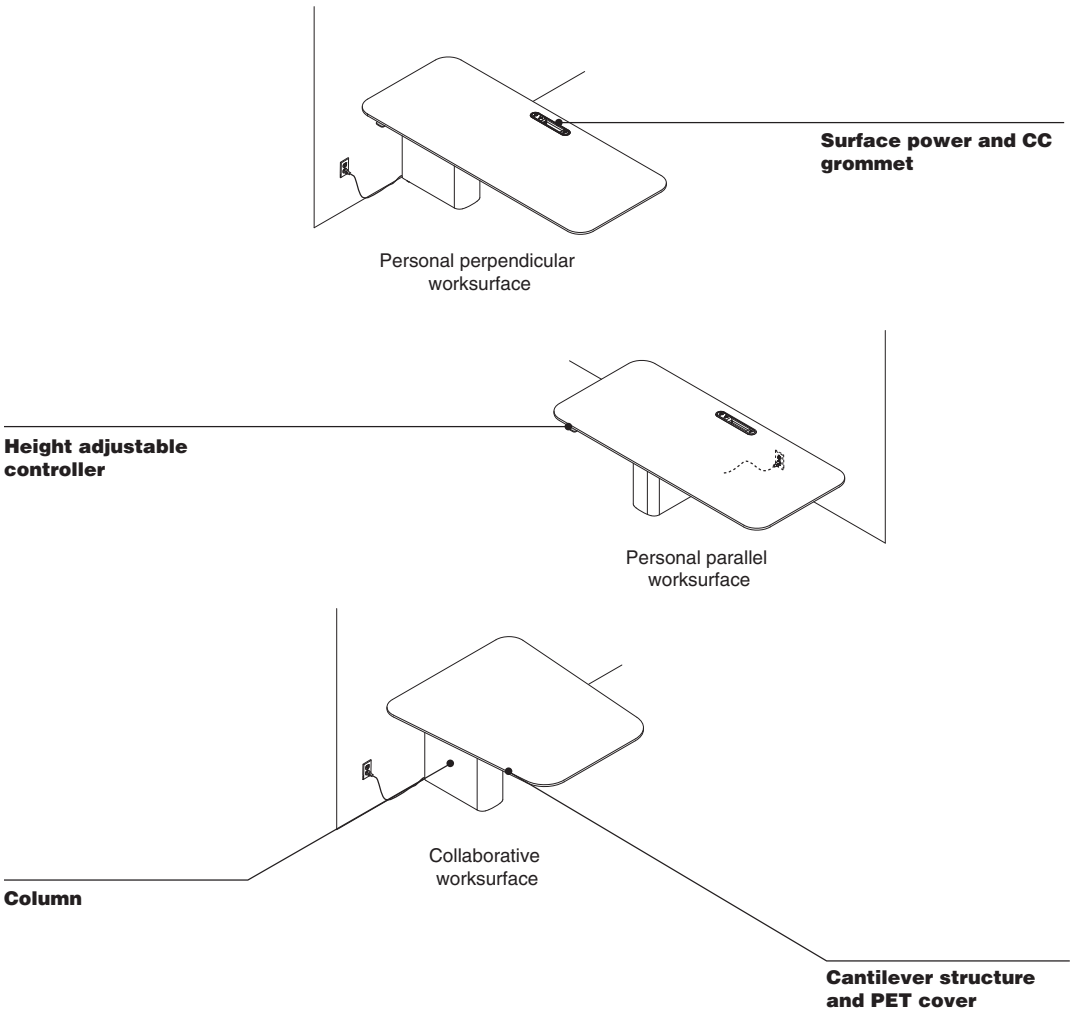
- 8043 Clear Anodized Aluminum

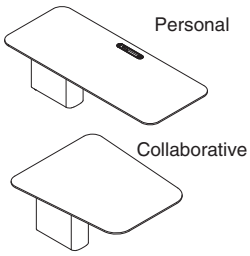
Mackinac Wall-Mounted Worksurfaces

Wall-mounted worksurfaces provide an alternative to foundation planning. Additionally, they can be used in blended applications with other products such as Elective Elements.



Product Details

Worksurfaces



The two types of worksurfaces are personal and collaborative.

Worksurfaces are available as:
- Fixed seated height (28¼"H)
- Fixed standing height (41¼"H)
- Height adjustable (27½"H–44½"H)

Worksurfaces are available as laminate, veneer, glass, or Corian. Standard offering on glass is back-painted glass. Soft etch glass is available via Specials on worksurfaces only.

Worksurfaces are ¾" thick when laminate or veneer finish and ½" thick when solid surface or glass finish.

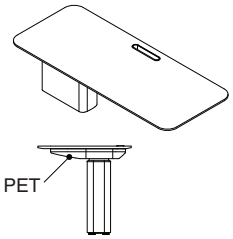
Slice Edge, Plastic or Wood Veneer

Solid Surface or Glass Edge

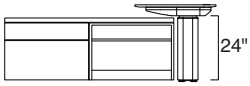
Worksurfaces are available in a slice edge profile with a laminate or veneer finish and a square edge profile with a solid surface or glass finish.

Laminate and veneer worksurfaces come standard with a 3 mm edgeband on all sides. The worksurface edge is always horizontal grain.

Steelcase
February 2026

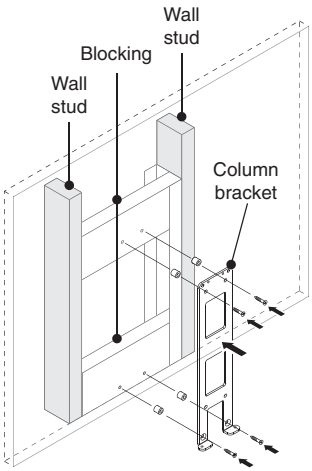


Worksurfaces come standard with a PET (polyethylene terephthalate) cover which conceals the worksurface cantilever structure.

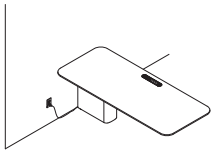


24" from floor to underside of PET, when worksurface is adjusted to its lowest point, allows room for adjacent 1.5 High storage or allows column to be embedded into storage as a special.

Columns are painted steel.



Wall-mounted worksurfaces can attach to drywall with either metal or wood studs and require wall blocking.

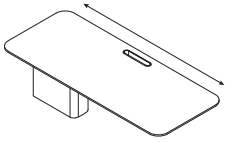


Power type of no power, plug, or hardwire is a required selection for wall mounted worksurfaces. No power is available for fixed height worksurfaces.

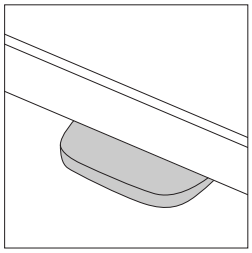
In Chicago, fixed height wall mounted worksurfaces require hardwire selection. Height adjustable worksurfaces can be specified with plug.

Wall-mounted worksurface columns cannot be placed directly over a wall or floor outlet.

Personal Worksurfaces

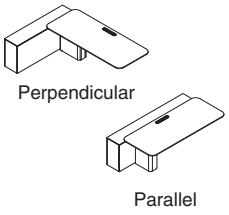


Personal worksurfaces are available in modular and parametric sizes with the exception of Corian solid surface. Collaborative worksurfaces are available in modular sizes only.

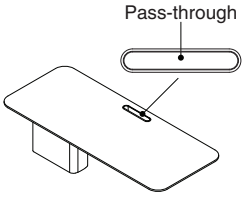


Simple touch controller comes standard with height-adjustable worksurfaces and easily adjusts height of worksurface at a rate of 1½" per second, by lifting or pressing down on the controller. The controller is mounted on the user side, in line with the column.

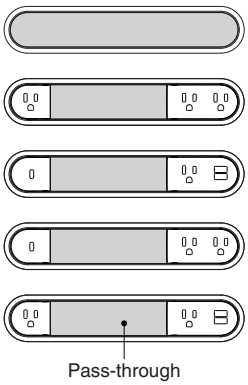
Mackinac height adjustable worksurfaces have a slow-down feature to prevent unexpected collisions when the worksurface is lowered. When lowering the worksurface from standing height, the worksurface will stop at approximately 34½"H, the controller must be released before pushing down again. From 34½" to 27½", the rate of downward adjustment will be slower.



Personal worksurfaces can be perpendicular or parallel when planned with foundations or in wall-mount applications.

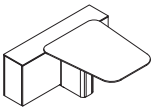


Personal worksurfaces are standard with surface power. The CC grommet features a cord pass through to permanent power connections below the worksurface. Surface power comes standard even when the no power or no surface power options are selected.

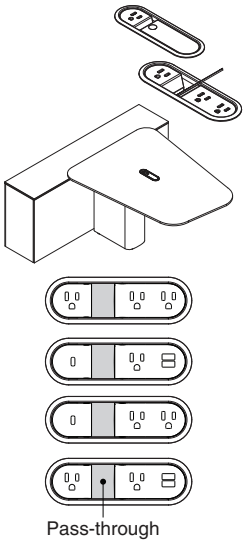


Surface power is available with no power (CC grommet only), standard power outlets, USB-A, and USB-C power combinations.
▶ See *Power and Data* for more details about surface power, page 35.

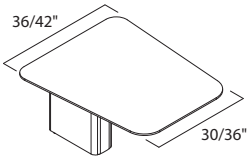
Collaborative Worksurfaces



Collaborative worksurfaces are only available in modular sizes. They are always perpendicular to the foundation or wall.

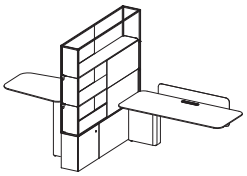


Collaborative worksurfaces are standard without surface power. Optional surface power is available with no power, standard power outlets, USB-A, and USB-C power combinations. The grommet has one exposed receptacle, a small passthrough, and a flipper door which conceals two receptacles. The pass through allows cord routing to permanent power below the worksurface.
▶See *Power and Data* for more details about surface power, page 35.



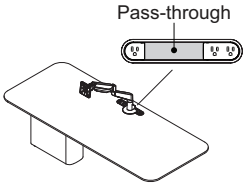
Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.

Connections



Privacy/modesty screens are available in back painted glass or fabric. The screens are attached to the worksurface and are 18"H or 24"H. They provide 6"H or 12"H desktop privacy and 12"H of modesty privacy below the worksurface.

Privacy/modesty screens are only allowed on personal, perpendicular worksurfaces.



CF Series monitor arms (listed below) with C-clamp option can mount through the CC grommets of personal worksurfaces.
- CF Intro—all versions with C-clamp option
- CF Plus—all versions with C-clamp option
- CF Plus HD—all versions with C-clamp option.

A maximum of 35 pounds (including monitor and arm) is allowed for laminate and veneer worksurfaces. Clamping to glass or solid surface is not allowed, free-standing monitor stands are recommended.

For edge mount c-clamping, contact Studio (Specials) for a special wedge bracket which will accommodate mounting to the knife edge of Mackinac.

