For Canadian Pricing

Canadian factor can be found at www.steelcase.com/CADpricing. Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Statement of Line

Component	Dimensions	Page Reference
Base Junction	10" x 10" x 10"	10
Product Detail	10" x 10" x 10"	11
Connections	10" x 10" x 10"	12
Surface Materials	10" x 10" x 10"	13
Wiring and Cabling	10" x 10" x 10"	14
Actual Dimensions	10" x 10" x 10"	15

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product.

Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

Required to Specify

(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing
shows you what the
product looks like.

[illegible]

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products

provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with Customiz Stain

Italic t

Italic typeface on specifying pages usually identifies wording that you should use in your order.

Tip 7

To determine how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an “X.”

Additional Resources

Storage products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Product Brochures

Planning Tools

Quick Ship Guide
This handbook describes all Steelcase and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5–7 days), or Coalesse Rapid10 (ships in 10 days).

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials
- “Available on” matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase’s design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSymbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Storage Product Training

Basic training for the majority of Steelcase filing and storage products is available as part of the Building Product Muscle (BPM) curriculum on the Steelcase University website at village.steelcase.com.

The Filing and Storage BPM is an interactive, Web-based course filled with photos, detailed positioning, statement of line, and feature/advantage information, as well as practice exercises designed to build salespeople’s knowledge of filing and storage products. The course also contains printable job aids to provide ongoing performance support. The Filing and Storage BPM is course is SAL379.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For ordering or product assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939, or visit our website: www.steelcase.com.

Related Products

Steelcase and other manufacturers produce products that are ideal to use with Storage products. Some of them are listed here along with details about how to get product literature.

Steelcase worktools

include a full line of ergonomically designed products that enhances and improves the work setting. Product platforms include computer support tools, organizational worktools, and personal lighting.

► For additional product information, refer to *Steelcase Worktools Specification Guide* or contact Steelcase at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: <https://www.steelcase.com/discover/steelcase/esg-overview/environmental/>

Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Understanding Counterweights

----------------------------------	-----	-----	----------------------------------	--------------	----------------------

If a counterweight is not required in any condition for a particular style number, the product specification page will indicate not required.

Requirements for Freestanding Applications

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for lateral files, towers, cabinets, and bookcases anchored to the floor.

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHDP) approved anchor bracket, contact Steelcase Specials.
Tip: Anchor bracket cannot be used with pedestals.

Floor anchor brackets for Universal with FrameOne foot secure lateral files and towers to the floor for stability or in seismic zones to reduce the risk of hazards during earthquakes.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent.

Wall Anchors

2. Counterweights are not required for lateral files, towers, cabinets, and bookcases anchored to the wall.

For wall anchoring of lateral files, towers, cabinets, and bookcases, consult with the building's designated design professional (architect or engineer) and work with local codes authorities for approvals to ensure adequate support when product is fully loaded.

Ganging Brackets

3. Counterweights are not required for lateral files, towers, cabinets, and bookcases ganged back-to-back with ganging hardware.

TS Series towers which do not include ganging hardware, order **8425808SR** from Service Parts.

Counterweights

Units ganged side-by-side **require** counterweights.

Requirements for Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide. (Storage may support panel stability)

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for Two Drawer lateral files installed right below a worksurface attached to the panel system when the application is mirrored back-to-back (a two-pack minimum).

TS Series underworksurface lateral files are only intended for use under a panel-mounted worksurface and cannot be used as freestanding.

**1.5-High
Intermediate
Support**

2. Counterweights are not required for One-High and 1.5-High lateral files and cabinets used with an intermediate support, when the application is mirrored back-to-back (a two-pack minimum).

Note: This includes storage either perpendicular or parallel to the panel.

**Storage-to-Panel
Connector**

**1.5-High
Intermediate
Support**

3. Counterweights are not required for One-High, 1.5-High, and Two Drawer lateral files and cabinets used with a storage-to-panel bracket to support the panel run if the application is mirrored back-to-back (a two-pack minimum) and the panel run is equal to or greater than 6'.

**Storage-to-Panel
Connector**

4. Counterweights are not required for towers used with a storage-to-panel connector to support the panel run, if the application is mirrored back-to-back (a two-pack minimum) and the panel is equal to or greater than 5'.

Requirements for c:scape Tethered Applications

c:scape stability guidelines must be met prior to determining counterweight requirements.

► See *c:scape Stability Guidelines* in the *c:scape Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Counterweights are not required for a 1.5-High lateral file and low storage 48"W or smaller tethered to a c:scape beam when the beam width is 6' or larger.

3. Counterweights are not required for 1.5-High lateral file or low storage tethered to a c:scape beam when the storage is the same size and mirrored back-to-back on both sides of the beam.

2. Counterweights are not required for 1.5-High lateral file and low storage tethered to a c:scape beam when the beam has mid storage mounted parallel and the beam length is equal to or greater than the combined low storage width.

Requirements for Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. A counterweight is not required for a single Two Drawer lateral file attached to desks connected in an L-configuration.

2. A counterweight is not required for a single Two Drawer lateral file attached to a desk made with corner, extended corner, or 120° corner worksurfaces.

L-configurations with two or more lateral files **require** counterweights in each file.

Configurations with two or more lateral files **require** counterweights in each file.

Counterweights are **required** for all lateral files in stand-alone desk or credenza applications.

Hutch kit applications with lateral files always **require** counterweights in the lateral files.

Requirements for Pedestals in Freestanding Applications

Counterweights are required for all freestanding applications.

1. Universal fixed pedestals converted to freestanding pedestals require a counterweight.

Universal fixed to freestanding pedestal conversion kit includes $\frac{1}{8}$ "H steel top and counterweight package.

Fixed pedestals, converted to freestanding with a laminate or veneer top, require a counterweight.

TS Series fixed pedestals are only intended for use under a panel-mounted worksurface and cannot be converted to freestanding.

Laminate fixed pedestals can never be freestanding.

2. Mobile pedestals include counterweight as standard.

Requirements for Pedestals in Panel Applications

Panel stability guidelines must be met prior to determining counterweight requirements.

► See *Panel Stability Guidelines* in the appropriate panel specification guide.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

Counterweights are not required for fixed pedestals installed below a worksurface attached in a panel spine application. Single workstation applications **require** a counterweight in each pedestal.

Requirements for Pedestals in Answer Freestanding Desk Applications

Answer Freestanding Desk guidelines must be met prior to determining counterweight requirements.

► See *Answer Freestanding Desk Stability Guidelines* in the *Answer Freestanding Specification Guide*.

Counterweights are required as shown in the product specification pages unless any of the following conditions are met:

1. Single pedestal desks less than 48"W require a counterweight. Single pedestal desks with 30"D pedestals require a counterweight.

2. Double pedestal desks 60"W and wider only require one pedestal with counterweight.

Less
than
60"W

All other desk applications with multiple pedestals **require** a counterweight for each pedestal.

3. Counterweights are not required for a single fixed pedestal in desk with hutch kit applications. Any additional pedestals within the application **require** counterweights.

Requirements for Pedestals in Answer Freestanding Desk Applications, continued

4. A counterweight is not required for a single fixed pedestal attached to a desk attached to another worksurface in an L-configuration. Any additional pedestals within the application require counterweights.

5. A counterweight is not required for a single fixed pedestal attached to desks made with corner, extended corner, or 120° corner worksurfaces. Any additional pedestals within the application require counterweights.

TS Series Pedestals

TS Series pedestals provide fixed and mobile storage for personal items and filing of infrequently referenced materials.

► Specifying, page 166

Top of pedestal is open to attach beneath the worksurface.

Leveling glides on pedestals adjust to install furniture on uneven floors. Leveling glide range is 1".

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Finished back and sides are standard.

Pedestal file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents. File drawer accommodates letter- and legal-size filing (legal filing requires the use of optional dividers).

Handle on mobile pedestal can be positioned in front or at rear to access contents of drawer. Also available without handle.

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.

► Lock and Keying Options, page 376

Product Details

Handle pull

Ledge pull

Contemporary pull

Pull Choices

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Extra pull, available as an option on mobile pedestals, allows pedestals to be moved easily within the workstation.

Box drawer and file drawer dividers and pencil tray for use with fixed pedestals are available as optional accessories. Mobile pedestals have different dividers that are not interchangeable.

Dividers and pencil tray for use with mobile pedestals must be ordered separately. Mobile pedestal accessories are not interchangeable with under-worksurface pedestal accessories.

► Page 174

Tip: Under-worksurface pedestals shipped prior to January 2005 require the use of drawer accessories from the mobile pedestal collection.

To file legal-size or side-to-side letter-size filing in pedestal file drawers, specify optional 15"W file rails.

Counterweight packages are required to ensure product stability, except on TS Series box/file mobile pedestals due to a front caster present. Where counterweights are required, the packages are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Tip: TS Series pedestal counterweights are available from Service Parts catalog.

Connections

TS Series fixed pedestals are only intended for use under a panel-mounted worksurface. Attachment hardware is provided.

Pedestal filler, ordered separately, adds structure and fills the gap between the pedestal and panel. TS Series pedestal filler works with Kick panels only.

► Page 167

Mobile pedestal fits under 24"D and 30"D work-surfaces or can be moved wherever storage is needed.

Basic cushion enhanced is ordered separately for use on TS Series mobile pedestals (TS2PBF19M and TS2PBF22M only). Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener.

Wiring & Cabling

Fixed pedestals do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets of other cable-routing accessories.

Storage capacities and dimensions

► Page 382.

Counterweight Requirements for Storage Products

► Pages 7–14

When adding a TS Series pedestal to a Kick freestanding desk

a counterweight must be added. TS Series pedestal counterweights are available from Service Parts (1444111001SR).

Shipping

Pedestals are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

TS Series Slim Mobile Pedestals

TS Series pedestals provide mobile storage for personal items and filing of infrequently referenced materials.
► Specifying, pages 172

Finished back and sides are standard.

Drawer access can either be left side access, right side access, or two side access. Two side access has full sides on both sides.

Lock is standard keyed random and controls all of the drawers. Lock cylinders must be specified separately. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
► Lock and Keying Options, page 376

Slim pedestal file drawers support side-to-side filing. File drawer accommodates letter and legal size. Hanging file folders can only be used with two-sided access option using included hanging rail pair.

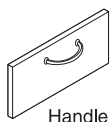

Cushion-top pedestals come with a writable surface beneath the top.

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

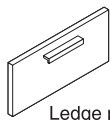

Pedestal file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents. File drawer accommodates letter- and legal-size filing (legal filing requires the use of optional dividers).

Height	22 $\frac{5}{16}$ "

TS Series Bins

TS Series bins can be attached to Answer and Kick with integrated hooks. These storage bins provide overhead storage in the workspace.

► Specifying, page 178

On-module attachment hooks are integral to the end supports and are used to mount bins on panels of the same width as bins.

Safety catch locks overhead storage unit to frame to prevent accidental removal.

Bin is steel and ships assembled.

Backstop prevents notebooks and equipment from damaging the surface of the panels or walls.

Flat-front lift-up doors open and close quietly. When up, the doors rest on top of the case to provide more storage space inside.

Locks are standard on bins to secure the door(s). Lock is located underneath the center of the shelf. Locks are standard factory-installed, keyed random. Two-door units are keyed alike.

► Lock and Keying Options, page 376

Recess beneath unit can accommodate a shelf light.

► Page 352

Product Details

Lock in bin is concealed from view beneath the shelf. Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Two-door units are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► Lock and Keying, page 376

Shelf lights are available for use beneath bins. Lights recess into the bottom of overhead bins.

► Page 352

Dividers are available as an option for use on bins. Dividers ship in a package of four.

► Page 168

Actual Dimensions

Depth 15³/₄"

Width 24", 30", 36", 42", 48", 60", and 72"

Height 16¹/₄"

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

On-module steel support hooks can be used above and adjacent to slatwall.

Width of overhead bin must match the width of the panel or panels that it is attached to. Bin may span up to two frames.

TS Series bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

TS Series bins cannot be attached to upmount brackets.

Wall channels are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.
▶ Page 217

Wall channel horizontal brace is required with wall channels to support shelves and bins that are wider than 48".
▶ Page 217

Wiring & Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.
▶ Page 358

Surface Materials

Overhead bin

- Paint

Lock

- 9201 Polished Chrome

Dividers

- White plastic

Application Topics

Clearance between Universal Systems work-surfaces or Universal tables and bottom of overhead bins is 21³/₈" when storage unit is installed in the highest position on a 66"H panel and glides are adjusted all the way into the panel.

Guidelines for Stackable Components

Correct

Incorrect

TS Series bins, Universal bins, and shelves can hang from the first stacked tier only.

TS Series Laminate Common Shelves

► Specifying, page 179

Laminate common shelf has a wood core and is covered with Low-Pressure Laminate and High-Pressure Laminate. Plastic edge band is selectable.

Laminate common shelf can be mounted in two orientations relative to the support brackets. Over bracket orientation shown.

Tip: For anticipated heavy loads on 42" and 48"W laminate common shelves, a field-installed reinforcing channel (TSATRC39) can be used.

Laminate common shelf can be mounted with support brackets enclosing the shelf.

Actual Dimensions

Depth 15"

Width* 24", 30", 36", 42", and 48"

Height 7³/₄"

*Width includes dimension of laminate common shelf and support brackets. Laminate shelf is undersized by 1/2" to accommodate two support bracket mounting orientations.

Product Details

TS Series laminate common shelf ships with steel support brackets. Support brackets hook into the vertical panel slots or wall channel and lock into place with a safety catch. Support brackets can be used in either orientation.

Laminate common shelf is undersized by 1/2". When mounted over the support brackets, 1/4" of the bracket top will be exposed.

When two adjacent shelves are mounted over support brackets, there will be a 1/2" gap between shelves.

When two adjacent shelves are mounted with brackets enclosing the shelf, the brackets fill the gap between shelves.

TS Series shelf may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Wiring and Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

TS Series Under-Worksurface Lateral Files

► Specifying, page 180

Top of lateral file is open to attach beneath the worksurface.

Finished back and sides are standard.

Leveling glides on lateral files adjust to install furniture on uneven floors. Leveling glide range is 1".

Tip: The actual depth of under-worksurface lateral files is 18 1/4"D, which will not accommodate the use of the 18"D TS Series straight worksurfaces.

Lock cylinders are specified separately from the lateral file. Random, consecutive, and specific keying are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site. ► Lock and Keying Options, page 376

Lateral file drawers are made of steel with steel ball-bearing suspensions and open their full depth for total access to the contents.

Lateral file drawers are standard with two side-to-side hanging file frames to file letter- or legal-size papers. Clearance is provided for two rows of filing.

Product Details

Handle pull

Ledge pull

Contemporary pull

Pull Choices

Handle, ledge, and contemporary pulls are available as an option on drawers and doors.

Under-worksurface lateral file drawer dividers, front-to-back file rails, and side-to-side hanging file frames, ordered separately, are available for use with under-worksurface lateral files.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Actual Dimensions

Depth 18 1/4"

Width 30 1/2" and 36"

Height 27"

Connections

TS Series underwork-surface lateral files are only intended for use under a panel-mounted worksurface and cannot be used as freestanding.

Kick plate (2"H) and lock bar align with under-worksurface pedestal and Tower Too.

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base)

secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor bracket cannot be used with pedestals.

TS Series Tower Too

TS Series Tower Too accommodates paper filing, miscellaneous storage, and wardrobe storage.
 ▶ Specifying, page 184

Finished top, sides, and back allow storage cabinet to be positioned anywhere.

Shelves are fixed and can accommodate binders or other storage needs.

Lock, standard, is located on the lock bar and secures file drawers below. Lock cylinders are specified separately from the tower. Random, consecutive, and specific keying are available. Consecutive and specific keying options are available. Master-keyed locks are also available. Products with locks ship with a lock face ring and removable plastic plug to accommodate a lock cylinder installed on site.
 ▶ Lock and Keying Options, page 376

Safety interlock system allows only one drawer to be opened at a time.

Leveling glides adjust to install furniture on uneven floors. Leveling glide range is $\frac{3}{4}$ ".

Doors open 98° for access to contents.

Drawers open their full depth for total access to the contents. Drawers have full-height sides; hanging file folder frames are not needed for front-to-back letter-size filing. Legal or side-to-side filing is accommodated using Universal filing rails. Tower Too file drawers and optional box drawers are made of steel with steel ball-bearing suspensions.

▶ For interior dimensions, see *Storage Capacities and Dimensions* page 382.

Pull Choices

Handle pull is standard. Ledge pulls are available as an option on drawers and doors. Contemporary pulls are available as unique Tower Too style numbers.

Wardrobe left

Wardrobe right

TS Series Tower Too

is available 48"H, 54"H, or 66"H. Wardrobe storage can be left or right. 48"H is open side only.

Actual Dimensions

Depth 24"

Width 24"

Height 48", 54", and 66"

**Wardrobe interior**

can be specified with wardrobe hook or wardrobe rod with shelf.

**Two box drawers in place of top file drawer**

is available as an option on 48"H, 54"H, and 66"H towers. Box drawers have $\frac{3}{4}$ extension.

Dome, field-installed only, can be added to Tower Too for a unique aesthetic.

All locking (one lock for wardrobe, second lock for drawer, third lock for cabinet if applicable), is available as an option on 48"H, 54"H, and 66"H towers.

