Steelcase Workplace Advisor
2019.01.25
Platform Release Notes

This document contains release notes for Workplace Advisor Subscription

01/25/2019

DOWNLOADS AND DOCUMENTATION

WHAT'S NEW
- See data faster with improved loading speed and performance on the Workplace Advisor Dashboard
  - Removal of expand/collapse icon on Workplace Advisor Dashboard (click-thru navigation)
- Clearer terminology by changing Efficiency to Efficiency While Occupied (EWO) on the Space Details page
  - Consistent with Workplace Advisor Study
- Quickly understand the Efficiency While Occupied data of a space with its own donut chart on the top of the Space Details page
- Make changes to your space details page easier with new editable fields for the Space Name and Calendar Email
- Faster navigation through the dashboard with Filters that stay applied while drilling down into locations, so you don't have to re-apply filters.

OPEN DEFECTS / TIPS
- Spaces that have not been updated with the appropriate "Space Type" in the Space Details are calculated as Rooms.
  - Tip: Update the Space type to "Open Plan" if the space is not a "Room".
- Paired sensors intermittently do not show as paired in device manager.
  - Tip: Refresh to update data
- Pop-up Ad-blocker in Chrome can block the "Export CSV"
  - Tip: Allow pop-up from Workplace Advisor

08/10/2018

DOWNLOADS AND DOCUMENTATION

WHAT'S NEW
- Changed Bookable to Reservable; 'Peak Usage' to 'Peak Period'; and Utilization to '% Time Occupied'

DEFECT FIXES

- Fixed Event Duration chart to display all events
- Ensured that WPA does not seize when quickly selecting objects
- Resolved a defect with the Date/Time selector that caused the UI to seize
- Enforced consistency among spaces; if a space has some but not all of their sensors offline it will display their status as Yellow
- Minor UI alignment and consistency across WPA

OPEN DEFECTS / TIPS

- Spaces that have not been updated with the appropriate "Space Type" in the Space Details are calculated as Rooms.
  - Tip: Update the Space type if the space is not a room.
- Paired sensors intermittently do not automatically show as paired in device manager.
  - Tip: Refresh to update data
- Pop-up Ad-blocker in Chrome can block the "Export CSV"
  - Tip: Allow pop-up from WPA