Wiring and Cabling

▶See *Power and Data, Permanent Power and Surface Power* for more information, pages 35, 38, and 40.

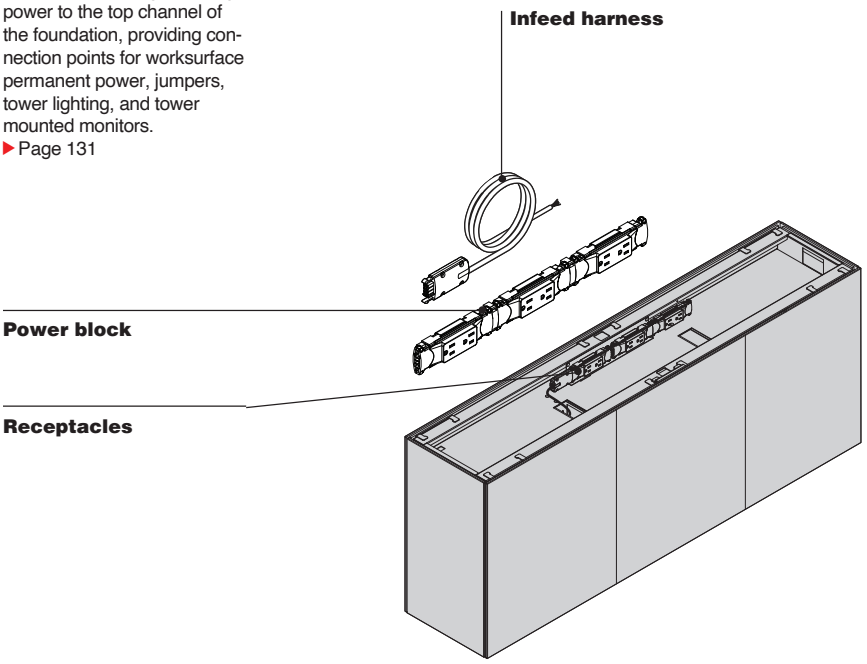
Dimension	Planning Dimensions for Personal Worksurface	Actual Dimensions for Personal Worksurface
Depth	30" or 36"	29" or 35"
Parallel Width	54", 60", 66", or 72"	52", 58", 64", or 70"
Perpendicular Width	48", 54", 60", 66", or 72"	46", 52", 58", 64", or 70"
Height	27¼"– 44½"	27¼"– 44½"
	Tip: Parametric personal worksurface depth can be specified in 1/16" from 30"D–36"D.	*Tip: Worksurfaces are undersized to eliminate pinchpoints when height adjustable.*
	Tip: Parametric personal worksurface width can be specified in 1/16" from 54"W–72"W.	

Dimension	Planning Dimensions for Collaborative Worksurface	Actual Dimensions for Collaborative Worksurface
Depth	42", 48", or 54"	41", 47", or 53"
Width	36" or 42"	36" or 42"
Height	27¼"– 44½"	27¼"– 44½"
	Tip: If 36"W is specified, the only available depth is 42"D.	*Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.*
	Tip: Collaborative worksurface width tapers 6" from the back to front edge from 36"W to 30"W and 42"W to 36"W.	*Tip: Worksurface dimensions are undersized to eliminate pinchpoints when height adjustable.*

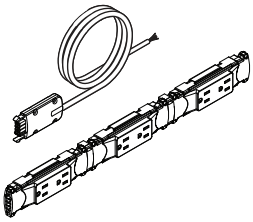
Dimension	Actual Dimensions for Fixed Column		Actual Dimensions for Height-Adjustable Column	
	Parallel	**Perpendicular**	**Parallel**	**Perpendicular**
Depth	14⅝"	18½"	14"	18"
Width (Front)	6"	6"	7¼"	7¼"
Width (Back)	7¼"	7¼"	N.A.	N.A.
Seated Height	28¼" or 28½"	28¼" or 28½"	N.A.	N.A.
Standing Height	41¼"	41¼"	N.A.	N.A.
Height	N.A.	N.A.	27½"–44½"	N.A.
	Tip: When column is wall attached, it adds ¼" to the depth of the column. The gap between the worksurface and the wall then becomes 1¼" instead of 1".			

Mackinac Foundation Power Starter Kit

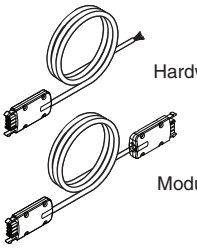
Foundation power starter kit, ordered separately from applications with foundations, is required to power a Mackinac setting. The starter kit brings building power to the top channel of the foundation, providing connection points for worksurface permanent power, jumpers, tower lighting, and tower mounted monitors.
▶ Page 131



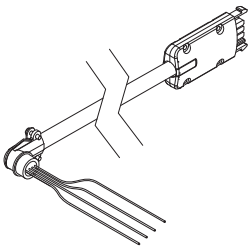
Product Details



Foundation power starter kit includes a power infeed harness and foundation power block with 3 15-amp duplex receptacles (6 power outlets).

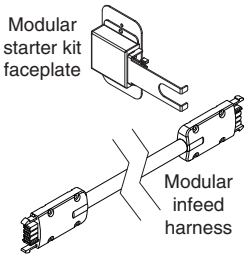


The infeed harness is available in either hardwire or modular harness versions.

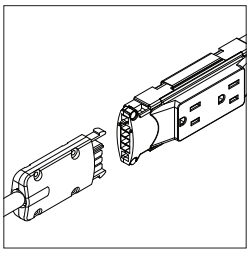


The hardwire infeed harness is connected by an electrician to a building junction box, the opposite end of the infeed has a modular connector which plugs into the foundation power block.

Hardwire infeeds are available in 72"L, 144"L, and 288"L.

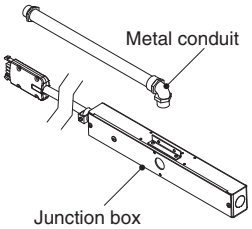


The modular infeed includes a wall-mounted modular faceplate that hardwires directly to the building's power. The infeed has modular connectors on both ends. One end plugs into the faceplate and the opposing end is plugs into the foundation power block. Modular infeeds are only available in 72"L.

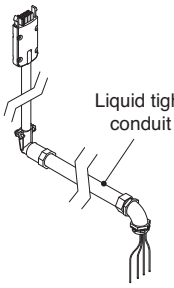


Infeed harnesses plug into connection points on the power block to provide power within the foundation. The power block includes three 15-amp duplex receptacles and an additional connection point for a jumper kit.

Foundation power starter kit is available with New York City or San Francisco options which address specific codes for those municipalities.



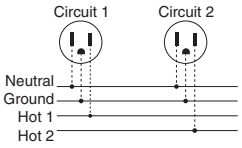
New York City electrical code requires hardwiring to building power within a junction box. New York power option includes a junction box, metal conduit, and hardwire infeed and foundation power block.



San Francisco electrical code requires liquid tight metallic conduit infeed.

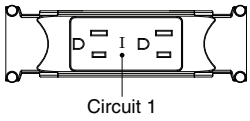
San Francisco power option includes a liquid tight metallic hardwire infeed and foundation power block.

Wiring and Cabling

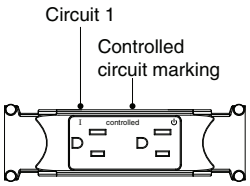


Mackinac utilizes a 2-circuit power distribution system with 3 15-amp duplex receptacles supplied with the starter kit and jumper kit.

Infeed wires are 12 gauge encased in a metal housing.



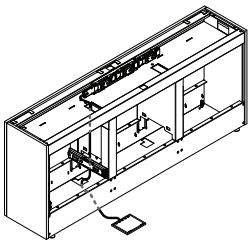
Each duplex receptacle is specified as either circuit 1 or circuit 2 and is labeled accordingly.



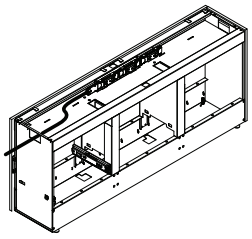
Controlled duplex receptacle

Each duplex receptacle can be specified as "controlled". A controlled circuit is a dedicated circuit controlled by the building power system with a timer to conserve energy in off-hours, supporting California Title 24. The controlled duplex receptacle is labeled "controlled" to signify to an electrician or facilities manager which receptacles will be turned off by the building system. When the controlled circuit is turned off, any devices plugged into those receptacles will also be powered off. An electrician will need to wire the starter kit's controlled circuit to the dedicated line that shuts off.
Tip: All duplex receptacles on the controlled circuit should be specified as controlled; for example, if circuit 1 will be controlled then each duplex receptacle for that circuit should be specified as "circuit 1 with circuit control".

Controlled receptacles and non-controlled receptacles are EXACTLY the same other than the labeling on the receptacle.

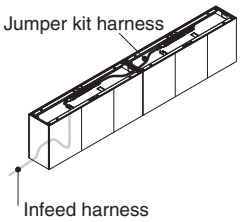


Infeed harnesses routes from the building power connection point, underneath the foundation, through access holes up to the foundation top tray and power block.

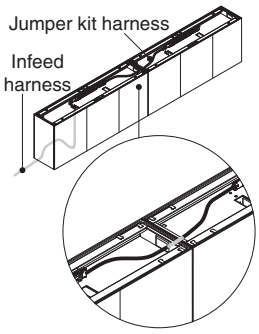


Harnesses may route into the end of the foundation if the end skin is removed.

If more than three foundations are ganged together, a new foundation power starter kit is required.
▶ See *Power and Data* for detailed information and specific ingress locations within the foundation, page 35.



For an infeed to support multiple foundations, the infeed must enter and connect to the power block in an end foundation; jumpers connect to adjacent foundations. Power must run in one direction. Infeeds are not able to start in a middle foundation and branch with jumpers in either direction.

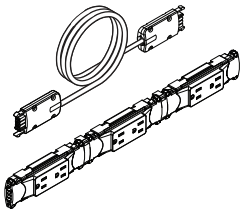


Jumper kit harness connects to power block and routes through foundation access holes to adjacent foundations.

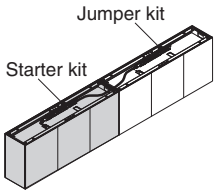
Mackinac Power Components

Jumper Kit

▶ See page 132



Product Details



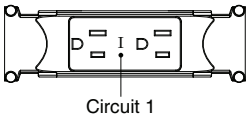
Jumper kits provide power to multiple foundations when ganged together replacing the need for multiple starter kits.

Jumper kit includes a 72"L harness, power block, and three 15-amp duplex receptacles. Harness is available in hardwire or modular versions.

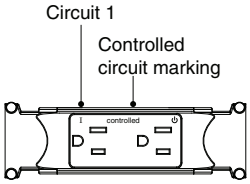
One jumper kit can be used for up to three foundations until a new foundation power starter kit is required.

Access holes in each end of the foundation allow for jumper harnesses to connect power to adjacent foundations. End skins are removed when jumpers are used.

▶ See *Power and Data* for more information, page 35.