Towers are available with open side shelving in place of the upper cabinet. Fixed shelves provide two openings (with clearance of 5"H on 48"H units, 12"H on 54"H units, and 18"H on 66"H units).

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Kick plate (2"H) and lock bar align with fixed pedestals and under-worksurface lateral files.

Ganging hardware is available to provide alignment by joining adjacent components side-by-side, back-to-back, or both. Order *8425808SR* from Service Parts.

Top is open and accommodates attachment to a worksurface. Attachment hardware is included.

Lock is standard on pedestals and secures all drawers. Lock is located in the top drawer. Locks are standard factory-installed, keyed random.

► *Lock and Keying*, page 376

Leveling glides adjust to install pedestals on uneven floors. 25½"H pedestals have a 7/8" adjustable glide range, and 27"H pedestals have a 1 7/8" adjustable glide range.

Mobile pedestals fit under a worksurface and can be moved wherever storage is needed. They provide an auxiliary work-surface when you need more space to spread out your work.

► Specifying, page 198

► Specifying *Storage Accessories*, page 300

Finished back and sides are standard.

Four casters are hard composition and non-locking, with a full-rotation swivel mechanism. Casters are exposed at the base of box/file pedestals and concealed with the base of box/box/file and file/file pedestals.

Drawer fronts are available in steel, laminate, or wood veneer. Mobile pedestals maintain drawer pull and drawer front alignment with other storage components that have a 3" base.

Pull on proud-front pedestal is available in a variety of shapes.

3"H base is integral to 27"H pedestal case.

Pull on flush-front pedestal is full width and integral. This pull is available on steel drawer fronts only. Full-width wood pull is available as an option. Wood pull, if selected, ships separately from pedestal and is field installed, attaching to the integral pull with double-sided tape.

Drawers open their full depth for total access to the contents. Box and file drawers are available.

Top on mobile pedestal is 1/8"H steel. Additional top options are available.

Mobile pedestal cushion top provides a temporary seat ideal for informal gatherings. Optional handle can be extended to easily transport mobile pedestal. Available factory- or field-installed.

► Specifying, page 229

Product Details

Box drawers are a welded steel construction and available with proud or flush fronts. One divider is included with each box drawer.

File drawers are a welded steel construction and available with proud or flush fronts. Drawer body sides are full height and accommodate front-to-back filing of hanging letter-size file folders.

Optional rails accommodate side-to-side filing of letter-, A4-, and legal-size hanging folders. *Exception: Legal-size file folders cannot be filed in 17 1/8"D or 18 3/8"D pedestals.*

Drawer fronts can be removed and changed in the field to create a different aesthetic or to replace damaged drawer fronts.

Actual Dimensions

	Fixed	Box/File	Box/Box/File and File/File
Depth with flush steel front	17 1/2", 22 5/8", and 28 5/8"	17 1/2" and 22 5/8"	17 1/2" and 22 5/8"
Depth with proud steel, laminate, or wood front	18 3/8", 23 1/2", and 29 1/2"	18 3/8" and 23 1/2"	18 3/8" and 23 1/2"
Width	15"	15"	15"
Height	27"	21"	27"

Pencil tray to hold small office supplies is included with each box/box/file pedestal.

Optional basic drawer interior allows box/box/file pedestals to be ordered without rails, box drawer dividers, or pencil trays.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 128 mm and available on steel, laminate, or wood veneer drawers. c:scape pulls (200 mm) are available on steel drawers only.

Label holders are available through Service Parts. Label holder fits inside the integral pull of flush-front drawers and over the top edge of drawer front on proud-front drawers.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ *Lock and Keying*, page 376

Individual drawer locks are available on file/file pedestals for applications where you want to limit access to each drawer. Pedestals include a security shield above each drawer to prevent unauthorized access. Individual locking drawers are only available with field-installed lock cylinders. Consecutive, specific, and random keying options are available. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ *Lock and Keying*, page 376

Non-locking pedestal is available as an option.

27"H fixed pedestals have base alignment with other Universal Storage components that have a 3"H base.

Steel, laminate, and wood veneer tops are available in place of standard 1/8"H steel tops. 1"H steel tops, 1 3/16"H laminate with square edge profile, and 1 3/16"H wood veneer with square edge profile.

Handle of mobile pedestal cushion top is retractable. In the stowed position, handle is flush with mobile pedestal front. In the travel position, handle is completely extended and articulates upward for longer distance transport. Cushion top is also available without a handle.

Mobile pedestal cushion top for field-installation can be used with mobile pedestals RPM2421CP, RPM2421CF, and RPM2421CW only.

Basic cushion enhanced is ordered separately for use on Universal mobile pedestals with metal, laminate, or veneer top. Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener.

Basic cushion enhanced for field installation can be used with mobile pedestals RPM1821CF, RPM1821CP, RPM1821CW, RPM2421CF, RPM2421CP, and RPM2421CW only.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Fixed pedestals are intended to attach under a worksurface for security and support. Three pedestal depths are available to correspond with Universal worksurface depths. Proud-front pedestals exactly match the depth of Universal worksurface. Flush-front pedestals are 7/8" shorter.

Filler conceals the gap that may exist between the face of a panel and the back of a 27"H pedestal. Fillers are also used to provide stability for pedestal and worksurface configurations that are not panel-wrapped.

Tip: Fillers for proud front pedestals conceal a 1/2" gap. Fillers for flush front pedestals conceal a 1 3/8" gap.

Freestanding applications that don't require attachment to a worksurface should be used with a conversion kit that includes a steel top and counterweight package.

▶ Page 197

Field-installed accessories are available, including pencil trays, stationery trays, dividers, and rails.

▶ Page 300

Wiring & Cabling

Fixed pedestals do not accommodate cable-routing. Plan accordingly when installing pedestals underneath worksurfaces with grommets or other cable-routing accessories.

Shipping

Fixed pedestals are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Mobile pedestals are shipped in corrugated board to minimize damage during transport.

Universal Sliding Door Bins with Steel, Laminate, or Wood Fronts

For Use with Answer, Kick, Montage, and V.I.A.

Universal sliding door bins, attach to panels with an on-module bracket and provide overhead storage in the work space. Door is available in steel or wood.

► Specifying, page 202

Safety catch locks overhead storage unit to frame to prevent accidental removal.

On-module attachment brackets are used to mount bins on panels of the same width as bins and are included with the bin as a standard component.

Steel, laminate, and wood front doors glide smoothly from one side of the case to the other.

Bin ships assembled.

Metal backstop prevents notebooks and equipment from damaging panel surface.

Lock is standard on bins to secure the door. The door can be locked in the closed position on either the right- or left-hand side of the bin. Lock is located underneath the center of the shelf. Lock is standard factory-installed, keyed random. A no-lock option is available.
► *Lock and Keying*, page 376

Recess beneath unit can accommodate a shelf light.
► Page 352

Product Details

On-module attachment brackets are independent of the storage bin and unique to the panel system they are used on. The following style number suffixes indicate the panels they attach to:

TAK = Answer and Kick
MON = Montage
VIA = V.I.A.

If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

Vertical off-module brackets, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Montage, and V.I.A. with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

Vertical off-module brackets are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Actual Dimensions

Depth	15 ³ / ₄ "
Width	36", 42", 48", 60", 66", and 72"
Height	16 ¹ / ₄ "

Horizontal off-module brackets, optional, accommodate off-module installations of overhead bins on all widths of Montage enhanced off-module panels.

Tip: Maximum width for a horizontal off-module bin that is mounted on an enhanced off-module Montage panel is 48"W.

Tip: Horizontal off-module brackets push bin out from panel $\frac{5}{8}$ " on enhanced off-module Montage panel.

Tip: Only two pairs of off-module brackets and associated storage can be mounted per frame.

Horizontal off-module brackets cannot span a vertical frame rail or joint on enhanced off-module Montage panel only.

Upmount brackets, optional, are for use on Answer, Kick, and Montage. Brackets enable overhead storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width. For Montage, upmount brackets attach near the top of a 55"H frame.

Two upmount bin brackets can be hung side-by-side in an in-line, T- or X- application.

On Montage, Universal in the case bins can be upmounted over or adjacent to a slatwall.

On Answer, bins can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent inline panel.

Omit brackets option must be specified when bin is being used in hutch kit or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately.

Lock in bin is concealed from view beneath the shelf. Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 376

Shelf lights are available for use beneath bins. Lights recess into the bottom of the overhead storage unit.

► **Page 352**

Dividers are available as an option for use on bins. Dividers ship in a package of four.

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Width of overhead bin must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

Universal sliding door bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Universal Sliding Door Bins with Steel, Laminate, or Wood Fronts, for Use with Answer, Kick, Montage, and V.I.A., continued

Horizontal wall attachment brackets are available to attach storage bins to wall of building. Specify as separate style number.

Tip: Select the omit brackets option when ordering the bin.
► Page 213

Overhead storage components cannot be attached to Montage frames with glass tiles.

Overhead storage components cannot be attached on a 55" high Montage frame.

Wall channels are available to attach bins to concrete or block walls. Wall channels can be used to attach bins and tackboards to wood, dry wall, or plaster walls if the wall is reinforced.
► Page 217

Wall channel horizontal brace is required with wall channels to support bins that are wider than 48".
► Page 64

Wiring & Cabling

Vertical wire managers are available to conceal cords that are routed from light mounted beneath overhead storage.

Stability Guidelines

► See appropriate panel specification guide.

Guidelines for Stackable Components

TS Series bins, Universal bins, and shelves can hang from the first stacked tier only.

Universal Over The Case and In The Case Bins

For Use with Answer, Kick, Montage, and V.I.A.

Universal over the case

bins can be attached to panels with an on-module bracket and provide overhead storage in the work space.

► Specifying, page 204

Safety catch locks overhead storage unit to frame to prevent accidental removal.

On-module attachment

brackets are used to mount bins on panels of the same width as bins and are included with the bin as a standard component.

Backstop prevents notebooks and equipment from damaging the surface of the panels or walls.

Bin is steel and ships assembled.

Universal in the case bins, attach to panels with an on-module bracket and provide overhead storage in the work space. Door is available in steel or wood.

► Specifying, page 206

Flat-front lift-up doors

open and close quietly. When up, the doors rest on top of the case to provide more storage space inside.

Locks are standard on bins to secure the door(s). Lock is located underneath the center of the shelf. Locks are standard factory-installed, keyed random. Two-door units are keyed alike. A no-lock option is available.

► Lock and Keying, page 376

Recess beneath unit can accommodate a shelf light.

► Page 352

Flat-front lift-up doors

(steel or wood) recess into the overhead storage bin.

Product Details

On-module attachment brackets are independent of the storage bin and unique to the panel system they are used on. The following style number suffixes indicate the panels they attach to:

TAK = Answer and Kick

MON = Montage

VIA = V.I.A.

If the storage bin needs to be attached to a different panel in the future, additional on-module attachment brackets can be purchased through Service Parts.

Vertical off-module brackets

, optional, can be used to mount one or two sides of an overhead bin off-module on Answer, Kick, Montage, and V.I.A. with vertical slot patterned panels. To mount an overhead bin with one side off-module, specify with one vertical off-module bracket. To mount an overhead bin with two sides off-module, specify with two vertical off-module brackets. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin.

Vertical off-module brackets

are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Actual Dimensions

Depth 15 $\frac{3}{4}$ "

Width 24", 30", 36", 42", 48", 60", 66", and 72"

Height 16 $\frac{1}{4}$ "

Upmount brackets are optional for use on Answer, Kick, and Montage. Brackets attach the bin near the top of 54"H panel to enable overhead storage to be used on lower panel heights. Bins using an upmount bracket must be installed on a panel of the same width.

Two upmount bin brackets can be hung side by side in an in-line, T-, or X-application. Bin can be upmounted on slatwall skin as long as there is not another bin or another slatwall skin on the adjacent in-line panel.

Omit brackets option must be specified when bin is being used in hutch kit, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately.

Picture frame door—omit insert, optional, is available on Universal over the case and in the case bins with flat steel fronts only. An omit insert option allows custom material to be field installed in the aluminum door frame.

The omit insert custom material must be ordered from a material vendor. If an omit insert option is specified and a door assist mechanism is also required, an assist mechanism must be specified as a separate option to the storage bin. The weight of a custom insert on a Universal over the case bin can not exceed 10½ pounds. An insert for a Universal over the case storage bin door with an assist mechanism must weigh within the range of 7¼ pounds to 10½ pounds or the assist mechanism will not function correctly. Custom materials being installed in a door insert must comply with local building codes. Consult with local authorities to determine compliance requirements. The use of safety glass is required if installing custom glass in a door insert. To install customer provided material in a picture frame door with the insert omitted, make sure the material is cut precisely to the sizes listed on the dimensions matrix.

► See *Dimensions for Custom Field-Installed Picture Frame Door Inserts*, page 59

Door assist mechanism, optional, consist of a gas cylinder and spring that provides an assisted open and close of the door. When opening the door, the spring pulls the door to the fully recessed position. When closing the door, the assist mechanism will slowly close the door. Universal bins ship with two assist mechanisms per door when specified.

Lock in bin is concealed from view beneath the shelf. Locks are available factory or field-installed. Factory installed locks are standard and available keyed random only. Two-door units are keyed alike. Optional field installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

No lock option provides a cost savings opportunity when locking is not needed.

Tip: Units specified with no lock will still have a visible slot in the shelf where locking components would be.

Shelf lights are available for use beneath bins. Lights recess into the bottom of overhead bins.

► Page 352

Divider is available as an option on overhead bins. Dividers ship in a package of four.

► Page 213

Back of storage bin is open to allow panel surface to show. Metal backstop prevents contents of bin from damaging panel surface.

Overhead storage bin height accepts standard and A4 binders.

When mounting on Answer or Kick panels, top of bin cannot be loaded.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Width of overhead bin must match the width of the panel or panels that it is attached to when using an on-module bracket. Bin may span up to two frames.

Universal over the case bin may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Horizontal wall attachment brackets are available to attach storage bins to wall of building. Specify as a separate style number.
Tip: Select the omit brackets option when ordering the bin.

Do not use materials that allow the overall size of the custom insert to deviate by amounts larger than the acceptable tolerances listed in the matrix.

Universal Shelves and Universal Personal Shelves

For Use with Answer, Kick, and Montage

Universal shelves—supported by Answer, Kick, and Montage—provide overhead storage in the work space.

► Specifying, page 211

Universal personal shelves provide a wall-supported surface that attaches to Answer and Kick.

► Specifying, page 212

Metal backstop on Universal shelves

prevents notebooks and equipment from damaging panel surface. Universal personal shelves do not have a backstop.

On-module attachment hooks

are integral to the end supports and are used to mount shelves on panels of the same width as bins.

Safety catch locks shelf units to frame to prevent accidental removal.

Shelves are steel and ship ready to assemble.

Actual Dimensions

	Universal shelves	Universal personal shelves
Depth	14 ³ / ₄ "	13 ¹ / ₁₆ "
Width	24", 30", 36", 42", 48", 60", and 72"	24", 30", 36", 42", and 48"
Height	7 ¹ / ₂ " (Kick and Answer) and 11 ¹ / ₂ " (Montage)	1 ¹ / ₁₆ " (thickness of shelf)

Product Details

Shelf lights are available for use beneath shelves. Lights recess into the bottom of the overhead storage unit.

► Page 352

Dividers are available field installed for use on Universal shelves. Dividers ship in a package of four. Dividers cannot attach to Universal personal shelves.

A 1¹/₂" gap exists between the personal shelf and the panel to allow for cable routing.

The height dimension of the bracket (from top of personal shelf to the bottom of the bracket) is 6¹/₂"H.

Connections

Steel support hooks on end supports insert into the slotted channel of a panel or wall channel and lock into place with a safety catch.

Universal shelf may be mounted at 38"H or lower if another panel-mounted component prevents it from being seated upon.

Universal shelves for use on Montage panels have a taller end support to accommodate vertical slots in frame.

Universal shelves cannot mount on a 55"H Montage frame. Contact Steelcase Specials for a solution on a 55"H frame.

On-module attachment hooks cannot be attached to upmount brackets.

Width of shelf must match the width of the panel or panels that it is attached to with the on-module brackets. Shelves may span up to two frames.

Overhead storage components cannot be attached to Montage frames with glass tiles.

86"H Frames

65"H Frames

Overhead storage shelves install at 65"H only. They cannot install on a 10"H stacker or any base frame lower than 65"H.
Tip: A special half-height shelf is available, contact Systems Specials Group for an engineering quote.

Wall channels are available to attach shelves to concrete or block walls. Wall channels can be used to attach shelves to wood, dry wall, or plaster walls, if wall is reinforced.

► Page 217

Wiring & Cabling

Vertical wire managers conceal cords and cables that are routed vertically outside of the panels.

Horizontal Wall Attachment Brackets

For Use with Universal Sliding Door, Universal Over the Case and Universal In the Case Bins

Horizontal Wall
Attachment Brackets

Horizontal wall attachment brackets can attach to wall of building to accept universal sliding door, universal over the case and universal in the case storage bins. Brackets will not accept bins introduced prior to March 2007 or TS Series bins.

► Specifying, page 213

Tip: Specify as a separate style number.

