## **Timeless And Elegant.**

A crisp contemporary  
aesthetic with a slender  
tapering profile.

————— People continue to be fascinated by the innovative design of the 3-seat extension sofa. The easy to manipulate arm extension has made this sofa one of our all-time best sellers. European design is well represented in the fantastic double needle stitch detail and sexy satin finish steel legs.

————— Switch side seating creates the perfect complement to Switch lounge seating offering an assortment of options to satisfy whatever the environment demands. The same attention to detail, emphasis on design, and simple elegance found in Switch Lounge is prevalent in the side seating collection.

———— Demand is high for barstools and we round out this collection with two – Switch bar height and café height stools. The barstools are armless only. This allows for ease of accessibility.

———— Rounding out this designer collection is a series of glass top tables. The trivalent satin chrome frame reflects the same design aesthetic found in the legs of the Switch lounge seating.