Each duplex receptacle is specified as either circuit 1 or circuit 2 and is labeled accordingly.



Controlled duplex receptacle

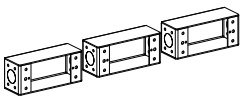
Each duplex receptacle can be specified as "controlled". A controlled circuit is a dedicated circuit controlled by the building power system with a timer to conserve energy in off-hours, supporting California Title 24. The controlled duplex receptacle is labeled "controlled" to signify to an electrician or facilities manager which receptacles will be turned off by the building system. When the controlled circuit is turned off, any devices plugged into those receptacles will also be powered off. An electrician will need to wire the starter kit's controlled circuit to the dedicated line that shuts off.

Tip: All duplex receptacles on the controlled circuit should be specified as controlled; for example, if circuit 1 will be controlled then each duplex receptacle for that circuit should be specified as "circuit 1 with circuit control".

Controlled receptacles and non-controlled receptacles are EXACTLY the same other than the labeling on the receptacle.

Power Junction Boxes for Chicago Hardwiring

▶ See page 133



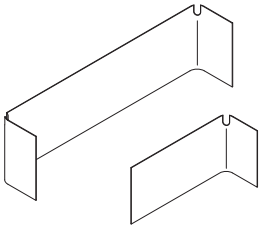
Product Details

Chicago electrical code requires the power distribution network to be hardwired on site, this excludes the use of modular connections. For Chicago, electricians will supply electrical wiring. Do not order foundation power starter kit. Instead, order power junction boxes for Chicago hardwiring.

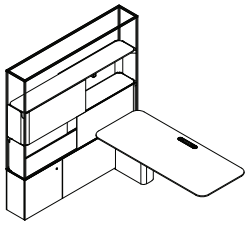
Power junction boxes for chicago hardwiring include three junction boxes.

Tower Shrouds

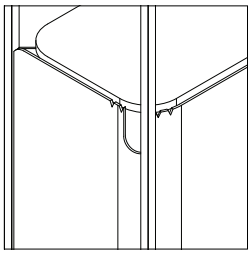
▶ See page 128



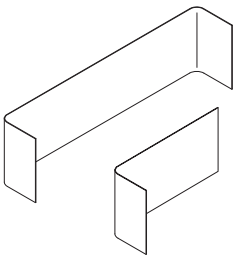
Product Details



Tower shrouds attach to the tower frame to provide higher level of privacy. Shrouds can be specified for each opening in a variety of fabrics.

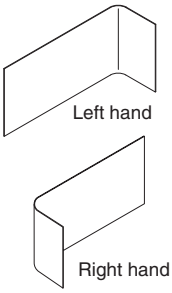


Tower shrouds in the upper section are not interchangeable with lower section shrouds, as these shrouds include a cut out for shelf supports.

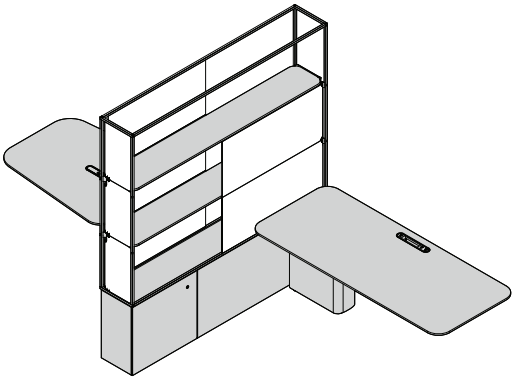


Full length shrouds span the back and sides of the tower.

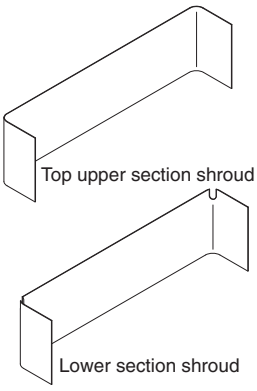
Half length shrouds span half of the back and one side of the tower.



Half length tower shrouds are handed. Handedness is determined from the outer side of the shroud when mounted on the tower.



Half length shrouds can be planned in the same shelf opening for a yin-yang effect.



Tower shrouds for the top upper section of a tower differ from shrouds in the lower sections, which have a notch for tower shelf frames.

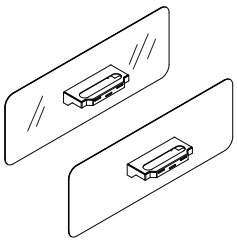
Shrouds for the upper section are for the top opening of a tower only and lower section shrouds are for the middle and bottom opening of the tower only.

Surface Materials

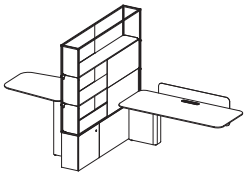
Tower shrouds and brackets
- Fabric
- Paint

Privacy/Modesty Screens

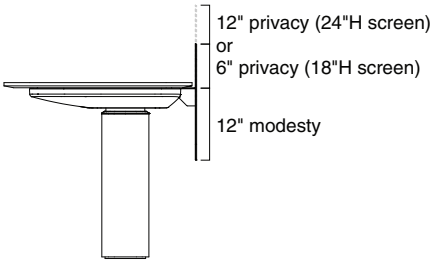
▶ See page 126



Product Details



Privacy/modesty screens are available for use with perpendicular worksurfaces.



Screens are attached to the worksurface and are 18"H or 24"H. They provide 6"H or 12"H desktop privacy and 12"H of modesty privacy below the worksurface.

Surface Materials

Glass modesty panel, frame, and hardware
- Glass, back painted
- Paint

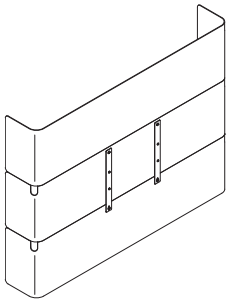
Fabric modesty panel and hardware
- Fabric
- Paint

Actual Dimensions for Privacy/Modesty Screen

	Glass	Fabric
Width	36" or 48"	36" or 48"
Height	18"	18" or 24"

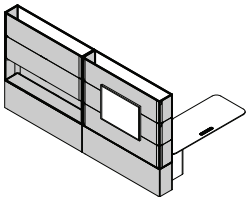
Three Full Shrouds with Monitor Mount Hardware Kit

▶ See page 128



Product Details

Three full shrouds with monitor mount hardware kit (MCKUTSMA) must be ordered for monitor mounting. It includes three full shrouds and additional mounting hardware. These shrouds must all be the same textile.

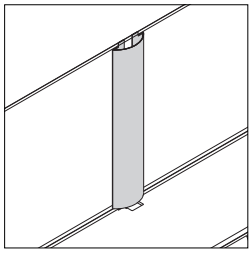


Monitor mounting for collaboration is supported on towers with two shelves.

Mounted monitors are not allowed when there is a worksurface on the same side of the foundation.

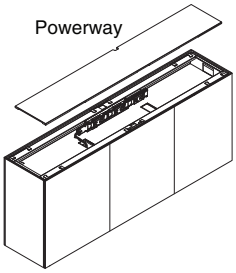
Maximum screen weight is 50 pounds. Maximum screen widths below:
- Maximum screen width for a 54"W tower is 50"W
- Maximum screen width for a 60"W tower is 55"W
- Maximum screen width for a 66"W tower is 58"W
- Maximum screen width for a 72"W tower is 65"W

VESA is the only compatible mount and must be provided by the user.



Monitor mounting kit includes cable cover, which conceals monitor cables routed into the foundation. Cable cover attaches to the inside of the tower and is fabric wrapped to match the shrouds.

Wiring and Cabling



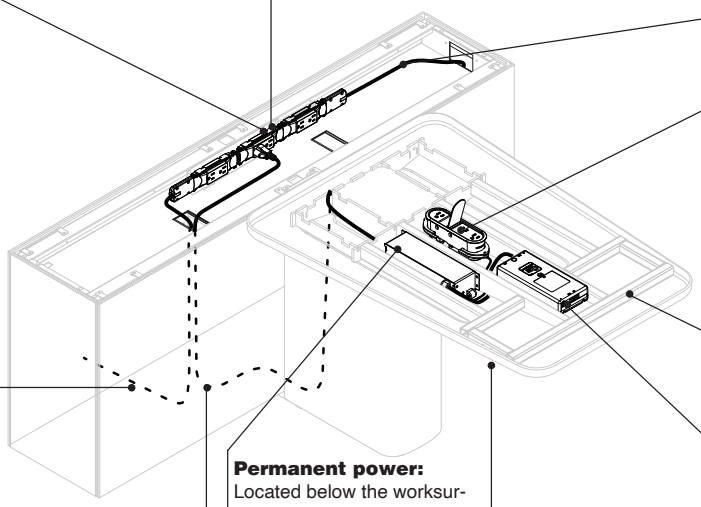
With powerway on foundation top skin option must be selected to allow monitor cords to pass through the top skin and plug into the foundation power.

Surface Materials

Tower shrouds and brackets
- Fabric
- Paint

Power and Data

Mackinac power is divided into three different zones: foundation power, permanent power, and surface power.



Power block, foundation power starter kit

Foundation power: Located in the top channel of the foundation, it accepts building power and provides power for adjacent foundations and to permanent power. Receives power from the foundation power starter kit.

Jumper kit harness

Surface power and CC grommet: Provides power at the worksurface and allows for power routing to the permanent power module. Power can be omitted to allow for cord routing only. Receives power from the permanent power module.

Cantilever frame (worksurface not shown)

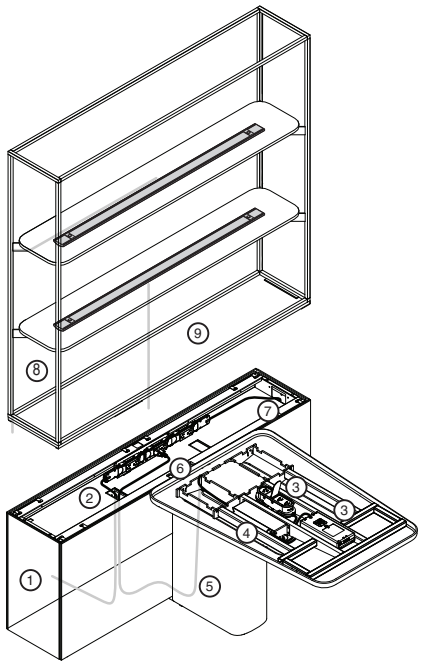
Infeed harness, foundation power starter kit

Permanent power: Located below the worksurface within the cantilever structure, it provides power to the height-adjustable lift control box, surface power, and components on the worksurface which are to remain plugged in. Receives power from the foundation power module.

PET cover

Height-adjustable control box

Power routing from foundation power to permanent power.