Product Details

Horizontal wall attachment brackets must match the width of the storage bin.

Tip: Select the omit brackets option when ordering the bin.

Horizontal wall attachment brackets include brackets and a steel back to enclose the storage bin.

Horizontal wall attachment brackets can be positioned on wall at height needed.

Connections

Horizontal wall attachment brackets can be used to attach universal sliding door, universal over the case, and universal in the case bins to a building wall. TS Series bins cannot attach to horizontal wall attachment brackets.

Shelves can not hang off horizontal wall attachment brackets.

Mounting of horizontal wall attachment brackets must include attachment to at least two wall studs, but it is recommended to attach to all studs in wall behind the storage bin. Storage bins that are 24"W or 25"W can only be mounted with horizontal wall attachment brackets if wall is constructed with 16" stud centers.

Field install:

- Concrete walls with Hilti type anchors.
- Drywall or plywood with 5/8" thick Toggler R-type 3/16" wall anchors with countersunk flat head screw.
- Wood studs with #10 wood screws of appropriate length with countersunk flat head screw.
- Steel studs with #10 sheet metal screws of appropriate length with countersunk flat head screw.

Limit of one bin for each horizontal wall attachment bracket.

Attaching worksurfaces to horizontal wall attachment brackets is not possible.

Horizontal wall attachment brackets allow overhead storage bin to fit flush to wall.

Actual Dimensions

Width 24", 30", 36", 42", 48", 60", 70", and 72".

Surface Materials

Brackets and steel back

Wall Hang Channels and Horizontal Braces

For Use with Overhead Storage Bins and Shelves

Slotted steel channel

can attach to wall of building to accept shelves, overhead storage bins, worksurfaces, or tackboards. Channel will accept all universal bins and shelves, TS Series bins and bins and shelves introduced prior to March 2007.

► Specifying, page 217

Tip: Must specify bin or shelf with Answer or Kick bracket to hang on wall channel.

Screw hole positions
64³/₈"H

Actual Dimensions

Wall hang channels and horizontal braces

Depth	1 1/8" (28 mm)
Width	1 5/16" (24 mm)
Height	66" (1676 mm)

Product Details

Wall channel can be positioned on wall at height needed.

Connections

Wall channels can be used to support shelves, overhead storage bins, worksurfaces, and tackboards. Wall channels can be shared.

Field install:

- Concrete walls with Hilti type anchors.
- Drywall or plywood with 5/8" thick Toggle R-type 3/16" wall anchors with countersunk flat head screw.
- Steel or wood studs with #10 sheet metal or wood screws of appropriate length with countersunk flat head screw.

Anchors must be used in each screw hole location on the wall channel.

Components attach at 1" increments, but screws block some slot locations.

Component limits for each pair of wall channels are as follows:

- Two bins or shelves
- One worksurface and two shelves
- One worksurface and one bin

Horizontal brace is available to reinforce vertical wall channels that support storage bins, shelves, or worksurfaces that are attached to walls. Bins and shelves that are 48"W or less do not require a horizontal brace. All worksurfaces require horizontal braces.

Wall channel horizontal brace is required for EACH storage bin or shelf that is wider than 48". The brace should be placed at the position along the vertical wall channel where the top of the bin or shelf will be placed.

Width of horizontal brace must match width of shelf or storage bin.

Wall channel horizontal brace

is also available in 42" and 48" widths and can be used in applications where there is concern regarding the strength of the wall. These braces must also be used with wall-mounted worksurfaces.

Wall hang channels for shelves, overhead storage bins, or tackboards cannot be used with a wall start junction.

Worksurfaces may be attached to wall channels with cantilevers, subject to the following application guidelines:

- All worksurfaces must be 24"D or less.
- Worksurfaces must be supported by a cantilever or legs every 42" or 48". Cantilevers can be shared when worksurfaces are adjacent.
- Wall channel horizontal braces must be installed directly behind all wall-mounted worksurfaces, and also at the top of the wall channels.
- Worksurface-supported pedestals cannot be hung from a wall-mounted worksurface.

Surface Materials

Wall channel

- Paint

Horizontal brace

- Paint

Application Topics

Reinforce wall by positioning studs where wall channels will be attached. See dimensions below.

Distance between center lines of reinforced wall channels matches width of overhead storage unit.

Tip: Wall channels can be shared.

Slim Shelves

For Use with Answer, Kick, and Montage

Slim Shelves

Slim shelves provide a panel-supported surface that attaches to Answer, Kick, and Montage with panel-specific brackets.

► Specifying, page 220

Slim shelf is an extruded aluminum shelf that provides storage for small items.

Product Details

Slim shelves attach to Answer, Kick, and Montage with panel-specific brackets.

Gap at back of slim shelf allows routing of shelf light cord.

Slim shelves can be mounted off-module. No more than 12" overhang on either side of panel is recommended. Brackets attach on vertical seams of panel, while the shelf adjusts off-module on the brackets.

Two attachment brackets are included with shelves less than or equal to 48"W. Two attachment brackets and a mid-span support are included with shelves wider than 48"W.

Answer will not support two shelves installed end to end.

Surface Materials

Slim shelves

- Paint

Attachment brackets

Bracket Application Rules for Bins and Shelves

For TS Series Bins, Universal Sliding Door Bins, Universal Over the Case Bins, Universal In the Case Bins, and Universal Shelves

Bracket Application Matrix

Panels	TS Series Bins	Universal Bins, and Universal Shelves—On-Module	Universal Bins—Single Side Vertical Off-Module	Universal Bins—Two Sided Vertical Off-Module	Universal Bins—Horizontal Off-Module (for use with Montage only)	Universal Bins—Upmount
Answer	•	•	•	•		•
Kick	•	•	•	•		•
Montage		•	•	•	•	•
V.I.A.		•	•	•		

On-Module Brackets and Hooks

On-module brackets and hooks are used to mount overhead bins and universal shelves to panels with vertical slot patterns. Answer, Kick, and Montage panels can support on-module attachment brackets.

Universal personal shelves can attach on-module to all panels except Montage.

Width of overhead storage unit must match the width of the panel or panels that it is attached to. Storage bins or shelves may span up to two panels.

Additional support for stability may be required when shelves and overhead storage bins are attached to panels. Counterbalancing loads on the opposite sides of the panels increases stability.

Tip: See Stability Guidelines in each corresponding specification guide.

On-module attachment brackets install in panel seams.

On-module brackets can be used above and adjacent to slatwall on Answer and Montage panels.

On-module brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Off-module brackets are used with bins up to 12" wider than the panel, allowing them to overhang the panel seam.

Off-Module Brackets

Vertical off-module brackets, optional, can be used to mount one or two sides of the overhead bin off-module on Answer, Kick, Montage, and V.I.A. with vertical-slot-patterned panels. Both of these brackets attach to the on-module bracket that comes standard with the overhead bin. Vertical off-module brackets allow bins to be installed a maximum of 12" off-module. Vertical off-module brackets can be used with 30"W to 60"W Montage bins only.

Vertical off-module brackets can be used above and adjacent to slatwall on Answer and Montage panels.

Vertical off-module brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Horizontal off-module brackets, optional, accommodate off-module installations of overhead storage bins on panels with horizontal slot patterns. Enhanced off-module Montage frames can support horizontal off-module brackets. Horizontal off-module brackets can be used with 24"W to 48"W Montage bins only.

Horizontal off-module brackets can be used above and adjacent to slatwall on Montage panels.

Horizontal off-module brackets can be used with a panel stacker on Montage panels. Follow standard panel stacker guidelines for each panel.

Enhanced off-module Montage frames have horizontal slot patterns and must be specified for horizontal off-module Montage configurations.

Horizontal off-module brackets push bin out from panel 5/8" on enhanced off-module Montage panels.

Horizontal off-module brackets cannot span a vertical or joint where two frames come together on enhanced off-module Montage panels. Shift the bin to avoid the joint.

Only two pairs of off-module brackets and associated storage can be mounted per frame.

Upmount Brackets

Basic and open design upmount brackets, optional, attach bins and shelves near the top of 54"H panels.

Tip: Stationary shelf cannot hang from an upmounted bin or shelf.

Upmount brackets, optional, can be used with universal sliding door, universal over the case, and universal in the case bins. Brackets attach bins near the top of 54"H panels. TS Series bins and universal shelves cannot be attached to upmount brackets.

Upmounted bin height is 66"H when installed on 54"H panels. For Montage, the overall upmounted bin height is 68⁵/₈" when installed on a 55"H frame.

Upmount bin width must match the width of the panel or panels that it attaches to. Upmounted bins and shelves cannot be supported off-module.

Upmount brackets can be used above and adjacent to slatwall on Answer and Montage panels.

Upmount brackets can be used with a panel stacker on Answer, Kick, and Montage panels. Follow standard panel stacker guidelines for each panel.

Omit Brackets

Omit brackets option must be specified when bin is being used in hutch kit, or when attaching bin to a horizontal wall attachment bracket. Order hutch kit separately.

Hutch kit supports bin at 66" height.

Application Rules for Overhead Storage on Answer and Kick Panels

For complete panel specific stability guidelines, see the corresponding panel specification guide.

Answer Panel

Guidelines for Universal Bins. Applies to universal sliding door bin or universal in the case bin on Answer and Kick panels.

The following application restrictions must be complied with when hanging universal overhead bins on Answer and Kick panels. Otherwise, standard Answer and Kick application guidelines apply.

- Universal sliding door bin, universal in the case bins, and universal curved front bins cannot hang on an Answer or Kick panel above the 66"H connection point.
- The maximum panel run length when using a universal overhead bin on Answer or Kick panels is 12'.
- Top of bins and shelves are not designed to support the weight of a seated person. Bins and shelves may be mounted at 38"H or lower only if another panel-mounted component prevents it from being seated upon.
- When ganging binder bins, the use of a tie plate is required.

WARNING

Failure to comply to these guidelines may result in personal injury.

Kick Panel

Universal One-High, 1.5-High, and Two Drawer Lateral Files

One-High and Two Drawer lateral files serve a dual purpose as high-density storage and as an inviting space for guests.

► Specifying, page 222

1.5-High lateral files provide multi-zone storage for binders, hanging folders, and piling surfaces at a height which allows for comfortable guest seating in collaborative environments.

► Specifying, page 222

Label holders are included with each drawer. Label hold-er fits inside the integral pull or can be affixed to the front of the drawer or door. Perf-orated labels are included and can be created using the template available on www.steelcase.com/label.

Finished back is standard.

Three base options are available: the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height.

Tip: FrameOne feet and c:scape glides will be field installed.

Lock is standard on lateral files and is located at top left corner of drawer. Locks are standard factory-installed, keyed random.

► *Lock and Keying*, page 376

Actual Dimensions

Depth with flush steel or open front 18" and 23 $\frac{1}{8}$ "

Depth with proud steel, laminate, or wood front 18 $\frac{7}{8}$ " and 24"

Width 30", 36", and 42"

Height 16", 22", and 28"

Pulls on flush-front lateral files are full width and integral.

Pulls on proud-front lateral files are available in a variety of shapes.

Top is standard 1"H steel on units with steel fronts and standard 1 $\frac{3}{16}$ "H wood veneer on units with wood fronts. Other top options are available.

Drawer fronts are available in steel, laminate, or wood veneer.

Leveling glides adjust up to $\frac{3}{4}$ " for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install lateral file on uneven floors.

Drawers are standard 12"H and open full depth for total access to the contents.

Product Details

Base options

Universal 3" Base

c:scape Glide Base

FrameOne Foot Base

Tip: All base options have same overall height. c:scape glides and FrameOne feet are field installed.

Flush-front pull is full width and integral with the drawer. Pull is available on steel drawers only.

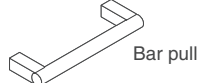

Contemporary pull

Handle pull

Jazz pull

Bar pull

c:scape pull

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer drawers. c:scape pulls (200 mm) are available on steel drawers only.

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Additional bars are available and must be specified separately.

► Page 301

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.

► For interior dimensions, see page 382

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers per drawer, 12"H file drawers also include one hanging folder bar per drawer. Additional dividers are available and must be specified separately.

► Page 302

Safety interlock system allows only one drawer to be opened at a time.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Individual drawer locks are available as an option for an application that would limit access to each drawer. Lateral files include a security shield between drawers to prevent unauthorized access. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying are available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

No-top lateral files are available for use with cushion top or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Laminate and wood veneer tops with square-edge profiles

are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

Security top is available as an option for installations where the file will be installed beneath a worksurface, but not physically attached. Thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can be specified on 28"H files only. Security top reduces overall height of file to approximately 27"H.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Intermediate support is used with Universal One-High or 1.5-High storage as a worksurface support allowing for nesting of low storage.
▶ Page 227

Cushions are ordered separately for steel storage without tops, including One-High, 1.5-High, and Two Drawer lateral files.

Basic cushion enhanced is ordered separately for use on Universal One-High, 1.5-High, and Two Drawer laterals with metal, laminate, or veneer top. Basic cushion enhanced is field-installed and attaches to the existing top with hook and loop fastener.
Tip: Basic cushion enhanced is available on Universal lateral files with a top only.

When applying the basic cushion enhanced on 30"W or 36"W Universal laterals with an open configuration, a support brace must also be specified.

Wood veneer with square edge profile Laminate with square edge profile
Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.
▶ Page 290

Field-installed accessories are available, including drawer accessories and counterweight packages.
▶ Page 300

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.
Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.
Tip: Anchor bracket cannot be used with pedestals.

- Leather

Basic cushion enhanced

- Fabric

Tip: For both cushion top and basic cushion enhanced: fabric patterns with a linear design will always be applied from the front to back of the unit or the depth of the unit. Pattern matching will not be done on COM.

Cushion top will be manufactured in a four seam pattern in all standard solid color seating upholstery, leather, vinyls, COM leathers, and COM vinyls. These upholsteries are:

- Brisa
- Buzz2
- Cogent: Connect
- Elmosoft Leather
- Foundation
- Gaja
- Leather
- Stand In
- Select Surfaces leather
- Vinyl

Cushion top will be manufactured in a two seam pattern for all approved standard patterned seating upholstery, leather, vinyl, COM leathers, and COM vinyls. All approved standard textured upholsteries will also be manufactured in a two seam pattern including leather, vinyl, COM leathers, and COM vinyls.

Basic cushion enhanced will be manufactured in a two seam pattern for all approved standard seating upholstery and Customer's Own Materials (COMs).
Note: Leathers and vinyls are not approved for basic cushion enhanced.

Counterweight Requirements for Storage Products

▶ Pages 7–14

Shipping

Lateral files are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field-installed.

Universal One-High and 1.5-High Open Laterals

For Ology Application

Universal One-High and 1.5-High open laterals for Ology application

seamlessly integrates the Ology desk leg into universal storage. It provides a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

► Specifying, pages 232–237

Product Details

One-High storage can be used with Ology extended range desks or basic range desks.

1.5-High storage can only be used with Ology basic range desks.

One-High and 1.5-High storage for Ology application have a removeable interior back panel to allow access to the Ology base.

Actual Dimensions

	One-High	1.5-High
Depth with flush steel open front	18"	18"
Depth with proud steel open front	18 $\frac{7}{8}$ "	18 $\frac{7}{8}$ "
Usable depth	11 $\frac{7}{10}$ "	11 $\frac{7}{10}$ "
Width	30", 36", and 42"	30", 36", and 42"
Height	16"	22"

Laminate and wood veneer tops with square edge profile are available. Tops are 1 $\frac{3}{16}$ " H.

Removable interior cover provides access to power outlets that can be located in the panel behind storage unit.

Case Widths and Ology Foot Dimensions

30"W Ology open laterals can house Ology legs of 24" or 30" in length. 36"W and 42"W units can house Ology legs with feet of 24", 30", or 36" in length.

Integrated leg options apply to One-High and 1.5-High units only and are meant for use with Ology height-adjustable desks only.

Application Topics

Application: Ology left

Application: Ology right

Application is determined by which leg of the Ology desk is located inside the storage.

Shroud is used to finish off the back of the storage when application is used as stand-alone unit.

Filler is used in end-of-run applications where end of storage unit will be visible.

No top option on lateral file is available for use with a Universal common top shared with an adjacent lateral.

Universal common top for Ology application, ordered separately, is available in laminate or veneer. Cut-out for Ology leg is available on the left side or the right side of the Universal common top. Ology desk cannot be placed in the middle of the Universal common top.

Ology modesty panel or fixed personal/modesty screens must be undersized and justified to the outside when used with One-High and 1.5-High storage units. Only one open lateral file is permitted on Ology 90° corner desks.

When used with One-High and 1.5-High integrated storage, screens used in the modesty position must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

To help avoid pinch points, the Universal One-High and 1.5-High open laterals for Ology application extends 1" past the back of the Ology worksurface.

Soft edge and power and data access door can be positioned left or right on Ology desks that are 64"W or wider for use with One-High and 1.5-High integrated storage.

Worksurface overhang can be positioned left or right on desks that are 70" wide or wider.

Ology 90° corners that are 70" wide and wider can be used with One-High and 1.5-High storage units.

Ology 120° corners that are 52" wide and wider can be used with One-High and 1.5-High storage units. Only one open lateral file is permitted on Ology 120° corner desks.

Tapered desks that are 70" wide and wider can be used with One-High and 1.5-High storage units.

