Steelcase

Tech devices rule the workday, and with Steelcase Powerstrip Plus, every desk becomes an inviting place to plug in. USB-C, USB-A and standard power outlets come together in a variety of configurations and colors. Steelcase Powerstrip Plus works above the worksurface and below where it provides discreet utility outlets. Everything connects to a single NRTL-listed cord to the floor.

Features + Benefits

One cord out – everywhere

With its wide-ranging configurations, colors and compatibility, Steelcase Powerstrip Plus brings the benefit of one-cord-out planning to every worksurface.

Multiple desktop power configurations combine USB-C, USB-A, standard power outlets and data ports

Optional utility power provides 4, 7 or 9 outlets below the worksurface

Braided, curly and straight cord options available in multiple lengths

12 bold and neutral color choices

Works seamlessly across Steelcase desking portfolio, including Ology and Migration SE height-adjustable desks and benching systems

Attach to worksurface with a C-clamp, rail, front-edge mount or flush mount

Under Worksurface Utility Power mounts into the Steelcase Universal Cable Management Kit sold separately
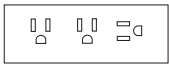

Combine with Steelcase Universal Cable Management Kit to neatly gather cords, power bricks and outlets beneath the desk in a fold-open tray