The Path of Power follows this order:

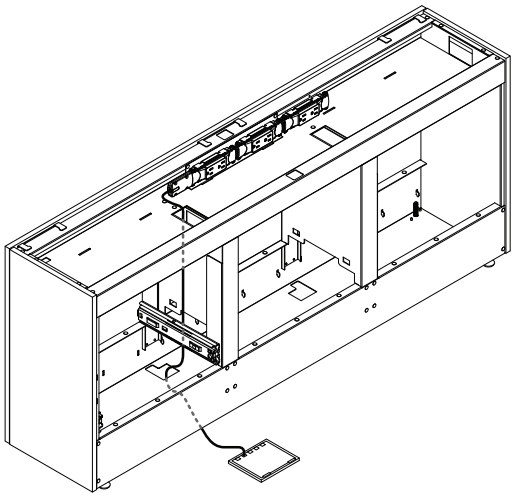
1. Foundation power starter kit infeed harness routes building power to (2) foundation power block.
2. Foundation power starter kit power block.
3. Surface power and height-adjustable controller plugs into (4) permanent power.
4. Permanent power
5. Permanent power cord routes back to the foundation and plugs into (6) foundation power block receptacle.
6. Foundation power starter kit power block receptacle.
7. Jumper kit harness routes power to the next foundation.
8. Shelf light cord routes from light to plug into (6) foundation power block receptacle.
9. Mounter cord routes between monitor shrouds to the inside of the tower (under shelves)
   and down through the foundation top skin powerway to plug into (6) foundation power block receptacle.
   Tip: Data cables can follow path of power cords and harnesses.

Foundation Power

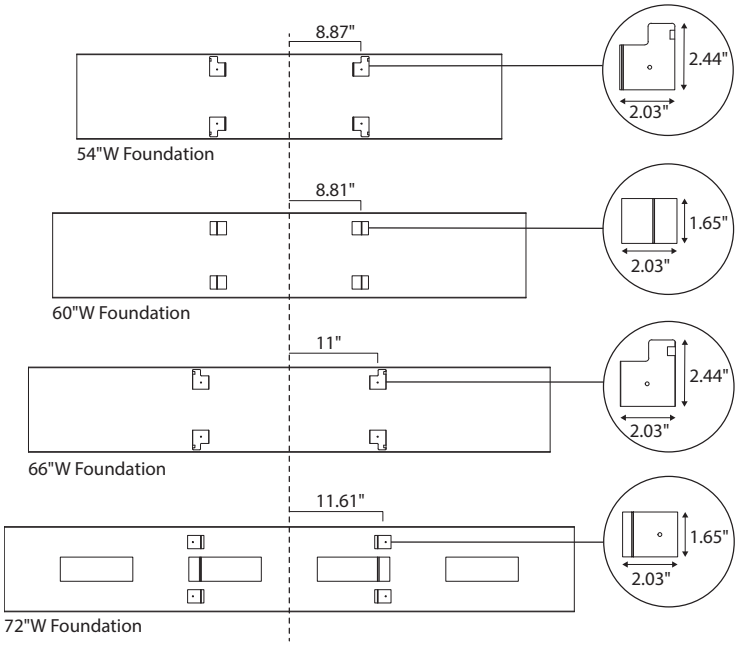
Foundation Power

Foundation power is located in the top channel of the foundation. It accepts building power and provides power for adjacent foundations and to permanent power. Foundation power comes from the foundation power starter kit.

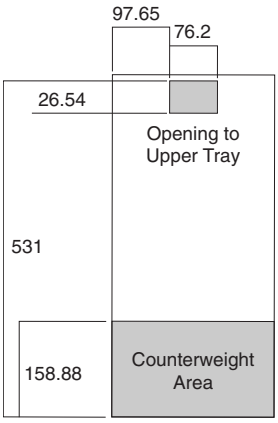
Infeed harnesses route from the building power connection point, underneath the foundation, through access holes, up to the foundation top tray and power block. There is a 5/8" gap below the foundation to allow for routing.



Product Details



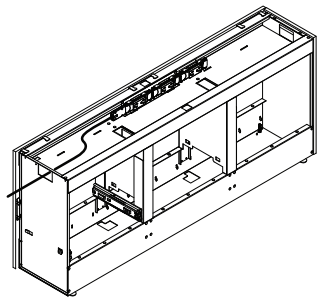
Location of ingress holes in foundation is measured from the centerline of the foundation to centerline of the hole.



Access holes in each end of the foundation allow for jumper harnesses to connect power to adjacent foundations.

End skins are removed when jumpers are used.

Steelcase
February 2026

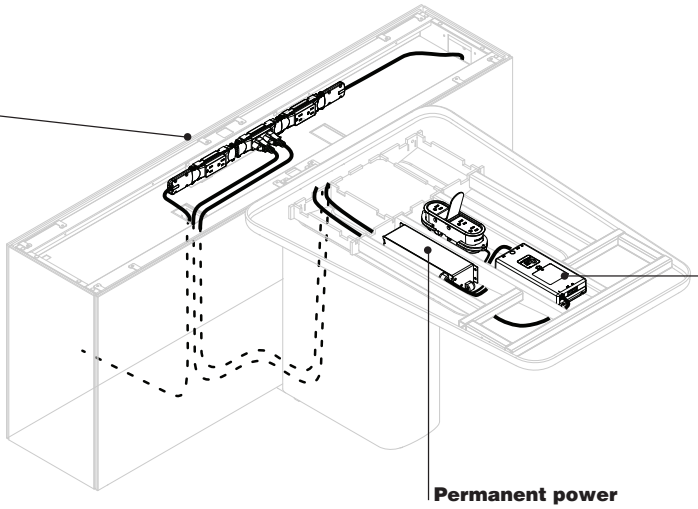


Building power may enter the foundation from the end access holes when foundations are perpendicular to a wall and when building power is located in the wall. However, the location of the building wall power junction box must align with access hole.

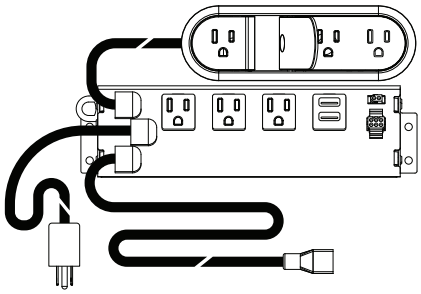
Permanent Power

Permanent and Data

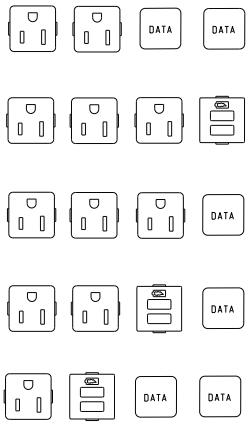
Permanent power is located under the worksurface and supports items that remain on the worksurface, such as monitors and task lighting. It provides power to surface power and is required for height-adjustable worksurfaces.



Product Details

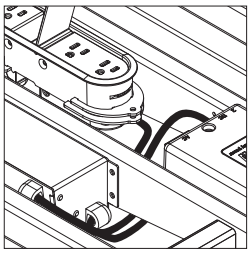


Power box is corded with a three prong grounded plug.

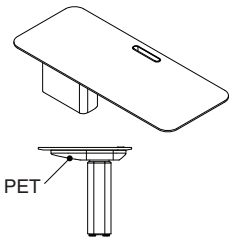


Permanent power options available are:

- Two power, two data
- Three power, two USB-A
- Three power, one data
- Two power, two USB-A, one data
- One power, two USB-A, two data

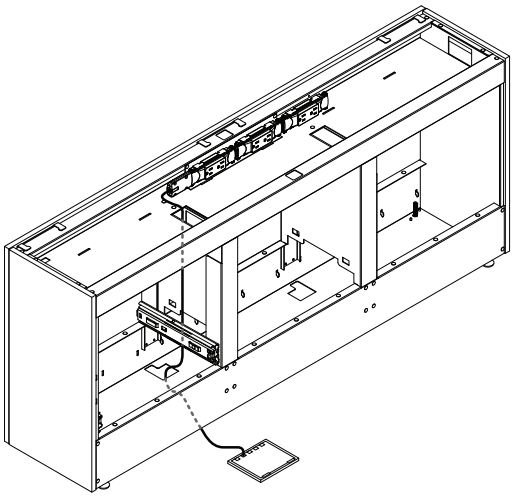


Height-adjustable worksurface control boxes require permanent power. The permanent power box includes a cord to connect power to the the height-adjustable control box.



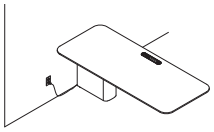
Permanent power is not user accessible, as the PET understructure needs to be removed by an installer.

Permanent Power for Settings with Foundations



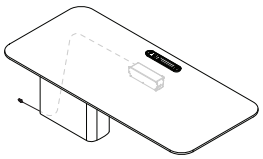
For applications with foundations, the permanent power cord is routed through the column, under the foundation, and up to the foundation power block.

Permanent Power for Wall-Mounted Worksurfaces

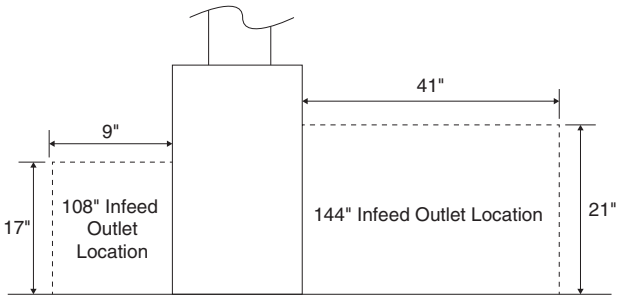


Wall-mounted worksurfaces with permanent power or surface power are standard with cord and plug. Height-adjustable worksurfaces require permanent power and are also standard with cord and plug.

Wall-mounted worksurface columns cannot be placed directly over a wall or floor outlet.



For wall-mounted applications, the permanent power cord is routed through the column and exits to plug into a wall or floor box outlet.



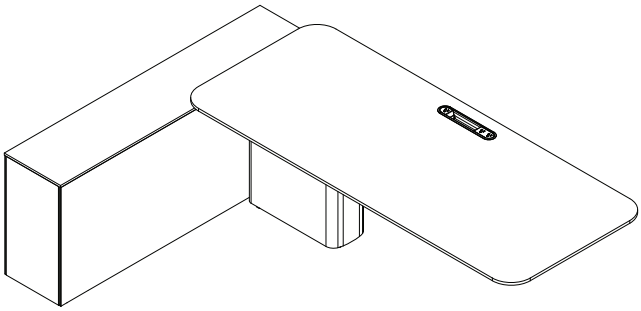
For wall outlet location planning, cord lengths will determine the distance from the column to the outlet.

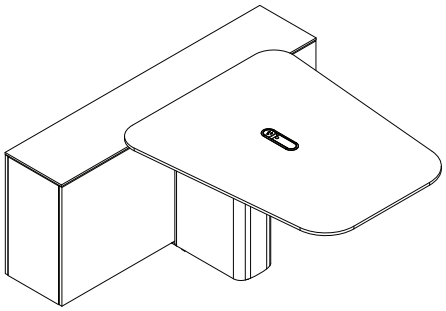
82" of cord length from permanent power is routed internally through the column. For 108" cords, this leaves 26" of cord to reach the outlet. For 144" cords, this leaves 62" of cord to reach the outlet. Plan outlet location relative to column within the dimensions shown.