When specifying One-High and 1.5 High storage that matches the worksurface depth, only One-High storage should be placed adjacent to the desk.

Pinch point clearances are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the worksurface depth.

Surface Materials

Lateral case

- Paint

Laminate top

Universal One-High and 1.5-High Open Laterals

For Migration SE Application

Universal One-High and 1.5-High open laterals for Migration SE application seamlessly integrates the Migration SE T-leg into universal storage. It provides a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

► Specifying, pages 238–242

Product Details

One-High storage can be used with Migration SE with T-leg extended range desks or basic range desks.

1.5-High storage can only be used with Migration SE with T-leg basic range desks.

One-High and 1.5-High storage for Migration SE with T-leg application have a removeable interior back panel to allow access to the Migration SE with T-leg base.

Laminate and wood veneer tops with square edge profile are available. Tops are 1 $\frac{3}{16}$ "H.

Actual Dimensions

	One-High	1.5-High
Depth with flush steel open front	18"	18"
Depth with proud steel open front	18 $\frac{7}{8}$ "	18 $\frac{7}{8}$ "
Usable Depth	10 $\frac{7}{10}$ "	10 $\frac{7}{10}$ "
Width	30", 36", and 42"	30", 36", and 42"
Height	16"	22"

Removable interior cover provides access to power outlets that can be located in the panel behind storage unit.

Integrated open laterals do not accommodate 24"D, 30"D, or 36"D Migration SE worksurfaces.

Case Widths and Migration SE Foot Dimensions

		Migration SE Worksurface Depth		
		23"	29"	35"
Migration SE Open Lateral Width	30"	•	N.A.	N.A.
	36"	•	•	•
	42"	•	•	•

30"W Migration SE open laterals are not permitted with 29"D or 35"D Migration SE desks due to the size of the desk foot. All other integrated storage widths are permitted with all Migration SE desk depths.

Integrated leg options apply to One-High and 1.5-High units only and are meant for use with Migration SE T-leg height-adjustable desks. Integrated storage is not compatible with Migration desks, only Migration SE desks.

Application Topics

Application: Migration SE left

Application: Migration SE right

Application is determined by which leg of the Migration SE desk is located inside the storage.

Shroud is used to finish off the back of the storage when application is used as stand-alone unit.

Filler is used in end-of-run applications where end of storage unit will be visible.

No top option on lateral file is available for use with a Universal common top shared with an adjacent lateral.

Universal common top for Migration SE application, ordered separately, is available in laminate or veneer. Cut-out for Migration SE T-leg is available on the left side or the right side of the Universal common top. Migration SE desk cannot be placed in the middle of the Universal common top.

Universal privacy/modesty or Sarto privacy/modesty screens must be under-sized and justified to the outside when used with One-High and 1.5-High storage units.

When used with One-High and 1.5-High integrated storage, screens used in the modesty position must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

To help avoid pinch points, the Universal One-High and 1.5-High open laterals for Migration SE application extend 1" past the back of the Migration SE worksurface. Open laterals for Migration SE are only available on Migration SE T-leg desks 23"D, 29"D, and 35"D.

When specifying One-High and 1.5-High storage that matches the worksurface depth, only One-High storage should be placed adjacent to the desk.

Pinch point clearances are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the worksurface depth.

Universal One-High and 1.5-High open laterals for Migration SE application can only be used with Migration SE T-leg desks.

Universal Towers

Towers provide storage of a variety of work and personal items for an individual, including paper, binders, books, and coats.

► Specifying, pages 244–248.

Finished back is standard.

Interior of tower is available in a variety of configurations combining coat storage, fixed and adjustable shelves, and file drawers.

Pull on flush-front tower is integral and full height on doors and full width on drawers.

Locks are standard on door and drawers. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike. ► *Lock and Keying*, page 376

Three base options are available: the universal 3" base, FrameOne foot, and c:scape glide. All three bases have the same overall height.

Drawers open their full depth for total access to the contents.

Leveling glides adjust up to $\frac{3}{4}$ " for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install tower on uneven floors.

Top is standard 1"H steel. Other top options are available.

Door is available in steel, laminate, or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior. Door is available hinged on left or right.

Locker space is 9" wide and standard with a coat rod.

Pull on proud-front tower is available in a variety of shapes.

Drawer fronts are available in steel or wood veneer.

Product Details

Base options

Universal 3" Base

c:scape Glide Base

FrameOne Foot Base

All base options have same overall height. FrameOne foot base and c:scape glide base are only available on 18"D and 24"D open side and dual door towers.

Actual Dimensions

Depth with flush steel front	18" and 23 $\frac{1}{8}$ "
Depth with proud steel, laminate, or wood front	18 $\frac{7}{8}$ " and 24"
Width	24"
Height	47 $\frac{1}{2}$ ", 52", and 65 $\frac{1}{2}$ "

Interior of tower combines coat storage, box and file drawers, fixed and adjustable shelves.

Flush-front pull is integral and full height on the door and full width on the drawers. Pull is available on steel doors and drawers only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Door pull is 192 mm and drawer pulls are 128 mm. Proud-front pulls are available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Adjustable shelves on 52"H and 65½"H open side towers are recessed from the front and side of the tower. Shelves adjust in 2½" vertical increments. Opening on 47½"H tower is 13½"H and does not come with an adjustable shelf.

Frosted glass adjustable shelves are available as an option on open side towers. *Tip: If glass shelves are selected, they will replace all steel shelves in the unit.*

Post on open side towers supports adjustable shelves and is painted to match the case.

Adjustable shelves in dual door towers can be positioned in the interior of the tower in ¾" vertical increments using a reversible bracket. The first shelf above a file drawer is a fixed shelf.

Drawer accessories include one divider and one pencil tray in each box drawer. File drawers can accommodate front-to-back filing of letter-size hanging folders without the use of additional accessories.

Safety interlock system allows only one drawer to be opened at a time.

The fixed shelf in a 47½"H dual door tower also serves as the base of the cabinet. Additional adjustable shelves must be specified separately.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Door and drawer locks are keyed alike. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately. ▶ *Lock and Keying, page 376*

Drawer lock in open side tower is located in the top file drawer.

Drawer lock in dual door tower is located approximately 36" from the floor.

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the tower.

Top will default to steel on towers with proud wood fronts since the door overlaps and partially conceals the top. Wood top is available as an option.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Worksurface to tower alignment. Proud front towers align with 23½"D, 24"D, 29½"D, and 30"D worksurfaces. Flush front towers extend 7⁄8" beyond 24"D and 30"D worksurfaces, and 1⁄8" beyond 23½"D and 29½"D worksurfaces.

Field-installed accessories are available, including drawer accessories and shelf bookends.

► Page 300

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets,

or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones.

Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.

Tip: Anchor bracket cannot be used with pedestals.

Counterweight Requirements for Storage Products

► Pages 7–14

Shipping

Towers are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Counterweight packages ship separately from case and must be field installed.

Universal Personal Lockers

Universal personal lockers offer coat and other personal item storage for an individual within their workspace or while remote.

► Specifying, page 254

Product Details

Door on locker is full-height and can be hinged on the left or right. Pull and lock are located on the opposite side of the hinge.

Flush-front pull is full-height and integral with the door. Pull is available on flush steel doors only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on proud steel or wood veneer doors. c:scape pulls (200 mm) are available on proud steel fronts only.

Actual Dimensions

Depth with flush steel front 18" and 23 1/8"

Depth with proud steel, laminate, or wood front 18 7/8" and 24"

Width 9" and 12"

Height 42", 47 1/2", 52", and 65 1/2"

Tip: Wood veneer and laminate tops add 3/16" to the overall height of the locker.

Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Laminate and wood veneer tops with square edge profiles are available in place of standard 1" H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the locker.

Steel top is standard on lockers with steel door fronts. It is an option for wood veneer and laminate door fronts. All proud door fronts overlap the steel top.

Coat rod or coat hook is available on all lockers.

Adjustable shelves are available.

Connections

Counterweight packages are not required as lockers must be ganged to another locker or to other Universal storage with the same height and depth.

Ganging hardware is included to increase stability and maintain alignment by joining adjacent components side-by-side.

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base)

secures lateral files, towers, lockers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary.

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor brackets cannot be used with pedestals.

► Page 307

Lockers cannot stand alone. They must be ganged to another locker or to a cabinet with the same depth and height.

Lockers can be ganged in back-to-back applications only if there are a minimum of four lockers—two side-to-side and two back-to-back.

Shipping

Lockers are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Universal Multi-Door Lockers

Universal multi-door lockers offer personal item storage outside the workspace as well as, temporary short-term storage.

► Specifying, page 258

Product Details

Doors on locker can be hinged on the left or right. Pull and lock are located on the opposite side of the hinge.

Flush-front pulls are integral with the door. Integrated pull is available on flush steel doors only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 128 mm and available on proud steel, laminate, or wood veneer doors.

Actual Dimensions

Depth with flush steel front 18" and 23 $\frac{1}{8}$ "

Depth with proud steel, laminate, or wood front 18 $\frac{7}{8}$ " and 24"

Width 15" and 18"

Height 52" and 65 $\frac{1}{2}$ "

Tip: Wood veneer and laminate tops add $\frac{3}{16}$ " to the overall height of the locker.

Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Unique to Universal multi-door lockers, when keyed random is selected, each lock will have a different FR or XF lock.

Laminate and wood veneer tops with square edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the locker.

Steel top is standard on lockers with steel door fronts. Optional laminate or veneer tops are available on all lockers. All proud door fronts overlap the steel top.

Connections

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, lockers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Storage-to-panel connector can be positioned on the back or side of the locker. Connector must be located only on the ends of the back or side of the locker. It cannot be positioned anywhere else on the case back or side.

Storage capacities and dimensions

► Page 382

Shipping

Lockers are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Universal Lateral Files

Lateral files are ideal for high-density paper storage.
► Specifying, page 262

Finished back is standard.

Lock is standard on lateral files and secures all drawers and lift-up door. On 52"H and 65½"H files, lock is located at top left corner of drawer that is third from the bottom. On 28"H and 40"H files, lock is located at top left corner of top drawer. Locks are standard factory-installed, keyed random.
► *Lock and Keying*, page 376

Base is 3"H and is integral to the case.

Leveling glides adjust up to ¾" for universal 3" base and up to 1" for c:scape glide and FrameOne foot base to install lateral file on uneven floors.

Drawer and lift-up door fronts are available in steel, laminate, or wood veneer.

Pulls on proud-front lateral files are available in a variety of shapes. Pulls are located at the top of a drawer and at the bottom of a lift-up door.

Top is standard 1"H steel on units with steel fronts and standard 1⅜"H wood veneer on units with wood fronts. Other top options are available.

Product Details

Flush-front pull is full width and integral with the drawer. Pull is available on steel drawers only.

Contemporary pull

Handle pull

Jazz pull

Bar pull

c:scape pull

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Drawers open their full depth for total access to the contents are standard 12"H.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Pull on flush-front lateral file is full width and integral.

Actual Dimensions

Depth with flush steel front	18" and 23⅛"
Depth with proud steel, laminate, wood front	18⅞" and 24"
Width	30", 36", and 42"
Height	40", 52", and 65½"

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Tip: Your specification for optional drawer interiors will apply to all the drawers within a single lateral file.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders. Additional bars are available and must be specified separately.

► Page 301

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Rail packages accommodate two rows of letter-size files in 30"W and 36"W drawers and three rows of letter-size files in 42"W drawers. See *Storage Capacities* for additional details. Additional rails are available and must be specified separately.

► Page 300

Dividers accommodate side-to-side filing of expandable folders and other objects. Divider packages include three dividers and one hanging folder bar per drawer. Additional dividers are available and must be specified separately.

► Page 302

Lift-up door with fixed shelf is standard in the top position of 65½"H cases. Door is 13½"H to accommodate standard-height binders. Door on lateral files with flush-front recesses inside the case; door on proud-front case lifts up above the case.

Lift-up door on flush-front cases is available with an optional roll-out shelf in place of the standard fixed shelf. Roll-out shelf includes three dividers and one hanging file folder bar to function as a backstop.

Safety interlock system allows only one drawer or roll-out shelf to be opened at a time.

Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Individual drawer locks are available as an option for applications where you want to limit access to each drawer. Lateral files include a security shield above each drawer to prevent unauthorized access. In 65½"H cases, the lock in the drawer below controls the lift-up door in the top position. Individual locking drawers are only available with field-installed locks. Consecutive, specific, and random keying options are available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

No-top lateral files are available for installations where cases will be installed under a worksurface or beneath a common top shared among several lateral files. Hardware is included to attach case to worksurface. No-top option reduces height of file by 1".

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the lateral file.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Wood veneer with square edge profile

Laminate with square edge profile

Field-installed tops are available in two choices — wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual lateral file, or larger tops can be used to connect files to make a credenza.

► Page 290

Field-installed accessories are available, including drawer accessories and counterweight packages.
▶ Page 300

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials.
Tip: Anchor bracket cannot be used with pedestals.

Universal Combination Cabinets

Combination cabinets

offer storage of paper and other objects in one cabinet and are suitable for use by an individual or group.

► Specifying, page 266

Pull on proud-front cabinet is available in a variety of shapes.

Finished back is standard.

Locks are standard on doors and drawers. Door lock on right-hand door secures both doors. Drawer lock secures all drawers. On units with three or more drawers, lock is located at top left corner of drawer that is third from the bottom. On units with two drawers, lock is located at top left corner of top drawer. Locks are standard factory-installed, keyed random. Door and drawer locks are keyed alike.

► **Lock and Keying**, page 376

Drawer fronts are available in steel, laminate, or wood veneer.

Doors are available in steel or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior.

Leveling glides adjust up to $\frac{3}{4}$ " to install cabinet on uneven floors.

Base is 3"H and is integral to the case.

Top is standard 1"H steel on units with steel fronts and standard $1\frac{3}{16}$ "H wood veneer on units with wood fronts. Other top options are available.

Interior of cabinet includes adjustable shelves. Shelves can be positioned in $\frac{3}{4}$ " vertical increments using a reversible bracket.

Drawers open their full depth for total access to the contents.

Pull on flush-front cabinet is integral and full height on doors and full width on drawers.

Label holders are included with each drawer. Label holder fits inside the integral pull or can be affixed to the front of the drawer or door. Perforated labels are included and can be created using the template available on www.steelcase.com/label.

Product Details

Cabinets are available with doors to cover the shelves, or shelves can be open.

Flush-front pull is integral and full height on the door and full width on the drawers. Pull is available on steel doors and drawers only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors and drawers. c:scape pulls (200 mm) are available on steel only.

Actual Dimensions

Depth with flush steel front 18" and 23 $\frac{1}{8}$ "

Depth with proud steel, laminate, or wood front 18 $\frac{7}{8}$ " and 24"

Width 30", 36", and 42"

Height 52", 65 $\frac{1}{2}$ ", and 83 $\frac{1}{2}$ "

Drawer interiors include one hanging folder bar per drawer in each 18"D case and two rails per drawer in each 24"D case. Alternative interiors are available as options.

Tip: Your specification for optional drawer interiors will apply to all the drawers within a single cabinet.

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size file folders. Additional bars are available and must be specified separately.

► Page 301

Rails accommodate front-to-back filing of letter-, A4 international-, and legal-size hanging folders. Shipping

Combination cabinets

are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Frosted glass hinged doors ship separately from case and must be field-installed.

Counterweight packages ship separately from case and must be field-installed.

Universal Storage Cabinets

Storage cabinets offer high-density storage of a wide range of items for an individual or group.

► Specifying, page 272

Pull on proud-front cabinet is available in a variety of shapes.

Finished back is standard.

Lock is standard on all storage cabinets and secures both doors. Locks are standard factory-installed, keyed random.

► *Lock and Keying*, page 376

Doors are available in steel, laminate, or wood veneer. Hinges are European-style and allow doors to open to 110° for full access to the interior.

Base is 3"H and is integral to the case.

Leveling glides adjust up to $\frac{3}{4}$ " to install cabinet on uneven floors.

Top is standard 1"H steel on units with steel fronts and standard $1\frac{3}{16}$ "H wood veneer on units with wood fronts. Other top options are available.

Product Details

Interior of cabinet is available in three different configurations:

- Side-to-side coat rod in 24"D cabinet.
- Combination interiors with adjustable shelves and a coat rod in 24"D cabinets.
- Side-to-side adjustable shelves in 18"D and 24"D cabinet. Shelves can be positioned in the interior of the cabinet in $\frac{3}{4}$ -inch vertical increments using a reversible bracket.

Tip: Coat space is 6"W and is always on the left-hand side of cabinets with combination interiors.

Combination interiors

contain three adjustable shelves in each 52"H cabinet and four adjustable shelves in each 65½"H. Shelves can be positioned in $\frac{3}{4}$ " vertical increments using a reversible bracket.

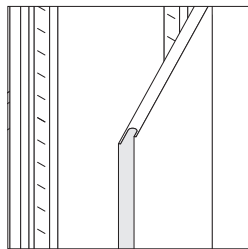

Fixed shelf is standard in 83½"H cabinets at approximately the 61½"H position with the coat rod or combination interior just below that position.

Interior of cabinet is available in a variety of combinations.

Pull on flush-front cabinet is full height and integral.

