X-tenz™ and Double X-tenz™
sleeper seating

Steelcase
HEALTH

Space Maximizer

Versatile and comfortable, X-tenz™ and Double X-tenz™ sleeper seating welcomes families in patient rooms, helping keep these supporters near the patient throughout the healthcare journey. By day, X-tenz provides seating and allows space for movement around the room. By night, it opens to provide a full-length sleeping surface. X-tenz is a smart solution for small spaces and underutilized areas, such as beneath a window or between columns. Optional casters for the single X-tenz add mobility to ease cleaning and room configuration.

IM# 15-0013045 | SM: X-TENZ DOUBLE SLEEPER WITH UPHOLSTERED ARMS (STEELCASE STAND IN PARSLEY, CLEAR MAPLE); MITRA ROUND DRUM TABLE (CLEAR MAPLE)

INSIGHT

Having supportive family or friends nearby can reduce anxiety for patients and help them receive important care information from clinicians. To suit a variety of users and spaces, overnight accommodations should be easy to use and flexible in configuration.

IM#: 15-0013046

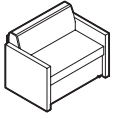

Sleeps One or Two

Single X-tenz opens to the left or right. Double X-tenz opens forward and converts into a full-size double bed, or it can be opened on one side only, creating a chaise lounge for seated relaxation.

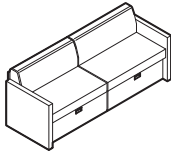

Simple Conversion

The X-tenz sleep surface extends on a rolling carriage frame that allows one or two overnight guests to sleep comfortably – and stays conveniently stowed away when not in use.

STATEMENT OF LINE

Single sleeper

Double sleeper

DIMENSIONS

	Single	Double
Overall depth	31"	31"
Overall width	45"	84 3/4"
Extended width	84"	N/A
Extended depth	N/A	55 5/8"
Overall height*	35"	35"
Seat depth with bolsters	20"	20"
Seat depth without bolsters	29"	29"
Seat height*	20"	20"
Mattress thickness	5"	5"
Sleep surface	27"D x 80"W x 14 1/2"H	54"D x 80"W x 14 1/2"H

*Casters on single sleeper add 1/2" to measurement

FEATURES AND BENEFITS

- Sleep surface is separate from sitting surface and is exposed by pulling the unit open and flipping the double-layer seat cushion
- Steel frame and joints are designed to withstand the rigors of a 24/7 healthcare environment
- Laminate back and front kick panels are available in a variety of attractive woodgrain finishes
- Optional moisture barrier and wood or plastisol arm caps enhance cleanability and lifespan
- Single X-tenz is available with glides or casters; Double X-tenz comes standard with glides

SUSTAINABILITY

PEOPLE. PLANET. PROFIT.

By rethinking our business systems and designing our products to avoid negative impacts on humans and the environment, we contribute to a sustainable future for the planet and its people. We commit to advance our practices through continuous learning and building partnerships with our customers, business partners and environmental thought leaders to optimize our performance and contribute to the science and practice of sustainability.

X-tenz is made with 36% recycled content, is designed to withstand the demands of healthcare cleaning protocols and is 81% recyclable at the end of its long lifespan. It may contribute to LEED certification for recycled content, regional materials, indoor environmental air quality, furniture and medical furnishings, and sustainable purchasing.

SCS Indoor Advantage™ Gold certified for indoor air quality in North America

Meets the Healthier Hospitals Safer Chemical Challenge