Surface Power

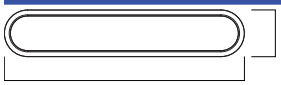
Surface Power

Surface power provides power at the worksurface for items like phones and laptops that require temporary access to power. Pass-through feature allows for power routing to the permanent power module.

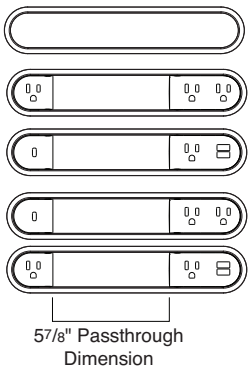




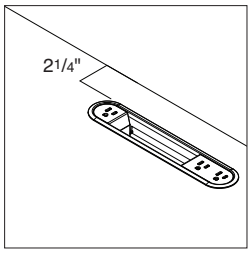
Product Details



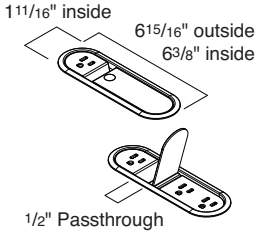
Personal worksurfaces are standard with a CC grommet which is a pass-through to permanent power and can house power options if selected. CC grommet is standard even when no power or no surface power options are selected.



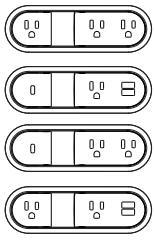
Surface power includes a variety of standard power, USB-A and USB-C configurations. The center of the grommet remains open as a pass-through.



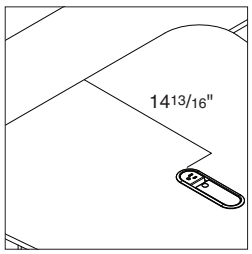
Personal surface power is centered along the back edge of the worksurface, 0" from the back edge.



Surface power for collaborative worksurfaces is available as an option. The CC grommet features a pass-through and a flipper door.

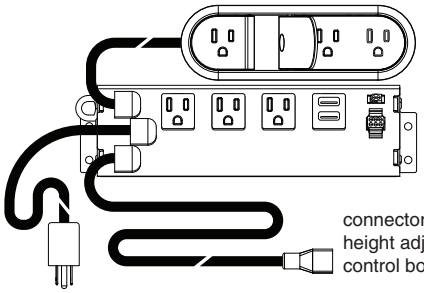


Surface power includes a variety of standard power, USB-A and USB-C configurations. The center of the grommet remains open as a pass-through.



Collaborative surface power is centered front to back on the worksurface and 0" from the back edge.

Steelcase
February 2026

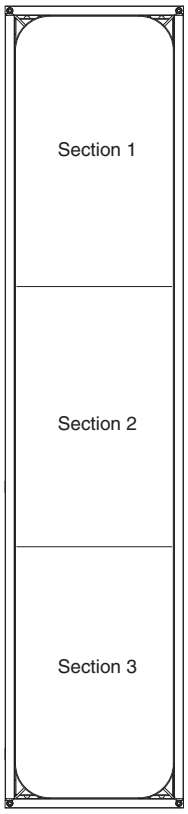


Surface power outlets are pre-wired to the permanent power box based on the power configuration specified.
Tip: USB-C is the latest technology in USB connections. A USB-C connector transmits both data and power faster and more efficient than USB-A. This connection is featured on new devices. Check your personal device for compatibility.

Tip: Maximum power capacity for USB-A is 10 watts of power. USB-C has a maximum capacity of 60 watts.

Mackinac Application Guidelines

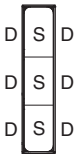
Side B



Side A

Mackinac foundations are split by Side A and B, and Sections 1, 2, and 3. Each section is allowed a drawer, column, or skin. Only one drawer is allowed per foundation section. Only one column is allowed per side. Sides A and B must remain consistent throughout planning.

Foundation with no worksurface (MCKFNWS)



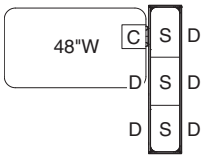
Foundations are allowed one, two, or three drawers and can be placed in any section.

Legend

D = Drawer available
S = Standard counterweight
H = Heavy duty counterweight
C = Column

Foundation with one perpendicular worksurface (MCKF1WSPP)

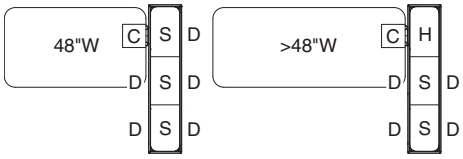
54"W Foundation



With laminate or wood worksurface:
- 48"W worksurfaces are allowed one, two, or three drawers
- Any worksurface larger than 48"W cannot be placed on a 54"W foundation

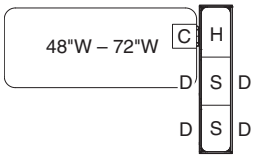
With glass or solid surface worksurface:
- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation



With laminate or wood worksurface:
- 48"W worksurfaces are allowed one, two, or three drawers
- Worksurfaces larger than 48"W are allowed one or two drawers but cannot be placed in the same section as the worksurface

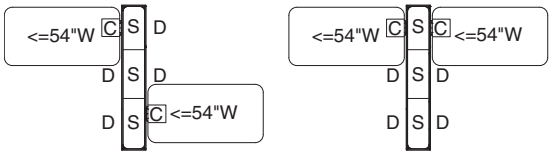
60"W – 72"W Foundation



With glass or solid surface worksurface:
- Any worksurface size is allowed one or two drawers but cannot be placed in the same section as the worksurface
- Worksurfaces larger than 66"W must be floor mounted

Foundation with two perpendicular worksurfaces (MCKF2WSPP)

54"W Foundation

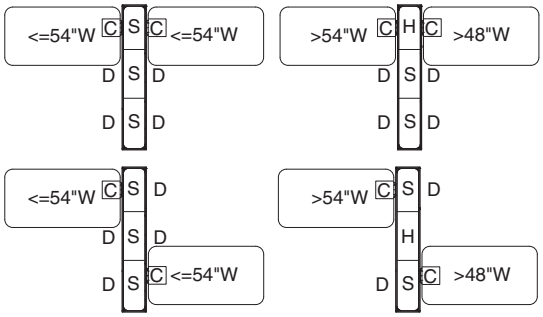


With laminate or wood worksurface:
- Worksurfaces 54"W or less are allowed one, two, or three drawers depending on configuration
- Worksurfaces larger than 54"W cannot be used on the 54"W foundation

With glass or solid surface worksurface:
- Cannot be placed on a 54"W foundation

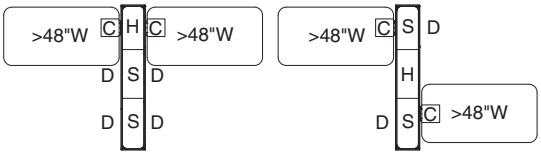
Steelcase
February 2026

60"W – 72"W Foundation



With laminate or wood worksurface:
- Worksurfaces 54"W or less are allowed one, two, or three drawers, depending on configuration
- Worksurfaces larger than 54"W are allowed one or two drawers
- If the worksurfaces are in the same section, the drawers must be placed in the other sections
- If the worksurfaces are yin yang, the drawers cannot go in Section 2

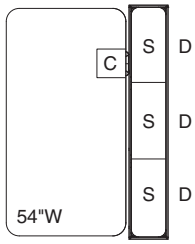
60"W – 72"W Foundation



With glass or solid surface worksurface:
- Worksurfaces 48"W and larger are allowed one or two drawers
- If the worksurfaces are in the same section, the drawers must be placed in the other sections
- If the worksurfaces are yin yang, the drawers cannot go in Section 2

Foundation with one parallel worksurface (MCKF1WSPL)

54"W Foundation



With laminate or wood worksurface:
- 54"W worksurface are allowed one, two, or three drawers

With glass or solid surface worksurface:
- Cannot be placed on a 54"W foundation

Legend

- Worksurfaces are allowed one or two drawers depending on configuration

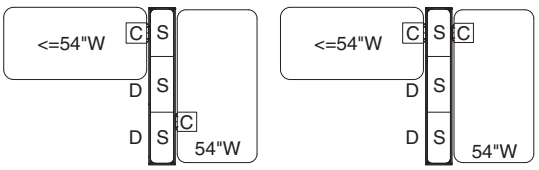
Foundation with one perpendicular worksurface and one parallel worksurface (MCKF1WSPP1WSPL)

54"W Foundation



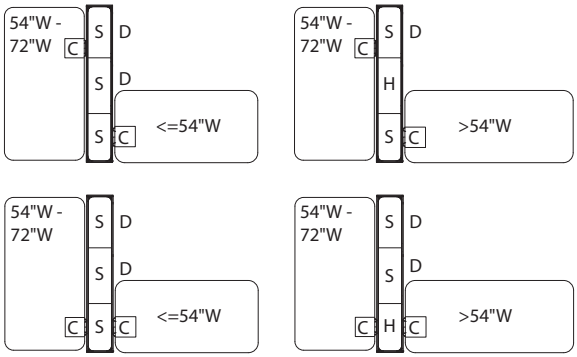
With laminate or wood worksurface:
- Worksurfaces are allowed one or two drawers
- Drawers must be placed on perpendicular side
- Worksurfaces can be 54"W or less on perpendicular worksurfaces and only 54"W on parallel worksurfaces
- Worksurfaces larger than 54"W are not allowed

With glass or solid surface worksurface:
- Cannot be placed on a 54"W foundation

Legend

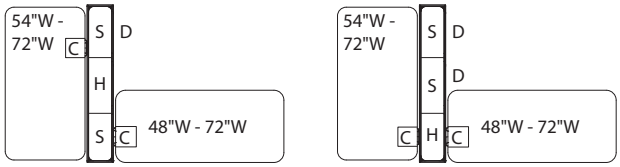
D = Drawer available
S = Standard counterweight
H = Heavy duty counterweight
C = Column

60"W - 72"W Foundation



With laminate or wood worksurface:
- Worksurfaces are allowed one or two drawers depending on configuration
- If perpendicular worksurface is 54"W or less, then two drawers are allowed
- If perpendicular worksurface is larger than 54"W and the columns on the worksurfaces are yin yang, then the drawer cannot be placed in Section 2
- If columns are in the same section then two drawers are allowed

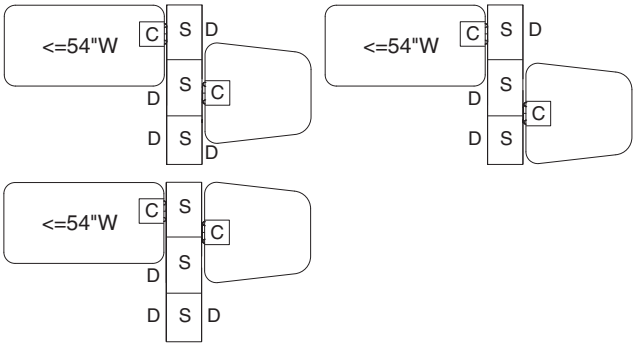
60"W - 72"W Foundation



With glass or solid surface worksurface:
- Worksurfaces are allowed one or two drawers depending on configuration
- Perpendicular worksurfaces can be 48"W–72"W
- Parallel worksurfaces can be 54"W–72"W
- If columns for worksurfaces are yin yang, then only one drawer can be on the perpendicular side