Actual Dimensions

Depth with flush steel front	18" and 23½"
Depth with proud steel, laminate, or wood front	18⅞" and 24"
Width	30", 36", and 42"
Height	28", 40", 52", 65½", and 83½"

Flush-front pull is full height and integral with the door. Pull is available on steel doors only.

Proud-front pulls are available in the following styles—contemporary, handle, jazz, and bar. Each pull is 192 mm and available on steel or wood veneer doors. c:scape pulls (200 mm) are available on steel only.

Locks are available factory or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 376

No-top cabinets are available as an option for installations where cabinet will be installed under a worksurface or beneath a common top shared among several cabinets. Hardware is included to attach case to worksurface. No-top option reduces height of cabinet by 1".

Security top is available as an option for installations where the cabinet will be installed beneath a worksurface, but not physically attached. A thin steel top prevents unauthorized access to the contents of the cabinet. Security top is not structural and can only be specified on 28"H cabinets. Security top reduces overall height of cabinet to approximately 27"H.

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel tops. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the cabinet.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Wood veneer with square edge profile

Laminate with square edge profile

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual cabinet, or larger tops can be used to connect cabinets. ► Page 290

Field-installed accessories are available, including shelf bookends and adjustable shelves. ► Page 300

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent. For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor brackets cannot be used with pedestals. ► Page 307

Storage Capacities and Dimensions

► Page 382

Counterweight Requirements for Storage Products

► Pages 7–14

Shipping

Storage cabinets

are normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

Universal Bookcases

Bookcases offer convenient storage for binders, books, and other objects.

► Specifying, page 278

Leveling glides adjust up to $\frac{3}{4}$ " to install bookcase on uneven floors.

Product Details

Bookcases are available with adjustable shelves. Shelves can be repositioned without using tools. Additional shelves can be ordered separately and installed on site.

Number of adjustable shelves per bookcase

depends on case height:

28"H	1 adjustable shelf
40"H	2 adjustable shelves
53½"H	3 adjustable shelves
65½"H	4 adjustable shelves
83½"H	5 adjustable shelves

Standard-size binders will fit in bookcases with adjustable shelves. Space between adjustable shelves is $11\frac{7}{8}$ ".

Exception: Bottom space is 12"H and top space varies depending upon the overall case height:

28"H	12 $\frac{5}{8}$ " top space
40"H	11 $\frac{7}{8}$ " top space
53½"H	11 $\frac{5}{8}$ " top space
65½"H	11 $\frac{7}{8}$ " top space
83½"H	17 $\frac{1}{8}$ " top space

Actual Dimensions

Depth	15"
Width	24", 30", 36", and 42"
Height	28", 40", 53½", 65½", and 83½"

Frosted glass hinged doors are available as an option on all bookcases. Glass doors do not lock. Pulls on glass doors are available in four finishes. Doors ship separately from the bookcase and are field-installed.

No-top bookcases are available for installations where bookcase will be installed under a worksurface or beneath a common top shared among several bookcases. Hardware is included to attach case to worksurface. No-top option reduces height of bookcase by 1".

Security top is available as an option for installations where the bookcase will be installed beneath a worksurface, but not physically attached. Security top is not structural and can only be specified on 28"H bookcases. Security top reduces overall height of bookcase to approximately 27"H. *Tip: Security top must not be used with frosted glass hinged doors.*

Laminate and wood veneer tops with square-edge profiles are available in place of standard 1"H steel top. Laminate and wood veneer tops are 3/16" taller than steel tops and will add that dimension to the overall height of the bookcase.

Ganging hardware is included to provide alignment by joining adjacent components side-by-side, back-to-back, or both.

Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

Connections

Wood veneer with square edge profile
Laminate with square edge profile

Field-installed tops are available in two choices—wood veneer with square edge profile or laminate with square edge profile. Tops can be used on an individual bookcase, or larger tops can be used to connect bookcases. [▶ Page 290](#)

1 1/2"H bases on Universal bookcases do not align with 3"H bases on Universal pedestal, laterals, towers, or cabinets.

Shelf bookends, specified separately, are available for use on adjustable shelf. [▶ Page 303](#)

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones. Four bracket packages are required for each cabinet. *Note: Local seismic requirements vary.*

Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor bracket cannot be used with pedestals. [▶ Page 307](#)

Steel Security Tops with flush or proud front

► Specifying, page 288

Product Details

Flush front Proud front

Steel security tops are available as an option on select 28"H storage products. They can also be ordered separately for field installations.

Security top is available for installations where a lateral file, storage cabinet, or bookcase will be installed beneath a worksurface, but not physically attached. Security top is not structural.

Security top cannot be installed on a file with a lift-up door in the top position.

Connections

Not all top sizes are intended for use on all furniture. See *Specifying* pages to determine the appropriate-sized top for your furniture.

Steel security tops with flush fronts can be used on the following:

- Lateral files
- Storage cabinets
- Bookcases

Steel security tops with proud fronts can be used on the following:

- Lateral files
- Storage cabinets

Attachment hardware ships with the file cabinet. *Tip: Additional screws can be ordered from Service Parts: 855010126MP (quantity of 100).*

Square Edge Tops with flush or proud front

► Specifying, page 290

Product Details

Flush front Proud front

Square edge tops can be specified as an option on most storage products. They can also be ordered separately for field installation.

Laminate worksurfaces can have a 3 mm or 1 mm plastic square edge. Wood veneer worksurfaces can have a 3 mm wood square edge, .5 mm veneer edge, or a 3 mm plastic square edge.

When specifying the top dimensions, the edge band thickness is an additive dimension to your overall dimensional input. For example, if a 28"D x 70"W is selected, with 3 mm edge band on all four sides, the edge band thickness will create a 3 mm overhang on all sides.

Parametric RATCL common tops allow for each edge profile to be specified—profile A, profile B, profile C, and profile D.

Connections

Not all top sizes are intended for use on all furniture. See *Specifying* pages to determine the appropriate sized top for your furniture.

Square edge tops with flush and proud fronts can be used on the following:

- Universal lateral files
- Universal combination cabinets
- Universal storage cabinets
- Universal bookcases
- Universal multidoor and personal lockers
- WorkValet lockers

Attachment hardware ships with the top. *Tip: See SmartTools for common tops placed over group storage and placed back-to-back to ensure correct sizing for the application.*

Product Details

Proud front

Edge profile is plastic on laminate top and is specified separately from laminate color.

Square edge tops with 1/2" cord drop can be used on the following:

- One-High lateral files
- 1.5-High lateral files
- Two-High lateral files
- Credenzas

Attachment hardware ships with the top.

Wiring and Cabling

Power access door is optional on square edge tops, and allows access to power receptacles.

Tip: Specify Universal storage with recessed backs for use in conjunction with power access door on square edge top.

Application Topics

Square edge tops with 1/2" cord drop should be used to access power in applications where laminate storage is parallel to Answer beam.

Specify recessed back option on low storage when using square edge tops with 1/2" cord drop and optional power access door to access power.

Square edge top feature 1/2" cord drop along the back edge to allow cords to drop below the worksurface anywhere along the back edge.

Rails for Pedestals and Towers

► Specifying, page 300

Product Details

Rails accommodate side-to-side filing of letter-, A4 international-, and legal-size hanging folders.

Tip: 17½"D and 18⅞"D pedestals do not accommodate legal-size hanging folders.

Rail packages are available in quantities of two rails.

Rails can be used for side-to-side filing in 12"H file drawers of the following:

- Open side towers
- Dual door towers
- Fixed pedestals (manufactured after February 22, 2004)
- Mobile pedestals (manufactured after February 22, 2004)

Tip: For pedestals manufactured on or before February 22, 2004, see Service Parts catalog.

Tip: Fixed pedestals and mobile pedestals require a set of two rails for side-to-side filing.

Surface Materials

Rails

- Black

Actual Dimensions

Pencil Tray and Reference Shelf for Pedestals and Towers

► Specifying, page 301

Product Details

Pencil tray and reference shelf

are used in:

- Open side towers
- Dual door towers
- Fixed pedestals (manufactured after February 22, 2004)
- Mobile pedestals (manufactured after February 22, 2004)

Tip: For pedestals manufactured on or before February 22, 2004, see Service Parts catalog.

Pencil tray is available to hold small office supplies. One pencil tray is shipped standard with each pedestal or tower that is equipped with one or more 6"H box drawers.

Reference shelf protects reference papers in box drawers. Shelf rests on top of drawer edges and can slide the entire depth of the drawer. A clear plastic insert is standard with each reference shelf.

Surface Materials

Hanging Folder Bars for Lateral Files and Combination Cabinets

► Specifying, page 301

Product Details

Hanging folder bar accommodates side-to-side filing of letter-, A4 international-, and legal-size hanging folders.

Hanging folder bars can be used in 12"H and 15"H lateral file drawers and 12"H roll-out shelves of the following:

- Lateral files
- Combination cabinets

Tip: For legal-size filing, hanging file folder frames are not needed in drawers because drawer edges support folders.

Hanging folder bars

ship individually in a package of one.

Height	1 5/8"

Anchor Bracket Package

► Specifying, page 307

Product Details

Floor anchor bracket (for TS Series Storage and Universal Storage with 3" base) secures lateral files, towers, cabinets, or bookcases to the floor for stability or to reduce the risk of hazards during earthquakes in seismic zones.

Note: Local seismic requirements vary. Compliance with local code requirements is the responsibility of the customer or their authorized agent.

For a California Office of Statewide Health Planning and Development (OSHPD) approved anchor bracket, contact Steelcase Specials. Tip: Anchor brackets cannot be used with pedestals.

Anchor bracket package includes brackets and attachment hardware.

Surface Materials

Anchor brackets

- Black

**Underworksurface
Lateral File Fillers**

► Specifying, page 308

Product Details

Lateral file filler can be used in applications where a 27"H lateral file or storage cabinet with no top is used underneath a worksurface. Filler conceals the gap between the face of a panel and the back of the lateral file or storage cabinet. Filler connects to the panel to provide stability for configurations that are not panel-wrapped; use the same application rules as a pedestal with filler. Fillers are available for use with proud-front or flush-front lateral files or storage cabinets with a Universal 3" base only.

24"D filler is used with 18"D storage. 30"D filler is used with 18"D or 24"D storage. Order filler to match nominal depth of worksurface.

Connections

Lateral file fillers can be used with the following:

- Answer panels
- Kick panels
- Kick worksurfaces
- Universal Systems worksurfaces
- Answer worksurfaces

Surface Materials

Lateral file filler and filler brackets

- Paint

Actual Dimensions

Universal File Surrounds **112**

Statement of Line

Universal File Surrounds

Understanding

▶ Page 112

Specifying

▶ Page 282

Universal File Surrounds

For Use with Universal and TS Series Storage

File surrounds are used to encase storage units to provide a seamless, finished look in High-Pressure Laminate or veneer. Top, back, and end panels come together to wrap the storage units. They are available in a variety of configurations and parametric sizes that surround Universal and TS Series storage.

► Specifying, page 282
► See SmartTools for complete specification and pricing.

Leveling glides adjust up to 1¹/₄" to install file surround on uneven floors.

Actual Dimensions		
	Outside Dimensions	Inside Dimensions
Depth	15 ¹⁵ / ₆₄ " to 59 ²¹ / ₃₂ "	15" to 58 ¹ / ₄ "
Width	16 ³⁵ / ₆₄ " to 359 ³¹ / ₃₂ "	15" to 358 ⁹ / ₁₆ "
Height	17 ³ / ₁₆ " to 67 ¹ / ₃₂ "	16" to 65 ⁵⁵ / ₆₄ "
Thickness	1 ³ / ₁₆ "	N.A.

Tip: Dimensions are available parametrically to every 1/16".

Product Details

SmartTools must be used to order the file surround to ensure correct configuration, fit, and alignment.

Multiple configurations are available with the file surround and include surrounding a single row or back-to-back storage units with or without open spaces. Open spaces are allowed between storage units or on the ends of storage units (when back panel is specified).

Storage units must be placed under the file surround. File surrounds are designed to work with Universal steel and TS Series storage units but must be ordered separately.

Dimensions of the file surround are based on the storage that is being surrounded. These dimensions are actual and automatically generated through SmartTools.

The internal dimensions of the file surround cavity are used to determine pricing. These internal dimensions will be displayed in the SmartTools specification.

Tip: Use SmartTools to see the actual external dimensions of the file surround when planning.

File surrounds allow for each edge profile on the top to be specified- profile A, profile B, profile C, and profile D. Wood veneer work-surfaces can have a 3 mm wood square edge or .5 mm veneer edge. Laminate work-surfaces can have a 3 mm or 1 mm plastic square edge.

.5 mm or 1 mm square edge

3 mm square edge

File surround top edges that are a 1 mm plastic or .5 mm wood veneer square edge will align with the face of the storage unit. A 3 mm plastic or wood veneer square edge band will overhang the face of the storage unit by 3 mm. To ensure a tight fit and connection with the wall or adjacent storage, a 1 mm plastic or .5 mm wood square edge is recommended for all sides or sides B, C, and D.

Sectioned tops are optional based on the width of the top. One- to four- sections are allowed between specific ranges that can be realized through SmartTools.
Tip: A singular top is considered one-section.

Tip: When two-, three-, or four- sections are specified, the top will be split into sections equal in width.

$\frac{1}{16}$ " is added for space between each unit plus an additional $\frac{1}{32}$ " on each end. Example: Three 30"W units would have $90\frac{9}{16}$ " interior width.

End panels are specifiable on the left side, right side, or both.

One end panel is only allowable when storage is placed on the end of the file surround that does not have the end panel and there is no back panel specified.

Inset at 0"

Proud

Inset Centered

Unsupported open spaces are allowed in the middle or ends of the file surround. Open spaces in the middle of the file surround can be up to 54"W without a worksurface brace and up to 72"W with a worksurface brace. Open spaces on the ends of the file surround must be supported with a back panel.

Grain direction on end panels is available in horizontal or vertical grain.

Tip: Laminate grain direction must be vertical if the height greater than 60".

Woodgrain laminate sectioned tops will not be grain matched over 120"W. Please refer to specials if grain matching is desired on sectioned tops greater than 120"W.

Grain direction on back panels will always have horizontal grain direction.

The recommended grain direction on the file surround is long grain direction on the top and vertical grain direction on the end panels. This creates the waterfall look.

Connections

Worksurface braces are required for unsupported open spaces greater than 54"W up to 72"W.

► Worksurface brace, Answer Solution Specification Guide.

Assembly hardware is included with the file surround. To attach to storage, the attachment hardware is included with the storage units.

Surface Materials

- Laminate with plastic edge
- Open Line laminate (option)
- Wood veneer with wood edge
- Customiz stain (option on wood)
- Full-fill finish (option on wood)

WorkValet Lockers

Lockers provide a space to store a variety of objects including coats, bags, and personal belongings.
► Specifying, page 310

Coat hooks or coat rod can be specified.

Leveling glides adjust to install on uneven floors and have a 1" adjustable range.

Remove door, available as an option.

Finished back is standard.

Pulls come standard when keyed locks are specified.

Adjustable shelf is available as an option to aid in the division of storage space when needed.

Electronic and network locks are available as an options.

Personal shelf, available as an option, is used to subdivide the interior.

Actual Dimensions			
			Modular
			Parametric Range
Depth			18.875" or 24"
Width	1- and 2-door	Single Wide	12", 15", or 18"
	3-, 4-, and 5-door	Single Wide	12", 15", or 18"
	2-, 4-, 6-, 8-, 10-door	Double Wide	24", 30", or 36"
Height			41.75", 47.9375", 54.125", 66.5", or 72"
			38.0625"—84"

Product Details

Five configurations are available.

Single- or double-wide lockers are available.

Door on locker can be hinged on the left or right. Pull and lock are located on the opposite side of the hinge.

Headset options include full front, expressed toe kick, recessed toe kick, and plinth base.

The inset top construction provides consistent door gaps and a tighter fit of adjacent units when ganged together. A surround or a common top can be added to provide a clean aesthetic.

A pair of coat hooks are standard in each opening for 1-door and 2-door units. Coat hooks are available as an option in 3-door, 4-door, and 5-door units.

Coat rod is available as an option on 1-door and 84"H 2-door units that are 24"D only.

Personal shelf is available as an option. Each opening will receive a shelf when optioned on.

Remove door option is available on single-wide and double-wide lockers. When doors are removed on a double-wide locker, they will be removed from both sides.

Name tags, available as an option, are centered horizontally on locker door. Name tag fits CR79 or CR80 sized cards.

Mail slot is available as an option. Each opening will receive a mail slot when optioned on. Mail slots are horizontally centered at 25/8" from top edge of door.

Mail slot available in 15 1/2"W minimum for single column and 31"W minimum for double column for all locks, except Versa RFID. Minimum width of locker with mail slot and Versa RFID is 16 1/2"W single column and 33"W double column.

Numbers, available in black and white, can be specified as a separate style number. Includes 10 sheets per pack.

► Page 342

Pulls on lockers are defaulted when standard or master key plug is specified. No pull is available when electronic locks are specified.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Digilock Versa

Digilock Aspire

Digilock Versa keypad locks are powered by two lithium 2450 batteries.

Digilock Versa RFID is powered by four AA premium batteries.

Digilock Aspire locks have an ADA compliant pull. They are powered by four AA premium batteries.

