

Wall-mount Tapered Table

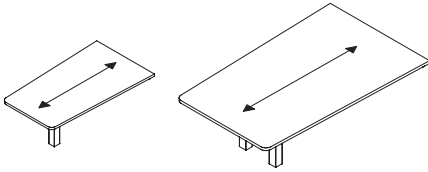

Single support
(48" – 78"W have one inset support leg)

Dual support
(96"W and 120"W have an additional inset support leg for stability)

Details

- Standard top is 1.5" thick but can be made in thinner material
- We can accommodate other sizes, simply reach out to us at studiob@steelcase.com
- Works well in an open or enclosed meeting space
- Typical lead time is 6-8 weeks depending on material availability
- Grain direction – options based on application. Default is shown below.

Surface Materials

The Wall-mount Tapered Table is available in all Steelcase Standard PG1-PG3 laminates. If you are interested in veneer, please reach out to studiob@steelcase.com and we can talk pricing and lead time.

FAQs

Can I get other finishes on this table?

Certainly. It was originally developed as a custom table, but you can leverage the Style Number and ask Specials for a different finish. If you are interested in veneer, please contact us and we can talk pricing and lead time.

What kind of wall can this table attach to?

This table would mount into the studs of a structural wall. This table can not be attached to a demountable wall.

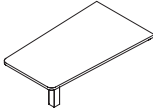

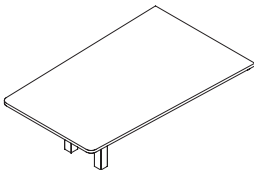

How tall is the unit?

29" to the top of the work surface.

Can I add surface power?

Certainly. Just let us know where you want power, and we can accommodate.