Foundation with one perpendicular worksurface and one collaborative worksurface (MCKF1WSPP1WSC)

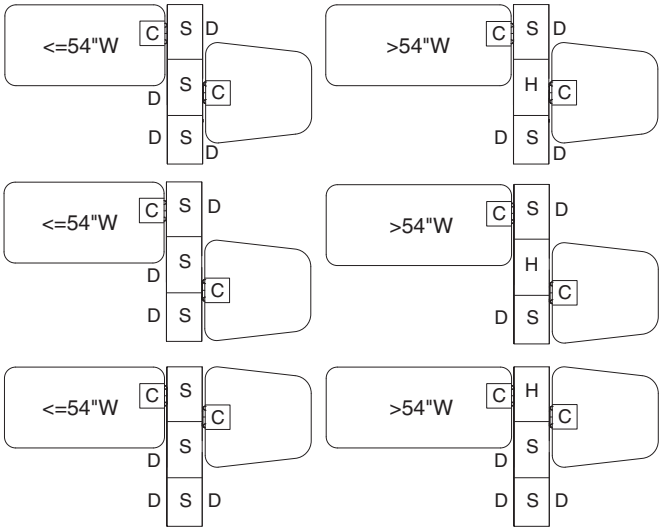
54"W Foundation



With laminate or wood worksurface:
- Worksurfaces are allowed one, two, or three drawers depending on configuration
- Perpendicular worksurfaces must be 54"W or less
- Worksurfaces larger than 54"W are not allowed

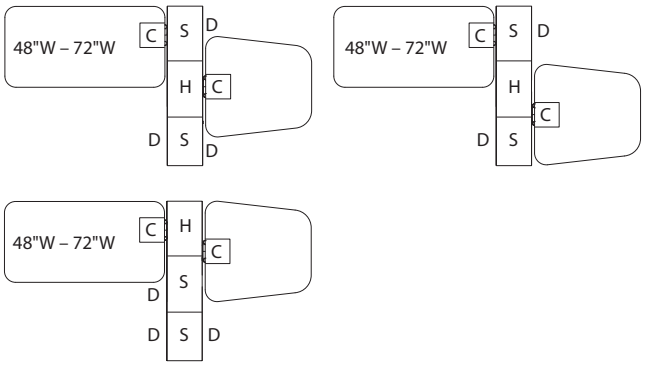
With glass or solid surface worksurface:
- Cannot be placed on a 54"W foundation

60"W – 72"W Foundation



With laminate or wood worksurface:
- Worksurfaces are allowed one, two, or three drawers depending on configuration
- If perpendicular worksurface is greater than 54"W and collaborative worksurface is in section two, then the drawer cannot be placed in Section 2 on the perpendicular side
- If perpendicular worksurface is greater than 54"W and columns for the worksurfaces are yin yang, then the drawer cannot be placed in Section 2 on perpendicular side

60"W – 72"W Foundation



With glass or solid surface worksurface:
- All sizes of perpendicular worksurfaces are allowed one or two drawers depending on configuration

Legend

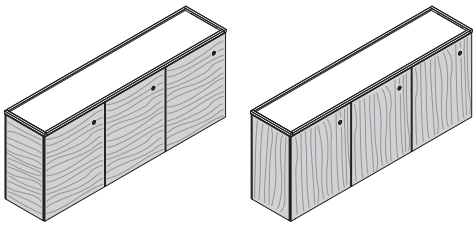
Tip: Weight limitations for the height-adjustable column are shown for each worksurface and its specified dimensions.

Mackinac Grain Direction

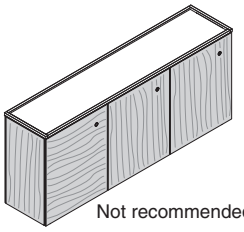
Wood is a natural, unique, and always changing material. No two pieces are the same. The appearance of each surface will vary based on a piece's individual grain pattern, underlying color, and characteristics (like gum pockets and pin knots). While the finishing process is identical for all pieces, each finished piece celebrates wood's individual beauty. Because wood contains standing fibers, similar to suede, the orientation of the grain pattern to a light source will cause it to reflect light differently and look a slightly different color. Two surfaces with grain directions that are at different angles to each other will look different. This natural phenomenon is called flash or polarization. This can happen within a piece as alternating veneer leaves are placed side by side or from piece to piece. Polarization is often noticed on worksurfaces installed at a 90° angle with each other.

Grain Direction on Foundations



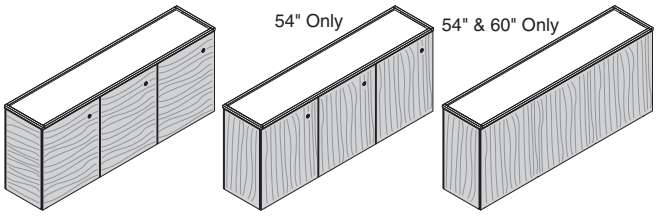
Horizontal Vertical

Wood veneer grain direction can be specified as either horizontal or vertical for the foundation. End skins will always follow the selection of the foundation grain direction.



Not recommended

Opposing grain direction from the foundation can be specified for individual side skins and drawer fronts; however, it is recommended that all skins within the side match the same direction. If grain direction is mixed on one side, polarization will cause the veneer skins to appear a different color or shade.



Wood grain laminate grain direction can be specified as horizontal or vertical; however, vertical application is limited. Laminate sheet sizes limit the ability to match vertical grains across a side. Vertical orientation is only available on each side of 54"W foundations or on 60"W foundations, if all skins are selected (without drawers). End skins will always follow the selection of the foundation grain direction.

Solid surface grain direction on foundation skins is only available as horizontal.

Grain Direction on Worksurfaces, Shelves, and Foundation Top Skin

Long grain direction 
Short grain direction 
Long grain or short grain direction is available as an option on worksurfaces, shelves, and foundation top skins.

Woodgrain laminate is not allowed with short grain direction on worksurfaces or tower shelves larger than 60"W.

Solid surface is only available with long grain direction.

Worksurface edges are always long grain (horizontal).

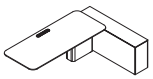
Foundation with One Perpendicular Worksurface



Right-handed worksurface shown.

▶Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurface: laminate
- Worksurface edge: plastic
- Worksurface understructure: P631 Dark Heather Grey PET
- Surface power, grommet: paint price group 1
- Permanent power, below worksurface
- Column: paint price group 1
- Column cap: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Worksurface depth (see below under Required Selections)
6 Worksurface width (see below under Required Selections)
7 Column height (see below under Required Selections)
8 Permanent power for worksurface (see below under Required Selections)
9 Counterweights (see below under Required Selections)
10 Laminate color number for foundation skins
11 Laminate color number for foundation top skin
12 Plastic color number for foundation skin edges
13 Plastic color number for foundation top skin edge
14 Laminate color number for worksurface
15 Plastic color number for worksurface edge
16 Paint color number for power grommet
17 Paint color number for column
18 Plastic color number for column cap
19 Options, if selected (see below)

▶See *Surface Materials*, page 142.

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*

Mackinac Settings

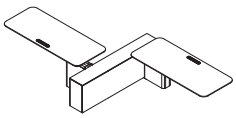
Foundation with Two Perpendicular Worksurfaces



Left-handed worksurface shown.

▶Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: P631 Dark Heather Grey PET
- Surface power grommets: paint price group 1
- Permanent power, below worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Worksurface depths (see below under Required Selections)
6 Worksurface widths (see below under Required Selections)
7 Column heights (see below under Required Selections)
8 Permanent power for worksurfaces (see below under Required Selections)
9 Counterweights (see below under Required Selections)
10 Laminate color number for foundation skins
11 Laminate color number for foundation top skin
12 Plastic color number for foundation skin edges
13 Plastic color number for foundation top skin edge
14 Laminate color number for worksurfaces
15 Plastic color number for worksurface edges
16 Paint color number for power grommets
17 Paint color number for columns
18 Plastic color number for column caps
19 Options, if selected (see below)

▶See *Surface Materials*, page 142.

Tip: Only one drawer per foundation section is allowed.

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Section 1**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*
	Side A, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*

▶**Required Selections, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

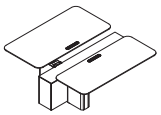
Foundation with Two Parallel Worksurfaces



Right- and left-handed worksurfaces shown.

▶Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: P631 Dark Heather Grey PET
- Surface power grommets: paint price group 1
- Permanent power, below worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Worksurface depths (see below under Required Selections)
6 Worksurface widths (see below under Required Selections)
7 Column heights (see below under Required Selections)
8 Permanent power for worksurfaces (see below under Required Selections)
9 Counterweights (see below under Required Selections)
10 Laminate color number for foundation skins
11 Laminate color number for foundation top skin
12 Plastic color number for foundation skin edges
13 Plastic color number for foundation top skin edge
14 Laminate color number for worksurfaces
15 Plastic color number for worksurface edges
16 Paint color number for power grommets
17 Paint color number for columns
18 Plastic color number for column caps
19 Options, if selected (see below)

▶See *Surface Materials*, page 142.

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Section 1**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*
	Side A, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*

Tip: Only one drawer per foundation section is allowed.

▶**Required Selections, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

	Options	U.S. Price	Required to Specify
Surface Materials, continued	**Solid surface on foundation with top skin, and/or worksurface**		
	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.
	Glass on foundation with top skin, and/or worksurfaces		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Columns		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$224	Specify paint color number.
	• Paint price group 3	+$300	Specify paint color number.
	Power grommets for worksurfaces		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 18	Specify paint color number.
	• Paint price group 3	+$ 30	Specify paint color number.
	Power grommet lids for worksurfaces		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 9	Specify paint color number.
	• Paint price group 3	+$ 24	Specify paint color number.
Powerway on Foundation Top Skin	• No powerway	No cost	Specify *with no powerway.*
	• With powerway	+$115	Specify *with powerway.*
Grain Direction	**Foundation**		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain (on 54"W and 60"W)	No cost	Specify *with vertical grain.*
	• Wood veneer		
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain	No cost	Specify *with vertical grain.*
	Foundation top skin		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain (on 54"W and 60"W)	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	Worksurface		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	Shelf (per shelf)		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*

Tip: Any woodgrain laminate foundation skin wider than 60" will be horizontal grain direction only.

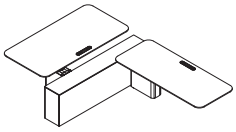
Mackinac Settings

Foundation with One Perpendicular Worksurface and One Parallel Worksurface



Right- and left-handed worksurfaces shown.