Programming and manager keys must be ordered separately.

Electronic locks, mounted in a vertical orientation are available as an option. Keypad or RFID selections available.

Network locks

► See *Understanding on* page 126

Application Topics

Adjustable shelves

can be added to lockers for additional storage or piling space. Shelves are recessed from the side of the locker. A maximum of two adjustable shelves can be added. Mounting holes are located 1 1/4" apart starting 12" from bottom going to 12" from top. See interior configuration rules for restrictions.

► Page 132

Shelf pin holes are always included even if adjustable shelves are not specified as an option on the locker. This allows for long term flexibility and the addition of adjustable shelves after the initial order (adjustable shelf style numbers: **SNGLKRSHFS, SNGLKRSHFD**).

► Page 309

1-door lockers 54"H and above have a fixed shelf located near the top of the opening. If one or two adjustable shelves are specified, these shelves will divide the opening below the fixed shelf.

Tip: See interior configuration rules for size restrictions for coat hooks, coat rods, and adjustable shelves.

► Page 132

Individual single- or double-wide lockers

cannot stand alone. They must be ganged to other lockers or secured to the building structure. Minimum locker numbers depend on depth and width.

► See *Stability Guidelines* on page 134.

Ganging hardware, provided, joins adjacent storage units side-by-side, back-to-back, or both.

Storage Capacities and Dimensions

► Page 382

Surrounds can be added to lockers to provide a clean aesthetic, and conceal cables in network locking applications. Back, top, and end panels are specified separately.

► Pages 332–338

Universal file surrounds or Universal square edge tops can be sized for use with WorkValet lockers.

1/16" is added for space between each unit plus an additional 1/32" on each end. Example: Four 15"W units would have 60 1/4" interior width. See Universal file surround for additional product detail.

► Page 112

See Universal square edge tops for additional product detail.

Digilock Aspire Keypad

Digilock Aspire RFID

ADA compliant pull handle.

Product Details

Locks are surface mounted on the door.

Locks come set to a shared use mode. The user locks with their credential and unlocks with the same credential. Once unlocked, the lock is reset for another user.

Digilock Aspire and Versa locks are powered by four AA premium batteries.

Digilock Versa keypad locks are powered by two lithium 2450 batteries.

Digilock Aspire keypad locks have an ADA compliant pull handle.

Compatibility of radio frequency identification (RFID) credentials with Digilock locking solutions utilize an RFID interface.

RFID/NFC Standards
Digilock RFID locks utilize 13.56 MHz frequency communication and meet the following RFID/NFC Standards:

- ISO 14443A
- ISO 14443 B
- ISO 15693

Credentials that are compatible with the above standards include:

- HID iClass
- NXP Mifare (Classic 1K-4K, Ultralight, DESFire EV1/EV2, Plus S)
- FeliCa
- Legic Advant

Some credential types may require an encryption key from the end user/manufacturer for read permissions. Digilock will work with the key holder(s) designated by the end user to ensure compatibility.

Dual Technology Credentials

Some RFID credentials may support multiple formats within the 13.56 MHz frequency. These credentials might experience a delay or issue operating Digilock RFID locks. To confirm compatibility, contact your Digilock representative.

Low Frequency

Digilock RFID locks do not utilize low proximity frequency communication and are not compatible with LF or Prox cards or credentials that run between 125 – 134 kHz due to the lack of security possible with such systems. Dual credential cards that contain RFID tags for both low frequency and high frequency transponders may work with Digilock locks. To confirm compatibility, contact your Digilock representative.

The programming key and manager key, ordered separately, are required if the electronic lock option is selected.

➤ Specifying, page 310

Surface Materials

Lock body

- 9211 Nickel

WorkValet Digilock Keys

Digilock Versa and Aspire locks enable facility managers to modify lock programming with a unique programming key and override locks using manager keys. Programming and manager keys are required if keyless lock option is selected.

► Specifying, page 330

The programming key is used during installation to pair the manager key to the lock.

The manager key is used to override the lock when a credential is lost or forgotten or the battery loses power. Additional manager keys can be paired at any time. One manager keys may be paired to infinite locks; however, each lock may only pair with up to six manager keys.

The user key is ADA compliant and is available for users that require additional assistance in operating the keypad on the lock.

How to Program

1. Insert the programming key. A two-toned beep will be heard and the LED light will start to flash.
 2. While the LED light is flashing, insert one manager key at a time. A beep will be heard for each manager key that is programmed.
 3. Insert the programming key. A two-toned beep will be heard and the LED light will stop flashing.
 4. Repeat previous steps for each lock.
- Tip: The locks will arrive in the factory setting. During the process of pairing the manager key(s), the locks will be programmed into the shared setting.*

Network Lock Option

Networked locks by Gantner provide an integrated, smart locking solution for WorkValet lockers. The NET.Lock system connects lockers to an organization's network for advanced access control, centralized management, and real-time monitoring for enhanced security.

Routing on the side of lockers manages network cables to the back of the locker before connecting to the Gantner controller.

Surrounds are used to conceal network cables and provide a seamless aesthetic. Surrounds are specified as top, side, and back panels, and are ordered separately from the locker.

Color LED for lock status.

Plinth base has openings to provide access to bottom of locker for Gantner controller and cable management. Plinth base is required when specifying networked locks.

Plinth cover is used to cover plinth base and conceal controllers and cabling. Plinth cover is specified separately and can be specified to span multiple lockers.

Product Details

Lock mechanism is attached to inside of the locker opening and a flexible bolt is attached to the door. Bolt is secured in the mechanism when lock is in use.

Locks operate via RFID directly at locker door. Various credentials can be used to operate the Gantner NET.Lock, such as RFID cards/fobs or mobile phones (via Lockpal app or integration into some existing workplace apps).

Door will automatically open when lock is unlocked allowing a user to then open the door fully. This feature complies with ADA guidelines. Since door opens automatically when unlocked, no pull option is available when specifying network locks.

Internal USB charging with light is available as an option and includes one USB-A and one USB-C port.

NET.Lock mechanisms are powered over ethernet from a centralized controller stored in the plinth base. Controllers are connected to one or multiple sub-controllers, operating up to 24 NET.locks each.

NET.Locks can operate in two primary modes.

Free Locker Mode:

Users can select any available locker. Intelligent automatic usage rules prevent multiple occupancy.

Personal Locker Mode:

A locker is permanently assigned to a person or a team by the administrator or booked via a self-service terminal. After initial setup, only specified person can open and lock the lockers.

Additional product information:

Steelcase is partnered with Gantner to provide an excellent end product with NET.Lock and WorkValet. Knowing this, collaboration between Steelcase, Gantner, the Steelcase dealer(s) and the end organization is crucial to ensure proper planning and all components are accounted for properly. This collaboration may include (but is not limited to) sharing applications, floorplans, electrical/network plans, shop drawings, etc. to determine number and placement of controllers/sub-controllers. When specifying WorkValet with Gantner networked locks, please contact Gantner at +1 (770) 452-6091 or help.na@saltosystems.com.

Application Topics

Twenty-four NET.Lock

can be controlled by one sub-controller, and eight sub-controllers can be connected to a single controller.

Plinth base is required when specifying networked locks. Plinth cover, specified separately, conceals openings in plinth base providing a clean aesthetic.

Spacers, ordered separately, must be used when lockers with network locks are placed back-to-back or against a wall. Spacers provide room for network cables and protect before connecting to the controller/sub-controller. Spacers should be placed every four feet.

Surrounds (top, end, and back panels) are ordered separately and are used to conceal and protect the network cables.

► See pages 332–338.

WorkValet Accessories

WorkValet accessories include a personal shelf, locker bins, and locker numbers. Personal shelf is used to divide the interior of a locker opening.

► Specifying, page 340

Locker bin is made of formed, felted PET and available in two color combinations: navy or grey. Bins are sold in packages of four.

Freestanding personal shelf, specified separately, sits on the bottom of the opening. The shelf provides division for organization, and can be paired with the PET bin for further customization.

Numbers, available to label lockers for identification and wayfinding, are field installed.

Actual Dimensions			
	Depth	Width	Height
Locker Bin	11"	12.2"	2.95"
Personal Shelf	11.4"	12.3"	3.2"

Tip: Personal shelf is sized to fit 15" wide lockers. Shelf can be used in lockers wider than 15" with additional space on sides of shelf.

Personal shelf, available as an option on the locker, can mount to the top of any locker opening. When mounted, the shelf can be used for personal storage or used with the mail slot or PET bin.

Product Details

Locker bins are available in two colors and sold in a quantity of four. Bins are cleanable with a damp cloth.

Hanging

Freestanding

Personal shelf is specified in one of two ways. When specified as an option, the shelf is intended to install hanging from the top of the locker opening. When specified as freestanding, a separate style number is used – **SNGLKRPERSHLF**.

Personal shelf can be used with locker bins or used separately.

Personal shelf works as a mail catch when paired with mail slot.

Numbers are available to label lockers for identification and wayfinding. Numbers are 100 vinyl stickers on a sheet, ten of each digit 0-9, available in black and white. Numbers are size 80-point in Helvetica Neue Regular font. Style number includes 10 sheets per pack.

Two sheets of number stickers allow you to number lockers #1 through #99. Additional sheets are required when labeling locker #100 and above.

- 100 lockers – 2 sheets
- 150 lockers – 9 sheets
- 200 lockers – 14 sheets
- 300 lockers – 16 sheets
- 400 lockers – 18 sheets
- 500 lockers – 20 sheets

Surface Materials

Personal shelf

- P635 Heather Navy exterior with P630 Medium Heather Grey interior
- P636 Light Heather Grey exterior with P631 Dark Heather Grey interior

WorkValet Surrounds

Surrounds are used to encase lockers providing a seamless, finished construction. Top, back, and end panels are used together to wrap locker application.

► Specifying, page 332

Actual Dimensions			
	Depth	Width	Height
Top Panel	12" – 48"	9" – 84.5"	N.A.
End Panel	12" – 48"	N.A.	38.0625" – 84"
Back Panel	N.A.	9" – 96"	38.0625" – 84"

Product Details

Surrounds must be specified using CET SmartTools to ensure correct configuration, fit, and alignment.

Surrounds are sized to the lockers they will be surrounding, meaning the specified dimensions are nominal. The actual dimensions vary slightly and are generated during manufacturing. Nominal sizes are parametric in $\frac{1}{16}$ " increments.

Peg is available as an option when markerboard finish is selected on back panels. Peg is installed at 36" above finished floor and 3 1/2" inboard from outside face of cladding.

Peg supports Flex cups (**FLXCUP**). Cups are available in two colors, and are sold in sets of four.

► See *Steelcase Flex Collection Specification Guide* for more details.

Grain direction is an option on top panels and end panels. Short grain direction is available for tops that are ≤ 48 "W. End panel grain direction must be vertical when the height is greater than 48".

► See *Specification Guidelines for Directional Fabrics and Grain Direction* on page 370

Application Topics

Multiple panels may be required to cover full application, depending on overall width. When more than one top or back panel is required, the seam on the surround panels must align with a locker seam. Width guidelines for top panels:

- Width ≤ 84.5 " requires 1 top panel.
- Width > 84.5 " and ≤ 169 " requires 2 top panels.
- Width > 169 " and ≤ 253.5 " requires 3 top panels.

Surrounds can be configured to cover a single locker row, or cover lockers in a back to back application.

Top panels may be specified without end panels or with end panels - left, right, or both.

End panels must be specified when a back panel is specified.

Back panel

Locker

Back panel adds $1\frac{3}{4}$ " to overall planning depth. This gap accommodates the mounting brackets and allows for managing cables if network locking is specified.

► See page 341

Applications with different height lockers and back panels require end panels to be specified for the taller lockers to conceal the gap between the back of the lockers and the back panel.

Surface Materials

Top and end panels

- High-Pressure Laminate
- Open Line laminate

Back panel

- High-Pressure Laminate
- Open Line laminate
- Markerboard

Stability Guidelines

Single Run of Lockers

Individual single- or double-wide lockers cannot stand alone. If not secured to the building structure, the minimum locker numbers that need to be ganged depend on depth, height, and width, and are shown in the table below.

If locker widths vary in the application, rules for the narrowest width applies. A double wide locker counts as two lockers.

Locker Depth (inches)	Locker Height (inches)	Locker Width (inches)	Minimum Locker Number
18 ≤ D ≤ 24	≤ 70	any	3
	> 70	≥ 15	4
		< 15	6
16 ≤ D < 18	≤ 57	any	3
	> 57	≥ 15	6
		12 ≤ W < 15	7
		9 ≤ W < 12	8
12 ≤ D < 16	any	18 ≤ W ≤ 24	13
		15 ≤ W < 18	15
		12 ≤ W < 15	17
		9 ≤ W < 12	19

Back-to-Back Lockers

Individual lockers cannot stand alone. If not secured to the building structure, the minimum locker numbers that need to be ganged depend on width and are shown in the table below.

If locker depths are different on both sides, then the rules for the shallower depth applies. A double-wide locker counts as two lockers. These guidelines apply to all locker heights (38.0625"–84").

Depth	Locker Width	Minimum Locker Number side-to-side
Any	≥ 12"	2
	< 12"	3

High-Density Storage

High-density storage is a personal storage product that provides ample organizational space with the added benefit of extendable privacy. Two configurations are available, shelf and bag drop. Resident workers are supported with room for their piles, files, and supplies to support their work flow in the high-density storage with shelf versions. Mobile workers have temporary storage and ease of access for all their belongings in the high-density storage with bag drop versions.

► Specifying, page 344

Front is available in laminate or veneer.

Contrasting front is available as an option.

Coat closet, available as an option, is 7"W on 24"D units and 8"W on 30"D units and standard with two coat hooks.

Leveling glides adjust to install case on uneven floors and have a ½" adjustable range.

Shelf liners provide a soft landing pad for personal objects and are standard in the bag drop configuration.

Locks are standard on door. Locks are standard factory-installed, keyed random.
► *Lock and Keying*, page 376

Case is available in laminate or veneer.

Actual Dimensions

Depth 24" and 30"

Width 12" and 15"

Height 42" and 48"

Product Details

Two configurations are available on the 15"W version, the shelf configuration or the bag drop configuration. Only the shelf configuration is available on the 12"W version.

Coat closet is available as an option.

Left-hand configuration

Right-hand configuration

Left-hand and right-hand configurations are available.

Mirrors are standard in all cases.

Light is available as an option on the bag drop configuration only.

Nile pull

Bar pull

Contemporary pull

Jazz pull

Pull on high-density storage defaults with a Nile pull. Bar, contemporary, and jazz pull are available as an option.

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► *Lock and Keying*, page 376

Contrasting fronts and horizontal grain direction are available options for laminate front/laminate case, veneer front/laminate case, or laminate front/veneer case.

Application Topics

Magnetic boards, available as an option, are fabric-wrapped steel providing a place for visual display. The size of the magnetic board is determined by high-density case height and depth. Magnetic boards are field installed.
Tip: Magnetic board is not available on 12"W unit.

Panel connector bracket is available to connect to an Answer panel. Connector bracket provides added stability to panels and eliminates the need for return panels.

Worksurface support bracket can be used to mount a worksurface off one side of the high-density storage eliminating the need for other worksurface supports such as legs or end supports next to the case.

Worksurface support bracket can be used to support one side of a worksurface only.

Shipping

High-density storage is normally shipped in heavy-duty, recyclable stretch wrap to reduce the amount of corrugated board needed.

High-Density Storage—Value Package

The high-density storage value package is a simplified configuration of high-density storage that solves organizational needs at a lower pricepoint. It is available with a laminate case with steel interior and limited specification options.
► Specifying, page 348

Locks are standard on door. Locks are standard factory-installed, keyed random.
► *Lock and Keying*, page 376

Front is laminate.

Contrasting front is available as an option.

Coat closet, available as an option, attaches to inside panel.

Case is available in laminate.

Leveling glides adjust to install case on uneven floors and have a ½" adjustable range.

Two fixed shelves are standard.

Product Details

Coat closet is available as an option.
Tip: Coat hook is unique to the value package and will be visually different than in high-density storage.

Left-hand and right-hand configurations are available.

Value package does not include mirror, lock cover, or upper shelves found in high-density storage units.

Nile pull

Bar pull

Contemporary pull

Jazz pull

Pull on high-density storage defaults with a Nile pull. Bar, contemporary, and jazz pull are available as an option.

Actual Dimensions

Depth 24" and 30"

Width 12" and 15"

Height 42" and 48"

Locks are available factory- or field-installed. Factory-installed locks are standard and available keyed random only. Optional field-installed locks are available with consecutive, specific, and random keying options. Master-keyed locks are also available. Field-installed lock cylinders must be specified separately.

► **Lock and Keying**, page 376

Contrasting fronts and horizontal grain direction are available options.

Shelf Lights

Standard

► Specifying, page 352

Actual Dimensions

Standard

Depth	9 1/4" (235 mm)
Width	24 5/8", 36 5/8", or 48 5/8" (625 mm, 930 mm, or 1235 mm)
Height	1 3/4" (44 mm)

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with three-prong plug or daisy-chain cords.

Plug configuration allows two Standard shelf lights to engage adjacent outlets in one receptacle.

Energy-saving T8 lamps have triphosphor coating for balanced color and pleasing light.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Universal bracket allows shelf light to be installed without tools under most metal overhead storage bins and shelves.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Daisy chain starter cord must be ordered separately when used with Standard shelf lights in a daisy chain application.

Width	Lamp width	Lamp wattage	Replacement lamps
24 $\frac{5}{8}$ "	24"	17 watts	F17T8-TL735
36 $\frac{5}{8}$ "	36"	25 watts	F25T8-TL735
48 $\frac{5}{8}$ "	48"	32 watts	F32T8-TL735

Keyhole slots in housing of fixture allow shelf light to be mounted beneath wood or laminate overhead storage bins and shelves using screws provided. Keyhole slots are also used to mount lights to overhead storage bins and shelves manufactured prior to August 1991.

Standard shelf competitive mounting package provides attachment hardware to mount Steelcase shelf lights on all major competitive furniture lines. Package includes screws and installation instructions.

Shelf light can be mounted anywhere from side to side beneath over-head storage bin or shelf. The cord length is the only limitation.

Wiring & Cabling

Power drawn is approximately $\frac{1}{2}$ amp.

Daisy chaining permits interconnecting up to six Standard shelf lights from a single power outlet.
► Page 157

Starter cord for Standard powers first light in a daisy chain and allows you to convert any daisy chain light for independent operation.

Electronic high-power-factor ballast that is roughly 45% more efficient than a normal-power-factor ballast is available on Standard.

Bottomline

► Specifying, page 354

Bottomline

Product Details

Shelf light includes the lamp, ballast, and either a 9' cord with a three-prong plug or a Chicago plug.

Plug configuration allows two task lights to engage adjacent outlets in one receptacle.

Optics: **Bottomline** includes a batwing lens with mylar reflector that provides low glare and broad distribution of light.

Connections

Shelf light mounts recessed or flush depending on the design of the overhead storage bin or shelf. Standard with universal spring brackets for recessed mount or screw-in for flush mount.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Width	Lamp width	Lamp wattage	Replacement lamps
24"	23.3"	14 watts	F14T5-835
36"	35.1"	21 watts	F21T5-835
48"	46.8"	28 watts	F28T5-835

Lamp life of a fluorescent lamp that turns on and off once a day will last longer than a lamp that turns on and off many times a day. Environmental effects can shorten the life of a lamp, such as: moisture or higher humidity, higher or colder than normal temperatures, excessive vibration, and power surges.

Tip: If the light begins to flicker, or shuts down immediately, the sensor is indicating the lamp is at the end of its life and needs to be replaced.

Wiring & Cabling

Power drawn is approximately 1/2 amp.

Daisy chaining is only available on Bottomline shelf lights.

Daisy chaining on Bottomline permits interconnecting up to six shelf lights from a single power outlet.

► Page 157

Daisy chaining on Bottomline allows for independent operation of lights.

Electronic ballast is more energy efficient than T8 electronic ballasts.

- Power Supply 18 Watt Cord
 - 9' with two prong driver plug
- Power Supply 60 Watt Cord Set (11')
 - Line voltage cord: 6'
 - Low voltage cord: 5'

Product Details

Shelf light includes the lamp and power supply with cord set. Daisy chain primary light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

An 18 watt power supply, is used on the LED standard light; it is 9' long with a two prong driver plug. *Tip: Energy saving mini-LEDs greatly reduce power use.*

Power supply for LED daisy chain starter light uses an 11' 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light.

Connections

Shelf light mounts recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnetic mounting allows shelf light to be installed without tools under most metal overhead storage bins and shelves. This mounting allows the light to be mounted to most competitive steel bins and shelves.

Optional fastener kit allows shelf light to be mounted to wood shelves.

Specify LED shelf light or LED linear shelf light for use under 24" wide bins. Standard and Bottomline 24" wide lights do not fit under 24" wide bins.

Wiring & Cabling

Shelf light includes the lamp and power supply with cord set. Daisy chain starter light includes lamp and larger power supply to support up to three lights. Daisy chain secondary light includes lamp and daisy chain cord set.

Power supply for LED daisy chain starter light

uses a 60 watt modular cord with standard two prong plug, an integrated low voltage cord, and a connector to attach to light. An 18 watt power supply is used on the LED standard light, it is 9' long with a two prong driver plug.

Tip: Daisy chain starter light comes with a 60 watt power supply to support up to three lights. Daisy chain secondary lights do not come with a power supply, but instead come with a daisy chain cord set.

LED Linear Shelf Lights

A properly diffused light source under the linear head provides a softly blended light pattern that reduces eye strain.

► Specifying, page 356

Optional occupancy sensor turns off after 30 minutes of no activity and will turn back on upon return.

Single touch on/off pad plus touch and hold dimming for easy individual user control.

Continuous dimming from 100% to 15% with last state memory.

Cord exits from either end of the light.

Magnetic mounts and wood mount bracket hardware, both come standard with both LED light and optional occupancy sensor.

Light widths available in 17", 31", 44", and 58".

Product Details

LED linear stand alone and daisy chain starter lights include the lamp, power supply, and both magnetic mounts, and wood bracket hardware with adhesive cord managers.

LED linear daisy chain lights include the lamp, daisy chain cords, and both magnetic mounts, and wood mount bracket hardware with adhesive cord managers.

Optional occupancy sensor is a separate component that connects to the light fixture and activates in 30 minutes when no movement is detected to conserve energy. It will also turn back on upon return.

Average rated lamp life of LED linear shelf lights is 50,000 hours.

Color temperature LEDs is 3500K.

Color rendering index of LEDs is 84.

Automatic turn off after 10 hours (+/- 15 mins.); standard with both models.

Connections

Lights mount recessed or flush depending on design of overhead storage bin or shelf. Installation is done in the field.

Magnet mounts allow shelf lights to be installed without tools under most metal overhead storage bins of shelves.

Wood mount brackets allow shelf lights to be mounted to wood shelves.

Actual Dimensions

	Light	Occupancy Sensor
Depth	2"	2"
Width	17", 31", 44", 58"	2 ³ / ₁₀ "
Height	1 ¹ / ₂ "	7 ¹ / ₁₀ "

44"	72 / 141	25.9 / 34.3
58"	96 / 188	33.6 / 43.5

Wiring & Cabling

Light is standard with single touch on/off and touch control dimming.

User adjustable touch and hold dimming pad includes continuous dimming range of 100% to 15%.

Power supply for 17" linear stand alone only uses a straight plug with a 9' 18 watt 24 volt wall transformer.

Power supply for 31", 44", 58", or 17" starter light; 60 watt compact in-line brick straight plug. The cord is 11', 6' from power supply to power outlet and 5' from power supply to fixture.
Tip: Daisy chain starter light comes with a 60 watt power supply to support up to a limited number of lights – refer to chart for daisy chaining fixtures. Daisy chain secondary lights do not come with a power supply, but instead come with two daisy chain jumper cords, one 8" and one 30" set.

Chart for Daisy Chaining Fixtures

Standard Output Linear Shelf Light											
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light										
17"	6	4	3	2	2	1	1	–	–	–	–
31"	–	1	–	2	–	2	1	3	1	1	–
44"	–	–	1	–	–	–	1	–	1	–	2
58"	–	–	–	–	1	–	–	–	–	1	–

High Output Linear Shelf Light				
Light fixture widths	Maximum number of fixtures allowed with daisy chain starter light			
17"	4	2	1	–
31"	–	1	–	2
44"	–	–	1	–

- A 60 watt power supply is required for daisy chaining.
- Total system wattage of all fixtures together cannot meet or exceed 60 watts, see chart.
- Cannot daisy chain standard output and high output together.
- Cannot daisy chain 58" high output fixtures.
- Occupancy sensor must be positioned between the power supply and the first starter fixture.
- Only need one sensor when daisy chaining.

Tip: Each column is the maximum number of fixtures that can be daisy chained together.

Occupancy Sensor

- Turns off after 30 minutes of no activity and will turn back on upon return
- 360° lens view
- 90° outward detection angle
- 30" diameter coverage if mounted 15" above worksurface
- 36" diameter coverage if mounted 18" above worksurface
- Connects to fixture with one end-to-end connector. 8" or 30" jumper cords

Daisy Chaining

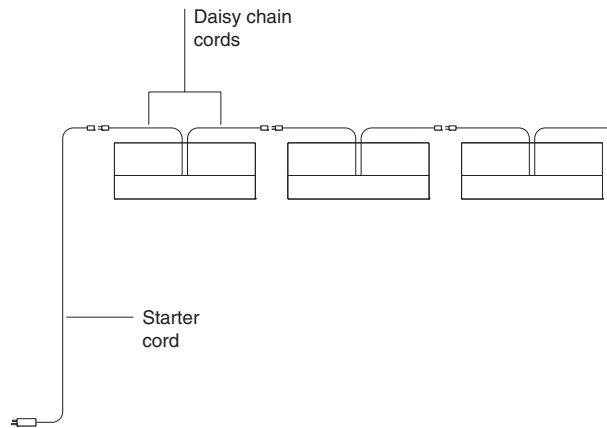

For Standard and Bottomline Lights

Daisy Chaining

Lighting

Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.

For Standard shelf lights, starter cord is required with daisy chain cords to bring power to the first shelf light in a daisy chain so there's no need to designate where each fixture will be used within the chain.

Power will not be interrupted in a chain even if one of the shelf lights is turned off or its lamp has burned out. That's because the path of power through the chain doesn't pass through the lamps or switches.

For Bottomline lights, starter light is required with daisy chain lights to bring power to the first light in the daisy chain.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Overhead cabinets and shelves provide a recessed area for shelf lights. They are not designed to conceal cords when daisy chaining.

Tip: When using upmount brackets with overhead storage and daisy chaining lights, use the open design upmount bracket for better cord management.

Vertical Wire Manager

Vertical wire manager conceals cords and cables that are routed vertically outside of the panels.
► Specifying, page 358

Cover conceals cords or cables.

Hooks fit into vertical channel at edge of panel.

Actual Dimensions

Depth	1" (25 mm)
Width	1 ⁵ / ₈ " (41 mm)
Height	48" (1219 mm)

Product Details

Wire manager is available for use between the bottom of a shelf or overhead storage bin and a worksurface. Wire manager can be cut in the field to suit specific application.

Wire manager can also be used below the worksurface.

Power cords and cables can be routed from the wire manager and the 1/2" gap along the back edge of the worksurface.

Connections

Snaps into the slotted channel of the junction.

Display

Victor2

Victor2 is a recycling solution that is appropriate for supporting larger work groups, conference rooms, and cafés. A mobile unit and two freestanding units are available. ▶ Specifying, pages 360–364

Mobile unit has three openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish, and French.

Receptacles contain features to accommodate oversized bags.

Four non-locking casters are standard. Two casters swivel, and two casters are fixed.

Soft-touch integral handle allows easy movement from one location to another.

Receptacles fit bags from 30 gallon size and larger.

Freestanding unit has four or five openings. Eight insert options are available to pick for the openings. These eight insert options contain English, Spanish and French.

Leveling glides are fully adjustable up to 1 1/2".

Actual Dimensions		
	Mobile Unit	Freestanding Unit
Depth	18"	25"
Width	36"	48" or 60"
Height	36"	36"

Product Details

Mobile and freestanding units are standard with a metal case and top. Front and back of unit are available in wood or laminate.

Acrylic inserts etched with recycling icons are standard on mobile and freestanding units. The verbiage for each icon is in English/Spanish/French on the same insert.

Mobile unit is standard with three openings for inserts and sloped receptacles with built-in bag holding system.

Top on the mobile unit can be used for food service use or tray storage.

Hinged doors on the back are standard on the mobile unit for easy access to receptacles.

Four non-locking concealed casters, two swivel and two fixed, are standard on the mobile unit.

Receptacles in mobile unit can accommodate 12 gallons each. Receptacles in freestanding unit can accommodate 30 gallon size and larger.

Soft-touch integral handle on mobile unit allows for easy movement from one location to another.

Freestanding unit is standard with either four or five openings for inserts on the top of the unit.

Hinged doors on the front are standard on the freestanding unit for easy access to the receptacles.

Leveling glides on freestanding units are fully adjustable to 1 1/2".

Tray shelf can only be used with the freestanding unit.

Tray shelf fits most trays up to 20 3/4" x 12".

Freestanding four- or five-slot opening will accommodate two tray shelves.
Tip: A gap of 15" will separate the two tray shelves on a five-opening unit.

Maximum capacity of tray is 20 food trays with maximum size of tray 20" x 20".

Display holds two 8 1/2" x 11" papers or one 11" x 17" paper.

Tip: Paper will be between two acrylic plates. Paper can easily be replaced without tools.

Display can only be used with the freestanding unit.

Freestanding four- or five-slot opening will accommodate two displays.
Tip: A gap of 18 1/2" will separate the two displays on a five-opening unit.

One tray shelf and one display can be used on the freestanding unit.

TS Series Laminate Common Shelves

TS Series Laminate
Common Shelves

Tip: For anticipated heavy loads on 42" and 48"W laminate common shelves, a field-installed reinforcing channel (TSATRC39) can be used.

Tip: Standard shelves are 1 1/8" thick. However, the actual thickness between Low-Pressure Laminate (LPL) and High-Pressure Laminate (HPL) shelves is slightly different. It is recommended that only shelves of the same type are specified in a given application. In addition, there may be sheen or texture differences when using LPL and HPL in adjacent applications. Please use caution when mixing and matching different shelves types.

Tip: Width includes dimension of laminate common shelf and support brackets. Laminate shelf is undersized by 1/2" to accommodate two support bracket mounting orientations.

For laminate price group 2 and 3 pricing, please refer to the electronic catalog or SmartTools.

Standard Includes	Required to Specify
<ul style="list-style-type: none"> ▶ Need help? Pedestal Cushion Top for Field Installation on RPM2421C__ only

Cushion Top without Handle

22½"	15"	2¼"	RPXTC24F	\$483	(For use with RPM2421CF only)
23½"	15"	2¼"	RPXTC24P	\$483	(For use with RPM2421CP, RPM2421CL, and RPM2421CW only)

Cushion Top with Black Handle

22½"	15"	2¼"	RPXTCH24F	\$649	(For use with RPM2421CF only)
23½"	15"	2¼"	RPXTCH24P	\$649	(For use with RPM2421CP, RPM2421CL, and RPM2421CW only)

Tip: If used with a Universal mobile pedestal manufactured before 12/20/2011, you will need to order service part 1072962001SR for attachment hardware.

Basic Cushions Enhanced

For Universal Mobile Pedestals

Basic Cushions Enhanced

Tip: Basic cushion enhanced is field-installed and supplies to attach are included.

Tip: Basic cushion enhanced is available on Universal mobile pedestals RPM1821CF, RPM1821CP, RPM1821CL, RPM1821CW, RPM2421CF, RPM2421CP, RPM2421CL, and RPM2421CW with a top only.

Tip: Basic cushion enhanced is constructed with a thin solid base.

Tip: For both cushion top and basic cushion enhanced: Fabric patterns with a linear design will always be applied from the front to back of the unit (depth of the unit).

Tip: For both cushion top and basic cushion enhanced: Pattern matching will not be done on COM.

	• Basic cushions enhanced		► Page 230

Tip: 6"H box drawers come standard with a divider package.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See Counterweight Requirements for Storage Products, pages 7–14.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RLF18301 becomes RLF18301F for flush steel front).

Tip: For open-open units, the shelf is affixed with screws. The screws can be removed to adjust the clips/shelf to a different height.

Universal One-High and 1.5 High Open Laterals

For Migration SE Application

Drawings show right-hand application, left hand is also available.

Tip: Open laterals are only for Migration SE T-leg desks.

Tip: 30"W integrated storage is not permitted with 29"D and 35"D Migration SE workspaces due to the size of the desk foot. All other integrated storage widths are permitted with all Migration SE desk depths.

Tip: Migration SE desk depth is necessary in specification for integrated storage due to the placement of the Migration SE leg.

Tip: Right-hand or left-hand application is determined by which leg of the Migration SE desk is located inside the storage.

Universal Open Side Towers

With Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts

► Need help?
Product details,
page 78

Standard Includes

- Tower: paint price group 1
- 1"H top: paint to match tower
- Door and drawer fronts on units with proud laminate fronts: laminate price group 1
- Door and drawer fronts on units with proud wood fronts: wood group 1 veneer
- Lock, keyed random: 9201 Polished Chrome
- Base (see below under required selections)
- Pulls: metal
- Integral pulls on units with flush steel fronts
- Drawer body: black only
- Adjustable shelves on 52"H and 65½"H: paint to match tower
- Brackets for adjustable shelves: black
- Post to support adjustable shelf: paint to match tower
- One box drawer divider and one pencil tray: black only
- Coat rod: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
 - F** Flush steel front
 - P** Proud steel front
 - L** Proud laminate front
 - W** Proud wood front
 - 2 Paint color number for tower
 - 3 Laminate color number for door and drawer fronts, if proud laminate front selected
 - 4 Wood color number for door and drawer fronts, if proud wood front selected
 - 5 Base (see below under required selections)
 - 6 Pull (see below under required selections)
 - 7 Metal color number for pulls, if proud steel or proud wood front selected
 - 8 Options, if selected (see below)
- See *Surface Materials*, page 366.