▶Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: P631 Dark Heather Grey PET
- Surface power grommets: paint price group 1
- Permanent power, below worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Perpendicular worksurface depth (see below under Required Selections)
6 Parallel worksurface depth (see below under Required Selections)
7 Perpendicular worksurface width (see below under Required Selections)
8 Parallel worksurface width (see below under Required Selections)
9 Column heights (see below under Required Selections)
10 Permanent power for worksurfaces (see below under Required Selections)
11 Counterweights (see below under Required Selections)
12 Laminate color number for foundation skins
13 Laminate color number for foundation top skin
14 Plastic color number for foundation skin edges
15 Plastic color number for foundation top skin edge
16 Laminate color number for worksurfaces
17 Plastic color number for worksurface edges
18 Paint color number for power grommets
19 Paint color number for columns
20 Plastic color number for column caps
21 Options, if selected (see below)

▶See *Surface Materials*, page 142.

Required Selections

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Section 1**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*
	Side A, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*

Tip: Only one drawer per foundation section is allowed.

▶**Required Selections, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

▶**Required Selections, continued from previous page**

	Required Selections	U.S. Price	Required to Specify

	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side A, section 1)	+$228	Specify *with drawer.*
	Side B, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side A, section 2)	+$228	Specify *with drawer.*
	Side B, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side A, section 3)	+$228	Specify *with drawer.*
Worksurface Size Options	• Modular	No cost	Specify *with modular.*
	• Parametric	No cost	Specify *with parametric.*
Worksurface Depths	• 30"D	Prices at right	Specify *with 30"D.*
	• 36"D	Prices at right	Specify *with 36"D.*
Perpendicular Worksurface Width	• 48"W	Prices at right	Specify *with 48"W.*
	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Parallel Worksurface Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Column Heights	• Seated height, fixed	No cost	Specify *with seated height, fixed*
	• Standing height, fixed	+$ 76	Specify *with standing height, fixed.*
	• Height adjustable	+$351	Specify *with height adjustable.*
Permanent Power for Worksurface	• No power	No cost	Specify *with no permanent power.*
	• Three power, two USB	+$218	Specify *with three power, two USB.*
	• Three power, one data	+$218	Specify *with three power, one data.*
	• Two power, two data	+$377	Specify *with two power, two data.*
	• Two power, two USB, one data	+$377	Specify *with two power, two USB, one data.*
	• One power, two USB, two data	+$377	Specify *with one power, two USB, two data.*
Counterweights	• Floor mounted	+$152	Specify *with floor mounted.*
	• Standard counterweight package	+$311	Specify *with standard package.*
	• HD counterweight package	+$602	Specify *with HD package.*

Tip: Parametric pricing can be found in SmartTools.

Tip: Parametric sizes are not available for solid surface worksurfaces.

Tip: 48"W worksurface cannot be placed parallel.

Tip: HD counterweight package increases stability and is required in some configurations.

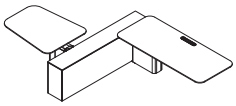
Mackinac Settings

Foundation with One Perpendicular Worksurface and One Collaborative Worksurface



Left-handed personal worksurface shown.

▶Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: P631 Dark Heather Grey PET
- Surface power grommet: paint price group 1
- Permanent power, below worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Perpendicular worksurface depth (see below under Required Selections)
6 Collaborative worksurface depth (see below under Required Selections)
7 Perpendicular worksurface width (see below under Required Selections)
8 Collaborative worksurface width (see below under Required Selections)
9 Column heights (see below under Required Selections)
10 Permanent power for worksurfaces (see below under Required Selections)
11 Counterweights (see below under Required Selections)
12 Laminate color number for foundation skins
13 Laminate color number for foundation top skin
14 Plastic color number for foundation skin edges
15 Plastic color number for foundation top skin edge
16 Laminate color number for worksurfaces
17 Plastic color number for worksurface edges
18 Paint color number for power grommets
19 Paint color number for columns
20 Plastic color number for column caps
21 Options, if selected (see below)

▶See *Surface Materials*, page 142.

Required Selections

		U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Section 1**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*

Tip: Only one drawer per foundation section is allowed.

▶**Required Selections, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

▶**Required Selections, continued from previous page**

	Required Selections	U.S. Price	Required to Specify
Foundation Sides/Sections, continued	**Side A, Section 3**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*
	Side B, Section 1		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side A, section 1)	+$228	Specify *with drawer.*
	Side B, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side A, section 2)	+$228	Specify *with drawer.*
	Side B, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side A, section 3)	+$228	Specify *with drawer.*
Worksurface Size Options	• Modular	No cost	Specify *with modular.*
	• Parametric	No cost	Specify *with parametric.*
Perpendicular Worksurface Depth	• 30"D	Prices at right	Specify *with 30"D.*
	• 36"D	Prices at right	Specify *with 36"D.*
Collaborative Worksurface Depth	• 42"D	Prices at right	Specify *with 42"D.*
	• 48"D	Prices at right	Specify *with 48"D.*
	• 54"D	Prices at right	Specify *with 54"D.*
Perpendicular Worksurface Width	• 48"W	Prices at right	Specify *with 48"W.*
	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Collaborative Worksurface Width	• 36"W (only with 42"D)	Prices at right	Specify *with 36"W.*
	• 42"W (only with 48"D and 54"D)	Prices at right	Specify *with 42"W.*
Column Heights	• Seated height, fixed	No cost	Specify *with seated height, fixed*
	• Standing height, fixed	+$ 76	Specify *with standing height, fixed.*
	• Height adjustable	+$351	Specify *with height adjustable.*
Permanent Power for Worksurfaces	• No power	No cost	Specify *with no permanent power.*
	• Three power, two USB	+$218	Specify *with three power, two USB.*
	• Three power, one data	+$218	Specify *with three power, one data.*
	• Two power, two data	+$377	Specify *with two power, two data.*
	• Two power, two USB, one data	+$377	Specify *with two power, two USB, one data.*
	• One power, two USB, two data	+$377	Specify *with one power, two USB, two data.*
Counterweights	• Floor mounted	+$152	Specify *with floor mounted.*
	• Standard counterweight package	+$311	Specify *with standard package.*
	• HD counterweight package	+$602	Specify *with HD package.*

Tip: Parametric pricing can be found in SmartTools.

Tip: Collaborative worksurfaces are not available as parametric.

Tip: Parametric sizes are not available for solid surface worksurfaces.

Tip: HD counterweight package increases stability and is required in some configurations.

	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.
	Glass on foundation with top skin, and/or worksurfaces		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Columns		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$224	Specify paint color number.
	• Paint price group 3	+$300	Specify paint color number.
	Power grommets for worksurfaces		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 18	Specify paint color number.
	• Paint price group 3	+$ 30	Specify paint color number.
	Power grommet lid on collaborative worksurface		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 9	Specify paint color number.
	• Paint price group 3	+$ 24	Specify paint color number.
Powerway on Foundation Top Skin	• No powerway	No cost	Specify *with no powerway.*
	• With powerway	+$115	Specify *with powerway.*
Grain Direction	**Foundation**		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain (on 54"W and 60"W)	No cost	Specify *with vertical grain.*
	• Wood veneer		
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain	No cost	Specify *with vertical grain.*
	Foundation top skin		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain (on 54"W and 60"W)	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*

Tip: The finish picked for foundation will be applied to the back, front, and sides.

For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*

Tip: Any woodgrain laminate foundation skin wider than 60" will be horizontal grain direction only.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

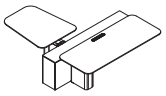
Mackinac Settings

Foundation with One Parallel Worksurface and One Collaborative Worksurface



Left-handed personal worksurface shown.

▶ Need help? Product details, page 14

Standard Includes

- 12"D foundation (back/front/sides): laminate price group 1
- Foundation edges: plastic
- Foundation top skin: laminate price group 1
- Foundation top skin edge: plastic
- Worksurfaces: laminate
- Worksurface edges: plastic
- Worksurface understructures: P631 Dark Heather Grey PET
- Surface power grommet: paint price group 1
- Permanent power, below worksurfaces
- Columns: paint price group 1
- Column caps: plastic
- Attachment hardware

Required to Specify

1 Style number
2 Foundation width (see below under Required Selections)
3 Foundation sides/sections (see below under Required Selections)
4 Worksurface size option (see below under Required Selections)
5 Parallel worksurface depth (see below under Required Selections)
6 Collaborative worksurface depth (see below under Required Selections)
7 Parallel worksurface width (see below under Required Selections)
8 Collaborative worksurface width (see below under Required Selections)
9 Column heights (see below under Required Selections)
10 Permanent power for worksurfaces (see below under Required Selections)
11 Counterweight (see below under Required Selections)
12 Laminate color number for foundation skins
13 Laminate color number for foundation top skin
14 Plastic color number for foundation skin edges
15 Plastic color number for foundation top skin edge
16 Laminate color number for worksurfaces
17 Plastic color number for worksurface edges
18 Paint color number for power grommet
19 Paint color number for columns
20 Plastic color number for column caps
21 Options, if selected (see below)

▶ See *Surface Materials*, page 142.

Required Selections		U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Sect**		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*
	Side A, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Worksurface location (if worksurface not selected in another section)	No cost	Specify worksurface location.
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*

Tip: Only one drawer per foundation section is allowed.

	Options	U.S. Price	Required to Specify
Surface Materials	**Laminate on foundation with top skin, and/or worksurface**		
Tip: The finish picked for foundation will be applied to the back, front, and sides.	• Laminate price group 2	See information at left	Specify laminate color number.
For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*	• Laminate price group 3	See information at left	Specify laminate color number.
	• Open Line laminate	+$111 plus cost of laminate	▶See *Surface Materials Reference Manual.*
	Composite veneer on foundation with top skin, and/or worksurface		
	• Composite veneer group 1	Prices at right	Specify composite veneer color number.
	• Composite veneer group 2	Prices at right	Specify composite veneer color number.
	Wood veneer on foundation with top skin, and/or worksurface		
	• Wood group 1	Prices at right	Specify wood color number.
	• Wood group 2	Prices at right	Specify wood color number.
	• Wood group 3	Prices at right	Specify wood color number.
	• Customiz stain	No cost	Specify *with Customiz stain.* ▶See *Surface Materials Reference Manual.*
	• Full-fill finish on wood group 1 (on worksurface only)	Prices at right	Specify full-fill finish number.
	Solid surface on foundation with top skin, and/or worksurface		
	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.
Tip: 6509 Mirrored Bronze back painted glass is not available.	**Glass on foundation with top skin, and/or worksurface**		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Columns		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$224	Specify paint color number.
	• Paint price group 3	+$300	Specify paint color number.
	Power grommets for worksurfaces		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 18	Specify paint color number.
	• Paint price group 3	+$ 30	Specify paint color number.
	Power grommet lid on collaborative worksurface		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 9	Specify paint color number.
	• Paint price group 3	+$ 24	Specify paint color number.
Powerway on Foundation Top Skin	• No powerway	No cost	Specify *with no powerway.*
	• With powerway	+$115	Specify *with powerway.*
Grain Direction	**Foundation**		
Tip: Any woodgrain laminate foundation skin wider than 60" will be horizontal grain direction only.	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain (on 54"W and 60"W)	No cost	Specify *with vertical grain.*
	• Wood veneer		
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain	No cost	Specify *with vertical grain.*
	Foundation top skin		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain (on 54"W and 60"W)	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	Worksurface		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.