	• Storage accessories		► Page 300

Tip: Laminate and wood veneer tops are $\frac{3}{16}$ " taller than other tops and will add $\frac{3}{16}$ " to overall case height.

Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.

For wood group 2, wood group 3, and laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See *Counterweight Requirements for Storage Products*, pages 7–14.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RQS24244LA becomes RQS24244LAF for flush steel front).

Universal Dual Door Towers

With Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts

► Need help?
Product details,
page 78

Standard Includes

- Tower: paint price group 1
- 1"H top: paint to match tower
- Door and drawer fronts on units with proud laminate fronts: laminate price group 1
- Door and drawer fronts on units with proud wood fronts: wood group 1 veneer
- Lock, keyed random: 9201 Polished Chrome
- Base (see below under required selections)
- Pulls: metal
- Integral pulls on units with flush steel fronts
- Drawer body: black only
- Adjustable shelves on 52"H and 65½"H: paint to match tower
- Brackets for adjustable shelves: black
- Post to support adjustable shelf: paint to match tower
- One box drawer divider and one pencil tray: black only
- Coat rod: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
 - F** Flush steel front
 - P** Proud steel front
 - L** Proud laminate front
 - W** Proud wood front
- 2 Paint color number for tower
- 3 Laminate color number for door and drawer fronts, if proud laminate front selected
- 4 Wood color number for door and drawer fronts, if proud wood front selected
- 5 Base (see below under required selections)
- 6 Pull (see below under required selections)
- 7 Metal color number for pulls, if proud steel, proud laminate, or proud wood front selected
- 8 Options, if selected (see below)
 - See *Surface Materials*, page 366.

	Required Selections	U.S. Price	Required to Specify
Bases	• Universal 3" base	No cost	Specify with <i>Universal 3" base</i> , painted to match tower.
	• FrameOne foot base	+\$286	Specify with <i>FrameOne foot base</i> , painted to match tower.
	• c:scape glide base	+\$286	Specify with <i>c:scape glide base</i> , 4799 Platinum Metallic only.

► Specification Information, on next page

Tip: Laminate and wood veneer tops are $\frac{3}{16}$ " taller than other tops and will add $\frac{3}{16}$ " to overall case height.

Tip: If wood veneer top option is selected, wood veneer top color will default to match wood front.

For wood group 2 and 3 pricing, laminate price group 2, and laminate price group 3 please refer to the electronic catalog or SmartTools.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.

► See *Counterweight Requirements for Storage Products*, pages 7–14.

Tip: The fixed shelf in a 47½" dual door tower also serves as the base of the cabinet. Additional adjustable shelves must be specified separately.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RDD182448LA becomes RDD182448LAF for flush steel front).

**For Canadian Pricing**

Multiply U.S. Price by the Canadian price factor.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required. ► See Counterweight Requirements for Storage Products, pages 7–14.

Tip: 65½"H files with individual lock option do not have a lock in the lift-up door. Lift-up door is locked by the drawer below.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RLF18363 becomes RLF18363F for flush steel front).

Universal Combination Cabinets

With Flush Steel, Proud Steel, Proud Laminate, or Proud Wood Fronts

► Need help?
Product details,
page 90

Standard Includes

- Combination cabinet: paint price group 1
- 1"H top on units with flush steel or proud steel front: paint to match cabinet
- 1 $\frac{3}{16}$ "H top on units with proud laminate front: laminate price group 1 or wood group 1 veneer
- 1 $\frac{3}{16}$ "H top and drawer fronts on units with proud wood front: wood group 1 veneer
- Drawer fronts on units with proud laminate fronts: laminate price group 1
- Integral pulls on units with flush steel front
- Pulls: metal
- Hinged doors on units with flush steel or proud steel front, if selected: paint price group 1
- Hinged doors on units with proud laminate fronts: laminate price group 1
- Hinged doors on units with proud wood fronts, if selected: wood group 1 veneer
- Individual lock on door, keyed random: 9201 Polished Chrome
- Central lock on drawers, keyed random: 9201 Polished Chrome
- One label holder per drawer: clear plastic
- Adjustable shelves: paint to match cabinet
- Brackets for adjustable shelves: black
- Drawer body: black only
- Drawer suspensions: black only
- One hanging folder bar per drawer on 18"D units
- Two rails per drawer on 24"D units
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number with appropriate front style suffix in the space provided
 - F** Flush steel front
 - P** Proud steel front
 - L** Proud laminate front
 - W** Proud wood front
- 2 Paint color number for cabinet
- 3 Laminate color number for drawer fronts and hinged door fronts, if proud laminate front selected
- 4 Wood color number for drawer fronts, hinged door fronts, and top, if proud wood front selected
- 5 Pull (see below under required selections)
- 6 Metal color number for pulls, if proud steel, proud laminate, or proud wood front selected
- 7 Options, if selected (see below)
 - See *Surface Materials*, page 366.

For wood group 2, wood group 3, laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Glass doors ship separately and must be installed on site.

Tip: Glass door pulls are not the same design as drawer pulls. On flush-front cabinets, glass door pull color must be specified. On proud-front cabinets, glass door pull color will default to color selected for drawer pulls.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See *Counterweight Requirements for Storage Products*, pages 7–14.

For Canadian Pricing
Multiply U.S. Price by the Canadian price factor.
► See page 1 for details.

Tip: Height dimension listed is for units with 1" top. Overall height will vary if another top is selected.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RLF18362 becomes RLF18362F for flush steel front).

 **For Canadian Pricing**
Multiply U.S. Price by the
Canadian price factor.
► See page 1 for details.

Universal Bookcases

► Need help?
Product details,
page 96

Standard Includes

- Bookcase: paint price group 1
- 1"H top: paint to match bookcase
- Adjustable shelves: paint to match bookcase
- Brackets for shelves: black
- Four adjustable leveling glides
- Ganging hardware
- Counterweight package, if selected

Required to Specify

- 1 Style number
 - 2 Paint color number for bookcase and counterweight cover, if selected
 - 3 Options, if selected (see below)
- See *Surface Materials*, page 366.

Tip: Security top must not be specified with frosted glass door option.

Tip: Security top reduces overall height by approximately 1".

Tip: Laminate and wood veneer tops are $\frac{3}{16}$ " taller than other tops and will add $\frac{3}{16}$ " to overall case height.

For wood group 2, wood group 3, laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Cover of optional counterweight will match paint color of bookcase.

Tip: Counterweight packages are required to ensure product stability and are ordered as an option or separately. Product specification pages indicate the correct counterweight package for each style number and any exceptions where counterweights are not required.
► See *Counterweight Requirements for Storage Products*, pages 7–14.

Tip: Service part Y30291SR, (paintable black plug), can be ordered to cover the glide adjustment holes in the front of the bookcase.

Specifying Universal File Surrounds

File Surrounds

282

**Universal File
Surrounds**

File Surrounds

For Use with Universal and TS Series Storage

Without back panel

With back panel

Tip: Dimensions of the file surround represent the internal cavity dimensions based on the storage being surrounded. Depth, width, and height are available parametrically.

Tip: Refer to SmartTools for full parametric pricing upcharges and sizes.

Tip: Depth and width are available parametrically by 1/16" increments. Height is specifiable to the fourth decimal place.

Tip: Back panel is only specifiable when end panel left and right is selected.

Tip: A single top is one-section.

Tip: SmartTools will automatically generate the section top option, when available, based on the size specified.

► Need help?

Modular Square Edge Tops

For Use with Flush or Proud Front Products

Tip: See SmartTools for common tops placed over group storage and placed back-to-back to ensure correct sizing for the application.

Tip: Attachment hardware ships with the file cabinet. Additional screws can be ordered from Service Parts: 855010126MP (quantity of 100).

For wood group 2, wood group 3, laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: Your specification is not complete until you add a suffix to the style number to define the front style (for example, RATL1524__ becomes RATL1524F for a top to be used on a flush front unit). No suffix needed for RATCL or RATCW styles.

WorkValet Lockers	310
Adjustable Shelf	328
WorkValet Digilock Keys	330
WorkValet Surrounds	332
WorkValet Accessories	340

WorkValet Lockers

► Need help?
Product details,
page 120

Standard Includes

- Locker: Low-Pressure Laminate price group 1
- Headset: Low-Pressure Laminate price group 1
- Pulls: metal
- Lock face ring with plastic plug to accommodate lock cylinder: 9201 Polished Chrome
- Fixed shelf on one-door units 54"H and taller
- Two coat hooks on 18"D locker, if selected
- One coat rod on 24"D locker, if selected
- 1¼" adjustable leveling glides
- Ganging hardware

Required to Specify

- 1 Style number
 - 2 Depth (see below under Required Selections)
 - 3 Width (see below under Required Selections)
 - 4 Height (see below under Required Selections)
 - 5 Laminate color for locker
 - 6 Laminate color for headset
 - 7 Color number for pull(s)
 - 8 Options, if selected (see below)
- See *Surface Materials*, page 366.

Tip: Widths do not apply to all configurations.

	Required Selections	U.S. Price	Required to Specify
Depth	<ul style="list-style-type: none"> • 18.875"D • 24"D 	Prices at right Prices at right	Specify with 18.875" depth. Specify with 24" depth.
Width	Single wide <ul style="list-style-type: none"> • 12"W • 15"W • 18"W Double wide <ul style="list-style-type: none"> • 24"W • 30"W • 36"W 	Prices at right Prices at right Prices at right Prices at right Prices at right Prices at right	Specify with 12" width. Specify with 15" width. Specify with 18" width. Specify with 24" width. Specify with 30" width. Specify with 36" width.
Height	<ul style="list-style-type: none"> • 41.75"H • 47.9375"H • 54.125"H • 66.5"H • 72"H 	Prices at right Prices at right Prices at right Prices at right Prices at right	Specify with 41.75" height. Specify with 47.9375" height. Specify with 54.125" height. Specify with 66.5" height. Specify with 72" height.

Tip: Heights do not apply to all configurations.

Tip: Lockers have an inset top construction which provides consistent door gaps and a tighter fit of adjacent units when ganged together. Surrounds are available to provide a clean visual, if needed.

For laminate price group 2, and laminate price group 3 pricing, please refer to the electronic catalog or SmartTools.

► Options, continued on next page

Tip: Door can be removed per opening. Door one is the top door, door two is the next lowest door, etc. Door removal will be symmetrical on double columns. For instance, if door three is removed on a double column, the doors on the left and right will be removed.

Tip: Plinth base to be used in network locking applications.

Tip: Pulls are required when standard key plug or master key plug is selected.

Tip: Remember to specify lock cylinder and key.
► Lock cylinders, page 376

Tip: Network locks require plinth base.

Tip: If Digilock Versa or Aspire locks are selected, the Digilock programming key and manager key must be specified separately for proper setup. Additional keys are available.
► Page 330

Tip: Personal shelf and adjustable shelf option is per opening. For example, if one adjustable shelf is optioned on a 3-door unit, three adjustable shelves will be included.

Tip: Mail slot available in 15½"W minimum for single column and 31"W minimum for double column, for all locks except Versa RFID. Minimum width of locker with mail slot and Versa RFID is 16½"W single column and 33"W for double column.

Tip: See configuration rules on page 132.

Tip: Coat rod available on 24"D lockers only regardless of height.

Tip: Pricing is per shelf.
Adjustable shelf option
applies per opening.

**For laminate price
group 2, and laminate
price group 3 pricing,
please refer to the electronic
catalog or SmartTools.**

Standard Shelf Lights

Tip: Daisy chaining shelf lights together extends power from one fixture to another within workstations to help keep receptacles clear for other uses.
 ▶ See page 157 for more information.

Tip: Daisy chaining is not allowed in Chicago. Local electrical codes vary, so you should consult a qualified electrical contractor or engineer for proper installation of all electrical equipment.

Tip: Because shelf lights are usually recessed, black is the standard paint color. Paint colors other than black have an upcharge.

Tip: If an optional paint color is selected for the housing, the electrical switches and end caps will remain black plastic.

Tip: When ordering with standard power cord or Chicago cord, daisy chaining is not possible.

Tip: Remember to order a daisy chain starter cord.
 ▶ See Related Products on next page.

 **For Canadian Pricing**
 Multiply U.S. Price by the Canadian price factor.

Victor2 Tray Shelf and Display

Tray Shelf

Tip: Tray shelf fits most trays up to 20³/₄" x 12".

Tip: Tray shelf cannot be used with the mobile unit.

Tip: Two tray shelves can be used on the freestanding 4 or 5 slot opening. A 15" gap will separate the two tray shelves if used on the freestanding 5 unit.

Tip: Maximum tray storage is 20 food trays.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see steelcase.com/surface-materials.

Surface Materials Binders

include:

- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Paint

► See *Surface Materials Reference Manual* for a listing of available paints for Victor2.

Tip: All products may not be available in all colors listed below.

► See page 371 for an overview of the paint colors available on each component.

Custom Surfaces

Open Line Laminate (OLL)

This service allows you to order non-standard laminate at an additional processing fee of \$102 U.S. per unit, plus the cost of the laminate.

High-Pressure Laminate pricing does not include premium or digitally printed patterns from any suppliers. Laminate cost may also vary for basic or standard laminates from other suppliers. Please contact the OLL consultant at 616.475.2426 for pricing. The cost of the laminate will be added to your invoice as a separate line on the acknowledgement.

When processing orders for Open Line laminate on Universal worksurfaces and Universal Storage tops, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

E = Established

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Applies to:

- Universal Storage tops and fronts
- Universal file surrounds
- High-Density storage
- Overhead storage

Tip: Wood is not offered as a finish on the value package for High-Density storage cases.

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

► See *Surface Materials Reference Manual* for a listing of available veneers for Victor2.

Open-Pore Planked Veneer

3P41 OP Planked Cherry
3P51 OP Planked Maple
3P61 OP Planked Oak
3P71 OP Planked Walnut
3VFX OP Unmarked Oak

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Full-Fill

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on the wood worksurface or field-installed top only.

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is available as Wood Group 3 as part of our Select Surfaces program, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Wood Group 3**Quarter-Cut Open-Pore**

3832	QC/OP Figured Anegre
------	----------------------

E = Established

Select Surfaces**Composite Veneer**

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are available in our Select Surfaces program as Wood Group 1 pricing. Composite veneers are not available on Answer trims.

Wood Group 1**Flat-Cut Open-Pore**

3JDX	FC/OP Oak Composite
3JJX	FC/OP Walnut Composite

3HGX	QC/OP Oak Composite
3HVX	QC/OP Walnut Composite
3ZNX	QC/OP Night Cerused Oak Composite

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer. A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed. In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable. Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate. Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Plastic**Steelcase Surfaces**

Applies to:

- 1 mm square edge profile on Universal Storage laminate tops
- .5 mm, 1 mm, or 3 mm square edge on Universal file surrounds

Specification Guidelines for Directional Fabrics and Grain Direction

Warp Horizontal

The standard application direction of fabric is warp horizontal. Standard Steelcase fabrics were designed for this application direction.

Warp Vertical

The optional application direction of fabrics is warp vertical. This is most commonly used on COMs designed for warp vertical application.

For more information about the warp direction of fabrics, see the *Surface Materials Reference Manual*.

Grain Direction

WorkValet Lockers

Single Column

Double Column

Expressed toe-kick will be grain matched with the headset.

Plinth covers span multiple lockers and have a horizontal grain direction.

WorkValet Cladding

Top panel default is long grain direction. Short grain direction option only on widths of 48" or less for woodgrain laminate and textured laminate.

End panel default is long grain direction. Short grain direction option only on heights of 48" or less for woodgrain laminate and textured laminate.

Back panel laminate grain direction will be horizontal when height is $\leq 48"$ H. Grain direction will be vertical when the height is greater than 48".

Lock and Keying Options

Universal Steel Storage, TS Series Storage, and High-Density Storage

All locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Exceptions: Individual locking drawers are only available with field-installed locks.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available — the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.

► See example at right.

Key Random

Required to Specify

Master key random	+\$36	Specify with master key random.
--------------------------	-------	---------------------------------

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship with a plastic plug in place of the lock cylinder.

Tip: For products with optional lock colors, make sure to specify the color for both the lock and lock face ring.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Three keying choices are available for field installation — random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification.

► See below.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR	FR320
5	LOCK9201FR	FR350
15	LOCK9201XF	XF1100
30	Total	
1	877102003SR	standard lock tool
1	877102002SR	master lock tool

Key Random

Key Specific

Key Consecutive

Lock Cylinders

Tip: Lock price is included in price of furniture with locks.

Tip: For replacement lock cylinders, refer to Service Parts.

Tip: You can change lock cylinders in the field by using the appropriate lock tool.

Standard Includes		Required to Specify
<ul style="list-style-type: none"> Lock cylinder, keyed random: 9201 Polished Chrome or 9250 Ember Chrome Two keys 		1 Style number 2 Options, if selected (see below)

Options	U.S. Price	Required to Specify
Key specific	No cost	Select key number from FR305–FR454.
Key consecutive	No cost	Specify <i>key consecutive</i> and must select beginning key number from FR305–FR454.
Master key random	+\$36 each	Specify master key random.
Master key specific	+\$36 each	Specify key number from XF1001–XF1150.
Master key consecutive	+\$36 each	Specify <i>master key consecutive</i> and must select beginning key number from XF1001–XF1150.