• 12"D foundation (back/front/sides): laminate price group 1 • Foundation edges: plastic • Foundation top skin: laminate price group 1 • Foundation top skin edges: plastic	

	Required Selections	U.S. Price	Required to Specify
Foundation Width	• 54"W	Prices at right	Specify *with 54"W.*
	• 60"W	Prices at right	Specify *with 60"W.*
	• 66"W	Prices at right	Specify *with 66"W.*
	• 72"W	Prices at right	Specify *with 72"W.*
Foundation Sides/Sections	**Side A, Section 1**		
Tip: Only one drawer per foundation section is allowed.	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 1)	+$228	Specify *with drawer.*
	Side A, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 2)	+$228	Specify *with drawer.*
	Side A, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side B, section 3)	+$228	Specify *with drawer.*
	Side B, Section 1		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side A, section 1)	+$228	Specify *with drawer.*
	Side B, Section 2		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side A, section 2)	+$228	Specify *with drawer.*
	Side B, Section 3		
	• Skin only	No cost	Specify *with skin only.*
	• Drawer (if drawer not selected on side A, section 3)	+$228	Specify *with drawer.*
Counterweights	• Floor mounted	+$152	Specify *with floor mounted.*
Tip: Standard counterweight package is required unless floor mounted is specified.	• Standard counterweight package	+$295	Specify *with standard package.*

▶**Options, on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

▶**Required Selections, continued from previous page**

Tip: The finish picked for foundation will be applied to the back, front, and sides.

For laminate group 2 and 3 pricing, *please refer to the electronic catalog or SmartTools.*

	Options	U.S. Price	Required to Specify
Surface Materials	**Laminate on foundation and/or top skin**		
	• Laminate price group 2	See information at left	Specify laminate color number.
	• Laminate price group 3	See information at left	Specify laminate color number.
	• Open Line laminate	+$111 plus cost of laminate	▶See *Surface Materials Reference Manual.*
	Composite veneer on foundation and/or top skin		
	• Composite veneer group 1	Prices at right	Specify composite veneer color number.
	• Composite veneer group 2	Prices at right	Specify composite veneer color number.
	Wood veneer on foundation and/or top skin		
	• Wood group 1	Prices at right	Specify wood color number.
	• Wood group 2	Prices at right	Specify wood color number.
	• Wood group 3	Prices at right	Specify wood color number.
	• Customiz stain	No cost	Specify *with Customiz stain.* ▶See *Surface Materials Reference Manual.*
	Glass on foundation and/or top skin		
	• Back painted glass	Prices at right	Specify back painted glass color number.
	Solid surface on foundation and/or top skin		
	• Solid surface group A	Prices at right	Specify solid surface finish number.
	• Solid surface group B	Prices at right	Specify solid surface finish number.
	• Solid surface group C	Prices at right	Specify solid surface finish number.
	• Solid surface group D	Prices at right	Specify solid surface finish number.

Tip: Powerway is required when a monitor mounting kit is selected.

Powerway on Foundation Top Skin	• No powerway	No cost	Specify *with no powerway.*
	• With powerway	+$115	Specify *with powerway.*

Tip: Any woodgrain laminate foundation 60" or wider will be horizontal grain direction only.

Grain Directions	**Foundation**		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain	No cost	Specify *with vertical grain.*
	• Wood veneer		
	– Horizontal grain	No cost	Specify *with horizontal grain.*
	– Vertical grain	No cost	Specify *with vertical grain.*

Tip: Foundation top skin with woodgrain laminate can have short grain direction on 54"W and 60"W only.

	Foundation top skin		
	• Laminate		
	– No grain direction	No cost	Specify *with no grain direction.*
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*
	• Wood veneer		
	– Short grain	No cost	Specify *with short grain.*
	– Long grain	No cost	Specify *with long grain.*

Tip: All drawers lock if locks are selected.

Drawer Locks	• No locks	No cost	Specify *with no locks.*
	• With locks	+$ 14 per drawer	Specify *with locks* and select 9250 Ember Chrome or 9201 Polished Chrome.
Keying	• Factory- and field-installed keying		▶Page 150

▶**Options, continued on next page**

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
▶See page 1 for details.

Tip: Tower and top skin must be the same size as the foundation.

▶**Options, continued from previous page**

	Options	U.S. Price	Required to Specify
Tower	• No tower	No cost	Specify *with no tower.*
	• 54"W tower	+$3786	Specify *with 54"W tower.*
	• 60"W tower	+$4207	Specify *with 60"W tower.*
	• 66"W tower	+$4674	Specify *with 66"W tower.*
	• 72"W tower	+$5193	Specify *with 72"W tower.*
	Shelves		
	• One shelf	+$ 391	Specify *with one shelf.*
	• Two shelves	+$ 782	Specify *with two shelves.*
	Frame finish		
	• Paint price group 1	No cost	Specify paint color number.
	• Paint price group 2	+$ 95	Specify paint color number.
	• Paint price group 3	+$ 196	Specify paint color number.
	• Tower shelf finish (per shelf)	Prices at right	Specify tower shelf finish.
	Edge finish (laminate only)		
	• Plastic	No cost	Specify plastic color number.
	Lighting lower shelf on 54"W or 60"W		
	• No lighting	No cost	Specify *with no lighting.*
	• With lighting	+$ 115	Specify *with lighting.*
	Lighting upper shelf on 54"W or 60"W		
	• No lighting	No cost	Specify *with no lighting.*
	• With lighting	+$ 115	Specify *with lighting.*
	Lighting lower shelf on 66"W or 72"W		
	• No lighting	No cost	Specify *with no lighting.*
	• With lighting	+$ 228	Specify *with lighting.*
	Lighting upper shelf on 66"W or 72"W		
	• No lighting	No cost	Specify *with no lighting.*
	• With lighting	+$ 228	Specify *with lighting.*

Surface Materials

Surface Materials	**142**
Veneer Cut Guidelines and Wood Touch-Up Kits	**146**
Open Line Laminate Edge Coordination Matrix	**147**

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see *steelcase.com/surface-materials.*

Surface Materials Binders include:
- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Wood

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

Forest Stewardship Council (FSC) certified wood (veneer and core) is available on most Steelcase wood products through the Specials RFQ process.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:
- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Ⓔ = Excluded

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut.
▶Refer to the *Veneer Cut Guidelines on* page 146 for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.
Tip: Make sure to check the cut selection across the entire order. There is no prevention to mixing cuts on a product or an order.

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as a part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on *village.steelcase.com* for sample information and product line availability. All premium veneers are in clear-coat.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit *steelcase.com/surface-materials* under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are part of our Select Surfaces program as Wood Group 1 pricing.

Composite Veneer Group 1

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A $500 stain-matching fee applies on CUSTOMIZ requests (Exception: The $500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The $500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A $1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a $1,000 fee at any point within five years after the $1,500 initiation fee was paid. If the finish is not reactivated within five years after the $1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the $1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual.*

Low sheen wood finish topcoat, approximately 15 gloss level instead of standard 35 gloss level, is available through Specials at no additional cost.

Laminate

Steelcase Surfaces

High-Pressure Laminate

Price Group 1

Fiber Laminate

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of $111 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

Laminate Approval and Material Requirements
To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:
- Visit *www.steelcase.com*

How to Order
Once you have confirmed that the laminate you've selected has been tested and approved, you are ready to place your order.

To order an Open Line laminate on a Steelcase product:
- Mark the purchase order with the
  - Laminate manufacturer,
  - Laminate number, and
  - Laminate description
- Use the appropriate Open Line laminate number (2900).
- Use the appropriate "2K" number to indicate the edge color requirements.

For additional information, refer to the *Steelcase Surface Materials Reference Manual.*

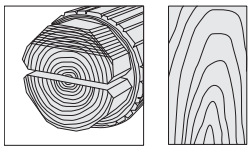
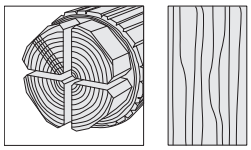
Veneer Cut Guidelines and Wood Touch-Up Kits

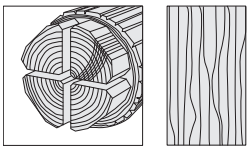
Veneer Cut Guidelines



Flat Cut
Veneer is cut parallel to the flat side of the cant at a tangent to the growth rings of the tree. This produces a cathedral or oval pattern. On average, there is a 6-8" wide leaf width. On an 18" wide surface, there will likely be three leaves showing a repeated pattern.



Quarter Cut
Veneer is cut from quarter sections of the log which are produced by cutting each cant in half. Cutting lines are at an angle of approximately 90 degrees to the growth rings at the center of the quarter. This produces a straight grain or ribbon pattern. On average, leaves are 2½–4" wide.



Rift Cut
This veneer cut is specifically for oak. Cutting lines are an arc approximately perpendicular to the growth rings. This produces a comb-like straight grain or ribbon pattern. On average, leaves are 2½–4" wide.

Wood Touch-Up Kits

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J.Kaltz Co. Specific Steelcase finish codes (such as 3422) can be found under Finishes > Dealer Kits. Each kit contains one brush tip marker and one fill stick.

Place orders as follows:
- Phone: 616.942.6070
- Web: *http://www.jkaltzco.com*

Open Line Laminate Edge Coordination Matrix

For Plastic Edges

The colors of the plastic edges are determined by the 2K finish number selected.

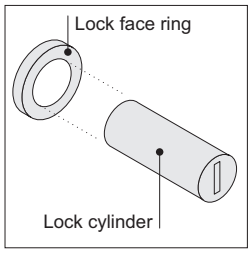
Lock and Keying Options 150

Style Number Index 152

Lock and Keying

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.



Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR999 (Master keying numbers: XF1001 to XF3000). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.
▶See below.

Key Random

FR305
FR421
FR305
or
XF1011
XF1042
XF1011
→ XF Master Key

Required to Specify

Master key random	+$39	Specify *with master key random.*

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR999 (Master keying numbers: XF1001 to XF3000).
Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key Random

or
XF1011
XF1042
XF1011
→ XF Master Key

Key specific means that you can specify any key number from FR305 to FR999 (Master keying numbers: XF1001 to XF3000). This option can be used to key all the furniture units in a workstation or department the same.
Tip: Designate the quantity per key number in your specification.
▶See example at right.

Key Specific

FR350
FR350
FR350
or
XF1020
XF1020
XF1020
→ XF Master Key

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR999 (Master keying numbers: XF1001 to XF3000).
